WINTER WHEAT—Was quotably about 1c lower, holding steady compared with futures. A light milling demand existed and sales of 15,000 bu of mixed lots reported besides the few cars of fresh arrivals. So little doing it is difficult to establish quotations. No. 2 Red in store nominally $1 10⅜@1 12⅛, and fresh arrivals free on board at $1 13@1 14. No. 3 Red fresh receipts sold at $1 13, and quotable at $1 08@1 13. No. 2 Hard in store quotable at $1 04⅝@1 06⅜ and fresh arrivals at $1 08@1 10. No 3 Hard nominally $1 0-@1 08. No. 4 Hard sold at 70c

SPRING WHEAT—Was quiet and so little doing it was difficult to establish quotations. However the feeling was weaker and prices 1c lower. Choice Wheat was salable, but poor Wheat was dull. No. 1 Northern fresh arrivals free on board quotable at $1 15@1 18. No. 2 Northern quotable at $1 13@1 13. No. 3 Spring was quotable at $1 02@1 10. No. 4 Spring free on board sold at 90@96c and was quotable at 60c@$1 00 for poor to choice

REGULAR WHEAT—December was particularly depressed, showing a loss of 1½c for the day. It was on sale by the "longs," who doubtless fear the deliveries on Dec 1. May was weak, too, losing ⅝c and July was off ¼c. Cash sales were 15,000 bu (mixed lots) at Chicago and 5 loads at the seaboard. Early in the session it looked as if the "bulls" would gain control of the market on the unsettled weather in Argentina, with rain and fear of a strike among the dock hands in the leading markets of that country. It was also said in the way of a "bullish" help that the head of a local elevator and Grain concern at Chicago was in St. Louis, and that the buying orders coming from that market were on his account. But the "bears" had Wheat for sale in lots to suit and they were willing to accept lower prices. The news from Argentina was doubtless a little colored in some instances. A private message from there said that the Wheat crop had not been injured in the least by the weather. The "bears" had considerable behind them in the way of ammunition. The Northwestern receipts were 320 cars in excess of a year ago. Primary receipts were larger than a year ago. Advices from both Duluth and Minneapolis told of the dull cash Wheat trade at both those points. Cables were mainly lower. Liverpool ⅛c, Buda Pesth ½c and Berlin ¾c. London and Antwerp were unchanged in price. Paris was up ½c. World's shipments were estimated by *Broomhall* at 8,800,000 bu, while the official figures were 11,880,000 bu, against 11,578,000 bu a week ago and 10,328,000 bu a year ago. The amount on ocean passage showed an increase of 376,000 bu, making the total 39,600,000 bu, compared with 39,221,000 bu the week before and 25,632,000 bu a year ago. Local public stocks decreased 3,100 bu for the week, leaving the total 1,670,000 bu, against 1,673,000 bu the week before, and 2,373,000 bu one year ago. The visible supply increased 2,196,000 bu for the week, making the total 35,595,000 bu, against 33,399,000 bu the week before and 30,140,000 bu a year ago. Liverpool stocks increased 160,000 bu for the week, making the total 4,976,000 bu, compared with 4,816,000 bu last week, and 3,072,000 bu last year. Receipts at Duluth 276 cars at Minneapolis 1,185 cars, a total of 1,461 cars, against 660 cars Saturday, 1,307 cars a week ago, and 1,041 cars last year. Local receipts included 45 cars Winter, 7 cars Spring and no cars mixed, total of 52 cars, against '38 cars last year. Included in above were no cars contract grade. There were also 16 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 82 cars. The withdrawals were 8,100 bu. Receipts at Western points were 1,547,210 bu, against 1,545,928 bu last year. At Eastern points 111,431 bu, against 315,410 last year. Shipments from Western points 731,654 bu, against 1,250,403 last year and from Eastern points no bu, against 374,229 bu last year. Shipments of Flour were 23,170 brls. Exports of Wheat in Flour were equal to 104,265 bu.

Future Deliveries of Regular Wheat—A fair trade and lower prices.

NOVEMBER—Entirely nominal, closing about $1 07⅝.

DECEMBER—Sold at $1 06⅞@1 08⅝. Opened with sales at $1 08⅝ to $1 08⅜; sold to $1 08⅜, to $1 07¾, to $1 08, to $1 07⅝, to $1 08, to $1 07⅞, to $1 07⅜, to $1 06⅞ to $1 07⅛, to $1 07½, to $1 07⅝, and closed at $1.07⅝ sellers.

MAY—Sold at $1 08⅝@1 09⅞. Opened with sales at $1 09⅝ to $1 09¾@1 09⅞; sold to $1 09¾, to $1 09⅞, to $1 09½, to $1 09¾, to $1 09, to $1 09¼, to $1 08⅞, to $1 09¼, to $1 08⅝, to $1 09⅛, to $1 09⅜, to $1 09⅛, to $1 09⅜, to $1 09¼@1 09⅜, and closed at $1 09¼@1 09⅜c bid.

JULY—Sold at 97½@98⅝c. Opened at 98⅜c to 98⅝c; sold to 97¾c, to 98c, to 97⅞c, to 98⅛c, to 97½c. to 98½@98⅝c, and closed at 98½@98⅝c.

CORN—This market held up fairly well gaining ⅛@¼c for the day. Cash sales were 50,000 bu at Chicago and three boat loads at the seaboard. Considerable Corn was sold against country acceptances on bids sent out Saturday—probably 500,000 bu—reflecting a larger movement in the near future. Trade on the whole was only moderate, with considerable December and May for sale by "longs." World's shipments were 2,867,000 bu, compared with 3,034,000 bu the week before and 4,212,000 bu a year ago. The on passage statement showed an increase of 154,000 bu, making the total 19,157,000 bu, against 19,003,000 the week before and 16,694,000 bu corresponding time one year ago. The visible supply increased 360,000 bu, the total now being 1,853,000 bu, compared with 1,493,000 bu the week before and 5,867,000 bu a year ago. Chicago stocks increased 6,000 bu for the week, making the total 271,000 bu, against 265,000 bu the week before and 850,000 bu a year ago. Local receipts of Corn were 471 cars, with none of it contract. Primary receipts were 881,000 bu, against 530,000 bu a year ago. Clearances were 9,720 bu. Car lots were in large supply and demand only fair. Prices ½@1c lower. No. 2 closed at 50½c. No. 2 Yellow closed at 56c. No. 3 closed at 46c for new. No. 3 Yellow sold at 46½@47c and closed at 46½c for new. No. 4 sold at 45c for yellow. No Grade sold at 42½c for yellow.

Corn by sample—Was in large supply and demand good. Feeling weak and prices ½@1c lower. Sales on track and free on board: No Grade sold at 30@43c. No. 4 at 44½@48c. No. 3 at 46½@50c. No. 3 Yellow at 46½@47c for new and 55½c for old. No. 2 Yellow at 52½c. No. 3 White at 46½@46¾c. Billed through: No Grade at 40@43c. No. 4 at 43@44½c. No. 3 at 45@45¾c. No. 3 Yellow at 45½@46c for new and 54½c for old. No. 3 White at 45@45¾c.

Future Deliveries of No. 2 Corn—Generally easy but the close showed advances for day of ⅛@¼c.

NOVEMBER—Closed at 49⅞c nominal.

DECEMBER—Sold at 48½@49c. Opened at 48¾c to 48⅞c, sold to 49c, to 48¾c, to 48⅞c, to 48½c, to 48⅞c, to 48⅝c, to 49c, closing at 48⅞@49c bid.

JANUARY—Sold at 44⅜@44¾c. Opened at 44½c, sold to 44⅜c, to 44¾c, closing at latter bid.

MAY—Sold at 45⅝c to 45⅞@46c. Opened at 45⅞c to 45¾@45⅞c, sold to 45⅝c, to 45¾c, to 45⅝c. to 45⅞@46c, and closed with sellers at latter.

JULY—Sold at 45⅝@45¾c to 46c. Opened at 45⅞c, sold to 45⅝@45¾c, to 46c, closing at latter price.

OATS—Were traded in moderately and closed ⅛@¼c lower. Cash houses were on both sides of the market. December was the weakest. May had fair support, but July was neglected. Local stocks in public houses decreased 29,000 bu, and are 5,225,000 bu. The visible supply decreased 92,000 bu, against an increase of 276,000 bu last year. Arrivals were 65 cars, with 162 cars expected to-morrow. Withdrawals were 13,500 bu, and seaboard clearances 255 bu. Cash sales were 50,600 bu. Car lots to go to store were steady to 1c lower. No. 3 White sold at 30½@30¾c. Standard in store closed about 30⅛c.

Oats by sample were ½@1c lower for poor, but steady for good. Offerings were moderate. Sales on track and free on board: No. 4 White sold at 30½c. No. 3 at 30c. No. 3 White at 30½@32c. Standard at 31¼@32¼c. No. 2 at 30@30½c. No. 2 White at 32c. Billed through: No. 4 White at 28c. No. 3 White at 31¼c. Standard at 31¼@31½c. No. 2 at 29¾c. No. 2 White at 31¼@31½c. At the river: No. 4 White at 27@29½c. No. 3 White at 29¼@30c.

Future Deliveries of Contract Oats—Were slow and easier.

NOVEMBER—Neglected; closed about 30⅛c.

DECEMBER—Sold at 29⅛@29⅜c. Opened at 29¼c, sold to 29⅜c, to 29⅛c at close.

MAY—Moderate trading. Sold at 31⅜c and at 31½@31⅝c. Opened at 31⅜c to 31½c, sold to 31½@31⅝c, to 31⅜c, to 31⅜@31½c at close.

JULY—Slow at 31½@31⅝c. Closed at 31½c.

RYE—Weaker and prices 1c lower. At the decline the car lots of fresh arrivals were taken by speculators and manufacturing industries but futures were neglected. There were three cars received and 10 cars withdrawn from private warehouse. No exports from New York. The visible supply decreased 59,000 bu and local stock decreased 5,000 bu. No. 2 in store nominally 77c and fresh arrivals free on board sold at 78@79½c. No. 3 sold at 74c and No. 4 at 70@73c.

Future Deliveries of No. 2 Rye—Neglected. December 77c asked and May 79c asked

BARLEY—An easy feeling was experienced. More Barley was offered and attendance of buyers was smaller. To-day's postings gave only 30 cars but 70 cars were reported for to-morrow. Latter quantity, except such as was placed on to-arrive sales came on the market to-day. Several of the buyers for malting account took little or were absent entirely. The buyers remaining asked for concessions and got them on all but the cheaper malting grade, which did not change. Grades above were quoted all the way from not materially changed to ½@1c lower. Feed Barley scarce and also little called for; some contracts have been filled and in such cases buyers are out. Common cars of Screenings very slow; good to choice cars salable. Market for Screenings quotable over a range of 26@38c for poor dirty to very choice. Barley—low-grade feed, about 38c local and sold at 36c at the river. Malting, low grade small berry, or heavy but dirty, quotable at 39@41c; clean, fair to good, at 42@45c, and large berry, heavy, quotable at 46@48c, with choice to fancy 49@51c.

SEEDS—A slightly easier speculative Timothy market was about the only feature of news. The trade in all lines was of a light order.

Timothy—Little cash Seed was offered. The market for this ruled firm, possibly slightly better, but with little doing there could nothing develop. March delivery started with fair sales at last week's final quotation, more was offered and a later sale at 2½c reduction suggested an easier feeling finally. Contract spot Seed was quoted as nominally $2 70 and January at $2 75. March sold at $2 87½ to $2 85 and closed at $2 87½ asked. Country lots were quotable at $1 75@2 50 for low grade to fancy; inferior lower; fair to good, $2 40@2 50, and rough, dirty or hulled, $2 25@2 35.

Flax—There was no change. A few cars and a round lot by lake came in, but there was no Flax offered aside from a car or so. Flax was salable at former prices and yet the market was without special demand. Futures entirely neglected. Local receipts by rail 3 cars or 2,700 bu, by lake 90,000 bu, total 92,700 bu. Taken out only 2 cars or 2,000 bu. Local stock remains undisturbed, being reported as 16,617 bu, against 83,757 bu a year ago. Minneapolis receipts 110 cars and Duluth got 258 cars. No 1 Northwestern sold sparingly at $1 10, and No 1 quotable at $1 12. Rejected depending on quality, quotable at $1 09@1 16. November and December both were nominally $1 11½ and May at $1 20.

Clover—Was called steady and firm. Advices from outside were all on the side of strength. No Clover was offered here. General market said to be quiet and prices unchanged. Contract grade, spot nominal at $12 25. Country lots, common to choice, $7 00@$12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00

Other Seeds—The several lines were salable at former prices, but the market being without offerings it could not be otherwise than inactive. Hungarian quotable at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice. German at 90c@$1 25. Siberian at 60@80c. Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c. Mustard about 75c@$1 10. Buckwheat, good milling, quotable at $1 25

HOG PRODUCTS—Considerable interest was manifested in the market for Hog Products, and the feeling was somewhat unsettled. Hogs were in liberal supply and lower, and the Grain markets were easier. Outside orders were fair, with a larger proportion on the selling side, and local trading was fair. Market opened rather easy, and a few sales were made at slightly reduced prices. Later, there was a little miscellaneous buying, and prices rallied slightly. At the improvement there was some pressure to sell, and the market lacked support. A weak feeling was developed, and prices declined materially on all the leading articles, and the undertone to the market was rather easy at the close. Packers credited with selling fair quantities, especially late in the day. Trading chiefly in the more deferred deliveries. Receipts of Hogs at the leading Western packing points were estimated at 91,300, compared with 58,000 a year ago. Foreign markets were stronger and Liverpool quotations were advanced 1s on Hams and Cumberland Sides. Domestic markets steadier. Exports for the week exhibited decreases of 160 brls Pork and 4,703,000 lbs Lard and an increase of 1,323 boxes Meats. Receipts of Products were liberal—of Lard and Meats about 31 cars. Shipments were smaller—of Lard and Meats about 72 cars. Demand on shipping account was moderate and offerings were not very large. Buyers a little backward and sellers a little independent in their views. Sales small and prices steady.

Mess Pork—Trade was quite active in the market for Mess Pork, and the feeling was unsettled and prices irregular. Offerings were moderately free, and the demand was fair. January and May deliveries met with most favor. Market opened rather easy, and a few trades were made at 2½@5c decline. Later, the feeling was stronger with fair miscellaneous buying, and prices rallied 10@15c. At the improvement, the offerings were materially increased, and a weak feeling was developed. Prices receded 17½@20c, and the market closed comparatively steady around inside figures. Shipping demand was light, and offerings were moderate. Cash lots quotable at $11 50@11 60.

NOVEMBER—Quiet and quotable at $11 47½.

DECEMBER—Quiet and sold early at $11 65. Closed nominally at $11 47½.

JANUARY—In fair request and offerings were moderately free. Sales were made at $12 80@13 10. Opened at $12 90, sold to $12 95, to $12 92½, to $13 00, to $12 80, to $12 85, to $12 80, and closed steady.

MAY—Offerings were rather liberal, and the demand was fair. Sales were made at $12 92½@13 15. Opened at $13 00, sold to $13 10, to $13 07½, to $13 10, to $13 07½, to $13 15, to $12 95, to $13 00, to $12 92½@12 95, and closed steady.

Lard—A fair business was reported in the Lard market, and the feeling was easier. Offerings were moderately free, and the demand was fair. Foreign advices were unchanged. Prices on the whole range ruled 5@7½c lower, and the market closed comparatively steady around inside figures. Demand on shipping account was limited, with light offerings. Cash lots were quiet at about November figures, closing at about $7 00. Loose lots in moderate request, with fair offerings. Prices were quotable at 45c discount on January figures. Leaf Lard was in moderate demand, with fair offerings. Prices quotably lower at $6 62½. Neutral in light demand, with only fair offerings. Prices quotably steady at $8 00@8 12½ for No 1, and $7 50@7 62½ for No. 2.

NOVEMBER—Quiet and quotable at $7 00.

DECEMBER—Quiet and sold sparingly at $6 95.

JANUARY—Called for moderately, and offerings were fair. Sales were made at $7 02½@7 10. Opened at $7 10, sold to $7 02½, and closed steady.

MAY—Offerings were fair, and the demand was moderate. Sales were made at $7 22½@7 27½. Opened at $7 27½, sold to $7 25, to $7 27½, to $7 22½, and closed steady.

Short Rib Sides—Rather a good business was transacted in Short Rib Sides, and the feeling was easier. Offerings were rather free, especially by packers toward the close, and the demand was fair. Trading was confined to the deferred deliveries. Market opened rather steady, but a little pressure to sell caused a decline of 2½@5c. Later, the market was stronger, with fair buying, and prices rallied 5@7½c. During the latter part of the session, the feeling was easier, and prices declined 7½@10c, and the market closed steady around inside figures. Demand on shipping account was moderate, and offerings were rather light. Cash lots quotable at $6 62½@6 75 according to weight and age.

NOVEMBER—Inactive and prices nominal.

JANUARY—In fair request and offerings were moderately free. Sales were made at $6 55@6 65. Opened at $6 65, sold to $6 62½, to $6 65, to $6 55@6 57½, to $6 60, to $6 55@6 57½, and closed steady

MAY—Offerings were quite liberal and the demand was fair. Sales were made at $6 72½@6 85. Opened at $6 77½ to $6 80, sold to $6 77½@6 80, to $6 82½, to $6 80, to $6 85, to $6 75, to $6 80, to $6 72½@6 75, and closed steady.

JULY—Quiet and steady. Sold at $6 90.

Other Meats—Trade only moderate and the feeling was steady. Domestic demand was only fair, and orders from abroad were limited. Offerings of all kinds were not very large. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices were unchanged. Dry Salted Meats in fair request, with moderate offerings, and prices ruled steady. Smoked Meats called for moderately, and prices were unchanged. Closing prices were as follows:

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Nov 15.]

United Kingdom—The rains which fell last week were most seasonable and welcome and were of much benefit to the new seedlings The moisture hastened the germination of the crops already sown and put the land, in places where it had hitherto been too dry, into good condition for sowing The official average price of English Wheat last week was 3d lower than in the week preceding However, it is well known that these official figures are not very closely up-to-date, and as a matter of fact reports from the various markets last week were steady to firm, with occasionally a small advance quoted at the close. Supplies are generally quite moderate.

Russia—Wintry weather has set in both in the North and South. Latest crop news is quite favorable There have been good falls of rain in many parts and the condition of the new crops is reported to be quite satisfactory throughout the country. The wintry weather may hasten the close of navigation on the Sea of Azoff, which, in any case is due within a fortnight. Reports as to supplies are conflicting, for while it is stated that immense quantities of Grain are in transit by railway, yet we have received several reports saying that arrivals at the ports are quite moderate. Port stocks are liberal, immense quantities continue to be shipped, and the movement is sure to be maintained on a big scale for another week or two The Central Statistical Committee has issued its final estimate of the winter crops last harvested, making Wheat 25,500,000 qrs, against 21,693,000 qrs in 1903, Rye 115,360,000 qrs, against 103,768,000 qrs.

Roumania—Braila reports that the weather continues fine and very favorable for field work. It is estimated that the area under Wheat has been increased 30 per cent but this may not show in the official returns because growers will not make full returns in order to avoid taxation Interior stocks are reported to be small, but there are fairly large quantities at Braila and one or two Upper Danubian ports

Austria-Hungary—It is confirmed that the young crops have generally made a good start.

Argentina Some frost has occurred in one Southern district, but our agent at Buenos Ayres cables that it did no harm because the crop there is not yet headed He cables further that the weather continues favorable and that his advices of splendid crop prospects have been officially confirmed Shipments of Wheat last week were smaller, Corn very large.

Australia—Our Adelaide cable of last Saturday again reported favorable weather conditions for the harvest, which is now commencing It is quite evident, too, from the chartering that the crop prospects are well maintained, but this, of course, does not mean that the surplus will be anything like the record quantity obtained from last year's crop.

India—Crop prospects keep satisfactory, and shipments are still very large. A report just received by us from Agra says the monsoon was the best known for several years, but the rains came in July and August and finished very early. Indian mills are doing a good trade

France—Crop reports have been more favorable since the rains came, but we hear that complaints are still being received from reliable quarters, and these are certainly in harmony with the great steadiness of provincial markets.

Germany Heavy rains fell last week, but the weather turned colder towards the end. Most reports say that native Wheat is less freely offered, but some ascribe this to growers being still busy with autumn field work.

Spain—This grower is still in want of rain to give the new crops a satisfactory start.

Italy—Wheat seeding was almost completed in the North by the end of October and was well advanced elsewhere at that date.

North Africa—Latest reports from Tunis and Algeria continue to mention good rains and excellent seeding prospects. Supplies from the last harvest have not been at all plentiful so far, and it appears that the yields were disappointing.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 12 to 38; light but general snows. Northwest—Temperatures, 22 to 48; partly cloudy. West—Temperatures, 26 to 48; partly cloudy. Southwest—Temperatures, 28 to 50. Ohio Valley—Temperatures, 20 to 32; partly cloudy. Dry in all directions. No indication of rain or snow except Northwest.

The weather forecast for 36 hours is. Minnesota—Threatening, with rain or snow to-night and possibly east section Tuesday; cooler west and south Tuesday; brisk south to west winds. North Dakota—Snow flurries, cooler to-night and colder and fair Tuesday South Dakota, Nebraska and Kansas—Partly cloudy to-night and Tuesday; colder Tuesday and in west portion to-night. Missouri—Partly cloudy to-night and Tuesday; warmer to-night. Indiana—Showers. Illinois—Showers to night and Tuesday; rising temperatures to-night. Iowa—Threatening with showers to-night and possibly in east portion Tuesday; cooler in west Tuesday; brisk winds shifting from westerly to southerly.

ITEMS OF GENERAL INTEREST.

The Hocking Valley statement for October shows but trifling changes in every item.

The *Orange Judd Farmer* estimates the crop of Broom Corn for 1904 at 20,400 tons, compared with 15,600 tons in 1903.

The *Orange Judd Farmer* estimates the crop of Flax Seed for 1904 at 22,190,000 bu, compared with 26,639,000 bu in 1903.

New Jersey Central for October shows a small falling off in gross. A decrease in operating expenses led to a slight gain in net.

It is reported that water is being sold in Kentucky on account of the drouth, at 75c per brl. They may have to resort to "home products "

The Montana Co-operative Ranch Company was placed in the hands of a receiver, Friday, at Great Falls, Mont., with assets of $65,000 and liabilities of $20,000.

Business failures in the United States and Canada for the past week were 244, against 244 the previous week and 272 for the corresponding week last year.

The Long Island Railroad for the year ended June 30 shows an increase of between 5 and 6 per cent in gross, but a heavy increase in operating caused a loss in net of $101,917.

A receiver was appointed, Friday, for the Blue Grass Consolidated Traction Company, which was organized several years ago with a capital of $7,000,000, to build electric lines from Lexington, Ky., to nine neighboring cities, but failed to secure financial backing

Best Beeves sold at Chicago during the week at $7 15, against $6 90 the previous week, $5 75 a year ago, $7 75 two years ago, and $7 00 three years ago. Average cost price of good Beef Cattle the past week $5 00, against $1 90 the previous week, $4 65 a year ago, and $5 15 two years ago.

An order was issued, Friday, at Butte, Mont., revoking the restraining order of a week ago, enjoining F. Augustus Heinze from working the $10,000,000 Minnie Healy Copper mine, as the result of a suit by the Amalgamated Copper Company, to recover $5,000,000 for alleged stolen ore

A ruling has been made that American bottoms may take Canadian Wheat to hold at Buffalo for the winter if the cargo is bonded. A United States inspector will have to be in charge of the vessel. It is said to be likely that considerable Wheat will be shipped that way this fall, as Canadian boats are scarce, and there is a great deal of this Grain to go forward before the close of navigation.

Application has been made to the New York Stock Exchange to list $1,000,000 additional first mortgage 4 per cent bonds of 1927 of the Milwaukee Gas Light Company, $2,000,000 additional first and refunding mortgage 4½ per cent fifty-year bonds of 1951 of the Connecticut Railway and Lighting Company, and $10,000,000 preferred stock and $17,110 common stock of the Southern Pacific Company.

The conversion of the Oregon Short Line 4 per cent and participating mortgage bonds into the 4 per cent bonds guaranteed by the Union Pacific Railroad, the opportunity for which expired on Wednesday, was general. The usual percentage of holders forgot or overlooked their option, but only one holder was heard from as being opposed to the conversion. There was every inducement to convert, because by selling the new bonds in the open market about 1 per cent more was obtained than would be forthcoming when the bonds are paid off Feb 1

The New York Central is surveying a route for a new road from a point on its New York and Albany division to connect with the Boston and Albany Railroad and thus establish a short line between New York and Boston. This is taken as an indication that an understanding has been reached between the New York Central and Pennsylvania railroads that will enable the latter to fight the New York and New Haven management for entering the anthracite Coal region by purchasing the Ontario and Western Railroad. It is believed the Pennsylvania will assist the New York Central financially in the project and will enter into an agreement to divert its New England business to that road With its new New York terminal facilities it will be an easy matter for the Pennsylvania to become allied with the New York Central, and a direct line from New York to Boston could be completed as soon as the Pennsylvania is ready to use its New York terminals.

Local Securities were liberally traded in and prices moved irregularly. Can was actively bought and preferred gained 2 points, while common held steady. Gains were also made in Biscuit preferred, Box Board, Brick and Metropolitan Elevated common. The weak spots were Diamond Match, Shipbuilding common, and Union Traction common, the latter losing 2 points.

Stocks in New York were irregular owing to liberal profit taking. The feature was the great absorbtive ability shown by the market and the small losses of most of the active Stocks. The big gains were in Federal Steel, Toledo, Peoria and Western, Sugar, United States Steel and Cast Iron Pipe, Gas, and New York Central. Money 3½ per cent.

Roumania—The crops have a good snow covering and stocks are accumulating. Russia—The weather is milder in the South and the snow is thawing. Otherwise conditions are satisfactory. Bulgaria—The outlook is favorable. North Africa—Good rain has fallen. France—There has been some snow and rain. Crop is rather unsatisfactory. Australia—Chartering of cargo room still continues. India—Reports are favorable."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate and market steady as recently quoted.

WINTER WHEAT—Soft Winter Wheat was quoted steady and in fair demand, but other descriptions dull and fully 1c lower at the close. Trading to-day limited to a few cars of fresh arrivals. No 2 Red in store nominally $1 10@1 11⅛, and fresh arrivals free on board nominally $1 13@1 14. No. 3 Red sold at $1 10, and was quotable at $1 06@1 13—outside choice. No. 2 Hard in store nominally at $1 04½@1 05⅞ and fresh arrivals free on board $1 08@1 10. No. 3 Hard fresh arrivals free on board quotable at $1 0.@1 08 and sold at the river at 99½c. No 4 Hard at the river sold at 90½c.

SPRING WHEAT—Was quiet and so little doing it was difficult to establish quotations. However, the feeling was weaker and closing 1c lower. Choice Wheat was salable, but poor Wheat was dull. No. 1 Northern fresh arrivals free on board quotable at $1 16@1 18. No. 2 Northern quotable at $1 18@1 13. No. 3 Spring was quotable at $1 02@1 10. No. 4 Spring free on board sold at 60c for very poor, at 82@96c for common to fair, and $1 00 for good.

REGULAR WHEAT—A moderate trade with the market greatly unsettled and the close 1c lower for December while May lost ⅞c and the July ⅞c. The selling was better than the buying at the start influenced chiefly by private cables of fine weather in Argentine. Later, direct cables reported continued rains in that country and changed local sentiment and situation became strong, but the advance failed to hold and the close was around inside figures of the day. Weather map showed heavy snows in Manitoba and light local snows in North Dakota and Minnesota; a trace of rain at Nashville. Temperature generally lower. Fair and colder conditions were predicted. Liverpool quoted spot ½d higher and futures ⅛@⅜d lower. Receipts the three past days 304,000 bu and none from America. London came unchanged. Paris was steady to ¼c higher and Antwerp unchanged. Berlin and Buda Pesth unchanged to ¼c higher. Stocks here in all positions were reported at 3,931,000 bu, an increase of 27,000 bu. Stocks one year ago 6,796,000 bu. Contract stocks decreased 2,500 bu to 1,400,175 bu, compared with 1,861,479 bu same date in 1903. *Bradstreet's* available increased 4,688,000 bu, against 1,644,000 bu increase for the same week in 1903. The crop report of a local authority claimed a shortage of moisture all over the Wheat belt, with drouth most serious in Kentucky and Tennessee. Situation, however, is said to be not alarming. Hessian fly reports less serious than either a year or two years ago. An Odessa cable read: "Large stock of Wheat; weekly shipments will simply depend on demand; remaining exportable surplus larger than last year." Duluth wired: "Continent is buying Manitoba Wheat now and United Kingdom is more anxious; situation is healthy." Northwestern cars were 65 smaller than a year ago, and primary movement 157,000 bu less. Kansas City and St. Louis received 82,000 bu, compared with 417,000 bu one year ago. Winnipeg received 560 cars, against 237 cars same date in 1903. Minneapolis reported stocks increased 655,000 bu the past three days. Minneapolis wired that elevator people reported light receipts at country stations. Milwaukee claimed the mills there would close down Monday. Clearances were very small, and but 3 boat loads reported accepted at the seaboard. Receipts at Duluth 233 cars at Minneapolis 662 cars, a total of 895 cars, against 1,361 cars yesterday, 1,109 cars a week ago, and 790 cars last year. Local receipts included 44 cars Winter, 18 cars Spring and 16 cars mixed, total of 78 cars, against 100 cars last year. Included in above was 1 car contract grade. There were also 9 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 37 cars. The withdrawals were 3,000 bu. Receipts at Western points were 1,165,160 bu, against 1,621,923 bu last year. At Eastern points 143,734 bu, against 313,119 last year. Shipments from Western points 938,238 bu, against 951,922 last year and from Eastern points 24,000 bu, against 92,309 bu last year. Shipments of Flour were 17,225 brls. Exports of Wheat in Flour were equal to 101,512 bu.

Future Deliveries of Regular Wheat—Fair trade at lower prices.

NOVEMBER—Entirely nominal, closing about $1 06½.

DECEMBER—Sold at $1 06½@1 07⅞. Opened at $1 07⅞; sold to $1 07¼@1 07⅜, to $1 07½, to $1 07⅝, to $1 07⅝, to $1 07½, to $1 07¾, to $1 07⅝, to $1 07⅝, to $1 07¾, to 1 06⅞, to $1 07, to $1 06½, to $1 06¾, to $1 06½, to $1 06⅝, and closed at $1 06⅝.

JULY—Sold at 97½@99c. Opened at 98⅞c to 99c; sold to 98⅜c, to 98⅝c, to 98¼@98⅜c, to 98¾c, to 97½c, to 97¾c, and closed at 97⅝@97¾c.

CORN—A fair trade, with the tone weaker and the close ⅛@⅜c lower for December, while May lost ⅜@½c and July ⅜@½c. Country acceptances were liberal and the increasing receipts was the chief "bear" factor. Cash and receiving houses were the leading sellers of May at the start, while "shorts" were the best buyers. Receipts were 410 cars, with 311 cars low grades, against 204 cars last year, and 204 cars are estimated for to-morrow. Liverpool quoted spot ½d higher to ¼d lower and futures ¼@⅜d lower. Stocks here in all positions were reported at 1,623,000 bu, an increase of 873,000 bu. Stocks one year ago, 3,116,000 bu. Contract stocks decreased 9,303 bu and now include 229,918 bu, compared with 722,0 8 bu one year ago. *Bradstreet's* available supply increased 1,426,000 bu, against 538,000 bu decrease for the same period last year. The map was a favorable one and fair and colder conditions were predicted. Primary receipts were 838,000 bu, against 549,000 bu last year, and shipments, 468,000 bu and 231,000 bu, respectively. Local arrivals were 400,000 bu and shipments 243,000 bu. Outinspection, 164,000 bu; exports, 94,000 bu. Shipping demand was fair and sales reported for 75,000 bu. At the seaboard 11 boat loads were accepted. Southwestern markets were easier. Car lots were in fair demand and prices ½@1c lower. No. 2 old closed about 56c, and No. 2 Yellow at 50½c. No. 3 new closed at 46c. No. 3 White sold at 46¼c. No. 3 Yellow sold at 46¼@46½c, and closed at 46½c. No. 4 sold at 41¾c for yellow.

Corn by sample—Offerings not so large and demand fair. Feeling, however, was weak and prices ½@1c lower. Sales on track and free on board: No Grade sold at 39@43c. No 4 at 41@45c. No 3 at 46@49c. No. 3 Yellow at 46@56c. No. 2 Yellow at 50c. No. 3 White at 46@46½c. Billed through: No Grade at 40@43c. No. 4 at 42@46½c. No. 3 at 44½@45c. No. 3 Yellow at 41½@45½c. No. 3 White at 44¾@45c. Ears at 46½c.

Future Deliveries of No. 2 Corn—Fairly active and weaker and closed ⅜@½c to ½@⅜c lower.

NOVEMBER—Dull and inactive closing nominally at 49⅜c.

DECEMBER—Sold at 48¼@48⅞c. Opened at 48⅞c to 48½c, and sold at 48⅝@48⅝c, to 48⅝c, to 48⅜c, to 48½c, to 48¼c, to 48¾c, to 48¼c, to 48⅜c, and closed at 48⅜c bid.

JANUARY—Sold at 44⅛@44⅞c. Opened at 44⅝c to 44½c, and sold to 44⅞c, to 44⅜c, closed at 44⅜c.

MAY—Sold at 45⅜@45⅞c. Opened at 45⅞c to 45¾@45⅞c, and sold at 45⅞c, to 45¾c, to 45⅜c, to 45⅝c, to 45⅝c, to 45½c, to 45⅝@45⅝c, to 45⅝c, to 45⅝c, to 45⅜c, to 45½c, and closed at 45½c.

Future Deliveries of Contract Oats—Were weaker and lower, with active changing.

NOVEMBER—Inactive; closed at 30⅛c.

DECEMBER—In good demand. Sold at 29@29¼c. Opened at 29⅛c to 29¼c, sold to 29c, to 29⅛c at close.

MAY—Sold at 31¼@31½c. Opened at 31½c, sold to 31¼c, to 31¼@31⅜c at close.

JULY—Slow at 31⅜c and at 31½@31⅝c. Opened at 31½c, sold to 31½@31⅝c to 31⅜c at close.

RYE—Was dull and weak. Some demand for fresh arrivals, partly on milling account, but futures remain neglected. There were eight cars received and 400 bu withdrawn from private warehouse. No exports from New York. No. 2 in store nominally 77c and fresh arrivals free on board sold at 78@78½c. No. 3 sold at 75c free on board and at 73⅜c at the river.

Future Deliveries of No. 2 Rye—Neglected. December 77c asked and May 79c asked.

BARLEY—Offerings were smaller. The number of buyers present was small, but some on the market took hold with rather more vigor. Sales were more easily effected. To this extent sellers were favored. In some instances, too, there was reported a steadier feeling and a reaction from yesterday's weakness for medium grades, but choice Barley remained easy. There was not enough animation for the market to present any important feature. All grades were salable. The offerings were light and mainly of medium malting grades. Seventy-four cars inspected in, but they were mostly cars in and on sale yesterday. There were sales of Screenings at 25@38c, which is the whole range lately quoted for poor dirty to very choice. Barley—low-grade feed scarce and salable at 38c local and at 38@38½c at the river. Malting, low grade small berry, or heavy but dirty, quotable at 39@41c; clean, fair to good, at 42@45c, and large berry heavy, quotable at 46@48c, with choice to fancy 49@51c.

SEEDS—Little business was done. Grass Seeds were without essential change, generally steady, and scarce. Flax in some particulars was easier, as noted.

Timothy—There was no change especially. Quietness prevailed. Cash Seed sold fairly and ruled steady. March was the only future delivery offered; buyers and sellers were apart on this. Country lots were quotable at $1 75@2 60 for low grade to fancy; inferior lower; fair to good, $2 40@2 50, and rough, dirty or hulled, $2 20@2 35. Contract spot Seed was nominally $2 70. January quotably $2 75. March held at $2 87½ and $2 82½ bid.

Flax—Was nominally a shade easier for No 1 spot and nearby delivery, and unchanged for No 1 Northwestern and May delivery. There was some December delivery offered and sold at 2½c decline, but with this exception the market was lifeless. There were neither receipts or output reported for local movement, but in the Northwest there were receipts of 38 cars at Minneapolis and 291 cars at Duluth. No. 1 Northwestern was nominal at $1 10, and No. 1 quotable at $1 11. Rejected, depending on quality, quotable at $1 08@1 10. November nominal at $1 11 and December sold at $1 11. May held at $1 20.

Clover—No Clover on sale except some to-arrive. No business was learned of. There was reported in the market a firm feeling. Late quoted prices were obtainable. Contract grade, spot nominal at $12 25. Country lots, common to choice, $7 00@1.00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—The market was without offerings, hence inactive. It was quoted as steady—no change noted; former prices obtainable. Quotable Hungarian quotable at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice. German at 90c@$1 25. Siberian at 60@80c, Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c. Mustard about 7 c@$1 00. Buckwheat, good milling, quotable at $1 25.

HOG PRODUCTS—Trade was rather active in the market for Hog Products, and the feeling was a little unsettled. Outside orders were fair, and local trading was moderately active. Hogs were in liberal supply and prices favored buyers, and this feature encouraged a little realizing by "longs" early in the session, and prices ruled slightly lower. Later, a little more steadiness was manifested, mainly in sympathy with the Grain markets, and prices rallied slightly, but settled back again partially toward the close, and market closed rather steady. Trading chiefly in the deferred deliveries. Receipts of Hogs at the leading Western packing points were estimated at 117,500, compared with 83,000 one year ago. Foreign markets were firm for Meats and Backs were 6d higher, while Lard was quiet and 6d lower. Receipts of Products were good—of Lard and Meats about 21 cars. Shipments were quite liberal—of Lard and Meats about 207 cars. Demand on shipping account was fair in a quiet way, and offerings were moderate. Sales were not very large, and prices ruled steady.

Mess Pork—A fairly good business was transacted in Mess Pork, and the feeling was somewhat unsettled. Offerings were fair, and the demand was only moderately active. Trading chiefly in January and May contracts. Near deliveries dull. Market opened rather steady at about the closing prices of Monday, but a weak feeling was soon manifested and prices declined 5@7½c. Later, there was a little improvement in the demand, while the offerings were a little lighter. Prices rallied 7½@10c on the whole range. Toward the close, the market was rather easy, and prices settled back 5@7½c, and the market closed steady. Demand on shipping account was light and offerings were moderate. Cash lots quotable at $11 30@11 35.

NOVEMBER—Quiet and quotable at $11 30.

DECEMBER—Offerings were moderate and the demand was light. Sales were made at $11 27½@11 35, and closed quiet at $11 30.

JANUARY—In rather good request and offerings were fair. Sales were made at $12 72½@12 82½. Opened at $12 80, sold to $12 75, to $12 77½, to $12 75, to $12 82½, to $12 72½, to $12 77½ and closed steady.

MAY—Offerings were fair, and the demand was moderately active. Sales were made at $12 90@12 97½. Opened at $12 95 to $12 97½, sold to $12 90, to $12 95, to $12 92½, to $12 97½, to $12 90, to $12 95, and closed steady.

Lard—Trade was fair in the Lard market, and the feeling was comparatively steady. Offerings were not very large, and the demand was fair. Prices averaged slightly lower, and the market closed rather steady around inside figures. Trading chiefly in the deferred deliveries. Foreign advices were unfavorable to holders. Manufacture enlarging. Near deliveries rather slow. Demand on shipping account was limited, with light offerings. Cash lots were quiet at about November figures, closing at about $7 00. Loose lots in moderate request, with fair offerings. Prices were quotable at 5c discount on January figures. Leaf Lard was in moderate demand with fair offerings. Prices quotably steady at $6 62½@6 75. Neutral in light demand, with only fair offerings. Prices quotably steady at $8 00@8 12½ for No 1, and $7 37½@7 50 for No. 2.

NOVEMBER—Quiet and quotable at $7 00.

DECEMBER—Quiet and steady, with small sales at $6 92½.

JANUARY—In fair request and offerings were not very large. Sales were made at $7 00@7 02½. Opened at $7 02½, sold to $7 00, to $7 02½, to $7 00@7 02½, to $7 02½, to $7 00, and closed quiet.

MAY—Offerings were fair and the demand was moderately active. Sales were made at $7 17½@7 22½. Opened at $7 20@7 22½ to $7 22½, sold to $7 17½, to $7 20, to $7 17½@7 20, and closed steady.

Short Rib Sides—Trade was fair in the market for Short Rib Sides. Offerings were moderately free, and the demand was fair, and exclusively for the deferred deliveries. Prices were irregular within a small range, and averaged about 2½@5c lower, and closed steady at medium figures. Inquiry on shipping account was moderate, and offerings were comparatively small. Cash lots quotable at $6 62½@6 75 according to weight and age.

NOVEMBER—Quiet and prices nominal.

JANUARY—In fair request and offerings were not very large. Sales were made at $6 52½@6 55. Opened at $6 55, sold to $6 52½, to $6 55, and closed quiet.

MAY—Offerings were fair and the demand was moderately active. Sales were made at $6 70@6 75. Opened at $6 75, sold to $6 70, to $6 75, to $6 70@6 72½, to $6 72½, and closed steady.

Other Meats—Trade only moderate and the feeling was steady. Domestic demand was only fair, and orders from abroad were limited. Offerings of all kinds were not very large. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices were unchanged. Dry Salted Meats in fair request, with moderate offerings, and prices ruled steady. Smoked Meats called for moderately, and prices were unchanged. Closing prices were as follows:

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Nov. 24.]

Wheat—Our markets have ruled dull and inactive, and very few transactions of any importance have been reported since our last review. Prices here show but little change. The market abroad is very nervous, and the East shows very little encouragement at present for higher range of values. The demand from all sources is small, and exporters are doing very little business in the market of new trades. It is said that sales for the present are quite ample for all requirements or in the immediate future. European markets show but little animation. Buyers are watching the advent of the new crop in Argentina, and there is no doubt that the influence of a large crop in that country is being felt abroad. As the same approaches in maturity it is giving evidence of good crop, with good quality. Stocks here in farmers' hands show but very little decrease since the first of November. Exporters have filled about one-half of Eastern engagements, and if the railroads keep up the present policy of furnishing cars for transporting the same, by March 1 two-thirds of the sales will be on the way to Eastern points. Many little sales of wheat to go at present quotations. Most of them who have been recently with Eastern centers, and buyers there are waiting for the market to react before they attempt any new business on the Coast. A new business for European account has been reported by any of the export houses here. Cabled offers are too low when freights are taken into consideration. Millers having bought quite freely of late recently, are out of the market for the present, all of them claiming that they are well stocked up. As to the farmers who are holding for higher prices, not any of them are disposed to let go at present quotations. Most of them who have Wheat on hand are able to carry the same until spring. Receipts come in rather sparingly, principally stocks purchased some time back, and exporters are bringing the same to warehouses here and at Tacoma. Prices for Wheat are: Red or Club quality, 82c to 86c; Bluestem, 88c to 89c, and Valley, 87c per bushel

Flour—The Flour trade is of about the same volume as for some weeks past. Mills all have a good domestic trade with not a few buyers, and are feeling the absence of large orders usually to hand at this time of the year from Oriental ports. This can be attributed to the Wheat market, as it is rather unsteady, and millers would rather be certain of securing Wheat before accepting orders for future delivery. Buyers abroad really believe that prices on Flour will be lower as long and prefer waiting before purchasing at present quotations. It is almost useless to try to force business in China or Japan, and millers are not anxious to sell Flour below cost so as to be doing something. Most of the mills are running full time on old orders. If it were not for the Eastern demand millers out here would have had a dull time. Millers say they can see nothing beyond January for any business. The trade will then settle down to a dull period, unless foreign buyers enter the market with more alacrity than they have as yet done this season. It looks as if a waiting game is going on between foreign buyers and millers here, and it will take some unseen developments to change conditions. Sales can be made at from $3.80 to present time if millers here would take $3.90 per barrel for established brands, but this price is out of the question. The only foreign business that recently came to light was a cargo of Flour to South Africa for a well-known exporting firm, though rumors are thick that there will be more to follow. The United Kingdom would like to have a cargo or two, but at lower prices. Central and South America are willing to stock up, but prices are a little too high for them. Every steamer is taking out a small cargo, but more would be shipped if millers could meet buyers' views as to prices. California keeps up her usual demand, and some heavy shipments have been made the last few weeks to that State. If the engineers were not so hopelessly out of line some business would result from cables received here. We quote export brands firm at 60 to 75 for Local Straights, $3.75 to $4.00, and Patents from $4.50 to $4.75 per bbl.

WILL BUILD ITS OWN ROAD.

PITTSBURG, Nov 27.—The United States Steel Corporation is to have its own railroad Facts bearing on this matter were revealed to-day and seem to almost silence doubt. Not only does the trust intend to have its own line, but it has already gone to work on the system and has made arrangements for entering the field at New Castle, and at other points in the Shenango valley, the seat of the biggest Iron and Steel districts. The Pittsburg, Bessemer and Lake Erie Road, which was built by Mr. Carnegie just to show the railroads which had been squeezing him that he could build as cheap as the lake, by a line of his own, is now being used as a starting point from which the trust intends to work west to Chicago and east to the seaboard.

A thirty-mile line from Queen Junction on the Bessemer line to New Castle has already been surveyed. This has caused great consternation among the Baltimore and Ohio people because a line of the Buffalo, Rochester and Pittsburg owners, since it means that once into the New Castle district the heavy tonnage of the Steel trust mills will go out over the new line. Every effort was made by the Bessemer from getting into New Castle, but so cleverly was it worsted by the Steel trust that there was nothing to do but grin and bear it. This was the manner in which the Bessemer people closed the eyes of the other roads which, bad they warning, could have kept them out of New Castle:

From some source or other it was given out that, owing to the great Morgan interest in the Erie Road, that line would be taken over by the Steel trust as its own line, to avoid the Inter-State Commerce law and get a through line from Chicago to New York.

This caused some little flurry among the different roads interested in the tonnage of the Steel trust, and while they were figuring on the probabilities of the report being true the Steel trust road its surveys across into New Castle, and gathered in a most valuable piece of land.

Once getting the heavy Shenango Valley tonnage out of the hands of unfriendly railroads, the Steel trust can either dictate terms or build its own line.

RUSSIAN CROP SITUATION.

[Special Correspondence Corn Trade News.]

ODESSA, Nov. 8. The position here remains quite unchanged, and there is a complete absence of all business, as prices for shipment do not give way and Grain shipped and afloat is not finding buyers, and anything sold is at rates which show a loss to shippers. There has been a little doing for the Continent (Rhine), but very little margin, and shippers were tempted, on filling their sales, to ship more unsold are now anxious to do. Business all round this autumn has been the worst experienced for a good long time, and the season is so far advanced that a decided change for the better this year does not look likely. We have had heavy rain here to-day, but so far we have had a very dry autumn round about Odessa.

Application has been made to the New York Stock Exchange to list the Japanese Government $10,000,000 imperial 6 per cent sterling loan of 1911.

THE HOP SITUATION.

[New York Producers' Price Current, Nov. 28.]

The Hop market generally continues to present a quiet appearance. Very little is doing in New York State and growers are beginning to show a little more anxiety to sell, but refuse to make any concession in prices for choice Hops. On the Pacific Coast things also look very quiet, and were it not for the smallness of the stocks remaining in growers' hands, prices would have shown some weakness. As it is we have the same to report. Taking it all in all, the situation can be designated as dull. Quiet markets are also reported from Europe.

THE WEATHER CONDITIONS

Extreme Northwest—Temperatures, 2 to 20; snow general. Northwest—Temperatures, 12 to 30; generally cloudy; snowfall North Dakota and Northern Minnesota. West—Temperatures, 20 to 38; clear. The receipts of Flax Seed at Bombay for the week ended 24th ult announced 1,027 tons, against 1,035 tons in the previous week and 568 tons in the same week last year. The total receipts at Bombay from Jan. 1 to Oct. 24 amounted to 307,216 tons, against 182,704 tons for the corresponding last year.

A plan has almost reached perfection to combine the properties of the Pacific American Fisheries Company and the Pacific Packing and Navigation Company, the largest salmon fishing packing companies on this Coast, with the purpose of securing control of the entire Salmon output of the Pacific Coast, including British Columbia and Alaska.

The Italian official crop bulletin, covering the period from the 20th to 30th October, reports that the seeding of Grain, which has been done during the last few days, is complete in Northern Italy, and is at a good stage elsewhere The Chestnut crop has given very good results. The yield of Oil is fine and abundant in Tuscany, but scarce and poor in the Southern districts. Pasturage is promising.

A New York dispatch says: "Officials of the leading Pig Iron manufacturers say there is to-day no fear of a shortage in the material in the near future, and that phenomenally high prices will be reached during the year 1903. The Steel industry is making great strides toward increase, and the consumption of Pig Iron so closely that furnaces of the South and North have been unable to keep apace with it."

The Atchison statement for October showed a decrease of 16.5 per cent in gross. Only a part of it had been expected there would be a large loss in traffic, and the monthly statement merely reflects the effect of the coal strike in its full account. Naturally, operating expenses increased, and the ratio was 68.19, as against 51.39 for the corresponding month last year The decrease in net was $1,545,416, or 27.69 per cent.

France imported in October, the third month of the new cereal campaign, 3,816,000 bu of Wheat, of which 728,000 bu as Wheat and Flour were delivered from the warehouses, 2,912,000 bu as from other exported or received as "temporary admissions," or consigned to entrepots The quantities delivered for consumption in the corresponding month of the two previous years were 1,592,280 bu and 1,322,560 bu, respectively.

The stockholders of the National Bank of North America, Chicago, held a special meeting, Monday, and voted to go into voluntary liquidation. The meeting was purely formal in nature. Following is the formal resolution passed by the stockholders: "Resolved, That the National Bank of North America, Chicago, go into voluntary liquidation under the provisions of sections 5,220 and 5,231, United States Revised Statutes, to take effect Nov. 30, 1903."

Both the import and export trade of this country with Mexico shows a remarkable increase, according to figures given out by the Department of Commerce and Labor. The exports to Mexico have grown from $13,100,000 in 1895 to $46,000,000 in 1901, and imports from Mexico have grown from $23,000,000 in 1890 to $44,000,000 in 1901. Of the imports into Mexico for which figures for 1902 are available the United States supplied 59 per cent of the total, and of the exports from Mexico 70 per cent went to the United States.

The commercial editor of the Kansas City *Star* was in Chicago, Monday Discussing the Wheat situation in the Southwest, he said: "The trade has been quiet. There is Wheat to fall off sharply after this week. There is about 25 per cent of the crop left in farmers' hands. This is a smaller quantity than usual, and prospects are for light deliveries from farmers. Most of the Wheat in Kansas will be consumed in the State. Some sections had a short crop and they will require Corn shipped in from other parts where a surplus exists."

It was reported on Saturday last that the Reading system would soon acquire the group of railroads owned by the Lehigh Coal and Navigation Company, and recently merged under the name of the Lehigh, Lackawanna and New England Railway The Reading, it was said, would get possession of the roads through its ownership of the Central of New Jersey, which controls the latter. Such an offer to the Central to sell or lease the group, and, whereas no formal acceptance was made, it was understood the deal would go through It was to prevent outsiders from getting a foothold in the Coal region through purchase of one of the little roads that the merger was made.

A director of the Electric Storage Battery Company says. "If the company gets the business it is confidently looking forward to receiving, not only will the dividend be increased, but the rate will be at a figure that will be an agreeable surprise to the shareholders. There is an enormous amount of new electrical work in sight, and the Electric Storage Battery Company will be called upon to furnish the batteries that will be required. Many railroads contemplate electrifying their suburban lines To operate economically, the current of electric storage batteries is necessary, and it is from this source that the local corporation expects to get its largest orders during the next few years."

The following securities have been listed on the New York Stock Exchange: An additional $283,000 of the first mortgage 5 per cent bonds, due 1937 of the St. Joseph Railway, Light, Heat and Power Company, making the total amount listed $3,767,000. An additional $2,941,000 of the first refunding mortgage 4 per cent guaranteed bonds, due 1949, of the Central Pacific Railway Company (southern Pacific lessee), making the total amount listed to date $73,437,000. An additional $67,000 of the general mortgage 3½ per cent guaranteed bonds of the Cleveland and Pittsburg Railroad Company (Pennsylvania Railroad Company, lessee), making the total amount listed to date $2,000,000. The sum of $5,568,000 of the first mortgage guaranteed 5 per cent bonds, due 1951, of the Mississippi Valley and Oklahoma Railroad Company. The sum of $2,347,000 of the first mortgage guaranteed 5 per cent forty-year bonds, due 1943, of the Texas and Oklahoma Railroad Company. The sum of $6,148,000 of the Litchfield division first mortgage 3 per cent bonds, due 1951, of the Illinois Central Railroad Company. Also $2,000,000 of the common stock, cumulative 4 per cent preferred stock, $42,000,000 non-cumulative 4 per cent second preferred stock, and $7,000,000 common stock of the Reading Company will be admitted to the list, replacing the voting trust certificates.

The *Wall Street Journal* says: "About one-fifth of the wealth of the United States is represented by the assets in the hands of the life insurance companies The life insurance companies The number of savings bank deposits and life insurance policies is upwards of 12,000,000 It would probably be no way far out of way to say that 8,000,000 of the inhabitants of the United States, or one-tenth of the population, thus own one-fifth of the wealth of the country. The United States has been the richest nation of the globe, and its the general prosperity of her people she also stands first. It would be, however, quite wrong for us to assert that she is rich and prosperous because of her deposits in savings banks. It would be much more proper to say that her deposits in savings banks are largely because she is rich and prosperous. We are inclined to believe that the country would be greatly benefited by the extension of the investment spirit throughout our people. By this we mean that if a larger proportion of our people should come to make intelligent investments of their savings in securities, this would tend to distribute more widely through the people the ownership of the great producing and distributing agencies of the country, and to a large degree bring these agencies under the more direct control of the people."

The Chicago *Tribune* says: "The report that the Navigation Company will build its Columbia and Northwestern from the western terminus of its Fremont, Elkhorn and Missouri Valley line here for their ultimate destination the Pacific Coast, is without foundation. The report arose from the fact that a new company—the Wyoming and Northwestern—has just been formed, the capital stock of which is owned by the Union Pacific and Northwestern. This line, it is understood, will form the western end of the Fremont, Elkhorn and Missouri Valley, and will run from Lander to Ogden, Utah. There is in addition on the part of the Northwestern to go further West. The attempt to go beyond Ogden would destroy the cordial relations between the Northwestern and the Union Pacific Northern Pacific has already entered into a long time traffic contract with the Northwestern, which practically gives it a through line to the Pacific Coast, fully as good in many that that could be established by the Fremont, Elkhorn, Missouri and Missouri Valley to Ogden will not interfere with the present traffic alliance. The principal through business of the Northwestern to the Pacific Coast will continue to go via Portland and the Union Pacific, while the Fremont, Elkhorn and Missouri Valley Road, extended to Ogden, will be an additional feeder for the Southern Pacific."

The basis for the rise in the securities of the Allis-Chalmers Company is the improvement in the demand for the machinery made by the company, the prospective demand for electrical machinery which the company began to manufacture the past fiscal year. The company has a capital of $15,000,000 preferred and $20,000,000 of common stock outstanding. The preferred is entitled to 7 per cent cumulative dividends. It is free from dividends except $41,000 assumed when the Norwood foundry was purchased, and this was paid in March, 1903. No mortgage can be placed upon the property without the assent of 75 per cent of the preferred stock, and therefore no bonding. There is an accumulation of about 7 per cent back dividends on the preferred stock. The company greatly suffered during the recent period of depression, so that the previous dividend was not declared. The fiscal year ended April 30, 1904, amounted to only $69,466, against $516,676 in the preceding year. On April 30, 1903, the company had current assets amounting to $7,475,814 and current liabilities of $2,737,814, making net current assets $5,885,750. This is not a large working capital for a company doing so large a business, and it is safe to say that as business improves the company will appropriate a portion of its surplus earnings to increasing the working capital.

ITEMS OF GENERAL INTEREST.

New York Exchange 20c premium.

Documentary Sterling firm at 482½.

Chicago Bank Clearings to-day $30,602,041.

Cotton in New York was sold on the census report and prices averaged lower, closing with losses of 8@9 points.

Reported that 40,000 bu Wheat, 272,000 bu Corn and 80,000 bu Oats were taken at the seaboard to-day for export.

Average cost price of Hogs at Chicago. Tuesday, was $4 60, against $4 59 Monday, $4 58 a week ago, and $4 47 a year ago.

Ten packers purchased 29,800 Hogs to-day; shippers, 5 500; left over, 10 000. Market closed weak. Receipts to-day, 43 000.

Estimated receipts for to-morrow: Wheat, 45 cars: Corn, 272 cars; Oats, 101 cars; Rye, 4 cars; Barley, 82 cars; Hogs, 43,000

Broomhall cable says: "Several private cables state weather is wet and has threatened serious damage to Wheat crop in Northern part of Argentine."

The Spanish Ministry propose to reduce the import duty on Wheat about 50 per cent—now 37.7 per bushel. The exports of recent years have been 3,000,000 to 4,000,000 bu.

Census Cotton report on bales of Cotton ginned to Nov 14 this year 9,786,040 bales, counting round as half-bales, as follows: 9,601,777 square, 238,823 round, and 62 457 Sea Island.

The new securities of the Chicago Subway Company are to be listed on the Chicago Stock Exchange as soon as they are ready and exchange for issues of the Illinois Tunnel Company is completed.

On the reverse page will be found an extract from the annual report of the Secretary of the Department of Agriculture, who presents in glowing terms the progress of the agricultural interests of the country.

Cattle receipts at Chicago this month will reach about 340,000, or over 10,000 more than ever before for November. A year ago 302,038 arrived. This month's receipts of Hogs will reach about 700,000, against 637,221 for November, 1903.

The Sheep raisers around San Angelo, Tex., who clip their Sheep twice a year, have just sold their fall clip at that place, which is estimated at about 400 000 lbs. The price paid averages about 16c per lb, which would mean that these Sheep men have received about $64,000 for their Wool in that immediate vicinity this fall.

Stocks in New York made substantial gains, with moderate trading. London sold Steel preferred, but bought common. Railway shares gained ¼ to 1 point, and Northwestern 5⅝. Atchison, however, was ¼ lower, and Rock Island off a fraction. Coalers were ⅛ to 2 higher. Sugar advanced ¾ early, but lost it. Money 3½ to 4 per cent.

A Minneapolis view of the mills closing: "We here think the rumor of mills closing is simply a threat to the railroad companies. Millers are endeavoring to have the rate schedule, which is to advance Dec. 5, extended until Jan. 1. They succeeded in having this done last year. The grinding here at present is nearer capacity limit than for many a day."

The New York Stock Exchange Committee on Securities rules that until further notice all contracts in Kuhn, Loeb & Co. temporary certificates, full paid, for imperial Japanese Government 5 per cent sterling loan may be settled by delivery of either the said certificates (in denominations of £100, £200, £1,000, £2,000) or the new coupon bonds in denomination of £100 or £200.

The first cargo of Manitoba Wheat to reach Chicago finished unloading, Tuesday. It came in Saturday on the steamer M. B. Dalton. It consisted of 82,000 bu sample Manitoba Wheat, and was unloaded at one of the elevators at South Chicago. The Wheat is for milling purposes. The duty paid was over $20,000. Duluth, Tuesday, reported that another cargo was to come this way.

The following table exhibits the inspection of Grain at Chicago during November in the past six years:

	Wheat, cars.	Corn, cars.	Oats, cars.	Rye, cars.	Barley, cars.	Total cars.
1904	1,376	7,233	2,749	130	1,125	12,612
1903	3,251	6,203	4,697	232	2,592	16,977

1899	2,315	6,365	4,961	167	1,944	15,772

Local Securities were active, with Can shares the leader. The latter was bought on orders from New York and on rumors of larger business, the probable purchase by the Steel Trust and of a reorganization. Common made only a small gain, and preferred advanced 2¾. The important advances in other Stocks were in Oak Park Elevated preferred, Chicago Telephone, West Chicago Railway, and Northwestern Elevated. The losses were in Diamond Match, Box Board preferred and Street's preferred.

Dornbusch's Buda Pesth correspondent, writing under date of Nov 12, says: "The Flour market this week displayed a decided improvement and an active business was done. The total Flour sales this week are computed at more than the week's production, chiefly in the finer qualities, on Bohemian account. The greater activity cannot, however, be considered as indicating an improvement in the Flour trade, as the purchases were purely of a speculative nature at bottom rates, simply transferring quantities of Flour from millers to dealers. As millers have to pay enhanced prices for Wheat, the Flour production is decreasing. Mill feedingstuffs continue firm with a hardening tendency."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand generally reported slow and sales only effected where concessions are granted.

WINTER WHEAT—A little milling demand existed and sales of 35,000 bu of mixed lots were reported General market quiet. Receipts small and not enough doing in fresh arrivals to establish more than a nominal market. Feeling stronger in sympathy with futures. No. 2 Red in store quotable at $1 09⅞@1 11½, and fresh arrivals free on board at $1 13½@1 15. No. 3 Red fresh arrivals free on board quotable at $1 08@1 13. No. 2 Hard fresh arrivals free on board quotable at $1 09@1 12, and No 3 Hard at $1 01@1 09.

SPRING WHEAT—Very quiet Choice Wheat, the hard variety particularly, would sell; very little arriving and feeling firmer. Poor Wheat dull. No 1 Northern fresh arrivals free on board quotable at $1 15½@1 18½, and No 2 Northern at $1 08@1 14. No 3 Spring nominally $1 02@1 12. No. 4 Spring, very poor, sold at 57c and ranged up to $1 00 for good.

REGULAR WHEAT—A better trade, with the feeling manifested considerably stronger, the close being 1¼c higher for December, while the May gained 1⅛@1¼c and July 1¼c The situation early in the session was easy, the irresponsive cables and contradictory Argentine news being among the "bear" influences. The selling for a while was quite general, but the offerings were well taken, and it soon developed more was wanted. Part of the late buying was credited to several of the larger local professionals and the early sellers covered on the rise. Primary receipts were 403,000 bu smaller than a year ago, the arrivals in the Northwest being 166 cars less Kansas City and St Louis received 88,000 bu, against 267 000 bu one year ago. *Broomhall* cabled that several private Argentine cables stated that the wet weather has threatened serious damage to the Wheat crop in northern part of that country. Another *Broomhall* cable stated the Spanish Ministry proposed to reduce the import duty to about 50 per cent of the present duty of 37.7c per bu Spanish imports for the year ending July 31, 1903, were 3,000,000 bu. Liverpool quoted spot steady to ⅛d lower and futures unchanged to ⅛d lower London came unchanged. Paris was steady to ⅛c higher. Antwerp unchanged. Berlin lost ⅛c, while Buda Pesth advanced 1⅛c. Northwestern messages again referred to smaller deliveries at country stations Minneapolis reported stocks increased 840,000 bu the past four days The map was again unfavorable, being cold and dry, and continued fair conditions were predicted. Southwest advices on crop conditions were "bullish," and the advance in July was due to these reports. Clearances were again small and but 5 boat loads reported taken at the seaboard. The cash business here was reported at 35,000 bu, in small lots. Receipts at Duluth 192 cars and Minneapolis 351 cars, a total of 543 cars, against 895 cars yesterday, 928 cars a week ago, and 709 cars last year. Local receipts included 19 cars Winter, 4 cars Spring and 1 car mixed, total of 24 cars, against 137 cars last year. Included in above was none contract grade There were also 5 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 45 cars. The withdrawals were 10,500 bu. Receipts at Western points were 829,186 bu, against 1,291,910 bu last year. At Eastern points 65,063 bu, against 37,135 last year. Shipments from Western points 777,114 bu, against 720,859 last year and from Eastern points no bu, against 209,400 bu last year. Shipments of Flour were 9,950 brls. Exports of Wheat in Flour were equal to 44 775 bu.

CORN—A fair trade, with the feeling a little more unsettled. The close shows the December ⅛c better, while May gained ¼c. and July ⅛@¼c. Early there was considerable pressure on the December and affected the whole list. Professionals and floor traders sold the May and situation was rather weak. Country acceptances were reported very fair considering the lower bids and cables were easier. At the decline the demand improved and Wheat turning stronger Corn advanced in sympathy. Market was indirectly helped by the knowledge of large freight room engagements yesterday at the seaboard—both Atlantic and Gulf—and estimated at one hundred boat loads Receipts were 205 cars, making 7,233 cars for the month, and 272 cars were estimated for to-morrow. Liverpool quoted spot steady and futures ⅛d lower. Cargoes on ocean passage were quoted firm and a better Continental inquiry reported. A good local shipping demand was reported and sales made for 250,000 bu. New York at the close reported 34 loads accepted Western receipts were 748,000 bu, against 3 7,400 bu last year, and shipments 608,000 bu, and 169,000 bu respectively Local arrivals were 470,000 bu and shipments 455 000 bu. Withdrawals 52,000 bu and exports 52 000 bu. Southwestern markets were firm. Weather was clear and colder, and fair conditions predicted Car lots were in good request, with moderate offerings. Prices about ¼c higher No. 2 closed about 50c and No. 2 Yellow closed at 50@50½c No. 3 sold at 46@46¼ and closed at 46c. No. 3 White sold at 46c. No. 3 Yellow sold at 46¼@46½c and closed at 46¼@46½c. No. 4 sold at 41@44½c.

Corn by sample—Was in good demand, with the offerings moderate. Feeling was firm. Market opened unchanged and later on advanced about ¼c. Sales on track and free on board: No Grade sold at 39@44c. No. 4 at 44@45¼c. No. 3 at 46@49c. No. 3 Yellow at 46@46¾c. No. 2 Yellow at 48½c. No. 3 White at 46@48¼c. No 2 White at 48c. Billed through: No Grade at 41@43½c. No. 4 at 42½@44½c. No. 3 at 45@45¼c. No. 3 Yellow at 45@45½c. No. 3 White at 45@45¼c.

Future Deliveries of No. 2 Corn—Fairly active and little unsettled, closing ⅛c to ¼c higher.

NOVEMBER—Inactive and entirely nominal, closing 49¼c

DECEMBER—Quoted 2½@3c over May. Sold at 48@48⅝c. Opened at 48c to 48¼c and sold at 48c. to 48⅛c. to 48c. to 48⅜c, to 48¼c, to 48⅜c, to 48½c and closed at 48½c bid.

JANUARY—Sold at 44⅜@44½c Opened at 44⅜c, sold at 44½c, and closed at 44½c.

MAY—Sold at 45⅜@45¾c. Opened at 45⅝@45½c and 45½c and sold at 45⅝@45½c, to 45½@45⅝c, to 45⅝c, to 45¾c, and closed at 45¾c asked.

JULY—Sold at 45½@45¾c. Opened at 45⅝@45¾c and sold at 45½c, to 45¾c and closed at 45¾c bid.

OATS—Were easy and closed ⅛c lower. The feature was the liberal business in changing from December to May at 2⅛c to 2¼c difference. Commission houses were liberal sellers of December and with some houses the December liquidation is completed. Cash sales here were 100 000 bu and at New York 80,000 bu. Seaboard clearances 630 bu Withdrawals were small. Arrivals 71 cars, with 101 cars estimated to-morrow. Car lots to go store were steady to ¼c lower. No. 3 White at 30½c. Standard in store closed at 29¾c.

Oats by sample were in moderate supply and prices steady for good, but ¼c lower for poor. Sales on track and free on board: No Grade sold at 29c. No 4 White at 30@31½c No. 3 White at 30½@31½c. Standard at 31½@32½c. No. 2 at 30¼c. No. 2 White at 31@32½c. Billed through No. 4 at 29½c. No. 4 White at 29c. Standard at 31@31¼c. No 2 White at 31c. At the river: No. 4 White at 29c. No. 3 White at 28¾@29¾c. Standard at 30c

Future Deliveries of Contract Oats—Were easier, with fair trading.

NOVEMBER Inactive; closed at 29¾c.

DECEMBER—Sold at 29@29⅛c. Opened at 29c to 29⅛c, sold to 29cc; closed at 29c.

MAY—Fair trading. Sold at 31⅛@31¼c and at 31⅜c. Opened at 31¼c to 31⅜c, sold to 31⅜c, to 31⅛@31¼c, to 31¼c at close

JULY—Slow at 31¼@31⅜c Opened at 31⅜c, closed at 31¼c

RYE Ruled dull. Fresh receipts in some demand but weak and futures neglected and offered at 1c decline from yesterday's asking prices. There were six cars received and two cars withdrawn from private warehouses. No exports from New York. No. 2 in store nominally 76c and fresh arrivals free on board sold from 76c to 78c, and at the river at 76½c.

Future Deliveries of No. 2 Rye—Neglected. December 76c asked and May 78c asked.

BARLEY—There was no volume to either demand or offerings The market remained in a quiet state A little more was done in Screenings, and the rest of the business was in common to choice malting. Nothing fancy offered. As a rule the market was quoted steady and unchanged. In some cases where sellers could not get their views of values they looked upon it differently. Only a few buyers present, and little or no competition existed. Thirty-five cars inspected in. Sales of Screenings were made at 25@37c, the whole range being quoted at 25@38c for poor dirty to very choice Barley—low-grade feed scarce and quotable at 38c local and at 36@37c at the river, outside good quality. Malting, low grade, small berry, or heavy but dirty, quotable at 39@41c; clean, fair to good, at 42@45c, and large berry, heavy, quotable at 46@47c, with choice to fancy 48@51c.

SEEDS There were sales all along the line through the different kinds of Seeds and yet the aggregate of business done was small. There was an absence of price changes.

Timothy Was about steady. Only moderate cash offerings; demand also quiet, still Seed was salable and steady. Fair trading in March delivery. In no case could prices be said to have changed materially There were cash sales at $2 20@2 70 for poor to fancy; outside figure is above any recent quotation. Country lots, were quotable at $1 75@2 70 for low grade to fancy; inferior lower; fair to good, $2 40@2 50, and rough, dirty or hulled, $2 20@2 35. Contract spot Seed was nominally $2 70 January quotably $2 75 March sold at $2 85 and that remained bid, with $2 87½ later asked.

Flax—The market, like yesterday, was inactive, aside from small trading in December delivery. Dullness prevailed. Prices entirely unchanged. Hardly any local movement, only one car or 500 bu came in and none taken out. There were 23 cars received at Minneapolis and 152 cars at Duluth. No 1 Northwestern quotable $1 19, and No 1 at $1 11. Rejected, depending on quality, quotable at $1 08@1 18. November nominal at $1 11 and December again sold at $1 11. May offered at $1 20.

Clover A number of samples were submitted for bins to-arrive, but spot Seed very scarce The market was called steady and former prices were repeated in the quotations, contract grade, spot being quoted at $12 25 Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—A little Siberian Millet and some small lots of Mustard, all common quality, was the extent of to-day's offerings. The several lines were quotably steady. Quotable: Hungarian at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice. German at 90c@$1 25. Siberian at 85@90c, Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c. Mustard about 75c@$1 10 Buckwheat, good milling, quotable at $1 25. Some dirty on the market and sold, but at what figure could not be learned.

HOG PRODUCTS—Quite a good business was transacted in Hog Products and the feeling was unsettled Early, the reduction in prices was moderate considering the general surroundings of the trade. At the close sympathized with Grain, and rallied sharply. Hogs in liberal supply and prices lower. Trade calculating that the supply for the week will be 235,000 to 240,000 Hogs Outside speculative orders were moderate and local trading was fairly active. Offerings of the speculative articles were moderately free, and the demand was fair. Trading chiefly in the deferred deliveries, though occasional trades were made in near deliveries to settle outstanding contracts. Market opened rather easy, but the decline was slight, owing to the filling of a few orders. Later there was some pressure to sell, while the demand was light, and a weak feeling was developed. Prices declined moderately all around Toward the close rather more steadiness prevailed, and prices rallied suddenly to outside figures, and the market closed firm Receipts of Hogs at the leading Western packing points were estimated at 128,300, compared with 102,800 one year ago. Foreign markets were rather firm at unchanged prices. Domestic markets were quiet and rather steady Receipts of Products were liberal—of Lard and Meats about 10 cars Shipments were fair—of Lard and Meats about 137 cars. Demand was moderate on shipping account—buyers rather backward in view of the good Hog supply. Offerings were not very large. Sales were somewhat limited, and prices were unchanged.

Mess Pork Trade was fair in the market for Mess Pork, and the feeling was unsettled. Offerings were moderately large, and the demand was fair. Market opened rather easy at 2½@5c decline, and a further reduction of 2½@5c was submitted to. Later, considerable steadiness prevailed, and prices rallied 17½@22½c, and the market closed rather strong. Shipping demand was light, and offerings were moderate. Cash lots were quotable at $11 30@11 35.

NOVEMBER—Quiet and quotable at $11 30.

DECEMBER—A few sales were made at $11 22½@11 30, and closed quiet at $11 30.

JANUARY—In moderate request and offerings were fair. Sales were made at $12 72½@12 90. Opened at $12 72½, sold to $12 75, to $12 72½, to $12 85, to $12 82½, to $12 90, and closed steady.

MAY—Offerings were fair, and the demand was moderate. Sales were made at $12 87½@13 10. Opened at $12 92½, sold to $12 87½, to $13 02½, to $13 00, to $13 10, and closed steady.

Lard—A fair trade was reported in the Lard market, and the feeling was easier. May delivery commanded the preference. Offerings were moderately free, and the demand was fair. Foreign advices were unchanged Prices on the whole range declined 7½@10c, but rallied again 7½@10c, and the market closed comparatively steady. "Shorts" bought moderately on the decline. Near deliveries rather quiet. Demand on shipping account was limited, with light offerings. Cash lots were quiet at about November figures, closing at about $7 00 Loose lots in moderate request, with fair offerings. Prices were quotable at 45c discount on January figures. Leaf Lard was in moderate demand, with fair offerings. Prices quotably steady at $6 62½. Neutral in light demand, with only fair offerings Prices quotably easier at $7 87½@8 00 for No 1, and $7 25@7 37½ for No. 2.

NOVEMBER—Quiet and quotable at $7 00.

DECEMBER—Quiet and steady, with small sales at $6 90

JANUARY—Offerings were fair, and the demand was moderate. Sales were made at $6 95@7 00. Opened at $7 00, sold to $6 95, to $7 00, and closed steady.

MAY Demand was fair, and offerings were moderately free Sales were made at $7 07½@7 20. Opened at $7 17½, sold to $7 17½@7 20, to $7 07½, to $7 17½@7 20, and closed steady.

Short Rib Sides—A fair business was transacted in Short Rib Sides, and the undertone to the market was rather steady. Offerings fairly liberal, and the demand was moderately active Trading confined to May and July contracts Prices ruled 2½@5c lower, but rallied again 5@7½c toward the close, and the market closed steady at outside figures. Demand on shipping account was rather light and offerings small. Cash lots were quotable at $6 62½@6 75, according to weight and age

JANUARY—Demand was moderate and offerings were fair. Sales were made at $6 50@6 57½ Opened at $6 52½ sold to $6 50, to $6 57½, and closed steady

AGRICULTURE AS A SOURCE OF NATIONAL WEALTH.

[From Secretary Wilson's Annual Report.]

The Corn crop of 1901 yields a farm value greater than ever before. The farmers could from the proceeds of this single crop pay the National debt, the interest thereon for one year, and still have enough left to pay a considerable portion of the Government's yearly expenses. The Cotton crop, valued for lint and seed at $600,000,000, comes second, while Hay and Wheat complete the list of 4 places. Combined, these two crops will about equal in value the Corn crop. Notwithstanding the Wheat crop shows a lower production than any year since 1900, the farm value is the highest since 1881. Potatoes and Barley reached their highest production in 1901 Save in 1901 the Oat crop was never so large by 60,000,000 bu. The present crop of promises to yield of 27,000,000 bu more than ever before

Horses and Mules reach the highest point this year, with an aggregate value exceeding $1,854,000,000. On the other hand Cattle, Sheep, and Hogs all show a slight decline

The steady advance in Poultry leads to some astonishing figures. The country now has over production 1,666,000,000 of dozens of Eggs and at the high average price of the year the hens during their busy season lay enough Eggs in a single month to pay the farm's interest on the debt for a year.

After a careful estimate of the value of the products of the farm during 1904, made within the census scope, it is safe to place the amount at $4,000,000,000 after excluding the value of farm crops fed to Live Stock in order to avoid duplication of values. This is 9.65 per cent above the product of 1903, and 31.28 per cent above that of the census year 1899.

Some comparisons are necessary to the realization of such an unthink able value, aggregating nearly $48,000,000 The product of this country have in two years produced wealth exceeding the output of all the Gold mines of the entire world since Columbus discovered America This year's product is over six times the value of the total stock of all national banks, it lacks but three-fourths of a billion dollars of the value of the manufactures of 1900, less the cost of materials used; it is three times the gross earnings from the operations of the railways, and four times the value of all minerals produced in this country.

The year 1901 keeps well up to the average of exports of farm products during the five years 1899-1903, amounting to over $650,000,000 while the average for the five years was nearly $595,000,000. During the last fifteen years the balance of trade in favor of this country, all articles considered, exceeded $4,344,000,000, but taking farm products alone, these showed a balance in our favor of more than $5,500,000,000.

Reviewing the increase in farm capital, the Secretary estimates it conservatively at $2,000,000,000 within four years—this without recognizing the marked increase in the value of lands during the past two years. The most startling figures shown as illustrating the farmers' prosperity are those presented by deposits in the Savings Banks of Agricultural States. The Secretary selects for this illustration Iowa, Kansas, and Missis-ippi. Taking all kinds of banks, National, State, private, and savings, the deposits increased from June 30, 1899, to Oct. 31, 1904, in Iowa, 164 per cent; in Kansas, 219 per cent, and in Mississippi 201 per cent—in the United States, 91 per cent. A similar favorable comparison may be made as to the number of depositors

The Secretary concludes that the farmers' rate of thousand dollars of deposits in comparison with that of any other class of producers.

THE INDIAN COTTON CROP.

Second general memorandum on the Cotton crop of the season 1904-5, dated Calcutta, Oct. 31.

The Punjab the area is given as 1,474,200 acres, against 1,258,400 acres last year. In the Central and West Punjab the unirrigated crop will be poor. Irrigated Cotton is up to the average in all districts.

Northwest Frontier Province—The area is 40,400 acres, against 35,900 acres last year. Prospects generally good.

United Provinces—In Meerut, Agra, and Rohilkhand the crop is reported to be in good condition and is expected to yield about the average of a full normal cultures; but in Allahabad the crop will hardly yield more than 50 per cent of the normal. In the remaining parts the outturn is at present estimated at 80 per cent.

Central Pr vinces- Area is estimated to be the largest on record, namely, 1,532,500 acres, which is 80 per cent in excess of last year's and 121 per cent above the decennial average. The estimate for Berar is 3,059,600 acres, which is 7 per cent larger than last year, and 45 per cent above the decennial average. The crop in Berar is not so good as that in the Central Provinces. In Nagpur the outturn is now estimated to be 10 per cent above normal. For the Central Provinces the outturn is expected to fall but little short of a full crop, and for the whole of Berar the estimate is 90 per cent of the normal. The quantity available for export from the Central Provinces this year should be materially larger than last year.

Bombay—The area under the early crop in the Deccan districts is reported to be 1,275,500 acres, which is 29 per cent less than last year, but 10 per cent above the average. The crop suffered through the prolonged break in August, but the September rains have improved it everywhere, and the prospects are on the whole good.

As regards the late crop (in Gujarat, Karnatak, and Sind) sowings were unfinished in Karnatak at the date of report, and the bolls were not generally incomplete. The season has been rather late, but the total area may reach last year's figures. The early sown crop in Gujarat suffered through the prolonged break of the monsoon in August, but the September rains improved prospects everywhere, and the outlook at present is promising. The early rains have delayed sowings in Karnatak, and sowings have commenced .n places after the recent rains. The young crop is fairly good at present, but more rain is needed in places. Water supply is deficient in Sind, and the area of 195,000 acres in British districts is 4 per cent below last year's area. but the crop is in fair condition.

In Madras the total area sown to the end of September is 467,900 acres, which is 45 per cent less than that of the corresponding period of preceding year, and 30 per cent below the quinquennial average. The condition was reported to be fair, though rain was urgently needed in parts, but since then fairly general rains have fallen.

In Burma the total area is now returned at 180,-900 acres, or an increase of 29,700 acres over last year. The condition and prospects of the crop are excellent.

THE WEATHER CONDITIONS.

Extreme Northwest - Temperatures, 6 below zero to 16 above; clear. Northwest—Temperatures, 8 below to 24 above; clear. West—Temperatures, 14 to 32; clear. Southwest—Temperatures, 24 to 40; clear. Ohio Valley -Temperatures, 20 to 40; clear.

Indications are for fair weather throughout the greater portion of this district. Temperatures will moderate in the Northwest to night and probably in this section Thursday.

AUSTRALIAN WHEAT CROP PROSPECTS.

[Special Correspondence Dornbusch.]

SYDNEY, Oct. 11.—Further slight rains have fallen in New South Wales, while at intervals of writing light showers are falling over the eastern and we tern parts of this State Crop prospects, however, are such as to call for congratulatory report. In many places the Wheat has stunted and too far advanced to admit of their being stimulated by additional moisture. In Victoria and Queensland, too, the prospects is encouraging. Before the close of the current month the prospective yield may be anticipated, although so much depends on meteorological conditions just at the time of writing that caution is needful.

The past week has witnessed the highest price levels of the year. Wheat has commanded 3s 8½d per bushel for prompt shipment. Shippers, however, have not been able to offer more than 3s 8d to 3s 8½d, consequently buying for export has practically ceased.

The total export from the Commonwealth this season stands at 35,117,410 bu, or 967,400 tons, valued at £8,675,000 f. o. b. The surplus now available for export after allowing for bleached and pinched Wheat will be slightly below 5,000,000 bu. Farmers, however, seemed determined to hold their Wheat till after harvest, so that when present shipping engagements have been met exports of 1905-1901 Wheat will probably cease.

ITEMS OF GENERAL INTEREST.

It is claimed that Iowa farmers have sold 50 per cent of their Corn.

The City of Marion, Ohio, has awarded $34,000 5 per cent nine-year average sewer bonds to a Chicago banking firm at 108 278.

An Odessa cable, Tuesday, said: "Large stock of Wheat awaiting shipment will simply depend on demand. Remaining exportable surplus is larger than last year."

The Chicago and Eastern Illinois Railroad has declared the regular quarterly dividend of 1¼ per cent on its preferred stock, payable Jan. 2. Books close Dec. 14 and reopen Dec. 19.

The story is revived of a probable combination of the Union Pacific Railway Company and the Continental Paper Bag Company, controlled by the International Paper Company.

The St. Louis and San Francisco Railroad has declared the regular semi-annual dividend of 2 per cent on its first preferred stock, payable Jan. 2 Books close Dec 17 and reopen Jan. 3.

By order of the committee of Stock list of the New York Stock Exchange the Denver and South-western preferred and common stocks have been stricken from the Stock Exchange list.

The Federal Mining and Smelting Company has declared the regular quarterly dividends of 1¼ per cent on its preferred and 1½ per cent on its common stock, both payable Dec 15 Books close Dec 1 and reopen Dec. 16.

The Chicago, Indianapolis and Louisville has declared a dividend of 1¼ per cent on the common and the regular semi-annual dividend of 2 per cent on the preferred, payable Dec. 28. Books close Dec. 7 and reopen Dec. 29.

The Westinghouse Electric and Manufacturing Company has declared the regular quarterly dividend of 1½ per cent each on its preferred assenting and nonassenting stocks, payable Jan 10. Books close Dec. 28 and reopen Jan. 11

Directors of the Chicago Board of Trade have declared "irregular" six Provision warehouses operated by H. Boore & Co. The houses are to change hands Warehouse G. has been made "regular" The "irregular" houses are W, S, O, P, and R.

An official of the Rubber Goods Manufacturing Company, in speaking on the outlook for dividends on the common stock, said that the outlook never was brighter than at the present time. The company is earning between 6 and 7 per cent on his common shares.

The first general memorandum estimates the area under Rice in Bengal, Burma and Madras at 68,200,000 acres, against 68,000 tons a year ago. In Bengal the prospects were for a crop of over 2,000,000 tons more than last year, while in Burma and Madras prospects were favorable for a good yield.

Applications have been approved by the Comptroller of the Currency for the organization of the Earlville National Bank of Earlville, Ill., with a capital of $25,000, and the Farmers' National Bank of Witt, Ill., with a capital of $25,000, and the First National Bank of Lewiston, Minn., with a capital of $25,000.

The monthly financial report of the Chicago Postal Department shows an increase of 9.87 per cent for the first twenty days in November of 1904 over the same period of the preceding year. In 1903, $746,946 was received while in the same period of 1904, $778,498 was taken. The increase for this year was $69,952.

Reports were in circulation, Monday, to the effect that a reorganization plan for the American Malting Company is about to be attempted by J. P. Morgan & Co. The firm is reported to hold about $8,000,000 of the bonds, of which the total is less than $20,000,000, and is said to be willing to take up scale down both the common and preferred share capital.

The proceeds of the $1,000,000 first mortgage 4 per cent bonds of the Aurora, Elgin & Chicago Company, to list which application has been made at the Stock Exchange, will be used to pay for a new gas plant which is about completed. The company is contracting by the Yerkes Gas Company, which in turn controlled by the American Light and Traction Company.

The statement of the Elgin, Aurora and Southern Traction Company for October shows a marked improvement in the property, as compared with previous months of the year. The gross shows an increase of over $900, operating a decrease of over $800, but an increase of over $1,700, fixed charges an increase of $180, and surplus for stock an increase of $1,020.

The Chicago *Inter Ocean* says: "There is excellent reason for believing that the directors of the State Bank of Chicago will increase the dividend rate at their next meeting. The directors are scheduled to meet next month to declare the dividend for the quarter ending December 31, and while the usual 1½ per cent for the quarter, it is probable that the payment authorized will be 2 per cent, increasing the dividend rate of the bank from 6 to 8 per cent per annum."

Dispatches from Montreal state that the stock of the Canada Car Company, organized by interests prominent in the Pressed Steel Car Company, has been many times oversubscribed. The stock in issue will be divided into three groups, one representing W. P Coleman and New York associates, the second representing F. W. Morse of Montreal and Grand Trunk Pacific interests, and the third representing Senator Cox and Toronto capitalists. It is possible that the third interest will be identified with the Canadian Pacific Railway, leaving the former interests in the second group with Mr. Morse.

The reorganized United States Shipbuilding Company will be ready for business by Dec. 15. If no hitch in pending negotiations take place the Bethlehem Steel and Ship Building Company will be incorporated and its permanent organization effected within two weeks. The receiver of the old company will commence next week to take up the stocks of the constituent companies of the wrecked concern. Only matters of detail have prevented him from sooner winding up the disposition of assets. On January 1 or about that time he will go to the court and later will ask for an order permitting a distribution to creditors who have filed claims.

A local crop statistician says: "There has been a shortage of moisture so far this season over nearly all the Wheat belt, serious in Kentucky and Tennessee. Except in the Dakotas abound, the amount of irreparable damage is slight. The plant has made less than normal growth above ground, leading the casual observer to believe conditions poor, but it has developed an unusually extra root growth in the effort of nature to find moisture in the subsoil. The present situation is not alarming, and if the winter brings fair snow and rainfall the prospects are bright. Should the fall that forces extra root growth will have been a positive advantage to the crop. Hessian fly reports have been less serious now than either a year or two years ago."

Bryant & May, the English branch of the Diamond Match Company, are offering by advertisement in the London papers $500,000 of 4 per cent debentures, being the unsold portion of the £2,500,000 of 4 per cent debentures authorized a year or more ago by the stockholders. $750,000 having been sold last year. The proceeds to retire the Diamond Match control and the present management.

The directors of the Illinois Brick Company met on Monday. No action was taken regarding dividends. The company has now paid during the present year 4 per cent on the preferred stock, in two instalments of 2 per cent each. It is likely, if business continues good, that the directors at their meeting next month will declare 2 per cent more, making 6 per cent for the year. What will be the policy regarding dividends during the new year has not been announced, but it is the understanding that the management hopes to continue payments aggregating 6 per cent a year, and expects, whenever opportunity presents itself, to make up a portion of the 6 per cent now in arrears on the preferred stock. The continuation of dividends, however, will depend entirely on the earnings of the company.

Unfilled orders on the books of the Westinghouse Electric Company are much greater in volume than at any time during the history of the company. The capacity of the company's various plants has been almost doubled in the past two years, but orders are piling up so fast that it is found that the works are further behind in orders than they were before the extensions were made. Premiums have lately been offered to secure earlier delivery. Thousands of new projects that were held back during the tight money period of the last year and a half are being financed, and orders are being placed for the electrical machinery required by them. The Westinghouse plants are working day and night in efforts to keep up with the business. Pittsburg has not seen such general business activity for years

Since the control of Granby Con-olidated Company passed from the Canadian to the Nichols Chemical-Hill party the stock has been actively dealt in on the Boston Exchange and lately has attracted the attention of many Chicago traders. During the past eight years activity at the property has been largely of a preparatory kind, consolidating properties and erecting a smelter, but the company is now in a position to reap the benefit of all this and should soon be producing 18,000,000 lbs of Copper each year, inasmuch as the smelter, which is one of the largest in the country, is now treating almost 3,000 tons of Ore per day. It is believed that net earnings of $1.0 per ton can be shown, in which case earnings will fall not far short of $750,000 per annum. Under the new plan there will be less than $1,000,000 bonded, for, although the property is believed by some to be capable of producing 6,000 tons of Ore per day, the present smelting capacity is limited to 2,000 tons.

A Montreal dispatch quotes President Pitkin of the American Locomotive Company as saying, after inspecting the Canadian plant: "We are exceedingly satisfied with the progress so far obtained at the Canadian plant, and consider the next ten years will be the most prosperous Canada has ever enjoyed. We have built a number of large type locomotives at the plant here for both the Canadian Pacific and Grand Trunk, and they have been accepted as entirely satisfactory. We anticipate in the future having to use this plant, and we will be in a good position to do business with the other colonies of England. We are enlarging the different parts of the works, and in addition have constructed a new plant capable of turning out 150 locomotives a year. The plant will be enlarged as the demand requires it. Business has improved considerably in the States, and during the last six weeks we have booked more orders than in any similar period during the past year. Without looking for any boom, we expect the year 1905 will be a splendid one. The railroads have all been holding back orders and they are now coming into the market."

Cotton in New York was active, weak and lower. A private crop report made it 11,939,000 bales, compared with 10,300,000 bales last year. Liverpool was lower and selling by local and Southern "longs" heavy. The market closed 38@43 points lower.

The weekly Bank of England's statement shows a decrease of $1,527,170 in bullion. The proportion of the bank's reserve to liabilities is now 45.30 per cent, against 50.51 per cent last week, and compares with a decline from 49½ to 43¾ per cent in this week last year.

The Chicago Warehouse and Terminal Company was incorporated yesterday at Springfield, with a capitalization of $100,000. The company's stock will be owned by the Chicago Subway Company. It will take over the Chicago Dock Company property and do a general warehouse business.

The London *Times* reports the imports of Wheat into the United Kingdom for the ten months ending Nov. 1 at 149,600,000 bu, of which the United States contributed 12,200,000 bu. For the corresponding time in 1903 the imports were 135,200,000 bu, of which 38,100,000 bu were credited to this country.

The Cincinnati *Price Current* reports the packing of the West for the week at 600,000 Hogs, compared with 615,000 for the week previous and 445,000 for the corresponding week in 1903. Total packing in the West since Nov. 1 about 2,245,000 Hogs, compared with 1,900,000 Hogs to date last season, an increase of 345,000.

The Cincinnati *Price Current* in its weekly crop summary says: "No notable change in Wheat crop situation. No relief from dry weather conditions, but time not yet reached when positively discouraging view is called for. Enlarging Corn marketing not likely to seriously disturb market conditions. Aggregate yield indication is unchanged."

Stocks in New York were advanced sharply in the morning, but reacted on persistent selling by large holders. The market became irregular and sold off at the last, with most shares lower. Money stronger at 3½ to 4 per cent. This instigated selling by the "bears." Illinois Central, Northwestern and American Hide and Leather preferred advanced sharply.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Domestic demand continues rather slow with prices in favor of buyers. Bids from abroad are fully 10c per brl below a working basis.

WINTER WHEAT—Was very quiet and without special change. Trade was slow to-day. No. 2 Red in store quotable at $1 11¼@1 12½, and fresh arrivals free on board at $1 13½@1 15. No. 3 Red fresh arrivals free on board quotable at $1 08@1 12. No. 4 Red sold at 90@95c. No. 2 Hard fresh arrivals free on board quotable at $1 09@1 13, and No 3 Hard at $1 01@1 11, with sale of a car at $1 11.

SPRING WHEAT—Very quiet. Choice Wheat the hard variety particularly, would sell; very little arriving and feeling firm. Poor Wheat dull. No 1 Northern fresh arrivals free on board quotable at $1 16@1 19, and No 2 Northern at $1 08@1 14. No 3 Spring nominally $1 02@1 12. No. 4 Spring sold at 94c@$1 02 for fair to choice hard variety, and very poor quotable at 57@60c.

REGULAR WHEAT—Unsettled, with December ⅛c higher, and the more deferred months ¼@⅜c lower. Cash trade was slow, the only orders reported coming from Kansas City and St. Louis. Negotiations for the sale of a round lot of hard Winter Wheat were under way here late to-day. Room traders in Wheat hugged the speculative shore nearly all of to-day, fearing manipulation. There was a sharp upturn early on small deliveries on December contracts, coupled with the strength abroad, the unsettled weather in the Argentine, the stand-off in the changes in the stocks at Minneapolis and Duluth, and the increased Flour output at Minneapolis. The early advance brought out considerable Wheat and a reaction and decline resulted. While the Wheat holders were possessed of some factors, the "bears" seemed to have the best of the news. The promise of snow in Iowa, Nebraska and Kansas, and reports of snow in Kansas to-day, were looked upon by the talent as quite "bearish" and a forerunner of the breaking of the drouth in the Winter Wheat country, although the *Price Current* in its summary says there has been no notable change in the Wheat crop in so far as the outlook is concerned, and the time not reached when positively discouraging news is called for. While the Minneapolis stocks increased a million bushels in five days, those at Duluth are expected to decrease equally as much. The Flour output at Minneapolis for the week increased 19,910 brls, the total being 333,150 brls, compared with 453,150 brls a year ago and 379,755 brls two years ago. Weather conditions in Argentina were reported as unfavorable. Spot Wheat at Liverpool was unchanged to ¼d higher; futures ⅜d higher. London ¼d better. Berlin ⅛c and Buda Pesth ⅜c higher. Antwerp was unchanged. Liverpool stocks were 4,240,000 bu compared with 4,080,000 bu a year ago; Flour stocks 81,000 brls December 1, compared with 62,000 brls a month ago. The Illinois report says: "Wheat maintains a good condition, but is much in need of rain. Plant has made slow growth on account of lack of moisture." Deliveries on December contracts at Minneapolis reported at 1,000,000 bu during the morning. St. Louis reported a sale of 100,000 bu No. 2 Red Winter there late yesterday. A *Broomhall* cable says the heavy tenders at Liverpool this morning were well taken and that Russian offerings were smaller and held higher. The Wheat crop of Uruguay is expected to be as large as the crop of 1894—ten years ago—or about 10,000,000 bu, with an estimated surplus of 4,000,000 bu. Receipts at Duluth 139 cars at Minneapolis 454 cars, a total of 593 cars, against 513 cars yesterday, holiday a week ago, and 667 cars last year. Local receipts included 24 cars Winter, 5 cars Spring and 12 cars mixed, total of 41 cars, against 134 cars last year. Included in above was none contract grade. There were also 16 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 33 cars. The withdrawals were 1,000 bu. Receipts at Western points were 782,288 bu, against 1,026,587 bu last year. At Eastern points 108,107 bu, against 387 907 last year. Shipments from Western points 416,830 bu, against 751,933 last year and from Eastern points 113,176 bu, against 207,556 bu last year. Shipments of Flour were 11 240 brls. Exports of Wheat in Flour were equal to 164,756 bu.

Future Deliveries of Regular Wheat—Fair trade. Prices higher early, but lost most of the advance.

DECEMBER—Sold at $1 07¾@1 09. Opened at $1 08½ to $1 08⅝; sold to $1 08¾, to $1 09, to $1 08⅜, to $1 08½, to $1 08¼, to $1 08½, to $1 08, to $1 08⅜, to $1 07¾, to $1 08¼, to $1 07⅞ to $1 08, and closed at $1 08.

MAY—Sold at $1 09⅛@1 10⅜. Opened at $1 09⅞, sold to $1 09⅞@1 10, to $1 09¾@1 09⅞c, to $1 10⅜, to $1 09⅞, to $1 10⅛, to $1 09½@1 09⅝, to $1 10, to $1 09⅛, to $1 09½@1 09⅝, to $1 09⅜, to $1 09⅝@1 09½, and closed at $1 09¼@1 09½.

JULY—Sold at 98⅜@99¼c. Opened with sales at 99⅛c to 99¼c; sold to 98¾c, to 99c, to 99⅛c, to 98⅞c, to 99⅛c, to 98⅝c, to 99⅛c, to 98⅜c, to 98⅝c, to 98⅜c, to 98⅝c, to 98½@98⅝c, and closed at 98½@98⅝c.

CORN—The close was a shade lower for the day with the market rather tame. Outside business was small. Round lots were quiet, buyers backward. Seaboard reported 9 loads taken for export. There was less business in the Corn market, with a notable feature a falling off in the offerings by houses closely connected with the country that have been such heavy sellers for the past week. Liverpool cables were colorless, while Berlin was up ⅛c. Local receipts were 460 cars, against an estimate of 272 cars; 402 cars are looked for to-morrow. Of this mornings receipts, 254 cars graded No. 3. There were 42 cars and 255,000 bu out of unlicensed houses and 10,300 bu from store. The cash demand was reported as good. Primary receipts were 658,000 bu, against 340,000 bu a year ago. Clearances from the seaboard were 198,000 bu, compared with 154 000 bu same time last year. The weather was against the "bulls" in Corn and the *Price Current* reported the marketing of this cereal as on the increase. Liverpool stocks Dec. 1 1,071 000 bu, against 1,594,000 bu Nov 1. As to the amount of Corn now being turned out by the dryers, nothing definite was obtainable. Late in the day the acceptances were reported as large, with Nebraska the leading seller. Car lots were in fair supply and sales were made at about yesterday's prices, but the close was ½c lower. No. 2 closed at 49c. No. 2 Yellow closed at 52c. No. 3 sold at 46¼c and closed at 45¾c. No. 3 Yellow sold at 46¼c and closed at 46c. No. 4 sold at 45@45½c.

Corn by sample—Was in large supply and demand good. White and low grade Corn opened ¼@½c higher and later declined to yesterday's prices. No. 3 Yellow was ¼c lower. Some samples on the Illinois Central were late in getting on the market and receivers were compelled to accept inside prices for them. Sales on track and free on board: No Grade sold at 31@43½c. No. 4 at 43½@45½c. No 3 at 46@46¼c. No. 3 Yellow at 46¼@46½c. No. 3 White at 46@47c. Billed through: No Grade at 41¼@43c. No. 4 at 43@45c. No. 3 at 44¾@45¼c. No. 3 Yellow at 45@45½c. No. 3 White at 45@45¼c.

Future Deliveries of No. 2 Corn—Trade comparatively quiet and prices fractionally lower.

DECEMBER—Sold at 48⅛c to 48⅞@49c. Opened at 48¾c, sold to 48⅞@49c, to 48⅝c, to 48⅞c, to 48⅛c, to 48⅜c, and closed with sellers at latter.

JANUARY—Sold at 44⅝@45c. Opened at 44⅞c, sold to 45c, to 44⅝c, closing at latter.

MAY—Sold at 45½@45⅞c. Opened at 45⅝c to 45¾c, sold to 45⅞c, to 45⅝c, to 45¾c, to 45½c, to 45⅝c, to 45½c, closing at 45⅝c asked.

JULY—Sold at 45⅝@45¾c to 45⅞c. Opened at 45¾@45⅞c sold to 45⅝c, to 45⅝@45¾c, closing at latter.

OATS—Were sparingly traded in. There was some changing from December to May at 2⅛c to 2¼c difference, but less than on previous days. Local traders were good sellers of May on hard spots. Prices had ¼c range and closed ⅛c lower than yesterday. Arrivals were small, 103 cars, with 77 cars estimated to-morrow. Duluth had 7 cars and Minneapolis 31 cars the latter compared with 54 cars last year. Seaboard clearances 400 bu. Car lots to go to store were steady. No 4 White sold at 30¼c. No. 3 White at 31¼c. Standard at 31½c and in store closed about 29@29⅛c.

Oats by sample were steady, with moderate offerings and a fair demand. Sales on track and free on board: No 4 sold at 28½c. No. 4 White at 29@30½c. No. 3 White at 30½@31¾c. Standard at 30½@31¾c. No. 2 at 30c. No. 2 White at 31@32c. Billed through: No. 4 White at 29½@29¾c. No. 3 White at 30½@31½c. No. 2 at 29½c. No. 2 White at 31@31½c. At the river: No. 4 White at 24½@29c. No. 3 White at 28½@31½c. Standard at 30¼c. No. 2 White at 30¼@30¾c.

Future Deliveries of Contract Oats—Were easy with light trading.

DECEMBER—Sold at 29@29⅛c. Opened at 29⅛c sold at 29c at close.

MAY Fairly traded in. Sold at 31⅛@31⅜c. Opened at 31¼c to 31¼@31⅜, sold to 31⅛, to 31⅛@31¼c at close.

JULY—Sold at 31⅛c and at 31¼@31⅜c. Opened at 31¼c, sold to 31¼c, to 31⅜c, to 31⅛c, to 31⅛@31¼c at close.

RYE—Was dull and lower for futures and steady for fresh receipts. A little demand existed for cash, but futures neglected. December contracts evidently all provided for, and no interest in the market. Receipts four cars and there were no withdrawals from store here and no exports from New York. No. 2 in store nominally 73@75c, and fresh arrivals free on board sold 75½@79c. No. 3 fresh receipts sold at 76½c.

Future Deliveries of No. 2 Rye—Neglected. December 72c bid and 75c asked. May 77c bid and 78c asked.

BARLEY—The market was quieter than it has been the previous days this week. Offerings were smaller. Not many buyers in attendance. The cheaper grades were steady. Arrivals small. It was said also that country buyers were not getting much of the cheaper Barley; it had got down low, where farmers do not care to sell. Medium and good malting was salable and steady. Some negotiations for round lots to arrive were said to be in progress but no transactions reported, though rumor had it that 50 000 bu had been sold. Choice to fancy Barley without special demand and quotably easy. There were 32 cars inspected in. Screenings were quotable at 25@38½c for poor dirty to very choice, and sales made at 28@38½c. Barley—low-grade feed quiet and quotable at 38c local and at 36@37c at the river. Malting, low grade, small berry, or heavy but dirty, quotable at 39@41c; clean fair to good, at 42@45c, and large berry, heavy, good color, quotable at 46@47c, with choice to fancy 48@50c.

SEEDS—Very little was done. There were no changes developed unless it was that future delivery Timothy was easier early and then reacted.

Timothy—Was about steady. March delivery opened 2½c lower, with a sale at $2 82½. After this it was held at $2 85 for a car and that figure bid for ten cars. Near futures inactive with contract Seed December delivery nominally $2 70 and January about $2 72½. There was little cash Seed offered. No change developed in this branch of the market. Small sales were made at $2 20@2 45. Country lots were quotable at $1 75@2 70 for low grade to fancy; inferior lower; fair to good, $2 40@2 50, and rough, dirty or hulled, $2 20@2 35.

Flax—The market was again very quiet. Prices were entirely unchanged. There really was no feature of interest to note. Four cars, or 3,600 bu, were received, and 2 cars, or 1,696 bu, were taken out. In the Northwest receipts of 26 cars at Minneapolis and 148 cars at Duluth were reported. No. 1 Northwestern remained at $1 19, though part of a car sold at $1 18. Small lots never bring up to car-lot prices. No. 1 was nominally $1 11. Rejected, depending on quality, quotable at $1 08@1 15. December sold sparingly at $1 11. May was offered at $1 20.

Clover—Was quoted as steady and it was said that full lately quoted prices could be could be obtained. There was little Clover on sale and such being the case the market was quiet. Contract grade, spot being quoted at $12 25. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—Were quotably steady and salable at quotations which follow. Hungarian at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice. German at 90c@$1 25. Siberian at 60@80c. Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c. Mustard about 75c@$1 00. Buckwheat, good milling quotable at $1 25.

HOG PRODUCTS—The market for Hog Products attracted considerable speculative attention, and the volume of business was fairly large. Outside orders were fair, and local trading was rather brisk. Offerings were rather free, and the demand was fairly active. Feeling was considerably unsettled and prices irregular, with fluctuations confined within narrow ranges. Market opened rather steady, with fair miscellaneous buying orders, and slight advances were gained. After the early orders were provided for there was some pressure to sell, mainly from packers and "longs", and a weak feeling was developed. Prices declined moderately on all the leading articles. During the latter part of the session a little more steadiness was manifested, with a slight recovery in prices, and the market closed steady around medium figures. Trading chiefly in January and May contracts. Deliveries were moderate and confined to Mess Pork. Hogs were in rather good supply, and prices were without material change. Receipts at the leading Western packing points were estimated at 107,400, compared with 79,000 one year ago. Returns of the packing of the West for the week exhibited an increase of 155,000 Hogs, compared with the returns for the corresponding week in 1903. Foreign markets were rather steady for Meats, though Cumberland Sides were quoted 6d lower, and Lard was easy at 3d decline. Domestic markets rather steady. Receipts of Products were liberal—of Lard and Meats about 34 cars. Shipments were moderate—of Lard and Meats about 94 cars. Demand on shipping account was fair in a quiet way, and offerings were not very large. Sales were moderate and not fully reported. Prices without material change.

Mess Pork—Quite a good business was reported in Mess Pork and the feeling was somewhat unsettled. Prices fluctuated considerably. Deliveries on December contracts were about 7,500 brls. January and May deliveries attracted considerable attention. Opening trades were made at 2½c advance, and prices ruled steady temporarily. Later, there was some pressure to sell, and prices irregularly declined 12½@15c. Toward the close the feeling was steadier, prices rallied 2½@5c, and the market closed comparatively steady. Shipping demand was moderate and offerings were fair. Cash lots quotable at $11 40@11 45 for regular, with repacked at 10@15c discount.

DECEMBER—In moderate request and offerings were fair. Scattered sales were made at $11 30@11 45, and closed steady at $11 40.

JANUARY—In rather good demand and offerings were moderately free. Sales were made at $12 77½@12 92½. Opened at $12 92½, sold to $13 00, to $12 92½, to $12 80, to $12 87½, to $12 82½, to $12 87½, to $12 77½, to $12 80, to $12 77½, to $12 80, and closed steady.

MAY—Offerings were rather free, and the demand was fairly active. Sales were made at $12 97½@13 12½. Opened at $13 12½, sold to $13 10, to $13 12½, to $12 97½, to $13 07½, to $13 02½, to $13 07½, to $13 02½, to $13 05, to $12 97½, to $13 00, to $12 97½, to $13 00, and closed steady.

Lard—Rather a good trade was reported in the Lard market, and the feeling was comparatively steady. Offerings were rather free, while the demand was moderately active, and partially from "shorts." Foreign advices were unfavorable to holders. Trading chiefly in January and May deliveries. Market opened rather steady, with fair miscellaneous buying, and prices were steady. Later, a weaker feeling was developed, with some pressure to sell, and prices receded 5@7½c. Toward the close, a little more steadiness was manifested, and prices rallied 2½@5c, and the market closed steady. Demand on shipping account was limited with light offerings. Cash lots were quiet at about January figures, closing at about $6 95. Loose lots in moderate request, with fair offerings. Prices were quotable at 45c discount on January figures. Leaf Lard was in moderate demand, with fair offerings. Prices quotably steady at $6 62½. Neutral in light demand, with only fair offerings. Prices quotably easier at $7 87½@8 00 for No 1, and $7 37½@7 50 for No. 2.

DECEMBER—Quiet and quotable at $6 90.

JANUARY—Offerings were moderately free, and the demand was moderately active. Sales were made at $6 95@7 00. Opened at $7 00, sold to $6 95, to $6 97½, to $6 95, to $6 97½, to $6 95@6 97½, to $6 97½, and closed steady.

MAY—In rather good demand and offerings were fairly liberal. Sales were made at $7 12½@7 20. Opened at $7 20, sold to $7 12½, to $7 17½, to $7 15, $7 17½, to $7 15, to $7 15@7 17½, and closed steady.

JULY—Quiet, with small sales at $7 25.

Short Rib Sides—Trade was rather active in the market for Short Rib Sides, and the feeling was a little unsettled. Offerings were rather free, and mainly from packers while the demand was fairly active. Trading exclusively in January and May contracts. Market opened rather firm, with fair miscellaneous buying, and prices ruled about 2½c higher. Later, there was considerable pressure to sell, and a weak feeling prevailed. Prices receded 5@10c. Toward the close the market was steadier, and prices rallied 2½@5c, and the market closed steady at about medium figures. Shipping demand was moderate, and offerings were small. Cash lots quotable at $6 62½@6 75 according to weight and age.

JANUARY—In moderate request and offerings were fair. Sales were made at $6 52½@6 57½. Opened at $6 55@6 57½, sold to $6 52½, to $6 55, to $6 52½ to $6 55, and closed steady.

MAY—Offerings were rather free, and the demand was fair. Sales were made at $6 70@6 80. Opened at $6 77½, sold to $6 80, to $6 7?, to $6 72½, to $6 70, to $6 72½@6 75, to $6 72½, to $6 75, to $6 70@6 72½, to $6 72½@6 75, and closed steady.

Other Meats—Trade only moderate and the feeling was steady. Domestic demand was only fair, and orders from abroad were limited. Offerings of all kinds were not very large. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices were unchanged. Dry Salted Meats in fair request, with moderate offerings, and prices ruled steady. Smoked Meats called for moderately, and prices were unchanged. Closing prices were as follows:

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city

Minneapolis mills have again increased their output. They ground 19,920 brls more last week than the week before. The mills are now experiencing some difficulty from anchor ice To-day (Tuesday) two mills with united capacity of 15,000 are down for this cause. Owing to uncertainty about the mills running, it is not easy to form an estimate of output for the current week, but present indications point to a probable output in the neighborhood of 300,000 brls.

In some cases mills report larger sales and a more active demand during the last week than the week before. Other mills report sales light and not quite so good as the week before. No doubt many shipping orders were sent in with the idea of getting the Flour out before the close of navigation. While sales have increased somewhat in volume, millers still complain that prices are such as to leave them no satisfactory margin of profit.

Prices are still too high for an active export trade. Exporters say that business is almost at a standstill Millers report some sales of Clears, but Patents as a rule are not salable abroad.

With the heavier running of the mills and the approaching change in freights, feed business is a little uncertain. Prices for prompt shipment are a little lower than a week ago, and demand is reported to have fallen off somewhat. But prices for future shipment are higher than for present delivery, indicating that the feed men do not expect the mills to run so heavily after the close of navigation. An average price on bulk Bran f.o.b. Minneapolis to-day is $14 25@14 50.

For Patent Flour Minneapolis and outside mills quote $5 65@5 75 per brl in wood f.o.b Minneapolis.

Eastern prices to day (Nov. 29) asked by Minneapolis and outside mills for Patent in wood, were: Boston rate points, $6 25, New York rate points, $6 20; Philadelphia rate points, $6 15; Baltimore rate points, $6 0; Albany rate points, $6 20; Utica, Syracuse, Hornellsville and Rochester rate points, $6 15; Ohio, lower peninsula of Michigan and Indiana, $6 05 upper peninsula of Michigan, in sacks, $5 75; Missouri points, $5 65; Wisconsin, Iowa and Illinois, $5 80

Kansas and Southwestern mills generally are closing down to await renewed activity in the demand for Flour, and mills in the vicinity of St. Louis are doing likewise. In the Middle States mills have not been active for some time and present conditions do not warrant any change of tactics. It is the very general opinion among millers that stocks in domestic markets are heavier than they have been led to believe and, if so, this fact accounts in a measure for the very small demand from buyers. The latter continue to pursue the hand-to-mouth policy of buying and evidently are awaiting a further decline in Flour.

Glasgow cables to day that the Flour market remains in a listless state, with buyers operating only for immediate wants. Some Minnesota first Patent has been sold for shipment. Prices of Winter Wheat grades are prohibitive. There is no change to note in the Liverpool or London markets, both remain quiet. Amsterdam reports that good Clear is freely offered at under mills' prices by exporters and some business has resulted Otherwise the Dutch market is quiet, with sales confined to small lots.

FREE TRADE FOR GOLD.

[From the Wall Street Journal.]

The entire lawful money reserve of the National banks of the United States last September amounted to $661,456,529, of which $175,077,020 was Gold Treasury certificates, and $53,655,000 Gold Treasury certificates payable to order. The aggregate of Gold in the reserves was $418,130,883, or over 83 per cent of the whole, and the Gold certificates amounted to 54 per cent of all the Gold and nearly 35 per cent of the entire money reserve. Gold certificates have therefore become the chief bank reserve money. But the issue of Gold certificates must be suspended whenever the Treasury Gold reserve falls below $100,000,000, and this provision practically requires the coinage of a vast amount of Gold which would be much more serviceable in the form of bars. During the first six months of the year the redemption of legal tender notes in Gold coin was only $6,591,000, while in the same time Gold certificates to the amount of $60,790,000 were redeemed in Gold bars. A Washington dispatch to the *Evening Post* declares that the bureau of the mint will ask Congress to repeal the provision which practically requires that two-thirds of the Gold reserve shall be in coin.

What would be the most probable objection to this proposition? Undoubtedly that it would facilitate the export of Gold. There is a large trade demand for Gold bars, but the principal demand comes from shippers of Gold. The small assay office charge for bar Gold of 10c per $1,000 does not serve as a check on exports. Shippers prefer to pay this charge for bar Gold than to ship coin which may be depreciated in value by abrasion. In the recent Gold movement we have had a striking exhibition of the preference of shippers for bar Gold.

Now an increase in the amount of Gold held in the form of bar Gold would thus be in the favor of shippers of Gold. But is this any reason for not keeping the Gold in the Treasury in the shape most desired by bankers engaged in the great business of clearing the commerce of the country? Whatever may be the practice of other nations, whatever may be their special conditions, there can be no doubt that the United States now profits most by a system of virtual free trade in Gold. With our currency now grounded upon the Gold standard, and with the "endless chain" of redemption broken, there is no reason why we should fear the export of Gold. The more freely we permit Gold to be taken, the more easily it returns to us. We are actually gainers by being the freest market for Gold in the world. In a striking way this illustrates the benefits of a free trade system, and it suggests the desirability of so modifying our tariff system as to make a freer and therefore larger market for commodities.

AN INDEX TO BUSINESS.

[From the Wall Street Journal]

Bank clearings at the principal centers of the United States are about as good an index to general business as can be obtained. For this reason the table which follows is interesting and of some importance. It gives the aggregate bank clearings by months in the United States for the years 1902, 1903, and 1904 to date:

	1904	1903.	1902.
January	$9,135,174,001	$11,088 982,021	$10,670,488,830
February	7,713,987,788	8,468,707,464	8,359,075,922
March	8,383,106,307	9,682,278,075	9,852,679,652
April	8,309,188,924	9,581,668,029	10,926,088,598
May	8,215,917,282	9,118,534,323	10 386,241,378
June	8,056,422,305	9,422,181,900	8,208,741,458
July	8,660,311,721	9,767,845,663	10,170,632,777
August	8,008,068,912	7,921,222,126	8 913 669,502
September	8,844,278,813	7,673,849 870	10,157,713,727
October	11,509,696,705	9,176 520,544	11,357,121,573
November	....	8,169,919,664	10,087,071,172
December	....	9,295,356 471	9,884,774,053

It is worthy of note that August of this year was the first month to show an improvement over the corresponding month of 1903, and October was the first month of 1904 to show an improvement over the corresponding month of 19 2. The year 1902 was one of great activity, and also one of heavy speculation in the Stock market, so that the comparison of October, 1904, with October, 1902, is fair in every way. It is evident from the figures that the country is doing a very large business, and it is not difficult to see whence come the railroad earnings which have been the great factor of strength in the security market. It is further to be noted that the clearings for October, 1904, are the largest for any single month in the thirty-four months covered by the table.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 8 below zero to 14 above; snows general. Northwest—Temperatures, 2 to 24; cloudy, light scattered snowfall. West—Temperatures, 22 to 30; partly cloudy. Southwest—Temperatures, 28 to 48; clear. Ohio Valley—Temperatures, 32 to 38; partly cloudy.

No rain in Winter Wheat belt.

Indications are for unsettled weather in this district, with probably snow over the northern portion. Moderating temperatures will be followed by colder Friday afternoon or night.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Nov. 30]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 42 "outside mills" with a daily capacity of 32,180 brls, from Jan. 1, 1904, to Nov. 19, 1904, with comparisons:

	1904 Flour, brls.	1904 Wheat, bu.	1903 Flour, brls.	1903 Wheat, bu.
Minneapolis	11,915 890	53,622,000	13,458 830	60,555,000
Duluth	719,820	3,240,000	1,015,985	4,572,000
42 outside mills	6,215,140	27,970,000	6,549,015	29,471,000
Totals	18,850,850	84,832,000	21,023,830	94,608,000

These figures represent the approximate consumption of 9,776,000 bu less Wheat this year than in 1903. This has occurred from the mills of Minneapolis and Duluth as well as the outside mills turning out 2,172,980 brls less Flour than in 1903.

WHEAT AT PRIMARY MARKETS.

The following table shows the receipts of Wheat at Winter and Spring Grain markets for twenty two weeks, from June 27 to Nov. 28, with comparisons, as compiled by the Cincinnati *Price Current:*

ITEMS OF GENERAL INTEREST.

The Milwaukee Flour production for the month of November was 138,877 brls, against 162,960 brls in the corresponding month last year, and 199,500 brls in 1902.

The London and Chicago Contract Corporation, Ltd., has declared a dividend of 2 per cent upon its ordinary stock, payable Dec. 10. Books close Dec. 5 and reopen Dec. 12.

The plant of the Huntington Tumbler Company, in Central City, W. Va., which was closed owing to the strike of employes a week ago, resumed operations, Tuesday, with nonunion men.

The Chicago and Northwestern contemplates building about 150 miles of new road. The most important line in contemplation will run from Sheboygan through Green Bay to Eland Junction, and will be upward of 100 miles in length.

An official of the Republic Iron and Steel Company is quoted as follows: "We could stop taking orders in all departments and still run full capacity until midsummer. The demand for everything carries with it urgent request for early delivery."

J. B. Fleshman & Co., brokers, Philadelphia, made an assignment Tuesday. The firm had offices in Wilmington, Atlantic City, Trenton, Harrisburg, Coatesville, Pottstown, and other Pennsylvania cities. The rise in the price of Stocks is given as the reason for the failure.

The holdings of Reading securities by the Baltimore and Ohio were increased materially during the last year, and presumably Lake Shore also added to its investment in Reading. The change in Baltimore and Ohio's Reading holdings is shown in the following table of the different classes of stock owned in the years named, the par value being given:

	1903.	1904
Reading common	$7,500,000	$13,952,500
First preferred	6,065,000	6,065,000
Second preferred	13,990,000	14,265,000
Totals	$27,555,000	$34,282,500

The Comptroller of the Currency has declared dividends in favor of creditors of insolvent national banks as follows: A second dividend of 25 per cent in favor of creditors of the Citizens' National Bank of Beaumont, Tex., making in all 75 per cent on claims proved amounting to $275,543. A final dividend of 10 per cent in favor of creditors of the First National Bank of Mathews, Ind., making in all 30 per cent on claims proved amounting to $76,123.

A Boston dispatch says: "The Wool market has been more quiet than in recent weeks, with a firm tone prevalent. The quiet tone results from a genuine scarcity of Wool in the grades chiefly in demand The surplus has disappeared and buyers are now seeking for enough Wool to supply the trade for the rest of the year. Territory Wools have sold freely in the generally quiet market. Pulled grades are strong at advanced prices. The foreign market is firmer."

Mark Lane Express of Nov. 14 says: "The splendid weather for the time of year has made the market difficult to maintain; nevertheless there is a decidedly firm substratum of opinion. The fine start made by the Wheat sown in October is undoubted, the increased acreage is not contested: yet it is proverbially a far cry to Loch Awe. The harvest which will not be yellowing before the end of next July is not capable of exercising much influence on the market like Mark Lane, which seldom looks more than a couple of months ahead."

The second mortgage bonds of the People's Gas Light and Coke Company, Chicago, bearing 6 per cent and amounting to $2,500,000, will be paid off to-day. This will make $4,800,000 6 per cent mortgage securities retired by the company during the present year. Of the $40,000,000 5 per cent refunding mortgage bonds issued in 1897, $29,046,000 were reserved to retire prior bonds, of which $7,260,000 have been issued, including the $4,8 0, 00 sold to retire the several issues maturing this year. The year's refunding operations represent an annual saving in interest of $40,000.

By a decision, Tuesday, the New York State Court of Appeals declared unconstitutional the the labor law which prohibits a contractor from employing his men more than eight hours a day on city, county or State work. Since its enactment in 1897 this statute has been almost continually before the courts. The decision was given in an action brought by Harry Cossey to compel payment by the city of New York for $28,215 for six scows. Payment was refused on the ground that he had violated the terms of his contract by employing his men over eight hours a day.

A New York dispatch says: "It is stated on good authority that the Boston and Montana is to declare a dividend of $100 per share. This means $15,000,000 from the Boston and Montana to the Amalgamated company's treasury, which would enable the company to pay its floating debt of $8,000,000 due to the directors of the Amalgamated Copper Company, and give the Amalgamated a cash capital of about $7,000,000, or about $5 per share, but the Boston and Montana would be relieved thereby of substantially all its cash surplus, and the other subsidiary companies of the Amalgamated company are not believed to have any surplus assets."

The Secretary of Agriculture in his annual report devotes considerable space to discussing the experiments with borax in food. He says that the argument that small quantities of deleterious substances may be used without harm is not logical, nor can it be based on the results of the experiments which have been made. The value of both borax and boric acid as remedies in medicine cannot be denied, but the Secretary contends that the fact that any remedy is useful in disease does not logically warrant its use at any other time. His final conclusion is that both boric acid and borax continuously administered in small doses for a long period, or given in large quantities for a short period, create disturbances of appetite, of digestion, and of health

United States Circuit Judge Morrow, at San Francisco, has handed down a decision in the case of the Inter-State Commerce Commission against the Southern Pacific Company, the receivers of the Union Pacific Railway Company, and the Union Pacific Railroad Company in favor of the railroads The point at issue was the right of the Commerce Commission to declare unjust a rate on Sugar from San Francisco to Kearney, Neb., as compared with the lower through rate to Omaha, Neb The court found that the rate established by the defendent companies was not unjust, that the commission has no right to legislate, and that the Union Pacific Railroad Company could not be bound by the order of the commission anyway, it not being a party to the original suit.

Justice Clarke of the New York Supreme Court, Tuesday, awarded judgment for $1,087,074, against Alexander M Curtiss of Buffalo and in favor of Archibald A. Hutchinson and other stockholders of the American Malting Company. The judgment represented dividends said to have been declared and paid illegally. Hutchinson charged in his complaint that the dividends had been paid out of the capital instead of out of net profits, and Justice Clarke finds that this was true between July 15, 1898, and Oct. 15, 1899, except for one dividend declared in April, 1899. In the decision Justice Clarke says: "It does not seem to me that in these days of great corporations and of combinations into one of many corporations, it is asking too much of the directors that they should obey the law of their incorporation, and not bring their companies to the verge of bankruptcy and ruin by the payment of quarterly dividends on preferred stock out of capital instead of earnings."

The special Illinois crop bulletin for November says: "The mean daily excess in temperature averaged about three degrees. Except cool periods of short duration about the 10th and the latter part of the month, the temperature was above normal. There was almost a total absence of rainfall, drouthy conditions prevailing through the preceding month continuing. While the weather has been unfavorable for grasses and fall sown Grain, the most favorable conditions have prevailed for husking and garnering Corn. Fall plowing and sowing have been retarded by lack of moisture. The greater part of the Corn crop has been husked and cribbed, and a considerable amount has been marketed. The crop is generally well matured, there being little unripe at the time of killing frost. The principal damage ensued from prostrating winds in September, but the proportion injured is inconsiderable Wheat still maintains a good condition, but is much in need of rain. The crop has made slow growth because of lack of sufficient moisture. Rye also is backward."

The Chicago *Inter Ocean* says: "At a joint conference in New York the freight officials of Eastern and Western railroads signed an agreement to absolutely maintain tariff rates during 1905. The agreement further provides that any line which reduces, either openly or secretly, the present basis of rates shall not be given any business by the other roads. Imperative orders to maintain rates were given by the presidents of the railroads to the traffic officials The presidents fear that serious troubles would result from an attempt to reduce the wages paid their employes and believe that only by strictly maintaining freight rates can they avert a comparative decrease in earnings So long as the volume of traffic exceeds that of last year the agreement to maintain rates will be observed, but if business should decrease competition probably would result in a reduction of rates."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Dull and neglected Local stocks reported at 32,500 brls, against 30,500 brls one month ago and 37,900 brls one year ago.

WINTER WHEAT—Was quiet and slow. Choice soft winters were scarce and wanted, but poor Wheat and the Hard winters were reported slow No quotable change in prices No. 2 Red in store quotable at $1 11⅛@1 12¾, and fresh arrivals free on board at $1 14@1 15. No. 3 Red fresh arrivals free on board quotable at $1 08@1 12. No. 4 Red sold at $1 03@1 05. No. 2 Hard fresh arrivals free on board quotable at $1 09@1 13, and No 3 Hard at $1 02@1 10.

SPRING WHEAT—Very quiet. Choice Wheat the hard variety particularly, would sell; very little arriving and feeling firm. Poor Wheat dull and not wanted. Several cars of poor No. 4 offered, not sold. No. 1 Northern fresh arrivals free on board quotable at $1 16@1 20, and No. 2 Northern at $1 08@1 15. No. 3 Spring nominally $1 03@1 12. No. 4 Spring sold at 68@77c for poor and common, and quotably $1 02 for choice.

REGULAR WHEAT—There was a fair trade and stronger tone to the market, the close showing gains anywhere from ½@⅝c to 1⅛c. The early tone was rather easy on reports of better weather in Argentine, lower cables and breaking of the drought by snows in parts of the Winter Wheat belt The forecast of large shipments from India 3,144,000 bu was also a factor. At the declines established the demand became more urgent. Local professionals bought and the Northwest was credited with purchases. Argentine shipped 920,000 bu, making 90,909,000 bu since January 1, compared with 61,560,000 bu last year. The visible there was reported 1,800,000 bu, against 2,204,000 bu last week and 960,000 bu one year ago. Argentine markets were reported firm with a fair export demand. The weather there was said to be improving and harvest reports better. Liverpool quoted spot ¼d higher to ¼d lower, and futures unchanged to ⅝d lower. Receipts there the past three days 648,000 bu and only 80,000 bu from America. Paris was up ¼c. Antwerp and Berlin were steady. Buda Pesth was ⅛c lower. An Odessa cable read: "We take a favorable view of the situation; Wheat receipts decreasing; Wheat shipments decreasing." Primary receipts were 138,000 bu less than a year ago. Northwest cars about the same as in 1903 Kansas City and St. Louis received 174,000 bu. against 248,000 bu one year ago. Minneapolis stocks were reported increased 1,295,000 bu this week. The president of the Kansas Grain Dealers' Association was quoted as saying the Wheat crop in that State had been damaged about 40 per cent by dry weather. Clearances for the week were 1,101,000 bu and since July 1 foot up 30,774,000 bu, against 74,511,000 bu in 1903. Receipts at Duluth 88 cars at Minneapolis 632 cars, a total of 720 cars, against 593 cars yesterday, 1,118 cars a week ago, and 701 cars last year. Local receipts included 8 cars Winter, 3 cars Spring and 4 cars mixed, total of 15 cars, against 56 cars last year. Included in above was none contract grade. There were also 19 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 58 cars. The withdrawals were 20,900 bu. Receipts at Western points were 925,680 bu, against 1,664,324 bu last year. At Eastern points 65,947 bu, against 308,591 last year. Shipments from Western points 1,030,166 bu, against 658,023 last year and from Eastern points no bu, against 183,310 bu last year. Shipments of Flour were 25,947 brls. Exports of Wheat in Flour were equal to 116,761 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher.

CORN—There was only a moderate trade, largely local, with the range narrow. Feeling manifested was fairly steady, and the close was a shade better for December, May unchanged and July up 1-16c. Market was without any special feature May was wanted at 45½c, and December was in fair request, deliveries still being meager. Receipts were a little larger than expected at 430 cars, 175 cars being low grades and 285 cars are estimated for to-morrow. Liverpool quoted spot steady and futures ¼@⅜c lower. Receipts there the past three days 291,000 bu, of which 34,000 bu came from America. Country acceptances were fair. Argentine shipments were liberal, 2,520,000 bu, making 91,183,000 bu since January 1, against 72,911,000 bu for the same period in 1903. The visible is now 3,231,000 bu, against 3,821,000 bu last week and 2,762,000 bu one year ago. Local arrivals were 352,000 bu and shipments 471,000 bu. Outinspection was larger at 311,000 bu. Exports this week 365,000 bu, making 11,629,000 bu since July 1, against 25,290,000 bu one year ago Shipping demand was fair and sales 200,000 bu. Western receipts 815,000 bu, against 489,000 bu one year ago. Shipments 622,000 bu and 252,000 bu respectively. Snow and much colder weather was predicted by the signal service. Philadelphia reported the foreign demand slow. At close New York claimed 40 boat loads accepted Car lots were in fair demand and offerings moderate Prices were ¼@¾c lower. No. 2 closed at 48½c and No. 2 Yellow at 50c No. 3 sold at 45¾c and closed at 45½c. No. 3 Yellow sold at 45¾@46c and closed at 45½@45¾c.

Corn by sample—Was weak and ¼@¾c lower. Offerings moderate and demand fair. Sales on track and free on board: No Grade sold at 41@43c. No. 4 at 43@45½c. No. 3 at 45¾@46¼c. No. 3 Yellow at 45¾@46½c. Future Deliveries of No. 2 Corn—Rather quiet and inactive, closing shade lower to a trifle higher.

DECEMBER—Sold at 48c and 48⅝@48¾c. Opened at 48⅜c to 48¼c and sold at 48c, to 48⅝c, to 48½c, to 48⅝@48¾c, to 48¼c, to 48⅜c, to 48¼c, to 48⅜@48½c and closed at 48⅜@48½c

JANUARY—Sold at 44⅜@44⅝c Opened at 44½c, and sold at 44⅜c, to 44⅝c, to 44½c; closed at 44½c.

MAY—Sold at 45½c and 45⅝@45¾c. Opened at 45⅝c to 45½@45⅝c and sold at 45½c, to 45⅝c to 45½c, to 45⅝@45¾c, to 45½c, to 45⅝@45¾c, to 45⅝c, and closed at 45⅝c bid.

JULY—Sold at 45⅝@45¾c and 45¾@45⅞c. Opened at 45¾c and sold at 45⅝@45¾c, to 45¾@45⅞c, to 45¾c, and closed at 45¾c bid.

OATS—Were stronger and December gained ⅛@¼c and May ⅛c. Trading was moderate and largely in changing from December to May and May to July, the latter being done even. Prices had ¼c range. Cash business was 50,000 bu. Arrivals small, 81 cars, with 52 cars for to-morrow. Withdrawals were 20,000 bu. Seaboard clearances were 28,000 bu. Car lots to go to store were steady No. 4 White at 29½@30c. No. 3 White at 30@31c. Standard at 32c. Standard in store closed about 29¼c

Oats by sample were in moderate request and prices steady. Offerings were small. Sales on track and free on board No. 3 White sold at 30½@32c. Standard at 31½@32c. No. 2 White at 32@32¼c Billed through. No. 3 White at 30¼@30¾c. Standard at 31@31¼c. At the river: No. 4 White at 27½@29c. No. 3 White at 28½@30¼c Standard at 30c.

Future Deliveries of Contract Oats—Were stronger, with moderate trading

DECEMBER Sold at 29@29¼c. Opened at 29c, sold to 29¼c, closed at 29⅛@29¼c

MAY—Moderate trading. Sold at 31⅛c and at 31¼@31⅜c. Opened at 31⅛c to 31¼c, sold to 31¼@31⅜c, 31¼c at close

JULY—Sold at 31⅛@31¼c and at 31¼c Opened at 31¼c, sold to 31⅛@31¼c, to 31¼c; closed at 31⅛@31¼c

RYE—Was quiet and steady. Moderate demand for car lots of fresh receipts and the offerings were light Futures were slow and little interest in the market Receipts small—only two cars. There were no withdrawals from store here and no exports from New York No. 2 in store nominally 73@75c, and fresh receipts free on board sold at 78½c

Future Deliveries of No. 2 Rye—Quiet and unchanged December 73c bid and 75c asked. May sold at 77c and closed at 77c bid and 78c asked.

BARLEY—The under grades of malting or rather common to good were favored with a fair demand. A steady market for this kind quoted. Choice to fancy grades were dull and easy, possibly a shade lower. Some was carried over because the bids were not satisfactory. The weather also was too dark to properly judge such grades. Maltsters complain they cannot sell the higher grades of Malt, hence little call for high grades of Barley. Very little low grade or feed coming in; farmers do not seem to be selling it. Thirty-eight cars inspected in to-day. Screenings remain quotable over a range of 25@38½c for poor dirty to very choice, and sales made at 28@37c. Barley—low-grade feed about nominal and quotable at 38c local and at 36@37c at the river. Malting, low grade, small berry, or heavy but dirty, quotable at 39@41c; clean, fair to good, at 42@45c, and large berry, heavy, good color, quotable at 46@47c, with choice to fancy 48@49c. There were rumors of large sales to arrive, but the only business reported was 60,000 bu at 42c

SEEDS—It was very quiet about this market. Of all Seeds the offerings were small. Feeling steady to firm. Principal changes were in Flax and Clover; both were higher. Timothy quiet and firm

Timothy—Was quotably steady to firm. Little was done. March delivery sold sparingly at 2½c advance. More was offered and the demand was soon satisfied Cash offerings small. That branch of the market was very quiet, with nothing new to note. Cash sales were at $2 40 for fair quality down to $1 10 for a little inferior. Country lots were quotable at $1 75@2 70 for low grade to fancy; inferior lower; fair to good, $2 40@2 50, and rough, dirty or hulled, $2 20@2 35. December delivery was nominally $2 70 and January $2 72½. March sold at $2 87½ and was offered at that

Flax An advance of 2c in the quotations was made, and it was due to the influence had by higher quotations in Northwestern markets. Offerings remain very small and the only business done was the selling of a small quantity for December delivery. No. 1 Northwestern was quoted at $1 21 bid and $1 13 bid for No 1. Rejected nominally $1 10@1 18 depending on quality. December sold at $1 13 and that was bid May was held at $1 23. Local movement showed only 1¼ cars or 1,125 bu received and none taken out. Minneapolis got 45 cars and Duluth 86 cars.

Clover—Was quoted firm, with about 25c advance. Advices from other points were stronger. Offerings by the country smaller, crop being well out of first hands Order trade rather better than it has been. Contract grade, spot quoted at $12 50. Country lots, common to choice, $7 00@12 25; very poor lower, and fancy above Fair to good, $9 75@11 50.

Other Seeds—Inactive and nominally steady. Hungarian at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c Mustard about 75c@$1 10. Buckwheat inactive; good milling quotable at $1 25.

HOG PRODUCTS—Considerable interest was manifested in the market for Hog Products, and the volume of business was quite large The stocks reported on hand indicated little change from those of one month ago, notwithstanding the larger supply of Hogs, and the increase reported in the packing, and this was regarded as a strengthening feature. Hogs were in fair supply and prices higher, and the Grain markets were comparatively firm, all of which had some effect in a general way. Outside orders were fair, and local trading was quite large. Offerings were fair, and the demand was rather active, with a good proportion credited to "shorts." Prices were advanced on all the leading articles, and was fairly well supported to the close Bulk of the business was transacted in January and May contracts Receipts of Hogs at the leading Western packing points were estimated at 81,100, compared with 82,700 one year ago Foreign markets were firm at unchanged prices. Domestic markets were comparatively steady. Receipts of Products continue liberal of Lard and Meats about 34 cars Shipments were only fair—of Lard and Meats about 115 cars. Shipping demand was moderate in a quiet way, and mainly for the wants of the domestic trade. Exporters bought sparingly. Offerings were not very large. Supply of fully cured Products rather light. Sales were moderate, and prices were a little more favorable to sellers

Mess Pork—Quite an active business was transacted in the market for Mess Pork, and the feeling was decidedly stronger Offerings were fair, and the demand was brisk, with trades chiefly in January and May contracts. Stock decreased about 2,000 brls during November. Prices on the whole range were advanced 20@22½c early, but settled back 12½@15c about the middle of the session Toward the close rallied 10@12½c, and the market closed rather steady. Shipping demand was light, and offerings were moderate Cash lots were quotable at $11 50@11 55 for regular, with repacked at 10@15c discount

DECEMBER—Quiet with small sales at $11 50.

JANUARY In good request and offerings were fair. Sales were made at $12 82½@13 00. Opened at $12 87½, sold to $12 82½, to $12 92½, to $12 90, to $13 00, to $12 95, to $13 00, to $12 90, to $12 92½, to $12 85, to $12 97½, and closed steady

MAY—Offerings were fair and the demand was rather active. Sales were made at $13 05@13 22½. Opened at $13 10, sold to $13 05, to $13 15, to $13 10, to $13 20, to $13 17½, to $13 22½, to $13 17½, to $13 22½, to $13 10, to $13 15, to $13 12½, to $13 22½, to $13 20@13 22½, and closed steady

Lard—Rather a good business was reported in the Lard market and the feeling was stronger. Offerings were not very large, and the demand was quite active Stock on hand decreased about 7,000 tcs, and the world's supply was reduced about 10,000@20,000 tcs. Prices were advanced 5@7½c on the whole range, but receded 2½@5c, and the market closed steady Foreign advices were unchanged Demand on shipping account limited, with light offerings Cash lots were quiet at about January figures, closing at about $7 00. Loose lots in moderate request, with fair offerings. Prices were quotable at 47½c discount on January figures. Leaf Lard was in moderate demand with fair offerings Prices quotably steady at $6 82½. Neutral in light demand, with only fair offerings Prices quotably steady at $7 87½@8 00 for No 1, and $7 37½@7 50 for No. 2

DECEMBER A few trades made at $6 95@7 00, and closed quiet at $6 95

JANUARY In good request, with fair offerings. Sales were made at $7 00@7 05. Opened at $7 00, sold to $7 05, to $7 02½ to $7 05, to $7 00, to $7 00@7 02½, and closed steady.

MAY—Offerings were fair, and the demand was rather active Sales were made at $7 17½@7 25 Opened at $7 17½, sold to $7 25, to $7 22½@7 25, to $7 25, to $7 20 and closed steady

JULY Quiet, with a few trades at $7 27½@7 32½, and closed at $7 27½

Short Rib Sides Trade was quite active in the market for Short Rib Sides, and the feeling was decidedly stronger Offerings were fair, and the demand was brisk. Trading mainly in January and May contracts. "Shorts" credited with fair purchases. Prices on the whole range were advanced 10@12½c, but receded again 2½@5c, and the market closed comparatively steady Stock on hand decreased about 3,400,000 lbs during November. Demand on shipping account was moderate, and offerings rather light Cash lots quotable at $6 62½@6 75 according to weight.

JANUARY—Demand was quite active, and offerings were fair Sales were made at $6 55@6 67½ Opened at $6 55 to $6 57½, sold to $6 55, to $6 65@6 67½, to $6 55, to $6 67½, to $6 62½, to $6 65, and closed steady.

MAY—Offerings were fairly liberal, and the demand was good. Sales were made at $6 75@6 85. Opened at $6 75 sold to $6 82½ to $6 80, to $6 85, to $6 82½, to $6 85, to $6 82½, to $6 85, and closed steady.

JULY—Demand light, and offerings moderate. Sales were made at $6 92½@6 97½, and closed quiet at $6 95.

Other Meats—Trade only moderate and the feeling was steady Domestic demand was only fair, and orders from abroad were limited. Offerings of all kinds were not very large Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices were unchanged Dry Salted Meats in fair request, with moderate offerings, and prices ruled steadier. Smoked Meats called for moderately, and prices were unchanged. Closing prices were as follows:

FINANCIAL AND COMMERCIAL NEWS.

HOWARD, BARTELS & CO., Publishers, 28 Sherman St.

Chicago, Friday, December 2, 1904.

☞ Communications addressed to the publishers of the DAILY TRADE BULLETIN will not receive attention unless postage is enclosed for reply.

Important Notice.

In March, 1894, when it was alleged that certain market circulars compiled for the use and benefit of members of the Chicago Board of Trade, were being furnished daily to alleged "bucket shops," the following resolution was passed by the Board of Directors:

Resolved, That the President of this Board notify the above mentioned firms that such action on their part is detrimental to the interests of this Board, and that they are requested to discontinue sale of said circulars to such "bucket shops."

∴

Rain is needed in most sections of the West and South.

∴

Movement of Barley is rather free and the quality is fairly good.

∴

Millers are demurring against the advance in railroad freights Eastward.

∴

Crops in Germany are reported in better condition than for several years past.

∴

The South has secured a good Corn crop this year, more particularly in Texas.

∴

Farmers in the Northwest are marketing Flax Seed with considerable freedom.

∴

Advices from Europe are rather favorable for the fall-sown Grain in most countries.

∴

Shipments of Dressed Beef and Mutton from the larger packing points are quite liberal.

∴

The unsettled weather in Argentina may be an important factor in regulating the price of Wheat.

∴

The movement of Wheat from the Pacific Coast to the East has been slow, owing to a lack of cars.

∴

The value of the Grain crops raised in the United States in 1904, it is claimed, is the largest on record.

∴

Cattle are not in very large supply at the principal markets, and the better grades command good prices.

∴

It is claimed that the European supplies of Breadstuffs—in store and afloat—are the largest reported in years.

∴

Merchants in all branches of trade are looking forward to an active business with the opening of the new year.

∴

There is quite a good export demand for Corn—in fact, it is about the only Grain bordering on an export basis.

∴

Outlook rather favors a good yield of Cotton, which will add materially to the prosperity of the Southern States.

∴

The annual edition of "Our Red Book"—replete with general statistics—will be issued about the middle of January.

∴

Canada had a Squash on exhibition at St. Louis which weighed 403 lbs. Another argument in favor of annexation.

∴

Packing of Hogs at Chicago since November 1 shows a fair increase, compared with the corresponding time last year.

∴

It is evident that packers are not disposed to sell Meats to any extent for future delivery, unless their prices are accepted.

∴

The packing of the West since November 1 exhibits a material increase, compared with the corresponding period in 1903.

∴

Reports received by the DAILY TRADE BULLETIN tend to confirm the Department of Agriculture estimate of the Corn crop.

∴

Considering the aggregate yield and the rather free movement from farms, prices of Flax Seed are fairly well supported.

∴

The good quality of the Oats raised in the United States in 1904 is confirmed by inspection returns at all the leading markets.

∴

While the area of Winter Wheat is possibly larger than that reported one year ago, it probably is not as large as many anticipate.

∴

The Live Stock Show at Chicago was a grand success. The display of animals was unusually good, and the attendance was large.

∴

Sheep are being marketed in fair numbers at the leading Western markets, and prices are well maintained for the better grades.

∴

It is calculated that millers throughout the country have liberal stocks of Flour on hand, and their supplies of Wheat are not very light.

∴

Interior packers are shipping Products rather freely to the larger distributing centers. Evidently they are not inclined to carry large stocks.

∴

It is claimed that the dullness in the exports of Provisions is due mainly to rather liberal consignments from manufacturers to agencies abroad.

∴

After two months' dullness, the market for Cooperage has revived somewhat, and a firmer feeling is manifested, with some improvement in prices.

∴

The exports of Flour and Wheat from the United States are now on a basis of about 50,000,000 bu annually, and Corn at the rate of about 44,000,000 bu.

∴

The movement of Hay has been quite liberal so far this season, and the crop secured was rather large. Prices are well maintained on the better grades.

∴

The present session of Congress promises to be an important one to the business interests of this country. Great many things are expected of it, as usual.

∴

Apples, Cider and Pumpkins are selling at low prices in the New England States, and part of the "holiday food" of that section may be enjoyed satisfactorily.

∴

Russia continues to ship Wheat rather freely, and stocks are quite large. Need of money and good prices are given as the principal reasons for the free movement.

∴

Hogs are being marketed with considerable freedom at all the larger Western packing points, and farmers appear to be willing to accept current prices quite readily.

∴

The weather during the past month has been favorable for maturing the Corn crop, and the grading will probably show some improvement before the close of the month.

∴

Stock of Mess Pork at the close of the year will be considerably in excess of that of one year previous. Supplies of Lard and Short Rib Sides will probably be moderate.

∴

The high prices demanded for Poultry has encouraged the consumption of Fresh Meats during the holiday season to a greater extent, notwithstanding the high prices demanded for the latter.

∴

The receipts of Wheat at the larger terminal markets of the Northwest during November were almost equal those of the corresponding month in 1903, notwithstanding the reported shortage in the crop.

∴

An active business was transacted in Stocks and Securities during the past month, with prices generally higher. "Shorts" were rather anxious about their outstanding contracts, and several failures were announced in the East.

∴

Bound volumes of the DAILY TRADE BULLETIN for 1904 will be ready for delivery on January 3. It will contain detailed reports of the trade of Chicago for 1904, with accompanying statistics. Price, $5 00 per volume, deliverable at Chicago. Address, publishers, 28 Sherman Street.

∴

The Inter-State Commerce Law Convention, held recently at St. Louis, was a grand success, over 200 commercial organizations being represented. The members were terribly in earnest, and more definite legislation regarding the position of railroads and shippers, and the authority of the Inter-State Commerce Commission to enforce the laws, will be urged with considerable force at the present session of Congress.

ITEMS OF GENERAL INTEREST.

An official of the Union Match Company, the principal competitor of the Diamond Match Company, is quoted as saying that the policy of extensive advertising inaugurated a year ago has increased the volume of business fully 5 per cent. "The sales have increased in all territory served by our company," he said, "and we have not shaded prices in the least anywhere."

Dividend disbursements by industrial corporations next month, based on declarations thus far reported, foot up only about $15,590,000, against $22,530,000 in December a year ago, according to statistics compiled by the New York *Journal of Commerce*. Lower payment by the Standard Oil Company for the quarter and the omission of the United States Steel common stock dividend paid last year largely account for the difference.

The recent activity in the securities of the American Writing Paper Company is said to be due to increased business and improving trade conditions. It has been the policy of the company to use its surplus earnings to purchase its own bonds in the open market, and there has already been accumulated in this way in the treasury and bought at a heavy discount. The company has no debts and has cash in the bank of more than $1,000,000.

The Interborough Rapid Transit Company, New York, has declared a dividend of 3 per cent on all the capital stock of the company. The board also adopted resolutions that the dividend hereafter be paid quarterly on the first day of April, July, October and January in each year. The dividend declared, Wednesday, makes a total dividend of 5 per cent distributed by the Interborough company in the past year. The dividend is payable Jan. 3. Books close Dec. 10 and reopen Jan. 3.

Wabash reports for October an increase of about 15 per cent in gross and 3 per cent in net. For the four months gross showed an increase of 13½ per cent and net 1 per cent. The important question about Wabash earnings is whether or not the road will justify a resumption of the dividend on the 4 debentures. Action on this dividend is to be taken after the figures for the six months are in hand, and the dividend depends upon the showing of the six months. It looks as though the cash to buy this dividend would be earned, but little more. The dividend was earned in the corresponding 4 months last year and was paid. The slight increase in charges this year will not bring the surplus below the figure necessary for the dividend, but, of course, improvements may absorb the larger part of the surplus.

There have been floating paragraphs of late touching the enormous dividends derived by the United States Steel Corporation from the Duluth and Iron Range and the Duluth, Mesabi and Northern Railroad companies, owned by the corporation. The reports state that these roads were paying to the United States Steel Corporation over $8,000,000, or 100 per cent of the par value of their outstanding capital stocks. Chairman E. H. Gary of the United States Steel Corporation said: "These statements, which are accurate, came from regular reports to the Minnesota State Railroad Commission, published Oct. 1 last. These roads are capitalized very much below their cost or value, and the dividends, therefore, are apparently large. Besides, the dividends cover seven years."

The clearings of the Chicago banks for the month of November broke all records in the history of the Chicago Clearing House for volume, when the length of the month is considered. The fact is considered a strong indication of the prosperous condition of business in Chicago and its vicinity. The clearings of the Chicago banks for the month of November, according to the official figures, issued Wednesday, were $817,573,715. This compares with $731,874,886 for November of last year, a gain of $85,704,377, or 13.2 per cent. The clearings were the largest total reported for any month in the history of the local Clearing House, with the exception of October of last year, when the clearings were $824,473,263. But there were twenty-seven business days in October of last year, while there were only twenty-four business days in the month ended Wednesday. The clearings averaged $30,554,545 a day during October of last year, while they averaged $34,149,114 a day during the month just passed. November of this year had the highest daily average of clearings of any month in the history of the local Clearing House.

The Everett-Moore syndicate has sold to J. R. Nutt, of the Citizens' Savings and Trust Company, $578,000 of Northern Ohio Traction and Light 4s, this being the entire syndicate holding in these bonds. The transaction aids the syndicate greatly, and it is now confidently expected that its affairs will be out of the hands of the bankers' committee in a few months.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Dec. 1.]

The offerings of Hogs have been well maintained and the marketings for the week represent a fairly liberal number. Total western packing 600,-000 Hogs, compared with 615,000 the preceding week, and 515,000 two weeks ago. For corresponding time last year the number was 445,000, and two years ago 465,000. From Nov. 1 the total is 2,245,000, against 1,900,000 a year ago, an increase of 345,000. The quality is averaging fairly good. Prices at the close indicate an average of about $4 45 per 100 lbs for prominent markets, compared with $4 55 a week ago, $4 65 two weeks ago, $4 40 a year ago, $6 15 two years ago, and $5 75 three years ago.

There are some interesting conditions now prevailing in the Provision market. The marketing of Hogs is in excess of a year ago. Prices of Hogs are but slightly higher than a year ago, about 5c per 100 lbs the difference being insignificant in a comparative way. Prices of Product for January delivery at Chicago as compared with a year ago are $1 97½ per barrel higher for Pork, 60c per 100 lbs higher for Lard, and 70c per 100 lbs higher for Short Rib Sides, while Green Shoulders are practically the same as a year ago, Green Hams being about 50c per 100 lbs lower. These prices for Product imply the equivalent of about $4 75 per 100 lbs for Live Hogs or 30c per 100 lbs above the present market position. This is a decidedly wider margin between cost and selling values than is usual, and might be regarded as justifying expectations of higher prices of Hogs or lower prices of Product in the near future—or both.

The speculative Provision market was fairly active the past week, with an easy tone prevailing at the close. Grain prices still have important influence on the market. Foreign markets showed more life, with some gain in values at the close of the week. Domestic markets were steadier, but ruled quiet. Compared with a week ago prices for Pork and Short Rib Sides at Chicago are higher, while Lard is unchanged. The export clearances of Product were fair, but not equal to the liberal movement shown for the preceding week, and there was a decrease shown as compared with the corresponding week last year.

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since November 1, at undermentioned places compared with last year, as follows:

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Dec. 1.]

The conditions which have prevailed in several previous weeks concerning agricultural interests have had no notable change the past week. The long period of dry weather has been prolonged, no relief in any section having developed during the past week. To what extent this may unfavorably affect the autumn sown crop of Wheat can not be determined at this time. The growth of the plant has been retarded, and the germination of late seeding has to some extent been prevented. It does not necessarily follow that this may not come out in good shape later on under genial conditions, but such unusual delays in the early stages of the crop naturally give rise to apprehension as to ultimate results, and may reasonably be regarded as implying that the crop is not in as assuring a position as if a more nearly normal situation at this juncture existed. The element of uncertainty, however, mainly represents that which is of a discouraging nature at this time. Wheat is a winter plant, and often adapts itself to seeming conditions of unfavorableness in a manner to overcome the calculations of casual observers in their anticipation of injury in a striking manner. All things considered it does not appear that the time has yet been reached when a positively discouraging view of the situation of this crop is called for. There is comparatively little of comment in regard to fly in the Wheat fields.

In regard to Corn, good progress has continued in husking operations, and this appears to be well advanced in nearly all regions, and the Grain getting into order for cribbing or marketing. The movement into commercial channels has enlarged, current prices being acceptable to a considerable extent, while in many instances there is manifestly a disposition to take chances in regard to later market conditions, so that excessive supplies are hardly likely to seriously disturb market conditions, even should there be a further enlargement in the marketing, which appears to be generally expected for the coming month. The later evidences as to yield furnish no decided occasion for changes in the general view of the extent of the crop. There are many instances of disappointments in yield and of poor results, most of which come from sections heretofore recognized as uncertain and doubtful.

NOVEMBER A DRY MONTH.

WASHINGTON, Dec. 1.—The weather bureau's monthly summary of crop conditions is as follows:

As a whole, November was a very mild and exceptionally dry month. Throughout the central valleys and in New England, the Middle Atlantic, Central and West Gulf States the absence of rain was so marked as to prove injurious to fall sown Grain and to hinder plowing. The drouth has been especially severe in the Ohio Valley, where there is a great scarcity of water for stock and domestic purposes. Complaints of drouth are also received from Southern California and the Southern Plateau districts.

In the principal Corn States the weather has been favorable for husking and cribbing Corn, the reports indicating that this crop is of exceptionally fine quality.

Winter Wheat has been unfavorably affected by drouth over the greater part of the Winter Wheat belt, the condition of the crop being less favorable in the Ohio, Central Mississippi and Lower Missouri Valleys. Considerable damage to the early sown by the Hessian fly is also reported from Nebraska and Missouri. Notwithstanding the drouth the general condition of the crop in Kansas, Iowa and Illinois is good. Favorable reports are also received from the Atlantic Coast States, where, however, lack of moisture has retarded growth.

In the Southern States weather conditions were favorable for the completion of Cotton picking.

WHEAT IN KANSAS.

[Kansas City Correspondent Northwestern Miller]

A summary of the opinions of about forty millers gathered at Wichita to attend the meeting last Tuesday indicates that an average of about 20 per cent of the Wheat crop is yet remaining in farmers' hands in the central and southern parts of the State. The reports varied from 15 to 40 per cent, but the majority of those present thought that 20 to 25 per cent would cover the amount held in first hands in their vicinity. No account was taken of anything but Wheat held directly in farmers' granaries. In addition to this farmers hold some Wheat in store in country elevators and in mill storage, and the mill stocks of the State are undoubtedly much larger than at any time in the history of Kansas milling. Nearly every merchant mill in Kansas has a good stock of Wheat and in some instances these stocks are apparently much out of proportion to the capacity and requirements of the mill. Kansas mills have within the past year or two greatly increased their Wheat storage facilities, and the possible scarcity of milling Wheat later in the season has led the majority of them to tuck away the most desirable Wheat obtainable early in the season, especially since an additional incentive was at hand in the steadily advancing prices. There is no means of determining even approximately the amount of Wheat so held.

CROPS IN TENNESSEE.

[From the Northwestern Miller.]

State Commissioner of Agriculture W. W. Ogilvie, of Tennessee, has finished the compiling of the tables which are to be used in the forthcoming crop bulletin. From the reports from the various correspondents, a better condition of affairs is prevailing in Tennessee than was anticipated. It was generally thought that the drouth would seriously affect the production, and this is to an extent true, but the condition is not as bad as was expected. The acreage of Wheat and Winter Oats for the whole State is somewhat larger than it was last year. In some counties the crop is shorter than usual, while in others it is considerably larger. The condition of the growing crops is not very good. Clover and grasses were considerably injured all over the State on account of the drouth. The figures giving percentages of the principal crops are as follows: Wheat, acreage sown, 87 per cent; Winter Oats, acreage sown, 75 per cent; Rye, acreage sown, 79 per cent; Corn, yield, 85 per cent; Corn, bushels, 29 per acre.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 6 above to 20 below zero; snow general. Northwest—Temperatures, 2 below to 14 above; snow general. West—Temperatures, 10 to 27; cloudy; light scattered snow northern part. Southwest—Temperatures, 18 to 60; partly cloudy; trace at Kansas City and Springfield, Mo. Ohio Valley—Temperatures, 32 to 62; partly cloudy.

Weather forecast for 36 hours: Minnesota—Fair and colder; fresh northerly winds. North Dakota—Fair to-night and Saturday; colder. South Dakota—Snow flurries and colder; cold wave in east portion Saturday; fresh northerly winds. Iowa—Snow flurries and colder to-night, followed by fair Saturday; cold wave south and extreme east to-night; brisk northerly winds. Nebraska and Kansas—Snow flurries and cold wave; brisk to high northerly winds. Illinois and Indiana—Snow to-night and possibly Saturday; cold wave; high northerly winds. Missouri—Snow to-night; fair Saturday; cold wave; high northerly winds.

WHEAT IN NEBRASKA.

[From the Northwestern miller.]

John J. Bartlett of Omaha, secretary of the Millers' Club of Nebraska, last week issued a summary of reports received from millers regarding crop and Wheat movement conditions in Nebraska. The report indicates a condition of from "good" to "fine" over nearly the entire Wheat acreage of the State, which is reported about the same as last year's sowings. A few counties report a slight decrease in acreage sown, but many others report increases. No damage is reported resulting from Hessian fly.

The present movement of Wheat is very light, with from 30 to 60 per cent of the crop remaining in farmers' hands. A majority of the reports say farmers hold from 30 to 50 per cent, but several counties report as much as 60 per cent, and here and there 20 per cent is the estimate given of the amount remaining in the country.

ITEMS OF GENERAL INTEREST.

The Chicago, Burlington and Quincy has declared the regular quarterly dividend of 1¾ per cent, payable Jan. 2. Books close Dec. 26 and reopen Jan. 3.

South Side Elevated, Chicago, traffic in November averaged 89,160 passengers daily, a decrease of 58,238 from last year, due to the strike on the surface lines last year.

The report is revived that the dividend on Illinois Central is to be raised to 7 per cent. There is also a report that Lackawanna will be raised to a 10 per cent dividend basis.

The Detroit and Mackinac Railway has declared the regular semi-annual dividend of 2½ per cent on the preferred stock, payable Jan. 3. Books close Dec. 15 and reopen Jan. 4.

The Old Colony Trust Company, the largest concern of its kind in Boston, Tuesday, purchased the business and assets of the Copley Trust Company, with resources of $754,594 and deposits of $124,942.

It is reported that negotiations for the sale of $12,000,000 3½ per cent purchased line bonds of the Illinois Central Railroad Company have been completed. The price paid is said to be about 91.

Dividend No. 13 of $1 75 per share on the capital stock of Swift & Co. will be paid on and after the first Monday in January, 1905. The transfer books will be closed Dec. 17, 1904, and will be reopened on Jan. 6, 1905.

A special investigation made by the New York *Journal of Commerce* indicates that the South expects a Cotton crop of 11,275,000 bales. The estimates of the different firms or individuals interviewed range from 10,189,000 bales to 12,500,000 bales.

Average weight of Live Stock at Chicago for months undermentioned:

	Nov., 1904.	Oct., 1904.	Nov., 1903.	Nov., 1902.	Nov., 1901.
Hogs	232	230	228	224	218
Cattle	1,015	968	1,041	925	988
Sheep	85	78	82	84	82

It is announced that there will be a rise along the finished Steel products beginning Dec. 1. Wire products are to be increased $4 a ton, which with the advance made recently will practically restore the heavy cut made last summer ranging from $5 to $7 a ton. Wire nails will be increased from $1 70 to $1 90 a keg.

Speyer & Co. of New York and Speyer Brothers of London have purchased $15,000,000 4 per cent bonds of the Grand Trunk Railway Company of Canada. The proceeds will be used to extend the Pacific branch of the Grand Trunk system. It is understood that the Speyers will finance the entire construction of the new extension.

The Pennsylvania Railroad Company has awarded 80,000 shares of the Cleveland and Pittsburg Railway stock to Kuhn, Loeb & Co. of New York. The price paid was $52 385 per share. This will net the company about $4,238,000. This money is to be used for improvements on the Cleveland and Pittsburg line, which is a branch of the Pennsylvania.

The regular quarterly dividend of $1 50 a share and the regular semi-annual dividend of $5 00 a share, respectively on the preferred and common stocks of the Chicago and Eastern Illinois Railroad Company, represented by stock trust certificates of the St. Louis and San Francisco Railroad Company, will be paid on Jan. 2. Books close Dec. 17 and reopen Jan. 3.

The *Times of Argentina* of Oct. 24 says: "The previous reports of damage done by frosts are vanishing, as they are now admitted to have been greatly exaggerated. The weather, however, keeps too cold for the season, retarding progress in Wheat and Seed fields. It is generally admitted that unless the unexpected arises the coming Wheat crop will be a record one."

The Lackawanna Steel Company will not require any additional financing to complete its plant to the established capacity. It will be able to enter the new year as a completely equipped Steel-making concern without adding to its fixed charges or its stock. It has still $15,000,000 unissued stock and $5,000,000 of the authorized issue of $20,000,000 first mortgage 5 per cent bonds. The bonds are now selling around 102.

The London branch of the Chicago Pneumatic Tool Company, the Consolidated Pneumatic Tool Company, reports the sale of 117 tools to Bremer Volcan, Vegsack, Germany, in which is also included a three-year contract. This is the largest individual order ever awarded for pneumatic tools in Europe, and the decision in favor of the company is said to have been the result of tests made against all other makes.

An abstract of the reports submitted by the thirteen National banks of Chicago, giving their condition at the close of business Nov. 10, shows these banks, with capital stock of $25,850,000, had $4,118,295 notes outstanding and held $147,170,494 individual and $1,089,346 United States deposits. Their loans and discounts amounted to $189,556,083, with $53,198,195 lawful money reserve, of which $37,615,761 was in specie and $15,782,434 in legal tender notes.

New companies formed in November with an authorized capital of $1,000,000 or more made a grand total of $121,200,000. Nearly half of this amount was furnished by the Chicago Subway Company, which was incorporated with $50,000,000. The November total compares with $215,000,000 in October, but of this large amount the new American Tobacco Company contributed $180,000,000. In November a year ago the total was $56,100,000, and two years ago $115,140,900. As usual, New Jersey heads the list.

The car shortage on Eastern roads is daily becoming more pronounced. The Pennsylvania and Lake Shore roads are now hardest pressed for cars, but no Eastern line has enough to meet the present demands of shippers. The shortage is mainly due to the unusually heavy shipments of Iron and Steel products and general merchandise, but from now on Grain shipments will increase the tax on the transportation facilities of all lines. Some of the railway managers fear a repetition of the freight blockades of two years ago if the volume of traffic continues unabated.

The Denver *Record-Stockman* says: "The demand for Wyoming Wool next year promises to be unprecedented, and fancy, if not record-breaking, prices will doubtless prevail. Already over 2,000,-000 lbs of next season's clip has been contracted for at figures as high as 17½c per pound. Many of the flockmasters are holding off, believing that the buyers will offer more money before shipping begins. Some of the more sanguine believe that 20c per pound will be paid before the shearing season begins. The buyers now in the field, however, hold that this is too high and will not be obtained."

Postmaster-General Wynne and Baron Moncheur, the Belgian minister, have signed a parcels post convention between the United States and Belgium. The treaty will go into effect on Feb. 1, 1905. It is the third parcels post treaty negotiated between the United States and any European country, and the twenty-sixth negotiated with any government, most of the existing treaties being with South America and Central America. The parcels under the Belgian treaty, as under the German and Norwegian treaties, are restricted to four pounds and six ounces each and $50 in value.

It is officially stated in New York that the White Knob Copper Company, under the new reorganization plan, will have a total capitalization of $6,000,000. An assessment of $3 00 per share on the 160,000 shares of stock outstanding will be levied, which will raise $480,000 cash for working capital and other purposes of the company. There will be no bonded indebtedness. Of the total $6,000,000 capital stock, $1,600,000 will be 7 per cent preferred stock and $4,400,000 common stock, the par value of each being $10 00 per share. Of the proposed $6,000,000 stock only $4,000,000 will be issued at this time, the balance of $2,000,000 common stock being held in the treasury for future use.

Illinois stood first in the production of internal revenue last year with $52,451,271, and of a total of $232,904,004 for the whole country. The State stood first in the production of distilled spirits, producing 41,785,899 gallons, and third in fermented liquors, with 4,631,446 gallons of Beer. Illinois outranked Wisconsin in the production of Beer, and all other States in the production of Whisky. The State paid nearly one-fourth of the whole internal revenue tax for the country. The fifth or Peoria district stood first in the country in the amount of revenue collected, this being $34,059,316. The first or Chicago district paid $6,706,814, the eighth or Springfield district, $11,272,900, and the thirteenth or East St. Louis district, $825,241. In Cigars, Illinois had 2,518 factories and manufactured 330,918,871 Cigars. The first (Chicago) district produced 20,017,445 lbs of Oleomargarine.

No. 3 Hard fresh arrivals free on board sold at $1 08, and quotable at $1 00@1 10.

SPRING WHEAT—Quiet on account of very small receipts. Choice Wheat of the hard variety in some milling demand and firm. Poor Wheat very dull and not wanted. No. 1 Northern fresh arrivals free on board quotably $1 16½@1 20 No 2 Northern fresh arrivals free on board quotably $1 08@1 15 No. 3 Spring fresh receipts free on board sold at $1 06, and ranged at $1 03@1 12 No 4 Spring sold at 95c for fair and at $1 05 for choice hard variety and ranged down to 58@60c for very poor.

REGULAR WHEAT—A good trade with the feeling rather unsettled, the close showing December up ⅝c, while May gained ¾c, and July ¼@⅜c. Sentiment at the start was "bullish" and market opened higher, influenced chiefly by the stronger cables, reports of threatening weather in Argentine, and talk of lighter receipts in the Northwest. At the improvement in prices "long" property came out and prices settled back but rallied sharply again on buying by a prominent elevator interest and last prices about top. The Ohio report was looked upon as rather "bullish" making the condition 75 per cent, against 87 last month, and 73 per cent one year ago. Liverpool quoted spot ¼@½d higher and futures ⅜@½d better. London came ¼d higher. Paris was up ⅛c and Antwerp and Buda Pesth were unchanged Berlin advanced ⅜c Distant futures in France were reported as being on an importing basis. *Broomhall* estimated world's shipments at 10,400,000 bu and predicted a moderate change in amount on ocean passage. WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, December 2, 1904.

There is a better tone to the money market and rates are as in the last week or two. Chicago bankers report the market working closer and they are getting 4½ per cent on a few loans, but most of the new business is at 5 per cent. This recent improvement in the business situation is attributable to the better feeling everywhere. A moderate amount of currency is going to the country, but it is no larger than usual for this season. The only thing to mar the smoothness is the continued exports of Gold, which is unusual at this season, and is due to the high exports of Grains. In New York the market was dull and weak as soon as the Stock Exchange at 3 to 4 per cent. Time money was higher at 4@4½. A good deal of business was done in the longer maturities at around 4 per cent.

New York exchange was firm at 15c to 25c premium and closed at 25c.

Foreign exchange was strong early, but easier later. Shippers' sixty-day documentary sterling bills on London ranged at 484@484½.

In the New York Cotton market there was a low range, due to lifeless selling by some of the largest holders, to the weakness abroad, and to the rather "bearish" crop report, the censu report giving the ginning to Nov. 14 at 9,786,686 bales which is taken as indicating a crop of 10,000,000 bales. Closing prices showed losses of 60@78 points for the week.

Local securities were actively traded in and prices had an irregular range. The feature was the extreme interest taken in American Can shares, which were traded in with increased freedom as decidedly higher prices, particularly the preferred. The buying was largely on Eastern orders for interests that have been identified with the Can company from its inception. There was also quite an interest in Diamond Match shares to take it over, that the business is much better, and there is a possibility of a reorganization. Biscuit shares were liberally traded in and higher. Diamond Match, Telephone and Streets' Western Car averaged lower. The market in its entirety showed considerable irregularity and a few stocks declined, while the leaders advanced. The bond market showed increased activity during the month.

In the New York Stock market there was activity, irregularity, hesitation on the part of some interests whose following has been in reluctant further, and profit-taking by certain interests. At the same time strong people were active buyers of some of the highest-priced stocks. A few of the leaders were extremely active, with increased bidding and small offerings and advanced sharply. The general buying was sufficient to offset the profit-taking and prevents more than moderate losses. The average for the week was higher on most of the railway shares and the Industrials. London was a heavy seller of Steel preferred and a buyer of Common. There was increased activity in Sugar and Gas shares and a higher average. At the close the stock list showed more advances than declines. The bond market was unusually active and advanced sharply. The average closed higher, which led to profit taking by some holders. Total sales on the New York Stock Exchange for the week were 8,639,090 shares, against 8,356,600 shares the previous week and 3,750,000 shares last year.

The principal Stocks traded in on the New York Stock Exchange in number of shares disposed of during the week was as follows:

The developments in the mercantile trade were not of a striking character. The general business conditions are good and are encouraging a moderate expansion among manufacturers. Colder weather in the West increased the distribution of heavy dry goods and the re-order trade showed a slight enlargement. There was a heavy business in holiday goods, with the jobbers in height with jobbers. Shoe manufacturers report fuller orders and prices are hardening in sympathy with the advancing tendency in leather. Tobacco continues closely sold up and are buying Dailies freely as they are obtainable from packers, keeping the latter practically sold ahead. Buying of Pig Iron was in good lots. Large consumers have now all covered requirements for the season and furnace men are asking higher prices. Orders for finished product of Iron and Steel show a liberal volume. Part of the Steel works here are to shut down for repairs and there is a prospect of a readjustment in the wage scale in some lines. The mills are full of orders, but it is always necessary to shut down at certain periods for repairs. Hardware jobbers report increased sales, and are holding prices strongly. The movement of lumber is decreasing as is usual at this season, but sales are larger than a year ago and the market has a firm undertone. Local consumption is greatly in excess of last year and there is no let up as to road building operations can be actively pushed. The grocery trade and all the other lines are having a good business, and collections are satisfactory.

COMMERCIAL.

A fair business was reported in commercial circles on the Chicago Board of Trade during the past week, but there was little to excite the crowds witnessed in the principal markets. There was a little improvement in the commission house business, possibly the Live Stock exhibit which was held here this week helped to swell the volume of trade to some extent. Local professional operators traded with considerable freedom and the trade was fairly active in all departments. Cash properties in fairly good demand and the bidding appeared to be more anxious to have supplies at the seaboard before the close of navigation. Receiveries of December Wheat were quite moderate. Money is in fair supply and the movement to the interior rather free, which would indicate fair receipts of Grain and Live Stock.

Cash Grain prices were generally satisfactory the past week. Seasonable conditions prevailed in the United Kingdom, Germany and Austria-Hungary, but more snow is wanted. In Roumania the crops are in good shape for moving and stocks are accumulating. In Russia the weather had been milder in the South and the snow is thawing. Otherwise the conditions are satisfactory. In Belgium the outlook is favorable. Good rains have fallen in Northern Africa. Rain and snow were reported in France, but the crop as a whole is unsatisfactory. Reports from Italy are to the effect that the olive crop reports were contradictory, but there is little doubt but that the crop will average slightly below the usual quality and quantity. Temperatures were moderate in Spain for the past week and very little injury has resulted from the frost. The weather conditions were unfavorable for Wheat they were too moist for Corn to cut out Corn, and an early and liberal movement is generally anticipated. The quality of the late arrivals is showing improvement.

The movement of Grain from the farms and interior elevators was fair the past week. In the Northwest Wheat was marketed with considerable freedom, but the receipts in the Winter Wheat and Southwest receipts of Wheat at country stations were smaller, while the arrivals of Corn were correspondingly larger. The movement of Oats was also on a liberal scale and that of the movement of Grain was fair for the season. Shipments of Grain Eastward were liberal. Freight room was also engaged for large quantities of Corn to the lake rate of 2½c to Buffalo. Charters on the seaboard were fair. Exports of Flour and Wheat were light and moderate of Corn. Bookings at the Gulf ports were somewhat larger. According to the official visible supply statement issued by the Secretary of the Chicago Board of Trade there was an increase in Wheat, Corn and Barley, but a decrease in Oats and Rye. The official report showed a fair addition in the world's supply of Breadstuffs, and a fair increase was reported in Corn.

Considerable interest was manifested in the leading Grain and Provision markets on 'Change during the week just closed. The trade was largely local and professional, but fair to moderate and the sentiment was generally bullish early in the week the "bear" element was quite aggressive on the "short" or selling side and lower prices were established. The principal articles, Wheat was again the leader in point of activity and list, and the indifferent cash demand, unfavorable milling conditions and 'bearish' foreign advices and combined to depress values and liquidation was general. The bright, clear weather and heavy selling by cash holders in the interior worked against the Corn price and other Grains acted in sympathy. The crop news and adverse reports from Argentine helped Wheat and the general export demand was one of the principal factors that strengthened Corn. Trade was rather active in the early part of the week and the feeling was a little unsettled. Outside orders were light and local trading was moderately active. Hogs were in liberal supply and prices favored buyers, and this favored the provision trade. Trade was quiet early in the week, and prices ruled slightly lower. Later, a little more steadiness was manifested, owing largely to sympathy with the Grain markets, and prices rallied and closed steady. Trading was nominally toward the close, and market closed rather steady. Trading chiefly in the deferred deliveries. Packing was fair to the week 60,00 0 Hogs, compared with 445,000 Hogs the week before in 1903. For the season 2,241,000 Hogs, or 345,000 ahead of the corresponding period last year.

June 1 Wheat was the feature in the market for cash Grain the past week Offerings in a general way were moderate and the demand just fair. Sales were light. Wheat was in moderate request, while other descriptions were dull and weaker in price. Sales confined chiefly to fresh arrivals. Not much doing in round or cargo lots. Corn sold in a small way and trading moderate, while those to arrive were larger. The quality was better and prices were somewhat irregular. Oats were in light supply and moderate demand. Rye was quiet. Offerings of Barley were small and sales more easily effected Little business was done in Seeds. Hay was in fair request, that is, Timothy and prices firm. The demand for Hog Products was fair in a quiet way. Offerings not very large. Sales moderate and prices steady. Hogs were in large supply and prices lower. Receipts of Cattle were large and prices held up very well Sheep were marketed in large numbers and prices held fairly steady.

FREIGHTS—Cars are short on about all Eastern roads and traffic is heavy. Rates advance 4c per on domestic and 10c on export Grain Dec. 1. The new schedule is as follows:

To—	From Chicago. Domestic.	Export.	From Miss. River Domestic.	Export.
Boston	18	25	17½	
New York	16	23	15½	17½
Philadelphia	14	14	21	16½
Baltimore	14	14½	20	16
Newport News	17	17	23	19

Flour rates are 20c domestic and 10½c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are as follows: Rates on Grain are (@14c per bu from New York and id from Boston. Through rate on Wheat from Chicago to Liverpool is 6 27c per bu and Corn 5 15c. Flour 19c per 100 lbs and Provisions 30c per 100 lbs.

Lake rates are firm, with a fair demand for boats, at 1½c on Corn to Buffalo.

FLOUR—The market the past week was generally quiet and dull and buyers in the different classes appear to have ample supplies on hand and it will probably take some decided change in Wheat values to better the situation. In most quarters the opinion prevails that the trade is not likely to be any decided improvement in the demand until after the holidays. The recent steady decline in Wheat values has caused a feeling of distrust to prevail among many of the large handlers and consumers of Flour and a waiting policy is being pursued. The foreign situation is not particularly changed. Stocks are still on the low and the Eastern and New England inquiry was rather slack. In prices an easier feeling prevails and the list of business booked this week was generally in favor of concessions. The local Flour mills are not all running full time and there were rumors afloat this week that the Milwaukee and Minneapolis mills would shortly close down. Wheat prices for Flour purposes will have a tendency to curtail operations during December, and there will be a general shutting down at the close of the month as well. Many of the various organizations of millers are disclaiming any intent to put a counter blow at the railroads, which a short time ago unceremoniously turned down their request for a slight increase in rates, but would not until after Jan. 1. The shut-down was claimed to be the direct result of trade conditions, which necessitated shutting down a little earlier and perhaps longer than usual. Certainly the country shutdowns that come at the end of each year.

MILLSTUFFS—A fair demand existed during the past week, and offerings being light prices held steady. Bran in bulk sold at $16 50 and in sacks, sacks included, at $18 0@18 50, and fine at $19@23. Middlings in sacks, sacks included, sold at $18 00

WINTER WHEAT—There has been only a light business in Winter Wheat during the past week. The offerings have been in close sympathy with future prices declined 1½@2c, but rallied with Corn later. Millers bought only moderately, dealers being favored with some outside orders and local trade restricted to small lots. Offerings fair and were taken of the various grades, and generally sold out of private warehouses and special bins. Soft Winters held up best, the Hard Winters following more closely the course of the market. No. 2 Red in store was quotable at $1 12¼@1 13½ down to $1 09¾@1 11½ and then at $1 11¾@1 12¾. Fresh arrivals for prompt shipment sold at $1 13@1 13½. No. 3 Red fresh arrivals free on board quotable $1 05 @1 13. No. 4 Red sold at 90c@$1 05. No. 2 Hard in store ranged 92@93c under December, and quotable at $1 04@1 08. Hard fresh arrivals free on board quotable at $1 08@1 13. No. 3 Hard fresh arrivals free on board ranged at $1 02@1 11, and a sale at the river at 99c. No. 4 Hard sold at 70c for poor and at the river at 99c.

SPRING WHEAT—Very little business in Spring Wheat during the past week. Trading confined to a few cars of fresh arrivals, and comprised No. 3 Spring at 99c@$1 00, and No. 4 and poor No 4. So little business really transacted that it has been difficult to establish a market and nominally have been about nominal, particularly so for the higher grades. The cold weather prevented trading. Choice Wheat would sell, there was a demand for it, but poor Wheat was dull. The receipts for the week were 163 cars, against 128 cars, against 29 cars the previous week. There were withdrawn from public elevators 6,000 bu and from private warehouses 29 cars. No 1 Northern Spring for prompt shipment sold at $1 16@1 20. No. 2 Northern fresh arrivals free on board ranged nominally at $1 10@1 14. No. 3 Spring fresh arrivals free on board were quoted at $1 03@1 12 and occasionally a car sold within this range. No 4 Spring covered a wide range and sold at 87@98c for poor up to $1 00 for good and $1 02 for choice. Rejected at the river at 93@96c. No Grade sold at 60c.

REGULAR WHEAT—Was fairly active most of the week the market being quite unsettled at times. Conditions were favorable for the "bear" interests and the close shows the December be lower than one week ago while May gained 2c for the week. Values were influenced to a considerable extent by the news from Argentine, which was conflicting. Early in the week it looked as if the "bulls" would gain control of the market on the unsettled weather in Argentine, with rain and fear of strike among the dock hands by the leading markets of that country. It was also said in the early part of the week that the head of a local elevator and grain concern at Chicago was in St. Louis, and that the buying orders coming from that market were on his account. But the "bears" had Wheat for sale right to suit and they were willing to accept lower prices. The news from Argentina was doubtless a little colored in some instances. A private message from there said that 1,000,000 bu of Wheat was injured in the least by the weather. Routine statistics were sustained as "bearish" and had a depressing influence on the market. Wheat's shipments were estimated by *Bradstreet* at 8,500,000 bu, while the official figures were 11,240,000 bu, against 11,598,000 bu a week ago and 10,320,000 bu a year ago. The amount on ocean passage showed an increase of 375,000 bu, making the total 30,600,000 bu, compared with 30,225,000 bu the week before and 26,632,000 bu a year ago. The total visible supply increased 2,196,000 bu for the week, making the total 35,360,000 bu, against 33,399,000 bu the week before and 30,140,000 bu a year ago. Local public stocks decreased 3,000 bu for the week, leaving the total 1,620,000 bu, against 1,653,000 bu the week before and 1,000,000 bu one year ago. Stocks here in all positions were reported at 8,631,000 bu, an increase of 27,000 bu. Stocks one year ago 5,703,000 bu. Contract stocks decreased 2,500 bu to 1,491,175 bu, compared with 1,864,479 bu same date in 1903. *Bradstreet's* available increased 4,668,000 bu, against 1,944,000 bu last week and same week last year. Liverpool stocks increased 160 000 bu for the week, making the total 4,976,000 bu, compared with 4,816,000 bu last week, and 3,072,000 bu last year. The following table shows the receipts of Wheat, London importer of the recent record-breaking shipments from Russia: "What makes more astonishing is the fact we are supposed to be dealing with a crop considerably less than that of the previous year, and further, that there was supposed to be a great scarcity of railway trucks, owing to the exigencies of the war. So far as the first supposition is concerned, however, it seems that the early estimates of the crop were not altogether reliable, as the latest information from St. Petersburg is that the Wheat crop is still one of large size, and the Eastern and New England inquiry was rather slack. In prices an easier feeling prevails and the list of business booked this week was generally in favor of concessions. The local Flour mills are not all running full time and there were rumors afloat this week that the Milwaukee and Minneapolis mills would shortly close down. Wheat prices for Flour purposes will have a tendency to curtail operations during December, and there will be a general shutting down at the close of the month as well. Many of the various organizations of millers are disclaiming any intent to put a counter blow at the railroads, which a short time ago unceremoniously turned down their request for a slight increase in rates, but would not until after Jan. 1. The shut-down was claimed to be the direct result of trade conditions, which necessitated shutting down a little earlier and perhaps longer than usual. Certainly the country shutdowns that come at the end of each year.

MILLSTUFFS—A fair demand existed during the past week, and offerings being light prices held steady. Bran in bulk sold at $16 50 and in sacks, sacks included, at $18 0@18 50, and fine at $19@23. Middlings in sacks, sacks included, sold at $18 00

WINTER WHEAT—There has been only a light business in Winter Wheat during the past week. The offerings have been in close sympathy with future prices declined 1½@2c, but rallied with Corn later. Millers bought only moderately, dealers being favored with some outside orders and local trade restricted to small lots. Offerings fair and were taken of the various grades, and generally sold out of private warehouses and special bins. Soft Winters held up best, the Hard Winters following more closely the course of the market. No. 2 Red in store was quotable at $1 12¼@1 13½ down to $1 09¾@1 11½ and then at $1 11¾@1 12¾. Fresh arrivals for prompt shipment sold at $1 13@1 13½. No. 3 Red fresh arrivals free on board quotable $1 05 @1 13. No. 4 Red sold at 90c@$1 05. No. 2 Hard in store ranged 92@93c under December, and quotable at $1 04@1 08. Hard fresh arrivals free on board quotable at $1 08@1 13. No. 3 Hard fresh arrivals free on board ranged at $1 02@1 11, and a sale at the river at 99c. No. 4 Hard sold at 70c for poor and at the river at 99c.

SPRING WHEAT—Very little business in Spring Wheat during the past week. Trading confined to a few cars of fresh arrivals, and comprised No. 3 Spring at 99c@$1 00, and No. 4 and poor No 4. So little business really transacted that it has been difficult to establish a market and nominally have been about nominal, particularly so for the higher grades. The cold weather prevented trading. Choice Wheat would sell, there was a demand for it, but poor Wheat was dull. The receipts for the week were 163 cars, against 128 cars, against 29 cars the previous week. There were withdrawn from public elevators 6,000 bu and from private warehouses 29 cars. No 1 Northern Spring for prompt shipment sold at $1 16@1 20. No. 2 Northern fresh arrivals free on board ranged nominally at $1 10@1 14. No. 3 Spring fresh arrivals free on board were quoted at $1 03@1 12 and occasionally a car sold within this range. No 4 Spring covered a wide range and sold at 87@98c for poor up to $1 00 for good and $1 02 for choice. Rejected at the river at 93@96c. No Grade sold at 60c.

REGULAR WHEAT—Was fairly active most of the week the market being quite unsettled at times. Conditions were favorable for the "bear" interests and the close shows the December be lower than one week ago while May gained 2c for the week. Values were influenced to a considerable extent by the news from Argentine, which was conflicting. Early in the week it looked as if the "bulls" would gain control of the market on the unsettled weather in Argentine, with rain and fear of strike among the dock hands by the leading markets of that country. It was also said in the early part of the week that the head of a local elevator and grain concern at Chicago was in St. Louis, and that the buying orders coming from that market were on his account. But the "bears" had Wheat for sale right to suit and they were willing to accept lower prices. The news from Argentina was doubtless a little colored in some instances. A private message from there said that 1,000,000 bu of Wheat was injured in the least by the weather. Routine statistics were sustained as "bearish" and had a depressing influence on the market. Wheat's shipments were estimated by *Bradstreet* at 8,500,000 bu, while the official figures were 11,240,000 bu, against 11,598,000 bu a week ago and 10,320,000 bu a year ago. The amount on ocean passage showed an increase of 375,000 bu, making the total 30,600,000 bu, compared with 30,225,000 bu the week before and 26,632,000 bu a year ago. The total visible supply increased 2,196,000 bu for the week, making the total 35,360,000 bu, against 33,399,000 bu the week before and 30,140,000 bu a year ago. Local public stocks decreased 3,000 bu for the week, leaving the total 1,620,000 bu, against 1,653,000 bu the week before and 1,000,000 bu one year ago. Stocks here in all positions were reported at 8,631,000 bu, an increase of 27,000 bu. Stocks one year ago 5,703,000 bu. Contract stocks decreased 2,500 bu to 1,491,175 bu, compared with 1,864,479 bu same date in 1903. *Bradstreet's* available increased 4,668,000 bu, against 1,944,000 bu last week and same week last year. Liverpool stocks increased 160 000 bu for the week, making the total 4,976,000 bu, compared with 4,816,000 bu last week, and 3,072,000 bu last year. The following table shows the receipts of Wheat, London importer of the recent record-breaking shipments from Russia: "What makes more astonishing is the fact we are supposed to be dealing with a crop considerably less than that of the previous year, and further, that there was supposed to be a great scarcity of railway trucks, owing to the exigencies of the war. So far as the first supposition is concerned, however, it seems that the early estimates of the crop were not altogether reliable, as the latest information from St. Petersburg is that the Wheat crop is still one of large size, and

that the Winter Wheat is a much larger crop in the neighborhood of 100,000,000 bu of better quality and heavier than usual. We raised nearly about half a crop of Spring Wheat, and our acreage was only about 750,0 0 acres." Argentine shipments this week were liberal at 2,320,0 0 bu, against 91,184,000 bu last January 1, compared with 81,240,000 bu a year ago. The visible there is reported 3,241,000 bu, compared with 3,116,000 bu last week and 4,762,000 bu one year ago. Deliveries on December contracts were very meagre

CORN—The Corn market was fairly active within a moderate range. The receipts were liberal, active changing from December to May. Local shipping and elevator interests bought December and sold May at 36@3½c difference. The commission houses who have been "long" December for 2 months sold it and replaced with May. The amount of new business developed was small and prices were irregular but little affected by the action here and at the seaboard. The export clearances were 71,250 bu, against 168,129 bu last year. Reports from Iowa indicate 80 per cent of the Oats have left farmers' hands, but the farmers are loaded with Oats that show a loss. Stocks are decreasing. The visible supply decreased 92,000 bu, against 1,000 bu, against 104,000 bu last year. Local stocks in all positions increased 1,000 bu, and are 9,055 000 bu of contract, a decrease of 3,000 bu, and were 3,918,473 bu. There is a large long interest in May. Cash offerings were liberal. Holders are liquidating. Deliveries on December contracts were none and none are expected until after the close of navigation.

RYE—The market has been dull during the past week. The feeling was easy and prices declined 1@2c. Futures have been almost totally neglected and offered lower from day to day with little strong attention. At the close of the week the December contracts were all provided for and naturally no further interest existed in the market The few cars of fresh arrivals were taken from day to day, partly on local account, and partly for manufacturing purposes But the offers of cash have not been at all anxious—ter apparently were not badly in need of stocks in the vertical elevator "tanks" here and the few cash rules a little steadier. The receipts for the week aggregated 30 cars, against 28 cars previous week. There were withdrawn from public elevators 9,000 bu and from private warehouses 1,000 bu. The visible supply decreased 50,000 bu, and was reported at 1,876,000 bu, against 1,119,000 bu a year ago. Stocks here were 394,000 bu, a decrease of 14,000 bu compared with last week, and 1,000 bu a year ago was 158,0 0 bu. No 2 in store was nominally 38c down to 37c, and fresh arrivals free on board 37c@37½c, and 37½c@38c, and sold at the river at 36½c. No. 3 fresh arrivals free on board sold at 34@35c and at the river at 33½c. No. 4 sold at 30@33c. Future deliveries of No. 2 per cwt. ranged as follows: December sold at 37½c and the close 37c bid and 37c asked. May at the opening of the week was 40c asked and at the close sold at 37c.

BARLEY—There was a slightly improved demand from maltsters the past week. Demand at the same time was no better than fair. It was confined to car lots on the spot market. Everything in the way of offerings met with ready sale. Offerings were equal to requirements, the receipts having increased fairly. Most of the Barley was malting, of common to good quality, mainly medium to fancy. Feed Barley was in good supply, decreased offerings and later recovered. It need not buy largely. Maltsters complained more of the poor dullness and sharp competition in the sale of their products. Feed Barley sold at 40@45c and also ruled easy. Demand became very small for it, some buyers stepping aside, however, to pick up a few cars. Shipping was a good support from the seaboard, but not so brisk as a week ago. Visible supply made a good increase, the figures running up to larger than last year; they had been at this figure for some time. In store at Chicago local regular houses small. Inspected in during the week 301 cars, compared with 179 cars the previous week, and 239 cars two weeks ago. No offerings on sale from New York. Exports from New York, 792 bu, the week before they were 566,0 0 bu and two weeks ago 233,0 0 bu. The visible supply increased 600,000 bu increase was 5,036,000 bu a year ago it was 3,670,000 bu, and two years ago it was 2,946,000 bu. Year ago it was 102,9 2 bu. Screenings of choice quality sold very well and poor ruled slow; there was a good demand for feed. Feed Barley became firm and 35@37c at the river, outside sales quoted 33 Malting Barley, low grade, small berry, or bearded but dirty, ranged at 40@43c; clean, fair to good, at 44@46c; choice to fancy, heavy, bright quality, 47@48c with choice to fancy 48@50c. At the close the cheaper malting grades sold well and ruled firm, but high grades weakened. Quotations of medium grades to arrive also were less buoyant.

SEEDS—There was nothing of especial interest developed in the market, as a rule, was quiet. Timothy attracted more attention than other kinds. All through the list of Seeds steadiness prevailed. There were some little variations, but on the whole the tendency was in favor of sellers. The cold weather failed to effect the general steadiness materially, though Flax finally witnessed a fair advance. On a cash market the offerings of all kinds were small. Receipts were confined to a few Timothy and Flax. At one time prices showed 20c advance, but there came a reaction. The firmness was due, owing to a falling off in cash offerings and the good trade in the future delivery which had been witnessed and some influence. Later a demand here for March delivery against some sales made outside from the number of cars inspected on the last few weeks it would appear as if dealers were shaping up for good deliveries when the time comes. There was a little advance later, but March delivery offerings, which made it appear as if some of the "longs" were disposed to take at

Change of a character to realize with a profit. The output was increased a little. It compared favorably with last year. This is not the time for much crop output, though more or less Seed may be left for a future delivery. Contract prime sold at $2.72½, and later declined to $2.70. January delivery was quoted at $2.77½ to $2.72½. The early March delivery sales were at $2.87½, after which there was a setback to $2.85, this was followed finally $2.87½ again paid. Cash, country lots, had a quotable range of $1.75@2.00 poor to fancy, and one lot testing up to $2.50. Some information than has appeared for some time. Fair to good lots sold within a range of $2.40 to $2.80, and rough Seed at $2.20@2.30. Receipts and shipments for the week were as follows:

Receipts the past week, lbs	931,700
A week ago	1,197,157
Two weeks ago	785,467
Corresponding week last year	1,393,710
Shipments the past week, lbs	147,700

Sage—Home Flax was received in this market; looks more cars by rail a round lot came by lake. The fact failed to add anything to the cash offerings; they remaining exceedingly small. Offers mainly below besides increased arrivals was that more interest was shown in December delivery, of which a small daily some was sold. On account of its name, however, the Flax was quoted higher, quite more desire to sell December exerted a little weaker feeling. This affected prices for cash and December which after the opening advance tended to. May delivery was inactive; 1,000 bu only at one price, but none was taken. At the close there was no advance on reports of other prices prevailing in the Northwest. No. 1 Northwestern after less early improvement remained strong and being sparingly offered, only occasional sale was made. Although a little more speculative business was witnessed the cash market showed very little from the past business. Stocks in the Northwest again made substantial gains and are assuming large proportions. Duluth increased 333,907 bu, with 4,469,389 bu now, and Minneapolis with 132,567 bu increase to 1,339,710 bu. Local stock unchanged and of little comparative importance, being only 16,647 bu. Total stocks here and in the Northwest, according to last advices, was 8,845,746 bu and how much there may be which is not visible it is hard to tell. Receipts during the week were 26 cars and 60 bu by lake, which 6 cars were contract grade, 20 cars and 25 cars two weeks ago. The were taken 2,666 bu, the previous week 9,985 bu and two weeks ago 5,144 bu. No. 1 Northwestern was steady at $1.10 and advanced finally at $1.01. No. 2 Northwestern was nominally $1.12 at the opening, at $1.11 per and at $1.13 at the close. Rejected had an unusual range of $1.09@1.19 depending on quality. December delivery opened at $1.11½, sold much of it $1.11 and finally brought $1.13. May was on sale most of the time at $1.20, but finally at $1.23 was used.

Timber—Little Clover has come to market. A free feeling was quoted during the week, but no changes in prices recorded until at the close when there was 25c advance. Owing to fine weather for some time there has been prosecuted until lately without over Returns indicate only a fair crop. Of late the offerings by the country have been very moderate to rather light. The grave to be taken was a strong one. Order demand has remained same. Following figures give the aggregate arrivals and output:

Receipts—The past week, lbs	83,100
A week ago	229,183
Two weeks ago	143,100
Corresponding week last year	266,260
Shipments—The past week, lbs	53,442
A week ago	40,340
Two weeks ago	50,450
Corresponding week last year	115,266

Prices were quoted as follows: Contract grade, which was quoted at $12.25 to $12.50. Country lots common to choice, at $7.00@12.00, finally up to $12.50; very poor lower, and fancy above. Fair to good, $9.00@11.00 early, to $9.75@11.75 at the close. Other *Seeds*—Little doing in Timothy, and offerings that but a small business was possible. The several lines were salable and quotably steady. There were no changes in any of the several lines. The quotations are the same elsewhere given and the movement for the week was as follows:

Receipts the past week, lbs	622,084
A week ago	1,000,000
Two weeks ago	40,000
Same time last year	724,600
Shipments the past week, lbs	1,341,200
A week ago	135,837
Two weeks ago	205,965
Same time last year	1,000,000

Buckwheat—Was steady at the reduced prices noted at the close of last week. Good milling was $1.35 at which figure some was sold; some poor sold for less.

HAY—The receipts for the week were 6,230 tons against 5,431 tons for the previous week. Shipments for the week were 104 tons, against 150 tons for the previous week. A good demand existed for Timothy Hay during the past week and the market ruled firm. The offerings were only moderate and the consignments light. Prices were unchanged. The inquiry for Prairie Hay was very fair, especially for the cheaper grades and the market ruled steady. The arrivals were moderate and the demand was fair. Following are the quotations at the close ranged as follows: Choice Timothy, $12.00@13.00; No. 1 Timothy, $11.00@11.50; No. 2 Timothy, $9.00@10.00; No. 3 Timothy, $8.00@9.00; Clover Mixed, $10.00@11.00; No. 1 Prairie, $10.00@10.50; No. 2 Prairie, $8.00@9.00; No. 3 Prairie $6.00@7.00; Packing Hay, $5.00@6.00. Inside prices for Prairie for local trade and outside for Timothy, Nebraska and Iowa Hay. Sales ranged at $8.00@10.50 for poor to fancy Timothy, $7.00 for Mixed Hay, and $7.00@10.00 for Iowa, Dakota, Nebraska and Kansas Prairie. Rye Straw sold at $5.50@6.00, and Oat Straw at $7.00.

BUCKWHEAT—A fair business was transacted in Buckwheat during the past week. Outside offerings were fairly large, and the receipts were such as to make more freedom. Offerings were fairly liberal from arriving from outside manufacturers. The change to note in prices. Ash Pork Buckwheat was in moderate demand, with a large supply. Offerings and prices were fairly firm. Sales were made at $1.07½@$1.12½, and closed at $1.10@$1.12½. Rye Flour was in fair request and prices were steady at $1.17½@$1.20. Lard Tierces were in fairly good demand and held steadily at $1.37½ to $1.40. Iron bound Lard Tierces were quiet and held steady at $1.50@$1.60. Linseed Oil was unchanged and fluctuations in prices were frequent, but closed within comparatively narrow ranges. Early, the feeling was rather easy, and prices sold 2@3c lower. Later, a little more steadiness was manifested, and the decline was recovered. Toward the close, an easy feeling again prevailed, and prices settled back again, and market closed lower steady. Sales during the week were made at $.50@$.52 for light, $.50@$.50 for rough packing, $.51@$.74 for tanks, and $.56@$.77½ for steam packing and shipping lots, with the bulk of the trading within the range of $.51@$.70 for fair to good averages. At the close about 5,000 Hogs remained in the pens unsold. Pigs were in fair supply, and in rather good demand, and sales were made at $3.50@$4.15, according to size and condition. Supply of Hogs at other large Western packing points was liberal, and the quality rather poor.

PACKING—Quite a good business was transacted in packing circles during the past week, and the manufacturers of Products was quite liberal. Hogs were in liberal supply, and the packing buyers, and this encouraged a larger business. Mess Pork made sparingly. Other cuts of Pork made in fairly good quantities. Lard produced rather freely, with a light increase in the average yield. Only a moderate quantity produced in tanks. Domestic cuts of Hams were made more freely, and the bulk was cured by manufacturers. Interior Hams cut in large quantities, and only a small proportion delivered from the block. Foreign cuts of Hams made sparingly. Shoulders made in moderate quantities, with a fair proportion delivered from the block to the retail trade. Picnic Hams cut rather freely, and the bulk cured by packers. Long Clear Sides made very sparingly. Extra Long Clear Sides not reported. Short Clear Sides made moderately to those for export orders. Extra Short Clear Sides cut in fair quantities. Short Rib Sides met with a little more favor, but the production is still on a moderate scale. Extra Short Rib Sides made in fair quantities. Rough Sides cuts moderately, and chiefly of light and medium averages. Backs made in limited quantities. Bellies in moderate demand. Loins cut rather freely to meet current wants. Foreign fancy and special cuts of Meats made in small quantities.

PROVISIONS—Considerable interest was manifested in the market for Hog Products during the past week, and the volume of speculative trading was quite large. Outside operators appeared to be a little more active in trade, especially during the latter part of the week, and local packers and speculators traded with considerable freedom. An unsettled feeling prevailed during the greater portion of the time, and fluctuations in prices were frequent, though as a rule were confined within comparatively narrow ranges. The price of Corn was fairly well maintained, considering the surroundings of the trade, and this feature encouraged fair miscellaneous buying. On the other hand, the supply of Hogs at the larger Western packing points was quite large, which induced packing buyers, and this exerted a tendency to depress prices at times, and induced rather free offerings. The supplies on hand in the aggregate are not so large as generally anticipated, and increase during November being unusually small. This feature had some influence on the speculative market during the latter part of the week. In November, 1903, packers killed 2,950,000 lbs. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited an increase of 185,000 Hogs. Receipts of Products from interior continue heavy, indicating that outside packers are willing to sell at current prices. Shipments were fairly liberal, with a moderate proportion for export. Early in the week, there was fair miscellaneous buying, with moderate offerings, and the undertone to the market was stronger in a general way, and prices ruled slightly higher. At the improvement, there was some pressure to sell, and on the liberal receipts of Hogs, and prices settled back considerably all around. The decline brought buyers into the market again, and a firmer feeling prevailed, accompanied with a fairly rally in prices. At the advance, there was considerable pressure to sell, partially credited to outside packers, and prices receded to nearly inside figures. Toward the close, the demand was active, mainly from "shorts," with only fair offerings, and prices advanced sharply, and closed steady. Near deliveries were rather quiet. Trade was also quiet and steady in January and May contracts, with a few scattering trades in July. Foreign markets were rather firm early in the week, and prices were advanced on most descriptions. Toward the close, the feeling was not very firm, and prices were barely supported. Orders from that quarter were moderate, and for small quantities. Domestic markets were inactive and rather steady. In the shipping branch of the trade there was a fair business transacted, but details were not made public. Offerings were not very large, as the bulk of the supply was of parcels cured lots, while the demand was fair, and mainly for small quantities. Prices exhibited very little change.

Pork—Trade was quite active in the market for Mess Pork during the past week. The feeling was somewhat unsettled and prices were irregular. Deliveries on December contracts were about 7,750 brls, and transactions in May were slightly improved. Bulk of the trading, however, was confined to January and May—the latter gaining in favor. Stock on hand is about 2,000 brls less than one month ago, and nearly 100,000 brls less than comparatively small. Aggregate stock on hand about 29,900 brls. Outside orders were fair. Packers sold moderately. Early in the week, the feeling was rather firm, with fair buying, and prices advanced 25@37½c on the whole range. At the appreciation, there was some pressure to sell, especially from "long," and an easier feeling was developed. Prices receded again 25@27½c. This reduction brought buyers into the market again, and considerable firmness was manifested. Prices rallied sharply, and toward the close the market was not quite so strong, and prices settled back 5@10c, but rallied again quickly to about outside figures, and the market closed comparatively steady. Near deliveries were quiet. Sales were moderate, and offerings were not very large. At the close, cash lots were quotable at $11.80@11.85 for regular, with repacked at 10@15c premium. Cut Meats—Trade was quiet and fair demand, and offerings were moderately free in a quiet way. Stock increased about 7,800 lbs during November. Prices ruled slightly lower for most descriptions.

Lard—A fairly good trade was reported in the Lard markets during the past week. Undertone was not quite as strong, but the feeling among the supply is comparatively small. Local stocks decreased about 7,000 tcs during the past month, and the world's supply was reported 15,000 tcs smaller. Foreign markets were generally unsettled able to holders, and stocks abroad are fairly large. Production gradually enlarging, and average yield fairly good. Packers sold fair quantities around steady figures. Early in the week, the feeling was fairly steady, and there was little change in prices temporarily. Later, there was fair miscellaneous selling, but buyers were a little slow to meet the views of sellers, and an easy feeling prevailed. Prices declined 12½@15c on the whole range. At the reduction, there was a fairly good demand, especially from "shorts," and prices rallied sharply, recovering the offerings and prices settled back 5@7½c, but toward the close rallied 2½@5c, and closed steady. The demand on shipping account continued moderate and offerings were light. A few lots were accepted by exporters. Prices generally ranged at about January figures. Refined was in light request for export, but prices were not made public. Loose lots were in rather good request, and the offerings were fair. Holders not so firm as last week, and the close was weak and 5@7½c discount on January figures. Leaf Lard in fair demand, and offerings were larger. Market trades were made at $6.62½@6.75, and closed at $6.62½. Neutral was called for sparingly, and there was a little pressure to sell. Feeding was active for any and prices were lower, closing at $7.87½@8.00 for No. 1 and $7.37½@7.50 for No. 2.

Short Rib Sides—There was quite a good speculative business transacted in Short Rib Sides during the week just closed, with the bulk of the trading in January and May contracts. Near deliveries inactive. Supplies on hand are only fair, and about 3,400,000 lbs less than a month ago, and 1,600,000 lbs less than one year ago. Aggregate supply about 19 per cent of that of a year ago. Manufacture fair, especially within the past two weeks. Early in the week, the feeling was rather firm, with fair buying, and prices advanced 2½@5c. At the improvement, there was inclination to realize. Packing buyers were bearish, and prices receded 15@20c. At the decline, the demand increased, especially from "shorts," and prices rallied 20@25c, but near the close, settled back again 5@10c, and the market closed comparatively steady. Demand on shipping account was moderate, and offerings were rather tight. Light and medium averages rather scarce. Cash lots at the close were quotable at $6.62½@6.75 according to weight and age.

Green Meats—Trade in Green Meats was on a moderate scale during the week just closed. Offerings were not very large, notwithstanding the increased manufacture, as packers apparently prefer to cure than sell from the block. Demand was only fair, and buyers were a little slow to meet the views of sellers. Local curers were a little slow to purchase, and outside orders were limited in range. Bellies were called for moderately and moderate. Hams were called for sparingly, and were without material change. Small offerings for future delivery. Skinned Hams were in fair demand and offerings were light. Prices rather favored the buyer in favor of sellers. Little inclination to sell for future delivery. Shoulders were in light demand, and prices were steady. Picnic Hams were in moderate request, and prices without material change. Bellies were called for sparingly, and prices were unchanged.

Pickled Meats—Not much life was manifested in the market for Pickled Meats during the week just closed. Offerings were not very large, and the demand appeared to be on a limited scale. Foreign markets were stronger, but the orders from that quarter were small. Domestic markets inclined to quietness. Stocks of all kinds on hand are only moderate, and of fair quality. Buyers were a little backward about meeting the views of sellers. Offerings of all kinds for future delivery were on a moderate scale, and buyers seemed to be somewhat timid. Merchants in domestic distributing markets accepted only sufficient quantities to meet current wants. Hams were called for moderately, and prices were steady. Skinned Hams were in moderate demand and prices were fairly well supported, especially for desirable average. Shoulders were in limited request and prices without material change. Picnic Hams were in light demand, and there was no particular change to note in prices. Bellies were called for sparingly, and prices were quoted nominally steady.

Dry Salted Meats—A little more interest was manifested in the market for Dry Salted Meats during the past week, but the volume of business was moderate. Foreign markets were largely bare, with a good proportion of partly cured lots, or of "shipping age." Demand was moderate, and almost exclusively to supply the wants of the domestic trade. Foreign markets were stronger, and prices were higher for most descriptions, but the demand from that quarter was very light, and will probably remain so until after the holidays. Undertone to the market was a little steadier in a general way, but there was little change to note in prices. Supplies of all kinds are fair, but the proportion of fully cured lots is small. Stocks of Hams were quiet, and prices steady. Shoulders were in small request, and prices were unchanged. Long Clear Sides inactive, and prices nominally unchanged. Extra Long Clear Sides neglected. Short Clear Sides were in small request, and prices ruled steady. Extra Short Clear Sides were called for moderately, and prices unchanged and very firm. Prices well maintained—closing at $6.70@6.75. Extra Short Rib Sides were in fair demand to fill small orders, and offerings were not very large. Prices ruled steady—closing at $6.90@6.95. Rough Sides were in fairly good demand, and offerings were fair, but mainly of partly cured lots. Prices ruled rather steady—closing at $6.40@6.75. Regarding Bellies, offerings were called for moderately, and prices ruled steady. Butts quiet at unchanged prices. Backs were quiet at about former figures. Bellies were called for moderately, and prices ruled steady. Foreign fancy and special cuts of Meats were quiet, and prices nominally unchanged.

Smoked Meats—The trade in Smoked Meats during the past week was limited, owing the cooler weather and the holiday buying. Offerings were moderate, while orders were for limited quantities. Stocks were reported fair. Hams in light request and prices ruled steady. Skinned Hams were in moderate request and prices ruled 1@2c lower. Shoulders were in light demand and prices ruled steady. Picnic Hams were in small request and prices ruled 1@2c lower. Sides of all kinds were called for moderately, and prices ruled 1@2c lower. Breakfast Bacon in fair request and prices favored buyers.

Beef Products—The past week was quiet in the market for Beef Products and feeling was rather steady for most descriptions. Offerings were fair, and the demand only moderate. Prices were in fair supply and prices lower for common grades, while the better grades held up fairly well. Foreign markets were steady and domestic markets quiet. Shipments of Dressed Beef rather liberal. Manufacture of Products was moderate and supplies on hand are fair. Beef Hams were called for moderately and prices were unchanged. Extra India Mess Beef quiet and steady at former figures. Plate Beef in rather light demand and steady. Extra Plate Beef in moderate demand and prices were unchanged. Tallow was inactive and prices nominal. Stearine was firm, but held, and prices ruled about the higher. Oleo-Stearine was rather quiet and steady at 6½@6¾c.

Greases—Trade in Greases was on a moderate scale, and there were no marked changes to note. Offerings were rather light, and the demand fairly good for the time. Market rather firm, and prices favored sellers.

In reply to the proposal of the American Cereal Company for all the cereal companies to discontinue the coupon advertising plan, the Great Western Cereal Company, through its advertising manager, George E. Koplin, has written a counter proposition as follows: "Inasmuch as a certain cereal company has made a proposition that if all cereal manufacturers, wholesalers, and distributers would discontinue their premium plans they would do likewise (a plan which is not feasible on the face of it), the Great Western Cereal Company has made a proposition to the trade of the United States, both wholesale and retail, to discontinue that portion of its premium plan which has been assailed, and which is unjustly obnoxious to the trade, viz., the "coupon and cash" plan, provided the American Cereal Company and the H. O. Company are willing to do likewise, the date on which this would take effect to be fixed by those interested in the near future."

The prosperity of Illinois is shown in the abstract of the report to the Comptroller of the Currency on the condition of the National Banks of that State outside of Chicago. The individual deposits in the National Banks of Illinois, outside of Chicago, on Nov. 10 amounted to $,01,202,,82, and including Chicago the total individual deposits was $,58,924,886. This is an increase over the same date of 1903 of $9,000,000 in the State outside of Chicago and $50,000,000 for the whole State, including Chicago The total deposits for the National Banks, including that in Chicago, in November, 1903, was $,43,139,355, and for this year the total was $,92,9 4,886. The loans and discounts of the banks outside Chicago Nov. 10, 1904, amounted to $109,612,119, as compared with $101,890,312 last year; the cash reserves, $,35,585,019, as compared with $,27,7,7,203 a year ago; the National Bank notes issued, $15,,50,9.0, as compared with $14,0,4,150 last year, and the individual deposits $121,784,392, as compared with $112,,39,493 last year. These figures indicate to the Comptroller not only the excellent condition of the National Banks in Illinois, but also the prosperity of the people of Illinois.

A statement issued Wednesday by the Illinois State Auditor, giving the condition of all the State banks in Illinois, shows a decided improvement in the financial condition of those prosperous institutions for the month. A comparison of the statement shows the condition of the banks on Nov. 11, and a comparison is made with the condition of the same institutions on Sept. 7 last. In the resources substantial increases are shown in all but five items, which are the real estate, due from State banks and bankers, Gold coin, Silver coin and fractional coin. The loans and discounts have increased $,173,359, now reaching an aggregate of $,28,521,281. There has been an increase of $891,167 in the United States bonds and of $225,-910 in the bonds held by the banks. In the liabilities there has been a decrease of $2,979 in the dividends unpaid. These are the only liabilities showing a decrease except the amount due to State banks and bankers. There are increases in the deposits as follows: Savings, $4,106,647; time certificates, $459,703; individual, $19,051,230; demand certificates, $16,374; certified checks, $38,-997; cashiers' checks, $213,878.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate and prices firm as recently quoted.

WINTER WHEAT—Was quiet for lack of offerings, and prices 1@2c higher in sympathy with futures, but Hard Wheat slow to follow. Soft Wheat, especially choice, wanted by millers, other descriptions slow. No. 2 Red in store nominally $1 11⅝@1 15½ depending some on location—outside special bin lots. Fresh arrivals free on board quotably $1 16½@1 17½. No. 3 Red fresh arrivals sold at $1 14 and quotably down to $1 10 for ordinary. No. 4 Red fresh arrivals sold at 96@97c and choice at $1 09½. No. 2 Hard fresh arrivals quotably $1 11@1 15 and No. 3 Hard at $1 02@1 10.

SPRING WHEAT—But little trading owing to small receipts. Choice Wheat, especially the hard variety, met with some milling demand. Feeling firm and prices 1@2c higher. No. 1 Northern fresh arrivals free on board quotable at $1 18@1 22. No. 2 Northern sold at $1 13. No. 3 Spring nominally $1 03@1 14. No. 4 Spring sold at 85c for common to $1 06 for hard variety. Very poor quotably down to 60c.

REGULAR WHEAT—The market was broad and active, with final figures 2c higher for December, while May gained 2@2⅛c, and July ⅞@1c. Investment buying was more in evidence, and "shorts" generally covered on the early upturn. The better cables and adverse crop news from Argentina as well as Australia were the principal "bull" factors. Direct Argentine cables reported serious damage owing to continued unfavorable weather, and *Broomhall* cabled the crop in Australia was injured by hot weather. Primary receipts were 253,000 bu smaller than a year ago, and Northwest cars 82 under those of 1903. Liverpool quoted spot steady to ½d higher and futures ⅛@⅜d higher. Stocks there 4 968,000 bu, decreased 8,000 bu. Stock one year ago, 3,232 000 bu. London came ½d higher. Paris, Antwerp and Buda Pesth were unchanged. Berlin declined ⅜c. World's shipments were 10,592,000 bu, against 11,890,000 bu the week previous and 13,376,000 bu one year ago. The quantity on ocean passage increased 192,000 bu to 39,793,000 bu, compared with 27 328,000 bu same date in 1903. The visible increased 1,265 000 bu, against 1,902 000 bu increase same week in 1903. Total now is 36,860,000 bu, compared with 32,042,000 bu one year ago and 45,940,000 bu two years back. Local public stocks increased 13,000 bu to 1,683,000 bu, compared with 2,575 000 bu same date in 1903. The English visible increased 583,000 bu, against 382,000 bu decrease same week last year. English farmers' deliveries were 368,000 bu at 91¾c, against 348,000 bu the week previous at 92c and 416,000 bu one year ago at 84¾c. Minneapolis stocks were reported increased 482 000 bu in two days. Late Argentine cables reported the weather fine, and liquidation and profit taking was quite general, but market absorbed the offerings quite well. Part of the early buying was credited to the Northwest. Minneapolis reported large Flour sales. New York advices were "bearish" on the cash situation. Foreigners were reported as offering to resell. Hamburg offered two cargoes. Map showed good snows in Kansas and Oklahoma, general rains in Ohio Valley and local rains in Illinois and Missouri. Rain or snow was predicted for Illinois and Iowa. No acceptances reported at seaboard. Receipts at Duluth 145 cars, at Minneapolis 848 cars, a total of 993 cars, against 727 cars Saturday, 1,361 cars a week ago, and 1,075 cars last year. Local receipts included 45 cars Winter, 15 cars Spring and 6 cars mixed, total of 66 cars, against 91 cars last year. Included in above was none contract grade. There were also 50 cars and no bu taken from unlicensed elevators. The estimated receipts for tomorrow are 112 cars. The withdrawals were 90,200 bu. Receipts at Western points were 1,268,125 bu, against 1,460,706 bu last year. At Eastern points 137,514 bu, against 416,534 last year. Shipments from Western points 593,519 bu, against 445,637 last year and from Eastern points 21,785 bu, against 581,707 bu last year. Shipments of Flour were 7,012 brls. Exports of Wheat in Flour were equal to 56,505 bu.

Future Deliveries of Regular Wheat—Active and higher.

CORN—There was a good trade within a lower range, the feeling prevalent being weaker. December closed with 1@1⅛c loss, while May declined ½c and the July ½c. The heavy receipts, easy cables and increasing supplies were the "bear" factors and selling was led by floor traders and professionals. Provision interests and "shorts" bought on the decline. Receipts were 702 cars, against 183 cars one year ago and 937 cars were estimated for to-morrow. Liverpool quoted spot steady to ½d lower and futures ⅛d lower. Stocks there 741,000 bu decreased 73,000 bu. Stock one year ago 1,200,000 bu. The visible supply increased 1 328 000 bu, compared with 283,000 bu decrease for the same week in 1903. The total is now reported 3,181,000 bu, against 5,581,000 bu in 1903 and 3 895,000 bu in 1902. Local public stocks increased 27,000 bu and are now 208,000 bu, against 1,089,100 bu in 1903. World's shipments were 3,145,000 bu, against 2,867,000 bu week previous and 3,690,000 bu one year ago. The quantity on ocean passage decreased 986,000 bu and is now 18,171,000 bu, compared with 15,617,000 bu one year ago. Argentine cables stated the new crop was expected to be very large. Southwestern markets were weak and country acceptances were reported as heavy. Western receipts 1,026,000 bu, against 546,000 bu or 1903 and shipments 795,000 bu and 257,000 bu respectively. Local arrivals 410,000 bu and shipments 504,000 bu. Withdrawals here were heavy, 643,000 bu. Exports were 28,000 bu but seaboard reported 30 boat loads accepted. Shipping demand moderate and sales 200,000 bu. Car lots were in large supply and fair demand. Feeling weak and prices 1@1½c lower. No. 2 sold at 47½c, and closed about 46½c. No. 2 Yellow closed at 47½c. No. 3 sold at 43¾@44c, and closed at 43¾c. No. 3 Yellow sold at 44c, and closed at 43¾c. No. 4 sold 43@43½c.

Corn by sample. Offerings were heavy and the demand fair. Feeling was weak and prices anywhere from 1@1½c lower. Sales on track and free on board: No Grade sold at 39@42c. No. 4 at 42½@43½c. No 3 at 43¾@44½c. No. 3 Yellow at 43½@47c. No. 2 Yellow at 47½c. No. 3 White at 43¾@44½c. No. 2 White at 47c. Billed through: No Grade at 39½@41½c. No. 4 at 41@43c. No 3 at 42½@43½c. No. 3 Yellow at 42½@46c. No. 2 Yellow at 46c. No. 3 White at 42½@43¼c. No. 2 White at 47c.

Future Deliveries of No. 2 Corn—Active and weaker and closed ½c to 1@1⅛c lower.

DECEMBER—Sold at 46½@47½c. Opened at 47½c to 47¼c, and sold at 47⅜c, to 46⅞c, to 47c, to 46¾c, to 47⅛c, to 46½c, to 46⅞c, to 46¾c, to 46¾@46⅞c, and closed at 46¾@46⅞c.

JANUARY—Sold at 43⅜@43½c and 43⅞c. Opened at 43⅞c, and sold at 43⅜@43½c, to 43⅝c, and closed at 43⅝c.

MAY—Sold at 44¾@45¼c. Opened at 45¼c to 45⅛c, and sold at 45⅛@45¼c, at 45@45⅛c, to 45¼c, to 45c, to 45⅛c, to 44¾c, to 45c, to 44⅞@45c, and closed at 44⅞@45c.

JULY—Sold at 45@45⅜c. Opened at 45⅜c to 45¼c, and sold at 45⅛@45¼c, to 45¼c, to 45c, to 45⅛c, to 45c, and closed at 45c bid.

SEPTEMBER—Sold at 45c.

OATS—Were weaker, prices receding ¼@⅜c and at the close were ⅛c under Saturday's. There was a heavy undertone and only a moderate scattered commission house trade. Weakness in Corn had a depressing influence. The statistics were "bearish." Visible supply increased 265 000 bu, against 1,469,000 bu last year. Local stocks decreased 74,000 bu. Arrivals 99 cars with 152 cars estimated for to-morrow. Seaboard clearances 17,000 bu. Cash sales were 50,000 bu. Car lots were ¼@½c lower. No. 3 White at 30½c. Standard in store closed at 28¾@29c.

Oats by sample were ¼@½c lower, with offerings fair and demand slow. Sales on track and free on board: No. 4 at 29½c. No. 4 White at 29@30¼c. No. 3 at 29¾c. No. 3 White at 30½@31½c. Standard at 30½@31½c. No. 2 at 30c. No. 2 White at 30½@31¼c. Billed through: No Grade at 29¼c. No. 4 White at 29½@30½c. No. 3 White at 30@30¾c. Standard at 30½@30¾c. No. 2 at 29½c. No. 2 White at 30¾@31c. At the river: No. 4 White at 28¼@29c. No. 3 White at 28¾@29½c. Standard at 28¾c.

Future Deliveries of Contract Oats—Were lower, with moderate trading.

DECEMBER—Sold at 28¾@29c. Opened at 28⅞c, sold to 29c, to 28¾c, to 28⅞c at close.

MAY—Fairly active. Sold at 30⅝@31c. Opened at 30⅞c to 31c, sold to 30⅝c, to 30¾@30⅞c at close.

JULY—Slow at 30⅝@30¾c. Opened at 30¾c; closed at 30¾c.

RYE—Was steady, with a little more doing, but market at best was quiet. The visible supply increased 148,000 bu, and local stock decreased 10,000 bu. There were five cars received, and two cars withdrawn from private warehouse. No exports from New York. No 2 in store nominally 74½c, and fresh arrivals sold at 78@78½c.

Future Deliveries of No. 2 Rye—Firmer. December 74½c bid and 76c asked. May sold at 78@78½c and closed at 78½c.

BARLEY—A fair business in malting grades was done. The cheaper qualities were readily taken and ruled firm. Of the better grades there were sales over the late range of quotations. Buyers at the same time acted indifferently toward the higher grades. Weakness prevailed for same, and in some cases it was reported that concessions from prices previously obtained had to be made. In some instances ½c decline was quoted. Practically nothing doing in Barley below the malting grade, that is in feed. This kind has about disappeared from the market. Some trading in Screenings. Demand fair but buyers not paying up to full former prices owing to higher rate of freight. There were inspected in 70 cars. Visible supply increased last week as elsewhere shown, while local stock did not change. Sales of Screenings were at 25@37c which also was about the full range for poor to choice. Feed Barley was nominally 38c local and a few cars at the river sold at 36@36½c. Malting, low grade, small berry, or heavy but dirty, again sold at 39@41c; clean, fair to good, at 41@46c, and large berry, heavy, good color, quotable at 46@47c, with choice to fancy 47@51c.

SEEDS—There was no material change in prices. May delivery Flax sold below the last asking price. Grass Seeds were steady; trade confined to Timothy, where it was mostly for future delivery.

Timothy—Good sales for March delivery were made at $2 85. This was 2½c under Saturday's asking price. At this figure there remained some demand; it was bid. Near futures inactive, neglected and nominal. December about $2 70 and January $2 72½@2 75. Cash Seed fair sale. A number of lots were delivered on previous sales. There were only moderate offerings of fresh arrivals. Among these lots there were some of very fine quality, some also of low grade. Market about steady for cash Seed, with country lots quotable at $1 75@2 75 for low grade to fancy; inferior lower; fair to good, $2 40@2 50, and rough, dirty or hulled, $2 20@2 35.

Flax—Nothing new developed this side of May delivery, and that was traded for the first time in some weeks. It sold at $1 24, or at 2c under what was asked for it on Saturday. December nominal at $1 15 bid, which was unchanged. Cash market also unchanged and very quiet, due to very meager offerings. Three cars and 2,700 bu were received and 1 car or 1,041 bu taken out. Minneapolis receipts 92 cars; Duluth got 126 cars. No. 1 Northwestern was sold at $1 24 spot and at $1 22 to arrive. For No 1 $1 15 was bid. Rejected nominally $1 12@1 20 depending on quality.

Clover—Was steady and firm at last week's advanced quotations. No business was done on the open market for want of offerings. Contract grade quotable at $12 50. Country lots, common to choice, quotable at $7 00@12 25; very poor lower, and fancy above. Fair to good, $8 7 @11 50.

Other Seeds—Steady and firm with no change to note. Hungarian at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice. German at 90c@$1 25, Siberian at 80@85c, Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c. Mustard about 75c@$1 10. Buckwheat, good milling, quotable at $1 20@1 25.

HOG PRODUCTS—Trade in a speculative way was fair in the market for Hog Products, and the feeling was somewhat unsettled. Outside orders were not very large, and the local trade was only fair. Offerings were rather free, while the demand was not very urgent. Hogs were in liberal supply and prices lower, which encouraged a little selling, but packers gave the market a little support around inside figures, and checked the decline. Prices ruled somewhat lower on all the leading articles, but rallied moderately from inside figures reached. Trading mainly in January and May deliveries. Receipts of Hogs at the leading Western packing points were estimated at 98 000, compared with 80,700 one year ago. Foreign markets were steady for Meats at unchanged prices, while Lard was quoted 3d higher. Domestic markets were quiet. Receipts of Products were quite large—of Lard and Meats about 48 cars. Shipments were moderate—of Lard and Meats about 105 cars. Shipping demand was moderate, and offerings were not very large. Sales were comparatively light, and there was no material change to note in prices. Exports for the week, compared with the corresponding week in 1903, exhibited decreases of 640 brls Pork, 278,000 lbs Lard, and 1,393 boxes Meats.

Mess Pork—A fair business was transacted in Mess Pork. Feeling considerably unsettled and prices irregular. Offerings were moderately free, and the demand was fair, with trading mainly in the deferred futures. Market opened rather easy at about 2½c decline, and a further reduction of 7½@10c was submitted to, under a little pressure to sell. Later, a little more steadiness prevailed and prices rallied 5@7½c, and the market closed rather steady. Demand on shipping was light, and offerings were moderate. Cash lots quotable at $11 45@11 60 for regular, with repacked at 10@15c discount.

DECEMBER—In light demand and offerings were moderate. Sales were made at $11 45@11 50, and closed quiet at $11 45.

JANUARY—Demand was fair and offerings were moderately free. Sales were made at $12 75@12 85. Opened at $12 82½, sold to $12 75, to $12 82½@12 85, to $12 80, to $12 85, to $12 82½, and closed steady.

MAY—Offerings were fairly liberal, and the demand was moderate. Sales were made at $13 02½@13 12½. Opened at $13 10, sold to $13 12½, to $13 02½, to $13 07½, to $13 05, to $13 07½, to $13 05, to $13 10, to $13 05, and closed steady.

Lard—Only a moderate business was transacted in Lard and the feeling was comparatively steady. Offerings were not very free, and the demand was fair. Foreign advices were more favorable to sellers. Trading chiefly in the deferred deliveries. Prices ruled about 2½c lower, and the market closed steady at the reduction. Demand on shipping account limited, with light offerings. Cash lots were quiet and quotable at about 2½c discount on January figures, closing at about $6 95. Loose lots in moderate request, with fair offerings. Prices were quotable at 50c discount on January figures. Leaf Lard was in good demand, with fair offerings. Prices quotably lower at $6 50. Neutral in light demand, with only fair offerings. Prices quotably steady at $7 87½@8 00 for No 1, and $7 37½@7 50 for No. 2

DECEMBER—Quiet, with small sales at $6 87½.

JANUARY—In fair request and offerings moderate. Sales were made at $6 92½@6 97½. Opened at $6 95 to $6 97½, sold to $6 92½, and closed steady.

MAY—Offerings were fair, and the demand was moderate. Sales were made at $7 15@7 17½. Opened at $7 15, sold to $7 15@7 17½, to $7 15, and closed quiet.

JULY—Quotable at $7 22½.

Short Rib Sides—Trade was fair in the market for Short Rib Sides and the feeling was easier. Trading confined to the deferred deliveries. Prices on the whole range ruled 2½@5c lower, and the market closed steady at medium figures. Trading largely local. Demand on shipping account was rather light and offerings were limited. Cash lots quotable at $6 37½@6 62½ according to weight and age.

JANUARY—In rather good demand and offerings were fair. Sales were made at $6 57½@6 60. Opened at $6 57½, sold to $6 60, to $6 57½@6 60, to $6 60, to $6 57½@6 60, and closed steady.

MAY—Offerings were moderately free, and the demand was fair. Sales were made at $6 75@6 80. Opened at $6 75 to $6 77½, sold to $6 80, to $6 77½@6 80, to $6 80, to $6 77½, to $6 77½@6 80, and closed steady.

JULY—Quiet and steady at $6 92½@6 95.

Other Meats—Sales reported were rather light—not reflecting the actual trade—and the feeling was steady. Domestic demand was moderate, and orders from abroad were limited. Offerings of all kinds were not very large. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices ruled steady. Dry Salted Meats in fair request, with moderate offerings, and prices were easier. Smoked Meats called for moderately, and prices ruled steady. Closing prices were as follows:

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Nov. 22.]

United Kingdom—Agricultural reports for the United Kingdom continue quite favorable, the recent rains having been of much benefit to the land and to crops already sown. At time of writing the weather is much more winterly, but probably not severe enough to hurt even where the tender blade is just struggling through the soil, and the lower temperature will give a welcome check to forward fields. The official average price for English Wheat was again slightly lower last week, but the price of 30s 2d still makes a good showing, compared with any recent year at this time. Supplies keep moderate or small and reports have nothing favorable to say about threshing returns.

Russia -There is little fresh crop news from this important grower, but all recent advices have agreed in saying that the new seedings are going into winter quarters under very satisfactory conditions. Shipments were smaller last week and it is generally expected that the quantities will remain on a smaller scale from now onward. The Azoff season is not, however, quite finished yet, so there may be another good quantity reported for this week, and we may point out that although stocks at Black Sea ports are not particularly heavy, yet fair quantities are held there and it is no very difficult matter to send Grain down to Novorossisk from the Azoff district.

Roumania—Wintry weather is setting in on the Danube, but recent reports have mentioned the probability of the Braila stocks being sent down to Sulina for winter shipment. There is no change to note in the crop situation.

Austria-Hungary—Favorable reports of the crop situation continue to be received.

Argentina Up to the end of last week crop advices continued of very favorable tenor, our agent at Buenos Ayres cabling that harvest had commenced and that prospects for Wheat point to a larger crop than last year's. To day, however, cables received by Liverpool firms say that the weather is wet and unfavorable for harvest in the north of Santa Fe.

Australia Our cable of last Saturday from Adelaide reported that conditions continue favorable for the harvest, and we hear from other sources that the crop is likely to be ready at an early date, say about Dec. 1. Latest mail advices are likewise quite favorable, reporting that the October rains came in time to save the crops, but on the other hand we hear that a cable advice has just been received from Sydney which says that the crop is disappointing. This probably means that threshing results are below expectations and as New South Wales is one of the largest growers, having 2,000,000 acres under Wheat, the matter is rather important.

India—Our correspondent at Agra, which is situated in one of the largest producing provinces, reports that Wheat and Flax Seed have been seeded on a full acreage under very favorable conditions, and from other sources we learn that all is going well with the new seedings. Shipments continue on a very large scale.

France—It is now generally reported that the recent rains were only partial and several districts are mentioned where drouth conditions still prevail to the detriment of the young crops. Country markets have been rather better supplied with Wheat, but still prices have ruled firm and sellers have been able to get about 6d per quarter more money. Foreign is being taken in at a good rate, but so far only very moderate quantities have been taken for home consumption.

Italy and Spain -Crop reports from these countries are fairly good, on the whole, but in both the supply of moisture this autumn has been rather scanty. Purchases of foreign Wheat are on a liberal scale.

Germany—Western districts experienced mild, foggy weather last week, but it was colder in the Center and much colder in the North. There are no complaints regarding the crops, and the Prussian official bulletin for mid-November placed the condition of the new Wheat and Rye seedings as equal to 82 per cent. Berlin reports that many interior buyers of foreign Wheat are still without their usual winter supplies, owing to the long interruption of interior navigation.

North Africa -Weather and crop reports continue quite favorable, but supplies from the last harvest are by no means plentiful.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, zero to 26 above; cloudy, snows Manitoba. Northwest—Temperatures, 12 to 22 above; generally cloudy. West—Temperatures, 10 to 26; partly cloudy. Southwest—Temperatures, 18 to 32; Southwest has had considerable snow. Ohio Valley—Temperatures, 26 to 32; cloudy.

Indications are for little change in conditions in this district, although it may be threatening in Eastern portion.

WORLD'S EXPORTS OF BREADSTUFFS.

ITEMS OF GENERAL INTEREST.

A fire at Pittsburg, Pa., Friday, caused a loss of $40,000.

Fire at Dupont, Pa., Friday, destroyed property to the extent of $35,000.

The Revere Block, Kent, Ohio, was destroyed by fire, Thursday. Loss, $80,000.

A party at Danville, Ill., has sold Coal interests in 13,000 acres for $3,200,000 to an Eastern syndicate.

The Drovers and Mechanics' National Bank of Baltimore will pay an extra dividend of 100 per cent in new stock.

Reports from most sections of the West indicate that farmers are cribbing their Corn in preference to shipping it at present.

It is authoritatively denied that there is any truth in the report that the Consolidated Gas Company will soon issue $20,000,000 additional stock.

A large elevator owned by the South Texas Grain Company at Houston, Texas, burned, Sunday, entailing a loss of $130,000, partially covered by insurance.

The President of the Kansas Grain Association says: "Wheat damaged 40 per cent over the State in my opinion, and mill and elevator stocks sensationally small."

Bank Clearings of the leading financial centers of the United States for the past week aggregated $3,195,019,616, an increase of 42.1 per cent, compared with the corresponding week last year.

The report that the National City Bank of New York has engaged Gold to the amount of $500,000 in Paris for import to this country is confirmed. The transaction, it is stated, is a special one.

The Cleveland, Lorain and Wheeling Railway has declared a dividend of 2½ per cent on the preferred stock, payable out of earnings prior to July 1, 1904. This is the first dividend paid on the preferred stock in some years.

After paying $4,500,000 in dividends to the United States Steel Corporation, the Duluth and Iron Range has a surplus estimated at more than $3,000,000. Its earnings since the declaration of the dividend have been large.

The following statement came from an official source Friday: "Announcement will be made within the next week or two that the members of the Steel Rail Association have agreed upon $28 per ton for steel rails for the year 1905."

The *Corn Trade News* of Nov. 21 says: "In France complaints are again made of insufficient moisture for the new seedings, for although the recent rainfall was fairly abundant in some parts, in others it was but scanty, and it has been succeeded by cold dry weather."

The Chicago Great Western Railway Company has declared its semi-annual payment of $2.00 per share interest on the 4 per cent debenture stock, according to the contract pertaining to said stock, payable Jan. 15 to holders of record on Dec. 31. Books close Dec. 17 and reopen Jan. 2.

At a meeting of the directors of the Chicago City Railway Company a dividend of 2½ per cent was declared upon the capital stock, payable Dec. 30, 1904, to stockholders of record at the close of business Dec. 12, 1904. Transfer books were ordered closed from Dec 13 to Dec. 17, 1904, both inclusive.

The monthly statement of National Bank circulation shows that at the close of business Nov. 30, 1904, the total circulation was $450,679,075, an increase for the year of $39,572,496 and for the month of $3,397,575. The amount of bonds on deposit to secure circulating notes was $431,075,840, and to secure public deposits $114,275,650.

PRESIDENT'S MESSAGE.

The President's message was transmitted to Congress to-day. It ignores the question of tariff reform. He congratulates the people on the country's prosperity. Extravagance in governmental expenditures is advised against. The relation of organized capital and organized labor to each other and to the public at large, he says, come second in importance only to the intimate questions of family life. The desirability of organized labor is recognized, but he emphatically denounces mob rule or violence to suppress the right of nonunion labor to work for a living. Several changes in existing laws affording protection for employees exposed to special risk, and an employers' liability law on federal scale is desirable. Unions cannot be allowed to dominate the government in its employment of labor. In dealing with great corporations, the President says the national government alone can deal adequately with them. A special report on the Beef industry is promised from the Bureau of Corporations. Congress is asked to consider whether the power of the Bureau of Corporations cannot be constitutionally extended to cover Inter-State insurance transactions.

One of the most important recommendations is that the Inter State Commerce law should be amended to give it power to put its rulings into effect immediately, and be reversable only by the courts. The currency question is asked to be investigated regarding the advisability of retiring the greenbacks, or whether more elasticity is consistent to safety. Upbuilding of the navy is asked. Filipinos are said not yet capable of self government. Legislation to encourage American investments on the island are asked, and he favors lower tariff rates on their exports into the United States.

ITEMS OF GENERAL INTEREST.

New York Exchange 25c premium.

Documentary Sterling steady at 482½.

Chicago Bank Clearings to-day, $36,820,535.

December deliveries to-day were 20,000 bu Rye, 250 brls Mess Pork, and 250 tcs Lard.

Ocean rates from the Atlantic ports are reported up equal to 1c per bushel on Grain to-day.

An area of 2,300,000 acres in Missouri and a condition of 73, indicates a crop of about 33,000,000 bu.

Ten packers purchased 35,400 Hogs to-day; shippers, 3,500. left over, 6 000. Market closed steady.

American Can Company has declared its regular quarterly dividend of 1¾ per cent on preferred shares.

Average cost price of Hogs at Chicago, Monday, was $4 50, against $4 62 Saturday, $4 59 a week ago and $4 47 a year ago.

Reported that 64,000 bu Manitoba Wheat, 240,000 bu Corn and 30,000 bu Oats were taken at the seaboard to-day for export.

Estimated receipts for to-morrow: Wheat, 71 cars; Corn, 289 cars; Oats, 65 cars; Rye, 2 cars; Barley, 51 cars; Hogs, 46,000.

It is hinted that after private trading on the "rust" report from Argentina for two days, the information was cheerfully given to the public.

The stock of Wheat at San Francisco Call Board ports on December 1 was 1,769,000 bu, compared with 1,845,000 bu on November 1, and 1,664,000 bu on December 1, 1903.

The suspension of Joseph Connah on the New York Stock Exchange was of no consequence. He has no contracts outstanding. The failure is due to other business enterprises.

The receipts of Wheat at Liverpool during the past three days were 912,000 bu, of which 48,000 bu were American. Receipts of Corn, 73,000 bu, of which 16,000 bu were American.

An advance of 1½c per 100 lbs on Grain and Grain Products for export, and 2½c on Grain and Grain Products for domestic use was made, Monday, in the freight rates all rail from Chicago and St. Louis to New York.

Cotton in New York sold lower, but made a partial recovery by midday. Liverpool came lower and was responsible for the selling. On the break strong interests supported the market and gave it a rally. Closing sales 11@13 points lower.

Crop advices from Argentina are conflicting. Some parties claim damage by rust and a shortage in the yield, while other reports state there is no damage, and the exportable surplus will be as large as last. Private advices from Liverpool are silent on any crop damage.

Local Securities were irregular, but changes mostly narrow. Illinois Brick made a good advance, but lost the greater part. Biscuit shares were bought fairly on reports that its November business beat all records. Carbon common advanced ½ on fair buying.

C. A. King & Co. wire: "Missouri report for December makes the Wheat crop of 1904 about 27,000,000 bu, against 22,000,000 bu in 1903. Area sown this fall, 2,300,000 acres. Condition of growing crop, 73, compared with 82 in October, and 85 one year ago. Corn crop, 178,000,000 bu, against 204,000,000 bu one year ago. Yield of Clover Seed, 80,000 bu."

Broomhall cables: "Our agent Mr. Danvers cables that rust has caused slight damage in Province of Cordoba and Santa Fe, and the damage will be increased if weather continues bad. The harvest is imperilled by rains and yields in consequence are expected to be light. The prospects in the Province of Entre Rios and Buenos Ayres are excellent."

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.	1903 bu.
Wheat east of Rockies	Inc 2,076,000	Inc. 2,193,000
Europe and afloat	Dec. 4,700,000	Dec. 1,600,000
Total	Dec 2,624,000	Inc. 593,000
Corn	Inc 855,000	Inc. 152,000
Oats	Inc 464,000	Dec. 1,238,000

Stocks in New York were weak toward the last and for the most part closed lower. In the morning there was a small selling pressure and covering by "shorts." In the later trading offerings increased and prices yielded despite the President's message. Anthracite Coal shares were strong. Lackawanna advanced 9 points. The buying is based on closer concentration of holdings. Copper broke 3½. Leather preferred broke 2½, but common gained 1 point. Money 3 to 3¼ per cent.

Broomhall's *Corn Trade News* of this date says of foreign crops: "United Kingdom, Germany, Austria-Hungary—The weather continues seasonable and reports are favorable. France and Spain—Crops have made a poor start. Italy—The autumn was too dry, but few complaints are heard of. Russia—Some complaints of the conditions come from the Central part, otherwise everything is satisfactory. The blockade of Grain on the railroads is still severe, and the arrivals at the ports are meagre. Roumania and Bulgaria—The reports are favorable. India—Crops are progressing favorably. Smaller shipments are predicted after this week; the reason given is that Liverpool has not advanced enough and every one is holding his Wheat."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate and prices firm.

WINTER WHEAT—Only a light business was transacted, partly for lack of offerings. Receipts small. Market steady. Choice Wheat in some milling demand and there were sales of 20,000 bu of mixed lots reported. No. 2 Red in store quotably about 2c over May and quotable at $1 14¾@1 16, and fresh arrivals free on board at $1 16½@1 17½. No. 3 Red fresh arrivals free on board ranged at $1 12@1 15. No. 2 Hard fresh arrivals free on board nominally $1 12@1 15 and No. 3 Hard about $1 04@1 11.

SPRING WHEAT—But little trading owing to small receipts. Choice Wheat, especially the hard variety, met with some milling demand. Feeling firm. Poor Wheat dull. No. 1 Northern fresh arrivals free on board quotable at $1 18@1 22. No. 2 Northern quotably $1 16@1 18. No. 3 Spring nominally $1 03@1 15, with a sale at $1 09½. No. 4 Spring sold at 56c for very poor, at 75c for ordinary and quotable at $1 07@1 16 for hard variety.

REGULAR WHEAT—A large trade and active unsettled market, the close being ⅞c lower for December, while the May lost ½c and the July ¼c. Early in the session the offerings were liberal and demand only moderate. Profit taking by "longs" was much in evidence and situation for a time was weak. The irresponsive cables and denial of any damage to the Argentine crop were the chief "bear" influences. At the decline established the buying became more general, local elevator interests being credited with giving the market support and sentiment shifted from the "bear" to the "bull" side. A direct cable from Buenos Ayres received early read as follows: "Weather threatening. Opinions as to exportable surplus are varying on account of light weight. General opinion is that our exportable surplus for next season will be 2½ million tons—95,000,000 bu." Montreal wired: Our Liverpool correspondents who have Argentine connections cable, "Argentine crop large, quality doubtful, weather unsettled." *Broomhall* cabled the reported rust in Argentina was generally discredited at Liverpool and caused moderate selling. Liverpool quoted spot ½d higher and futures unchanged to ⅛d higher. Receipts there the past three days 912,000 bu, of which 48,000 bu came from America. London came ¼d higher. Paris up ¼@½c, Antwerp was up ⅝c. Berlin lost ½c, Buda Pesth gained ⅝c. Local stocks in all positions reported 3,867 000 bu, a decrease of 63 000 bu. Stocks last year were 5,351,000 bu. Contract stocks increased 9,057 bu to 1,409,832 bu, against 1,731,900 bu a year ago. *Bradstreet's* available supply decreased 2,624,000 bu, compared with 593,000 bu increase during the same period in 1903. This showing proved a "bull" help, as also the report of heavy Flour sales at Minneapolis and the improved cash situation. Primary receipts were 446,000 bu less than a year ago and Northwest cars 33 smaller. Kansas City and St. Louis received 66,000 bu, against 413 000 bu a year ago. Winnipeg received 436 cars, against 112 cars one year ago. The map showed practically no precipitation and fair and continued cold conditions were predicted. Minneapolis reported stocks increased 890,000 bu the first half of week. Kansas City estimate for to-morrow, only 30 cars. Missouri State report indicated a crop of 27,000,000 bu, or same as last month, and 22,000,000 bu the final report of last year. Clearances were limited and 8 boat loads accepted at the seaboard. A late cable from *Broomhall* read: "Our agent has cabled that rust had caused slight damage in Provinces of Cordoba and Santa Fe and damage will be increased if weather continues bad. Harvest imperilled by rains and yields in consequence are expected to be light. Prospects in the Provinces of Entre Rios and Buenos Ayres are excellent." Realizing by local "longs" caused the late decline. Receipts at Duluth 168 cars, at Minneapolis 482 cars, a total of 650 cars, against 993 cars yesterday, 895 cars a week ago, and 683 cars last year. Local receipts included 68 cars Winter, 8 cars Spring and 20 cars mixed, total of 96 cars, against 153 cars last year. Included in above was none contract grade. There were also 9 cars and no bu taken from unlicensed elevators. The estimated receipts for tomorrow are 71 cars. The withdrawals were 6,350 bu. Receipts at Western points were 772,-601 bu, against 1,210,314 bu last year. At Eastern points 42,993 bu, against 367,530 last year. Shipments from Western points 1,790,723 bu, against 408,296 last year and from Eastern points no bu, against 227,257 bu last year. Shipments of Flour were 8,784 brls. Exports of Wheat in Flour were equal to 39,528 bu.

Future Deliveries of Regular Wheat—Good trade and feeling unsettled.

DECEMBER—Sold at $1 10¾@1 11¾. Opened at $1 11⅜; sold to $1 11½, to $1 10¾, to $1 11⅝, to $1 11¼, to $1 11¾, to $1 11½, to $1 11⅜, to $1 10¾, to $1 11, to $1 10⅞, and closed at $1 10⅞.

MAY—Sold at $1 12¾@1 14. Opened with sales at $1 13 to $1 13¼; sold to $1 13⅛, to $1 13½, to $1 12¾, to $1 13¼, to $1 12¾, to $1 14, to $1 13½, to $1 13⅞, to $1 13, to $1 13⅛, to $1 12¾, to $1 13⅜, to $1 13⅛, and closed at $1 13⅛ bid.

JULY—Sold at 99⅝c@$1 01. Opened at $1 00⅛; sold to $1 00⅜, to 99⅝c, to $1 00⅛, to $1 00, to $1 01, to 99¾c, to $1 00¼, to $1 00⅛, and closed at $1 00⅛.

CORN—A good trade, particularly the first half of the session, with the tone weak. Closing prices showed the December off ⅝c, while May lost ½c and the July ½c. Liquidation was general, the fine weather and easier cables being among the early "bear" influences. December was especially weak and affected the distant deliveries. Weather was clear and cold, and like conditions were predicted. Liverpool quoted spot steady to ⅛d lower and futures off ⅛d. Receipts there the past three days 72,000 bu, with 16,000 bu of the same from America. The Missouri report made the yield 178,000 000 bu, against 204,000,000 bu last year. Local receipts were 636 cars, against 348 cars same day in 1903, and 289 cars are estimated for to-morrow. Southwestern markets were again weak and country acceptances reported as large. Local stocks in all positions were reported 1,328 000 bu, a decrease of 295,000 bu. Stock one year ago 3,294,000 bu. Contract stocks increased 14,984 bu, to 241,012 bu, compared with 1,048,315 bu one year ago. *Bradstreet's* available supply increased 855,000 bu, compared with 152,000 bu increase same week in 1903. Western receipts were 1,030,000 bu, compared with 565,000 bu one year ago, and shipments 587,000 bu and 197,000 bu respectively. Local arrivals 700,000 bu and shipments 403,000 bu. Withdrawals from store here only 21,003 bu and exports 62,000 bu. Shipping demand very fair and sales 400,000 bu. At the seaboard 30 boat loads were reported accepted. Car lots were in fair demand and more moderate supply. Feeling easy and prices ½@¾c lower. No. 2 closed about 46½c and No. 2 Yellow at 47c. No. 2 White sold at 46¾c. No. 3 sold at 43½c, and closed at 43c. No. 3 Yellow sold at 43½@44c, and closed at 43c. No. 4 sold 42c.

Corn by sample—Offerings were smaller and the demand fair. Feeling, however, was weaker and prices ½@1c lower. Sales on track and free on board: No Grade sold at 30@41½c. No. 4 at 42@43½c. No. 3 at 43@46½c. No. 3 Yellow at 43½@45c. No 2 at 46¾c. No. 2 Yellow at 46½@46¾c. No. 3 White at 43½@46½c. Billed through: No Grade at 30@41c. No. 4 at 40@45c. No 3 at 41½@42½c. No. 3 Yellow at 42@42¾c. No 2 Yellow at 45¼@45½c. No 3 White at 42@42½c. No. 2 White at 45½c.

Future Deliveries of No. 2 Corn—Active and weaker, closing ½@¾c lower.

DECEMBER—Sold at 46@46½c. Opened at 46½c to 46¼c and sold at 46⅜c, to 46c, to 46¼c, to 46c, to 46⅛c, to 46@46⅛c, and closed at 46@46⅛c asked.

JANUARY—Sold at 43@43½c. Opened at 43½c, and sold at 43c, to 43⅛c, and closed at 43⅛c. Offered at one time at 42¾@42⅞c.

MAY—Sold at 44⅜@44⅞c. Opened at 44⅞c to 44¾c and sold at 44¾@44⅞c, to 44⅝c, to 44⅝c, to 44⅝c to 44¼c, to 44⅜c, to 44½@44½c, and closed at 44⅜@44½c sellers.

JULY—Sold at 44½@44⅞c. Opened at 44⅞c, and sold at 44½c, to 44¾c, to 44½c and closed 44½c bid.

OATS—Were weaker with Corn and on liberal general selling distant futures declined ¼@⅜c and December ⅛c. At the last prices were off ½@⅝c. Cash houses took December and sold May. Commission houses sold May early and became buyers later, but it closed at the bottom. Arrivals were 136 cars, with 65 cars estimated for to-morrow. Seaboard clearances 14,000 bu. Cash sales 75,000 bu. Stocks in all positions here increased increased 49,000 bu, and are 9 104,000 bu. Contract stocks here unchanged at 3,348 000 bu. Car lots to go to store were steady to ½c lower. Standard in store closed about 28¾c.

Oats by sample were in smaller supply and sold fairly. Prices were steady to ½c lower. Sales on track and free on board: No 4 White at 29⅜@29¾c. No. 3 White at 29½@31c. Standard at 29¾@31c. No. 2 at 30@30¼c. No. 2 White at 31½@32c. Billed through: No 4 White at 28½@30c. No. 3 White at 30@30¼c. Standard at 30½c. No. 2 at 29¾c. No 2 White at 30¾@31c. At the river: No. 4 White at 28½c. No. 3 White at 28@29¼c.

Future Deliveries of Contract Oats—Were weaker and lower.

DECEMBER—Sold at 28⅝@28⅞c. Opened at 28⅞c, sold to 28⅝c, to 28¾c at close.

MAY—Liberal trading. Sold at 30½@30⅞c. Opened at 30⅝c, sold at 30⅝c, to 30½c at close.

JULY—Sold at 30⅜@30½c and at 30½@30⅝c. Opened at 30⅜@20½c, sold to 30½@30⅝c, to 30½c at close.

RYE—Was a trifle easier to-day. Trading light and very little interest apparently in the market. Choice Rye was steady, but a poor car sold at a lower price, and May also sold at the inside figure of yesterday. There were 11 cars received and there were no withdrawals from store. No exports from New York. No. 2 in store nominally 74c and car lots fresh arrivals sold free on board at 78½@78¾c, and at the river at 75c.

Future Deliveries of No. 2 Rye—Quiet. December 74c bid and 76c asked. May easier, with a sale at 78c, and closed with that bid.

BARLEY—There again appeared on the market a good supply of malting Barley of common to good quality. For goods within this range of grades there was a good demand and steadiness prevailed. A few cars of choice to fancy also were offered and sold at about late prices, at the same time for the higher grades there existed so little demand that they were quotably dull. A few cars of badly damaged, musty Barley, offered, were found to be almost without demand. Market for sweet feed Barley inactive being devoid of offerings. Screenings were in fair supply and when good weight and clean, they were fair sale and about steady at late reduced quotations, but there were light-weight and seedy cars which were found to rule very dull and easy. Posted as inspected to-day 81 cars. Screenings were quotable at 25@37c for poor to choice. Feed Barley nominally 38c local and at 36@38½c river billed. Malting, low grade, small berry, or heavy but dirty, sold at 39@41c; clean, fair to good, at 42@45c, and large berry, heavy, good color, quotable at 46@47c, with choice to fancy 47@51c.

SEEDS—A partial reaction from the recent advance in the case of Flax Seed was the only change in the leading lines, but some kinds of Millet gained a little. Entire market remains quiet, with offerings generally small.

Timothy—The market ruled about steady. No special feature was developed. Cash offerings small, but some lots to arrive continue to be offered and some deliveries also made on previous sales. Either cash or futures were salable at former prices. To-day samples of forty cars were tendered as contract Seed for inspection and seventeen were said to have passed. December, or contract spot Seed, still nominally $2 70; January, $2 72½. March sold at $2 85. Country lots quotable at $1 75@2 75 for low grade to fancy; inferior lower; fair to good, $2 40@2 50, and rough, dirty or hulled, $2 20@2 35.

Flax—In the case of No. 1 Northwestern cash Flax there was ½c decline, and in the rest of the market there were 1@2c lower prices. A downward tendency in the Northwest influenced the market here. Transactions were unimportant. A few cars of No. 1 Northwestern sold at $1 22½, and No 1 cash was nominally $1 13. Rejected quotable at $1 10@1 20 depending on quality. December delivery sold sparingly at $1 13, and May was offered at $1 23. Receipts a little larger, reported at 10 cars or 14,400 bu, and 2 cars or 1,516 bu taken out. Minneapolis got 19 cars and Duluth 161 cars.

Clover—Was steady and salable at former prices. Offerings limited to a few small lots of common to fair quality, and they sold over a range of $9 00@10 75. Market for contract grade quotable at $12 50. Country lots, common to choice, quotable at $7 00@12 25; very poor lower, and fancy above. Fair to good, $9 75@11 50.

HOG PRODUCTS—Only a fair trade was reported in Hog Products, and the feeling was easier. Outside orders were moderate, and local trading was fair. Offering were rather free, while the demand was not very urgent, and partially credited to "shorts." Some business in transferring contracts ahead at the current differences. Hogs were in good supply, with prices favoring buyers, and this feature encouraged a little selling. A few "stop loss orders" around inside figures. Sellers were rather slow to accept reductions in prices, owing to the strength in Wheat. Prices ruled somewhat lower on all the leading articles, and the market in a general way closed around inside figures. Receipts of Hogs at the leading Western packing points were estimated at 111,100, compared with 82,500 one year ago. Foreign markets were quiet, with Meats rather steady, and Lard easy at 3d decline. Domestic markets were quiet. Receipts of Products were liberal of Lard and Meats about 34 cars. Shipments were quite liberal of Lard and Meats about 190 cars. Demand on shipping account was moderate and offerings were only fair. Sales were comparatively small. Prices without material change.

Mess Pork—Trade was moderate in the market for Mess Pork, and the feeling was easier. Offerings were fair, and the demand was only moderate. Trading chiefly in the deferred deliveries. Some transferring of contracts from January to May at current differences. Market opened rather easy at 2½@5c decline and prices further receded 15@17½c, and the market closed steady at nearly inside figures. Shipping demand was light and offerings were moderate. Cash lots quotable at $11 35@11 40 for regular, with repacked at 1 @1 5c discount.

DECEMBER—Offerings moderate and the demand rather light. A few trades were made at $11 35@11 45, and closed quiet at $11 35.

JANUARY—In moderate demand, and offerings were fair. Sales ranged at $12 60@12 77½. Opened at $12 77½, sold to $12 72½, to $12 75, to $12 72½, to $12 75, to $12 65, to $12 70, to $12 60, to $12 62½ and closed steady.

MAY—Offerings were rather free, and the demand was fair. Sales were made at $12 80@13 02½. Opened at $13 02½, sold to $12 97½, to $13 00, to $12 95@12 97½, to $12 97½, to $12 92½, to $12 87½, to $12 85, to $12 80, to $12 85, to $12 82½@12 85, to $12 85@12 87½, and closed steady.

Lard—Trading in Lard was on a moderate scale, and the feeling was easier. Offerings were fair, and the demand was rather light. Trading largely local. Foreign advices were unchanged. Prices ruled 5@7½c lower, and the market closed rather steady around inside figures. Demand on shipping account limited, with light offerings. Cash lots were quiet and quotable at about 2½c discount on January figures, closing at about $6 85. Loose lots in moderate request with fair offerings. Prices were quotable at 20c discount on January figures. Leaf Lard was in light demand with fair offerings. Prices quotably steady at $6 50. Neutral in light demand, with only fair offerings. Prices quotably lower at $7 75@7 87½ for No 1 and $7 25@7 37½ for No. 2.

DECEMBER—Quiet with a few trades at $6 82½@6 85 and closed at $6 82½.

JANUARY—Demand rather light, and offerings were fair. Sales were made at $6 87½@6 90. Opened at $6 90, sold to $6 87½, to $6 90, to $6 87½, and closed steady.

MAY—Offerings were fair, and the demand was only moderate. Sales were made at $7 07½@7 12½. Opened at $7 12½, sold to $7 10, to $7 12½, to $7 07½, to $7 10, to $7 07½@7 10, to $7 10 and closed steady.

JULY—Quiet, with small sales at $7 15@7 20, and closed quiet at $7 17½.

Short Rib Sides—Only a fair business was reported in Short Rib Sides, and the feeling was easier. Offerings were fair, and the demand was moderate. Prices ruled 5@7½c lower, and the market closed rather steady around medium figures. Shipping demand was moderate, and offerings were not very large. Cash lots quotable at $6 37½@6 62½ according to weight and age.

JANUARY—Demand was moderate and offerings were fair. Sales were made at $6 52½@6 57½. Opened at $6 57½, sold to $6 52½@6 55, to $6 55, to $6 57½, to $6 52½@6 55, and closed steady.

MAY—Offerings were moderately free, and the demand was only fair. Sales were made at $6 70@6 77½. Opened at $6 75@6 77½, sold to $6 72½, to $6 72½@6 75, to $6 70@6 72½, to $6 72½, and closed steady.

JULY—Quotable at $6 85.

Other Meats—Sales reported were rather light—not reflecting the actual trade—and the feeling was steady. Domestic demand was moderate, and orders from abroad were limited. Offerings of all kinds were only fair. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand with fair offerings. Prices ruled steady. Dry Salted Meats in fair request, with moderate offerings, and prices were easier. Smoked Meats called for moderately, and prices ruled steady. Closing prices were as follows:

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Dec. 1.]

Wheat—The past week in our local markets has been a very dull one and very few sales of Wheat have been made. Buyers say that they can not recall when our markets have been so listless at this time of the year. In former years November was the leading month for export of Wheat to Europe, and the month just closed shows but five vessels cleared, comparing it to former years, when we had 18 to 22. This dullness is attributed to both the foreign and Eastern markets, the former principally to the fact that the demand from the East was so great in September and October that the railroads were not prepared for the unexpected demand from this quarter and could not take care of the same, causing a cessation of demand from that quarter for our Wheat, as buyers could not have any assurance when the same would be delivered to them. Buying has entirely ceased, and fully 13,000,000 bu of Wheat remain in the interior in exporters' and farmers' hands unsold, and prices are on a downward tendency. If cars could have been provided to carry the Wheat East promptly there would have been no Wheat left on December 1 in the interior unsold. Europe is out of proportion in the matter of prices on account of high prevailing freight rates and are not liberal buyers of any of our Wheat this season so far. There are some exporters who think that after Jan 1 Wheat will go to Europe in large quantities. The high price of Wheat in this country has practically shut off the export business to Europe, and the result of the Argentine crop is not definitely known. Until we are able to pass judgment on the same, European buyers will purchase very sparingly. Late reports from there say the Wheat is heading nicely, but the same is subject to damage during the next few weeks. But all advices claim that the crop will be large and equal to, if not larger than, last year's. Millers here are all stocked up with Wheat to last for some time to come, unless some unexpected demand should arise from China and Japan to compel them to purchase Wheat to meet the demand upon them. The larger mills are well prepared for any emergency. Exporters are not endeavoring to purchase freely at present owing to the uncertain condition, and will not pay fancy prices to be doing something, and sellers are not offering, preferring to hold their Wheat until next year, as many claim that the same will bring better prices then. We quote Club and Red Wheat from 83c to 85c per bu; Bluestem, 89c to 91c, and Valley, 87c to 88c per bu.

Flour—With few exceptions millers report a slow trade in Flour the past week. The market is steady, but there is nothing of importance to cause the same to be otherwise. A number of sales have been booked for future delivery but mostly in small lots. Some demand for December loading to China and Japan was received, and in a number of instances the same had to be declined, as prices cabled were not in line with the price of Wheat. There is no doubt that if millers could shade their prices 10c to 15c per barrel to the Orient a large number of new orders would come to light. It is the general opinion, however, that some price-cutting is being indulged in by some of the millers in a quiet way, one out-of-town miller reporting that one milling concern was offering its product below the open quotation. This would indicate that some mills are anxious to book orders. Interior mills are all running full time on old orders received from the East some time back, and the coast mills are all grinding for export. The small millers in the country, who have in former years endeavored to become exporters, are finding new fields, and leaving that trade to the larger concerns. The demand from the United Kingdom is practically over, and millers are not receiving any orders for that country, and South Africa business has not in the past week shown any more life outside of the cargo now being worked on board of ship here. From Central and South America the demand has not greatly increased, but every steamer is taking fair cargoes from Puget Sound to these countries. California business is good, and millers who have trade there are not discouraged. Many have orders to fill for that State until March, 1905. On the whole the milling trade on Dec. 1 is in a healthy condition, and no complaints are heard from millers, except that prices are too low, as good A1 milling Wheat is in good demand constantly, and high prices have to be paid, leaving a small margin of profit for the work. We quote export brands, $3 60 to $3 75; local straights, $3 75 to $4 00, and patents, $4 50 to $4 75 per barrel.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 12 to 28; partly cloudy. Northwest—Temperatures, 20 to 32; generally clear. West—Temperatures, 18 to 34; clear. Southwest—Temperatures, 16 to 40; generally fair. Ohio Valley—Temperatures 22 to 28; generally cloudy.

Indications are for generally fair weather throughout this forecast district, except local snow flurries in Northern lake region. No decided change in temperature probable.

ITEMS OF GENERAL INTEREST.

Hogs received at St. Joseph last month averaged 222 lbs, against 227 lbs in October, 223 lbs a year ago and 238 lbs two years ago.

The 6,434,067 Hogs received at the Union Stock Yards, Chicago, the first eleven months of 1904 averaged 218 lbs, against 227 lbs a year ago for 6,440,534 received during the first eleven months of 1903.

Russian Wheat is to come to New York. Millers there have bought 50,000 bu Russian Red to come from Antwerp at 6c below their Red Wheat c. i. f. New York. Antwerp is sending Walla Walla Wheat back to this country.

Secretary Hester's statement shows world's visible supply of Cotton to be 4,093,977 bales, against 3,874,175 bales last week, and 3,506,132 bales last year. Total American is 3,496,857 bales, against 3,005,132 bales last year.

The export movement of Corn from Gulf ports is beginning, being unusually early for new crop Corn because of the exceptionally good quality, which makes shippers unafraid of the usual risks of heating at Gulf ports. Of 61,000 bu cleared Saturday, 60,000 bu went out from Galveston.

The Safety Car Heating and Lighting Company has declared the regular quarterly dividend of 2 per cent and an extra dividend of 2 per cent, both payable Dec 24. Books close Dec. 10 and reopen Dec. 27. The extra dividend of 2 per cent was omitted the last quarter, but was paid the first two quarters of this year.

The Buckingham Investment Company, owner of the new Buckingham Hotel at St. Louis, Friday, filed a mortgage for $600,000 on the property. The mortgage is held by the St. Louis Union Trust Company, which has issued $600,000 6 per cent Gold bonds to the investment company. It is stated the mortgage means nothing more than the taking up of underlying obligations.

The quarterly dividend of 1 per cent on the capital stock of the Manhatten Railway Company for the quarter ended Dec. 31 and an additional dividend of three fourths of 1 per cent for nine months ending Dec. 31 have been declared in compliance with the terms of the lease of the Manhatten Railway Company to the Interborough Rapid Transit Company. The dividends are payable Jan. 3. Books close Dec. 9 and reopen Dec. 22.

The Seattle *Trade Register* declares that Washington is surprising the Eastern and Southern States by supplying them with Flour. It is estimated that over 10,000,000 bu of whole and manufactured Wheat have been shipped East and South from that State this year, and more is going. Last week a Colfax Flour mill contracted to ship 1,000 brls of Flour to Tennessee and declined a 5,000-brl order from Baltimore. Wheat and Flour shipments East have been about equal.

An agreement for the joint use of tracks between Wilson avenue and Evanston has been reached by the Chicago, Milwaukee and St. Paul and the Northwestern Elevated Railroads. Final papers were signed by both parties Thursday. The Northwestern Elevated will furnish and operate the passenger cars and the St. Paul will use the tracks to Evanston for freight service. The maximum fare from the down-town loop to the northern limits of Rogers Park will be 5c.

Dornbusch of Nov. 21 says: "Our Sydney correspondent, under date of Oct. 18, tells of the improvement to the Wheat crop from rain, but in several districts the moisture came too late to be of practical value. Trade opinion favors an estimate of the New Australian Wheat crop as likely to provide between 15,000,000 bu and 17,000,000 bu for export, or barely one-half of what has been shipped of the present crop. In view of the favorable outlook shippers have reduced their quotations."

According to the *Wall Street Journal*, President Randolph of the New York Consolidated Stock Exchange says: "The position is now taken earnestly by the executive management of the Consolidated Exchange that in no sense should its membership be permitted to trade against the property of its clients, whether in the form of Stocks or of capital. So far as it can be ascertained and prevented it will be prevented, and in every case where penalties can be inflicted they will be inflicted."

A dispatch from New York says: "The Boston and Montana Mining Company, which is a subsidiary corporation of the Amalgamated Copper Company to-day declared a dividend of $50 a share on its capital stock, according to a statement current in Wall Street, although no official announcement was made. The dividend, however, has not been unexpected. The company's earnings have been tied up for several years by the Heinze litigation, but the court has finally permitted the company to distribute its accrued dividend."

The Supreme Court of West Virginia has made an important decision in the case of the Chesapeake and Ohio Railroad against the Deepwater Railroad. The Deepwater company is building a new road from the West Virginia Coal fields to the seaboard. It acquired a right of way through a mountain pass and located its line. The Chesapeake and Ohio sought to condemn and use for itself for a branch the right of way acquired by the Deepwater company, claiming that it had made the first location. The court held otherwise.

Despite the reports in railroad circles that the Milwaukee road will not build to the coast, that road has surveyors running lines across the country to the Pacific. A rancher of Northwestern Wyoming said, Thursday, in an interview in Omaha: "The Milwaukee has engineers surveying a line from east to west working in Wyoming. The survey passes through my ranch, which is situated directly south of Yellowstone Park and almost due west of Chamberlain, S. D., to which point the engineers told me they were working."

A New York dispatch says: "At the next meeting of the Steel billet pool the price of billets will be advanced to not less than $22 00 per ton, and perhaps $23 00. The price of Bessemer pig Iron is expected to appreciate at least $2 50 per ton between now and the beginning of the first quarter, and the advance in the price of billets will hardly keep pace with the upturn in pig Iron. Steel plates are also booked for higher prices along with the increased demand for new Steel ships. Many of the companies are now refusing plate orders for delivery beyond June 30."

That the "closed shop" is illegal was decided, Thursday, by the justices of the appellate division of the New York Supreme Court, sitting in Brooklyn. A contract entered into between the firm of Morris Cohn & Sons and Protective Coat Tailors and Pressers' Local No. 55 of the United Garment Workers of America, whereby the firm was prohibited from employing labor not belonging to the local and also from engaging a member of the organization unless he held a card signed by the business agent of the local, was declared by the court to be contrary to public policy.

With the object of further popularizing the road as a suburban line the Chicago, Burlington and Quincy Company, Friday, gave notice of a radical reduction in round trip rates between Chicago and all points as far as Downer's Grove. While the cut does not include all classes of tickets, it presages a general lining up of rates to meet new conditions, the chief of which is trolley competition. The reductions are in round trip tickets, and will tend to stimulate travel between the city and the different suburban towns and at the same time will go a long way toward knocking out the suburban ticket scalpers.

A Washington dispatch says: "A determined effort will be made by Oleomargarine manufacturers to secure the passage of the bill introduced by Representative Boutell of Chicago making the tax upon all Oleomargarine 4c per lb, instead of 10c upon the artificially colored product and one-fourth of 1c upon the uncolored. The present law has proved, as the manufacturers claimed it would, destructive to their business in the colored product. The Secretary of Agriculture says the Buttermakers are strong enough to defeat any measure which will increase the manufacture of Oleomargarine which can be sold in competition with Butter."

Some reductions in rates may be forced on the railroads. At a conference, Thursday, of traffic and legal officials of Western railroads many were of the opinion that the Inter-State Commerce Commission would order a reduction in the rates on Live Stock from the Southwest and Northwest to Chicago and also from the Southwest to Northwest. Thursday's conference was to prepare for the continuation in two weeks here of the investigation by the commission of Live Stock rates. The testimony so far presented to the commission is to the effect that the advance made two years ago in Live Stock rates was far in excess of the increase in the cost of handling the traffic.

The Secretary of Commerce and Labor has invited the following gentlemen as a committee of experts to consult and confer with the Director of the Census in reference to the plans for the Thirteenth Decennial Census of the United States, with a view to eliminating the defects of previous censuses, determining its proper scope, and perfecting its methods, and to advise with the Director upon the current work of the Bureau: Hon. Carroll D. Wright, Commissioner of Labor, chairman; Hon. John Hyde, Statistician of Department of Agriculture; Prof. Walter F. Willcox, Professor of Political Economy and Statistics, Cornell University; Dr. Henry Gannett, Geographer of the United States Geological Survey, and of the censuses of 1880, 1890 and 1900; and Dr. Davis R. Dewey, Professor of Political Economy and Statistics, Massachusetts Institute of Technology.

The *Agricultural Gazette* of Nov. 21 says: "Farmers who had been waiting for the rain to enable them to complete Wheat sowing have had a fine time for the work. Reports continue to mention an increase in the acreage of Wheat sown, which has been got in under satisfactory conditions, except where the soil was too dry and loose. As a rule, all the winter crops that have come up are looking well, though rooks have done damage in some places. The comparatively mild weather has been propitious to the late-sown Wheats, so that a good plant all round is pretty well assured. Plowing for spring crops is exceptionally forward and is finished on some farms except where Swedes are still standing to be fed off shortly or later in the season. Threshing results are as unfavorable as ever in most parts of the country, and therefore a very unsatisfactory account of the yields of cereals must be expected when the official report comes out."

The Director of the Mint, in his annual report, estimates the Gold stock of the world in use as money on Dec. 31, 1903, at approximately $5,600,000,000, of which about one-half is visible in banks and public treasuries. The estimate for the stock of the United States at that time is $1,300,000,000, of which $859,000,000 was in the Treasury and National Banks. The director calls attention to the fact that under the provisions of the monetary act of 1900 not more than $50,000,000 of the $150,000,000 Gold reserve can be in bullion, and recommends that this be changed to permit of a larger supply of bars. He says that any important demand upon the Treasury for Gold is always for export, and that for this purpose bars are preferred to coin. The deposits of Gold amounted to $177,753,384. The total purchases and deposits of Silver were as follows, in standard ounces: Silver contained in Gold deposits, 630,313; for Philippine coinage, 10,048,132; Hawaiian coin redeemed, 165,319; uncurrent domestic coin, 2,135,106; for return in fine bars, 6,691,430; for foreign coinage, 459,000, a total of 20,129,333.

Average cost price of Hogs at Chicago, Tuesday, was $4 52, against $4 56 Monday, $4 58 a week ago, and $4 43 a year ago.

The "headquarters for rust"—Minneapolis—appeared to be uneasy to-day and apparently lost confidence its own reports.

Flour has advanced 20c a barrel in the last two days. The demand has improved considerably at Chicago and in the Northwest

Estimated receipts for to-morrow: Wheat, 40 cars; Corn, 638 cars; Oats, 69 cars; Rye, 8 cars; Barley, 42 cars; Hogs, 39,000

Ten packers purchased 45,400 Hogs to-day; shippers, 5,000; left over, 8,000. Market closed weak, 10c lower. Top price on Hogs $4 57½.

Local Securities weakened with Wall Street, and suffered severe losses in many instances. Illinois Brick preferred lost nearly 5 points and common 1 point. Can preferred declined 1½.

Provision warehouses W. S. P. O. and R., recently operated by H. Boore & Co., have been leased by the North American Provision Company and made regular under the rules of the Chicago Board of Trade.

It was announced, Monday, at the offices of the United States Steel Corporation in London that no agreement had yet been reached on the price of Steel rails between the British and the German, French and Belgian concerns.

The offer of Eastern bankers to exchange the new first mortgage 4 per cent bonds of the Des Moines and Fort Dodge Railroad Company for the old bonds maturing on Jan. 1 has been withdrawn, as all of the new bonds have been sold or exchanged

The New Orleans and Northeastern Railroad Company paid on Dec. 1 a second annual dividend of 3 per cent on its $6,000,000 stock, calling for $180,000 for the fiscal year ended June 30. The company has a surplus of $74,751 after deducting interest on bonds and incomes and dividends.

The San Francisco *Commercial News* of Dec. 1 says: "There are only about 8,000 bales of Hops left unsold in Washington, of which about 5,000 are in Yakima. There are but about 11,000 bales unsold in Oregon On the coast last season there were at this time fully 45,000 bales unsold."

A Minneapolis firm says that 75 per cent of the Wheat crop in South Dakota and 60 per cent in Minnesota and North Dakota has left farmers' hands. Another firm says 80 per cent of the Northwestern crop has been marketed by farmers, and asserts that deliveries have fallen off sharply.

Fire has destroyed the stock of the Standard Woodenware Company, Los Angeles, Cal., and seriously damaged the large four-story building which the company occupied. The loss on stock is estimated at $100,000 and on building $25,000, both partially insured.

Cotton in New York was supported by active covering by the "short" interest and by the unexpected strength in Liverpool. Trading was heavy, yet operators were timid about the "bull" side. Prices moved irregularly, "bears" selling on all hard spots. The market closed 12@17 points higher.

The *Corn Trade News* of Nov. 24 says: "Recent rains in France appear to have been fairly general, but not sufficiently abundant to satisfy growers in the drouthy regions. The weather has now turned cold, and this is not unwelcome, as it will check the ravages of vermin, of which there have been many complaints. Not having much field work to do now, farmers have turned their attention to threshing, and offers on country markets have increased."

In the New York Stock market enormous selling of Amalgamated Copper demoralized the market, making the greatest reaction of the season. "Long" stock came out in large blocks and, mingled with "short" sales, cost the prices 1¾ to 14 points. Amalgamated Copper broke 7¾ points, Lackawanna 14, Anaconda 5¾, Sugar 6½. The Secretary of the Treasury's report was conservative, but a bad bank statement is expected Money was stronger, advancing to 4½ per cent at one time.

The *Corn Trade News* of Nov 25 states that "the official returns issued last night show that the Wheat yield in Great Britain this year is only 26.8 bu per acre and the total outturn 38,880,000 bu, against 47,600,000 bu in 1903 and 56,600,000 bu in 1902. A poor crop was expected, but the official estimate is below anticipations. The Barley crop shows a decrease of 2,000,000 bu compared with last year's: Oats, 3,000,000 bu increase, while the Potato crop is a good one, viz., some 600,000 tons larger than last year's."

Ocean freights advanced 1c per bu, Monday, and are 1½c on Grain from New York and Boston to Liverpool. Recently Grain was taken out of Boston as low as ⅝d to Liverpool and from New York at 1d For two weeks chartering of ocean room has averaged about 400,000 bu a day, mostly for Corn for December, January and February loading, the greater part being for January The engagements are for the United Kingdom and Continental ports. Flour rates, which recently were 5c, have advanced to 8.11c

The uniform bill of lading will not be adopted uniformly by the Eastern railroads on Jan 1. In the higher railway circles it became known yesterday that three important lines—said to be the Lake Shore, Grand Trunk, and Wabash have decided to heed the strenuous protest of shippers and reject the uniform bill of lading, and to eliminate its objectionable features from the bills of lading they will use hereafter The decision of the three lines named probably will bring to a speedy end the wordy warfare which has been waged for the past three days before the Inter-State Commerce Commission by attorneys for the shippers and the Eastern railroads. If the Lake Shore does not use the uniform bill of lading it is not likely that any of the lines in the Vanderbilt system will do so, and their competitors cannot afford to do so, especially if the Wabash and Grand Trunk use bills of lading satisfactory to shippers.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The local milling and shipping interests report a better demand for Flour and prices have been advanced all around Export bids are too far out of line to consider.

WINTER WHEAT—Was dull to-day and prices 1@2c lower Sales since yesterday comprised 25,000 bu of mixed lots and 30,000 bu No. 3 Hard, but to-day merchants claimed there was scarcely any demand the break in futures evidently taking millers out of the market No. 2 Red in store quotable at $1 12¼@1 15, and fresh arrivals free on board nominally $1 15@1 16 No 3 Red fresh receipts free on board sold at $1 11, and ranged nominally $1 11@1 14. No. 4 Red sold at $1 01@1 08. No. 2 Hard nominally $1 09@1 13 and No. 3 Hard quotably $1 01@1 10.

SPRING WHEAT—But little trading and prices 1@2c lower. Choice Wheat, especially the hard variety, met with some little milling demand, but poor Wheat dull. No. 1 Northern fresh arrivals free on board quotable at $1 16@1 20. No. 2 Northern quotably $1 09@1 15. No. 3 Spring nominally $1 02@1 12. No. 4 sold at 89c for ordinary and at $1 08 for choice hard variety, and ranged down to 56@60c for very poor.

REGULAR WHEAT—Losses of 1¼@2⅛c were made during the day, and the market displayed no reactionary power to speak of. It was a day of profit taking by the heaviest people in the trade, while there were many—very many—to suffer losses The volume of trade was enormous Cash sales were 55,000 bu, here and 5 loads at seaboard Millions of bushels of Wheat were thrown over by "longs" during the morning, and prices were carried to a lower level, owing to the fact that the demand was not large enough to absorb the Wheat put on sale As to the selling, there were habitues of the market who claimed that a big local elevator interest was the leader in order to secure the profits within reach There were others in the trade to name Wall Street parties as the sellers, and a few mentioned the Northwest as the ones getting off the "bull" side. The dip of ¼@½d in the price of Wheat at Liverpool on conflicting reports from Argentina, coupled with the overbought condition of that market were the leading influences early, causing a stampede among the American Wheat holders. One theory advanced in the trade was that the local "long" discovering Wall Street getting out of its holdings had put selling orders of an unlimited character into the pit and forced the sales. Still another theory was that the big local holder discovering Wall Street a big seller had refused to take hold and absorb the Wheat even at the decline shown. The big Flour sales reported by Minneapolis yesterday were denied by people up there who are accepted as an authority. The Flour demand is better, both at Minneapolis and Chicago, but the trade is not taking hold in a big way. The only manner in which a big lot of Flour could be sold at the moment would be to allow the buyer to name the price. Northwestern and primary receipts were against the price, as they were both in excess of a year ago. Primary shipments were smaller than a year ago. Minneapolis Wheat stocks increased 950,000 bu in four days. Paris was ¼c higher, while London and Antwerp were each unchanged in price. Buda Pesth ⅝c and Berlin ⅛c lower. Good weather is promised with exception of a few snow flurries in certain locations. Receipts at Duluth 73 cars, at Minneapolis 664 cars, a total of 737 cars, against 650 cars yesterday, 513 cars a week ago, and 530 cars last year. Local receipts included 31 cars Winter, 7 cars Spring and 10 cars mixed, total of 48 cars, against 99 cars last year. Included in above was 1 car contract grade. There were also 40 cars and no bu taken from unlicensed elevators. The estimated receipts for tomorrow are 40 cars. There were no withdrawals Receipts at Western points were 970,745 bu, against 1,168,397 bu last year. At Eastern points 69,771 bu, against 421,2 8 last year Shipments from Western points 362 415 bu, against 291,609 last year and from Eastern points 48,778 bu, against 207,955 bu last year. Shipments of Flour were 6,380 brls. Exports of Wheat in Flour were equal to 70,976 bu.

Future Deliveries of Regular Wheat—Large trade and prices lower.

DECEMBER—Sold at $1 08½@1 10⅝. Opened at $1 10⅝ to $1 10½; sold to $1 10⅝, to $1 09½, to $1 10½, to $1 09⅜, to $1 09¾, to $1 08⅝, to $1 09, to $1 08½, to $1 08⅝, and closed at $1 08⅝.

MAY—Sold at $1 10¼@1 10⅜ and at $1 13. Opened with sales at $1 13 to $1 12¾; sold to $1 12¾, to $1 12, to $1 12⅛, to $1 11½, to $1 12, to $1 11¼, to $1 11½, to $1 10¾@1 10⅞, to $1 11⅛, to $1 10½, to $1 10¾, to $1 10½, to $1 10⅜, to $1 10¼@1 10⅜, to $1 10½, and closed at $1 10½ bid.

JULY—Sold at 98½@98⅝c and at $1 00 Opened with sales at $1 00 to 99¾c; sold to 99½c, to 99⅝c, to 99⅜c, to 99½c, to 98⅞c, to 99c, to 98½@98¾c, to 99c, to 98⅝c, to 98⅞c, to 98¾c, to 98⅞c, and closed at 98⅞c sellers.

CORN—The close was ¼@½c lower for the day The trade dwindled down and was small late. Cash sales 110,000 bu here and 20 loads at the seaboard. The principal feature in the Corn market was the covering by "shorts" in order to secure the profits to be had. The volume of trade in December was lighter than the previous days of the week, the country and drying interests not caring to force their Corn upon the market on the weak spots. The sales made in the deferred months were mainly by the country, followed by the "bears" If there was an item that could be called "bullish" it was well hidden, while there were many "bearish" items in circulation. There was a fair demand for cash Corn here and abroad, Liverpool reporting Fiume as a buyer of cargoes off the English Coast. Liverpool closed ¼d lower for futures but unchanged for spot. Local receipts were 465 cars, with 10 contract; 533 cars are looked for to-morrow. Primary receipts were 1,210,150 bu, against 512,350 bu a year ago. Clearances from the seaboard only 400 bu, compared with 108,426 bu a year ago That the dryers are busily engaged is shown by the switching out of unlicensed elevators of 111 cars and 28 300 bu. Only 3,250 bu were loaded out of store Car lots were in good demand and offerings only fair. Market opened ¼c lower and later advanced to yesterday's prices and then closed, weak No. 2 sold at 46½c, and closed at 46c No. 2 Yellow closed at 47c. No. 3 sold at 43½@43¾c, and closed at 43c No. 3 Yellow sold at 43½c, and closed at 43c No. 4 sold at 42¼@42½c

Corn by sample—The offerings were only moderate and demand good Prices opened ¼c lower, and later ruled firmer, with the bulk of the sales at yesterday's figures Sales on track and free on board: No Grade sold at 30@41½c. No 4 at 42@43c No. 3 at 43½@43¾c No. 3 Yellow at 43½@44c. No. 3 White at 43½@43¾c Ears at 45c. Billed through: No Grade at 40@41c. No. 4 at 41@42¼c No 3 at 42@42½c No. 3 Yellow at 42@42½c No 3. White at 42¼@42½c.

Future Deliveries of No. 2 Corn—There was less doing than during the other sessions of the week and prices were ¼@½c lower.

DECEMBER—Sold at 45¼@45⅝c to 46c. Opened at 45⅞c to 45¾c, sold to 46c, to 45½c, to 45⅞c, to 45⅝c, to 45¾c, to 45¼@45⅜c, closing at 45⅜c.

JANUARY—Sold at 42⅝@43⅛c. Opened at 43⅛c, sold to 42⅝c, to 42⅞c, closing at 42¾c asked.

MAY—Sold at 44⅛@44½c Opened at 44¼c to 44⅜c, sold to 44¼@44⅜c, to 44⅛c, to 44½c, to 44⅜c, to 44½c to 44¼@44⅜c, to 44⅜c, closed at 44¼@44⅜c.

JULY—Sold at 44¼@44⅝c. Opened at 44⅜c to 44¼c, sold to 44⅜@44⅝c, to 44⅝c, to 44½c closing at later

OATS—Were weaker and closed ⅛@¼c lower, with moderate trading. Commission houses bought on the break. Local traders were liberal sellers Cash sales here were 100,000 bu and 50,000 bu at New York Arrivals 80 cars, with 60 cars expected to-morrow. There were no seaboard clearances Car lots to go to store were steady to ¼c lower No 3 White sold at 30c. Standard at 31c Standard in store closed about 28⅝c.

Oats by sample were in moderate supply and sold rather slowly. Prices were steady to ¼c lower Sales on track and free on board. No. 4 White at 28¾@29¾c. No. 3 at 29c. No. 3 White at 29½@31½c. Standard at 30½@31½c. No. 2 at 30¼c. No. 2 White at 30½@31½c Billed through No 4 White at 29½c. No. 3 White at 29¾@30¼c. Standard at 30½c No. 2 White at 30¾c. At the river: No. 4 White at 27¾@28½c No. 3 White at 28@29c Standard at 29@29½c

Future Deliveries of Contract Oats—Were weaker and lower.

DECEMBER—Sold at 28½@28⅝c. Opened at 28⅝c, sold to 28½c, to 28½c at close

MAY—Fair trading. Sold at 30¼@30⅜c and at 30½c. Opened at 30⅜c to 30½c, sold to 30¼@30⅜c; to 30⅜c at close.

JULY Quiet Sold at 30⅛c and at 30⅜@30½c Opened at 30⅜c, sold to 30⅜@30½c, to 30¼c, to 30¼c at close.

RYE—Dull and weak. The transactions to-day were confined to a few cars of fresh arrivals. Very little interest in the market. Only two cars received and there were no withdrawals from store here and no exports from New York No 2 in store nominally 74c and fresh arrivals free on board sold at 76½@77c. Part car of No. 3 sold at 72c and a bag lot not graded at 77c

Future Deliveries of No. 2 Rye—Neglected. December 74c bid and 75c asked. May 78c bid and 79c asked.

BARLEY—There was less Barley of the malting grades offered, little or no feed was seen, and there also was some decrease in the quantity of screenings on sale Trade was quieter than during the preceding days of the week. In the malting demand there was, if anything, some decrease. The cheaper grades remained fair sale, while the higher grades encountered few buyers. Screenings quiet, with clean and heavy steady; thin and seedy easy. Forty-four cars posted to-day. Sales of Screenings were at 27@37c for poor to choice. Feed Barley nominally 38c local and at 36@38½c river billed. Malting low grade, small berry, or heavy but dirty, 39@41c; clean, fair to good, at 42@45c, and large berry heavy good color, quotable at 46@47c, with choice 47@49c; extra fancy possibly a shade above

SEEDS—More cash Timothy was offered, causing an easy feeling at the same time the speculative market was strong. In Flax very little was done, with no change, and the other lines were lifeless and nominal

Timothy An increased quantity of cash Seed was offered. An easy market was quoted, especially for ordinary and common A considerable part of the consignments were of better grades. Sales were over a wide range at $2 00@2 55 for poor to choice, above for very fine, and some very low grade down to $1 00@1 50. Although country lots were easy the market for contract Seed was strong with nearby deliveries 2½c better and March salable at the last quotation. Spot or December delivery quoted at $2 72½ January at $2 75 and March after selling at $2 85 remained with that figure bid and $2 87½ asked. Country lots quotable at $1 75@2 70 for low grade to fancy; inferior lower; fair to good, $2 40@2 60, and rough, dirty or hulled, $2 20@2 35.

Flax—There was no essential change to-day in prices compared with those of yesterday An unsettled market in the Northwest with rather wild fluctuations had no effect here Spot Flax very sparingly offered and no speculative interest was manifested. Three cars came in and none taken out. At Minneapolis the receipts were 41 cars, at Duluth 71 cars. No. 1 Northwestern sold sparingly at $1 22½, and that bid. No 1 cash was $1 13 bid Rejected quotable at $1 10@1 20 depending on quality. December delivery was $1 13 bid and May was offered at $1 23.

Clover—Nothing was done for there were no offerings. Market was quoted as steady and unchanged. Contract grade quotable at $12 50 Country lots, common to choice, quotable at $7 00@12 25; very poor lower, and fancy above Fair to good $9 7 @11 50

Other Seeds—Late Grass Seeds were all firm and for Broom Corn and Early Fortune Millet some advance in prices was quoted. Hungarian quotable at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05. Mustard about 75c@$1 00 Buckwheat tame; good milling quotable $1 20@1 25.

HOG PRODUCTS—A little more interest was manifested in the market for Hog Products, and the feeling was somewhat stronger. Outside orders were fair and local trading was rather active. Offerings were moderately free early in the day, owing to the weakness in Hogs and Wheat, and there was considerable miscellaneous selling, which resulted in slightly lower prices all around. At the reduction, the demand improved, credited partially to parties who sold rather freely earlier in the week, and more steadiness was manifested accompanied with a moderate rally in prices, and the market was comparatively steady during the latter part of the session Trading almost exclusively in the deferred deliveries Receipts of Hogs at the leading Western packing points were estimated at 120 300, compared with 88,600 one year ago. Foreign advices were easy, especially for Meats, and prices were reduced 1s on Backs, and 6d on Cumberland Sides. Domestic markets were quiet and prices without material change Receipts of Products were unusually large—of Lard and Meats about 72 cars Shipments were fair of Lard and Meats about 123 cars Inquiry on shipping account was moderate, and offerings were only fair Sales were comparatively light, and prices inclined in favor of buyers

Mess Pork—Quite a good business was transacted in Mess Pork, with May delivery gaining in favor Offerings were fair, and the demand was moderately active Early, the feeling was rather easy, and prices ruled about 5@7½c lower At the decline, the demand improved, and prices rallied 10@12½c, and were fully supported to the close Inquiry on shipping account was fair, and the offerings were moderate. Cash lots quotable at $11 37½@11 62½, according to quantity, for regular, with repacked at 10@15c discount

DECEMBER Quiet and quotable at $11 85

JANUARY—In fair request and offerings were moderate. Sales were made at $12 57½@12 67½. Opened at $12 57½, sold to $12 65, to $12 62½@12 65, to $12 65@12 67½, and closed steady

MAY Offerings were fair and the demand was moderately active Sales were made at $12 80@12 92½ Opened at $12 82½ to $12 85, sold to $12 80, to $12 85, to $12 82½, to $12 91, to $12 87½ to $12 90, to $12 87½, to $12 92½, to $12 90, and closed steady.

Lard—A fair trade was reported in Lard and the feeling was comparatively steady Foreign advices were unchanged. Offerings were fair and the demand was moderately active Prices ruled about 2½c lower, but was steady at the decline. A good share of the business was credited to local operators Market closed steady Demand on shipping account limited, with light offerings Cash lots were quiet and quotable at about 2½c discount on January figures, closing at about $6 82½. Loose lots in moderate request, with fair offerings. Prices were quotable at 50c discount on January figures. Leaf Lard was in light demand with fair offerings. Prices quotably steady at $6 50 Neutral in light demand, with only fair offerings Prices quotably steady at $7 75@7 87½ for No 1 and $7 25@7 37½ for No. 2

DECEMBER Quiet and quotable at $6 80.

JANUARY - In fair request and offerings were not very large Sales were made at $6 85@6 87½ Opened at $6 85 to $6 87½, sold to $6 85@6 87½, to $6 87½, to $6 85@6 87½, and closed steady

MAY Offerings were not very large, and the demand was fair Sales were made at $7 05@7 10 Opened at $7 05 to $7 07½ sold to $7 07½@7 10, to $7 07½, and closed steady

JULY—Called for moderately, and offerings were fair Sales were made at $7 12½@7 17½ Opened at $7 15, sold to $7 12½@7 15, to $7 15@7 17½, and closed quiet

Short Rib Sides—Trade was fair in the market for Short Rib Sides, and the feeling was comparatively steady Offerings were moderate, and a fair miscellaneous demand prevailed Market opened rather easy and prices ruled 2½@5c lower, but later in the day, the feeling was stronger, and the decline was recovered. Market closed rather steady. Shipping demand was moderate, and offerings were rather light Cash lots quotable at $6 37½@6 50 according to weight and age

JANUARY—In rather good request with fair offerings Sales were made at $6 50@6 55 Opened at $6 50 to $6 52½, sold to $6 50@6 52½, to $6 52½, to $6 55, to $6 52½, to $6 52½@6 55, and closed steady

THE HOP SITUATION.

[New York Producers' Price Current, Dec. 3.]

The up-State market for Hops has continued very quiet this week, as there has been no demand whatever for export. Brewing grades have been sold in small quantities at 32@34c and mediums in the neighborhood of 36@38c. The growers are showing a little more anxiety owing to the present inactivity as the Pacific Coast crop situation would seem to be made to effect sales, but remaining stocks in growers' hands are light and they continue strong in their views, seeming to think that 40c is the minimum selling price. We have reduced our quotations 1c per lb owing to the quiet market. Dealers report very little trade with brewers at the present time, as they are supplied and have pretty well covered. Locally there has been but little trading among dealers. Foreign markets are also quiet.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 14 to 42; fair to clear. Northwest—Temperatures, 12 to 28; clear. West—Temperatures, 22 to 38; fair to clear. Southwest—Temperatures, 10 to 36; fair to clear. Ohio Valley—Temperatures 28 to 34; partly cloudy. No precipitation in any part of Winter Wheat belt or West or Northwest.

Indications are for fair weather and no change in temperature throughout the entire district, except possible snow flurries in northern lake region.

Officials of the Distillers' Securities Corporation declare that the current quarter, from the standpoint of earnings, will be the best in the company's history, and that prospects for next year are extraordinarily bright. They say a 6 per cent dividend is practically assured for the year 1905.

The Toledo, Ann Arbor and Detroit Railway Company was incorporated at Columbus, Ohio, Monday, with a capital stock of $1,500,000. It will take over the electric line of the Toledo and Northwestern Railroad Company and the Ohio and Michigan Traction Company between Toledo and Detroit.

The German Consul at Rustchuck reports that the month of October was very favorable for agriculture in Bulgaria. The crops which were sown in during Septmber have made excellent growth, and good progress has been made in preparing the land for spring sowing. The Rape crop shows good condition, but the area is not very large.

It is understood that a meeting of the International Paper Company stockholders will be called soon to ratify a $10,000,000 bond issue authorized by the directors. It is also understood that they intends to sell only $5,000,000 at the present time. The proceeds are to be used for increasing the company's working capital and providing for other matters.

"Husking of Corn is practically finished and farmers are now shelling. Things will be lively from now on," said a Des Moines messenger, Monday. "No one has guessed the Iowa crop large enough. About the only place where the yield is as low as 30 bu is the south central tier of counties. The crop of Iowa is as 40 bu and in Northern Iowa 40 to 50 bu."

It is reported that what has for a long time been known as the Great Western pool is broken, and that it has gotten to be a question of a few days if Harriman-Rockefeller interests are not an accomplished fact they soon will be. The Dutch stockholders, who have heretofore given the control into Frederick Stinney's hands, are said to have consented to part with $20,000,000 of the common stock.

The recent advance in American Cotton Company stocks has excited considerable comment in the outside securities market. The advance is explained by a specialist in the stock, by the fact that the company is not only paying 1 per cent a month upon its common stock and 7 per cent per year upon its preferred, but is putting into surplus account a sum exceeding twice the amount of the dividend requirements for the preferred stock.

Dornbusch's Buda Pesth correspondent, writing under date of Nov. 26, says: "The Flour market was active early in the week at previous prices, chiefly on Austrian account, but during the latter part of the week the tone became quieter, the week's turnover about equaled the output. Stocks have increased slightly. The open weather caused an active demand for Bran, and this, coupled with reduced stocks, compelled buyers to pay enhanced prices."

A Berlin dispatch says: "The Gold imports from England have not yet ceased, although the rate of exchange excludes any profit on such transactions. The continuance of the movement is attributed to the character of the Russian crisis, which so far as the Reichsbank's needs are concerned imports should now cease, since it has the largest Gold stock in its history. The stock of metal now amounts to $250,000,000 of which four-fifths is Gold."

The *Wall Street Journal* says: "A series of conferences between the representatives of the United Box Board and Paper Company and the Paper Products Company will be held next week. A representative of one of the companies in question says that prospects for the transfer of the business of the Box Board Company to the Paper Products Company are brighter than they have been for some time past, and that everything points to a satisfactory conclusion of negotiations."

The Supreme Court of the United States, Monday, denied the applications for writs of certiorari in the cases of the American Sugar Refining Company of New York versus the United States, thus affirming the decision of the Circuit Court of Appeals for the Second Circuit, which sustained the Government. The suit was brought by the Sugar refiners to test the validity of Treasury Department allowance for 1901 and 1902 of certifications of the polariscopic test of Sugars brought into the United States.

"Two Nebraska parties were in Chicago, Tuesday Both are extensive feeders and large Corn buyers in Nebraska. They estimated the crop at 275,000,000 bu. "We have a wonderfully fine crop this year. It has sun dried on the cob, and its quality has a very high feeding value. It will keep for years. The Corn is just commencing to move freely. Farmers are selling 33c, and now are getting 34c to 35c. It looks as though the movement at these prices will be limited only by the ability of the railroads to furnish equipment to haul."

A New York dispatch says: "Veryl Preston, formerly fourth vice president of the United States Steel Corporation, now president of the Eastern Steel Company, will soon have his plant in position to compete with the Steel corporation in the Steel beam and structural shape branch of trade. Contracts have been let for the building of the new beam mill, which will have a capacity of 120,000 tons per year. The contract calls for the completion of the mill not later than next June. By spring the new company will be in position to roll Steel billets."

It is estimated that the earnings of the United States Steel Corporation for 1905 will be approximately $ 25,000,000. It is believed that the subsidiary companies of the corporation will make and sell 10,000,000 tons of products of all kinds. One authority says that the United States Steel corporation on Jan 1 should show nearly six months' business on hand. It is believed that the orders taken for the last six months of next year will be at a higher price than those for the important products, and consequently the average price for the whole year will be at a pretty high figure.

The Texas Railroad Commission has compiled a list of all bonds on Texas railroads outstanding June 30, 1904. The total (par value) is $248,356,414 Of the bonds actively traded in the list is the first mortgage bonds of the Houston and Texas, selling on a 3.80 per cent basis. This bond is not a Texas security and is included in the list by courtesy. There is not apparent in the list a single Texas railroad first mortgage or other bond that sells on a 4 per cent basis or better. Houston and Texas Central 1st 5s at 112¾ and Texas and Pacific 1st 5s at 121¼ appear the strongest Texas issues.

Stockholders of the National Bank of North America, Chicago, received the first dividend in liquidation, Tuesday. Transfer books were not closed, and, where it was desired, transfers of stock were made before the dividend checks were issued. The surrendering of the stock at the office of the Continental National Bank was required, and the stock was stamped as part paid at the time the dividend was distributed. The total amount required $1,000,000, and the greater part of the money was paid out, Tuesday.

Investigation of the new Ore properties recently purchased by the United States Steel Corporation in Utah show that it has enormously increased its holdings of raw material. Since the acquisition of control by the Rockefeller-Gould combination the company purchased 1,000 additional Iron claims in Iron County, Utah. Investigation since made by the company develops the fact that the Blowout claim has at least 2,000,000 tons of Ore exposed. It is believed that it will develop into one of the best Ore bodies in the West. Eventually the company will build a railroad to these mines.

The abstract of reports showing the condition of all the National banks of the United States at the close of business Thursday, Nov. 10, has been compiled by the office of the Comptroller of the Currency. It shows the banks to be in very good condition, taking into consideration the fact that this is the season of the year when they are subject to the heaviest drains. The percentage of legal reserves held to deposits was 22.6, against 22.43 on Sept. 6, this year, and 21.61 on Nov. 15 last year. The percentage to deposits of cash on hand, the reserve agents and the Treasury was 25.93 on Nov. 10, against 28.28 on Sept. 6, and 25.97 on Nov. 17 last year.

High authorities on New York, New Haven and Hartford Railroad affairs declare that the company has not entered into any negotiations to acquire any interest whatever in the Lehigh Coal and Navigation Company, and that it is not seeking any such interest. They say that the company is satisfied with its acquisition of the Ontario and Western as bearing on the Coal traffic, and has no plan in view for the acquisition of any stock carrying the anthracite Coal fields. The Ontario and Western will be double tracked westward to a point where it branches to Scranton, and will undoubtedly be double tracked for the entire distance from Campbell Hall to Derby Junction.

Papers have been filed in Albany increasing the capital stock of the Niagara Lockport and Ontario Power Company from $10,000,000 preferred and $1,000 to $10,000,000, of which $5,000,000 is preferred and $5,000,000 6 per cent noncumulative preferred stock. The development of the plans of the company is expected to result in considerable new Capital paying in of the new capital. The company is said to be financed by the Vanderbilts, and it is believed that its plants will be used to generate power for one of the largest electric railway systems in the western part of New York State. The New York Central has secured control of a minority interest in the company. The decision of the Circuit Court of Appeals for the second circuit in the case of the Northern Pacific Railroad Company, et al., versus the Chicago Tribune Company. The latter company brought the action to secure damages for delay in the transportation of pulp paper from Minnesota mines to Japan during the Japanese-Chinese war. The Courts of Appeals awarded the damages, but the railroad company resisted the verdict on the ground that Land was contraband of war, and its judgment reversed by a deputy collector at the port at Tacoma, Wash., whence the shipment was to have been made.

The governing committee of the New York Stock Exchange has listed the following securities: The City of New York's $25,000,000 3½ per cent corporate stock. Milwaukee Gas Light Company's $1,000,000 additional first mortgage twenty-five year 4 per cent bonds of 1925, making total amount listed to date $7,000,000. Southern Pacific Company's $17,140 additional common stock, making total amount listed to date $167,849,200 and $10,000,000 preferred stock. Erie Railroad Company's $10,000,000 4 per cent convertible fifty-year bonds, series A, of 1953.

Imperial Japanese Government's $12,000,000 6 per cent sterling loan. For the purpose of dealing therein, 85 shall be considered the equivalent of £1 sterling.

The reorganized Bethlehem Steel and Shipbuilding Company is ready to be incorporated. It will be organized and ready for business this month unless plans of the leading interest go wrong. The $15,000,000 of common and $10,000,000 preferred and the $3,000,0 0 new bonds will be issued and distributed as soon as possible. Brokers of the first mortgage bonds of the old United States Shipbuilding Company will receive for $1,0 0 0 in preferred and $6,000,0 0 in common stock of the reorganized company for the trust company certificates certifying to their ownership of $1,000,000 of bonds. Present holders of remaining shares of the new company—$2,000,000 preferred and $9,000,000 common stock—will go to Charles M. Schwab. He will also get probably over 60 per cent of the $3,000,000 new bonds in return for cash subscribed for reorganization purposes.

Charles M. Schwab, in an interview in the New York *American* on the conditions of the Steel industry in America, says: "The prospects were never greater than at this time. Indications, as I read them, point to high tide in the Steel business in the coming year. I cannot see further ahead than that at this time. I am sure that the works in which I am interested are now receiving approximately two and one-half times as many orders as they can turn out. Nothing is left to do but to the efforts to conquer foreign markets, he says: "So far as I can foresee, the trade in this country will soon realize that its sale of Steel must be sought for the United States, and what is needed abroad will be abandoned through conditions just beginning to develop. I never regarded the export of Steel as a very important factor in the Steel business."

The *Review of the River Plate* of Oct. 29 says: "The recent rains appear to have fallen in districts of Cordoba Province, where they were essential for the progress of the crops, and in the part of these districts rain had not fallen for twelve months. Reports are to the effect that the storm was pretty general throughout Cordoba Province, and has placed it in almost as good a position as regards crop prospects as the Province of Buenos Ayres Up to the present date we have no serious complaints from any part of the Republic as to the prospects of Use Wheat and Flax Seed crops. There are minor complaints from some parts of Santa Fe as to damages by frost. On the other hand, the Venado Tuerto and Rosario districts, which have been severely suffering from drouth, have been visited by the rain storm, which has put the cereal growers on the best possible terms with themselves. The Entre Rios reports are to the same effect—that all goes well."

A dispatch from Portland, Ore., says: "That the Cudahys of Omaha and Chicago will soon be in a position to dictate terms in the Salmon market of the world is apparent at this time." The control of the Pacific Packing and Navigation Company, the largest cannery corporation upon the Pacific Coast, has been secured by brokers of Chicago and San Francisco, are backed by the Cudahys in their effort to obtain the majority of stock in the company. The Cudahys now own practically all of the stock in the American Packing Company, a subsidiary company. Most of the Puget Sound Salmon are packed under Cudahy management They wished to buy out the Pacific Packing and Navigation entirely, but a few of other stockholders would not sell to them. T. McGovern believed he could buy the stock for about $225,000, but George T. Myers, apparently acting for Cudahy, caused the stock to go $310,000 at close bidding in the auction. It is believed that the people back of McGovern will not be able to put up the money stipulated and the Cudahy interests will then secure the stock. The deal for the control of the Pacific Packing and Navigation Company will be closed Dec. 16."

Reports of railroad earnings for October, which are now being published, show in most cases excellent results as compared with those of the corresponding month last year, and indicate better activity in general business. Except for some of the Southern roads, which suffered from failure of the floods, the reports for the month have been almost universally good. Gross earnings show good gains in most cases and in not a few even larger increases are reported in net earnings, on account of material reductions in the operating charges Forty-five roads that have reported for October add to the gross earnings of the month over $2,300,000, or more than 10 per cent, in their aggregate net earnings, as compared with the total for the same roads in the month in 1903. The companies that show decreases in net, owing to the earlier months of the fiscal year have been overcome and the forty-five roads that have reported show an aggregate increase of more than $1,700,000 in their net for the months since July 1. The October reports of the Illinois Central and the Pennsylvania were particularly favorable. The Illinois Central has shown remarkable gains in the four months of its present fiscal year on which it has reported

Stockholders of the Colorado Fuel and Iron Company are to have the right to subscribe $17,000,000 bonds and $3,0 0,000 common stock of the new issue of $15,0 0 0 0 5 per cent bonds and $5,200,000 new common stock. The syndicate which has underwritten the purchase of the total issue will take the bonds and stocks to shareholders on the basis of one $1,0 0 bond and $200 stock for each $800 cash paid in. Some of the stockholders thought they had, or were to receive, subscription rights to the entire issue. They find that the financial reorganization plan does not so provide They will get the right to take over such portion of the new securities as hereinbefore mentioned, no more. For the holders of the $14,560,000 debenture bonds, which it is proposed to retire, there have been set apart $14,560,000 of the $17,000,000 new issue of common stock, which will go to them in proportion without the intermediation of a syndicate and without stockholders having anything to say. Each holder of $1,000 of debenture bonds will receive, under the plan, will receive $1,000 in new bonds and $920 in new stock. In addition he will receive the right to subscribe for any part of the $17,000,000 bonds and $3,0 0,000 new stock not set apart for the purpose of raising $13,000,000 cash which may not be subscribed for by shareholders within the time fixed by the bondholders' protective committee. The Colorado Fuel and Iron Company has booked orders for wire and wire products for 1905 delivery practically to the extent of its capacity for the year. It is also booking heavily in other products for next year's delivery.

The *Wall Street News* comments as follows on Secretary Wilson's crop report: "It would seem to the intelligent American securities in view of the tremendous facts revealed in Secretary Wilson's report. The immediate and continuing effect upon railroads and industrial corporations of such unparalelled crops can scarcely be overestimated. There can be no doubt that we are entering upon an era of prosperity before which all preceding ones will pale. There can be no doubt that profitable traffic for railroads will appear in volume taxing proportions. There can be no doubt that earnings for diluted products of all kinds will crowd all mills and factories to their limit. Nothing can check this development short of some utterly unforeseeable calamity. And many baleful influences have vanished—no fear exists as to the Gold standard, no apprehension is felt over revision of the tariff. Tranquility and confidence are paramount. There is not even much argument that Wall Street traders make their daily play in the market. They are, in the nature of things, chasing small quick profits, and are generally indifferent, whether they make them up or down—always, however, with a lingering fondness for the "short" side. But such argument appeals with force to men of affairs, to bankers, to every one interested in this country. It is incredible that there should not be steady, healthy, and growing demand for all securities of merit. Bonds and dividend paying stocks will continue to be bought by timely yields, and other properties will be bought for their promise. The prices of a year ago may be described as 'ex-confidence'—the prices of 1905 will be 'confidence on' Nothing is known for a fact now that we have raised great crops this year, but the information has dribbled out in piecemeal way. This report of Secretary Wilson presents the whole result in a succinct form, and will go all over the country, carrying with it conviction."

The Cincinnati *Price Current's* weekly crop summary says: "Wheat crop situation practically unchanged—not yet representing certainty of serious degree of permanent injury. Tenor of returns concerning Corn about same as previously, maintaining tendency to better condition and enlarged offerings."

The Cincinnati *Price Current* reports the packing of the West for the week at 765,000 Hogs, compared with 600,000 for the week previous and 610,000 for the corresponding week in 1903. Total packing in the West since Nov. 1 about 3,010,000 Hogs, compared with 2,510,000 Hogs to date last season, an increase of 500,000.

In the New York Stock market there were the wildest scenes enacted witnessed since May 9, 1901. Fluctuations to day were attended with as much difficulty as then. Trading was enormous, being 1,489,000 shares up to noon. Stop order selling was heavy and in 20 instances in leading Stocks were executed simultaneously at 2 to 3 points apart. Weak holders were forced out on the declines, which ranged from 2⅜ to 11¾ points. Rallies of 2 to 4 points followed, and in Anaconda an advance of 9 points was made. Amalgamated Copper was used as the hammer and lost 9½ points, but reacted nearly 6. Tennessee Coal broke 11¾, and reacted 8¾. Strong interests absorbed large lines of good Stocks on the break and assisted the rally. The close was with an improved tone, but prices were mostly lower for the day. Money 4 to 4½ per cent.

WORLD'S SUPPLY OF BREADSTUFFS.

The following table shows the supplies of Breadstuffs afloat for Europe and in store in Europe and Argentina on the dates named:

	Dec 1, '04. Bu.	Nov 1, 04. Bu	Dec 1 '03. Bu
Afloat for Europe	39 600,000	35,370,000	25,630 000
In store in Europe	63,040 000	67 630,000	63,930,000
In store-Argentina	1,800,000	2,464,000	1,024,000
In store America	95,441,000	79,697,000	83,501,000
Total	199 881,000	185,161,000	174,085 000

The increase during November equalled 14,720,000 bu, compared with an increase of 28,292,000 bu during October, and an increase of 9,623 000 bu during November, 1903. Stocks on the Pacific Coast decreased slightly and Eastern supplies enlarged somewhat by Western shipments. Supplies in Europe and afloat decreased about 1,000,000 bu during November and stocks in Canada increased about 6,000,000 bu. Supplies are 25,796,000 bu larger than last year—11,940,000 bu in America and 13,856 000 bu in Europe.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The market here was steady and unchanged in price with a fair domestic trade. Milwaukee reported prices 10c lower.

WINTER WHEAT—Was a trifle easier early, but closed up steady. There was a little better outside milling demand and sales of 50,000 bu mixed lots, mostly Hard Winter, were reported. No. 2 Red in store quotable at $1 09¼@1 13⅜, depending on location and quality—outside for special bin lots. Fresh arrivals free on board nominally $1 11½@1 15½. No. 3 Red fresh receipts free on board sold at $1 11@1 13, and No. 4 Red at 96c@$1 09. No. 2 Hard fresh arrivals free on board nominally $1 10@1 13, and No 3 Hard quotably $1 01@1 10.

SPRING WHEAT—But little trading and prices unchanged. Choice Wheat, especially the hard variety, met with some little milling demand, but poor Wheat dull. No. 1 Northern fresh arrivals free on board quotable at $1 16@1 20. No. 2 Northern quotably $1 13@1 15. No. 3 Spring nominally $1 02@1 13, with a sale at $1 10. No. 4 Spring quotable at 55@60c for very poor to $1 00@1 05 for good to choice. No. 4 White sold at 95c.

REGULAR WHEAT—The close was ⅛@⅜c higher for the day and the trade "still at sea." Wall Street was mentioned as trading freely, and a local elevator concern was credited with a fair trade. Outside business in futures was better and there was an improved cash demand from millers; 50,000 bu sold here (mixed lots) and 2 loads at the seaboard. Another day of excitement and active price changes in the Wheat pit. The local professionals were on the buying side in a scattered way, many of them having disposed of their holdings yesterday. The break in Stocks in Wall Street during the morning, with good realizing and the fact that there were deliveries at New York of 140,000 bu on December contracts were against the price and in favor of the "bear" side of the market. Secretary Shaw's issue regarding the American Wheat duty caused the "bulls" to hesitate. While the buying was credited to one of the large elevator concerns, the president of the company said that they had not bought a pound of Wheat. This was up to the noon hour. With the Milwaukee Flour market off 10c and the Minneapolis Wheat stocks showing an increase of 1,130,000 bu in five days, there was little encouragement for the friend of higher prices from those markets. The *Northwestern Miller* says: "The output of Flour for the week ending Dec 5 amounted to 270,945 brls, against 410,120 brls in 1903 and 346,950 brls in 1902. As compared with a week ago the output shows a reduction of 62,205 brls." There was an increase in the world's stock of Breadstuffs during November of 14,720,000 bu compared with an increase of 9,693,000 bu in November of last year. The total Dec. 1 was 199,881,000 bu, compared with 185,161,000 bu Nov. 1 and 174,085,000 bu Dec. 1, 1903. The weather in Argentine was reported as better. The *Price Current* in its weekly summary says the Wheat crop situation is practically unchanged, not yet representing certainty of serious degree of permanent injury. Cables were lower. Liverpool ⅜d, London ½d and Paris equal to ½@¾c. Antwerp was unchanged. Northwestern receipts were considerably in excess of a year ago, while primary receipts were smaller. Receipts at Kansas City and St. Louis 100,000 bu, compared with 197,000 bu a year ago. Indications are for mostly fair weather in this forecast district, although snow flurries are probable in portions of lake region and in extreme Upper Mississippi Valley. Receipts at Duluth 100 cars, at Minneapolis 622 cars, a total of 722 cars, against 737 cars yesterday, 593 cars a week ago, and 587 cars last year. Local receipts included 3 cars Winter, 5 cars Spring and 8 cars mixed, total of 16 cars, against 57 cars last year. Included in above was none contract grade. There were also 25 cars and no bu taken from unlicensed elevators. The estimated receipts for tomorrow are 48 cars. There were 800 bu withdrawals. Receipts at Western points were 890,287 bu, against 918,622 bu last year. At Eastern points 115,749 bu, against 218,271 last year. Shipments from Western points 301,048 bu, against 350,765 last year and from Eastern points no bu, against 1,000 bu last year. Shipments of Flour were 4,655 brls. Exports of Wheat in Flour were equal to 20,987 bu.

Future Deliveries of Regular Wheat—Good trade. Prices lower early, but closed higher.

DECEMBER—Sold at $1 07@1 08¾. Opened with sales at $1 08⅝ to $1 08¾; sold to $1 08⅜, to $1 08½, to $1 07¼, to $1 07⅝, to $1 07, to $1 08, to $1 07⅞, to $1 08⅝, to $1 08¼, to $1 08¾, and closed at $1 08¾.

MAY—Sold at $1 09⅛@1 11⅜. Opened at $1 10¼ to $1 10½; sold to $1 10⅜, to $1 10⅝, to $1 09½, to $1 09¾, to $1 09⅛, to $1 09¼, to $1 09½, to $1 10¼, to $1 10, to $1 10¾, to $1 10¼, to $1 11⅜, to $1 10⅞, to $1 11, to $1 10⅝, to $1 11⅜, to $1 11¼ and closed at $1 11¼ bid.

JULY—Sold at 98@99⅝c. Opened with sales at 98¾c to 98⅞c; sold to 99⅛c, to 98c, to 98¼c, to 98c, to 98¾c, to 98⅝c, to 99⅝c, to 99c, to 99⅜@99½c, and closed at 99⅜@99½c.

CORN—Higher, the advances ranging from ⅜c for the nearby month to ¼@⅜c for the more deferred. The cash business was better, with sales of 300,000 bu here and 25 loads at the seaboard. "Shorts" were the leading buyers, the news from abroad being generally "bullish" in character. Futures at Liverpool were up ⅛@¼d and spot was unchanged to ¼d higher. The "bullish" help was the report that the Roumanian Government has appropriated 23,000,000 francs for the purchase of Corn for the peasants of that country. A cable from Liverpool said that the stocks of Argentina have been contracted for, and the opinion was volunteered that the shipments from that country would be small. While the weather is all that could be asked for the movement and curing of Corn the receipts are not what they would be if cars were available for movement. Local receipts were 533 cars, with 3 cars contract: 139 cars and 20,000 bu were switched from unlicensed houses and 1,200 bu from store, showing conclusively that the dryers are at work turning out contract Corn. Primary receipts were 946,400 bu, against 228 900 bu a year ago. Clearances for the day 172,194 bu, against 148,095 bu a year ago. Car lots were in good demand and the offerings only moderate. Prices steady to ¼c higher. No. 2 and No. 2 Yellow sold and closed at 46¾c. No. 3 sold at 43½@44c and closed at 43¾c. No 3 Yellow sold at 44c and closed at 43¾c. No. 3 White sold at 43¾@44c. No. 4 sold at 43@43¼c.

Corn by sample—The offerings were only fair, and a good demand existed. Prices ruled steady to ¼c higher. Sales on track and free on board: No Grade sold at 28@42c. No 4 at 42¼@43¼c. No 3 at 43½@44c. No. 3 Yellow at 43½@44c. No. 2 Yellow at 45¾c. No 3 White at 43½@44½c. Billed through: No Grade at 39½@41½c. No. 4 at 40@42¼c. No. 3 at 42@42¾c. No. 3 Yellow at 42½@43¼c. No 3 White at 42½@42¾c. No 2 White at 45¼c.

Future Deliveries of No. 2 Corn—Prices were up ¼@½c on "shorts" covering and smaller offerings.

DECEMBER—Sold at 45½@46⅜c. Opened at 45¾c to 45½c, sold to 45⅝c, to 46⅜c, to 45½c, to 46c, to 45⅞c, closing at 46c asked.

JANUARY—Sold at 42⅞@43¼c. Opened at 43¼c, sold to 42⅞c, to 43¼c, to 43c, closing at latter.

MAY—Sold at 44¼c to 44⅝@44¾c. Opened at 44⅜c to 44⅝c, sold to 44½c, to 44¼c, to 44⅝@44¾c, to 44½c, closing with latter bid.

JULY—Sold at 44½@44⅞c. Opened at 44⅝c, sold to 44¾@44⅞c, to 44½c, to 44⅞c, to 44¾c, closing at 44¾@44⅞c asked.

SEPTEMBER—Sold at 45⅛c.

OATS—Were fairly traded in, taking it in all, but there were times when dullness prevailed. Prices yielded ⅛@¼c but reacted and closed steady to ⅛c higher. "Shorts" were big buyers. Elevator interests took December and sold May at 2c spread. Arrivals were 81 cars, with 51 cars estimated for to-morrow. Seaboard clearances 55 bu. Cash sales 75,000 bu Standard. Car lots to go to store were steady. No 2 sold at 30c. Standard in store closed about 28½@28¾c.

Oats by sample were in fair request, with supply lighter and prices steady. Sales on track and free on board: No. 4 at 29c. No. 4 White at 26¾@29c. No. 3 at 30c. No 3 White at 29½@30½c. Standard at 30⅜@31c. No 2 White at 31@31¼c. Billed through: No 4 White at 28¼c. Standard at 30¼c. At the river: No. 4 White at 25@28¾c. No. 3 White at 28½@29c. Standard at 29@29¼c.

Future Deliveries of Contract Oats—Were lower early and reacted.

DECEMBER—Sold at 28⅜@28⅝c. Opened at 28⅝c, sold to 28⅜c, to 28½c at close.

MAY—Fairly traded in. Sold at 30¼@30½c. Opened at 30⅜c, sold to 30½c, to 30¼c, to 30⅜c, to 30½c at close.

JULY—Sold at 30⅛@30⅜c. Opened at 30¼c, sold at 30¼c, to 30⅜c at close.

RYE—The market was a trifle firmer. Some demand for car lot fresh arrivals for milling and distilling purposes, and receipts small. Some little speculative trading also. Only two cars received and two were withdrawn from private warehouse. No. 2 in store quotably 75c and fresh arrivals sold free on board at 75@79c. No 3 sold at 72@74c.

Future Deliveries of No. 2 Rye—Steady. December sold at 75c and closed with sellers at 75c. May sold at 78c and closed at 78c bid.

BARLEY—The features of the market were all suggestive of dullness. Some of the usual buyers did nothing, they did not care to. Some remaining bought only when they could do so at their views of value, and there were others who were fair buyers, at the same time demand was slow. The cheaper malting grades were slow. Good Barley was dull and holders found it difficult to get what they thought proper value. No fancy Barley offered. Neither was it wanted to any extent, still a few cars could be sold. Little business was done in the cheaper grades, there being practically no feed Barley offered and Screenings also were in small supply. In case of latter demand tame and only for nice clean goods. Posted to-day 43 cars inspected in. Prices quotable for Screenings at 27@37c for poor to choice. Feed Barley nominally 38c local and at 36@38½c river billed. Malting, low grade, small berry, or heavy but dirty, 39@41c; clean, fair to good, at 42@45c, and large berry heavy, good color, clean, quotable at 46@47c, and fancy possibly a shade over.

SEEDS—Little business was done. About the only instance where there were any changes in prices was in Flax which ruled higher.

Timothy—Steadiness prevailed. The market was much quieter. Offerings were smaller both of cash and futures. Rather less interest on the part of buyers also was shown. January delivery sales made at $2 75 and March sold at $2 85; these were unchanged prices and also remained the closing quotations. No cash business learned of aside from some dirty, rough bulk Seed selling at $2 20. Country lots quotable at $1 75@2 70 for low grade to fancy; inferior lower; fair to good, $2 40@2 50, and rough dirty or hulled, $2 20@2 35.

Flax—Was stronger and reacted from the late decline. To-day's quotations compared with yesterday's present ½@2c advance. No business, however, was done. There were no offerings. Local receipts were only 3 cars or 2,700 bu and none taken out. Minneapolis got 53 cars and Duluth 98 cars. No 1 Northwestern received bids of $1 23, No. 1 cash was $1 15 bid. Rejected quotable at $1 12@1 20 depending on quality. December delivery was $1 15 bid and May quoted as nominally $1 24.

Clover—Were quotably steady. No change could be learned of. There were no consignment offerings, and no bids for or offers to sell futures. Nominal as follows: Contract grade at $12 50. Country lots, common to choice, quotable at $7 00@12 25, very poor lower, and fancy above. Fair to good, $9 75@11 50.

Other Seeds—This part of the Seed market witnessed no trading and was nominally steady with former prices obtainable. Hungarian quotable at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice. German at 90c@$1 25. Siberian at 80@90c. Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05. Mustard about 75c@$1 10. Buckwheat tame: good milling quotable $1 20@1 25.

HOG PRODUCTS—All the surroundings of the market for Hog Products were unfavorable to holders, and the undertone to the market was comparatively easy. Hogs were in liberal supply and lower, and the Grain markets were rather easy early. Outside orders were moderate and local trading was fair. Stocks of all kinds are gradually increasing. Prices ruled lower on all the leading articles, but the feeling was comparatively steady during the latter part of the session, and the market closed at about medium figures. Receipts of Hogs at the leading Western packing points were estimated at 102,600, compared with 75,000 one year ago. Returns of the packing of the West for the week exhibited an increase of 155,000 Hogs, compared with the corresponding week in 1903. Increase since the opening of the season about 500,000 Hogs. Foreign markets were easy, and prices in Liverpool were reduced 1s 6d on Cumberland Sides and 1s on Hams. Domestic markets were quiet and rather easy. Receipts of Products were good—of Lard and Meats about 23 cars. Shipments were quite small of Lard and Meats about 65 cars. Shipping demand was fair in a quiet way, and the offerings were moderate. Buyers were backward, and generally insisted on slight concessions. Sales were small, and prices of most descriptions inclined in favor of buyers.

Mess Pork—A fairly good trade was reported in Mess Pork, and the feeling was easier. Offerings were fair, and credited to "longs" to some extent. Demand was fair, with a fair proportion credited to "shorts." Bulk of the trading on local account. Market opened weak at 10@15c decline, and prices further receded 10@12½c on fair miscellaneous realizing. At the reduction, there was a fair inquiry, and the feeling was steadier. Prices rallied 5@7½c, but the market closed at about medium figures. Shipping demand was moderate and offerings were rather light. Cash lots quotable at $11 25@11 50 for regular, according to quantity, with repacked at 10@15c discount.

DECEMBER—Quiet and quotable at $11.20.

JANUARY—In fair request and offerings were moderately free. Sales were made at $12 40@12 50. Opened at $12 50, sold to $12 40, to $12 45, to $12 40, to $12 45, to $12 40@12 42½, to $12 47½, and closed steady.

MAY—Offerings were rather liberal, and demand was fairly active. Sales were made at $12 70@12 82½. Opened at $12 80 to $12 82½, sold to $12 75, to $12 77½, to $12 70, to $12 72½, to $12 70, to $12 75, to $12 70@12 72½, to $12 72½, to $12 70, to $12 77½@12 80, and closed steady.

Lard—Trade was fair in the Lard market, and the feeling was rather easy. Offerings were fair, and the demand was moderate. Foreign advices were unchanged. Market opened rather easy at 2½c decline, and a further reduction of 2½c was submitted to. Later a little more steadiness was manifested and prices rallied 2½c, and the market closed comparatively steady. Demand on shipping account limited, with light offerings. Cash lots were quiet and quotable at about 2½c discount on January figures, closing at about $6 80. Loose lots in moderate request, with fair offerings. Prices were quotable at 50c discount on January figures. Leaf Lard was in light demand with fair offerings. Prices quotably lower at $6 37½. Neutral in light demand, with only fair offerings. Prices quotably lower at $7 62½@7 75 for No 1 and $7 12½@7 25 for No. 2.

DECEMBER—Quiet and quotable at $6 77½.

JANUARY—In moderate request and offerings were fair. Sales were made at $6 80@6 85. Opened at $6 85, sold to $6 80, to $6 82½, to $6 80@6 82½, to $6 82½@6 85, and closed steady.

MAY—Offerings were fair, and the demand was only moderate. Sales were made at $7 02½@7 05. Opened at $7 05, sold to $7 02½, to $7 05, and closed steady.

JULY—In light demand and offerings were moderate. Sales were made at $7 10@7 15. Opened at $7 12½, sold to $7 10, to $7 12½@7 15 and closed quiet.

Short Rib Sides—Only a fair business was transacted in Short Rib Sides, and the feeling was easier. Offerings were moderately free, and the demand was fair. Trading was almost exclusively in January and May contracts. Market opened rather easy at 2½@5c decline and the pressure to sell caused a further reduction of 2½@5c. Later, the feeling was steadier, and prices rallied 2½@5c, and the market closed rather steady. Shipping demand was moderate and offerings were light. Cash lots were quotable at $6 25@6 50, according to weight and age.

JANUARY—Offerings were moderately free and the demand was fair. Sales were made at $6 45@6 50. Opened at $6 50, sold to $6 45@6 47½, to $6 47½, to $6 45@6 47½, to $6 47½@6 50 and closed steady.

MAY—In fair request and offerings were moderately free. Sales were made at $6 65@6 70. Opened at $6 67½, sold to $6 67½@6 70, to $6 65, to $6 67½, to $6 65@6 67½, to $6 67½@6 70, and closed steady.

Other Meats—Sales reported were rather light—not reflecting the actual trade—and the feeling was steady. Domestic demand was moderate, and orders from abroad were limited. Offerings of all kinds were only fair. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices ruled lower. Dry Salted Meats in fair request, with moderate offerings, and prices favored buyers. Smoked Meats called for moderately, and prices ruled steady. Closing prices were as follows:

*Flour made by mills outside of St. Louis, but controlled in that city.

The operation of the Minneapolis mills was further disturbed by another ice last week, with the result that the output for the week fell off considerably. As compared with the preceding week, the output this week shows a reduction of 62,330 brls. The mills have now been shut down about 3 days in most cases as an auxiliary to the water power. While they are not crowding the output, many of the mills report good sales, and the output for the present week is likely to be about 270,000 brls.

The spurt in the markets during the last week has had the effect of increasing sales in the domestic markets, though millers were not able to obtain all that advance. Some of the gains made in Wheat has been obtained in some instances. As the mills were working on a close margin of profit before the advance, they have supplied a good deal of the unsatisfactory basis of price at which recent sales have been made.

Buyers are slow to come up in price," said a leading mill, "and they do not seem to want to take ho d at the advance"

On the whole the Minneapolis mills probably sold more than their output during the last week.

Southern Flour has been sold for export during the last week. One mill reports having made sales to a number of British markets, including a sale of Clear Flour to Glasgow. Neither the advance in Wheat nor the advance in freights seems to make buyers in the United Kingdom more ready to pay higher prices for Flour. The advance in freights is not only due to the close of navigation, but to advances in ocean rates. To some ports there has nominally been a considerable advance, though it remains to be seen if the advance can be maintained.

In respect to the Clear Flour, which is the grade mostly exported, there is an unusually wide range in the quotations of different mills and shippers at this time.

Millers are still in easy street as regards the sale of their mill feed. "We are selling all we can to," said a miller to-day, and his statement is typical of other millers. Bulk Bran is quoted around $14 25@14 50 f. o. b. Minneapolis. For Patent Flour, Minneapolis and outside mills quote $5 6 @5 65 f. o. b. Minneapolis

Eastern prices to day (Dec 6) asked by Minneapolis and outside mills for Patent in wood, were: Boston rate points, $5 45, New York rate points, $5 40, Philadelphia rate points, $5 40, Baltimore rate points, $5 30; Albany rate points, $5 40; Utica, Syracuse, Rochesville and Rochester rate points, $5 35; Ohio, Upper peninsula of Michigan and Indiana, $5 25, upper peninsula of Michigan in sacks $5 05; Missouri points, $5 85; Wisconsin, Iowa and Illinois, $5 60

Flour stocks in Eastern markets are large, according to well informed men in the trade, and buyers in those markets evidently do not want to add to their holdings at present prices. The outlook is that what little export demand came to a time, but nothing worthy of much notice was done in a business way. Most of the mills west of the Great Lakes, outside of Minneapolis, ran heavily so as to get out as much as possible before the close of navigation Monday, Dec. 5, and have cleaned up about all the orders in hand. Some of the mills in Minneapolis elsewhere report from good to no business, and a "spotted" describes the Flour trade throughout the Winter Wheat States. Export sales are seldom heard of, though an occasional lot is sold, but the sales naturally situated. St. Louis seems to be the one bright spot on the map, with decided improvement, heavy demand, better prices obtained and shipping directions more plentiful than a week ago.

SAFE AND SANE.

[From the Wall Street Journal, Dec. 1.]

We have this year raised crops valued at $6,000,000,000 in excess of 1903. That of itself would be sufficient to account for the revival in business that is setting in. But there is also a large increase in output from our mines, and in Gold, Iron, Coal and Copper there is a new addition to the wealth of the country. The production of Gold in the world will be the largest on record, and whatever may be thought of the ultimate consequences of continued big increases of the world's stock of metallic money, one thing is certain, that a plentiful supply of gold is the best possible stimulus to active enterprise and advance prices. The last half of the year has witnessed not only a remarkable uplift in the market for securities, but a still more remarkable revival in the Iron and Steel trade, whose condition is fundamental to the prosperity of the whole country. This is a democratic nation, but we have four kings here -King Cotton, King Corn King Iron, and King Gold and every one of these is in royal health and vigor this year. It is not strange that railroad earnings as measured by gross receipts are advancing even more rapidly than railroad prices, and that merchants are looking forward with confidence to a year of trade activity and profit. There is so much money and credit that are so prompt that merchants do not need to borrow extensively, and the application of 1903 banking law is completed and the dark shadow of fear having been cleared away, there has started a notable and apparently sound business uplift.

But these facts, while a cause for rejoicing, should not be made the occasion for those excesses which lead to ultimate collapse and ruin. We want revival, but we don't want a boom. One of the worst things which could happen to this country would be a return to the financial debauch of 1901. Now that activity has set in and confidence has been restored, it is just the time to remember these excesses which led to the severe liquidation through which we recently passed, and to keep clear of repeating the mistakes and crimes made then. This is just the time, too, to carry out those reforms, the need of which has been revealed.

In other words, this is the time of all others for a "safe and sane" policy in business. Especially is this true of the banking side of business, for it is in the conservative handling of the credits of the country that there is the best assurance for the future.

The directors of the Chicago National Bank, Tuesday, declared the regular quarterly dividend of 3 per cent and the usual annual extra dividend of 3 per cent, both payable Dec. 31 to stockholders of record Dec. 26.

STEEL TRADE HAS EXCELLENT PROSPECTS.

[From the Iron and Machinery World.]

The week has been notable in Iron and Steel more for the quantity of needs that are piling up for the future than for any impressive transactions closed. Asked if any important purchases had been made, a prominent factor in the Western trade replied that if all the business that had already appeared by way of inquiries panned out, there was no need for further prospects. Yet the latter contingency appears the situation may be summed up as one of extremely favorable promise. Sales have been good without being phenomenal. Possibly good sales have become so common that they no longer excite interest.

Nothing official is heard in respect to Steel rails, save that prices for the new year have not yet been made. But from other sources it is made clear that the rail needs for the coming year will be so large as to require the full capacities of the old mills, supplemented by the output of the new mills this year, and a possible new one next. There are few, if any, additional advances in mill products, but prices are everywhere firm. Specifications continue heavy.

Trading in pig Iron in the West is now largely for the products of the Western furnaces and the volume has been quite large this week, running easily to 25,000 or 30,000 tons. The prompt clearance is due to the fact that Southern Iron at the new schedules is slightly higher relatively than Western Irons.

The pig Iron market conditions are steadily growing stro ger, and it becomes more apparent every d y that an actual shortage of Iron may exist before the year ends is very far advanced. Northern Iron has sold during the past week at prices higher than $10 50 Chicago for No. 2 foundry, while Southern Iron is variously quoted and sold at $10 @$10 50 Birmingham. The $10 50 is chiefly sellers h ading even higher views as to price. At the close of the week one local producer had practically withdrawn from the market until the end of the first quarter 1905, except at an advanced price for a limited tonnage for ready delivery.

GENERAL BUSINESS OUTLOOK.

[From the Boston News Bureau.]

Possibly we have arrived at a point when we want to draw a distinction between the legitimate and the unreal values of the present time.

Unquestionably basic conditions are favorable, and so far as one can see the indications are promising for a continuation of our business growth.

In every country there is a tendency to a broadening of enterprise. It is difficult to appreciate what the increased wealth of the West and South means to the business interests of the country. There is a phenomenal demand for manufactured kinds, and supplies are so small that production is being quickened everywhere.

That the transportation companies have an enormous business right now is without saying. This situation comes at a time when railroad earnings are already largely in excess of a year ago. The standard railroad systems are showing net earnings greatly beyond their dividend requirements.

Nevertheless, the question arises as to how far these conditions are discounted in present day security market. Speculative sentiment as a whole is extremely optimistic. Those who have espoused the "bull" side have been most successful. One wants to repeat the old saying that when all others have been seen more frequently than has the cashing in of profits.

The market certainly gives every sign of real stability. The strength seems well distributed. Reports of an existing "short" interest, however, tend to cause some distrust to the careful observer. Frequently, however, these reports are calculated to cover up the strongest kind of selling.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Dec. 7.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of the "outside mills" with a daily capacity of 32 180 brls. from Jan. 1, 1904, to Nov. 26, 1904, with comparisons:

	1904.		1903.	
	Flour. brls.	Wheat, bu.	Flour. brls.	Wheat, bu.
Minneapolis	8,116,240	15,575,000	13,042,980	25,000,000
Duluth	1,713,905	3,348,000	1,633,370	4,749,000
32 outside mills	.....	.....	.....	.....
Totals	9,884,176	18,729,000	6,749,280	30,377,000

Totals 19,377,129 37,197,000 21,715,630 37,729,000

These figures represent the approximate consumption of 1C 562,0 0 bu less Wheat this year than in 1903 This has occurred from the mills of Minneapolis and Duluth together and the outside mills turning out 2,338,510 brls less Flour than in 1903.

THE ABUNDANCE OF POTATOES.

[From the North British Agriculturist, Nov. 23.]

The plague of abundance is being keenly felt in the Potato trade just now. On account of the heavy crop harvested, and the reluctance of commercial tubers of the very best quality have been forced down to a very low level and are still on the down grade, there is no good reason to believe, however, that this slump in prices will be permanent, for by all accounts the Up-to-dates and other older varieties grown in Lincolnshire—which is the greatest Potato-growing district in the Kingdom—are going wrong very fast in the pits, and are being rushed into the market as rapidly as possible, consequently there is very rapid spread of disease among them When these good quality stocks of the older varieties are out of the way, as they will be before very long, the market prices for good sound tubers will probably experience a sharp rise.

STOCKS IN CALIFORNIA.

The Secretary of the San Francisco Merchants Exchange has compiled the following Flour and Grain on hand in that State on Dec 1, 1904, as follows, compared with those of previous dates:

	Dec 1, 1904.	June 1, 1904.	Dec. 1, 1903.
Flour, brls	128,146	165,000	147,700
Wheat, bu	6,550,000	3,050,260	9,061,500
Corn, bu	.....	35,000	.....
Barley, bu	7,000,000	2,682,000	9,315,000
Oats, bu	1,800,000	1,800,000	2,000,000
Rye, bu	45,000	25,000	61,000

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 10 to 20; partly cloudy. Northwest—Temperatures, 20 to 44; partly cloudy. West—Temperatures, 24 to 36; clear. Southwest—Temperatures, 52 to 48; clear. Ohio Valley—Temperatures 32 to 42; clear. No rain in Wheat or Corn country.

Indications are for mostly fair weather in this forecast district, although snow flurries probable in portions of lake region and in northern Upper Mississippi Valley. Temperatures will be some what lower in this section Friday.

ITEMS OF GENERAL INTEREST.

The west wing of the leather shop of the Rock Island, Ill., arsenal was partially gutted by fire, Tuesday. The loss will probably reach $150,000.

Directors of the Daily-West Mining Company have declared the monthly dividend of 40 cents per share, payable Dec. 15 to stockholders of record Dec. 10.

The directors of the Chicago Telephone Company declared the regular quarterly dividend of 2½ per cent, payable on Dec 30. Books close Dec. 23 and reopen Dec. 31.

The Delaware, Lackawanna and Western Railroad Company has declared a dividend of 10 per cent, or $5 00 a share, in cash, payable Dec. 23. Books close Dec. 8 and reopen Dec 24.

A Boston dispatch says: "Trading in the Wool market is quiet, but quotations are firm, with small holdings. Pulled Wools are steady. The foreign market maintains a firm tone."

The Chicago Junction Railways and Union Stock Yards Company has declared the regular quarterly dividends of 1¾ per cent on its preferred stock and 2 per cent on its common stock, both payable Jan. 3. Books close Dec. 10 and reopen Jan. 18.

The National Commission Company, Indianapolis, Ind., with four branch offices in the city and forty in the State, suspended Tuesday. At the main office of the company it was said the assets amounted "bull" movement in the market had been the cause of the failure.

The Metropolitan Street Railway Company of New York announces that, pursuant to the resolution of the board of directors, it will pay a quarterly rental of 1¾ per cent upon the capital stock of the company, to be received from the New York City Railway Company, on Jan. 16. Books close Dec. 23 and reopen Jan. 17.

The railroads have refused to make important concessions on steel and iron freights for 1905. The $2 per ton rail schedule and payment of freight rates on steel and Iron for the bulk of the present schedules seem fairly assured The railroads receive what is equivalent to a big bonus, however, in the reduction of the value of old rails and other old material.

The feeling among the members of the New York Stock Exchange is said to be that the governors will act favorably on the petition asking the Exchange to close on Saturdays, Dec. 24 and 31, for Christmas and New Year's holidays. The Liverpool Cotton Exchange will close on those dates, as will the New York Cotton Exchange. The New York Stock Exchange closes, the Chicago Stock Exchange will undoubtedly do the same.

E. H. Harriman, representing Union Pacific interests, and James J. Hill, representing the Northern Pacific Great Northern-Burlington interests, each declares that there can be no compromise in the pending Northern Securities litigation. It is to be a fight to a finish to the bitter end between Pacific Railroad. Should a decision of the United States court be handed down in favor of Mr. Harriman in the Northern Securities case, President Hill would be forced from the Great Northern Pacific shares of the Northern Pacific representing fully one-half of the Northern Pacific capital.

Secretary Shaw's message referring to the bonds authorized for the Panama Canal, in part, says: "I urges that future issues of Government bonds be made available as the basis of circulation on the same terms as the Consols authorized by act of March 14, 1900. And I recommend, also, that report refers to the problems of trust companies as follows: "Within the last few years trust companies have made a relatively much larger growth in all the large cities than the banking capital. These institutions, helpful as they have been to American development and commerce, unless conservatively managed, are fraught with elements of danger to our financial system. I suggest the propriety of a law giving the trust companies of large capitalization in large cities the privilege of incorporating under federal law with corresponding supervision."

A director of the American Locomotive Company says that there are no indications at present, that the common stock of the company will receive dividends for an indefinite period. Emphasis is placed upon the fact that while there has been a considerable increase in business, and inorders continue to come in, profits of sales are low, and consequently the margin of profit is not nearly as large as it was a year or two ago. The company has not declared a dividend as of its fiscal year. The earnings for the six months ending Dec. 31 will not be as good as for the corresponding period in 1903, when the company had its order books well filled in advance. Should business continue to improve, the earnings during the second half of the fiscal year should show up well, in which event the total earnings for the fiscal year would probably make a favorable comparison with the preceding year

The Chicago *Inter Ocean* says: "Although it is impossible to gain any official information on the subject, the contributing interests who are interested in United States Leather affairs that some plan is being worked out for readjusting the company's finances by which provision will be made for paying off the accumulated dividends on the preferred stock. Even high officials of the company profess ignorance as to what is going on, but a close observer within the past week has been attended to confirm the impression that another attempts is to be made toward a readjustment of the company's affairs. It is known that some of the leading interests in the company have met for several weeks holding conferences with great frequency, and it is assumed that the subject under discussion is some scheme to be proposed. One story in circulation is that the back dividends on the preferred stock will be paid off in scrip."

The Chicago News Bureau, Tuesday quoted a letter from a Chicago broker concerning the report of the Illinois Brick Company is no doubt perfectly true, but it is not an official one, and I am somewhat in doubt as to whether the shareholders will sanction it. The scheme whereby retirement of some of the capitalization is outlined has been formulated by a firm of La Salle Street brokers and has never been submitted officially to the board of directors of this company. We do not understand their plan in detail and, therefore, cannot discuss it. Moreover, there appears to be a great many things about the brick business, and especially those which relate to this company that these brokers have yet to learn. The policy of German frugality," to which a recent article refers as being a detriment to the company's progress. I consulter a confession of ignorance concerning the article implied. The company is making an excellent showing, and it is the great conservatism and economy of the present management that has brought about the condition."

A Boston brokerage firm have made a study of the investment value of the securities of the International Paper Company, which latter reads the following conclusions: "The gross earnings of the company in the last few years have shown no tendency to increase, probably because of keen competition. No earnings have always been sufficient to pay the interest on the bonded debt, the 6 per cent dividends on the preferred stock, and leave a surplus for the 6 per cent common stock. The smallest percentage earned on the common stock since the company was organized was 3 per cent, and the largest 9 per cent. The company has increased its working capital and has added materially to the value of its fixed assets. The value of assets is undoubtedly equivalent to the par value of the bonds and the preferred stock. There appears to be, however, no asset value for the common stock. The prospects of dividends on the common stock still seem remote. It is true that the earnings for the common stock amounted to about 4 per cent, despite the fact that operations were seriously handicapped by weather conditions; yet the company from other sources for surplus earnings than to declare dividends on the common stock. The probability is that the company needs more working capital, and that surplus earnings will be called into the quick assets for some time to come. The preferred stock seems to be a fairly sound industrial investment The earnings of the company certainly seem sufficiently ample to insure the regular payment of dividends and the assets could undoubtedly be liquidated so as to give the preferred stockholders the full value of their stock. All that can be said for the common stock is that it has speculative possibilities."

Secretary Hester, of the New Orleans Cotton Exchange, makes amount of Cotton brought into sight for the week 489,563 bales, against 489,958 bales last year, 387,668 bales in 1902, and 436,130 in 1901.

Argentine Wheat visible is 1,472,000 bu, against 1,800,000 bu the previous week, and 736,000 bu last year. The Argentine Corn visible is 2,760,000 bu, against 3,231,000 bu the previous week and 2,620,000 bu last year.

Shipments of Wheat from Argentina this week were 208,000 bu, against 920,000 bu the previous week, and 304,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 91,117,000 bu, against 61,864,000 bu same time in 1903.

Shipments of Corn from Argentina this week were 1,928,000 bu, against 2,520,000 bu the previous week, and 1,894 000 bu for corresponding week last year. Shipments since Jan 1 reported at 93,111,000 bu, against 74,805,000 bu for same time last year.

The shipments of Flax Seed from Argentina this week were reported at 152,000 bu, compared with 232,000 bu last week and 400,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 37,711,000 bu, compared with 25,611,000 bu for the corresponding time last year

The *Modern Miller* weekly summary says: "Winter Wheat crop has suffered from absence of moisture, snow in the Southwest having given little relief. Weather conditions have developed, however, that promise a general break-up in the drouth, and which should be of great benefit to the crop."

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 277,000 bu, against 365 000 bu for the previous week and 641,000 bu for the corresponding week last year. Exports since July 1 were 11,906,000 bu, compared with 25,931,000 bu for corresponding time last year

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,139 000 bu, against 2,102,000 bu for the previous week, and 4,607,000 bu for the corresponding week last year. Exports since July 1 were 31,884,000 bu, compared with 79,118,000 bu for the corresponding time last year.

Broomhall cables: "Conditions surrounding Argentine Wheat markets are about unchanged from a week ago, the tone being firm and the export demand fair. Arrivals from the interior are light. Corn markets remain firm, and the demand for export good. Arrivals at the ports are smaller, as is evidenced by the decrease of nearly 500,000 bu in the visible supply during the week. Weather conditions in Argentina are improving, and reports from the North are more favorable."

It was another big day in Wall Street, although the volume of trading and the nervousness were materially lessened. Enough liquidation on exhausted margins was in evidence during the morning to force prices off sharply. The breaks were taken advantage of by "shorts" to cover, and by strong interests to absorb many of the good Stocks. The feeling among the banking interests was that the break of the past few days had cleaned out all weak holders, and that Stocks had again passed into strong hands. Good advances were made, and the close was at material gains, ranging from 1½ to 2½ points. Money 3½ to 4 per cent.

Concerning conditions in Argentina, the *Northwestern Miller* on Dec. 6 received the following cable from Mr. Ernesto Danvers, its resident representative in Argentina, who is conceded to be the best posted and most reliable authority in that country: "In Cordoba and Santa Fe there is but slight damage from rust. Harvest there is progressing slowly on account of wet weather; a large quantity of Wheat is in the shock and will be badly damaged by sprouting and a continuation of wet weather will do serious damage to the crop. In these provinces the crop will be light and of inferior quality. In Buenos Ayres and Entre Rios prospects are magnificent." It should be added that the province of Buenos Ayres is by far the most important Wheat-raising district in Argentina.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Trade at Chicago is reported as fairly active on domestic account, but nothing doing abroad.

WINTER WHEAT—Was steady. There was a light milling demand and sales of 35,000 bu of No. 2 Hard were reported, besides the few cars which were sold. Fresh receipts were so small it is difficult to give more than nominal quotations. No 2 Red in store quotable at $1 13@1 15 and fresh arrivals free on board at $1 15@1 16. No 3 Red fresh receipts free on board sold at $1 10¼ and ranged at $1 10@1 13. No. 4 Red sold at $1 06. No 2 Hard in store quotable at $1 05¼@1 07 and fresh arrivals free on board quotable at $1 10@1 13. No 3 Hard fresh receipts quotable at $1 02@1 10.

SPRING WHEAT—Was again quiet and prices unchanged. Choice Wheat, especially the hard variety, met with some little milling demand, but poor Wheat dull. No. 1 Northern fresh arrivals free on board quotable at $1 16@1 20. No. 2 Northern quotable $1 13@1 15. No. 3 Spring nominally $1 02@1 13, with sales at $1 06@1 07. No. 4 Spring quotable at 85@90c for very poor to $1 00@1 05 for good to choice, with sales at 70c@$1 05.

REGULAR WHEAT—Lower, resting spots showing losses of ¼@½c. There was considerable Wheat to go over late on a "tip" that was going around of large deliveries late in the day, and there were 115,000 bu sent out on December contracts. The cash sales here were 35,000 bu for the day, including a lot of 25,000 bu to go to Milwaukee. Kansas City reported the sale of a round lot of Wheat there at 4½c under the Minneapolis May price, the Wheat having been purchased—so the report said—by a Minneapolis milling concern. A message from Minneapolis late in the day in answer to a query read "It is a fact that elevator capacity here is getting rapidly filled up. Unless cash demand from millers here improves we will soon have an overflow of Wheat." Clearances for the week were 1,139,000 bu, against 2,102,000 bu a week ago and 4,607,000 bu a year ago. While the fluctuations were smaller, and the market was less feverish than yesterday, and the day before the price changes were heavy enough to satisfy almost any one in the trade. The private wire concerns took quite a hand in the trade, reflecting more or less business from Wall Street, the Northwest and Southwest. One of the features of the market in the way of outside advices came from Wall Street, the people down there asked their friends to buy Wheat. Minneapolis advices were somewhat mixed, one house up there reported heavy sales of Flour, but spoiled the effect of the message by telling of the large Wheat stocks at that point and of no demand for it. There were a number of dry weather reports received from Southwest, but in the face of this there were showers in widely scattered sections of the Winter Wheat belt, and promises of either showers or snow flurries in other sections. The news from abroad was mainly "bearish." The weather in Argentina was reported as improving, and the export demand was reported as only fair. The Argentine shipments were much smaller at 208 000 bu for the week, compared with 920,000 bu a week ago and 304,000 bu a year ago. Visible supply in chief ports of Argentina 1,472,000 bu, compared with 1,800,000 bu the previous week and 736,000 bu a year ago. Cables were without much color. Spot Wheat at Liverpool was unchanged and futures ⅛d higher, London ¼d higher, Paris unchanged to ¼c lower. Antwerp unchanged, Buda Pesth ⅛d lower and Berlin unchanged. Kansas City and St. Louis receipts were 117,000 bu, against 224,000 bu a week ago and 190,000 bu a year ago. Indian shipments (estimated) for the week 968,000 bu. Northwestern cars, as well as primary receipts, were larger than a year ago. Receipts at Duluth 133 cars, at Minneapolis 551 cars, a total of 684 cars, against 722 cars yesterday, 720 cars a week ago, and 437 cars last year. Local receipts included 5 cars Winter, 12 cars Spring and 15 cars mixed, total of 32 cars, against 62 cars last year. Included in above was none contract grade. There were also 43 cars and no bu taken from unlicensed elevators. The estimated receipts for tomorrow are 38 cars. There were no withdrawals. Receipts at Western points were 809,080 bu, against 795,618 bu last year. At Eastern points 65,624 bu, against 226,496 last year. Shipments from Western points 400,462 bu, against 285,185 last year, and from Eastern points 15,984 bu, against 178 531 bu last year. Shipments of Flour were 7,733 brls. Exports of Wheat in Flour were equal to 36 392 bu.

Future Deliveries of Regular Wheat—Good trade, and closing steady.

DECEMBER—Sold at $1 07¾@1 09. Opened at $1 08¼; sold to $1 08⅜, to $1 08¼, to $1 09, to $1 07¾, to $1 08⅛, to $1 07⅞, to $1 08½, to $1 08¼, to $1 08½, to $1 08⅜, to $1 0-⅝, to $1 08¼, and closed at $1 08¼.

MAY—Sold at $1 10⅛@1 11⅜. Opened with sales at $1 11 to $1 10¾; sold to $1 10⅞, to $1 11, to $1 10⅝, to $1 11⅛, to $1 11, to $1 11½, to $1 10⅜, to $1 10⅝, to $1 10⅛, to $1 11⅛, to $1 10½, to $1 11⅛, to $1 10⅞, to $1 11, and closed at $1 11 asked.

JULY—Sold at 98½@99⅜c and at 99⅜c. Opened at 99¼c to 99⅜c, sold to 99c, to 99⅜c, to 98½@99⅝c, to 99⅜c, to 99c, and closed at 99c.

CORN—December was the strongest future on the entire Corn list. It closed 1⅛c better, while the more deferred months gained only ¼@½c. The seaboard reported 13 loads for export and there were sales here of 100,000 bu. Weekly clearances were only 277,000 bu, compared with 365,000 bu the previous week and 641,000 bu a year ago. There was quite a flurry in December Corn, with "shorts" attempting to get in before the price was forced still higher. The influence was reported rains in widely distributed points in the Corn belt, with a promise of either snow flurries or showers. There was good buying of May, with the leading houses in the trade on that side. The selling of May was scattered, while the December came out through commission houses who are in close touch with the country. Local receipts were 680 cars, with 14 contract. There were 134 cars and 16,000 bu switched from unlicensed elevators, reflecting the steady work that is being done by the dryers. Liverpool was about ⅛d higher for futures. Argentina reported the demand good for cash on Continental account, with the arrivals at ports smaller. The visible supply in the chief ports of Argentina is 2,760,000 bu, compared with 3,231,000 bu a week ago and 2,662,000 bu a year ago. Argentine shipments for the week 1,928,000 bu, against 2,520,000 bu the week before and 1,894,000 bu a year ago. Primary receipts 1,121,400 bu, compared with 427,000 bu a year ago. Clearances from the seaboard 109 437 bu, against 51,415 bu a year ago. Car lots met with a good and prices ruled steady to ¼c lower. Offerings moderate. No. 2 closed at 47@47¼c according to location. No 2 Yellow sold at 47½c, and closed at 47@47½c, according to location. No. 3 sold at 43½@43¾c and closed at 43¼c. No. 3 Yellow sold at 43½@44c and closed at 43½c. No 3 White sold at 43½c. No. 4 sold at 41½c.

Corn by sample—Was in good demand, with prices steady to ¼c lower. Offerings fair. Sales on track and free on board: No Grade sold at 40@42c. No 4 at 42¼@43c. No 3 at 43½@44c. No. 3 Yellow at 43½@44¼c. No 2 Yellow at 47½c. No. 3 White at 43½@44c. Ears at 46½c. Billed through: No Grade at 38½@40½c. No. 4 at 41¼@42c. No. 3 at 42¼@42¾c. No. 3 Yellow at 42¼@43½c. No 2 Yellow at 46¼c. No. 3 White at 42½@42⅞c.

Future Deliveries of No. 2 Corn—The market closed ¼@1⅛c higher after a nervous session.

DECEMBER—Sold at 46⅛@47¾c. Opened at 46⅛c to 46⅝c, sold to 46⅜c, to 47¾c, to 46¾c, to 47⅜c, to 47⅛c, and closing at 47⅛c asked.

JANUARY—Sold at 43⅜c, and closed with buyers at that.

MAY—Sold at 44½@45c. Opened at 44½c to 44⅝c, sold to 44⅞c, to 44¾c, to 45c, to 44⅞c, and closed at 44⅞@45c asked.

JULY—Sold at 44⅞@45¼c. Opened at 44⅞c, sold to 45⅛c, to 45c, to 45⅛c, and closed with buyers at the latter.

SEPTEMBER—Sold at 45¼c.

OATS—Were stronger and closed at the top at ⅛@¼c advance for May, but easy and ⅛c lower for December. The latter weakened on reports that deliveries would be large in the afternoon, and they were 3,390,000 bu. Distant futures were strengthened by smaller offerings, covering by "shorts" and in sympathy with Corn. Cash sales were 55,000 bu. Arrivals 62 cars, with 80 cars estimated for to-morrow. Car lots to go to store were steady for good and lower for poor. No. 4 White sold at 29½c. No 3 White at 29½c. Standard in store closed about 28⅞@29½c.

Oats by sample were in fair demand for good, with prices steady. Poor sold slowly at ¼@½c decline. Sales on track and free on board No 4 White sold at 29@29½c. No 3 at 29½c. No. 3 White at 30@31¼c. No. 2 at 29¾@30¾c. Standard at 30@31¼c. No 2 White at 31@31½c. Billed through: No. 3 White at 30@30½c. Standard at 30¼@30¾c. No. 2 White at 30¼c. At the river: No. 4 White at 28c. No. 3 White at 28@29c. Standard at 29¼c.

Future Deliveries of Contract Oats—Were unsettled, May closing higher.

DECEMBER—Sold at 28¼@28½c. Opened at 28½c, sold to 28⅛c; closed at 28⅜c.

MAY—Good trading. Sales were at 30⅜@30½c to 30⅝c. Opened at 30⅜c to 30½c, sold to 30⅝c and closed there.

JULY—Sold at 30⅜@30⅝c. Opened at 30½c, sold to 30⅜c, to 30⅝c at close.

RYE—Was quiet and steady. No special interest in the market. Car lot fresh receipts were taken by millers and distillers—no shipping demand for any quantity. There were three cars received and six cars withdrawn from private warehouses. No exports from New York. No 2 in store nominally 74½@75c, and fresh arrivals free on board sold at 78@79c, and a car not graded sold at 60c.

Future Deliveries of No. 2 Rye—Quiet. December 75c asked, May sold at 78c and closed at 78c asked.

BARLEY—Ruled quiet. There was a small business centered in the cheaper malting grades and in Screenings. There was only a small supply on the market. Demand very tame also. Buyers were indifferent; they would buy within a certain range and if their views were not accepted it made little difference. Really choice Barley scarce and no special demand for it. Thirty-six cars inspected in to-day. There were sales of Screenings over a range of 25@37c for poor to choice. Feed Barley scarce and nominal at 38c local and at 36@36½c river billed. Malting, low grade, small berry, or heavy but dirty, 39@41c; clean, fair to good, at 42@43c, and large berry, heavy, good color, clean, quotable at 45@47c, and fancy possibly a shade over.

SEEDS—Hardly any business was done. There was in evidence a strong feeling in the Timothy market and Flax scored 1c advance. These were the only changes.

Timothy—Was very quiet. Nothing was done in futures and little in cash Seed. At former prices sales could be made, still demand was tame. December was nominally $2 70@2 72½. January at $2 75 and February was $2 80 bid, with $2 82½ asked. For March $2 85 was bid and $2 87½ asked. Country lots quotable at $1 75@2 70 for low grade to fancy; inferior lower; fair to good, $2 40@2 65, and rough, dirty or hulled, $2 25@2 35.

Flax—There was an advance of 1c. It was a nominal improvement and based on firmer reports from outside. The market at the same time remained without trading; no Flax Seed, for cash or future delivery, offered. Local receipts 2 cars or 1,800 bu and 200,000 bu by lake. There was no output. There were receipts of 41 cars at Minneapolis, and of 112 cars at Duluth. No. 1 Northwestern was $1 24 bid, and No. 1 cash was $1 16 bid. Rejected quotable at $1 13@1 21 depending on quality. December delivery was $1 16 bid and May quoted as nominally $1 25.

Clover—Steadiness was quoted, with no essential change. There was no trading, due to absence of offerings. Contract grade remains at $12 50. Country lots, common to choice, quotable at $7 00@12 25; very poor lower, and fancy above. Fair to good, $9 75@11 50.

Other Seeds—Were nominally unchanged from the recent quotations. Hungarian was quotable at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice. German at 90c@$1 25, Siberian at 80@90c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05. Mustard about 75c@$1 10. Buckwheat tame; good milling quotable $1 30@1 25.

HOG PRODUCTS—Considerable interest was manifested in the market for Hog Products, and the market in a general way was stronger. Offerings were not very large, while the demand was rather active. "Shorts" and some of the packers accepted fair quantities, while it was surmised that other packers sold moderately. Hogs were in good supply, and prices were higher, and this feature had a stimulating effect. The Grain markets in a general way exhibited a little more strength. Trading chiefly in January and May contracts, with a fair business in transferring contracts ahead. Prices were advanced on all the leading articles, and extreme figures were fairly well supported to the close. Outside orders were only fair, and local trading moderately active. Receipts of Hogs at the leading Western packing points were estimated at 80,100, compared with 77,300 one year ago. Foreign markets were easy, but Meats were not quotably lower, while Lard declined 6d. Domestic markets were quiet and rather steady. Receipts of Products were fairly liberal—of Lard and Meats about 30 cars. Shipments were rather good—of Lard and Meats about 140 cars. Demand on shipping account was fair in a quiet way, and offerings were moderate. Very little export demand. Sales were rather light, and there was comparatively little change in prices.

Mess Pork—Rather a good trade was reported in the market for Mess Pork, and the feeling in a general way was stronger. Apparently less pressure to sell, while a fairly good miscellaneous demand prevailed. Some business in the way of transferring contracts ahead. Market opened comparatively steady, but a firmer feeling was soon developed, and prices advanced 10@12½c, and the appreciation was fairly well supported to the close. Shipping demand was light and offerings were moderate. Cash lots were quotable at $11 37½@11 50 for regular, according to quantity, with repacked at 10@15c discount.

DECEMBER—Quiet and steady, with small sales at $11 32½.

JANUARY—In rather good request and offerings were moderate. Sales were made at $12 50@12 65. Opened at $12 50, sold to $12 52½, to $12 50, to $12 60, to $12 52½@12 55, to $12 52½, to $12 60, to $12 65, to $12 60, to $12 62½@12 65, and closed steady.

MAY—Offerings were fair and the demand was rather active. Sales were made at $12 80@12 95. Opened at $12 82½, sold to $12 80, to $12 90, to $12 85, to $12 95, to $12 90, to $12 95, to $12 92½, to $12 95, to $12 92½, to $12 95, and closed steady.

Lard—A fairly good trade was reported in the Lard market, and the feeling was stronger in a general way. Offerings were on a moderate scale, and the demand was fairly active. Foreign advices were unfavorable to holders. Market opened rather firm at 2½c advance, and a further improvement of 5@7½c was gained, but the advance was not fully supported to the close. A good share of the trading was credited to local operators. Demand on shipping account was moderate, with light offerings. Cash lots were quiet and quotable at about 7c discount on January figures, closing at about $6 85. Loose lots in moderate request, with fair offerings. Prices were quotable at 50c discount on January figures. Leaf Lard was in light demand with fair offerings. Prices quotably steady at $6 37½. Neutral in light demand, with only fair offerings. Prices quotably steady at $7 50@7 62½ for No. 1 and $7 12½@7 25 for No. 2.

DECEMBER—Quiet and quotable at $6 85.

JANUARY—Inquiry was fair and the demand was moderate. Sales were made at $6 85@6 92½. Opened at $6 85, sold to $6 92½, to $6 90, and closed steady.

MAY—Offerings were fair, and the demand was moderately active. Sales were made at $7 07½@7 15. Opened at $7 07½, sold to $7 15, to $7 12½, to $7 12½@7 15, to $7 12½ and closed steady.

JULY—Called for moderately and offerings were not very large. Sales were made at $7 15@7 25. Opened at $7 15, sold to $7 22½@7 25, to $7 20, to $7 22½, and closed steady.

Short Rib Sides—There was a fairly good trade reported in Short Rib Sides, and the undertone to the market was stronger in a general way. Offerings were moderate, and the demand was fairly active. Trading confined to January and May contracts. Market opened rather firm, and prices were a trifle higher. Later, an advance of 5c was established, and the advance was fairly well supported to the close. Demand on shipping account was moderate, and offerings were comparatively light. Cash lots quotable at $6 37½@6 50 according to weight and age.

JANUARY—Offerings were moderate, and the demand was fairly active. Sales were made at $6 50@6 55. Opened at $6 50, sold to $6 55, to $6 50@6 52½, to $6 55, and closed steady.

MAY—In rather good demand and offerings were only fair. Sales were made at $6 70@6 77½. Opened at $6 70, sold to $6 75, to $6 72½, to $6 75@6 77½, and closed steady.

JULY—Quiet, with small sales at $6 90.

Other Meats—Sales were rather light and the feeling steady. Domestic demand was moderate, and orders from abroad were very light. Offerings of all kinds were only fair. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices ruled steady. Dry Salted Meats in fair request, with moderate offerings, and prices were unchanged. Smoked Meats called for moderately, and prices ruled steady. Closing prices were as follows:

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Dec. 8.]

The marketing of Hogs has largely increased, and represents liberal numbers, reflecting a decided gain over recent records and in comparison with a year ago. Total Western packing 765,000, compared with 600,000 the preceding week and 615,000 two weeks ago. For corresponding time last year the number was 610,000, and two years ago 600,000. From Nov. 1 the total is 3,010,000, against 2,510,000 a year ago—an increase of 500,000. The quality of current offerings is generally good. Prices have been well sustained, incident to the readiness with which the supply has been taken by the packers. At the close the average for prominent markets is about $4 40 per 100 lbs, compared with $4 45 a week ago, $4 55 two weeks ago, $4 35 a year ago, $6 15 two years ago and $6 05 three years ago. January prices for Product at Chicago represent the equivalent of about $4 70 per 100 lbs for Hogs.

The speculative Provision market was only moderately active the past week, and an easy tone prevailed toward the close. The influences surrounding the market favored the selling side of the market, as the receipts of Hogs were liberal and both the Corn and Wheat markets were lower at the close of the week at Chicago. Foreign markets ruled steady and domestic markets quiet. The export clearances of Product were fair and show an increase over the preceding week and only a slight decrease as compared with the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	508,000	526,000
Bacon, pounds	10,447,000	11,144,000
Total Meats	10,845,000	11,670,000
Lard, pounds	11,341,000	11,19,000
Total, Product	22,186,000	23,240,000

The stocks of Cut Meats at centers making monthly returns show the comparisons as to totals, in pounds, according to Cincinnati *Price Current* compilations, as follows:

	Dec. 1, 1904.	Nov. 1, 1904.	Dec. 1, 1903.
Chicago	66,431,000	65,020,000	77,860,000
Kansas City	29,254,000	24,746,000	20,162,000
Omaha	19,865,000	17,209,000	17,415,000
Milwaukee	10,793,000	8,974,000	8,395,000
St. Joseph	18,803,000	18,075,000	12,833,000
Total, lbs	144,999,000	134,024,000	136,965,000

This indicates an increase of 11,000,000 lbs in the total, compared with a month ago, while the stocks were decreased 6,000,000 lbs last year for the corresponding period. The total at these points is now 8,000,000 lbs less than a year ago and 19,600,000 lbs more than two years ago. The total stocks of Lard at the five centers named in the foregoing table on Dec. 1 were 43,000 tcs, compared with 38,000 tcs a month ago and 36,000 a year ago.

The total stocks of Cut Meats, of Short Rib Sides, of Sweet Pickled Hams, in pounds, and of Lard in tierces, at Chicago, Kansas City, Omaha, Milwaukee and St. Joseph, compare as follows, for dates indicated:

	Dec. 1, '04.	Nov. 1, '04.	Dec. 1, '03.
Total Cut Meats	144,999,000	134,024,000	136,965,000

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Dec. 8.]

The long and very widely prevailing drouth has continued with hardly appreciable relief in any region, such precipitation as has occurred during the past week being of small degree and within limited areas. With these conditions the previous unpromising surface appearance of the Wheat crop in a very considerable portion of the area has continued, and in some degree has been more pronounced in various localities. With all this, and the references to unfavorable appearance of the crop, there is little evidence brought forward of actual damage beyond reparation by favorableness hereafter. The more gloomy situation is mainly in territory east of the Mississippi River. Westward, and notably in Kansas, the situation is better. To some extent in that region and in the northern sections of the Winter Wheat areas the ground has some snow covering. It seems justifiable to repeat the previous observation to the effect that there is not yet certainty of a serious degree of permanent injury to the crop. The late seeding, which has not germinated, may ultimately come out favorably.

The current information in regard to the Corn crop indicates that husking operations are far progressed, that the offerings for shipping purposes have been increasing, and that current prices are generally affording inducements which are bringing out considerable quantities of Grain. The tenor of returns in regard to yield and to tendency to better condition of the Grain is about the same as previously. The continuance of dry weather has had its effect upon pasture conditions to a wide extent, and this will tend to increase the requirement for feed material from other sources. The generally abundant supply of Hay is a favorable feature in the situation.

One of the features having a restricting effect upon the volume of the Grain movement in the West is the lack of cars available for ready shipments. Another feature is the revival of interest in Cattle feeding operations to considerable extent and the attending call for Grain incident to the increased demand for feeders.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 8 to 30; partly cloudy; snows fairly general. Northwest—Temperatures, 6 to 21; generally cloudy. West—Temperatures, 20 to 30; partly cloudy. Southwest—Temperatures, 28 to 58; partly cloudy. Ohio Valley—Temperatures 26 to 38; cloudy.

The forecast for 36 hours is: Missouri—Threatening and colder to-night, with probably rain or snow in east portion; Saturday partly cloudy, brisk northerly winds. Nebraska and Kansas—Generally fair; northerly winds, becoming variable. Iowa—Partly cloudy; probably colder and snow flurries in southeastern portion to-night. Indiana—Threatening snow in northern, rain in southern part. Illinois—Threatening with snow in northern portion to-night and Saturday, and rain in southern portion to-night; colder south and southeast Saturday. North and South Dakota—Fair, warmer. Minnesota—Partly cloudy; snow flurries near Lake Superior.

KANSAS WHEAT CONDITION.

[From the Northwestern Miller.]

There were continued scattering reports of injury to Wheat in Kansas by reason of continued dry weather last week, but none of the news was sufficiently alarming to occasion any serious apprehension in any quarter regarding the safety of the crop.

The Wheat needs rain, but the need is not yet a matter of the extremest importance and the Wheat is still in condition to immediately prosper when moisture shall come. The principal danger is in a severe winter coming upon the plant while it is lacking in the growth and vitality necessary to its successfully resisting the freezing.

Present indications are favorable for a breaking of the long drouth.

ITEMS OF GENERAL INTEREST.

The $350,000 Cranston, Conn., 4 per cent semi-annual forty-year bonds were awarded, Thursday, at 104.298.

The American Beet Sugar Company has declared the regular quarterly dividend of 1½ per cent on its preferred stock, payable Jan. 3 to holders of record Dec. 24.

The Twin City Rapid Transit Company has declared the quarterly dividend of 1¾ per cent on its preferred stock, payable Jan. 2. Books close Dec. 17 and reopen Jan. 3.

The Chicago, Rock Island and Pacific Railway Company has applied to the New York Stock Exchange to list $14,704,000 first and refunding mortgage 4 per cent bonds of 1934.

The Chicago and Alton Railway Company has declared the regular semi-annual dividend of 2 per cent on its preferred stock, payable Jan. 3. Books close Dec. 16 and reopen Jan. 3.

The directors of the Western Trust and Savings Bank, Chicago, have declared the regular quarterly dividend of 1½ per cent, payable Jan. 2 to stockholders of record Dec. 31. Books do not close.

The Atchison, Topeka and Santa Fe Railway Company has declared the regular semi-annual dividend of 2½ per cent on its preferred stock, payable Feb. 1. Books close Dec. 22; reopen Feb. 2.

The directors of the Corn Exchange National Bank, Chicago, Wednesday, declared the regular quarterly dividend of 3 per cent, payable Jan. 2 to stockholders of record Dec. 7. Books do not close.

Books for the registration of the Railroad Securities Company's Illinois Central stock interest certificates will be closed on Dec. 17 for the purpose of paying the regular semi-annual dividend of 2 per cent, due Jan. 1. Books will reopen Jan. 3.

The directors of the Chicago Telephone Company, at their meeting, Wednesday, took no action looking toward the issue of new stock. Rumors have been persistent for some time that such action was in contemplation. After the meeting of the directors the president authorized a statement to the effect that no increase of stock would be made this year. The directors, he said, would wait before taking such action until the estimates and appropriations were made for next year, and the needs for new construction were known. Plenty of money is on hand to finish up this year. Whether or not new capital will be issued next year will depend on circumstances and the needs of the company. It is pretty generally expected that an issue of new stock will be made during 1905.

The change in the method of paying dividends on the preferred stock of the American Can Company from semi-annual to quarterly is stated by some of the best posted of the local people to be preliminary to an increase in the dividend rate on the preferred stock to 7 per cent. The change is expected by them to be made around the close of the fiscal year on March 31. A director of the company who was present at the recent dividend meeting is quoted as saying that the statement of earnings made to the directors at the meeting was very gratifying. He said that the earnings of the present fiscal year would be largely in excess of those of the previous year. The outlook for business and earnings was declared to be better than ever before in the history of the company.

The sale of $12,000,000 purchased lines 3½ per cent bonds of Illinois Central makes a total of nearly $18,000,000 of bonds sold by the company out of the treasury since July 1, 1904. On that date the company had in its treasury only $1,396,825 of cash. It had $28,226,108 of unpledged bonds, part of which stood against "advances" of $4,227,538. The sale of the treasury bonds is the conversion of the "advances, etc.," into quick assets. In other words, the directors think the time is favorable for the replenishing of the depleted working capital of the road. To this end, the bond list has been called upon to supply cash enough to pay back the advances, to liquidate $1,000,000 of notes and to put a working balance at the order of the treasurer. Illinois Central is one of the strongest companies in the country. It is one of the few railroads that sell 3 per cent and 3½ per cent bonds on a profitable basis in this market. The public demand for these bonds is narrow, and only the big underwriters seem willing to handle low interest bonds of this class in any considerable amount. Burlington's Illinois division 3½s are generally considered the standard Western bond of the class, and they sell on a 3.70 per cent basis.

The shareholders of the Chicago Edison Company were formally notified by circular, Wednesday, of their right to subscribe for the new capital stock of the company to be issued next year. The circular reads in part as follows: "Holders of shares of the company's existing capital stock will be entitled to subscribe, at par, for an amount of new stock equal to 20 per cent of their respective holdings, as their holdings shall be shown of record on the books of the company at 1 o'clock P. M. on the 21st day of January, 1905. Subscriptions and payment of the first installment for the number of shares subscribed for must be received at the office of the secretary and treasurer of the company before the close of business at 5 o'clock P. M. Feb. 1, 1905; and the subscription right of a stockholder whose subscription and remittance shall not be so received will be lost. Subscriptions on which future installments shall not be promptly paid as the installments respectively become due may be forfeited for such nonpayment of an installment in accordance with the provisions of section 5, article 1, of the by-laws of the company." The stock not subscribed for will go into the treasury of the company. Payment will be made in four installments, and the interim receipts for payments will share in the dividends of the company in proportion to the amount paid on them. New certificates will be issued on Nov. 1, 1905.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—No change in prices, with the demand fairly active on export account. Reports of business in the Northwest are conflicting.

WINTER WHEAT—Very little doing Small receipts prevent trading. Feeling easier and prices ½c lower in sympathy with futures No. 2 Red in store ranged nominally 2@3½c over May—outside for special bin lots—ranging at $1 12@1 14¼, and fresh arrivals free on board at $1 14½@1 15½. No. 3 Red fresh arrivals free on board quotable at $1 09@1 13. A car of No. 4 Red sold $1 06½. No. 2 Hard fresh arrivals free on board quotable at $1 09@1 13 and No. 3 Hard at $1 02@1 10.

SPRING WHEAT—Ruled quiet and prices ½c lower. Choice Wheat, especially the hard variety, met with some little milling demand, but poor Wheat dull. No 1 Northern fresh arrivals free on board quotable at $1 18@1 20. No. 2 Northern quotably $1 18@1 15. No. 3 Spring nominally $1 02@1 12. No. 4 Spring quotable at 56@60c for very poor to $1 00@1 05 for good to choice, with a sale at 75c.

REGULAR WHEAT—After an irregular and unsettled session Wheat closed ⅛@½c lower. Cash business was small both here and at the seaboard. While there was some reaction from the bottom prices reached the close showed general tameness. The Michigan crop report makes the condition of Wheat 93, compared with 99 last month and 83 a year ago; area sown 86 per cent. There was less doing in Wheat and the market averaged lower, with fluctuations less violent than during several previous days of the week. Liverpool was unchanged to ⅛d higher, Berlin was ¼d up, while Paris was ½c lower, and London and Buda Pesth unchanged. A *Broomhall* cable reported weather conditions in Argentina and Australia as favorable. A private cable via Montreal reported crop conditions in Australia as unfavorable. The Australian shipments are 468,000 bu for the week. World's shipments Monday are expected to show an aggregate of 8,800,000 bu, and a moderate decrease on ocean passage is looked for for the week. Imports into the United Kingdom for the week were 4,400,000 bu, compared with like amounts for the week before and for a year ago. The English visible increased 882,000 bu for the week, against an increase of 872,000 bu a year ago. English farmers' deliveries this week, 408,000 bu, at an average price of 91¾c; last week, 368,000 bu, at 91¾c; year ago, 461 000 bu, at 80½c. The weather map showed good snows in most of the Winter Wheat States Deliveries on December contracts are increasing and contract stocks here are growing a little. Minneapolis reported the cash demand as dull and storage room as growing smaller. Receipts at Duluth 130 cars, at Minneapolis 646 cars, a total of 776 cars, against 654 cars yesterday, 727 cars a week ago, and 550 cars last year. Local receipts included 4 cars Winter, 9 cars Spring and 10 cars mixed, total of 23 cars, against 67 cars last year. Included in above was none contract grade. There were also 8 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 48 cars. The withdrawals were 25,550 bu. Receipts at Western points were 947,405 bu, against 981,793 bu last year. At Eastern points 139,198 bu, against 172,779 last year. Shipments from Western points 252,947 bu, against 207,227 last year, and from Eastern points 51,192 bu, against 260 851 bu last year. Shipments of Flour were 4,740 brls. Exports of Wheat in Flour were equal to 72,422 bu

Future Deliveries of Regular Wheat—Fair trade and market weaker.

DECEMBER—Sold at $1 07⅝@1 08¼. Opened unsettled with sales at $1 08¼ to $1 07⅝—prices varying in different parts of the pit; sold at $1 07⅝, to $1 07⅞, to $1 07½, to $1 07⅛, to $1 07½, to $1 08, to $1 07⅝, to $1 07¾, and closed at $1 07¾ sellers.

MAY—Sold at $1 10⅛@1 10¾ Opened at $1 10¾ to $1 10½; sold to $1 10¼@1 10⅜, to $1 10⅝, to $1 10¼, to $1 10½, to $1 10⅛, to $1 10⅜, to $1 10⅛, to $1 10¾, to $1 10⅜, to $1 10⅝, and closed at $1 10⅜ sellers.

JULY—Sold at 98½@99c Opened with sales at 98⅞c to 98⅝c; sold to 98¾c, to 98⅞c, to 98½c, to 99c, to 98¾c, to 99c, and closed at 98⅞@99c.

CORN—There were losses of ⅛@½c in this market. There was some reaction from the bottom prices reached, however, December showing the most strength at the close. Cash sales were 100,000 bu here and 10 loads at the seaboard. There was less doing in Corn than yesterday and the day before Neither the "shorts" nor the "longs" seemed to take a decided stand either way. Belated scattered "shorts" in December were fair buyers, but that month seemed to need support on all the dips. May and July had more sellers than buyers during the morning. The country was a fair seller of cash Corn against sales in the pit It is believed that a large amount of cash Corn has been sold for export and that shipment will be made as rapidly as the Corn comes forward. Liverpool reported a good spot demand with futures ¼@⅜d higher. The Continent was a buyer of cargoes off the English coast. Local receipts were 563 cars, with 24 cars contract; 112 cars and 8,000 bu were switched from unlicensed houses, showing that the dryers are at work There were 28,000 bu from store The Central Statistical Committee of Russia has issued its final estimates for 72 Governments, making the yield 25,950,000 bu, compared with 50,732 000 bu a year ago Car lots were in only fair demand and feeling weak Prices ½@1c lower No 2 sold at 46¾c and closed at 46¾@47¼c, according to location No 2 Yellow closed at 46¾@47¼c. No. 2 White sold at 47c No. 3 sold at 42¾c and closed at 42½c No 3 Yellow sold at 42¾@43c and closed at 42½c. No 3 White sold at 42¾c No 4 sold at 41¾@42½c

Corn by sample—Was in liberal supply and demand only moderate. Prices declined ½@1c Sales on track and free on board: No Grade sold at 37@40c. No 4 at 41½@42¾c No 3 at 42¾@43¼c. No. 3 Yellow at 42¾@43¼c. No 3 White at 42¾@43½c No 2 White at 46¾c Ears at 46½c Billed through: No Grade at 38@40¼c. No 4 at 40½@42c. No 3 at 41@42c No. 3 Yellow at 41@42¾c No. 2 at 46c No 3 White at 41½@42¼c

Future Deliveries of No. 2 Corn—Less doing and prices unchanged to ⅜@½c lower

DECEMBER—Sold at 46⅝@47½c. Opened at 47⅛c to 47c, sold to 47½c, to 47⅜c, to 47⅛c, to 47¼c, to 47⅜c, to 46⅝c, to 46¾c, to 46⅞c, to 47¼c, closing at 47⅛c.

JANUARY—Sold at 42⅞@43¼. Opened at 43¼c. sold to 42⅞c, where it closed.

MAY—Sold at 44⅜@45c. Opened at 45c to 44⅞@44⅞c, sold to 44⅞c, to 44¾c, to 44⅞c, to 44⅜c, to 44½c, closing at 44½c bid.

JULY—Sold at 44⅝@45c. Opened at 45c, sold to 44⅝c, and closed at 44¾c asked.

SEPTEMBER—Sold at 45⅛c.

OATS—Were weak and ⅛@⅜c lower early, but reacted and closed ⅛c lower. Heavy deliveries late Friday, 3,390,000 bu, widened the December discount to 2½c under May. Buying of December and selling of May by cash interests had the effect of reducing the difference to 2¼c. The "shorts" and commission houses bought on break. Deliveries to-day were 431,000 bu. Cash demand was fair, with sales of 100,000 bu Arrivals 81 cars, with 116 cars expected Monday. Withdrawals 11,625 bu, and seaboard clearances 8,240 bu. Car lots to go to store were steady to ⅛c lower. No. 3 White sold at 30¼c. Standard in store closed at 28½c.

Oats by sample were taken moderately and prices on good were steady, while poor were ¼c lower. Sales on track and free on board No. 4 White sold at 29@29¼c. No. 3 at 29½c. No. 3 White at 29¾@30¼c Standard at 30@31¼c. No. 2 White at 31c Billed through: No 3 White at 29¾@30¼c. Standard at 30½c. At the river: No. 4 White at 28@28¼c. No. 3 White at 28@29c Standard at 28¾@29¼c.

Future Deliveries of Contract Oats—Were weaker early and reacted.

DECEMBER—Sold at 28@28⅜c. Opened at 28c to 28⅛c; sold to 28⅜c, to 28¼c at close.

MAY—Sold at 30⅜@30⅝c. Opened at 30½c to 30⅝c; closed at 30½c.

JULY—Sold at 30⅜c and at 30½@30⅝c. Opened at 30½@30⅝c; sold to 30⅜c, closed at 30½c.

RYE—Was quiet and quotably steady. Very little interest in the market and nothing doing to-day outside of an occasional car load of fresh receipts There were six cars received and 1,000 bu withdrawn from public elevators. No exports from New York No. 2 in store nominally 7½c and fresh receipts free on board sold at 79c. No. 3 sold at 73½c at the river.

Future Deliveries of No. 2 Rye—Quiet. December nominally 75c and May nominally 78c—sellers at these prices at the close.

BARLEY—A moderate quantity of malting Barley was offered It consisted of common to good mainly, with some choice cars but no fancy. Several buyers were present So far as noticeable the Barley sold fairly well and steadiness was quotable. About the only change to-day was a shade weaker market for Screenings. Mixers would not pay quite up to former prices, owing probably to ample supply and Oats having been easy the last few days. Screenings unless choice also ruled dull. Little or no business in feed Barley; it was not on sale. Posted to-day 28 cars in. Sales were at 25@36½c for Screenings of poor to choice quality. Barley, low grade malting, sold at 39@40½c, fair to good at 41@44c, choice at 45@46c; fancy nominally above, but not offered

SEEDS—There was no business whatever done The market was without spot offerings of the different lines. No desire to do anything in a speculative way was shown

Timothy—Was entirely lifeless Nothing appeared on sale but some to arrive lots. The speculative market was neglected. Futures were not mentioned. Nothing developed to indicate any change from former prices. December remained nominally $2 70@2 72½, January at $2 75 and February at $2 80. March quotable at $2 85, probable salable at that. Country lots quotable at $1 75@2 70 for low grade to fancy; inferior lower; fair to good, $2 40@2 65, and rough, dirty or hulled, $2 20@2 35.

Flax—There was no business done. The market was entirely devoid of offerings. All that could be learned of the market was that it was unchanged Only 1 car or 500 bu received and none taken out. At Minneapolis there were receipts of 50 cars, at Duluth there were 121 cars. No. 1 Northwestern quotably salable at $1 24 bid, and No 1 cash about $1 16. Rejected quotable at $1 13@1 21 depending on quality December delivery salable $1 16 bid and nominally $1 25.

Clover—Was nominally steady; there was no Clover offered Contract grade quotable at $12 50 Country lots, common to choice, quotable at $7 00@12 25, very poor lower, and fancy above Fair to good, $9 75@11 50.

Other Seeds—Inactive and no change to quote. Hungarian was quotable at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05 Mustard about 75c@$1 00 Buckwheat, good milling, quotable $1 20@1 25.

HOG PRODUCTS—Not much life was manifested in the market for Hog Products, and the feeling was quiet and easy Outside orders were light, and local trading was on a moderate scale May delivery met with most favor, and prices ruled rather steady early, but declined toward the close Hogs were in fair supply and prices ruled slightly higher Good supply estimated for the coming week Receipts at the leading Western packing points were estimated at 58,300, compared with 64,400 one year ago. Foreign markets were quiet and prices unchanged. Domestic markets quiet Receipts of Products were good of Lard and Meats about 24 cars Shipments were moderate—of Lard and Meats about 102 cars Inquiry on shipping account was moderate, with no particular pressure to sell A few export orders were provided for. Offerings were not very large. Prices without material change, with moderate sales.

Mess Pork—Trade in Mess Pork was only moderate and the feeling was rather dull. Trading chiefly in May contracts. Offerings were moderate, and the demand was only fair. Prices ruled 10@12½c lower and the market closed quiet at inside figures Trading chiefly local. Shipping demand was light and offerings were moderate Cash lots were quotable at $11 25@11 50 for regular according to quality, with unpacked at 10@15c discount.

DECEMBER—Quiet and quotable at $11 25

JANUARY—In light request, with limited offerings Sales were made at $12 50@12 57½. Opened at $12 57½ sold to $12 50, and closed steady.

MAY—Offerings were fairly liberal, and the demand was moderate. Sales were made at $12 80@12 92½ Opened at $12 90 to $12 92½, sold to $12 87½, to $12 90, to $12 80, to $12 82½, to $12 80, and closed steady.

Lard—Only a limited business was transacted in the Lard market, and the feeling was comparatively easy. Trading chiefly in May Offerings were small, and demand was light Prices ruled rather steady, but declined 5@7½c during the latter part of the session, and the market closed rather steady. Foreign advices were unchanged Demand on shipping account was moderate, with light offerings Cash lots were quiet and quotable at about 5c discount on January figures, closing at about $6 80 Loose lots in moderate request, with fair offerings Prices were quotable at 20c discount on January figures Leaf Lard was in light demand with fair offerings. Prices quotably steady at $6 37½. Neutral in light demand, with only fair offerings Prices quotably steady at $7 50@7 62½ for No 1 and $7 12½@7 25 for No. 2

DECEMBER—Quiet and quotable at $6 80

JANUARY—In rather light demand, with moderate offerings Sales were made at $6 85@6 90. Opened at $6 90, sold to $6 85, and closed steady

MAY—Offerings were fair, and the demand was moderate Sales were made at $7 07½@7 15 Opened at $7 12½@7 15, sold to $7 07½, and closed steady.

Short Rib Sides—Only a moderate business was transacted in Short Rib Sides, and the feeling was comparatively easy Offerings were not very large and the demand was only fair. Trading chiefly in May, with prices about 5@7½c lower. Shipping demand was light, and offerings were moderate. Cash lots quotable at $6 37½@6 50 according to weight and age.

JANUARY—Quiet and steady, with small sales at $6 50@6 52½, and closed at $6 50.

MAY—Offerings were fair, and the demand was only moderate. Sales were made at $6 70@6 77½. Opened at $6 77½, sold to $6 75, to $6 75@6 77½, to $6 75, $6 77½, to $6 70@6 72½, to $6 72½, and closed steady.

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO FRIDAY EVENING, December 9, 1904

Bankers are coming for a stronger tone to the money market which is the subject of discussion in the East. There has been little change in Chicago for the past two months. The demand from the interior is light, and loans are inside of 6 per cent. A fair quantity of currency is moving to the country where Corn is coming from, mostly to Illinois, Iowa and Nebraska. More commercial paper is coming out and is being well received by the banks, but supply is being short of the demand. It brings 4 to 4½c, the latter for purer running six months. In New York rates were 3 to 4½ per cent in the Stock Exchange. Time money was steady at 3½ to 4½ per cent. Gold engagements existing, shipments for the week being $1 Sept 00. The circulation of the country has grown in the past decrease in months. The loss in Gold certificates was held to be due to Gold exports. That it is predicted, will slowly and sure y harden the money market.

New York exchange was 20@25c premium per $1,000, and closed at 25c.

Foreign exchange was in better supply, due to increased shipments of Cotton. Posted sixty-day commercial sterling bills on London ranged at 4.83½@4.84.

A good business was transacted in the mercantile paper, there being a satisfactory run of buying orders in practically all lines. The Iron and Steel trade offers excellent promise for a large tonnage in the near future, a liberal quality of which has already been booked. Prospects are much brighter than for several years. Prices are hardening, and there is much business in Steel rails held up in prices for the next season's delivery. The latter is expected to be 2,3.00, the same as for the past few years. Some time ago when values of other products were lowered, it was anticipated that Steel rails would be reduced. Now that advances have been made in other articles there is little prospect of the lowering of values. Pig Iron is 75c to $1 higher than 60 days ago. Most of the large consumers have covered their requirements as buyer prices, but there is still a large quantity to be placed. Some are coming in daily, offering to buy large lots for delivery prompt in prices which they think should come after the shall advance. There is a large tonnage in warehouses, and a firm market. Dry goods are having an increased demand for the season, resulting in much business of heavy goods by interior distributers. Prices in Cotton goods are easy, owing to the decline in raw Cotton. Holiday goods are having a large sale, which is reflected in the volume fully equal to recent years. Coke is scarce throughout the West. The Coal movement is heavy and the market has a stronger undertone. Stocks are rather in the hands of users to the extent in excess of those in 1902. They are beginning to fall off late, as is usual at this season, but are above the average. The movement of ore is satisfactory showing better than expected, owing to the slowness early in the season. Groceries and other lines were taken moderately.

Cotton in New York had a heavier undertone and prices yielded under steady ne by "longs." The Government crop report made the yield 12,- 000,000 bales. Texas buying orders were much larger than expected, and brought in general support. There were rallies on the decline, and a covering by "shorts" and to an effort on the part of the "bull" clique to advance the tone. Closing sales were at net declines of 7@8 84 points for the week.

Local securities averaged higher early in the week, but reacted with the break in Wall Street and the close was inactive lower. There was a reflection of the decline in Wall street which checked buying and caused liquidation in some issues. The company is making money and the officers say they see no reason for the change in the present condition. Elevated and railway shares were strongly handled. At the last there was a fair rally.

The New York Stock market suffered the most severe break of the season the past week. It resulted from an over-bought condition and a decline on the part of the largest interest that has been at the bottom of the advancing movement the past four months, and could no longer protect its holdings to get prices down to buy their stocks back. There was heavy liquidation for several days and enormous selling on stop-loss orders by commission houses. The last-named class of business depended upon their speculative traders for additional margins and this added to the selling by scared holders. Interest in the market has been active on the selling side for several weeks, the bears more aggressive and raided the market with telling effect giving it a semi-public appearance at times. The street was full of rumors of disaster and during serious developed. There has been a great rise in values of all stocks the past six months and the powers in control of the market were in favor of a decline. They were not averse to the idea that they were not averse to the action of the aggressive Bonts in interest in its raid on Amalgamated Copper and that the forced prices off of over 12 points, most of the loss being in two days. Had they cared to oppose that interest that has been openly against them for months, they might have taken their profits on the advance prices instead of permitting the market to go to pieces. Foreign is were good sellers early and bought later, and although the business and financial standing is in a good condition the fall in Wall Street has been carried to a point where a reaction might be forced at any time. That is the leaders had succeeded in getting the public out at the advance and gone out leaving them to hold the bag. Some importance was attached to the recommendations of the President giving the Interstate Commerce Commission broader powers to enforce its rulings. This, while used by the "bears" with good effect, was not considered seriously by the leaders of the railroad interests. They believe that it will never be enforced. Scenes were the wildest since May 9, 1901. Trading was on an enormous scale and the top notch of the season was reached on Tuesday, when 3,000,000 shares on Thursday. After the sharp breaks there were moderate rallies, but closing sales were at material losses for the week. Total sales on the New York Stock Exchange for the week were 10,641,900 shares, compared with 8,059,000 shares the previous week and 4,889,000 shares for the same time last year.

COMMERCIAL.

Business in commercial circles on the Chicago Board of Trade was considerably larger the past week, the volume of trade being much greater than was more marked, and trading on local account was of much greater volume. Fluctuations in the principal cereals were wider and offered greater opportunities for profit to speculatively inclined. Influenced to some extent by "frenzied finance" in Wall Street, the large professional speculations indulged in trading in larger quantities of Grain than usual and the wild advances and declines in prices led to the surmise that possibly Chicago was indulging in "frenzied commerce." Shipping operations were on a liberal scale, receipts of Grain being anxious to have their property at the seaboard prior to the closing of lake navigation.

The President's message was transmitted to Congress on Tuesday, and the most important recommendations was that the Inter-State Commerce law should be amended to give it power to put its rulings into effect immediately and be binding on the carriers. The paper currency question was asked to be investigated regarding the advisability of retiring the greenbacks, or whether more elasticity is consistent to safety. Upholding the Monroe doctrine was advocated as said not yet capable of self government. Legislation to encourage American investments on the island and re-adjustment of tariff rates of their exports into the United States.

Crop news from Europe was generally favorable the past week, while the advices from Australia were distinctly bearish. Cables received this week were conflicting. Cables received this week reported rust appearing in parts of Argentina and that the quality of the new crop is expected to be inferior. Other advices have placed the export surplus at 95 000,000 bu. Late advices indicated fine weather for all crops. Reports from United Kingdom, Germany, France, Austria-Hungary and Bulgaria stated the weather continued favorable. The crops in Spain and France have made a poor start, and in Italy the weather is said to be toodry. Conditions in Russia are favorable, and more moisture is generally needed. Some complaints of Hessian fly have prevailed, but no serious damage reported. Corn is drying out favorably in Roumania, though it is late in maturing, though at current prices farmers may be induced to crib larger quantities than usual. Inspection returns show some improvement in the grading.

The movement of Grain to market during the past week was fairly large. Wheat was marketed freely in the Northwest and in Canada, and in the Gulf countries, but Russian offers were small. Private advices indicate that farmers in the Middle States are disposed to sell Grain with a little more freedom. There is generally a little more selling of farm products with considerable freedom, and as producers need a little "holiday money." Arrivals of Corn were quite free. Oats and Barley were marketed with considerable freedom. And Wheat and Rye in moderate quantities. Export room was engaged for fair quantities of Corn at Two to Buffalo. Fair quantities of Flour and Grain are arriving at the Gulf ports from the interior, and moderate quantities at the Gulf. Receipts on the Pacific Coast were not very large, and the shipping movement only fair. Exports from the Atlantic seaboard were very small of Flour and Wheat and fairly liberal of Corn.

More interest than usual was manifested in a speculative way in the leading Grain markets, especially the latter part of the week, and the activity prevailed in Provisions. Outsiders traded in fair quantities, but the bulk of the business was confined to professional operators, clerks, interests and so packers. "Longs" apparently were in control of the situation early in the week, but later there was considerable realizing all around, and prices declined sharply. "Shorts" accepted fair quantities on the receding scale. The course of the Grain markets was influenced to some extent by the Argentine crop reports, the unsettled feeling in Wall Street, favorable fall weather for curing Corn, and the general miscellaneous movement of Grain to market. Market for Hog Products was influenced mainly by the free movement of Hogs to market, resulting in a decline in prices, and the rather easy feeling abroad. Prices declined sharply all around. Packing of the West for the week was reported at 25,000 Hogs, compared with 610,000 for the corresponding week in 1903. Aggregate returns for the season are about 500,000 Hogs in excess of last winter season's total.

A fair trade was reported in the market for cash Grain during the week just closed. Offerings were rather liberal of Corn, moderate of Oats and Barley, and comparatively light of Wheat and Rye. Corn ruled rather easy under the pressure to sell, and prices ruled somewhat lower. Other Grains exhibited only slight changes. Only fair demand for cargo lots, as to-day's sales will show has been about closed. Seeds were inclined to quietness, with little change to note in prices. Hay sold rather slowly, and the undertone to the market was rather easy. Hog Products ruled steady for good shipping demand in a quiet way, and the feeling was rather easy. Offerings were moderate. Sales were moderately large, but details were not made public. Interior packers were fair sellers. Prices for most descriptions inclined in favor of buyers. Receipts were larger than usual. Hogs were in general supply, and prices ruled lower on all grades. Supply of Cattle was fairly liberal, with prices well supported on the better grades. Other qualities were a little slow, with prices favoring buyers. Sheep in fair supply, and prices for all qualities were well maintained.

FREIGHTS—Rail rates to the Atlantic Seaboard advanced 2@c on domestic and 1@c on export. During Dec. 1 there is a lower Tariff of transit out that will last 30 days. The new tariff is as follows:

To—	From Chicago. Domestic.	From Miss. River. Export.	Domestic.	Export.
Boston	22½	25	25	17½
New York	22	25	24½	17½
Philadelphia	21	24	24	16½
Baltimore	17	19½	20	16
Newport News	17	19½	20	16

Flour rates are 20c domestic and 16½c for export. Provisions are 30c per 100 lbs. Chicago to New York.

Rail rates at and east of Buffalo to New York are 5c per bu on Wheat, 4c on Corn, 3c on Oats and 3½c on Barley.

Ocean rates on Grain are higher, and good engagements have been made for Corn for loading the next two months for United Kingdom and Continental ports. Rates on Grain are 1½d per bu from New York and Philadelphia. The through rate on Wheat from Chicago to Liverpool is 12.90c per bu, and Corn is 12.30c. Flour 24.4ic per 100 lbs and Provisions 35½c per 100 lbs.

The Lake season is closed. The last charter was at 2½c for Corn to Buffalo.

FLOUR—While the prices at Chicago have been marked up 10@30c, and the inquiry is much better, the sales have been only moderate, and not a marked improvement. Local stocks of Flour are not large, but they are ample for the moment. The principal manufacturers are taking hold a little more freely, however, in the way of filling them over the holidays. The average miller and receiver are looking for a better market after Jan. 1. New York State was the largest buyer of Flour at Chicago last week. New England took a few lots, but they were generally small. A few thousand sacks of Flour were reported to go abroad, but generally speaking from the seaboard prices were 40@50c per bri out of line. Stocks in the East are reported as rather liberal, and outside of the New York State demand that section has been only fairly active. Shipping directions on old purchases came in more freely. Consignments at Chicago were small. The local mills were running on part time only, although the outlook is for more activity from now on. Minneapolis reported a fair business for the season. St. Louis reported a good business in Flour both on domestic and export account, with prices better all around. Northwestern output for the week was 247,000 brls, Southwestern 260 brls the previous week, and 481,000 brls a year ago. Prices ranged during the week as follows:

MILLSTUFFS—Ruled dull and easier during the past week. The receipts of Bran have been larger and the demand has been light, necessitating a reduction in order to make sales. Prices in sacks, sacks included, sold at $17 25 down to $17 00 @17 25.

WINTER WHEAT—The market has been rather quiet during the past week, and prices reacted in sympathy with futures. There was an advance of about 1@2c and part of this improvement was lost during the week. Buyers have been rather slow to be all anxious to purchase. Millers made moderate purchases, taking such quantities as they needed, but were not at all inclined to stock up to any extent. Shipping inquiry was fairly active, orders were filled and the transactions included occasional round lots of the various grades in both regular and private warehouses. The receipts were liberal, and, owing to the heavy run of fresh arrivals, prices for which most of the week have been little better than nominal. The stock of No. 2 Red Winter was 1,000,000 bu, a year ago was 429,000 bu. For the week receipts were 1,000,000, against 162 cars the previous week. There were withdrawn from public elevators 90,000 bu, and 1,000,000 bu was consigned to store. Sales of No. 2 Red in store was quotable at May price to 3c over, depending on the quality and location—special lots bringing top prices, making a range of $1 10@$1 13. No. 3 Red sold at $1 09@$1 10½. Fresh arrivals free on board were nominally $1 10@$1 17c. No. 3 Red fresh arrivals free on board were quotable $1 06@$1 15. No. 1 Red sold at 99@97c for fair, and $1 00@ for choice. No. 2 Hard in store quotably about 1½@2c under December, and fresh arrivals free on board nominally $1 06@$1 15. No. 3 Hard fresh arrivals free on board were quotable at $1 00@$1 11.

SPRING WHEAT—There has not been much business transacted in this market during the past week. What little trading there was, was confined to the few cars of fresh arrivals, and comprised No. 3 Spring and generally ordinary and poor No. 2. So little business done that it has been really difficult to establish a market and quotations have been almost nominal, particularly so for the higher grades. The small receipts reported at the Atlantic Seaboard would indicate that was a demand for it, but poor Wheat was dull. The receipts for the week, including Colorado Wheat, were 1.2 cars, against 123 cars the previous week. There were withdrawn from public elevators 3,650 bu and from private warehouses 13 cars, No 1 Northern fresh receipts free on board ranged at $1 10@$1 20, to $1 19@1 22, and back to $1 16@1 20. No. 2 Northern fresh arrivals sold at $1 13 and ranged at $1 09@1 16. No. 3 Spring sold at $1 06@ 1 13, and No. 1 sold at $1 16@1 18 for choice and 1½c common to very choice hard variety. No. 4 Spring sold at 85c for very poor, at 95@95c for common to fair and at $1 00@1 03 for choice.

RYE—The Cash Rye Wheat market was quite active, with the trade broad and fluctuations wide the past week. Feeling was nervous and greatly excited at times. Receipts were largely increased by May on liberal miscellaneous buying, and then declined sharply on the sale of very large quantities by professional speculators—about 4½@4¾c. Closing prices were 2½@2¾c lower than a week ago, prices ruled 2½@2¾c. Closing prices were about 3c lower for December, while the May gained by 6¾c, and July declined 4c. The situation the first of the week was decidedly "bullish," and higher prices were established, December touching $1 11¾, while May sold to $1 14 and July to $1 01. The more moderate receipts, adverse crop news from Argentina, reported shipping sales of Rye in Atlantic Flour trade, and lack of moisture in important sections of the Winter Wheat belt all combined to create a feeling of uneasiness among "shorts." Then the bulls got control, secure in the position, and "shorts" bought freely on the rise. The "bullish" attitude of many large interests in the Northwest also helped materially to the situation. The Australian crop was reported as damaged by drouth, and rust was reported in Argentina. Rust stories in the Argentine Republic helped the "bull" influences, the following statement being a fair sample The Argentine Minister of Agriculture has just reported the final figures of the crop of 1903-04 as 265,000,000 bu, as follows:

Buenos Aires	3,400,000
Santa Fe	3,097,118
Cordova	28,607,000
Entre Rios	821,70;
Pampa territory	96,104
Other districts	1,000,000

The total area last crop was 9,278,178 acres, and yield as above. This year the estimated acreage is 11,000,000. The average yield last year was about 28 bu per acre. The crop is reported in districts of rust, some private cables suggesting 10 bu. On this basis the yield would be about 110,000,000 bu, or 14,000,000 bu less than last year. The surplus remains 50,000,000 bu of its crop and exports the balance, which, without serious rust damage, would give about 80,000,000 bu for export on the new crop. On the same season's crop the exports to date are somewhat behind about 45,000,000 bu. The situation in Argentina is critical, therefore. We have no information as yet as to whether the situation has changed for the better during the past week, except that three consecutive cables from San Cristobal in the extreme north of Santa Fe, where rust was discovered by our representative from Rosario, report freedom from rust, and other cables as Villa Casilda, near Rosario, all say: Wheat rusting badly, quality poor. The latter point is 125 miles north of Buenos Ayres and indicate that the rust has not spread southward as it did last year. In Argentina the order of the crop maturity is north to south, the reverse of the order in this country. Following cable also received. A direct cable from Rosario, dated December 3, has been received: "Weather threatening. Opinions as to exportable surplus are varying on account of light weight. General opinion is that exportable surplus will be 3½ million tons—95,000,000 bu."

Montreal wired: Our Liverpool correspondents who have Argentina connections cable, "Argentina crop harvesting commenced, rust reported, yield not stated."

Another cable from *Bromhall* read: "Our agent has cabled that rust had caused slight damage in Provinces of Cordoba and Santa Fe, and that prospects were otherwise good, not generally bad. Harvest imperilled by rains and yield in consequence are expected to be light. Prospects in the Provinces of Entre Rios and Buenos Aires are reported to be good." Of course, fine weather was reported in Argentina, and this feature encouraged realizing, and assisted in weakening the market. The increase of 14,700,00 bu in the Russian crop, as per the Department of Agriculture at Washington, by December 1, will be 3½ million tons—95,000,000 bu."

The seaboard reported moderate sales for export and export, and clearances were small, 1,000,000 bu going to the United Kingdom last week, and 156,000 bu last year. In the interior the movement was light. Country elevators are fairly stocked and are not selling to any extent. Offerings from farmers were small and "shorts" to take profits. Arrivals for the week were 538 cars, against 613 cars the previous week, and 1 142 cars a year ago. The visible supply increased 1,000,000 bu and is 21,497,000 bu, against 8,116,000 bu last year, and local stocks in all positions increased 49,000 bu being 9 484,000 bu. Contract stocks were unchanged at 8,258,000 bu.

RYE—Not much business was transacted in the Rye market during the past week. A dull feeling existed, and trading was confined to the few cars of fresh arrivals and an occasional trade in futures. The December contracts were evidently provided for and were neglected, while none of the other deals made were of any consequence. Little interest shown in the market. For the fresh arrivals there has been a little more demand and they were salable to millers and especially to those who had orders to fill. Some business done in round lots of cash. The receipts for the week were 22 cars, against 20 cars previous week. There were withdrawn from public elevators none and from private warehouses 10 cars. The visible supply increased 148,000 bu, and was reported at 2,018,000 bu, against 1,239,000 bu a week ago. Local stocks in all positions 2,018,000 bu, against a year ago was 966,000 bu. No 2 in store was nominally 74@75c, and fresh arrivals free on board sold 76@76c and at the river at 75c. No. 3 Rye in store was quite scarce and sold at 73c. Rye graded a bag of sold at 77c and a car at 66c. Future deliveries of No. 2 Rye were very little doing. December was the only one sold later at 75c; May sold at 78@78½c.

BARLEY—The cheaper malting grades were favored with a steady to firm market, while the higher grades were slow and easy. For the latter millers complained that they had to take concessions, and yet the occasional sales seemed to be at about previous prices. Very few cared to accept the former qualities. Maltsters reported a slow trade for the higher grades of malt, and when they wanted a fine article they could sometimes clean up cars that had nice color, but otherwise offered little interest. Later less Barley was received and in about the ratio that the supply decreased so the demand also fell off. Little coming in round lots to arrive. Last week fair sales were

Argentine shipped 2,8.000 bu the past week, 91,117,000 bu since January 1, compared with 61,- 000 bu for the same period in 1901. The world's supply there was reported 1,472,000 bu, against 31,000 bu last week and 797,000 bu a year ago.

CORN—The Corn market attracted a great deal of attention the past week and the feeling manifested was weaker. Closing prices show it to be 2½@2¾c lower, while May has declined 1½@1¾c and the July 1½@1¾c. The large receipts, fine weather and declines abroad were among the "bear" factors the opening days, and considerable pressure to sell was on their part. Still the market on opening days was a little one-sided. The spirit of the "long" interest was of the indifferent sort, but around 44¼c for May and 44¼c for July, investment buying was in evidence, and the "shorts" were inclined to secure profits, which resulted in a moderate recovery. May advancing to 45c and July to 45@45¼c. The Ohio State report made the yield 300,000,000 bu, and that Illinois 300,000,000 bu and the Missouri report made the crop 178,000,000 bu, compared with 304,000,00 bu one year ago. Weather conditions most of the week were ideal for curing and handling the crop, and the quality of the receipts was improved. Shipping operations were on a larger scale the past week, exporters and foreigners taking hold with more freedom at the prices. Considerable Corn was taken by the Gulf and rail, and a fair business was closed via the Gulf. Routine statistics received but casual consideration. The world's shipments were 7,375,000 bu, against 832,000 bu decrease for same week in 1903. They now reported 3,181,000 bu, against 5,584,000 bu in 1903, and 3,885,000 bu in 1902. Local public stocks decreased 1,- 000,000 bu, and are now reported 30,607,000 bu, against 31,607,000 bu in 1903. Local stocks in all positions were reported 1,232 0 0 bu a decrease of 230,000 bu. Stock one year ago *Bradstreet's* available supply increased 855,000 bu, compared with 182,000 bu increase same week in 1903. World's shipments were 3,181,000 bu, compared with 7,227,- 000 bu week previous and 3,940,000 bu one year ago. Quantity on ocean passage decreased 968,0.0 bu, and is now 18,871,000 bu, against 15,617,000 bu year ago. Weather and crop advices indicated that the crop this year would be a large one. Shipments this week were liberal at 1 928,000 bu. Total shipments since Jan. 1 foot up 93,111,000 bu, against 74,895,000 bu in 1903. The visible there is now reported 20,- 000 bu, compared with 9,231,0.0 bu last week, and 2,680 000 bu one year ago. Receipts here this week were 3,229 cars, against 2,624 cars last week and 1,- 915 cars one year ago. Weather and crop advices were liberal. Exports this week were moderate at 277,000 bu, and since July 1 aggregate 11,900,000 bu, compared with 25,921,000 bu for same period in 1903. Receipts at the East this week were fair, the quality of the new crop being such that exporters were not afraid to handle the same. Car lots were in large supply and in fair demand for shipment to the seaboard, as can be noted in the tables on the opposite page.

OATS—The market for Oats was weaker and prices declined nearly to the lowest points of the season. At the present level there is a heavy loss for the majority of the Oats held. There was moderate liquidation by "longs" and some decided "bearish" influences in the trade, which made several demonstrations against prices, without forcing them off very much. The close was nearly the low point at 28¾c for December, 30¾c for May and 30¾c for July, a decline of ¾@¾c from that of the previous week. There was very little new to be said about the condition of the trade. From a cash standpoint business was very fair, the shippers taking the offerings somewhat and prices in the sample market declined 1@1½c. The seaboard reported moderate sales for consumption and export, and clearances were small, 100,000 bu going to the United Kingdom last week, and 156,000 bu last year. In the interior the movement was light. Country elevators are fairly stocked and are not selling to any extent. Offerings from farmers were small and "shorts" to take profits. Arrivals for the week were 538 cars, against 613 cars the previous week, and 1 142 cars a year ago. The visible supply increased 1,000,000 bu and is 21,497,000 bu, against 8,116,000 bu last year, and local stocks in all positions increased 49,000 bu being 9 484,000 bu. Contract stocks were unchanged at 8,258,000 bu.

RYE—Not much business was transacted in the Rye market during the past week. A dull feeling existed, and trading was confined to the few cars of fresh arrivals and an occasional trade in futures. The December contracts were evidently provided for and were neglected, while none of the other deals made were of any consequence. Little interest shown in the market. For the fresh arrivals there has been a little more demand and they were salable to millers and especially to those who had orders to fill. Some business done in round lots of cash. The receipts for the week were 22 cars, against 20 cars previous week. There were withdrawn from public elevators none and from private warehouses 10 cars. The visible supply increased 148,000 bu, and was reported at 2,018,000 bu, against 1,239,000 bu a week ago. Local stocks in all positions 2,018,000 bu, against a year ago was 966,000 bu. No 2 in store was nominally 74@75c, and fresh arrivals free on board sold 76@76c and at the river at 75c. No. 3 Rye in store was quite scarce and sold at 73c. Rye graded a bag of sold at 77c and a car at 66c. Future deliveries of No. 2 Rye were very little doing. December was the only one sold later at 75c; May sold at 78@78½c.

BARLEY—The cheaper malting grades were favored with a steady to firm market, while the higher grades were slow and easy. For the latter millers complained that they had to take concessions, and yet the occasional sales seemed to be at about previous prices. Very few cared to accept the former qualities. Maltsters reported a slow trade for the higher grades of malt, and when they wanted a fine article they could sometimes clean up cars that had nice color, but otherwise offered little interest. Later less Barley was received and in about the ratio that the supply decreased so the demand also fell off. Little coming in round lots to arrive. Last week fair sales were

made; the past week very few. Business was mainly in malting grades; nothing to speak of was done in feed Barley, it having practically disappeared. Screenings had to be sold about 1c cheaper for the best owing to higher freight, and while choice were moderate sale; common, thin, and Seedy lots were very dull. Exports have been fair from New York though not so large as the two preceding weeks. There were inspected in ?? cars, compared with 302 cars the previous week and 179 cars two weeks ago. No output reported. From New York there were exported 289,322 bu, the week before they were 337,792 bu and two weeks ago 566,000 bu. In the visible supply there was 488,000 bu increase and 6,526,000 bu were reported; the same time last year the visible was ??,000 bu. No change occurred in local stock which remained at 11,714 bu. compared with 228,-??? bu a year ago. Prices during the week covered a range as follows: Sales of Screenings were at 25@37c for poor to choice. Feed Barley not much better than nominal and quotable at 38c local and at 39@38½c river billed. Malting, low grade, small berry, or heavy but dirty, 39@41c; clean, fair to good, at 42@43c, and large berry, heavy, good color, quotable at 45@46c, with choice at 49c; extra fancy in a limited way sold up to 51c, but would not bring that at the close.

SEEDS—So far as concerns Grass Seeds, they were steady during the week. In Timothy a fair business was done in cash and futures, and there was an interest taken in the market. Other lines, mainly on account of an absence of offerings, were neglected and inactive. The Flax market was quiet and there was a little lower average of prices until at the close when there was a small improvement.

Timothy—From all accounts the outside demand for Timothy the past week was small. The output was evidence of this, it remaining less than last year. Prompted by the order demand dealers were not obliged to buy much cash Seed. There was, however, another field open to them. A good demand existed for March delivery, and about 40 cars were sold This kept dealers on the market for country lots which they could work up into the contract grade. There evidently was some inducement to do so, for every now and then some good blocks would come on sale. Buyers at the same time were there when the offerings came and the bids would continue for more. There was a speculative fire a burning that was certain. At one time samples of 40 cars came on the market to be arbitrated as prime and about half passed. More or less Seed was delivered on previous sales, and there were good current arrival offerings, all evidently that buyers cared for, and on the cash market the feeling was not so strong as in the speculative market. Prices did not fluctuate any to speak of considering the volume of business done and the degree of interest shown; the closing was quiet. December or spot, contract Seed, was quoted as nominally $2 70@2 72½ and January in the same way at $2 72½@2 75. March opened at $2 87½, sold to $2 85 and ruled steady to firm at the latter figure. For country lots there was a range of $1 75@2 75 for poor to fancy; small lots of inferior sold even lower. Very seldom was any Seed choice enough to bring over $2 55@2 60; fair to good lots sold mainly at $2 40@2 55, and rough lots at $2 20@2 35.

Flax—There were small fluctuations in prices, none important, and it cannot be said that the market here showed any decided tendency. Little business was done. Futures early, under some desire to sell, ruled easy and sustained 2@3c decline in prices. Cash also went down to the same extent. There was subsequently a reaction; in some instances it was complete and in others partial. Advices sometimes indicated activity and important changes elsewhere, but no effect from this was felt here. No. 1 cash was nominally $1 13@1 16; opened at $1 15, and closed at $1 16. No. 1 Northwestern was steady at $1 22½@1 24, with a very few cars sold. Rejected was quotably about 3c under the grade above. December, from $1 15 bid, changed to $1 13 sales, then $1 16 bid, and closed at $1 16. May, opening at $1 26, sold at $1 24, was offered at $1 23, and closed at $1 24. Movement during the week was 27 cars and 200,000 bu by lake received, against 26 cars and 90,000 bu by lake the week before and 6 cars two weeks ago. There were taken out 3,595 bu, the previous week 3,696 bu, and two weeks ago 9,285 bu. In last local stock report there was no change—it was given as 16,847 bu; a year ago it was 89,757 bu. Duluth decreased 1,0 1,093 bu, a large reduction, and still 6,438,296 bu remained. Minneapolis changed but little, decreasing 10 bu, and 1,379,600 bu reported there.

Clover—A steady to firm feeling prevailed in the Clover market. The advance of a week ago was maintained. A little more Clover was shown to have been received. On the regular market the offerings have continued very small. Evidently the order business was restricted, judging from the small output; what may have been done for later delivery, however, is not known, During the week prices did not change any and were quoted over a range as follows: Contract grade at $12 50. Country lots, common to choice, quotable at $7 00@12 25; very poor lower, and fancy above. Fair to good, $9 75@11 50.

Other Seeds—Have ruled quiet. Few consignments appeared on sale. The movement both ways was smaller than it has been and smaller than last year. A firm market was quoted. Broom Corn Millet and Early Fortune Millet were both quoted a shade higher, with no reason in particular given for the advance. Quotations appearing during the week will be found in the table elsewhere given, and movement for the week was as follows:

Receipts the past week, lbs.	193,700
A week ago	522,084
Two weeks ago	129,900
Same time last year	516,856
Shipments the past week, lbs.	138,542

Buckwheat—Was quoted as quiet, demand tame and tone of the market a little heavy, but no change especially was noted; good milling was quoted during the week at $1 20@1 25.

HAY—The receipts for the week were 6,572 tons, against 6,230 tons for the previous week. Shipments for the week were 62 tons, against 284 tons for the previous week. The offerings of Timothy Hay were liberal and only a moderate demand existed during the past week. Local dealers were taken hold rather sparingly and there was no shipping inquiry. The feeling was weak and prices declined 50c per ton. The market for Prairie Hay ruled dull. Only a light demand existed and the offerings were large Receivers experienced considerable difficulty in disposing of consignments, especially the low grades. Quotations at the close ranged as follows: Choice Timothy, $12 00@12 50; No. 1 Timothy $11 00@11 50; No. 2 Timothy, $9 50@10 50; No. 3 Timothy, $8 00@9 00; Choice Prairie, $10 50@11 00; No. 1 Prairie, $9 50@10 00; No. 2 Prairie, $8 00@9 00; No. 3 Prairie $6 00@7 00; No. 4 Prairie, $5 50@6 00. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $8 00@13 00 for poor to choice Timothy, $8 00 for Mixed Hay, and $7 00@10 50 for Iowa, Nebraska and Kansas Prairie Hay. Rye Straw sold at $9 00@10 00. Wheat Straw at $7 00, and Oat Straw at $7 00@7 25.

COOPERAGE—Trade was fairly active in the market for Cooperage during the past week, and the undertone to the market was rather firm. Local packers accepted fair quantities, and the orders from outside packers were somewhat larger. Offerings were fair, and sellers rather firm in their views, owing to the free marketing of Hogs. Ash Pork Barrels were in good request, with fair offerings, and prices ruled steady at $1 10@1 12½. Oak Pork Barrels were called for moderately, and prices were well maintained, closing at $1 17½@1 20. Lard Tierces were in good demand and rather firm at $1 40@1 45. Iron bound Lard Tierces were quiet and slow sale at $1 20@1 22½ for six hoop and $1 27½@1 30 for eight hoop. Oleo Tierces were quiet and steady at $1 27½@1 30.

HOGS—The receipts of Hogs were quite liberal during the week just closed,—rather larger than generally anticipated. The quality was quite good for the season of the year. Market was rather active through packers and shippers exercised rather more caution than usual, and the undertone to the market was comparatively easy. Shippers were a little backward, and orders from the East were moderate, as the colder weather is increasing the offerings in that quarter. Prices inclined in favor of buyers, and declined 10@15c on the whole range, and closed rather steady. Sales during the week were made at $4 05@4 62½ for light, $4 15@4 50 for rough packing, $4 25@4 70 for mixed, and $4 25@4 75 for heavy packing and shipping lots, with the bulk of the trading within the range of $4 30@4 75 for fair to good averages. At the close about 6,000 Hogs remained in the pens unsold. Pigs were in fair supply, and in rather good demand, and sales were made at $3 60@4 30, according to size and condition. Supply of Hogs at other large Western packing points was liberal, and the quality rather good.

PACKING—An active business was reported in packing circles during the past week. Hogs were in liberal supply and prices lower, and this encouraged packers to purchase and manufacture Products rather freely. Production extended to all the various cuts. Mess Pork made in moderate quantities. Other cuts of Pork were made rather freely. Lard produced quite liberally, and the average yield was good. Bulk of the Lard placed in tierces. Domestic cuts of Hams made quite freely, and only a small proportion sold from the block. Skinned Hams made in liberal quantities and the bulk packed by manufacturers. Foreign cuts of Hams made sparingly. Shoulders made in moderate quantities, with a fair proportion sold to the retail trade. Picnic Hams cut rather freely and the bulk cured by manufacturers. Long Clear Sides made very sparingly. Extra Long Clear Sides neglected. Short Clear Sides made in moderate quantities. Extra Short Clear Sides made in fair quantities. Short Rib Sides cut rather more freely to provide for outstanding contracts. Extra Short Rib Sides made in fair quantities. Rough Sides were made rather freely, and mainly of light and medium averages. Backs made in moderate quantities Bellies cut in only fair quantities Loins cut liberally for the retail and fresh Meats trade. Foreign fancy and special cuts of Meats made in limited quantities.

PROVISIONS—Quite a good speculative business was transacted in Hog Products during the week just closed, and the feeling was considerably unsettled, and prices fluctuated frequently. Outside orders were fair, but for not very large quantities, while local operators and packers traded with considerable freedom. The general surroundings of the trade were favorable to the "short" side of the market, and the result of the week's trading was a marked decline in prices. The receipts of Hogs at all the leading Western packing points were unusually heavy, and prices ruled lower, and this feature encouraged considerable selling, especially of the longer deliveries. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited an increase of 165,000 Hogs The increase since the opening is about 500,000 Hogs. Stocks of all kinds of Products are gradually enlarging, especially of the speculative articles. Foreign markets were inclined to quietness, and a weak feeling prevailed, accompanied with a marked decline in prices for the principal descriptions. Domestic markets were rather quiet and slow. The receipts of Products from the interior were unusually large—about 243 cars for the week—indicating that packers are willing to dispose of their Products at current prices. Shipments were moderately free, and included fair quantities accepted on December contracts, and were widely distributed. The reduction in prices of Corn had a little influence on the "short" side of the market. Bulk of the speculative trading was in January and May contracts, with the latter gaining in favor as delivery day approaches. Only scattering trades in near futures. Prices irregularly declined under the general pressure to sell, though rallied slightly from the inside figures reached, and the market closed comparatively steady. In the shipping branch of the trade, there was a fairly good business transacted in a quiet way. The demand was rather good, but the offerings were only fair Products suitable for shipment of desirable averages are in limited supply. Exporters were backward about purchasing in view of the easiness abroad and the approach of the holiday season. Merchants in the domestic trade were moderate buyers of small quantities for immediate use, and of fair quantities for delivery during the next eight months. Packers rather slow to offer the latter Prices rather inclined in favor of buyers, though the reductions were comparatively small.

Pork—Considerable interest was manifested in the market for Mess Pork during the past week, and the volume of business was quite large. Offerings in a general way were moderately free, while the demand was only fair, and mainly from parties who were willing to accept moderate profits. Stock on hand gradually enlarging. Manufacture rather light. Outside speculative orders were moderate. Local trading fair. Prices were on a declining scale, throughout the week—in the aggregate about 52½@57½c. Toward the close a little more steadiness was manifested, and prices rallied 17½@20c, and the market closed comparatively steady. The demand on shipping account was moderate, and not very large. At and close, cash lots were quotable at $11 37½@11 50 for regular according to quantity, with repacked at 10@15c discount. Other cuts of Pork were in moderate request, with fair offerings, and prices ruled slightly lower on all descriptions.

Lard—Speculative trading was moderately active in the market for Lard, and the undertone was rather easy. Operators, however, were a little cautious in their operations, and the decline in prices was gradual. Trade almost exclusively in January and May deliveries, though July met with a little favor at times. Foreign advices were rather unfavorable to holders. Supplies are gradually enlarging, and the production was liberal, Packers rather favored the selling side of the market. Prices ruled irregular, and on the whole range declined 17½@22½c. Toward the close, a little more steadiness was manifested, and prices rallied 7½@10c, and the market closed rather steady. A fair business was reported in transferring contracts from January to May. "Shorts" accepted fair quantities on the receding scale. Demand on shipping account continued moderate and offerings were light. A few lots were accepted by exporters. Prices generally ranged at about 5c discount on January figures. Refined was in light request for export, but prices were not made public. Loose lots were in rather good request, and the offerings were fair. Holders not so firm in their views. Prices were quotably steady at 50c discount on January figures. Leaf Lard in fair demand, and offerings were larger. Moderate trades were made at $6 37½@6 62½, and closed at $6 37½. Neutral was called for sparingly, and there was a little pressure to sell. Feeling was rather easy and prices were lower, closing at $7 50@7 62½ for No. 1 and $7 12½@7 25 for No. 2.

Short Rib Sides—A fairly good trade was reported in Short Rib Sides during the past week, and the feeling was somewhat unsettled, and fluctuations in prices were frequent. Trading chiefly in January and May deliveries, with occasional trades in July. Supplies on hand are gradually enlarging—estimated at about 33 per cent since December 1. Manufacture fairly liberal. Packers sold fair quantities. Undertone to the market was rather easy. "Shorts" bought moderately. Prices on the whole range declined 17½@20c. Toward the close a little more steadiness was manifested, and prices rallied 7½@10c, and the market closed comparatively steady. Demand on shipping account was moderate, and offerings were rather light. Light and medium averages rather scarce. Prices declined materially. Cash lots at the close were quotable at $6 37½@6 50 according to weight and age.

Green Meats—Only a moderate business was transacted in Green Meats during the past week, and there were no particular changes to note. Packers, as a rule, were not inclined to sell, and rather slow to grant concessions Local curers were not inclined to purchase, and orders from outside parties were somewhat limited. Interior packers sold moderately. Hams were in only moderate request and prices ruled steady Skinned Hams were in fair request and prices ruled rather steady. Some sales were made for future delivery. Shoulders were in rather light demand at about former figures Picnic Hams were in moderate request, and prices were without material change. Bellies were in small demand and prices ruled steady

Pickled Meats—Little interest was manifested in Pickled Meats during the past week—at least, very little was made public Holders, as a rule, were not very anxious sellers, and generally unwilling to grant concessions in prices. Offerings for future delivery were quite small. Foreign markets were rather easy, and the orders from that quarter were light. Domestic markets were quiet, with merchants buying considerable quantities. Stocks of all kinds are gradually increasing. Buyers a little slow to meet the views of sellers. Hams were called for in limited quantities and prices ruled easier. Skinned Hams were in moderate request, and prices well maintained for desirable averages. Some sales were made for future delivery. Shoulders were in moderate demand and prices ruled steady. Picnic Hams were in fair request in a quiet way, and prices were without material change. Bellies were called for sparingly and prices comparatively steady.

Dry Salted Meats—Trade in Dry Salted Meats was on a moderate scale during the past week, and the undertone to the market was comparatively steady. Offerings were not very large, and the bulk of partly cured lots. Demand was fair in a quiet way, but buyers were a little slow to meet the views of sellers. Supplies of all kinds moderate. Foreign markets were inclined to quietness, and prices ruled lower on most descriptions. Domestic markets were rather slow, and will probably remain so until after the holidays. Merchants not disposed to purchase to any extent. Long Cut Hams were quiet, and prices ruled slightly lower. Shoulders were in small request for the domestic trade, and a few orders for export were accepted. Prices were without material change. Long Clear Sides were inactive, and prices entirely nominal. Extra Long Clear Sides were in limited request, and prices rather inclined in favor of buyers. Short Clear Sides in light demand, and prices ½c lower. Extra Short Clear Sides were called for sparingly, with limited offerings and prices ruled lower—closing at $6 4?@6 45. Extra Short Rib Sides were in moderate demand in a quiet way, and offerings were not very large Prices ruled lower—closing at $6 35@6 40 Rough Sides were in fairly good demand, but offerings were not very large. Prices ruled lower—closing at $6 25@6 50, according to weight and age. Plates were called for moderately and prices favored buyers. Butts quiet and rather slow sale Backs were quiet, and prices slightly lower. Bellies in small request, and prices favored buyers. Foreign fancy and special cuts of Meats were quiet and prices unchanged.

Smoked Meats—The trade in Smoked Meats during the past week was moderate, owing to the seasonable weather, and the feeling was easy. Offerings were moderate, while orders were for limited quantities Stocks were reported fair. Hams in light request and prices ruled steady. Skinned Hams were in moderate request and prices ruled about ½c lower. Shoulders were in light demand and prices ruled steady Picnic Hams were in small request and prices ruled ½c lower. Sides of all kinds were called for moderately, and prices ruled ⅛@¼c lower. Breafast Bacon in fair request and prices favored buyers.

Beef Products—The past week was quiet in the market for Beef Products and feeling was rather easy for most descriptions. Offerings were fair and the demand only moderate. Cattle were in fair supply and prices lower for common grades, while the better grades held up fairly well. Foreign markets were steady and domestic markets quiet. Shipments of Dressed Beef rather liberal. Manfactures of Products was moderate and supples on hand are fair. Beef Hams were called for moderately and prices ruled 25@50c lower Extra Mess Beef quiet and steady at former figures. Plate Beef in rather light demand and prices about 25c lower. Extra Plate Beef in moderate request and prices were 25@50c lower. Tallow was inclined to quietness, but was firmly held, and prices ruled about steady Oleo-Stearine was rather quiet and easy at 6¼@6⅜c

Greases—Only a moderate business was transacted in Greases during the past week Offerings were not very large, and the demand was only fair. Prices were well maintained on all grades.

ITEMS OF GENERAL INTEREST.

Missouri Pacific has declared a semi-annual dividend of $2 50 per share.

Directors of the New York, Ontario and Western Railway Company have declared a dividend of $3 00 per share on the common stock, payable Jan 16. Books close Dec. 22 and reopen Jan. 17.

The Hocking Valley Railway Company has declared the regular semi-annual dividends of 2 per cent on its preferred and 1½ per cent on the common stocks, payable Jan. 16. Books Dec. 27 and reopen Jan. 17.

A dividend of 5 per cent will be paid on the stock of the New York and Harlem Railroad Company on Jan 3 by the New York Central and Hudson River Railroad Company, lessee, to holders of record Dec. 15.

The project to build a new home for the Chicago Stock Exchange on Jackson boulevard, opposite the Board of Trade, was defeated, Thursday, at the special meeting of the members of the Exchange, the vote against the plan being 56 to 42.

The Moody Corporation of New York City has been incorporated with a capital of $1,000,000 to operate a bureau of general finance and statistical information, to conduct an advertising business, and to promote and finance industrial enterprises.

The Atlantic Coast Line is to absorb the Louisville and Nashville and the Nashville, Chattanooga and St. Louis Railroads, according to the latest Wall Street rumor. This is said to be the reason for the recent advance in Louisville and Nashville stocks. This report is given little credence in Chicago railway circles.

A gigantic plan to consolidate all the independent manufacturers of telephones and telephone apparatus in the country has been disclosed by a recent canvass of Eastern representatives among the independent manufacturers in Chicago. The scheme is said to contemplate an organization with a capitalization of $50 000,000, and, if successful, will control the entire business of the country.

It was stated in St. Joseph, Mich., Thursday, that the Michigan Central Railroad had purchased the Three I line, connecting St. Joseph and South Bend, and the Michigan Central would operate the line after Jan 1. In the purchase of the road the Michigan Central would secure valuable dock property, and it is said to be the intention to operate a line of boats from the port to Chicago and Milwaukee.

It has been announced by the United States Steel Corporation that the invitation of the foreign Steel rail manufacturers to join the rail pool had been rejected. In view of the heavy orders for next year, it has been deemed that it would be to the corporation's interest to remain independent. It is stated that had the Steel corporation made an agreement with the foreign rail pool which did not include the other railmakers of this country, there would have been trouble in reaching a schedule of prices for rails intended for domestic use.

The Department of Agriculture, Wednesday, issued a statement regarding the effect of the decision of the Supreme Court of the United States in the case of the American Sugar Refining Company, in which it is said that the decision will permit the filing of claims against the Government aggregating $8,000,000. The statement says that ever since the present tariff act took effect and the regulations providing for the polarization of Sugar have been in force importers have protested against the rate of duty paid. The Department says that practically all the duties paid on Sugar during the last five years have been under protest, and adds: "The amount saved during that time has been about $300,000,000."

The directors of the United Box Board and Paper Company are holding an important session, lasting several days, in New York. Whether the main point under consideration is renewing negotiations for a "leasing down" deal with the independent manufacturers or whether the subject of discussion is taking care of the financial needs of the company in the event that open warfare with the independents is declared could not be learned in Chicago, Wednesday. The majority of the local people seem to be strongly averse to any further dealings with the independents, and it is considered most likely that all negotiations with them will be broken off and the company will go ahead on its own resources.

The freight traffic manager of the Santa Fe system, testifying before the Inter-State Commerce Commission at Chicago, Thursday, said: "I believe that rates on Cattle from the Southwest to Chicago are in no case unreasonably high, but in many cases are unreasonably low. It is true that we do not make any terminal charge on Live Stock at Kansas City and St. Joseph, because there our tracks run direct to the Stock Yards. In Chicago we have to pay a switching charge of $1 50 to the Chicago Junction Railway on every car of Live Stock, and in addition must furnish our own engine, caboose, and train crew, paying their wages, and for the coal consumed during the time spent in going to the Stock Yards and returning to our own tracks."

Kingsland Smith, of London, European manager of the *Northwestern Miller*, says, in commenting upon the reported discovery of rust in Argentine Wheat fields: "It is difficult to take this report seriously. Of all countries in the world, Argentina is one of the hardest in which to get reliable crop information. The majority of the colonists are not any too intelligent and I greatly doubt if much information can be had from them even through personal interviews by one speaking their diverse languages, and it requires a knowledge of French, German, Spanish and Italian to interview the Argentine colonists. I do not think it possible to get information to say authoritatively at this time that rust is doing serious damage to at least one-half the Wheat area of that country."

While the directors of the State Bank of Chicago did not increase the dividend rate at the meeting, as was expected, it was decided that, beginning with the new year, the rate of dividends would be 8 per cent, instead of 6 per cent, as at present. It was thought best to declare the dividend for the present quarter at the old rate and make the increase begin with the fiscal year. The earnings of the bank during the present year have been only a little less than those of the previous year, in spite of the low rates of interest prevailing during the year and the difficulty of making loans. Business of the bank other than loaning money proved very profitable, and the total earnings are well up toward those of last year. The outlook for business during the coming year is good.

Street's Western Stable Car Line has branched out into the car building industry, and, according to officials, the new line of business is to be vigorously pushed. During the past two years large amounts of money have been expended for the purpose of enlarging the company's car works, located near the stock yards, in Chicago. The capacity of the plants is now much more than necessary to provide repairs and renewals for the company's own equipment of some 8,000 or 9,000 cars. "We intend to build cars for outside interests," said the vice president, Wednesday. "The company has already taken some orders, and the plan will be pushed as rapidly as practicable. We do not intend to attempt anything so great as some of the big car building concerns, but it will open a new source of revenue that should prove very advantageous to the company."

Barring the appropriation of $50,164,500 for the Panama Canal, the Government had a surplus of about $9,000,000 for the year ending June 30, and this surplus is steadily increasing. This is the keynote of the annual report of Secretary of the Treasury Shaw, sent to Congress, Wednesday. The total receipts for the year ended June 30 were $684,214,373. Compared with the fiscal year 1903 the receipts for 1904 decreased $10,406,743. Receipts for customs decreased $23,205,017, but the internal revenue shows a gain of $2,093,995. Expenditures increased $85,661,495. The largest item of increase was the amount expended for the Panama Canal. The deficiency in postal revenue increased $3,733,811. The report shows a deficit of $41,770,571, including the canal appropriation as an expenditure. At the present rate of revenue the Secretary says the deficit will be brought down to $18,000,000 in 1905, and in 1906 the canal debt will have been wiped completely out and a surplus of $22,330,147 left besides.

The Chicago *Inter Ocean* says: "Evidence multiplies that the Amalgamated Copper Company is planning to add another unit to its Copper properties and that the Bingham properties may constitute the unit. As is well known, the leading Amalgamated Copper interests have been acquiring stock in the Utah Consolidated for the past eighteen months, and by this time must have a majority of the shares. It has had an expert in the Bingham camp quietly looking over various properties there. This expert made an examination of the Boston Consolidated property and immediately thereafter the directors of that company ordered the opening up of larger reserves, notwithstanding the fact that 1,700,000 tons of ore had already been blocked out. The Amalgamated people are very friendly with the Bingham Consolidated interests, the United Metals Selling Company selling the product of that company. Owing to the concentrated ownership of that stock there should not be much difficulty in acquiring that property if it is desired."

"I am confident that the shippers of Live Stock to Chicago will be relieved of a tax of at least $750,000 annually as a result of this investigation," declared the special attorney for the Inter-State Commerce Commission, Thursday, in the Live Stock terminal charge case now being heard by Commissioner Prouty. "In 1894, when Cattle rates generally were much lower than now, the Inter-State Commerce Commission ruled that the rates in connection with the charge of $2 00 per car for switching at Chicago were unreasonable, and that the switching charge should be reduced at least to $1 00 per car. The ruling was upheld by the Supreme Court as to about 85 per cent of the territory from which Live Stock is shipped, but from the other 15 per cent, on account of keen competition between the railroads, rates were much lower. That competition has practically disappeared under the so-called community of interest between railroads, and rates have been advanced repeatedly. Naturally, the railway officials declare that none of their rates are excessive, but the undisputable fact is that the earnings are steadily increasing, despite the millions spent for permanent improvements and the higher wages paid in recent years."

GOVERNMENT CROP REPORT.

On the reverse page will be found the December report of the Department of Agriculture. The Winter Wheat area is stated at 31,155,000 acres, or 98.4 per cent. These figures do not agree with the figures of last year, or those received by the DAILY TRADE BULLETIN from Washington. Probably some error has been made in telegraphing or a correction made in last year's report. Area of Winter Rye is about 1,177,000 acres.

The United States Supreme Court has handed down a decision in the suit between Western Union Telegraph Company and the Pennsylvania Railroad Company, involving the removal of the Western Union's poles from the right-of-way of the Railroad Company. The decision sustained the Pennsylvania Railroad.

Weakness and liquidation dominated the New York Stock market. Interests who bought on the recent break were not supporting the market. Commission house buying was called poor as the numerous frenzied articles that have appeared of late have scared timid investors. The news was not unfavorable, and money 3@3¼ per cent. Railway shares were off 2 to 6 points, the latter on St Paul. Industrials lost 2¼ to 6 points, and Coppers 6¾ to 8¼, with only a small rally.

A Pittsburg dispatch says: "The United States Steel Corporation has executed a stroke in the merchant pig Iron market of the highest significance. It has purchased the entire untaken capacity of all the furnaces during the remainder of this month and the whole first quarter of the new year. This means the purchase of over 40,000 tons (possibly 50,000) of Bessemer, and that the corporation has excluded the Lackawanna Steel Company, and perhaps another large independent concern, from securing outside Iron. The Lackawanna is said to have tried to obtain 10,000 tons without success. The price is $15 50 to $15 65 at the furnaces, which is equivalent to $16 35 to $16 50 in Pittsburg.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand slack and the feeling easier. Prices generally quoted 10c lower.

WINTER WHEAT—Was quiet and prices 1c lower Not much disposition to buy, millers taking hold sparingly. Receipts small which would prevent trading in fresh arrivals. No 2 Red in store ranged nominally 2@3½c over May—outside for special bin lots—ranging at $1 11½@1 13¾, and fresh arrivals free on board at $1 14@1 15. No. 3 Red fresh arrivals free on board quotable at $1 09@1 12, with sales at $1 10@1 11. No. 2 Hard fresh arrivals free on board quotable at $1 08@1 12 and No 3 Hard at $1 02@1 10.

SPRING WHEAT—Ruled quiet and prices 1c lower. Choice Wheat, especially the hard variety, met with some little milling demand, but poor Wheat dull No. 1 Northern fresh arrivals free on board quotable at $1 16@1 20. No. 2 Northern quotably $1 07@1 14. No. 3 Spring nominally $1 02@1 13, with a sale at $1 08. No. 4 Spring quotable at 56@60c for very poor to $1 00@1 05 for good to choice.

REGULAR WHEAT—Just a fair trade with the feeling weaker, the close being ⅜c lower for December, while May lost 1⅛@1¼c, and July ½@⅝c. Selling was general from the start, floor traders and professionals being "long" and sold out on the weakness in the Northwest, heavy receipts, lower cables, breaking of the drouth in the Southwest, and situation in Wall Street. On the decline "shorts" accepted fair quantities and situation became steadier. The Government report which came out late Saturday made the condition of Winter Wheat on Dec. 1, 82.9 per cent, against 86.6 per cent one year ago, which indicates a crop of about 440,000,000 bu Primary receipts were 540,000 bu larger than a year ago the arrivals in the Northwest being 537 cars larger. Kansas City and St. Louis received 162,000 bu, compared with 297,000 bu in 1903 World's shipments exceeded expectations at 9,288,000 bu, compared with 10,592,000 bu the week previous, and 9,592,000 bu one year ago. The quantity on ocean passage decreased 688,000 bu, to 39,104,000 bu, against 26,888,000 bu a year ago. The visible increased only 248,000 bu, against 2,362,000 bu increase for the same week in 1903. Total is now reported 37,108,000 bu, against 34,404,000 bu in 1903 and 48,151,000 bu in 1902. Local public stocks increased 19,000 bu and now include 1,702,000 bu, against 2,589,000 bu a year ago Liverpool quoted spot unchanged and futures ½@⅝d lower. Stocks there 5,192,000 bu increased 224,000 bu. Stock one year ago, 3,344,000 bu. London, Berlin and Antwerp unchanged. Paris was ½@1c lower and Buda Pesth ¾c lower. Weather in Argentina was cabled as bad Saturday, but more favorable to-day Milwaukee and Minneapolis millers were reported as reducing the price of Flour 10c Millers at Minneapolis were reported sellers of May. Snows and somewhat cooler weather were predicted for the Winter Wheat belt Clearings were small and no boat loads accepted at the seaboard. The weakness at Minneapolis was partially due to rumors that Secretary Shaw had rendered a decision which remitted the duty on Flour for export when ground from Manitoba Wheat with an equal part of native Wheat St. Louis reported the sale of 56,000 bu No 2 Red. Cash sales were small Receipts at Duluth 53 cars, at Minneapolis 1,062 cars, a total of 1,117 cars, against 776 cars Saturday, 903 cars a week ago, and 530 cars last year. Local receipts included 2 cars Winter, 27 cars Spring and 36 cars mixed, total of 65 cars, against 71 cars last year. Included in above was none contract grade. There were also 22 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 68 cars. The withdrawals were 12,000 bu Receipts at Western points were 1,538,848 bu, against 928,986 bu last year. At Eastern points 785,585 bu, against 233,103 last year. Shipments from Western points 262,918 bu, against 184,479 last year, and from Eastern points 9,856 bu, against 85,442 bu last year. Shipments of Flour were 33,496 brls Exports of Wheat in Flour were equal to 160,558 bu.

Future Deliveries of Regular Wheat—Fair trade and prices lower

DECEMBER—Sold at $1 05½@1 07¼. Opened at $1 07, sold to $1 07⅛, to $1 07, to $1 07¼, to $1 06⅝, to $1 07¼, to $1 06½, to $1 05⅞, and closed at $1 06⅞ sellers.

JULY—Sold at 98@98⅝c Opened with sales at 98½c to 98⅛c; sold to 98c, to 98¼c, to 98c, to 98½c, 98¼c, to 98⅝c, to 98⅛c, to 98⅜c, and closed at 98⅜c asked.

CORN—A good trade, with the feeling somewhat unsettled, the close being ½c better for December, while May gained ⅛c and the July unchanged. The early tone was weak, with cash houses the principal sellers, the large receipts, break in Wheat and easier cables being the "bear" factors. At the decline commission houses and floor traders purchased with considerable freedom, the former taking off hedges, and situation turned stronger. Scattered buying of December was a feature. Receipts were 1,083 cars, against 298 cars last year, and 727 cars were estimated for to-morrow Liverpool quoted spot steady to ¼d higher, while futures were ⅜d lower. World's shipments were smaller at 2,525,000 bu, against 3,115,000 bu the previous week and 3 253,000 bu one year ago. The quantity on ocean passage decreased 702,000 bu to 17,469,000 bu, compared with 14,176,000 bu one year ago The visible supply increased 1,384,000 bu, compared with 9,000 bu increase same week in 1903. Total is now reported 4,565,000 bu, against 5,593,000 bu in 1903 and 5,498,000 bu in 1902 Local public stocks were increased 145,000 bu, and are now reported 443,000 bu, against 1,584,000 bu one year ago. Liverpool stocks 834,000 bu, decreased 107,000 bu. Western shippers who have Corn sold for December delivery were reported as asking for extensions Western receipts 1,285,000 bu, against 693,000 bu one year ago. Shipments were 830,000 bu and 213,000 bu respectively. Local arrivals 667,000 bu, and shipments 590,000 bu Withdrawals from store 444,000 bu, and exports 104,000 bu. Seaboard reported 10 boat loads accepted. Shipping sales here 300,000 bu. Country acceptances fair; bidding not as general as of late. Car lots in fair demand and liberal supply Feeling easy, prices ¼@¾c lower. No. 2 closed, depending on location, at 47½@48c. No 2 Yellow sold at 47½c, and closed, depending on location, at 47½@48c No. 3 sold at 42¼@42½c, and closed at 42¼c. No. 3 White sold at 42½c No. 3 Yellow sold at 42½c, and closed at 42¼@42½c. No. 4 sold at 41½@42c.

Corn by sample—Offerings were again liberal and the demand fair. Feeling, however, was weak and prices ¼@¾c lower. Sales on track and free on board: No Grade sold at 30@41c. No. 4 at 40½@42¼c. No 3 at 42¼@42½c. No. 3 Yellow at 42¼@43¼c, No. 2 at 47½c No 2 Yellow at 47½@47¾c No. 3 White at 42¼@43¼c. Billed through: No Grade at 37@39½c. No. 4 at 40@41c. No. 3 at 40¾@41¾c. No. 3 Yellow at 41@42c. No. 3 White at 41@41½c No. 2 White at 46¼c

Future Deliveries of No. 2 Corn—Fairly active and a little unsettled and closed unchanged to ½c higher

DECEMBER—Sold at 46⅞@47⅞c. Opened at 47c to 46⅞c and sold at 47⅛c, to 47c, to 47½c, to 47⅛c, to 47¾c, to 47½c, to 47⅞c, to 47½c, 47⅜c, and closed at 47⅝c asked

JANUARY—Sold at 42⅝@43c. Opened at 42¾c and sold at 43c, to 42⅝c, and closed at 42⅝c

MAY Sold at 44¼@44⅝c. Opened at 44⅜@44½c to 44¼c, and closed at 44⅜@44½c, to 44⅜c, to 44½@45⅝c, to 44⅜@44½c, to 44¾c, to 44½c, to 44⅝c, and closed at 44⅝c bid

JULY—Sold at 44½c and 44⅞@45c. Opened at 44½@44⅝c and sold at 44⅝c, to 44½c, to 44⅞@45c, to 44¾c, and closed at 44¾c bid.

SEPTEMBER—Sold at 45c.

OATS—The main feature was covering by local "shorts" which advanced May ¼c after a recession of ⅛c from Saturday's close. The last sales were at a net gain of ⅛c all around December was slow, with changes with May at 2¼@2⅜c difference Statistics were a trifle more "bullish" The visible supply decreased 296,000 bu, against an increase of 162,000 bu last year Local stocks in public housss decreased 7,000 bu. Arrivals 194 cars, with 125 cars expected to-morrow. Cash sales were 50,000 bu. Withdrawals were 46,000 bu and seaboard clearances 13,000 bu. Car lots to go to store were steady. Standard in store closed about 28⅜c Deliveries on December sales after the close were 200,000 bu.

Oats by sample were in fair request and steady for good, but slow and ½c lower for poor and yellow. Offerings were liberal. Sales on track and free on board: No. 4 White sold at 28½@29½c. No 3 at 29¼@29¾c. No. 3 White at 29½@30½c. Standard at 30@30¾c. No 2 at 29½@29¾c. No 2 White at 30½@31¼c. Billed through: No. 3 White at 29½@29¾c Standard at 30c. No. 3 White at 30½c At the river No 4 White at 27@28¼c. No 3 at 27½@29c Standard at 28¾@29c. No 2 White at 29½c.

Future Deliveries of Contract Oats—Were lower early, but reacted.

DECEMBER—Sold at 28⅛@28½c. Opened at 28¼c; sold at 28⅜c, to 28½c at close.

MAY—Sold at 30⅜c and at 30⅜@30¾c Opened at 30⅜c to 30½c; sold at 30⅝c, to 30⅝@30¾c, to 30⅝c at close.

JULY—Sold at 30¼@30⅜c and at 30½c. Opened at 30⅜c; sold to 30¼@30⅜c to 30½c at close.

RYE—Was again quiet and without special change. Nothing doing in futures and little interest shown in the market. A few cars of fresh arrivals were sold. The receipts were 10 cars No withdrawals from store here and no exports from New York. The visible supply decreased 25,000 bu. No 2 in store nominally 75c and fresh arrivals sold at 78@78½c. No. 3 sold at 74½c.

Future Deliveries of No. 2 Rye—Quiet. December 75c asked. May 78c asked

BARLEY—The market was well supplied. It was mostly common to good malting which was offered. It sold very well. The market was well attended by buyers Within the range of 40@43c malting Barley sold well At above these prices there was not so good a demand, still sales were made at 44@48c, outside choice, even to 49c for a few cars, and some fancy Wisconsin to arrive was said to have brought more. There was little of the real low grade. Screenings were just moderate sale and not many of them offered. Receipts posted as 113 cars. There were not so many cars offered; more or less were said to have been placed on to arrive sales A liberal decrease in the visible supply appears; this is shown in the table elsewhere given. As to prices, there was no material change indicated to-day. Sales of Screenings were made at 28@30½c and market quotable at 25@36½c for poor to choice quality. Barley, low grade malting, at 39@40½c, fair to good at 41@44c, choice at 45@48c; very fancy in round lots a shade over.

SEEDS—On account of slow order trade cash Timothy was weaker, while the speculative market ruled steady. There was no business done in other Grass Seeds or in Flax, and in no instance was there apparent any material change

Timothy The market was quotably steady for futures, at the same time little business was done, and there was no essential change compared with last quotations Contract spot or December delivery was nominally $2 72½, January sold at $2 75, February offered at $2 80 with no bids March sold at $2 85 that remained bid, with $2 87½ sellers. April was offered at $2 90. Cash Seed only sparingly offered. Outside demand very slow and demand here restricted with bids reduced Market quoted about 5c lower. Country lots quotable at $1 75@2 75 for low grade to fancy; inferior lower; fair to good, $2 35@2 45, and rough, dirty or hulled, $2 10@2 25

Flax—There was no change from closing quotations of last week. There was no trading and the market was without offerings of anything this side of May delivery; of this there was some on sale. Local receipts 6 cars or 5,400 bu, with no output Local stock as posted to-day showed no change, remaining at 15 647 bu against 77,713 bu last year. There were 81 cars received at Minneapolis and 26 cars at Duluth No 1 Northwestern was salable at $1 24 bid, and No. 1 cash at $1 16. Rejected quotable at $1 13@1 21 depending on quality. December delivery salable $1 16 bid and May offered at $1 25.

Clover—No offerings appeared on the spot market Steadiness was quoted, with prices unchanged. In samples shown for value buyers took no interest. Contract grade quotable at $12 50 March delivery about $12 75. Country lots, common to choice, quotable at $7 00@12 25; very poor lower, and fancy above Fair to good $9 75@11 50

Other Seeds—Were quotably steady and unchanged. No trading Hungarian was quotable at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05 Mustard about 75c@$1 00 Buckwheat, easy, good milling, quotable $1 20@1 25.

HOG PRODUCTS—Only a limited speculative business was transacted in Hog Products, and the feeling was unsettled. Outside orders were small, and local packers and speculators were indifferent about trading. Offerings were comparatively small, and there was no particular demand from any source. Hogs were in only fair supply for the opening day of the week, and prices ruled higher, and this feature had the effect of checking the downward tendency in prices early. Toward the close, there was some pressure to sell, and prices declined sharply, and the market closed around inside figures. Bulk of the business was in May. Receipts of Hogs at the leading Western packing points were estimated at 66,700, compared with 88,500 one year ago. Foreign markets were easy and prices were reduced 6d on Cumberland Sides. Domestic markets were quiet Receipts of Products were liberal—of Lard and Meats about 41 cars Shipments were unusually small of Lard and Meats about 46 cars Demand on shipping account was light offerings were small sales were limited, and prices without material change Exports for the week compared with the corresponding week in 1903, exhibit decreases of 2,520 brls Pork, 4 246,000 lbs Lard, and 2,620 boxes Meats

Mess Pork—Only a moderate business was transacted in Mess Pork, and the feeling was rather unsettled. Offerings were fair, and the demand was limited Trading almost exclusively in May contracts Prices ruled 2½@5c higher early, but declined 17½@20c toward the close, and the market closed rather steady. Shipping demand was light, and offerings were small. Cash lots were quotable at $11 12½@11 25, according to quality, with repacked at 10@15c discount.

DECEMBER—Quiet and quotable at the close at $11 07½

JANUARY—Demand light and offerings were moderate. Sales were made at $12 32½@12 50 Opened at $12 50, sold to $12 32½, to $12 32½@12 35, and closed steady.

MAY—In moderate request and offerings rather free. Sales were made at $12 65@12 85. Opened at $12 82½ sold to $12 85, to $12 82½, to $12 85, to $12 65@12 67½, to $12 67½, to $12 65, and closed steady.

Lard—Little interest was manifested in the Lard market and the feeling was comparatively steady. Offerings were small, and the demand was light. Foreign advices were unchanged Prices ruled about 2½c higher early, but receded again 2½@5c and the market closed rather steady. Demand on shipping account was moderate, with light offerings Cash lots were quiet and quotable at about 5c discount on January figures, closing at about $6 77½ Loose lots in moderate request, with fair offerings. Prices were quotable at 50c discount on January figures Leaf Lard was in light demand, with fair offerings. Prices quotably steady at $6 37½. Neutral in light demand, with only fair offerings. GOVERNMENT CROP REPORT.

WASHINGTON, Dec. 10.—Returns to the Chief of the Bureau of Statistics of the Department of Agriculture indicate that the newly-seeded area of Winter Wheat is about 31,155,000 acres, a decrease of 1.6 per cent from the area sown in the fall of 1903, as finally estimated. The condition of Winter Wheat on Dec. 1 was 82.9, as compared with 86.6 in 1903, 99.7 in 1902, and a ten-year average of 92.1

The following table shows for each of the principal States the percentage of acreage sown to Winter Wheat this fall as compared with that sown last year, the averages of condition on Dec. 1 of the present year, the corresponding averages for 1903 and 1902 and the mean of the December averages of the last ten years:

States—	Acreage com. with last year.	Average condition Dec. 1. 1904.	1903.	1902.	10-yr.
Kansas	99	81	87	95	93
California	102	96	97	100	96

Michigan	110	92	85	92	86
United States	98.4	82.9	86.6	99.7	9' 1

The newly seeded area of Winter Rye is provisionally estimated at 96 7 per cent of the area sown in the fall of 1903. The condition of Winter Rye on December 1 was 90.5, as compared with 92.7 on December 1, 1903, 98.1 at the corresponding date in 1902, and 96.2, the mean of the December averages of the last ten years.

The following table shows for each of the principal States the percentage of acreage sown to Winter Rye this fall as compared with that sown last year, the average of condition on December 1 of the present year, the corresponding averages for 1903 and 1902, and the mean of the December averages of the last ten years:

States—	Acreage com. with last year.	Average condition Dec. 1. 1904.	1903.	1902.	10-yr.

The final estimates of the total acreage, production and farm values of the principal crops for 1904 will be issued on Dec. 28 at 4 o'clock P. M.

RAIL, CAR AND BRIDGE NEEDS.

[From the Wall Street Journal, Dec. 2.]

Steel men estimate that the railroads will need in the coming year not less than 3,000,000 tons of Bessemer Steel rails and cars worth $40,000,000 gross, with new Steel and Iron bridges worth at least $50,000,000 more.

If these estimates are reasonably accurate they will mean a new high record in the production of Bessemer Steel rails, an increase in the number of car orders and a revival of many of the bridge projects which were laid aside when the period of depression got under way.

The production and approximate gross value of Bessemer Steel rails, the estimate and gross value for 1905, with the rail schedule unchanged, are shown in the following table:

	Gross tons.	Gross value.
1904	3,000,000	$84,000,000
1903	2,916,756	82,509,168
1902	2,935,392	82,190,975
1901	2,870,816	80,382,818

In the latter part of 1902 when the boom had not begun to feel the inauguration of the retrograde movement the railroads had under contract in this country and Canada bridge work exceeding $120,000,000. Much of this was soon after suspended and the projects have since been waiting for the return of good times.

Steel authorities figure that the roads will at once take up a great percentage of these abandoned plans, and that early in the new year the boom in bridge building on the part of the railroads will be one of the important features of the revived demand for all kinds of Iron and Steel products.

The revival of the car industry has already been pointed out. It is conservative to say that the railroads will make new records in adding to their equipment if the business in sight continues to increase.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 22 below to 32 above zero; lowest at Winnipeg; cloudy and snows west; clear east. Northwest Temperatures, 6 below to 20 above; cloudy in Dakotas; clear in Minnesota. West—Temperatures, 6 to 26; snows in Iowa and Northern Illinois; clear in Nebraska. Southwest—Temperatures, 18 to 32; snow in Missouri; dry elsewhere. Ohio Valley—Temperatures 22 to 31; snow general.

Indications snow flurries will continue in portions of lake region. Northwestern disturbance may cause precipitation west of Missouri River and in Western lake region during Tuesday. Temperatures will fall in this section to-night, but will rise Northwest.

WORLD'S EXPORTS OF BREADSTUFFS.

The following table exhibits the exports of Breadstuffs from the following countries from July 1, 1904, to December 10, 1904, compared with the corresponding time in the previous two years:

ITEMS OF GENERAL INTEREST.

Fire, Friday, in the business district of Plymouth, Ill., caused a loss of $10,000.

The General Electric Company has declared the regular quarterly dividend of 2 per cent, payable Jan 14 to stockholders of record Dec. 17.

The Missouri Pacific Railway Company has declared the regular semi-annual dividend of $2 50 a share, payable Jan. 30. Books close Dec. 20 and reopen Dec. 29.

The Royal Baking Powder Company has declared the regular quarterly dividend of 1½ per cent on the preferred stock, payable Dec. 31 to stockholders of record Dec. 15.

The directors of the National Live Stock Bank, Chicago, have declared the regular quarterly dividend of 3 per cent, payable Dec. 31 to stockholders of record the same day. The annual extra dividend of 3 per cent was paid by the bank on Dec. 1 last. This makes dividends of 15 per cent for the year.

It was reported in New York, Friday, that the Chicago Great Western had been bought jointly by the Union Pacific, Northwestern, St. Paul, and Illinois Central, and that, in this way, the Western rate situation would be cleared up, and joint ownership would produce no rivalry between the roads that have been bidding separately for the property.

Receivers were appointed, Friday, for the Neafie & Levy Ship and Engine Building Company, Philadelphia, Pa. The firm has been and is doing much work for the Government, and its trouble is due to inability to collect money from the Government before the vessels are finished. It is stated that as soon as the firm is able to realize on its contracts all obligations will be met.

The *Wall Street Journal* says: "The entrance of Kuhn, Loeb & Co. into Missouri Pacific and the arrangement of differences between Pennsylvania and Gould interests will, it is understood, be followed by a merger of Western Union and the Mackay Companies, although the latter consummation may not be arrived at for some little time. It is understood that strong financial interests stand ready to finance the combination whenever details are arranged. That there is room for large economies is clear, since the two systems have been in the most active kind of competition involving the maintenance of two offices in a great many locations where one would suffice."

The following statement was made by a prominent New York broker, Friday: "The strength of the common stock of the United States Steel Corporation, which is one of the most remarkable things ever seen in Wall Street, is due to something more than a revival in the Steel trade. The rise of this stock in the market had its foundation in the purchase of enormous blocks of the stock of the Steel Corporation itself. I have every reason to believe that during the summer, when this stock was selling between 10 and 13, the Steel Corporation bought 1,500,000 shares, paying for it out of its surplus. This stock probably cost the Steel Corporation in the neighborhood of $18,000,000. The market value of this stock has since been as high as $30 000,000, and even at present prices the Steel Corporation's investment in its own stock shows a very handsome profit. When the corporation resumes dividends on the common stock it will receive a very handsome return on this investment."

The Chicago *Inter Ocean* says: "The declaration of a 1¼ per cent quarterly dividend on American Can preferred puts that stock definitely on a 5 per cent basis. It is intended to continue the dividend at that rate until earnings justify an advance to 1¾ per cent quarterly. This is hoped for soon. After the payment of this dividend the company will have a cash surplus of over $2,000,000. Working capital is about $9,000,000, an increase of about $1 750,000 over the showing of the past fiscal year. Current business, apart from the financial position above outlined, justifies the payment of the dividends. It is stated that work now in hand and orders on the books are very heavy. Interests in the company speak with conservatism of the company's prospects. They clearly believe that the drastic changes in policy and method carried out in the past three years have greatly increased the possible margin of profit, but they prefer to see a couple of years of operation under the new plan before making any definite predictions."

Chicago Bank Clearings to-day, $34,826,354

Reported that 96,000 bu Corn were taken at the seaboard to-day for export.

Government Report on Wheat crop in detail will be found on the reverse page.

The failure of S. J. Callahan was announced on the New York Consolidated Exchange.

Deliveries on December contracts to-day were 200,000 bu Wheat, 35 000 bu Corn and 95 000 bu Oats.

Average cost price of Hogs at Chicago, Monday, was $4 49, against $4 58 a week ago and $4 55 a year ago.

There has been an effectual breaking of the drouth in the Ohio Valley by moderate snowfall the past few days

The Flour mills at St Cloud, Minn., shut down, Monday, for the first time in eight years at this season of the year.

Ten packers purchased 24,200 Hogs to-day; shippers, 3,000 left over, 5,000 Market closed weak. Heavy lots sold up to $4 62½.

Estimated receipts for to-morrow: Wheat, 40 cars; Corn, 311 cars; Oats, 59 cars; Rye, 2 cars; Barley, 35 cars; Hogs, 38,000.

A dispatch from Argentina says: "Cold weather retarding growth of Wheat." Of course, this is correct, when the crop is being *threshed.*

It is said that 500,000 bu Spring Wheat will come to Chicago in the near future from the Northwest. Elevators there are about full, and Chicago will get the overflow.

The receipts of Wheat at Liverpool during the past three days were 304,000 bu, of which 80,000 bu were American. Receipts of Corn, 180,000 bu, of which 26,000 bu were American

Cotton in New York was strengthened by higher cables and a better undertone to the spot markets. Good supporting orders were a feature and prices had a liberal rally Closing sales were 7@10 points higher

Local Securities were unsettled, with good trading. There were advances in Box Board, Edison, Can common and Swifts, and material losses in Carbon, Title and Trust, Metropolitan Elevated preferred, Oak Park preferred and Quaker Oats preferred.

A dispatch from Helena, Mont., says: "Attorney General Donovan, Monday, began injunction proceedings against four leading Chicago packing companies to restrain those concerns from doing business in this city on the ground that they are violating the anti-trust laws."

The Duluth *Commercial Record* has been making a careful canvass of country elevator stocks, country mill consumption, and dissecting the terminal receipts into their component parts, and finds that the net farmers' deliveries on the crop in the Northwest to Dec. 1 were 87,000,000 bu, compared with 92,000,000 bu at same time in 1903

The *Corn Trade News* of Nov. 28 says: "Latest advices from Russia report milder weather and crop news is generally quite favorable. There are still some complaints of scanty arrivals at the ports, but stocks are liberal, and the same can also be said of the shipments, although the quantities are decidedly smaller than they were a short time ago."

Stocks in New York rallied after a weak and lower opening, and closed irregular, with many of the good Stocks higher for the day. Liquidation appeared to have spent its force for the time being At times there was considerable wildness. On all breaks Stocks were readily absorbed. Coppers advanced 5 points and reacted 2. Railway shares were both higher and lower Money easier at 2½ to 3 per cent.

The *Corn Trade News* of Nov 28 says: "Snow is reported in Central and Southern France, which later may give the land the needed moisture. The colder weather has been favorably received on the whole, for it is hoped the frost will check the ravages of field mice and other vermin. Country markets have ruled firm on crop conditions, small offerings and a rather better millers' demand "

Bradstreet's report of the available supply for the past week shows the following changes.

		1904 bu.		1903 bu
Wheat east of Rockies	Dec.	1,371,000	Inc.	1,160,000
Europe and afloat	Dec.	1,000,000	Inc.	500,000

Broomhall's *Corn Trade News* of this date says of foreign crops: "United Kingdom and Germany —The weather past week has been wet, which is favorable for the crops and the reports are now most satisfactory. France, Italy and Spain—The drouth has been generally relieved, and the crop outlook has improved in consequence. Roumania —The crops at the moment are in excellent condition, but there is no snow covering which is causing some anxiety. Arrivals at the ports are very small. Russia—Crop news is favorable. Situation as a whole is generally unchanged. India —The crops continue to progress favorably. Australia—Some private estimates on the exportable surplus reduced to 20,0 0,000 bu (this is about half of an early estimate).

Representative Steenerson, Monday, introduced his bill in the House in Congress to amend the Inter-State Commerce act and fix rates when the tariffs maintained by the road are proved exorbitant. If the Inter-State Commission finds the rates, fares, charges, or classification complained of unequal and unreasonable, the commission shall state wherein they are unequal or unreasonable, and shall make a tariff which shall be substituted for that of the railroad, and shall be taken in all the courts of the United States as prima facie evidence that the tariff of rates, fares, charges and classification so made is equal and reasonable, and such tariff so made shall be in full force and effect during the pendency of any appeal that may be taken to the courts.

AUSTRALIAN WHEAT CROP PROSPECTS.

[Special Correspondent Dornbusch]

SYDNEY, Oct 25.—The past week has witnessed a general revival in the Commonwealth crops, due to recent liberal rainfall, while further showers have fallen throughout New South Wales A season of plenty therefore seems assured, and those in a position to venture an opinion look upon a crop of anything between 18,000,000 and 20,000,000 bu in New South Wales as almost certain. Victoria will no doubt garner another large harvest, while in South Australia the outlook is equally encouraging. The Commonwealth Wheat markets have responded to the more pleasing prospect with a decline of 3d to 4d per bushel in Wheat and 10s per ton in Flour. There is some talk about fixtures for export of early South Australian Grain, but in the present condition of freight and London Wheat values, shippers are prone to be pessimistic with regard to opening prices for new Wheat.

There has not been a great deal of activity in exports during the past week as the market has been somewhat unsettled.

The total Australian fleet fixed and to load now stands at 18 bottoms, which are expected to clear up what remains of last harvest's Wheat for export.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand slow, buyers holding off owing to the late decline in Wheat

WINTER WHEAT—Quiet and feeling weaker. Receipts small, which prevented larger trading in fresh arrivals. Sales of 50,000 bu mixed lots were reported, but general market slow. No 2 Red in store ranged nominally 1@3½c over May—outside for special bin lots ranging at $1 10½@1 13¾ and fresh arrivals free on board at $1 14@1 15. No. 3 Red fresh arrivals free on board quotable at $1 09@1 12, with sales at $1 10. No. 3 Red sold at 90c@$1 07. No. 2 Hard fresh arrivals free on board quotable at $1 10@1 12 and No 3 Hard at $1 01@1 18.

SPRING WHEAT—Ruled quiet and the feeling weaker. Choice Wheat, especially the hard variety, met with some little milling demand, but poor Wheat dull. No. 1 Northern fresh arrivals free on board quotable at $1 15@1 18½. No. 2 Northern quotably $1 16@1 14. No 3 Spring nominally $1 02@1 12. No 4 Spring quotable at 56@60c for very poor to $1 00@1 05 for good to choice with sales at 59@75c. No. 4 White sold at 83c@$1 01½.

REGULAR WHEAT—Was again unsettled, price changes being frequent within the established limits. The close showed the December 1c lower, while May lost ½@⅝c and the July ¼c. The opening was easy, but without special feature, the liberal Northwest receipts, which were 230 cars larger than a year ago, being a factor Later on, the demand improved and market developed considerable strength, advancing about 1c. The unfavorable Argentine news was the chief motive for the upturn and a good share of the buying was credited to the Northwest. The fact that the English markets did not follow the break on this side was also a strengthening influence. The decrease of 2,371,000 bu in the available supply, as reported by *Bradstreet's*, also had a like effect on values, there being an increase of 1,660,000 bu in 1903. Liverpool quoted spot ½d lower, while futures were unchanged. Receipts there the past three days were 3 4 000 bu, of which 80,000 bu came from America. The strength there was reported due to smaller offerings from Australia and adverse news from Argentine. London, Antwerp and Buda Pesth were unchanged, while Paris came ¾@1c lower. Berlin was ½c lower. A Buenos Ayres cable via Liverpool read: "Considerable loss by blight; cold weather retarding growth: frost." Another cable read: "Average yield in province of Santa Fe about 11 bu." At the advance, renewed selling set in which carried the price back about 1⅜c. The report that millers in Northwest were to meet at Minneapolis to consider a general shut-down was one of the depressing features. Minneapolis reported stocks increased 550,000 bu the past three days. Stocks here in all positions are now 3 709,000 bu, a decrease of 158,000 bu Stocks one year ago 5,571,000 bu Contract stocks increased 41,800 bu, and now include 1,451,700 bu, as compared with 1,811,000 bu one year ago Primary receipts were 236,000 bu smaller than a year ago. The map showed very little precipitation and fair and colder weather was generally predicted. Clearances again light and no boat loads accepted. Receipts at Duluth 238 cars, at Minneapolis 392 cars, a total of 680 cars, against 1,117 cars yesterday, 550 cars a week ago, and 450 cars last year. Local receipts included 11 cars Winter, 21 cars Spring and 11 cars mixed, total of 43 cars, against 117 cars last year. Included in above was 1 car contract grade. There were also 3 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 40 cars. The withdrawals were 3,500 bu. Receipts at Western points were 773,838 bu, against 1,010,375 bu last year. At Eastern points 28,018 bu, against 325,683 last year. Shipments from Western points 281,991 bu, against 225,179 last year, and from Eastern points no bu, against 67,508 bu last year. Shipments of Flour were 11 6?8 brls. Exports of Wheat in Flour were equal to 52,596 bu.

Future Deliveries of Regular Wheat—Fair trade and feeling unsettled.

SEPTEMBER -Sold at 92c. This is the first sale of the season

CORN—A good trade and unsettled feeling, resting prices showing the December off 1¾c, while the May lost but ¼c and July ⅛@¼c. December liquidation was more in evidence, under which the price declined to 45¾c. Traders were under the impression some large "long" line came out, the liberal receipts, with a fair percentage contract, no doubt being a factor Contract stocks increased 158,000 bu last week and are now 401,000 bu, compared with 1,423,000 bu one year ago Stocks here in all positions increased 465 000 bu to 1,793 000 bu, as against 4 051 000 bu one year ago. *Bradstreet's* available supply increased 2 007 000 bu, while for the corresponding week in 1903 the increase was but 258,000 bu. The deferred deliveries did not sympathize very much with the December break. There were rumors of large cable acceptances mostly from Liverpool, and futures there were quoted ½d higher and this feature was one of the early helps Receipts were 785 cars, against 205 cars one year ago, and 341 cars are expected to-morrow. Withdrawals from store were smaller, 83,000 bu and exports were 27,000 bu Western receipts were 1,395,000 bu, against 476,000 bu one year ago, and shipments 451,000 bu and 210 000 bu respectively. Local arrivals were 1,610 000 bu, and shipments 265,000 bu. Fair and somewhat colder weather was predicted by the signal service Cash sales here were reported 110,000 bu and seaboard reported 12 boat loads accepted. Car lots were in fair demand and smaller supply Feeling weaker and prices were lower No 2 closed at 45¾@46c No 2 Yellow sold at 46½@46¾c, and closed at 45¾@46c No 3 sold at 42½c and closed at 42¼c. No. 3 Yellow sold at 42½c. and closed at 42½c.

Corn by sample—Offerings were not as large and demand rather good. Prices were steady to ¼c higher except No Grade which was in larger supply and prices ½c lower. Sales on track and free on board: No Grade sold at 30@40c. No 4 at 41@42c. No 3 at 42½@42¾c. No. 3 Yellow at 42½@43c. No. 3 White at 42½@43c. Ears at 46½c Billed through: No Grade at 37@40c. No. 4 at 37½@41½c. No. 3 at 41@41¾c. No. 3 Yellow at 40¾@42c No. 3 White at 41⅝@41¾c.

Future Deliveries of No. 2 Corn—Fairly active and easier, closing ⅛@¼c to 1¾c lower.

DECEMBER—Sold at 45¾@47¾c. Opened at 47¾c to 47⅝c and sold at 47½c, to 47⅝c, to 47⅛c, to 46¾c, to 46⅝c, to 46c to 46¼c, to 45¾c, to 45⅞c, and closed at 45⅞c

JANUARY Sold at 42@42⅜. Opened at 42⅜c and sold off to 42c to 42¼, and closed at 42¼c asked.

MAY Sold at 44¼@44⅞c. Opened at 44⅝@44¾c and sold at 44½@44⅝c, to 44⅞c, to 44¾c, to 44⅝c, and closed at 44⅝c

JULY—Sold at 44½@45c Opened at 45c and sold at 44½c, to 44⅝c, to 44½@44⅝c. and closed at 44½@44⅝c.

OATS—Were stronger and averaged higher, but closed about the same as yesterday. A decrease of 586,000 bu in stocks in all positions here last week and the bulge in Wheat induced "shorts" to cover but the advance did not hold and prices yielded and lost the early advance of ⅛@¼c *Bradstreet's* decreased 836,000 bu Contract stocks increased 18,021 bu, and are 3,963,494 bu Liberal cancellations of receipts for Standard the past two days. Cash sales here were 25,000 bu. Arrivals 000 cars. Estimates to-morrow ·0 cars S aboard clearances 12,000 bu. Car lots to go to store were steady to 1c lower No. 3 White sold at 29@29¾c. Standard at 30¼@30½c

Oats by sample were ½@1c lower for poor, but steady on good, causing a spreading of the difference between good and poor Sales on track and free on board No. 4 White sold at 27@28½c. No. 3 White at 29@30¼c Standard at 30¼@30½c No. 2 at 29¾c No. 2 White at 30¾@31½c No 2 White at 30¾@31½c Billed through No 3 White at 29¾c. No 2 White at 30½c At the river: No. 4 at 28c No. 4 White at 28½@28¼c Standard at 28¾@29c.

Future Deliveries of Contract Oats—Were stronger, but closed unchanged

DECEMBER Sold at 28¼@28½c. Opened at 28⅝c to 28¼c, sold to 28½c, to 28⅜c at close.

MAY—Sold at 30½c and at 30¾@30⅞c Opened at 30⅝c, sold to 30½c, to 30¾@30⅞c to 30⅝c at close.

JULY—Sold at 30⅜@30½c and at 30⅝c. Opened at 30½c to 30⅝c, sold to 30⅜@30½c and closed there

RYE—The market was quiet and without noticeable change. Trading confined to a few cars fresh receipts. Futures neglected Only two cars received No withdrawals here and no exports from New York. No 2 in store nominally 76c, and fresh arrivals free on board sold at 79c. No. 3 fresh receipts sold at 71@75c.

Future Deliveries of No. 2 Rye—Neglected. December 75c asked and May 78c asked. No trading.

BARLEY—The market for the low grades was called steady to firm and the better grades ruled slow. Receipts were smaller than yesterday, yet there was a good supply on the market. Business was restricted on account of the day being very dark at times. To-day's postings showed 68 cars inspected in There was no special change in values. Screenings were quotable at 25@36½c for poor to choice quality. Barley, low grade malting, at 39@40½c, fair to good at 41@44c, choice at 45@48c; very fancy in round lots a shade over.

SEEDS—Flax Seed was firm. Timothy ruled easy for both cash and future deliveries. There was a fair business done in futures, but nothing done in cash Seed Clover and other Seeds ruled steady at former prices.

Timothy—The market for cash Seed was inactive. The day was very dark and buyers were unable to examine what cash Seed was offered. The market was nominally lower. Futures were quite active, especially March delivery There was an easy feeling and prices were generally lower Contract spot or December delivery sold at $2 70 January was offered at $2 77½ February offered at $2 80 and $2 75 was the best bid March sold at $2 82½, up to $2 85 and closed with bids of $2 85. Market for cash Seed quoted lower. Country lots quotable at $1 75@1 60 for low grade to fancy; inferior lower; fair to good, $2 30@2 40, and rough, dirty or hulled, $2 00@2 20.

Flax—The market was firm at yesterday's prices for both cash and future deliveries Offerings of cash Seed were small and futures were inactive Local receipts 4 cars or 3,600 bu and shipments were 1 car or 1,016 bu There were 22 cars received at Minneapolis and 208 cars at Duluth. No 1 Northwestern sold and closed at at $1 21, and No. 1 cash was nominally $1 16. Rejected quotable at $1 13@1 21 depending on quality. December delivery salable $1 16 and May offered at $1 24.

Clover—Was nominally unchanged There were no offerings of cash Seed, consequently there was nothing done Some to arrive lots offered, but there was no trading. Contract grade quotable at $12 50 March delivery about $12 75 Country lots, common to choice, quotable at $7 00@12 25; very poor lower, and fancy above. Fair to good, $9 75@11 50.

Other Seeds—The market was nominally steady for all varieties. No offerings of any kind noticed on the market Hungarian was quotable at $1 05@1 15 for common to choice. CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Nov 29.]

United Kingdom The comparatively severe weather which was prevalent when we wrote last Tuesday continued till the end of the week, since when it has been milder. In some parts of the Centre and North of England the snow was fully six inches in depth and this formed a welcome protection to the young Wheats, of which the latest sown stand in need of some cover against hard frost. On the whole, we continue to hear very favorable reports about the new crop, the plant looking exceptionally well in the important Eastern counties. The Board of Agriculture last Thursday issued its annual returns of crop yields in Great Britain and placed the average for Wheat as low as 26.80 bu per acre, compared with 30.13 bu last year and 32.77 bu in 1902 Total outturn this year is only some 36,000,000 bu, against 47,000,000 bu in 1902, 56,000,000 bu in 1903. It was quite expected that the yield would turn out to be a small one, but less than 27 bu is certainly worse than anticipated, and the *Mark Lane Express* points out that it is hard to believe, as stated in the return, that the yield in Scotland was 12 bu per acre above the English yield The yields returned for Barley and Oats are not strikingly bad, but they are by no means good, on the other hand, Potatoes are credited with a big yield, the total crop being fully 600,000 tons above last year's, but against this may be placed some recent reports of much disease in the Irish crop, losses of 50 and even 60 per cent being mentioned The official average price for English Wheat last week was lifted 3d per quarter to 30s 5d; some markets have reported rather larger supplies, but, on the whole, they are still small or quite moderate.

Russia—Milder weather is now reported from the South, which thawed the snow along the coastal districts. It is believed, however, that interior districts have still a fair covering and crop news generally is favorable. Shipments last week were smaller, but still of fair size, but there is likely to be a further reduction this week, for although we have had no intimation that the Azoff is freezing, there are but very few steamers now remaining to load. There are still complaints of scanty arrivals at the ports.

Roumania—The weather has been cold, but the crops have good snow cover Braila is now transferring its stock to Sulina, where it is expected a fairly large quantity will be accumulated for winter shipment Shipments from Balkan countries last week were liberal.

Bulgaria—Crop accounts are still very favorable.

Austria-Hungary—Milder weather with rains prevailed in the latter half of last week, which cleared the snow from the fields There are no complaints concerning the crops, but if sharp frost were to set in suddenly it might easily do much harm

Argentina—The weather is rainy and if the harvest of Santa Fe is to be secured in good condition dry weather is now necessary. To-day's cables say the weather is unsettled and the rains are damaging the quality. A report from the *Review of the River Plate*, received by mail, puts the exportable surplus of Wheat at 3,000,000 tons, equaling nearly 14,000,000 quarters, but other authorities say the quantity will be no larger than last year's, which was roundly 12,000,000 quarters Shipments of Wheat are moderate, of Corn liberal.

India—We have no recent crop news from this grower, but in the absence of complaints, it can be presumed that normal conditions prevail.

Australia—Favorable harvest weather continues to prevail and it is fairly certain that the crop will be secured cheaply and well. It is evident from the chartering that shippers are sanguine as to final results, and the list of ships engaged now makes a good show.

France—Some snow and rain fell in the Centre and South last week and colder weather prevailed generally. The frost was generally welcomed by growers, who hope it will clear the fields of vermin, but it is quite evident that more or less anxiety is felt with regard to the crops of the drouthy districts in the Centre and South. Farmers are pursuing the policy of offering their crop in driblets, and this is the case even in the North where crop conditions are satisfactory, so that with a somewhat better millers' demand, prices have been firmly held on country markets and in Paris there has been a fairly steady advance until forward positions are practically at an importing level.

Italy—An official bulletin covering Nov. 10 to 20, says that dry and cold weather prevailed in Northern and Central Italy, which was favorable for field work, but not for Wheat, which was still needing rain. In the South and especially in Sicily, unsettled weather hindered seeding. The condition of the various crops was, however, generally good.

Germany Weather conditions continue generally seasonable and in some parts there have been good falls of snow The official report of Nov. 15 for the whole Empire gave the condition of Wheat as equal to 83 per cent, Rye 84 per cent, which is slightly better than the conditions in November, 1903. At Berlin offerings of native Wheat have been larger, but there is not much demand. On the whole, however, the Grain markets have been firm and fairly active, for not only have interior buyers been taking in their winter supplies of foreign Wheat, but large quantities of native Wheat and Rye have been exported to Scandinavia

North Africa—Further good rains have been reported, and seeding reports are favorable.

CROPS IN ILLINOIS.

SPRINGFIELD, Dec. 12.—The area of Corn planted in Illinois was 7,825,000 acres, according to the crop report issued by the Illinois Department of Agriculture. This is 2 per cent less than in 1903, when 7,9?6,000 acres were reported. The area in Northern Illinois was 3,12?,000 acres, in Central Illinois 3,392,000 acres, and in the Southern division of the State 1,132,000 acres. The average yield over the State was 36 bu.

Owing to partly dry weather at seeding time, and partly to loss by chinch bugs, the area of Winter Wheat seeded is 4 per cent smaller than a year ago. The total area reported is 1,429,000 acres. Northern Illinois reports only 33,000 acres; Central Illinois, 639,000 acres, and Southern Illinois, 757,000 acres.

A decrease of 7 per cent in the area seeded to Rye, as compared with 1903, is noted, but 87,000 acres being reported Of this amount 72,000 acres are in Northern Illinois, 11,000 in Central Illinois and 4,000 in the Southern division. The drouth has prevented the seasonable growth of Rye, as well as of Wheat, thus accounting for its low condition.

The ruling price for Corn Dec. 1 was 39c per bu. Had the entire crop been sold at that price it would have returned the producers $110,324,000.

ITEMS OF GENERAL INTEREST.

The Chicago Rock Island and Pacific Railway Company announces a dividend of 2 per cent, payable Jan 3. This makes 7¼ per cent paid in dividends this year.

The Union Bag and Paper Company has declared the regular quarterly dividend of 1¾ per cent on preferred stock, payable Jan. 16. Books close Dec. 31, reopen Jan. 16.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Nov. 19 have amounted to 1,096,000 bu, against 2,456,000 bu in the previous year, and 2,576,000 bu in 1902.

The Chicago and Eastern Illinois Railway Company has declared the regular quarterly dividend of 1½ per cent on preferred stock, payable Jan. 2 Books close Dec 14, reopen Dec. 19.

Fire at Columbia, Tenn., Sunday, destroyed the feed mill and elevator of the City Grain and Feed Company, with thirty cars of ear Corn and about 50,000 bu of shelled Corn. Loss, $73,000; insurance, $42,000.

The Senior and Scotland Oil Companies of Bluffton, Ind., Thursday, sold their holdings in Delaware County, including 350 acres of leases in the Parker field, to the Standard Oil Company. The consideration is said to be $750,000.

The Alabama Great Southern recently declared a dividend of 5 per cent on the preferred shares, making 9 per cent declared against arrears during the year, against 10 per cent last year. The present dividend discharges the accumulation up to June 30, 1904.

The shipments of Flax Seed from India from April 1 to date amounted to 18,128,000 bu (Calcutta 11,912,000 and Bombay 6,216,000 bu), against 15,736,000 bu last season (Calcutta 10,392,000 bu and Bombay 5,344,000 bu), and 11,176,000 bu in 1902 (Calcutta 7,656,000 bu and Bombay 3,620,000 bu).

The receipts of Flax Seed at Bombay for the week ended Nov. 3 amounted to 1,240 tons, against 1,027 tons in the previous week and 1,013 tons in the same week last year. The total receipts at Bombay from Jan. 1 to Nov. 3 amounted to 208,456 tons, against 140,720 tons in the same period last year.

Earnings of the Chicago Title and Trust Company for the present fiscal year ending Dec. 31 will be approximately $550,000, or 11 per cent on the $5,000,000 capital stock. The present is therefore the most profitable year in the history of the company Earnings last year were a little less than $500,000, or 10 per cent.

All stocks of the seven subsidiary companies of the United States Shipbuilding Company were sold at Newark, N J., Thursday, to George Sheldon for $350,000, an advance of $150,000 on the price heretofore bid by the reorganization committee. This disposes of the last assets in the hands of the receiver. The receiver's final report will be submitted in February.

A prominent Steel and Iron man, Thursday, said: "Every concern manufacturing Iron and Steel will be in operation by Feb. 1. Many idle furnaces would resume if it was not for the shortage of coke. From present indications the consumption and production of Steel and Iron in the year 1905 will break all previous records. The statement of the United States Steel Coporation for the current quarter will show an enormous increase in tonnage as compared with the preceding statement."

Dornbusch's Buda Pesth correspondent, writing under date of Nov. 28, says: "The tone in the Flour market this week has accurately reflected the position in Wheat. Opening quiet, with very little business doing excepting a few transactions on English and French account, the tone became firmer towards the end of the week, with a better inquiry. There was a fair amount of liquidation, which helped to reduce stocks. Mill feeding stuffs are very firm, but business almost suspended owing to absence of stock."

The report of the Comptroller of the Currency, sent to Congress, Thursday, declares that the banking resources of the United States are within 10 per cent of being as great as the combined resources of all the rest of the world. He says that the banks lack only one means of primacy in the financial world, and that is their facilities for international banking. He recommends legislation permitting national banks in reserve cities having $1,000,000 or more capital to maintain branches in foreign countries for the purpose of facilitating exchanges.

The financial statements presented at the annual meeting of the Chicago Auditorium Association, Saturday, showed that while receipts for the fiscal year just ended were the largest in a period of years, the expenses increased unduly owing to the closing and reconstruction of the theater subsequent to the Iroquois fire. Receipts from the hotel, however, were the largest in its existence, and were a substantial increase over the previous year. Net results were $13,518, being equal to 7-10 of 1 per cent on the outstanding capital of $1,765,300.

The *Agricultural Gazette* of Nov. 28 says: "There was no abatement in the severity of the weather up to the first day of the present week, and it seems that the sudden visitation must be regarded rather as the early setting in of winter than as a mere foretaste such as we have nearly every year. Unless an entire change in the weather sets in very soon it is probable that but little, if any, more Wheat will be sown before the new year, and not much is ever put in after Christmas. It is almost certain that a larger area has been sown already than has been grown for several years past; but still, the interruption by frost may render the acreage of Wheat smaller than it would have been if the mild weather had lasted up to the end of the present month."

A dividend of 3½ per cent has been declared on the preferred stock of the Southern Pacific Company, payable on demand on and after Jan. 16, 1905, to stockholders of record of Dec. 31, 1904. Stockholders who have not already done so are requested to file mailing orders for dividends with the assistant treasurer of the company. It is stated that the declaration of a 3½ per cent dividend on the new Southern Pacific preferred stock means that the stock is placed regularly on a 7 per cent basis, the present disbursement being a semi-annual one. The $10,000,000 new preferred stock was issued in July, to bear dividends at the rate of 7 per cent per annum, so the stock is placed upon this dividend basis from the start. The declaration calls for a disbursement of $1,400,000.

AVAILABLE STOCKS OF BREADSTUFFS.

On the reverse page of this issue of the DAILY TRADE BULLETIN will be found an interesting statement of the Breadstuffs supply in Europe, America and Argentina on December 1. It is very complete. It includes the European and Argentina stocks as collected by Broomhall's *Corn Trade News*, Liverpool, a portion of the visible supply as compiled by the Secretary of the Chicago Board of Trade, the stocks in the Northwest collected by the Minneapolis *Daily Market Record*, returns from about forty points (including Denver and Pittsburg) estimated, with balance of report collected and compiled by the DAILY TRADE BULLETIN.

THE WEATHER CONDITIONS.

Extreme Northwest - Temperatures, 6 to 26; partly cloudy. Northwest - Temperatures, 2 to 24; partly cloudy. West—Temperatures, 6 to 24; cloudy; snows in Nebraska. Southwest Temperatures, 8 to 28; generally cloudy; snows general in Kansas, and light Southwest. Ohio Valley—Temperatures, 6 to 18; fair to clear.

ITEMS OF GENERAL INTEREST.

New York Exchange 25c premium.

Documentary Sterling firmer at 483¼.

Chicago Bank Clearings to-day, $35,313,191.

The failure of C. Schumacher was announced on the New York Stock Exchange.

December deliveries to-day were 95,000 bu Wheat, 80,000 bu Corn and 60,000 bu Oats.

Reported that 32,000 bu Wheat, 160,000 bu Corn, and 25,000 bu Oats were taken at the seaboard to-day.

Average cost price of Hogs at Chicago, Tuesday, was $4 48, against $4 49 Monday, and $4 53 a week ago.

Ten packers purchased 28,600 Hogs to-day; shippers, 5,500; left over, 9,000. Market closed weak. Heavy lots sold at $4 65.

Estimated receipts for to-morrow: Wheat, 43 cars; Corn, 350 cars; Oats, 62 cars; Rye, 5 cars; Barley, 21 cars; Hogs, 37,000.

A message from Congressman Boutell, of Chicago, Tuesday, quoted him as saying there will be no change in the duty on Wheat.

A cable from *Broomhall's* Buenos Ayres agent late yesterday said that weather in the North is now settled and fine, while in the South a slight freeze had occurred.

Cotton in New York averaged higher. There was less selling pressure and more disposition to buy. The rally in Stocks was also a favorable influence. Closing sales were 7@9 points higher.

In Local Securities the feature was the steadiness in most shares with only moderate support. There were gains in Biscuit, Carbon, Can, Illinois Brick, City Railway and South Side Elevated shares.

Taking effect Jan. 1 the price for resampling cars of Grain at Chicago will be reduced from 35c to 30c per car. The reduction is made by the Grain Sampling and Seed Inspection Department. Its revenues have proved larger than expected, and the trade gets the benefit.

A Minneapolis man who has made an investigation as to farmers' stocks of Wheat in North Dakota wired, Tuesday: "Farmers there who have any storage room are holding Wheat of good grade. They have about 30 per cent of their crop on hand, and there is between 40,000,000 bu and 50,000,000 bu held in the three States."

Broomhall cables: "The Prussian official estimates of this year's crop, with comparisons of previous years, are given below:

	1904—bu.	1903—bu.	1902—bu.
Wheat	89,600,000	79,248,000	89,088,000
Rye	278,400,000	268,768,000	281,040,000
Oats	316,650,000	356,000,000	337,981,000
Potatoes	21,600,000	26,763,000	29,632,000

The Western Union Telegraph Company has declared the regular quarterly dividend of 1¼ per cent, payable Jan. 1 next. Books close Dec. 20 and reopen Jan. 3. The balance of the net revenue after the payment of interest on the bonds for the first six months of the company's fiscal year is equal to 3 57 per cent on the capital stock, or 1 07 per cent more than the dividend requirements.

Stocks in New York were erratic, but closed higher on a majority of the list. London sold heavily, and there was a great deal of liquidation on in Rock Island and a few other shares. Good support was given the list early, but it sold off after the advance. Copper advanced 2 points, but sold off 2⅝. Steel advanced 1⅝, and reacted 1 point. Coalers made substantial gains and closed 1⅝@2 points higher. Money, 2½@3 per cent.

The Hungarian Ministry of Agriculture, in a report dated Nov. 26, says that during November the weather was cold, but with plenty of snow. Early sown crops show a strong, vigorous plant, and although late seedings are not so strong, they have developed in a satisfactory manner. The plants in late sown fields of Wheat and Rye had not appeared above ground when the snow came. Complaints are made of the bad keeping qualities of Potatoes and Roots.

The railroads in what is known as the official classification territory have postponed until April next the time when the proposed changes in the uniform bill of lading and rules on that subject are to take effect. Meantime freight shippers will be permitted to use the old forms of the rules. In view of this action, the Inter-State Commerce Commission has postponed to a date to be hereafter fixed the hearing on this subject, which had been set for next Thursday.

Director J. R. Sage, of the Iowa crop service bureau, in his completed estimates of the 1904 crop, shows yields that aggregate approximately $35,000,000 more than in 1903. The value of pasturage and grazing for 1904 is estimated at $90,000,000. The production of the leading staples for the past year is given as follows: Corn, 323,857,000 bu, which is 93,342,000 bu above 1903's yield; Wheat, 8,097,430 bu; Oats, 118,135,570 bu; Rye, 1,517,000 bu; Barley, 12,317,710 bu; Flax Seed, 591,140 bu; Potatoes, 14,255,630 bu; Hay (tame), 4,499,090 tons; Hay (wild), 1,101,590 tons.

The Grain Trade will learn with deep regret that J. C. BROWN, Esq., Statistician of the New York Produce Exchange, died at his home, in Brooklyn, yesterday, of pneumonia. Mr. Brown was regarded as an authority on crops, and has held his position for a number of years. He was one of Committee appointed by the President of the National Board of Trade to investigate the crop Statistics of the Census and Department of Agriculture, and was Secretary thereof, at Washington, in September, 1903, which recommended some improvement in crop collecting system, and advocated the change of the Division of Statistics of the Department of Agriculture to a Bureau, which was adopted by Congress.

The Chicago *Inter Ocean* says: "The trade is waiting for a decision from Secretary Shaw, of the Treasury Department, on the application of the Minneapolis millers for a liberal construction on the importations of foreign Wheat and its milling in transit for export. Advices from Minneapolis said it was expected Wednesday or later in the week. It is understood here by the milling interests that the mills desire to import the Wheat and export its equivalent in Flour and get a rebate of 99 per cent of the duty. The speculator thinks that the mills want the privilege of mixing foreign with domestic Wheat and exporting its equivalent in Flour. Were the mills permitted to do the latter it would be a 'bearish' argument and have a depressing effect on prices, as it would lessen demand for good Wheat and be decidedly against the interests of the American farmer."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Continues dull and neglected. Buyers backward and awaiting further concessions.

WINTER WHEAT—The market was quiet and slow. Very little milling demand, either local or outside. The feeling was easy. No. 2 Red in store ranged nominally 2@3½c over May—outside for special bin lots—ranging at $1 10¾@1 13½, and fresh arrivals free on board at $1 11@1 11½. No. 3 Red fresh arrivals free on board quotable at $1 05@1 12, with a sale at $1 11½. No. 2 Hard fresh arrivals free on board quotable at $1 08@1 12 and No. 3 Hard at $1 01@1 08.

SPRING WHEAT—Was quiet and the feeling easy. Choice Wheat, especially the hard variety, would sell, but poor Wheat dull. No. 1 Northern fresh arrivals free on board quotable at $1 15@1 17½. No. 2 Northern quotably $1 05@1 12. No. 3 Spring nominally $1 00@1 12. No. 4 Spring quotable at 56@60c for very poor to $1 00@1 05 for good to choice with sales at 83@75c.

REGULAR WHEAT—The trade was only of moderate volume and market at no time very animated. Feeling was, however, a little unsettled, with the close ½c higher for December, while May gained ⅞@1c and the July ¼c. Early in the session sentiment was rather "bullish" and the buying was of better character than the selling. Part of the purchases were credited to the Northwest and New York. The upturn in the Northwestern markets was felt here, and was partially responsible for the early covering by "shorts." Minneapolis wired the cash market had a better tone, and that the country movement was light. Receipts in the Northwest were about in line with those of a year ago, while the total primary movement was 76,000 bu smaller. Cabled did not follow the break on this side yesterday, and was an indirect strengthening influence. Liverpool quoted spot unchanged to ⅛c lower, while futures were steady. London came ¼d higher. Paris was steady to ¼c better. Antwerp and Berlin were unchanged. Buda Pesth declined ⅛c. The map showed light snows through Nebraska, Illinois, Kansas, Missouri and Oklahoma and light snows were predicted by the signal service. Minneapolis reported stocks increased 730,000 bu the past four days and claimed there were 40 cars of Canadian Wheat in to-day's receipts. Kansas City and St. Louis received 91,000 bu, against 258,000 bu one year ago. At the improvement in prices there was selling credited to prominent local elevator interests and prices settled back, but again rallied and closed around the top price. Crop news from Argentina was more favorable. Rosario cabled that the weather was favorable for harvesting operations and that there was more disposition to sell; also that the quality was improving. Buenos Ayres cabled the weather in the North was more settled and fine, while in the South a slight freeze had occurred. The official Prussian crop report made the Wheat yield 89,600,000 bu, compared with 79,000,000 bu in 1903, and 89,000,000 bu in 1902. Clearances were a little better than of late, two points at the seaboard exporting Wheat. At the close New York reported four boat loads accepted. Receipts at Duluth 35 cars, at Minneapolis 513 cars, a total of 548 cars, against 680 cars yesterday, 737 cars a week ago, and 537 cars last year. Local receipts included 1 car Winter, 15 cars Spring and 6 cars mixed, total of 22 cars, against 31 cars last year. Included in above was none contract grade. There were also 4 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 43 cars. The withdrawals were 15,200 bu. Receipts at Western points were 908,854 bu, against 985,315 bu last year. At Eastern points 75,731 bu, against 138,466 last year. Shipments from Western points 307,401 bu, against 244,618 last year, and from Eastern points 73,081 bu against 88,323 bu last year. Shipments of Flour were 4,424 brls. Exports of Wheat in Flour were equal to 92 979 bu.

Future Deliveries of Regular Wheat—Moderate trade and closing firmer.

DECEMBER—Sold at $1 05⅝@1 06⅜. Opened at $1 05⅞ to $1 06; sold to $1 06¼, to $1 06, to $1 06¼, to $1 05⅞, to $1 06⅜, to $1 06, to $1 06⅜, to $1 05⅝, to $1 06⅜, and closed at $1 06⅜.

MAY—Sold at $1 08¾ and at $1 09⅞@1 10. Opened with sales at $1 08¾ to $1 09; sold to $1 09⅜, to $1 09⅛, to $1 09⅛@1 09½, to $1 09½, to $1 09½@1 09⅝, to $1 09⅜, to $1 09⅝@1 09¾, to $1 09, to $1 09⅝, to $1 09⅞@1 10, to $1 09⅝, to $1 09⅞, to $1 09¾, to $1 09¾@1 09⅞, and closed at $1 09¾@1 09⅞ sellers.

JULY—Sold at 98c and at 98½@98⅝c. Opened at 98⅛c, sold to 98½c, to 98¼c, to 98½c, to 98⅜c, to 98½@98⅝c, to 98c, to 98⅝c, to 98c, to 98½c, to 98⅝c, and closed at 98⅝c.

SEPTEMBER—Sold at 92c.

CORN—A fair trade, with December liquidation again the feature. Closing prices showed the December off ⅝c, while May gained ¼c and July ¼@⅜c. "Long" Corn came out from the start and the bulk of the selling was credited to a prominent local professional. There was not a great deal of May on sale and floor traders were inclined to favor the buying side most of the session. Receipts were less than looked for at 301 cars and 350 cars estimated for to-morrow. Liverpool quoted spot ½d higher and futures ⅛@¼d lower. Rosario cabled that the Argentine Corn crop was expected to be very large. Primary receipts were quite heavy at 1,319,000 bu, compared with 423,000 bu one year ago, and shipments 312,000 bu and 126,000 bu, respectively. Local arrivals were 915,000 bu and shipments 136,000 bu. Shippers reported a moderate Eastern and export inquiry and sales 75,000 bu. Exports were 115,000 bu and 20 boat loads accepted at the seaboard. There was 20,000 bu contract switched from private elevators and 18,000 bu withdrawn from regular warehouses. Weather conditions continue favorable for the grading of the crop. Car lots were in fair demand and moderate supply. Prices about ¼c higher. No. 2 closed about 45¼@45½c. No. 2 Yellow closed at 45¼@45½c. No. 3 sold at 42½c, and closed at 42¼c. No. 3 Yellow closed about 42½c. No. 3 White sold at 42½c.

Corn by sample—Was in good demand with fair offerings. Feeling firm and prices unchanged to ¼c higher. Sales on track and free on board. No Grade sold at 36@38½c. No. 4 at 41@42½c. No. 3 at 42½@42¾c. No. 3 Yellow at 42½@43c. No. 3 White at 42½@42¾c. Billed through: No Grade at 36½@39c. No. 4 at 39@41½c. No. 3 at 41@42c. No. 3 Yellow at 41¼@42c. No. 3 White at 41½@41¾c.

Future Deliveries of No. 2 Corn—Fairly active and a little irregular, closing ⅝c lower to ¼@⅜c higher.

DECEMBER—Sold at 41½@46⅛c. Opened at 45⅞ to 46⅛c, and sold at 46c, to 45⅝c, to 45¾c, to 45⅜c, to 45½c, to 44⅞c, to 45¼c, to 44½c, to 44⅞c, up to 45⅝c, to 45¼c, and closed at 45¼c.

JANUARY—Sold at 42@42¼c. Opened at 42c and sold at 42¼c; closed at 42¼c asked.

MAY—Sold at 44¼@44⅜c and 44⅝c. Opened at 44⅛@44¼c to 44¼@44⅜c, and sold 44½c, to 44⅝@44⅜c, to 44½@44⅝c, to 44⅜c, to 44½c, to 44⅝c and closed at 44⅝c asked.

JULY—Sold at 44⅛@44⅞c. Opened at 44⅛c and sold at 44⅜@44¾c, to 44⅝c, to 44¾@44⅞c, to 44⅞c, and closed at 44⅞c asked.

OATS—Were bought mainly by "shorts" and sold by commission houses and spreaders who had Corn sold against their purchases and were closing them. December worked nearer to May, being 2⅛@2¼c discount in the late trading. Arrivals were 69 cars, with 82 cars expected to-morrow. Seaboard clearances none. Withdrawals 103,700 bu. Cancellations the past two days have been for 614,000 bu. Cash sales here 75,000 bu and New York reported 25,000 bu sold. Car lots to go to store were steady. No. 4 White sold at 28¼c. Standard in store closed about 28⅝c.

Oats by sample were steady, with light offerings and a moderate local and shipping demand. Sales on track and free on board. No. 4 White sold at 28½@29c. No. 3 White at 29@30c. Standard at 29¾@30⅛c. Billed through: No. 3 White at 29½c. At the river: No. 4 at 27½c. No. 4 White at 28½@28c. No. 3 at 28c. No. 3 White at 28¼@28½c. Standard at 29c.

Future Deliveries of Contract Oats—Were stronger and closed higher.

DECEMBER—Sold at 28¼c and at 28½@28⅝c. Opened at 28¼c. Closed at 28½@28⅝c.

MAY—Firmer. Sold at 30⅝@30¾c. Opened at 30⅝c, closed at 30¾c.

JULY—Sold at 30½@30⅝c. Opened at 30½c, closed at 30⅝c.

RYE—Was dull, with futures 1c lower and fresh arrivals steady. Demand limited. Two cars were received and there were no withdrawals from store. No exports from New York. No. 2 in store nominally 74c and a car by sample sold free on board at 78c. No. 3 sold at 75c and a part car No. 4 sold at 72c.

Future Deliveries of No. 2 Rye—Neglected. December 74c asked and May 77c asked.

BARLEY—Only a small business was done. Quantity of Barley on sale was very moderate, and yet some cars were left over unsold. On account of dark weather it was difficult to do much of anything. Buyers did not seem to have any urgent wants, and a number held off entirely. No change in prices was quoted. There were 25 cars posted inspected in. Prices for Screenings were quotable at 25@37c for poor to fancy quality; sales were made at 27@37c. Barley, low grade malting, at 38@40c, fair to good at 41@44c, choice at 45@48c, very fancy in round lots a shade over. No trading over 45c to-day reported.

SEEDS—A good trade in Timothy Seed was witnessed, and an easy feeling prevailed, though prices did not change materially. There was a steady Clover market, with some small lots on sale. Nothing else developed in Grass Seeds. Flax was inactive and nominally steady. Buckwheat declined.

Timothy—About a dozen cars of cash Seed appeared on the market. Fair sales were made, but it was not all sold. Buying seemed to be mainly against March delivery sales. For this there was again a fair demand and 10 cars were sold. Other deliveries rather neglected, at least inactive. An easy feeling prevailed, but prices exhibited no material change. Contract spot or December delivery was nominally $2 70, February was $2 75 bid, March sold at $2 85, and April offered at $2 90. Cash sales reported covered a range of $2 35@2 60. Market for country lots quotable at $1 75@1 65 for low grade to fancy; inferior lower; fair to good, $2 35@2 45, and rough, dirty or hulled, $2 00@2 25.

Flax—There was no trading and no change. The market was without offerings aside from a bag lot of not very good quality. The market was quotable at former prices. No. 1 Northwestern salable at $1 24, and No. 1 cash at $1 16. Rejected quotable at $1 13@1 21 depending on quality. December delivery salable $1 16 and May nominal at $1 24. Receipts here were 4 cars or 3,600 bu, and output 1 car or 1,050 bu. At Minneapolis 37 cars were received and at Duluth 23 cars.

Clover—There were some small lots of fair to good Seed offered. They met with fair sale. The market was quotably steady. Contract grade quotable at $12 50. March delivery about $12 75. Country lots, common to choice, quotable at $7 00@12 25; very poor lower, and fancy above. Fair to good, $9 75@11 50.

Other Seeds—For Hungarian and Millets the market was inactive and nominally steady. Hungarian was quotable at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05. Mustard about 75c@$1 00. Buckwheat unsettled and lower, offerings more liberal and demand light, good milling sold at $1 10.

HOG PRODUCTS—Trade was moderate in the market for Hog Products and the feeling was somewhat unsettled and prices irregular. Outside orders were limited, and local trading was on a moderate scale. Offerings were fair and the demand was moderate. Market opened rather firm and prices ruled higher on all the leading articles, influenced to some extent by the steady feeling in Hogs with a fair supply, and a little firmer tone to the Wheat market. Later, there was a little pressure to sell, while buyers were backward, and prices settled back to inside figures. Toward the close, "shorts" bought moderately, and prices rallied again and the market closed comparatively steady. Trading confined to January and May. Receipts of Hogs at the leading Western packing points were estimated at 100,500, compared with 120,000 one year ago. Foreign markets were easy and prices declined 6d on Hams and Cumberland Sides and 3d on Lard. Domestic markets were steady. Receipts of Products were quite large of Lard and Meats about 80 cars. Shipments were moderate—of Lard and Meats about 90 cars. Demand on shipping account was light and offerings were moderate. Sales were light, and prices unchanged.

Mess Pork—A fair business was reported in Mess Pork, with May contracts most in favor. Offerings were moderately free, and the demand was only fair. Market opened strong at 7c advance, and a further improvement of 5@7½c was gained, with moderate miscellaneous buying. Later, a weaker feeling was developed, and prices settled back 10@12½c, but rallied again 7½@10c toward the close, and the market closed comparatively steady. Shipping demand was light, and offerings were moderate. Cash lots were quotable at $11 15@11 25, according to quantity, with repacked at 10@15c discount.

DECEMBER—Quiet and quotable at $11 15.

JANUARY—Called for moderately, and offerings were not very large. Sales were made at $12 35@12 45. Opened at $12 45, sold to $12 35, to $12 40, and closed steady.

MAY—Offerings were rather free and the demand was fair. Sales were made at $12 65@12 77½. Opened at $12 70, sold to $12 77½, to $12 75, to $12 77½, to $12 65, to $12 75, and closed steady.

Lard—Trade was moderate in the Lard market, and the feeling was stronger in a general way. Offerings were not very large, and the demand was fair. Foreign advices were unfavorable to holders. Receipts from the interior were fairly large. Prices were advanced 2½@5c but settled back again 2½c. Toward the close, prices rallied again 2½@5c, and the market closed steady. Demand on shipping account was limited with light offerings. Cash lots were quiet and quotable at about 5c discount on January figures, closing at about $6 80. Loose lots in moderate request, with fair offerings. Prices were quotable at 50c discount on January figures. Leaf Lard was in light demand, with fair offerings. Prices quotably steady at $6 37½. Neutral in light demand, with only fair offerings. Prices quotably steady at $7 50@7 62½ for No. 1 and $7 12½@7 25 for No. 2.

DECEMBER—Quiet and quotable at $6 80.

JANUARY—In moderate demand, and offerings were fair. Sales were made at $6 82½@6 85. Opened at $6 85, sold to $6 82½@6 85, to $6 85, and closed steady.

MAY—Offerings were moderate, and the demand was fair. Sales were made at $7 07½@7 12½. Opened at $7 07½@7 10, sold to $7 12½, to $7 07½, to $7 12½, and closed steady.

JULY—Sold moderately at $7 20@7 22½, and closed steady at the range.

Short Rib Sides—Trade was fair in the market for Short Rib Sides and the feeling was steadier. Offerings were not very large, and the inquiry was fairly active. Prices were advanced 2½@5c early in the session, but a weaker feeling was developed and prices settled back 5@7½c. Toward the close rallied again 5@7½c, and the market closed steady around outside figures. Shipping demand was light and offerings were small. Cash lots quotable at $6 25@6 50 according to weight and age.

JANUARY—In fair request and offerings were moderately free. Sales were made at $6 40@6 47½. Opened at $6 42½, sold to $6 47½, to $6 40@6 42½, to $6 45@6 47½, and closed steady.

MAY—Offerings were fair, and the demand was moderately active. Sales were made at $6 67½@6 75. Opened at $6 67½, sold to $6 75, to $6 67½, to $6 75, and closed steady.

JULY—Quiet with small sales at $6 82½@6 87½, and closed at $6 87½.

Other Meats—Sales were rather small, and the feeling steady. Domestic demand was limited, and orders from abroad comparatively light. Offerings of all kinds were only moderate. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices favored buyers. Dry Salted Meats in moderate request with only fair offerings, and prices were unchanged. Smoked Meats called for moderately, and prices ruled steady. Closing prices were as follows:

GREEN—Hams, av 10@12 lbs, 8¾@8⅞c; 12@14 lbs, 8⅝@8½c, 14@16 lbs, 8⅝@8¾c; 8⅛@8¼c December, January and February; 18@20 lbs, 7⅞@8c; Skinned Hams, 9⅛@9¼c, 9⅛@9¼c December, January and February; Shoulders, 5⅞@6c; Picnic Hams, 5¾@6c, Bellies, 8½@10c. SUPPLY OF BREADSTUFFS

Stocks in Europe and America.

According to the special cablegram from Broomhall's *Corn Trade News*, Liverpool, to the DAILY TRADE BULLETIN, the supplies of Breadstuffs—Flour and Wheat—in second hands in store in the principal countries of Europe, in Argentina, and afloat for Europe on December 1, 1904, exhibited a decrease equal to 1,034,000 bu during November, compared with an increase of 9,066,000 bu during October, and a decrease of 810,000 bu during November, 1903. The aggregate quantity of Breadstuffs afloat for Europe on December 1, 1904, exhibited an increase of 4,320,000 bu during November, compared with a decrease of 2,770,000 bu during October, and a decrease of 5,360,000 bu during November, 1903. Supplies en route to the United Kingdom were enlarged 630,000 bu, those for the Continent increased 1,440,000 bu, and those "for orders" increased 2,000,000 bu. The aggregate supplies afloat for Europe on December 1, 1904, were 12,190,000 bu more than reported one year ago, and 10,070,000 bu more than reported two years previous. During November, 1904, the aggregate supplies in store in the principal countries of Europe were increased 4,590,000 bu, compared with an increase of 12,760,000 bu during October, and an increase of 2,110,000 bu during November, 1903. Stocks in the United Kingdom were enlarged 2,240,000 bu, those in France increased 1,220,000 bu, those in Germany, Belgium and Holland decreased 1,330,000 bu, those in Russia decreased 4,780,000 bu, and those in other parts of Europe decreased 2,760,000 bu. Stocks in Russia were increased 2,500,000 bu during October, and were increased 4,270,000 bu during November, 1903. Supplies in store in Russia are about 7,460,000 bu less than reported one year ago, and 2,140,000 bu less than reported two years ago. The aggregate stocks in store in Europe on December 1, 1904, were 940,000 bu less than reported one year previous, and 15,480,000 bu more than two years previous. Supplies in Argentina decreased 664,000 bu during November, compared with a reduction of 560,000 bu in November, 1903. Compared with the returns of one year ago, the supplies of Breadstuffs in store and afloat for the United Kingdom on December 1, 1904, were 3,040,000 bu more than for the Continent, 1,120,000 bu less, and those "for orders" 9,920,000 bu more. The aggregate supplies of Breadstuffs credited to Europe in all positions on December 1, 1904, were 10,040,000 bu more than reported on December 1, 1903, and 25,560,000 bu more than on December 1, 1902. Latest advices from Europe indicate that rains have prevailed in most sections, and in a general way the outlook for the fall sown Grain has been somewhat improved, especially in the United Kingdom, Germany, France, Italy, Spain and Russia. Prospects in Roumania are quite favorable. Reports from Argentina are somewhat conflicting, though it is generally believed that the yield will not vary much from last year, but quality will be poor as damaged somewhat by rain. Crop outlook in India quite favorable. Reports from Australia are not very favorable, and the exportable surplus will be smaller than last year.

DOMESTIC SUPPLIES OF BREADSTUFFS.

The aggregate supplies of Breadstuffs Flour and Wheat—in the United States and Canada on December 1, 1904, as compiled by the *Daily Trade Bulletin* and the Minneapolis *Market Record*, exhibited an increase during November of 19,223,000 bu, 741,000 bu, compared with an increase of 19,223,000 bu during October, and an increase of 13,963,000 bu during November, 1903. The increase this year in the Middle States, slight in the Central West, and liberal in the Northwest and in Canada. Supplies in the Southwest show little change, but are fully equal to those of one year ago. On the Pacific Coast there was a moderate reduction in stocks, partially due to the movement Eastward. During November, 1904, stocks of Flour in the United States and Canada in second hands increased 97,000 brls, compared with an increase of 337,000 brls in October and an increase of 282,000 brls during November, 1903. Stocks increased considerably in the Eastern and Middle States, in Ohio, and in the Southwest, while there was little change in the Central West and Canada. Fair reductions in the Northwest and on the Pacific Coast, shipments by lake, and a slight decrease on the Pacific Coast. Millers produced fair quantities. The following table exhibits the stocks of Flour in the principal cities of the United States on the dates named:

Cities.	Dec. 1, 1904. Brls.	Nov. 1, 1904. Brls.	Dec. 1, 1903. Brls.
Philadelphia	165,000	130,000	125,000
New York	118,000	94,100	76,200
Chicago	32,500	30,500	31,500
St. Louis	53,500	47,370	62,874
Toledo	13,000	12,000	3,500
Baltimore	38,000	37,000	47,000
Detroit	11,000	12,000	12,000
Boston	104,425	82,195	82,425
Milwaukee	65,740	68,864	181,500
Duluth	171,000	332,000	140,000
Total	835,305	857,586	725,912

Stocks of Flour at the points were decreased 22,281 brls during November, compared with an increase of 117,895 brls during October, and a decrease of 2,257 brls during November, 1903. The aggregate supplies of Flour at the principal interior seaboard markets on December 1, 1904, were 466,335 brls, compared with 488,616 brls on November 1, and 328,836 brls on December 1, 1903. The aggregate supplies of Flour in the United States and Canada on December 1, 1904, were about 415,000 brls more than reported on December 1, 1903, and 325,000 brls more than reported on December 1, 1902.

During the month of December the supplies of Wheat in the United States and Canada were enlarged 19,306,000 bu, compared with an increase of 17,765,000 bu during October, and an increase of 12,824,000 bu during November, 1903. Supplies were enlarged in the Middle States, in Ohio and Michigan, in the Northwest and in Canada. Slight reductions made in some of the States of the Central West and the South. The increase in the Northwest during November was about 4,861,000 bu, and in Canada about 5,984,000 bu. No definite report made of the quantity of Wheat in the interior elevators of the Northwest. The DAILY TRADE BULLETIN regards it safe to estimate the increase in that quarter at about ten per cent, or about 577,000 bu, compared with an increase of 1,072,000 bu in October, and an increase of 685,000 bu in November, 1903. Under this calculation the supplies would be about 6,383,000 bu, compared with 5,776,000 bu on November 1, and 5,706,000 bu December 1, 1903. The aggregate supplies of Wheat in second hands in the United States and Canada on December 1, 1904, were 19,306,000 bu more than one year ago, and 14,418,000 bu less than two years ago.

SUPPLIES AT HOME AND ABROAD.

The aggregate supplies of Breadstuffs afloat for Europe, in store in Europe and Argentina, and in store in the United States and Canada on December 1, 1904—including a larger number of points than in any other compilation—were equal to 199,881,000 bu, against 185,181,000 bu on November 1, and 174,085,000 bu on December 1, 1903. The increase during November was equal to 14,720,000 bu, compared with an increase of 9,643,000 bu in November, 1903. The aggregate supplies in all positions in America, Europe and Argentina on December 1, 1901, were 25,196,000 bu more than reported one year previous, and 14,152,000 bu more than reported two years ago.

STATISTICAL POSITION OF WHEAT.

The movement of Wheat to the primary markets of the United States from July 1 to December 1 was about 152,000,000 bu, compared with 131,000,000 bu for the corresponding period in 1903. The exports of Flour and Wheat during the same period were about 71,000,000 bu, compared with 68,000,000 bu for the same time last year a decrease of 47,000,000 bu, or 40 per cent. The total visible supply of Wheat on December 1 was about 4,800,000 bu more than one year previous. Estimating the Wheat crop of the United States at 650,000,000 bu, and allowing 72,000,000 bu for supplies in all positions on July 1, 1904, the aggregate supplies for twelve months would be approximately 822,000,000 bu. Allowing 150,000,000 bu for exports and 75,000,000 bu for seeding purposes, and 2,000,000 bu for export to date—thus accounting for 511,000,000 bu—there would remain for export during the next seven months 311,000,000 bu, against July 1, 1903, about 111,000,000 bu. The exports from December 1, 1903, to July 1, 1904, were about 35,000,000 bu, or an average of less than 5,000,000 bu per month.

FLOUR TRADE DURING NOVEMBER.

Trade in Flour was on a moderate scale in the United States, but fairly active and fairly active in Canada. The production in the United States was fair, especially early in the month, but not as large as in October, and the demand, as a rule, was only fair, and almost entirely for small home wants. Bids from exporters were out of line, and only occasional orders were provided for. Merchants in the domestic trade were very conservative in their purchases, and only bought to carry very large supplies. The nervousness in the Wheat market with considerable irregularity in prices, in conjunction with rather high prices at the larger markets—in view of the alleged very "short" crop—tends to a slow and somewhat drag ging condition in the general trade. Supplies were slightly enlarged, and in some instances due to arrivals from the Northwest and Pacific Coast as some of the leading Flour centers of the East. Some of the mills in the Northwest resume on partial time. A fair share of the few export orders accepted were for low grades. In New England, the demand for Flour was moderate and generally for small quantities for home wants. In New York, there was a moderate trade at most of the larger milling points, while the smaller towns were favored with a fairly good local trade. A few export orders were accepted, but only for small lots. Reports from Pennsylvania indicated a fairly good demand for home wants, but supplies were considerably increased. Trade in Maryland was comparatively light, and chiefly in small quantities. In Virginia and West Virginia, trade was dull in a general way, and sales were slow and of moderate quantities for home wants. In Kentucky and Tennessee trade was on a moderate scale, chiefly for domestic wants, and supplies were considered liberal. In Ohio, production was fairly large, with a good increase in stocks, and sales were only fair. Buyers cautious. In Michigan, trade was on a moderate scale, and chiefly for home wants. In Indiana trade was a little more enterprising—production only fair, and trade was moderate for domestic wants. In Illinois there was only a fair business reported. A few small export orders accepted. Demand mainly for home wants. In Missouri trade was rather slow. Export orders small, and domestic demand conservative. Supplies increased moderately. Reports from Kansas indicated only a fair trade generally. Trade in Oklahoma was moderate, and almost exclusively for home wants. In Texas, trade was slightly improved. A few export orders were accepted, but the exports were small. Domestic demand was indifferent. In Iowa and Nebraska there was only a fair trade for home wants. In Wisconsin, the demand was fair on domestic account, and a moderate export business was transacted. In the Northwest the production was only fair, considering the capacity, and trade was only moderate. Considerable complaints among the trade of manufacturers' Export business, but rather light. Supplies were shipped Eastward by the lake route, and were considerably reduced. Trade in the Rocky Mountain district was moderate, and chiefly for local wants. On the Pacific Coast, there was a fairly good business transacted. Shipments to the Eastern markets were fair, and the exports for the month were nearly 300,000 brls, chiefly to China and Japan. Millers in Canada enjoyed quite a good trade. Home demand was quite good, and export orders were somewhat in excess of previous month. Premium grades. The low prices prevailing, in comparison with other countries, encourages a fair export trade abroad. Production for the month about disposed of.

WHEAT MOVEMENT DURING NOVEMBER.

The movement of Wheat from the farms during November was fairly liberal—about 50,000,000 bu—compared with 60,000,000 bu in November, 1903, and 39,000,000 bu in 1902. The movement was quite liberal in the Northwest and also on the Pacific Coast, scattered through the East, Central West and South. This accounts in a measure for the rather unexpected increase in supplies in some sections of the country where the crop was reported deficient. It may be somewhat surprising to the general trade to know that, notwithstanding a shortage of 85,000,000 bu to 90,000,000 bu in the aggregate yield of Wheat, that supplies in sight (visible) in Ohio, Michigan, Indiana, and the Southwest, the Northwest, and on the Pacific Coast are all larger than reported one year ago. Supplies in Canada were enlarged about 6,000,000 bu during November, and are about 5,000,000 bu larger than one year ago. The aggregate movement during the past four months was approximately 152,000,000 bu, compared with 131,000,000 bu in the corresponding time in 1903, of which about 50,000,000 bu is in second hands. The quantity remaining in farmers' hands for commercial purposes—exclusive of the quantities required for spring seeding—is approximately 260,000,000 bu, of which 238,000,000 bu will be required for consumption for seven months. Farmers were quite busy during the past month in securing their Corn crop, and this feature checked the movement in some quarters. It was evident that millers in some of the older sections of the country were enabled to secure moderate quantities of home raised Wheat. Export business is still limited, as the high prices checked orders on the basis of about 4,500,000 bu monthly. In New England, the supplies are still very small, but larger than reported one month ago. In New York, there are quite liberal receipts from the West, and stocks were enlarged, while the movement in the interior was small. In Pennsylvania, the offerings were only sufficient to equal to general requirements. In Maryland, Virginia, West Virginia, Kentucky and Tennessee, the offerings were moderate. In Ohio, supplies were increased somewhat, due to fair local offerings, and good receipts from outside the State. In Michigan, the local offerings were small, but receipts from outside were fairly liberal. In Indiana, the offerings were on a moderate scale, and supplies were slightly reduced. In Illinois, the offerings were not very large, about equal home requirements. Heavy shipments were reduced by fair shipments from Chicago. In Missouri, the movement was fair, and supplies were well maintained. In Kansas, farmers were fair sellers, especially in the sections where the crop was good, and stocks were slightly increased. In Texas and Oklahoma, the movement was moderate, but supplies were enlarged by receipts from other points. In Farmers' supplies were reduced. In Iowa and Nebraska, the offerings were fair, and supplies were slightly enlarged. In Wisconsin, the movement was on a moderate scale. In the Northwest, there were fair offerings, but the movement was checked somewhat owing to a lack of railroad facilities. Supplies were enlarged, both at terminal points and in the interior. In the Rocky Mountains districts the offerings were moderate. On the Pacific Coast, the movement was light in California and rather free in Washington and Oregon, and shipments to the Eastward being quite free. In Canada, the receipts of Wheat were unusually free in the Northwest, while the offerings in the East were small. Sales were quite liberal in the interior of the elevator interests, with some export demand. Stocks were materially enlarged.

AREA AND CONDITION OF WHEAT.

According to the report of the Department of Agriculture the area seeded to Wheat this fall has been about 31,155,000 acres, or 98.4 per cent of that seeded in the fall of 1903. The average condition is reported at 82.9, which under present circumstances would make a crop of about 435,000,000 bu. The condition one year ago was 88.6, and at harvest 78.4. About 1,500,000 acres were abandoned in the spring of 1904.

YIELD OF CORN.

Reports received by the DAILY TRADE BULLETIN from the different sections of the country indicate that the aggregate yield is fully as large as that indicated by the Department of Agriculture, especially in the Central West and West.

DAILY MOVEMENT OF GRAIN AND PRODUCE.

The following were the Receipts and Shipments of Flour, Grain and Produce for the past 24 hours, as compared with the same time last year:

Articles.	Receipts. 1904.	Receipts. 1903.	Shipments. 1904.	Shipments. 1903.

ITEMS OF GENERAL INTEREST.

New York Exchange 25c premium.

Documentary Sterling firm at 483¼.

Chicago Bank Clearings to-day, $30,937,180.

Reported that 80,000 bu Corn were taken at the seaboard to-day for export.

Deliveries on December contracts to-day were 45,000 bu Wheat, 1.5,000 bu Corn and 10,000 bu Oats.

Ten packers purchased 27,400 Hogs to-day; shippers, 5,000; left over, 12,000. Market closed weak.

Estimated receipts for to-morrow: Wheat, 95 cars; Corn, 414 cars; Oats, 19 cars; Barley, 21 cars; Hogs, 30,000.

Cotton weakened on realizing sales. Supporting orders were less numerous. Closing sales were at losses of 14@16 points.

Receipts of Wheat at Duluth from Aug. 1, 1904, to date are 18 810,000 bu, against 22,071,834 bu for the same time last year.

The Ministers in Council of Roumania have exempted from duty all Hay, Straw and Fodder imported into that country.

Average cost price of Hogs at Chicago, Wednesday, was $4 50, against $4 48 Tuesday, $4 45 a week ago, and $4 41 a year ago.

The directors of the Northern Trust Company, Chicago, have declared the regular quarterly dividend of 2 per cent, payable Jan. 3 to stockholders of record Dec. 12.

The light receipts of Wheat at Minneapolis are partially explained from the fact that there is nothing in on the Soo Road this morning on account of a wreck.

Local Securities were irregular with moderate trading. Gains on the whole exceeded losses, but both were fractional except Shipbuilding common, which lost 2½.

The weekly Bank of England's statement shows a decrease of $3,258,255 in bullion. The proportion of the bank's reserve to liabilities is 45.37 per cent, against 45.93 per cent last week.

Winnipeg had 181 cars of Wheat to-day, against 314 cars for two days a year ago. Inspection, 22 cars No. 1 Northern, 50 cars No. 2 Northern, 49 cars No. 3 Northern and 60 cars lower grades.

The governors of the New York Stock Exchange voted, Wednesday, to close the Exchange on Saturday, Dec. 24. The Exchange thus will be closed from Friday, Dec. 23 to Tuesday, Dec. 27.

The action of the Steel rail pool in fixing $28 00 as the price per ton for Steel rails for the first quarter of 1905 is expected to be followed by announcements of rail orders from the principal roads.

The question of permitting millers in the United States to grind an admixture of American and Canadian Wheat and get a drawback on the exportation of the product has been referred to the attorney general for an opinion.

In New York there is considerable demand for six month's loans at 3½ per cent and loans are being made at that figure. The best judges of the market say such conditions foreshadow much higher prices for stocks during the first half of 1905.

Broomhall cabled as follows: "Our Argentine agent estimates the Wheat shipments this week will amount to about 400,000 bu and about 1,600,000 bu of Corn. The weather is now very fine with prospects good and harvesting progressing satisfactorily."

The Cincinnati *Price Current's* weekly crop summary says: "Snow in central regions partially relieves Wheat crop temporarily, but general position not essentially bettered. Corn offered freely where prices are maintained. Wheat and Oats moving moderately."

A Kansas City message says: "That at the Millers' meeting, Wednesday, it developed that none of the mills have over three weeks supply of Wheat on hand. One of the large Kansas millers said he did not believe they had over fifteen days stock of Wheat on hand."

The Argentine Department of Agriculture reports the area sown to Wheat this year as 12,714,795 acres, against an area harvested last year of 9,275,178 acres. Based on the last report of condition this would indicate a yield this year in Santa Fe Province of 41,600,000 bu, against 39,287,000 bu last year.

Stocks of Wheat in store at Fort William, Port Arthur, Keewatin, Winnipeg and interior country points are approximately 12,431,000 bu, against 11,409,000 bu a week ago, 9,252,000 bu a year ago, 12,894,000 bu two years ago, 11,409,000 bu three years ago, 4,850,000 bu four years ago, and 7,800,000 bu five years ago.

Denials of the statement that Louisville and Nashville will lease Nashville, Chattanooga and St. Louis and that Louisville and Nashville may then be leased by Atlantic Coast Line are understood to be technical and to merely deal with the question as to consummation of such a plan in the near future.

The Cincinnati *Price Current* reports the packing of the West for the week at 710,000 Hogs, compared with 765,000 for the week previous and 630,000 for the corresponding week in 1903. Total packing in the West since Nov 1 about 3,720,000 Hogs, compared with 3 140,000 Hogs to date last season, an increase of 580,000.

Stocks in New York had a better tone and advanced. Boston sent large buying orders for Copper and it advanced 2½. The "bears" were less aggressive, and there appeared to be more scattered buying. Railway shares advanced ⅜ to 4 points. Industrials moved up ⅛ to 1½ points and held well. Money 2¾ to 3 per cent.

The *Corn Trade News* of Dec 1 says: "There are still complaints from France of insufficient moisture from some districts of the South and Centre, but generally the agricultural outlook is considered to have improved somewhat as a consequence of recent weather. This moderate improvement in the crop situation has had no effect on prices, however, for at most Provincial centres Wheat is 6d dearer, and at some points in the Centre is advance is quoted."

The report of the Central Statistical Committee of Russia giving the Spring Wheat crops, enables a statement of total Russian crops to be made up, as the winter crop report was published a short time previous. The figures are as follows for the Russian Empire:

	1904—bu.	1903—bu.
Spring Wheat	457,024,000	419,768,000
Winter Wheat	206,167,000	200,374 000
Total Wheat	663,191,000	620,142,000
Rye	990,603,0 0	892,228,000
Oats	1,139,900,000	843,330,000
Barley	329,184,000	342,096,000
Corn	25,980 000	50,732,000

The production of Wheat by the above statement is considerably larger than last year instead of smaller, as was stated during the fall, and explains the enormous Russian exports. In fact, all the crops, excepting Barley and Corn, are much larger than last year, and puts the Russian Empire in a very strong exporting position, which, as a result of war and on account of the price, is an immense benefit to the Russian Empire.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is still quiet, although Minneapolis millers reported a better demand.

WINTER WHEAT—A quiet, slow trade was reported, but prices about 1c higher in sympathy with the speculative market. Sales since yesterday were 40,000 bu. No. 2 Red in store ranged nominally 1@3½c over May outside for special bin lots ranging at $1 11⅝@1 14½, and fresh arrivals free on board at $1 14½@1 15½. No 3 Red fresh arrivals free on board quotable at $1 09@1 13. No 2 Hard fresh arrivals free on board quotable at $1 09@1 11 and No 3 Hard at $1 01@1 08.

SPRING WHEAT—Was quiet and prices about 1c higher. Choice Wheat, especially the hard variety, would sell, but poor Wheat dull. No. 1 Northern fresh arrivals free on board quotable at $1 15½@1 18½. No. 2 Northern quotably $1 05@1 14. No. 3 Spring nominally 98c@$1 13, with sales at $1 01½@1 05. No. 4 Spring quotable at 56@60c for very poor to $1 00@1 05 for good to choice with sales at $1 00@1 01.

REGULAR WHEAT—There were gains of ½@1⅜c for the day. Cash sales were small 60,000 bu in mixed lots here, but none at the seaboard. The demand from "shorts" continued right up to the close and the resting spots were around the top. Minneapolis led the early advance in Wheat, the influences being the reported improvement in the demand for Flour up there, coupled with smaller receipts at both Minneapolis and Duluth. It was learned later, however, that the smaller receipts at Minneapolis had been caused by a wreck on the "Soo," some of the trains having been delayed. An inquiry sent to Minneapolis relative to the prospective receipts brought back the following answer "Expect Wheat receipts to run some heavier than to-day for a couple of weeks to come." Those on the buying side of the market seemed to overlook the fact that Wheat stocks at Minneapolis have increased 935,000 bu in five days, and also that the weather in Argentina was reported by *Broomhall* as excellent for the cutting and handling of Wheat. The *Price Current* says that snow in Central regions has partially relieved the Wheat crop temporarily, but that the general position of the plant is not essentially bettered and that the movement is only moderate. The weather indications are for warmer and fair to-night and Friday in Illinois, Indiana, Missouri, Iowa, South Dakota, Nebraska and Kansas; cloudy in other sections. The *Northwestern Miller* in its weekly resume says that the Minneapolis Flour output there last week was increased 8,125 brls; that the quantity turned out was 279,370 brls, against 384,015 brls in 1903, and 282,855 brls in 1902; the mills sold considerably less Flour last week than in the preceding week, and that of late quite a quite a quantity of Patent, to be made from Canadian Wheat, has been sold in United Kingdom markets. Kansas City and St Louis both reported a better demand for cash Wheat at higher prices. The official and final Russian crop report makes the total Spring and Winter Wheat crops at 663,191 000 bu, against 620,142 000 bu a year ago. The Rye crop is placed at 590,603,000 bu, compared with 892,228,000 bu. The cable received in alluding to the Russian report said in part: "Production of Wheat, by the above statement is considerably larger than last year instead of smaller, as was stated during the fall, and explains the enormous Russian exports. In fact, all the crops, excepting Barley and Corn, are much larger than last year, and puts the Russian Empire in a very strong exporting position. Southwestern receipts 81,000 bu, compared with 100,000 bu a week ago, and 313,000 bu a year ago. A Kansas City message says that twenty-nine Missouri and Kansas millers there yesterday reported the total bushels of Wheat on hand at 1,800,000—enough at the present rate of grinding to last twenty-one days. Seventeen millers reported not enough Wheat in the country to keep them running the balance of the crop year. Receipts at Duluth 140 cars, at Minneapolis 290 cars, a total of 430 cars, against 548 cars yesterday, 792 cars a week ago, and 403 cars last year. Local receipts included 3 cars Winter, 40 cars Spring and 4 cars mixed, total of 47 cars, against 89 cars last year. Included in above was none contract grade. There were also 16 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 95 cars. The withdrawals were 5,000 bu. Receipts at Western points were 566,872 bu, against 805,892 bu last year. At Eastern points 57,989 bu, against 184,793 last year. Shipments from Western points 245,393 bu, against 201,618 last year, and from Eastern points 36,344 bu against 96,499 bu last year. Shipments of Flour were 4,429 brls. Exports of Wheat in Flour were equal to 56,271 bu.

Future Deliveries of Regular Wheat—Fair trade and prices higher.

DECEMBER—Sold at $1 07@1 07⅞. Opened with sales at $1 07 to $1 07⅛; sold to $1 07⅝, to $1 07¼, to $1 07¾, to $1 07⅝, to $1 07⅞, to $1 07¾, and closed at $1 07¾.

MAY—Sold at $1 09⅝@1 11. Opened with sales at $1 09⅞ to $1 09⅝; sold to $1 10⅛, to $1 10, to $1 10⅜, to $1 10, to $1 10½, to $1 10¼, to $1 10⅝, to $1 10⅜, to $1 11, to $1 10⅝, to $1 10⅞, to $1 10⅝, to $1 10¾, to $1 10⅝, and closed at $1 10⅝ bid.

JULY—Sold at 98⅜@98½c and at 99⅛c. Opened with sales at 98¾@98½c to 98½c; sold to 98⅝c, to 98½@98⅝c, to 98⅞c, to 98½@98⅝c, to 99⅛c, to 99c, to 98¾c, to 98⅞c, and closed at 98¾@98⅞c.

CORN—The closing prices for the day were ¼@⅝c higher. The market closed tame, with trade dull. The seaboard reported 10 loads taken there for export. Cash sales here, 125,000 bu. Argentina is expected to ship 1,600,000 bu for the week. There was continued liquidation of "long" December by scattered holders and the price declined in consequence as the support was lacking. The May was well taken and ruled stronger during the morning. The selling of May was scattered throughout the trade, some of it coming out on country account. Acceptances on bids sent out last night were reported as fairly good. The Russian crop as made by the final report is for a total yield in that country of only 25,980,000 bu, compared with 59,732,000 bu a year ago. Liverpool reported the Roumanian Government as a buyer of Corn in that market. Local receipts 390 cars, with only 1 car contract; 228 cars and 17 000 bu were switched from unlicensed houses and 17,000 bu from public houses. Primary receipts were 792,000 bu, against 291,000 bu one year ago. Clearances were 271,000 bu against 84,000 bu a year ago. Liverpool unchanged for spot and ⅛d higher for futures. Car lots firm and ¾c higher. No. 2 sold at 46c and closed at 45½@45¾c. No 2 Yellow closed at 45½@45¾c. No 3 sold at 43@43¼c and closed at 43¼c. No. 3 White sold at 43¼c. No. 3 Yellow sold at 43¼c and closed at 43¼c. No. 4 sold at 42¼@43c.

Corn by sample—Was in good demand and prices ½@¾c higher. Offerings moderate. Sales on track and free on board: No Grade sold at 28@39c. No. 4 at 42@42¾c. No. 3 at 43@43½c. No. 3 Yellow at 43¼@44c. No. 2 at 46c. No 3 White at 43¼@43½c. Ears at 47@48c. Billed through: No Grade at 37@40c. No. 4 at 40¼@42c. No. 3 at 41½@42½c. No. 3 Yellow at 41¾@42½c. No. 3 White at 41¾@42¼c.

Future Deliveries of No. 2 Corn—There was more or less pressure on the December early, but it closed ¼c higher. The more deferred months, especially the May, was in demand and ⅜c better. July gained ⅜c.

DECEMBER—Sold at 45@46¼c. Opened at 45⅛c to 45c, sold to 46¼c, to 45¾c, to 45¾c, to 45½c, to 45⅝c, to 45⅜c, closing at 45½c asked.

JANUARY—Sold at 42¼@42⅝c. Opened at 42¼c; sold to 42⅝c, and latter was bid at close.

MAY—Sold at 44½@44⅝c to 45⅛c. Opened at 44⅝c to 44½@44⅝c, sold to 45c, to 44⅞c, to 45⅛c, to 45c and closed at latter.

JULY—Sold at 45 to 45⅜@45½c. Opened at 45c, sold to 45⅜@45½c, and closed latter.

OATS—Were advanced ⅜@½c and closed at the top. The strength was due to smaller offerings, light arrivals, advance in other Grains and better buying by commission houses and "shorts." December showed the most strength and sold at 2c under May at one time. Arrivals were 68 cars, with 11 cars contract. Estimates to-morrow only 10 cars. Withdrawals were 1 6,725 bu. Cancellations 125,000 bu. Cash sales were 50,000 bu. Seaboard clearances only 425 bu. Car lots in store and to go to store were ⅛c higher. No. 3 White sold at 27½c. Standard in store closed about 29⅛c.

Oats by sample advanced ½c. Demand was fair, but the feature was the very small offerings, which with the advance in futures, strengthened values. Sales on track and free on board. No. 4 White at 28¼@29c. No. 3 White at 29@31c. Standard at 30¼@30½c. No. 2 at 30c. No 2 White at 31@31½c. Billed through: No. 4 White at 26½@28¼c. No. 3 White at 30½c. Standard at 30¼@30½c. At the river: No. 4 White at 27@28c. No. 3 White at 28@29½c. Standard at 28¼c.

Future Deliveries of Contract Oats—Advanced due to reduced offerings.

DECEMBER—Sold at 28¾@29⅛c. Opened at 28¾c, sold to 29⅛c, closed at 29@29⅛c.

MAY—Liberally traded in. Sold at 30¾@31⅛c. Opened at 30¾c to 30⅞c, sold to 31⅛c, closed at 31⅛c.

JULY—Sold at 30⅝@30¾c and at 31@31⅛c. Opened at 30⅝@30¾c, sold to 31@31⅛c at close.

RYE—Was dull as ever and the first sales within a week were made for May delivery; prices 1@2c lower and cash unchanged. Three cars were received and one car withdrawn from private warehouse. No exports from New York. No. 2 in store nominally 73c and fresh arrivals free on board quotably 77@78½c. No. 3 nominally 74@76c.

Future Deliveries of No. 2 Rye—Quiet. December nominally 73c. May sold early at 75c, and later at 78c; closed at 75c bid and 78c asked.

BARLEY—The Barley on the market sold very well. Some cars remained over from yesterday, but fresh arrivals were rather light. There was no more than a moderate supply of malting, very little feed offered, and some decrease in supply of Screenings. Some thought the lower grade a shade better, but as a rule there was quoted an all around steady market. Everything cleaned up nicely. Some sold to-arrive and negotiations were going on for the sale of more. There were posted 25 cars. Screenings were quotable at 25@36½c for poor to fancy quality. Feed Barley about 37@38c. Low grade malting, at 38@40c, fair to good at 41@44c, choice at 45@48c; very fancy in round lots a shade over.

SEEDS—Very little was done. Some cash Timothy was said to have been sold, but the only business reported was in March delivery Timothy. The market for all lines was quotably steady. No changes in prices developed.

Timothy—Was about steady. A few cars for March delivery were sold at the last quotation—$2 85, and that remained bid. Other futures were inactive and nominally unchanged. December quotable at $2 72½, January at $2 75, and February held at $2 80. Cash offerings were much smaller, hardly any fresh lots on the market. Last quoted prices were obtainable, and country lots quotable at $1 75@2 65 for low grade to fancy; inferior lower; fair to good, $2 35@2 45, and rough, dirty or hulled, $2 00@2 25.

Flax—There was no trading and there could not be, owing to an absence of offerings. Prices quoted were the same as yesterday. The market was nominally steady. Local movement was 5 cars or 4,500 bu received and none taken out. Northwestern receipts were 28 cars at Minneapolis and 68 cars at Duluth. Nominal prices were as follows: No. 1 Northwestern salable at $1 21, and No. 1 cash at $1 16. Rejected quotable at $1 13@1 21 depending on quality. December delivery salable $1 16 and May offered at $1 21.

Clover—Samples were shown with a view of getting bids to arrive. Buyers indifferent toward such lots unless there was some certainty that they would come here. Spot Seed was quoted as steady at former prices. Contract grade quotable at $12 50. March delivery about $12 75. Country lots, common to choice, quotable at $7 00@12 25; very poor lower, and fancy above. Fair to good, $9 75@11 50.

Other Seeds—Were inactive and nominally steady. Hungarian was quotable at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05. Mustard about 75c@$1 00. Buckwheat easy; some offered and $1 10 was bid for good milling.

HOG PRODUCTS—The trade in Hog Products was again moderate, the market ruling quiet and uninteresting most of the session. Feeling manifested was comparatively firm, resting prices showing slight gains compared with yesterday's final figures. Outside orders were again limited and local trading was very moderate. Market started rather firm and prices later ruled quite strong, influenced chiefly by the firm feeling in Hogs and better tone to the Grain markets. Trading was confined to January and May. Receipts of Hogs at the leading Western packing points estimated at 98,500, compared with 89,000 one year ago. Foreign markets were again easier. Bacon was quoted 6d to 1s lower, and Hams 6d lower, while Lard was unchanged. Domestic markets were steady. Packing of the West for the season reported 580,000 Hogs ahead of last year. Receipts of Product were moderate—of Lard and Meats about 21 cars. Shipments were only fair—of Lard and Meats about 91 cars. Demand on shipping account was again limited and offerings moderate. Sales were small and prices without any essential change. Local stocks of Pork are now estimated at 26,000 brls old and 8,000 brls new. Lard—12,500 tcs old and 18 500 tcs new. Ribs—500,000 lbs old and 9,500,000 lbs new.

Mess Pork—Only a moderate trade was witnessed in the market for Mess Pork and that confined almost exclusively to May contracts. Offerings were not very large and the demand very fair. Market started slightly higher, a decline of 5c following. Later, a stronger tone developed and a recovery of 15@17½c took place and the close was comparatively steady. Shipping demand was light, and offerings were moderate. Cash lots were quotable at $11 25@11 35, according to quantity, with repacked at 10@15c discount.

DECEMBER—Quiet and quotable at $11 25.

JANUARY—In better request and offerings again rather light. Sales were made at $12 40@12 55. Opened at $12 40, sold to $12 55, and closed steady.

MAY—Offerings were moderate and demand very fair. Sales were made at $12 72½@12 90. Opened at $12 75 to $12 77½, sold to $12 72½, to $12 80, to $12 77½, to $12 87½, to $12 85, to $12 90, to $12 85@12 87½, to $12 87½@12 90, and closed steady.

Lard—Trade was moderate in the market for Lard and the feeling in a general way quite firm. Offerings were only moderate and the demand just fair. Foreign advices were steady. Receipts from the interior moderate. Prices started 2½c lower, and a further decline of 2½c followed. Later, the tone was stronger and prices advanced 5@7½c, and the close was quite firm around outside prices. Demand on shipping account was limited, with light offerings. Cash lots were quiet and quotable at about 5c discount on January figures, closing at about $6 82½. Loose lots in moderate request, with fair offerings. Prices were quotable at 50c discount on January figures. Leaf Lard was in light demand, with fair offerings. Prices quotably steady at $6 37½. Neutral in light demand, with only fair offerings. Prices quotably steady at $7 50@7 62½ for No. 1 and $7 12½@7 25 for No. 2.

DECEMBER—Quiet and quotable at $6 82½.

JANUARY—Demand moderate, and offerings not very large. Sales were made at $6 85@6 87½. Opened at $6 85, sold to $6 87½, and closed steady.

MAY—Demand fair and offerings moderate. Sales were made at $7 07½ and $7 12½@7 15. Opened at $7 10, sold to $7 07½, to $7 12½@7 15, and closed steady.

JULY—Sold at $7 20 and closed at $7 22½ bid.

Short Rib Sides—Just a moderate trade was reported in the market for Short Rib Sides, and the feeling prevalent was rather firm. Offerings were only moderate and inquiry just fair. The start was firm, and after selling off slightly, advanced 5@7½c, and the close was comparatively steady. Shipping demand was light and offerings were small. Cash lots quotable at $6 25@6 50 according to weight and age.

JANUARY—In moderate request and offerings light. Sales were made at $6 42½@6 45 and $6 50. Opened at $6 45, sold to $6 42½@6 45, to $6 50, and closed steady.

MAY—Offerings moderate and demand fair. Sales were made at $6 72½@6 75 and $6 80. Opened at $6 75, sold to $6 72½@6 75, to $6 80, and closed steady.

JULY—Quiet, closing at $6 92½ bid.

Other Meats—Sales were rather light, and the feeling steady. Domestic demand was limited, and orders from abroad comparatively light. Offerings of all kinds were only moderate. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices favored buyers. Dry Salted Meats in moderate request, with only fair offerings, and prices were unchanged. Smoked Meats called for moderately, and prices ruled steady. Closing prices were as follows:

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city.

The Minneapolis Flour output last week was increased 8,425 brls. Fifteen mills were in operation to-day (Dec 13) and the week's Flour output promises to equal about 390,000 brls.

Minneapolis mills sold considerably less Flour last week than in the preceding week However, trade was not bad. Of late, quite a quantity of Patents, to be made from Spring wheat, have been sold in United Kingdom markets, including Glasgow, London, Liverpool, Belfast and Dublin. Part of it was for deferred shipment. Sales of fair volumes have also been made to South Africa and Australia. The practicability of grinding Canadian Wheat is the condition which makes this business possible. But from this on, it is believed this exportation of Flour from Canadian Wheat will be a feature of the milling business. Most of the Minneapolis mills have their books well filled with orders. That the week's business was by Wheat shipping directions are not coming in over freely. Nevertheless, two of the large companies keep their mills going steadily. No doubt foreign sales are helping them to do this

Millfeed is steady at about the same prices as were current a week ago

Minneapolis and outside millers quote Patent at $5 50@5 65 per brl in wood f. o. b. Minneapolis.

Eastern prices to day (Dec. 13) asked by Minneapolis and outside mills for Patent in wood, were: Boston, no sales. $5 45@5 75; New York prices, $5 20@5 30; Philadelphia rate points, $5 15@5 25; Baltimore rate points, $5 10@5 20; Albany rate points, $5 30@5 40; Utica, $5 30@5 40; Harrisburg and Rochester rate points, $5 15@5 25; Ohio, lower peninsula of Michigan and Indiana, $5 05@5 15; upper peninsula of Michigan, in sacks, $5 75@5 85; Missouri points, $5 05@5 75; Wisconsin, Iowa and Illinois, $5 80@5 90.

The Flour trade throughout the country last week, while not brisk, had its redeeming features. The spirit in Wheat shown on Monday and last to Four purchases of some volume, though mostly at old prices. Thus the output at several Western milling centers held up better than was anticipated. In New England, though Flour stocks are of fair proportions, dealers seem not averse to buying more, whenever they think prices are right. The dictating Wheat markets have been, however, left dealers somewhat at sea as to what constitute safe Flour values. Millers advanced their prices on the advance in Wheat. When dealers had become reconciled to the new prices and were about ready to buy, Wheat prices fell off again, so that millers were unable to establish the advance.

Kansas mills are not generally operating full time and there is a scarcity of Kansas millers' supplies. Mills in this territory are receiving shipping instructions more freely than they have of late, but trade is very dull and mills are kept from shutting down by orders from their best established trade. The improvement noted in St. Louis last week has given way to great dullness Export trade is generally at a standstill, only occasional actions, apart from those of the bonded mills, being light sales of Clears and low grades.

Glasgow cables to-day that the receipts of Australian Flour have been heavy there. Liverpool cables that American Flour is still relatively too dear, though 9d to 1s lower in price than it was a week ago. In London to-day (Dec. 13) offers have resulted in occasional sales to buyers previously in for immediate wants The Amsterdam market continues to be dull and without interest.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Dec. 14.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of all Outside mills with a daily capacity of 25,000 brls, from Jan. 1, 1904, to Dec. 3, 1904, with comparisons:

	1904		1903	
	Flour. brls.	Wheat, bu.	Flour. brls.	Wheat, bu.
Minneapolis	12,512,385	56,476,000	14,323,410	64,451,000
Duluth	771,905	3,500,000	1,017,883	4,853,000
42 outside mills	6,643,359	31,181,000	6,930,150	31,180,000
Totals	19,925,649	91,218,000	22,331,770	100,483,000

These figures represent the approximate consumption of 6,375,000 bu less Wheat this year than in 1903. This has occurred from the mills of Minneapolis and Duluth making 2,229,720 brls less Flour than in 1903, and the outside mills 386,809 brls less.

THE WEATHER CONDITIONS.

AN ENCOURAGING INDICATION.

[From the New York Stockholder.]

One of the most encouraging developments in the business situation of late has been that industries the views of prominent railway officials as to the outlook for business, is the announcement that the Pennsylvania Railroad will restore to duty the number of more than two thousand employes laid off by the company under a retrenchment order issued on July 1 last. It is also the company's intention to push on the building of locomotives and endeavor to relieve an impending shortage in motive power. An officer of the Pennsylvania's motive power department is quoted as saying that the company has never had it kept running steadily in getting out locomotives. The capacity of the plant is about 300 a year. Under extra pressure an average of one locomotive a day may be reached. The company is considering a small order for locomotives to be built by some manufacturing firm, but the contract will not be given until after the first of the year. President Cassatt has not as yet issued the order under consideration, but action on it is not expected for several weeks.

The order to shops and mechanics to resume working full time was gratefully received in all departments. Since the first of last July the clerical force has been compelled to take furloughs each month. Many of these were cancelled in June, and then it was reduced to five days, and later to two and a half days. So heavy is the work now that no vacations will be allowed until after the new year. Orders to the car and train crews laid off have been taken back gradually, and the order just issued will bring back the remaining forces. Until the first of the year the Pennsylvania Railroad will devote its energies to work now under way and repairing its equipment and motive power, both of which suffered by the retrenchment order in force for nearly six months. Last month the directors will take up the completion of the New York tunnels. Specifications for the tunnel under New York City are now in preparation. When completed, through trains will of have been taken back gradually, and the order just issued will bring back the remaining forces. It is divided into $15,000,000 of preferred stock paying 7 per cent non-cumulative dividends and $15,000,000 of common stock. The corporation is to begin business with a paid in capital of $10,000. The incorporators are the same company as the members of the reorganization committee.

The annual report of the City of Chicago Brewing and Malting Company, filed, for the fiscal year ended Sept. 30, 1904, shows a net profit of satisfactory year passed by the company in many years. The profits of the Chicago Consolidated Brewing and Malting Company—the American company—showed a large decrease during the same period, the result being a deficit of $65,392 for the year. Under the circumstances no dividend was paid to the English company, and hence the English company failed to declare a dividend to its shareholders

In spite of the dull business of the early months of the present year, the total sales of Stocks on the Chicago Stock Exchange for the calendar year will considerably exceed those of last year. Already the sales for the year to date are in excess of the total for last year—4,034,902 shares—and there is hope that the 5,000,000 shares—will be passed. The total sales of Bonds to date are very large in excess of the total for last year. Indications are that the total sales will that preceded the rise in Stocks. The total for last year—$8,361,100—was the smallest in many years.

The Government report and the Illinois State report are wide apart in their figures on the acreage on Winter Wheat in Illinois. The Government figures are 511,000 acres more than the State report, which gives 7,489,000 acres. This is when considering the disparity in Corn. The acreage given by the Government is 9,420,000, suggesting a yield of 35½ per acre and a crop of 314,000,000 bu. The Illinois report gives 9,000,000 acres, the yield per acre is 36 bu, and the crop 281,500,000 bu. The lowa report gives the Corn crop 328,853,330 bu and the Government figures, subject to revision, 280,170,000 bu.

The financial reorganization plan of the Colorado Fuel and Iron Company, which has reached the stage where distribution of new securities is being arranged, may be affected by the decline in stock values. There are $31,000,000 in new bonds and $6,200,000 in new common stock to be issued, the remaining $14,800,000 of bonds being held in reserve. As $17,000,000 of bonds and $6,200,000 of the new common stock are to be offered to the shareholders by the underwriting syndicate, the market quotation of the securities may have an important bearing upon the subscriptions of stockholders.

The chemistry division of the Department of Agriculture, Tuesday, issued a circular directing that hereafter all cotton seed meal being offered for sale must be so marked. The order directs that all food products colored with sulphate of copper shall contain a statement to that effect, and that food products artificially colored with other substances shall bear upon the label an inscription showing that they had been artificially colored and crayed. Saccharine products in which glucose has been used instead of Sugar, it is directed, shall bear upon the label a statement to that effect.

President Fowler of the New York, Ontario and Western Railroad is an advocate of legalized pooling by railways. He says: "The true solution of the problem of maintaining rates and averting any possible agitation for legislation is to carry out the prohibition of pooling, permit the railroads to make joint rates, their joint agreements to be subject to the supervision of the Inter-State Commerce Commission, which shall set aside rates as its judgment are unfair. There is no real benefit to railroad or shipper in rate cutting, which is often responsible for such a decrease in revenue that railroads are unable to pay dividends."

In China the national banks or trust companies has increased in ten years from eight to twelve, while the number of national banks has decreased from twenty-one to twelve. The capitalization of trust companies in China in ten years has increased from $4,601,000 to $20,000,000, or 400 per cent as against an increase of 25 per cent in the capitalization of national banks. Deposits in these trust companies have increased from $5,000,000 to $220,000,000 in ten years, and in national banks from $130,000,000 to $290,000,000, or an aggregate increase of $215,000,000 in trust companies, as against $160,000,000 in national banks, and an increase of 1,400 per cent in trust companies, against 125 per cent in national banks

The Southern States with other sections of the country in the number of new national banks chartered during the month, with a total of twelve —eight of the smaller class and four of the larger, with capital aggregating $605,000. The middle Western States ranked second in the number of new banks and first in the amount of new capital, with six banks of the smaller class and four of the larger, with capital aggregating $1,105,000. In the Eastern States there were chartered four banks of the smaller class and three of the larger, with capital aggregating $2,100,000. In the Pacific States three banks of the smaller class and two of the larger were chartered, with capital aggregating $2,100,000, and in the Western States one bank of each class with capital aggregating $175,000.

No decision was made on the milling of Canadian Wheat by United States millers by Secretary of the Treasury Shaw, Wednesday, but he intimated that he favored the question of giving drawbacks on Flur made from Canadian Wheat. American Wheat is the only point in controversy. This point has not been passed upon, and has been submitted to the Attorney General. At the request of Secretary Shaw representatives of the leading milling interests were in conference with him at the Treasury Department, Wednesday. During the conference the Secretary questioned the millers present on several matters of detail in connection with the milling of Wheat, the conditions of the export trade, and the necessity for the action asked for.

In his annual report Secretary Shaw says: "The money in circulation July 1, 1904, amounted to $2,319,182,806, a per capita circulation of $30.73. The percentage of Gold was 44.12. A notable fact is that, with an addition of 1.7 per cent to the population in the year, the increase in the circulation per capita has been 4.4 per cent. By Oct. 1, 1904, there was a further increase in circulation of $48,008,625, and the circulation per capita reached the maximum at $31.16, while the share of Gold became 45.09 per cent." The total coinage for the Philippine Islands during the fiscal year was 12,552,6.9 pesos in Silver and 663,843 pesos in nickel and bronze. The treasury has been reimbursed for the cost of all Philippine coinage. In addition to work for this country the mint at Philadelphia coined 2,100,000 pieces of Silver for Venezuela and 630,000 pieces for Costa Rica.

Fairbanks Copper interests say that after years of seeking to get a Copper property which would supply the Copper needs of the great Westinghouse enterprises, George Westinghouse at last has found it. Various properties in Arizona are not only being able to supply his own manufacturing needs, but to produce a surplus. The property is located in what is known as the Washington district, forty miles from Bisbee, Ariz. To-day Mr. Westinghouse has expended over $600,000 in getting together the properties and equipping and developing them. The General Electric interests have had experts seeking Copper properties for several years, but they have never secured a property. They had the Greene Copper Company offered to them at one time, but their engineers reported it to be a shallow property, so it was not acquired.

The directors of the Minneapolis and St. Louis Railroad Company have seen fit to take no action on the half-yearly dividends derivable from the earnings of the last six months. The earnings for the first four months of this period have been good, but for the last two months, as the figures have not been received, and with December still to be heard from, if the company did as well during those last two months as it did last year, it should be in a position to have earned, and paid, a dividend on the preferred stock, and a comfortable surplus for the common stock. There is not the slightest question about the preferred dividend getting declared, but no dividend action will be made on the common stock at this period it has not been possible to learn thus far. It is believed, however, that the company is to accumulate a large surplus before resuming the common stock dividend.

New York Exchange 20c premium

Documentary Sterling firm at 483¼

Chicago Bank Clearings to-day, 633,578,020.

The New York Produce Exchange will be closed Dec. 24, 26 and Jan. 2.

Reported that 400,000 bu Corn were taken at the seaboard to-day for export.

Prospects for the Chilean Wheat crop are bad. Average yield about 11,000,000 bu.

Ten packers purchased 27,000 Hogs to-day; shippers, 4,000; left over, 5,500. Market closed easy.

Deliveries on December contracts to-day were 30,000 bu Wheat, 150,000 bu Corn and 60,000 bu Oats.

Estimated receipts for to-morrow. Wheat, 38 cars; Corn, 511 cars; Oats, 61 cars; Rye, 1 car; Barley, 31 cars; Hogs, 21,000.

The receipts of Hogs at Chicago for the week will be about 205,000, compared with 252,246 for the corresponding week last year.

The receipts of Wheat at Liverpool during the past three days were 824,000 bu, of which 80,000 bu were American. Receipts of Corn, 25,000 bu, of which none were American.

The *Northwestern Miller's* cable from Buenos Ayres, Dec. 13, says of Wheat: "Prospects are improving. In the South the weather is cold, and some fear of frost is felt."

Average cost price of Hogs at Chicago, Thursday, was $4 51, against $4 50 Wednesday, $4 30 a week ago and $4 48 a year ago. Top price, $4 65, against $4 50 a week ago and $4 65 a year ago.

Cotton in New York averaged lower with Liverpool, which lost 8 to 9 points. Commission houses had good buying orders, and steadied prices for a time. At the close prices were 3@5 points lower.

Argentine Wheat visible is 1,328,000 bu, against 1,472,000 bu the previous week, and 704,000 bu last year. The Argentine Corn visible is 2,674,000 bu, against 2,760,000 bu the previous week and 2,400,000 bu last year.

Secretary Hester of the New Orleans Cotton Exchange makes the amount of Cotton brought into sight for the week 461,483 bales, against 400,153 bales last year, 346,218 bales in 1902, and 412,457 bales in 1901.

Local Securities were more actively traded in. The feature was Can, which advanced ¾ on common and 2 on preferred. Box Board preferred advanced ¾ and lost 1t. Carbon preferred broke 3 and reacted ¾ point.

Shipments of Wheat from Argentina this week were 864,000 bu, against 308,000 bu the previous week, and 184,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 91,981,000 bu, against 61,868,000 bu same time in 1903.

Shipments of Corn from Argentina this week were 2,391,000 bu, against 1,928,000 bu the previous week, and 1,440,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 95,502,000 bu, against 76,245,000 bu for same time last year.

The *Modern Miller* says: "Most of the central portion of the Winter Wheat belt, as well as the territory west of the Missouri River, is covered with snow, and rain has given relief in the more southerly sections, including the Wheat country in the Southeast and Southwest."

The shipments of Flax Seed from Argentina this week were reported at 152,000 bu, compared with 152,000 bu last week and 404,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 87,863,000 bu, compared with 26,075,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 454,000 bu, against 277,000 bu for the previous week and 638,000 bu for the corresponding week last year. Exports since July 1 were 12,860,000 bu, compared with 26,569,000 bu for corresponding time last year.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,144,000 bu, against 1,139,000 bu for the previous week, and 3,312,000 bu for the corresponding week last year. Exports since July 1 were 32,802,000 bu, compared with 82,471,000 bu for the corresponding time last year.

The United States Brick Company, with an authorized capital of $5,800,000, has been organized in Reading, Pa. The company already controls four brick plants in Pennsylvania, and will organize companies and build plants in other large cities, including Washington, D. C., Baltimore, New York, Hartford, Boston, Pittsburg and Cleveland.

A Washington message says: "It can be stated with positiveness that members of Congress do not expect any legislation at this session on the question of railroads. The only thing expected is agitation of the subject and a committee hearing. Members will be indifferent until the next session of Congress, when possibly they will order a Senatorial inquiry."

Stocks in New York were stronger with moderate activity. Trading was more in the nature of support than of late. Buying of Copper was attributed to insiders and it advanced 2¼. All the Industrials made gains, ranging from ½ to 1⅝, the latter on Steel preferred. Railway shares were up ⅝ to 3 points, and Pacific Mail 3¾ up. Money 2¾ to 3 per cent.

James Speyer, of Speyer & Co., reaches London this week and will open up the question of a regular listing of Rock Island upon the London Stock Exchange. The difficulty is that Rock Island is not under the listing rules of the London Stock Exchange a railroad security. It is a holding company, owning shares directly and indirectly in the old Chicago, Rock Island and Pacific and other railroad systems.

A dispatch from Lebanon, Pa., says: "The American Iron and Steel Manufacturing Company has issued a circular to stockholders, signed by J. H. Steinbergh, Arthur Buck and James Lord, suggesting a reduction of common stock shares of the company from 340,000 to 51,000, and assessing each common share $2 50, making it paid up stock. In substance, the recommendation is that each 6⅔ shares common will be issued as one share new paid up stock."

Shippers of all classes are greatly pleased over the announcement by the Eastern railroads that they will postpone until April 1 the adoption of the so-called uniform bill of lading. The shippers believe this means that the Eastern roads will never be able to compel the use of a bill of lading stamped "not negotiable," and which contains a clause releasing the railroads from all responsibility for loss or damage, unless the shipper pays a premium of 20 per cent over the regular published rates.

A Philadelphia dispatch says: "A voting trust, backed by a majority of the stock of the Lehigh Coal and Navigation Company, has virtually been completed. A modified form of organization has been decided upon, and the project has received the approval of the executive committee of the corporation. Leading brokerage houses have indorsed the plan and pledged large amounts of stock to it, thus insuring more than 170,000 shares, or a majority of the stock. Both Reading and Pennsylvania interests have representatives in the board of directors, the latter indirectly. A block of 55,000 shares is owned by bankers friendly to the Pennsylvania. With a trust in control, the policy of the company cannot be interfered with. This, it is understood, is in part that the output of Coal shall be increased yearly, regardless of any 'allotment' of amount to be mined, as made by the 'Coal combine,' and that the dividend shall be made greater."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market dull and stagnant. Prices steady at the late decline.

WINTER WHEAT—Was quiet and slow trade reported, but prices about 1c higher in sympathy with the speculative market. Sales since yesterday were 25,000 bu. No. 2 Red in store ranged nominally 2@3½c over May—outside for special bin lots—ranging at $1 12⅝@1 15¼, and fresh arrivals free on board at $1 15@1 16. No. 3 Red fresh arrivals free on board quotable at $1 10@1 11. No. 2 Hard fresh arrivals free on board quotable at $1 10@1 14 and No. 3 Hard at $1 02@1 10, with sales at $1 05½@1 08.

SPRING WHEAT—Was quiet and so little doing that prices are almost entirely nominal. Choice Wheat, especially the hard variety, would sell, but poor Wheat dull. No. 1 Northern fresh arrivals free on board quotable at $1 16@1 18. No. 2 Norhern quotably $1 05@1 15. No. 3 Spring nominally $1 00@1 10, with sales at $1 05. No. 4 Spring quotable at 56@60c for very poor to $1 00@1 05 for good to choice, with sales at 75@93c.

REGULAR WHEAT—The trade was only moderate and market at no time very active. The feeling, however, was somewhat nervous, with the close 1⅝c better for December while May gained ⅝@¾c and the July lost 1-16c. The early tone was easy, influenced chiefly by the irresponsive cables, larger Argentine shipments and further moisture through the West and Southwest. The selling was in no way pronounced, however, and market soon assumed a healthier tone. France, according to *Broomhall*, was a buyer of Australian cargoes and the Chilean Wheat crop was reported bad. Many of the early sellers turned buyers and market became quite firm. Argentine shipments were 864,000 bu, making 91,931,000 bu since January 1, compared with 61,048,000 bu in 1903. The visible there was reported 1,328,000 bu, against 1,472,000 bu last week, and 704,000 bu one year ago. Liverpool quoted spot ¼d higher to ¼d lower, and futures ⅜@½d lower. Receipts there the past three days were 824,000 bu, of which 80,000 bu came from America. London was up 1d. Paris came unchanged to ¼c lower. Antwerp and Berlin unchanged. Buda Pesth was ½c higher. Primary receipts were 98,000 bu larger than a year ago, and Northwestern cars 207 larger. The map showed light general snows West and Southwest and rain or snow was predicted. Minneapolis stocks were reported increased 1,060,000 bu so far this week and Duluth stocks are expected to show 450,000 bu increase. Argentine cables reported no rain, the weather being clear with moderate winds. Minneapolis reported 26 cars of Canadian Wheat in to-day's receipts. Kansas City and St. Louis received 79,000 bu, compared with 147,000 bu one year ago. Kansas City messages again referred to a further falling off in the receipts. Clearances for the week were 1,144,000 bu, and since July 1 aggregate 33,028,000 bu, compared with 82,181,000 bu for the same period in 1903. The seaboard reported no boat loads accepted. The *Modern Miller* crop summary was construed as moderately "bearish." Receipts at Duluth 118 cars, at Minneapolis 451 cars, a total of 569 cars, against 430 cars yesterday, 681 cars a week ago, and 362 cars last year. Local receipts included 1 car Winter, 8 cars Spring and 3 cars mixed, total of 12 cars, against 27 cars last year. Included in above was none contract grade. There were also 6 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 38 cars. The withdrawals were 26,000 bu. Receipts at Western points were 729,250 bu, against 640,900 bu last year. At Eastern points 106,947 bu, against 159,524 last year. Shipments from Western points 278,943 bu, against 322,505 last year, and from Eastern points no bu against 263,020 bu last year. Shipments of Flour were 13,301 brls. Exports of Wheat in Flour were equal to 59,854 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher.

DECEMBER—Sold at $1 07¾@1 10. Opened at $1 07¾; sold to $1 08½, to $1 08¼, to $1 10, to $1 09½, to $1 09¾, to $1 09⅜, and closed at $1 09⅜ bid.

CORN—A good trade and stronger market, the close showing the December up ⅛c, while May gained ¼@⅜c and the July ¼c. Commission houses were good buyers and "shorts" covered freely, the selling being scattered. Provision interests purchased considerable May. Cash houses and elevator concerns were moderate sellers of December. Receipts were 447 cars, and 511 cars are estimated for to-morrow. There were 228 cars withdrawn from private elevators and 7,100 bu taken from regular warehouses. Liverpool quoted spot ¼d higher. Receipts there the past three days were 25,000 bu and none from America. Argentine shipments were heavy at 2,391,000 bu, making 95,502,000 bu since January 1, compared with 76,215,000 bu one year ago. The visible there is now reported 2,674,000 bu, compared with 2,760,000 bu one week ago and 2,400,000 bu last year at this time. Western receipts were 625,000 bu against 400,000 bu one year ago, and shipments 031,000 bu and 260,000 bu respectively. Local arrivals were 327,000 bu and shipments 276,000 bu. The map showed light snows and slightly higher temperatures. Rain or snow was quite generally predicted. Clearances for the week were 454,000 bu, and total since July 1 aggregates 12,360,000 bu, compared with 26,569,000 bu one year ago. Shipping demand was reported very fair and sales 125,000 bu. The seaboard reported 50 boat loads accepted. Car lots were in somewhat larger supply and fair demand. Feeling firm and prices ½c higher. No. 2 closed about 45½@46c. No. 2 Yellow closed at 45½@46c. No. 3 sold at 43½c and closed at 43¾c. No. 3 Yellow sold at 43¾c and closed at 43¾c. No. 4 sold at 42¾@43c. No Grade sold at 40c.

No. 3 White at 42¾c.

Future Deliveries of No. 2 Corn—Active and stronger, closing ⅛c to ¼@⅜c higher.

DECEMBER—Sold at 45½@46½c. Opened unsettled at 45⅝c to 46½c and sold at 45¾c, to 45⅝c, to 46c, to 45⅝c, to 45¾c, to 45½c, to 45⅝c, and closed at 45⅝c asked.

JANUARY—Sold at 42¾@43¼c. Opened at 42⅞c, and sold at 42¾c, to 43¼c, to 43c, and closed at 43c bid.

MAY—Sold at 45@45⅝c. Opened at 45c to 45⅛c, and sold at 45⅛@45¼c, to 45⅛c, to 45¼c, to 45⅛c, to 45⅜c, to 45¼c, to 45⅜c, to 45⅛@45¼c, to 45¼@45⅜c, and closed at 45¼@45⅜c bid.

JULY—Sold at 45½c and 45⅝@45¾c. Opened at 45⅝c to 45½c and sold at 45⅝@45¾c, to 45½@45⅝c, and closed at 45½@45⅝c bid.

OATS—Were advanced ⅛@⅜c and closed at a net gain of ⅛@¼c. A feature was the buying of July and selling of May at even to 1-16c discount. Elevator interests sold May. Arrivals were larger than expected, 42 cars, with 61 cars estimated for to-morrow. Withdrawals 98,550 bu Standard and cancellations 45,000 bu. It is said that large withdrawals are to be made for Eastern shipment. Seaboard clearances 10,070 bu. Cash sales 50,000 bu. Car lots to go to store were steady to ¼c higher. Standard in store closed about 29⅝c.

Oats by sample were firmer to ¼c higher. Supply light. Sales on track and free on board: No. 4 White at 28@28½c. No. 3 at 28c. No. 3 White at 30@31c. Standard at 30¼@31½c. No. 2 at 30c. Future Deliveries of Contract Oats—Were active and higher.

DECEMBER—Sold at 29¼@29⅜c and at 29⅝c. Opened at 29¼@29⅜c, sold to 29⅜c; closed at 29¼@29⅜c.

MAY—Sold at 31⅛c and at 31⅜@31½c. Opened at 31⅛c, sold to 31⅜@31½c, to 31¼@31⅜c at close.

JULY—Sold at 31⅛@31⅜c. Opened at 31⅛c, sold to 31⅜c, to 31¼c at close.

RYE—Was firmer and May delivery 1c higher. Trading of a very limited character. Offerings of car lots of fresh arrivals very light and there was some demand. Even for future deliveries the offerings were light. Only two cars received. There were withdrawn from public elevator 5,000 bu and from private warehouse one car. No exports from New York. No. 2 in store nominally 73c and fresh arrivals nominally 78@79c.

Future Deliveries of No. 2 Rye—Firmer. December nominally 78c. May sold at 77c—1c advance and that the closing.

BARLEY—The offerings were small. Buyers were present for Barley of all grades. They would perhaps have taken more than was offered, at the same time there was no inclination to pay any more than recent prices. At these there was a steady to firm market. Thirty-six cars inspected in. Sales of Screenings were of poor to common at 25@29c, good to fancy quotably 30@37c. Feed Barley about 37@38c. Low grade malting, at 40c, with very dirty cars occasionally 1@2c below; fair to good at 41@44c, choice at 45@48c; very fancy in round lots possibly a shade over.

SEEDS—With the exception of a very small advance in Flax Seed prices there were no changes. A little more Timothy was offered. This also was the only line in which any business to speak of was done.

Timothy—Was steady. There was more cash Seed on sale, and it was mainly of common to just fair quality; no high grades. Demand fair, and what was offered was taken. Speculative market also steady. A small business was done in March delivery; none in other futures. Prices in all particulars were unchanged. Cash transactions were at $2 10@2 40, and market for country lots quotable at $1 75@2 05 for low grade to fancy; inferior lower; fair to good, $2 35@2 45, and rough, dirty or hulled, $2 00@2 25. Contract spot or December delivery nominally $2 72½, January quotable at $2 75, February offered at $2 80. March sold at $2 85, and that bid. April was $2 90 sellers.

Flax—On account, probably, of a higher market in the Northwest, there was ½c improvement quoted here. The market, at the same time, was without trading. No receipts were posted and only 1 car or 1,031 bu taken out. At Minneapolis the receipts were 51 cars and at Duluth 63 cars. No. 1 Northwestern salable at $1 24½, and No. 1 at $1 16½. Rejected quotable at $1 13½@1 21½ depending on quality. December delivery salable $1 16½ and May offered at $1 24½.

Clover—About 25c advance in quotations was reported. Clover was said to be meeting with a little more outside inquiry. Arrivals very small; the country also is offering little. On these propositions a firm feeling prevailed. Contract grade quotable at $12 75. March delivery about $13 00. Country lots, common to choice, quotable at $8 00@12 50; very poor lower, and fancy above. Fair to good, $10 50@12 00.

Other Seeds—Were quotably steady. Former prices could be obtained were any offered, but there was none. Hungarian was quotable at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05. Mustard about 75c@$1 00. Buckwheat easy; good milling sold at $1 10.

HOG PRODUCTS—Trade in Hog Products was on a moderate scale, and the feeling was stronger early in sympathy with the higher prices for Hogs and a firmer tone to the Grain markets. Later, ruled weaker, with increased miscellaneous offerings. Outside orders were small and local trading was only fair. Business slackening in January and only fair in May contracts. Prices were advanced moderately on all articles early, but declined again to inside figures, and closed steady. Hogs were in rather good supply and prices were higher. Receipts at the leading Western packing points were estimated at 87,600, compared with 94,700 one year ago. Foreign markets were quiet and prices unchanged. Domestic markets were quiet and prices without material change. Receipts of Products were good of Lard and Meats about 25 cars. Shipments were rather good—of Lard and Meats about 151 cars. Demand on shipping account was limited, with no particular changes to note in prices. Interior packers disposed to sell moderate quantities. Sales were light, and prices rather inclined in favor of buyers.

Mess Pork—A fair trade was reported in the market for Mess Pork, and the feeling was unsettled. May delivery met with most favor. Offerings were moderate, and the demand was fair, and mainly from "shorts." Prices were advanced 10@15c early on moderate buying, but a weaker feeling was developed, and prices settled back again 7½@10c, and the market closed steady. Shipping demand was light and offerings were moderate. Cash lots quotable at $11 20@11 40 according to quantity for regular, with repacked at 10@15c discount.

DECEMBER—Quiet and quotable at $11 30.

JANUARY—In moderate request, and offerings were rather light. Sales were made at $12 50@12 65. Opened at $12 50, sold to $12 65, to $12 55, and closed steady.

MAY—Offerings were not very large, and the demand was fair. Sales were made at $12 90@13 00. Opened at $12 90, sold to $12 97½, to $12 95, to $13 00, to $12 90, to $12 92½@12 95, to $12 92½, and closed steady.

Lard—Only a moderate business was transacted in Lard and the undertone to the market was unsettled. Offerings were not very large, and the demand was moderate. Foreign advices were unchanged. Prices advanced 2½c early, but receded 2½@5c and closed steady. Trading mainly local. Demand on shipping account was limited, with light offerings. Cash lots were quiet and quotable at about 5c discount on January figures, closing at about $6 80. Loose lots in moderate request, with fair offerings. Prices were quotable at 50c discount on January figures. Leaf Lard was in light demand, with fair offerings. Prices quotably steady at $6 37½. Neutral in light demand, with only fair offerings. Prices quotably steady at $7 37½@7 50 for No. 1 and $7 12½@7 25 for No. 2.

DECEMBER—Quiet and quotable at $6 60.

JANUARY—In fair request, with moderate offerings. Sales were made at $6 85@6 90. Opened at $6 87½@6 90, sold to $6 90, to $6 85, and closed steady.

MAY—Offerings were not very large, and the demand was fair. Sales were made at $7 12½@7 17½. Opened at $7 15, sold to $7 17½, to $7 12½, and closed steady.

JULY—In moderate request, with limited offerings. Sales were made at $7 22½@7 27½. Opened at $7 27½, sold to $7 22½, and closed quiet.

Short Rib Sides—A fair business were transacted in the market for Short Rib Sides, and the feeling was a little unsettled. Bulk of the trading was in May contracts. Market was rather firm early in the day, and prices were advanced 2½@5c. Later, a weaker feeling was manifested, and prices settled back again 2½@5c, and the market closed comparatively steady. "Shorts" credited with moderate purchases. Demand on shipping account was light, and offerings were moderate. Cash lots were quotable at $6 25@6 50, according to weight and age.

JANUARY—Called for moderately, and offerings were not very large. Sales were made at $6 50@6 52½. Opened at $6 50, sold to $6 52½, to $6 50, and closed quiet.

MAY—In rather good demand, with fair offerings. Sales were made at $6 77½@6 85. Opened at $6 80, sold to $6 77½@6 80, to $6 80@6 82½, to $6 80, to $6 85, to $6 80, to $6 80@6 82½, to $6 80, and closed steady.

JULY—Quiet and quotable at $6 92½.

Other Meats—Sales were rather small, and the feeling steady. Domestic demand was limited, and orders from abroad comparatively light. Offerings of all kinds were only moderate. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices favored buyers. Dry Salted Meats in moderate request, with only fair offerings, and prices favored buyers. Smoked Meats called for moderately, and prices ruled steady. Closing prices were as follows:

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Dec. 15.]

The current marketing of Hogs continues of large proportions, although somewhat short of the preceding week, while considerably exceeding the movement for corresponding time last year and two years ago. Total Western packing of Hogs, compared with 785 000 the preceding week and 600,000 two weeks ago. For corresponding time last year the number was 630,000, and two years ago 578,000. The total to date number is 3,720,000, against 3,140,000 a year ago—an increase of 580,000. The quality is generally good. Prices at the close are a little higher than the week ago in most places, prominent markets indicating a general average of about $4 45 per 100 lbs, compared with $4 40 a week ago, $4 45 two weeks ago, $4 40 a year ago, $5 30 two years ago, and $6 1½ three years ago.

The speculative Provision market has ruled easy in tone and inclined to quietness during the past week. The surroundings have not been very favorable to the selling side of the market, as there was a conservative domestic trade and foreign markets were easy and lower. The Speculation was easier, and this had some influence on the trade. The close of the week shows no important change in prices for the leading speculative articles at this writ ng as compared with a week ago. The export clearances of Product were small and show a decrease as compared with the preceding week and a falling off as compared with the corresponding week last year.

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since November 1, at undermentioned places compared with last year, as follows:

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Dec. 15.]

Over the greater portion of the Winter Wheat area there has been a light covering of snow, protecting the tender plant from severe winter weather. In the Ohio Valley the coldest December was the driest on the records of the Weather Bureau, and the season since the Wheat has been put in the ground has been one of the driest on record over much of the Winter Wheat belt. The snows and rain of the past week afford a partial relief. The ground beneath the snow is still rather dry. But so far as the crop is concerned, it is well. Wheat the past week may be regarded as a favorable one for the crop. Taking the crops as a whole, the condition is somewhat below the average, because the growth is not large, and the unusually severe weather in the future: but there are possibilities, under favorable conditions, for better outturn than often results when the condition at this period is regarded much higher than the present crop is now.

Current information from the interior regarding the Corn crop reflects a very good quality, the whole crop being favorable for marketing and gathering, but there is occasionally a complaint heard that the yield is not quite equal to early expectations, but not sensationally so, and more generally affect earlier calculations of total yields. There is generally an inclination to market freely at recently current prices, but with any attempt to reduce the same the movement is checked.

The interior movement of Winter Wheat and Oats is moderate. Hogs are moving rather freely.

WHEAT AT PRIMARY MARKETS.

The directors of the Port Dearborn National Bank, Chicago, have dec ared the regular quarterly dividend of 1½ per cent, payable Jan. 3 to stockholders of record Dec. 31.

ITEMS OF GENERAL INTEREST.

France is reported to be buying Australian Wheat shipments.

Directors of the Chicago Title and Trust Company have declared the regular quarterly dividend of 1½ per cent, payable Dec. 31. Books close Dec. 17 and reopen Jan. 3.

Net profits of the Harbison-Walker refractories for the year ended Sept. 30, 1904, as shown in the annual report, decl ased over $300,000 as compared with the previous year.

The American Cereal Company has closed its Peterboro, Ont., mills in consequence of the recent advance in Canadian freight rates, which interferes with its export business.

The Minneapolis and St. Louis Railroad has declared the regular semi-annual dividend of 3½ per cent on the preferred stock, payable Jan. 15. Books close Dec. 31 and reopen Jan. 16.

The National Sugar Refining Company has declared the regular quarterly dividend of 1¾ per cent on the preferred stock and a dividend of 1 per cent on the common, both payable Jan. 15, to holders of record Jan. 10.

The Bowery and Greenwich Savings Banks, New York, announce that they have increased their rates of interest from 3½ to 4 per cent, effective on and after January 1, follow suit. The increase will give the depositors of the three institutions an additional $981 0 0.

Involuntary bankruptcy proceedings were started in the District Court at Chicago, Thursday, against the Warner Silver Company, of Dixon, Ill. The liabilities are about $25,000 and the assets $10,000. The principal creditors are Chicago and St. Louis firms.

Application has been made to the New York Stock Exchange to list the following: Cincinnati, Indiana and Western, $1,472,000 additional general refunding mortgage 4 per cent bonds of 1953; Cincinnati, Findlay and Fort Wayne, $150,000 first mortgage 4 per cent bonds of 1963.

The syndicate organized by Speyer & Co., New York, to finance $15,000,000 Cuban loan has been wound up. Participants are said to have divided a profit of slightly less than 5 per cent. At no time were the members of the syndicate called upon to pay any part of their subscriptions.

Umpire Carroll D Wright decided, Thursday, that the sliding scale increase must be paid on miners' gross earnings instead of their net earnings. The decision grew out of a grievance submitted to the conciliation board by the miners employed at the Exeter colliery of the Lehigh Valley Coal Company.

The vice president of the National Bank of Cuba announces that the subscription for the $1,000,000 of new stock of that bank has been largely oversubscribed and that no further subscriptions will be received. The subscriptions were received in the West by the Western Trust and Savings Bank, Chicago, and it is estimated that the West and Chicago are taking three-quarters of the issue.

The Milwaukee courts have decided that the Chicago, Milwaukee and St. Paul Railway must pay the full tax assessed against it for 1903 of $1,-6 0 and the interest on the same, originally making a total of $100,150. The company objected to an increase in taxation ordered by the State Board of Equalization and made a tender of $64,000. This was declined and suit was instituted, with the result stated.

It is now almost an assured fact that a new railroad will be built between Shawneetown and Rose Clare, Hardin County, Illinois. A company has been formed and organized with $1,000,000 capital. The articles of incorporation were filed in Shawneetown, Tuesday, and were sent to Hardin County to be filed there. The road will be about 15 miles long in the State which has no railroad running through it.

The officials of the United States Steel Corporation are now at work making a fairly accurate estimate of the earnings of the company for the last quarter of the year, which ends Dec. 31. It is stated in official quarters that the net earnings are expected to be slightly under $18,000,000 and probably in the neighborhood of $18 750,000. This compares with $14,865,042 in the corresponding quarter last year.

It was announced, Wednesday, that at a meeting of the executive committee of the New York Central last week it was decided to change the fiscal years of the New York Central and Hudson River Railroad the Cleveland, Cincinnati, Chicago and St. Louis Railway Company, and the Indiana, Illinois and Iowa Railroad Company, so that they should end Dec 31 hereafter instead of on June 30 as at present. This coincides with the dates of the other Vanderbilt roads.

J. P. Morgan & Co. have given notice to the members of the Atlantic Coast Line syndicate, formed to underwrite the bonds issued to pay for a controlling interest in the Louisville and Nashville Rail oad Company, that the syndicate has been closed and that they will receive their profit accruing from the operations of the syndicate to its members. This profit is said to amount to about 7 per cent on the investment, including the dividend declared some time ago.

Aggregate figures on the earnings of eighty-eight railroads in October show an increase of $4,140,100 in gross and $1,-6 0,000 in net from operative expenses. Practically all the gross gain was saved for the net. The increase in gross figured 3.1 per cent and in the net 9.6 per cent. In four months of 1904 only 1 railroad out of 10 on their gross earnings only one-fifth of 1 per cent, but increased their net 13 per cent owing to constructive savings in the operating charges.

The Diamond Match Company announces a change in the time of making quarterly dividend payments. Hereafter the books will close on the last days of February, May, August and November, inclusive. The dividends on the fifteenth day of each succeeding month unless the 15th should fall on Sunday or other legal holiday. In that case the dividend will be mailed the following day. The annual meeting of the company will be held Feb. 1.

According to the figures of the *United States Investor*, the bonded debt of the city of New York on November amounted to $33,868,501, not including temporary loans. Of this amount $31,0 2 261 was issued by cities and towns, and $1,918,270 by counties. This amount shows an increase of $1,597,068 from the day of each succeeding month unless the 15th $32,302,418 for the month of October, and an increase of $18,338,883 reported for the month of November, 1901. The larger issues were one of $25,0 0,000 by New York City, one of $3,0 0,000 by Waco, Texas; one of $2,50,0 0 by Somerset, Ga.; one of $2,000,000 by Lawrence Mass.; one of $1,4 0,000 by Cleveland, Ohio

It will be necessary for the Erie Railroad, before April 1 1905, to authorize an increase of $25,-0 0,000 in its common stock, so as to provide for the effective exchange for the $6,000,000 now bonded now held by the public, and it is just possible that at the same time arrangements will be made for retiring the second preferred stock. There is good reason to believe that ultimately this latter issue will be disposed of in some way so that the first preferred and the common shall be the only stock issues outstanding.

Aggregate original sales of municipal bonds in the United States during November, according to the figures of the New York *Financial Chronicle*, were $31,622,000. This compares with about $10,0 0,-000 in October this year and $11,830,000 in November, 1903. The large total for last month is due to the offering of $25,000,000 3½ per cents by New York City, for which 180 bids, aggregating $138,0 0,000, were received. The average price received was 102.41, or about $102,410 on a 100 basis. San Francisco sold $2,000 8 0 of 3½ per cents

The largest consolidation of insurance interests ever attempted in an American city will be effected in Minneapolis if the fire of the largest agencies will become associated in one general office, under the name of the "Minneapolis Insurance Agency." The consolidation represents the twenty-seven of the principal agencies there, who will be treasurer of the combined agencies says the agency will have a net surplus, taking the American assessment against the foreign companies, of $60,000,000 in round numbers.

The Republic Iron and Steel Company will begin turning out Steel rails by next October. Plans for its new rail mill at Youngstown, Ohio, are completed. The rail mill will be ready to operate by October. It is probable that the Steel rail pool will make no a lowance to the Republic for next year's output, but that of the 1906 rail it will be permitted to membership and receive its pro rata apportionment of the total rail output. The company will be in position ten months hence to turn out about 300,000 tons of Steel rails.

Representative Hill of Connecticut, Tuesday, introduced a bill providing for the redemption of United States treasury notes known as Silver certificates in gold, and directing the Secretary of the treasury to set apart $150,000,000 in Gold and bullion for the purpose. The act makes it the duty of the secretary of the treasury to maintain in a Gold reserve certificate fund not less than 33 per cent of all United States notes in circulation. For the debt incurred by the redemption of the notes the secretary of the treasury is to issue bonds of fifty dollars or any multiple thereof bearing interest at 3 per cent.

Additional evidence of the rapidly increasing wealth of the United States, and also the fact that it has become a creditor instead of a debtor nation, as was the case up to a few years ago, is shown by the successive absorption here of the first-class bonds of foreign Governments. The latest issue offered to investors is that of $40,000,000 5 per cent Gold bonds of the United States of Mexico. It will be remembered that this issue was taken from the Mexican Government by a syndicate managed by Speyer & Co. of New York. The bankers now announce that they have sold privately about $25,000,000 of the issue, and offer the balance for public subscription at 94 per cent and accrued interest.

Ex-Attorney General Ketcham of Indiana filed an application for a receiver for the Vandalia Railroad Company, Monday, and asked that an injunction be prohibiting the consolidation of the Terre Haute and Indianapolis, St. Louis, Vandalia and Terre Haute, Indianapolis and Vincennes, Logansport and Eastern Illinois and Fort Wayne and Logansport Railroad companies, all of which are at present controlled by the Pennsylvania System. Mr. Ketcham claims the Terre Haute and Indianapolis and the St. Louis, Vandalia and Terre Haute Railroad companies are alone solvent of the five companies proposed to be consolidated, and the effect of the proposed consolidation will make the two roads insolvent.

Official announcement was made in New York, Wednesday, that H. B. Hollins & Co. had purchased the Cincinnati, Hamilton and Dayton Road, exercising an option which they had held for some time. Although it is not so stated, there is no doubt the purchase was made for the Erie Road, which thereby will acquire control also of the Pere Marquette and of the Toledo and Ohio Central Louisville systems. The allied system will represent a capitalization of $224,000,000, in round numbers, a hundred miles of Railroad and a present earning capacity of about $90,000,000. The mileage is divided as follows: Cincinnati, Hamilton and Dayton, 661; Erie, 2,316; Pere Marquette, 1,838; Chicago, Indianapolis and Louisville, 382

The recent advance of forty points in the price of pig lead is followed by intimations in the lead trade that manufacturers of finished lead products will also advance prices in the near future to offset the increase in the price of the raw material. The principal companies manufacturing finished products are the National Lead and the United States Smelting companies, both of which buy practically all of their raw material from the American Smelting and Refining Company. While the lead trade looked for a moderate advance in pig lead it was not believed that a jump of forty points would be made at this time. The increase in the cost of raw material necessarily narrows the margin of profits for these companies unless a proportionate increase is made in the prices of manufactured products.

An official of custom service made the statement, Wednesday, that the Government, through the Department of Commerce and Labor, will have an American line pay an ad valorem duty of 50 per cent on the cost of equipments and repairs to the company's steamer St. Louis, which has been rebuilding at Belfast, Ireland, since last Aug. 15. The official stated that the Government would collect $30,000 duty when the ship arrived here Christmas eve. Disapproval was expressed by labor organizations when, following the burning of the steamer here in a partly crippled state on July 17 last, her owners said they would send her abroad for repairs. The intervention of the Government was sought and the officials might have prevented the ship's departure for foreign repairs on the ground that she was not seaworthy

The reorganization plan of the United Box Board and Paper Company as at length completed, circular letters have been mailed to the stockholders of the company, making the announcement of the plan and asking the co-operation of the stockholders in it. The plan briefly outlined contemplates the raising of $1,0 0,000 in cash by the sale to the stockholders of the best asset of the company, its stock in the American Straw Board Company The Box Board Company reserves an option to purchase back the Straw Board stock, however, so that the two companies are not likely to get separated. With the $1,000,000 of cash thus raised and $250,000 which is expected to be realized from other sources, the Box Board Company will have put on its feet again and will, therefore, be in a position to go out for business independently and earn money. The plan has already been underwritten by strong people and is assured of success.

In the December letter of the National City Bank, New York, appears the following: "The fluctuations in foreign exchange during the past month have not been wide. Gold has gone out to the extent of something like three to four million dollars, which circumstance, however, has had no appreciable effect upon money interests, and the advance in interest rates was due more to legitimate demands than to any other cause. Money is still abundant, and as this condition keeps up, the probabilities are that the exchange market will remain dull. Continental exchange has declined perceptibly, owing to the advance in Sterling rates in the various European centers, and we look forward to a still further decline in Continental exchanges in this market. A considerable amount of long bills will mature during the month of December, and this will again create demand. The reason for the extent that is would involve Gold payments, inasmuch as this would only be possible where the Continental rates favor such condition, which they are not likely to do for some time to come. The outlook is still conspicuous by their absence, but since the recent decline in this commodity it is hoped that a more plentiful supply will be forthcoming. Of course, this will not be without its influence upon the course of exchange."

Exports of manufactures in the calendar year 1904 will not only exceed the highest figures of any earlier year, but may probably pass the $500,000,0 0 line, as against $434,000 000 in the high record year, the fiscal year 1900; $151,000 000 in 1890, $103,000,000 in 1880, $68,000,000 in 1870, and $40,000,000 in 1860. Exports of manufactures of iron and Steel manufactures of mineral oils, Copper and manufactures of Iron and Steel. Of mineral oils the value of exports during the ten months ending with October, 1904, was $61,566,923, against $52,565,883 in the corresponding months of 1903. Of Copper the value of exports during the ten months ending with October, 1904, was $80,792,376, while the quantity of manufactures of Iron and Steel exported was $123,000,000 in the high record fiscal year 1900; $26,000,0 0 in 1890, $15,000,000 in 1880, $13,000,000 in 1870, and $6,000,000 in 1860. The increase in the fiscal year 1900 was largely due to the China relief expedition. The increase during the ten months ending with October, 1904, was $18,981,086, against $9,492,542 in the corresponding months of 1903. Of Copper the value of exports was $105,380,415, against $81,606,786 in the corresponding months of last year.

The Supreme Court of Montana, has issued an order in the Beef Trusts cases requiring the defendants in the five actions to show cause next Wednesday morning at 10 o'clock why they should not be enjoined from doing business in Montana. The order was made against the five large packers.

Stocks in New York closed irregular with small losses on a number of Railway and Industrials and fair gains on others. The start was strong with a good advance. The clearing-house figures suggested financial ease and the run of news favored buyers. The reactions were on profit taking. Sales 660,000 shares.

The receipts of Flour and Grain at Chicago for the past week were equal to 6,804,000 bu and the shipments were equal to 3,515,000 bu. For the corresponding week in 1903 the receipts were equal to 4,930,000 bu, and the shipments to 2,042,000 bu. These figures are supposed to include the through shipments of Flour.

The weekly statement of the New York Banks shows the following changes: Increases—Reserves on all deposits, $5,181,425; Reserves, less United States deposits, $5,160,450; Legal Tenders, $523,300; Circulation, $286,400. Decreases—Loans, $22,031,700; Specie, $822,500; Deposits, $21,922,500. Banks hold $14,546,625 in excess of legal requirements.

The directors of the Masonic Fraternity Temple Association, Chicago, have held their last meeting for the year, and no dividend has been declared for payment next month. It is presumed the board considered it wiser to save its money for the building of the proposed new stairway in the building and for the forthcoming interest payments.

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 102,000 brls of Flour and 163,000 bu Wheat, against 38,000 brls Flour and 139,000 bu Wheat the preceding week, an increase of 64,000 brls of Flour and an increase of 54,000 bu Wheat. For the corresponding week last year the exports were 350,000 brls of Flour and 804,000 bu of Wheat.

EXPORTS OF CORN.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market dull here, but large sales reported at Minneapolis.

WINTER WHEAT—Was slow sale and dull. Choice soft Winter was in some request by millers, but everything else dull. Millers inclined to operate very sparingly. Sales since yesterday were 80,000 bu. No. 2 Red in store ranged nominally 2@3½c over May—outside for special bin lots—ranging at $1 12@1 14½, and fresh arrivals free on board at $1 14½@1 15½. No. 3 Red fresh arrivals free on board quotable at $1 10@1 14, with a sale at $1 12. No. 4 Red sold at $1 05. No. 2 Hard fresh arrivals free on board quotable at $1 10@1 14 and No. 3 Hard at $1 02@1 10, with sales at $1 08@1 10.

SPRING WHEAT—Was quiet and so little doing that prices are almost entirely nominal. Choice Wheat of the hard variety would sell, but poor Wheat dull and not wanted. Prices quoted lower. No. 1 Northern fresh arrivals free on board quotable at $1 15@1 17. No. 2 Northern quotably $1 08@1 14. No. 3 Spring nominally 95c@$1 10, with sales at 95@98c. No. 4 Spring quotable at 66@60c for very poor to $1 00@1 05 for good to choice, with sales at 90@91c.

REGULAR WHEAT—The close was unsettled and irregular. December was ⅛c higher, while the more deferred months were ⅛@¼c lower. Cash sales were 80,000 bu to Eastern millers. "Long" Wheat came out in large quantities early, the local crowd having gone home last night pretty well loaded with the May. The lower cables this morning and the generally "bearish" feeling abroad was too much for the holders after the first weakness and heavy selling. A demand developed for December Wheat that attracted a great deal of attention. A Minneapolis message said there had been good sales of Flour up there, and against these sales December Wheat had been purchased in Chicago to be accepted and taken up there. Another message from Minneapolis reported sales of 500,000 bu cash Wheat to a milling concern up there. There were deliveries of 200,000 bu Wheat on December contracts at Minneapolis this morning, and the December price was lower there in consequence. The English visible supply decreased 190,000 bu for the week, compared with 666,000 bu increase same time one year ago. India shipments are estimated at 1,344,000 bu. Australian shipments, 288,000 bu, compared with 480,000 bu the week before and 176,000 bu one year ago. Imports into the United Kingdom for the week, 3,600,000 bu, against 3,860,000 bu the week before and 4,304,000 bu a year ago. World's shipments estimated by *Broomhall* at 8,800,000 bu and a decrease on passage is looked for. English farmers' deliveries for the week, 384,000 bu, at an average price of 91¾c, compared with 408,000 bu at 91¾c the week before and 424,000 bu a year ago at 81c. Northwestern receipts for the week, 3,959 cars, compared with 4,552 cars the week before and 2,608 cars a year ago. The weakness at Liverpool was caused by expected larger offerings of Wheat by Argentina and at a lower price. Paris ¼c lower to ¼c higher. Liverpool ⅛@⅜d lower. Berlin was ⅛c off. Buda Pesth was ⅛c lower. Receipts at Duluth 93 cars, at Minneapolis 522 cars, a total of 615 cars, against 569 cars yesterday, 776 cars a week ago, and 321 cars last year. Local receipts included 3 cars Winter, 17 cars Spring and 6 cars mixed, total of 26 cars, against 52 cars last year. Included in above was none contract grade. There were also 9 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 63 cars. The withdrawals were 1,000 bu. Receipts at Western points were 788,926 bu, against 679,460 bu last year. At Eastern points 18,425 bu, against 167,768 last year. Shipments from Western points 261,965 bu, against 253,969 last year, and from Eastern points 44,009 bu against 173,190 bu last year. Shipments of Flour were 24,275 brls. Exports of Wheat in Flour were equal to 153,296 bu.

Future Deliveries of Regular Wheat—Fair trade and prices generally lower.

DECEMBER—Sold at $1 08¾@1 10⅛. Opened with sales at $1 08¾; sold to $1 08⅞, to $1 08¾, to $1 09⅛, to $1 09¼, to $1 10⅛, to $1 09½, and closed at $1 09½.

MAY—Sold at $1 10@1 10⅛ at at $1 11. Opened at $1 11 to $1 10¾, but not much trading at $1 11, sold at $1 10⅞, to $1 10½, to $1 10⅜, to $1 10½, to $1 10⅜, to $1 10@1 10⅜, to $1 10⅝, to $1 10⅛, to $1 10½@1 10⅝, to $1 10½, and closed at $1 10½ bid.

JULY—Sold at 98@98½c. Opened at 98¼c to 98½c; sold to 98⅜c, to 98⅛c, to 98¼@98⅜c, to 98c, to 98¼c, to 98⅛c, and closed at 98⅜c sellers.

CORN—Fractional losses for the day—⅛c for December and about ¼c for May and July. Cash sales 4 loads at the seaboard and 60,000 bu here. There was less doing in Corn, and while the feeling in December and May was nervous, the "short" side seemed to have the best of the market during the earlier part of the session. The selling was led by some the big cash houses in the trade, while buying was scattered and led mainly by "shorts" on the soft spots. There were deliveries of 150,000 bu on December contracts yesterday, and 10,000 bu this morning, and this in itself was a "bearish" factor. Liverpool futures dull and unchanged to ⅛d lower; spot ⅛d higher. There was talk in Liverpool of increased American shipments to that point. Local receipts were 633 cars, with 11 cars contract. Primary receipts were 918,000 bu, compared with 431,000 bu a year ago. Clearances from the seaboard 173,000 bu. Car lots were in liberal supply and demand fair. Prices ¼@½c lower. No. 2 and No. 2 Yellow closed at 45¼@46c according to location. No. 3 sold at and closed at 43¼c. No. 3 Yellow sold at 43¼@43½c and closed at 43¼c. No. 3 White sold at 43¼c.

Corn by sample—Was in larger supply and demand moderate. Feeling easier, with prices steady to ⅛c lower. Sales on track and free on board. No Grade sold at 35@41½c. No. 4 at 42@43c. No. 3 at 43¼@43½c. No. 3 Yellow at 43¼c. No. 2 Yellow at 45¼c. No. 3 White at 43¼@44c. Billed through. No Grado at 37@40c. No. 4 at 41@42¼c. No. 3 at 41¾@42¾c. No. 3 Yellow at 42@42¾c. No. 3 White at 42¼@42¾c.

Future Deliveries of No. 2 Corn—Smaller trade than yesterday and prices ⅛@¼c lower.

DECEMBER—Sold at 45@45½c. Opened at 45½c to 45⅜c, sold to 45¼c, to 45⅜c, to 45c, to 45¼c, to 45c, to 45½c, closing at 45½c asked.

JANUARY—Sold at 42⅝@42¾c. Opened at 42¾c and closed at 42⅝c bid.

MAY—Sold at 45@45¼c. Opened at 45¼c to 45⅛@45¼c, sold to 45⅛c, to 45⅛@45¼c, to 45c, to 45⅛c, closing with sellers at latter.

JULY—Sold at 45⅜c to 45⅝@45½c. Opened at 45⅜c, sold to 45⅜@45½c, to 45⅜c, closing at 45⅜@45½c bid.

OATS—Were easier and declined ¼c, but rallied and closed the same as yesterday. The trade was about evenly divided. The weakness in Wheat and Corn led to selling early. The rally at the last was on moderate buying. Cash sales were 25,000 bu. Arrivals 61 cars, with 104 cars expected Monday. Withdrawals 95,870 bu, and for the past week 1,627,000 bu Standard for Eastern shipment. Seaboard clearances 525 bu. Car lots to go to store were steady to ⅛c lower, with light trading. Standard in store closed about 29¼c.

Oats by sample were steady to ¼c lower. Offerings larger. Demand rather slow. Sales on track and free on board: No. 4 White at 29@29½c. No. 3 White at 30@30¾c. Standard at 30½@31½c. No. 2 at 30c. Billed through: Standard at 30½c. At the river: No. 4 White at 28¼@28½c. No. 3 White at 28½@29⅛c.

Future Deliveries of Contract Oats—Were lower early, but recovered.

DECEMBER—Sold at 29⅛@29¼c. Opened at 29⅛c to 29¼c; closed at 29¼c.

MAY—Sold at 31⅛@31⅜c. Opened at 31¼c to 31⅜c, sold at 31⅛c, to 31⅜c, to 31¼@31⅜c at close.

JULY—Slow. Sold at 31⅛@31¼c. Opened at 31⅛c to 31¼c, sold to 31¼c; closed at 31¼c.

RYE—Dull and neglected. Fresh receipts would sell, but offerings very light—only one car inspected in, and trading restricted in consequence. Futures neglected. Prices nominally unchanged. No exports from New York and 3,000 bu were withdrawn here from public elevators. No. 2 in store nominally 73@74c, and car lot fresh arrivals quotably 78@79c. No. 3 sold at 71c.

Future Deliveries of No. 2 Rye—Dull. December nominally 73@74c. May was 77c bid and 77½c asked.

BARLEY—There was nothing new developed. Market very quiet. The Barley offered—there was not much of it—was salable and steady to firm. The demand at the same time was also very quiet. There was nothing of interest to note. Inspected in 32 cars. Sales of ordinary Screenings were made at 28½@29c, and market quotable at 25@38c for poor to fancy; extra possibly a little over. Feed Barley nominal 37@38c. Low grade malting, at 40c, with very dirty cars occasionally 1@2c below; fair to good at 41@44c, choice at 45@48c; very fancy in round lots possibly a shade over.

SEEDS—Quietness prevailed in all parts of the market. Offerings of every kind were very small. Flax Seed prices made another advance, but aside from this there were no changes.

Timothy—Ruled very quiet, with steadiness prevailing in the speculative market, but cash Seed quoted as heavy. Not much of latter offered, but demand was backward. No essential change in prices was noted. Contract spot or December delivery was nominally $2 72½, January quotable at $2 75, February offered at $2 80. March sold at $2 85, and that bid. April was again $2 90 sellers and $2 87½ bid. Country lots quotable at $2 00@2 65 for low grade to fancy; inferior lower; fair to good, $2 35@2 45, and rough, dirty or hulled, $2 00@2 25.

Flax—There was a nominal 1½c advance in prices over yesterday's quotations. It was caused by outside advices. No Flax appeared on sale this side of May delivery, and no business was done. Neither receipts nor output appeared in the postings of local movement. Minneapolis reported receipts of 51 cars and Duluth got 44 cars. No. 1 Northwestern salable at $1 26, and No. 1 at $1 18. Rejected quotable at $1 15@1 23 depending on quality. December delivery salable $1 18 and May offered at $1 26.

Clover—Was nominally steady to firm at late improved quotations. No Clover was offered, and the market was without trading. Contract grade quotable at $12 75. March delivery about $13 00. Country lots, common to choice, quotable at $8 00@12 50; very poor lower, and fancy above. Fair to good, $10 50@12 00.

Other Seeds—Inactive, but quotably steady and salable as follows: Hungarian quotably $1 05@1 15 for common to choice. Millet, common, quotable at 90c@$1 15 for common to choice. German at 90c@$1 25. Siberian at 60@80c. Broom Corn Millet at $1 00@1 16, and Early Fortune about 65c@$1 05. Mustard about 75c@$1 00. Buckwheat remains easy, with good milling about $1 10.

HOG PRODUCTS—Only a moderate trade was reported in Hog Products, and the market was somewhat unsettled. Outside orders were light, and trading on local account was on a moderate scale. The market was rather steady at the opening in sympathy with the Hog market, and prices were fairly well supported temporarily. Later, there was a little pressure to sell, in sympathy with the easy feeling in the Grain markets, while the demand was moderate, and prices declined moderately all around, and the market closed comparatively steady at about inside figures. Bulk of the trading was in May contracts. Hogs were in good supply and prices ruled lower. Good supply estimated for the coming week. Receipts at the leading Western packing points were estimated at 59,100, compared with 51,600 one year ago. Foreign markets were easy for Meats, and Backs were quoted 1s lower, while Lard was steady. Domestic markets quoted steady and unchanged. Receipts of Products were good—of Lard and Meats about 27 cars. Shipments were small—of Lard and Meats about 86 cars. Demand on shipping account was fair, and the offerings were not very large. Sales were a trifle larger, but mainly for the Southern trade, and prices were without material change.

Mess Pork—Trade was moderate in the market for Mess Pork, and the feeling was easier. Offerings were fairly liberal, and the demand was moderate. Trading almost exclusively in May contracts. Market opened rather steady, with a few trades the at closing figures of Friday, but a weaker feeling was developed under a little pressure to sell, and prices declined 10@12½c, and closed rather steady. Shipping demand was light, and offerings were moderate. Cash lots were quotable at $11 25@11 37½ for regular, according to quantity, with repacked at 10@15c discount.

DECEMBER—Quiet, with small sales at $11 27½@11 30, and closed nominally at $11 25.

JANUARY—Demand light, and offerings moderate. Scattering sales made at $12 47½@12 55, and closed quiet at $12 47½.

MAY—Offerings were moderately free, and the demand was only fair. Sales were made at $12 82½@12 95. Opened at $12 92½, sold to $12 95, to $12 87½, to $12 90, to $12 87½, to $12 90, to $12 82½, and closed steady.

Lard—The Lard market met with only fair speculative attention, and the undertone was comparatively easy. Offerings were fair, and the demand was only moderate. Foreign advices were unchanged. Prices ruled 2½@5c lower, and the market closed rather steady at the reduction. Demand on shipping account was limited, with light offerings. Cash lots were quiet and quotable at about 5c discount on January figures, closing at about $6 75. Loose lots in moderate request, with fair offerings. Prices were quotable at 50c discount on January figures. Leaf Lard was in light demand, with fair offerings. Prices quotably steady at $6 37½. Neutral in light demand, with only fair offerings. Prices quotably steady at $7 37½@7 50 for No. 1 and $7 12½@7 25 for No. 2.

DECEMBER—Quiet and quotable at $6 75.

JANUARY—In limited request and offerings were moderate. Sales were made at $6 80@6 85. Opened at $6 85, sold to $6 80, and closed steady.

MAY—Offerings were fair and the demand was moderate. Sales were made at $7 07½@7 12½. Opened at $7 10@7 12½, sold to $7 12½, to $7 07½, and closed steady.

JULY—Sold early at $7 20, but closed nominally at $7 17½.

Short Rib Sides—Rather a good business was transacted in Short Rib Sides, and the feeling was easier. Trading chiefly in May contracts. Offerings were rather free, partially credited to interior packers. Prices ruled 5@7½c lower, and the market closed steady around inside figures. Demand on shipping account was light and offerings were moderate. Cash lots quotable at $6 25@6 50, according to weight and age.

JANUARY—In rather light demand, with moderate offerings. Sales were made at $6 42½@6 47½. Opened at $6 47½, sold to $6 42½@6 45, and closed steady.

MAY—Offerings were rather free, and the demand was fairly active. Sales were made at $6 72½@6 77½. Opened at $6 77½, sold to $6 72½@6 75, and closed steady.

JULY—Called for moderately, and offerings were only fair. Sales were made at $6 85@6 90. Opened at $6 90, sold to $6 85@6 87½, and closed quiet.

Other Meats—Sales were a trifle larger, and the feeling steady. Domestic demand was moderate, and orders from abroad comparatively light. Offerings of all kinds were not very large. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices were unchanged. Dry Salted Meats in moderate request, with only fair offerings, and prices were steadier. Smoked Meats called for moderately, and prices ruled steady. Closing prices were as follows:

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, December 16, 1904.

Deposits of local banks have declined slightly of late as they frequently do at this season, but they are still above the record figures. A moderate demand is reported for money and rates are steady at 4 to 5 per cent for a majority of the loans, although money is sometimes put out as low as 3 per cent. Supplies of commercial paper are not equal to the demand at 4 to 4½ per cent, and it would not be surprising to see larger offerings in the next few weeks. In New York money on Stock Exchange were easier at 2½ to 3½ per cent. Time money was in lessened demand, and some of the bankers reported an easier tendency to call funds. Bankers regard the situation as extremely favorable and say there is nothing in present conditions to cause apprehension regarding the immediate condition of the money markets. Commercial rates are unchanged at 3½ to 4½ per cent.

New York exchange was steady at 20c to 25c premium per $1,000 and closed at 20c.

Foreign exchange showed more strength. Shipping sixty day documentary sterling bills on London ranged at 483¾ to 483¾, closing at about the outside

Cotton in New York was weaker part of the time but showed a disposition to react from the sharp breaks on buying to take profits on "short" sales. The spot demand was moderate and the broad Some of the industrial traders are predicting a gradual decline in prices. Closing prices, as compared with a week ago, recorded losses of points.

Local Securities averaged lower part of the week, but reacted in the later trading from inside figures. The action of traders was governed entirely by the news from Wall Street, and the activities there detracted from business in the local market. The selling pressure was on quite strong at times and a lower average was made, stocks being picked up readily on the Gillette and Biscuit, Can, Carbon and a few other shares made good recoveries. Trading in elevated shares was light. Bonds were moderately traded in and there was no especial pressure to sell.

In the New York Stock market there was a troubled experience with enormous trading, although business for the week failed to reach the large proportions as in the previous week. In the height of the excitement and frenzy the trading in one day reached nearly 3,000,000 shares. Liquidation was severe both by American and foreign interests, but the feeling was not so panicky as in the previous week. Drastic measures were applied on both sides of the market. The "bears," from the point of attack by the "bears," was, like the rest of the stock list, heavily oversold at several times, and the support given it influenced considerably brought about several rallies. Heavy losses have been made by traders in general, owing to the decline in securities the past two weeks, and the commission-house business has been badly cut up. Professionals think they see many reasons for buying stocks and present the favorable outlook for railroad and industrial business in 1905, and of the sound condition of the railroads and banks. The interests in control of the leading railroads are not at all uneasy over the proposed move of the President to regulate the affairs of railroads, and one of the most influential men in Wall Street, who is a large holder of railway shares and a power in the street, is quoted as saying that the Interstate Commerce Commission should be given power to regulate rates. Interest rates were averaged lower. The close was on a ragged market, with many advances and declines compared with a week ago. Sales on the New York Stock Exchange for the week were 7,425,000 shares, compared with 10,811,000 shares the previous week and 2,784,000 shares in 1903.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

A large business was transacted in all lines of merchandise. The main feature was centered in Iron and Steel. Prices on Steel rails for 1905 have been fixed at $28 00, or $1 00 same as for the past three years. Good orders are being placed for rails for next year, but the railroads have not bought their full requirements and are expected to replace them in the near future. It is estimated that the output of Steel rails this year will be 1,750,000 tons, against over 2,000,000 tons. The buying of all descriptions of finished Iron and Steel products was good, a feature being the heavy consumptive demand for many lines of goods. Specifications for early deliveries on orders placed for January and February. This shows a heavier consumption than previously estimated. The production is now 1,000,000 tons monthly, but consumption is heavy and stocks at furnaces are not accumulating, showing a heavy reduction since August, but are larger than a year ago. Some sections Bessemer advances are well maintained. The buying of Coal has not been as large as anticipated with the coming of colder weather, yet trading is fairly active. Consumers are taking liberally. Groceries are showing more activity, particularly in holiday goods. Collections are good.

COMMERCIAL.

Business in commercial circles on the Chicago Board of Trade was fairly satisfactory during the period under review. Outside interest was revived in a way, that is to say, orders were more numerous, but for moderate quantities. Speculative operations were, however, mainly professional, with considerable interest centering in contracts for the current month. The semi-panicky feeling in Wall Street, added to the record-breaking capital from Stocks to Grain and fluctuations in the principal markets covered a considerable range. Shipping operations were fairly active and the demand was supplied by scarcity of rolling stock on many railroads. The receiving branch of the trade was quite satisfactory, more particularly as regards cereals.

Foreign crop advices were in the main favorable the past week Argentine reports were again contradictory, blight in some instances being reported and rains in others. Crop prospects are now estimated at 11 bu to the acre. Private estimates as to the surplus in Australia placed the same at 20,000,000 bu, or about half that expected earlier in the season. Cables from Liverpool and Kiebon say many the weather the past week has been wet, which is favorable for the crops and the reports generally are favorable for the winter wheat crop. Italy and Spain claimed the drouth was broken and the crop outlook in consequence improved. Crops in Roumania are reported in excellent condition and crop news from Russia over was favorable factory. Favorable progress and development to the growing crops were reported from India.

The long prolonged drought was broken the past week by general and heavy rains in the Valley. Snows, too, were quite general through Kansas, Oklahoma and parts of the Southwest. Snow also fell in Ohio and Indiana. Crop conditions in regards Winter Wheat were in consequence materially improved While the growth of the plant has been retarded in many important sections, it has not been injured to any extent. On the whole is not much below the average of late years for this season of the year. The Government report made the Wheat area 32.9, against 58.6 one year ago, 32.4 two years ago and 32.2 in 1902. Condition of Rye 90.5 and area 98.7 compared with the area sown last fall. Corn husking is well advanced and cribbing is in active progress. Interior holders sold with freedom on the recent break. The quality of the crop is generally excellent and the yields, as a rule, up to earlier expectations.

The Government report from the farmers was again on a liberal scale the past week. Receipts at terminal points in the Northwest and across the line in Canada were quite heavy and in moderate excess of the local demand. The Duluth *Commercial Record* after making a careful canvass of country elevator stocks, country mill consumption, and dissecting the terminal receipts into their various elements, figures that the net farmers' deliveries on the crop in the Northwest to Dec. 1 were 87,000,000 bu, compared with 70,000,000 bu one year ago. The receipts of Corn were larger at all primary markets, practically double those of one year ago and the quality improved. Oats and Barley were marketed with considerable freedom from the principal producing sections. Considerable Grain was received at the seaboard and moderate amounts on the Gulf. Exports from the Atlantic Coast were small for all description, with the exception of Corn, according to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was an increase in Wheat and Corn, and a decrease in Oats, Rye and Barley.

Considerable interest in a general way was manifested in the leading Grain markets on Change table News and Provisions, and in the leading Stocks in Provisions. Transactions, however, continue in the main confined to professional operators, elevator interests and packers. "Bear" interests little more confident in the position and property was dislodged in large quantities the opening days resulting in sharp declines all around. The unfavorable weather caused a more different foreign demand and unsettled feeling in Wall Street were the "bear" factors. At the declines established, "shorts" accepted fair quantities and a moderate recovery in the later trading. Only a moderate trade was reported in Hog Products, and a comparatively easy feeling prevailed. Outside orders were light, and local trading was moderate, and there was no urgent pressure to sell any source. Prices averaged slightly lower early, but rallied slightly, and the market closed rather steady. Sales of the business was in May options. Packing of the West for the week was reported at 710,000 Hogs, compared with 630,000 for the corresponding week in 1903 Aggregate returns for the season to date 5,380,000 Hogs in excess of last winter season to date.

Rather a good trade was reported in the markets for cash Grain the past week, but closed. Offerings were again liberal of Corn and moderate of Oats and Barley. Offerings of Wheat and Rye rather light. Corn ruled rather weak under the pressure to sell and lines ruled unevenly lower. Other Grains exhibited only slight changes Seeds were inclined to quietness, with little change to note in prices. Hogs was rather dull and slow with no material change in values. Weakness was manifested in the shipping branch of Provisions. Sales moderate, and not fully reported. Prices without material change. Cash demand was rather light. Export demand rather light. Offerings of all kinds only fair. Exports for the week compared with the corresponding week in 1903, as noted in private, 67,330 brls Pork, 4,816,000 lbs Lard, and 1,620 boxes Meats. The supply of Cattle was fair and prices well supported. Sheep were steady, other numbers and prices ruled considerably higher.

FREIGHTS—A scarcity of cars East and West is the main feature of the railroad situation, and it promises to be more so on the Eastern roads from now on. The tariff is as follows:

To—	From Chicago. Domestic.	Export.	From Miss. River. Domestic.	Export.
Boston	22	18	25	17½
New York	20	15	23	17½
Philadelphia	18	14	21	16½
Baltimore	18	14½	21	17
Newport News	17	13½	20	16

Flour rates are 20c domestic and 16½c for export. Provisions are 30c per 100 lbs. Chicago to New York.

Rail rates at and east of Buffalo to New York are 5c per bu on Wheat, 4c on Corn, 3c on Oats and 3½c on Barley.

Rates on Grain are stronger, and good engagements have been made for Corn for loading the next two months for United Kingdom and Continental ports. Rates have been 6¾d to 7d per bu from New York and 10d to 12d from Boston. Through rate on Wheat from Chicago to Liverpool is 13 4c per bu and Corn 12 80c. Flour 24.44c per 196 lbs and Provisions 30c per 100 lbs.

FLOUR—The market was dull and stagnant all the week, buyers holding off, anticipating a further decline in prices. While stocks are reported in Winter Wheat Mills in the hands of the large consumers of Flour, they are not expected to be enlarged to any extent until after the holidays. Consignments were light and range of prices continued to become skeptical and sales were only effected where concessions were granted. The output in the Northwest was 466,000 brls, compared with 494,000 brls the corresponding week in 1903. *Dornbusch's* Buda Pesth correspondent, writing under date of Nov. 25, says: "The tone in the Flour market this week has accentuated the feeling of depression in Wheat. Opening quiet, with very little business doing excepting a few transactions on English and French account, the tone became firmer towards the end of the week, with a better enquiry. There was a fair amount of liquidation, which helped to reduce stocks. Mill feeding stuffs are very firm, but business almost suspended owing to scarcity of stock." The week closed steady at the following prices:

BUCKWHEAT FLOUR—Offerings of Buckwheat Flour fair during the past week, and the demand light. Sales in 100 lb sacks, sacks included, were made at $17 2@17 50.

CORN MEAL—Only a small business was transacted in Winter Wheat during the past week and prices averaged slightly lower. The market has worked in sympathy with the speculative market. Buyers have been indifferent as to sale and purchase. Millers made a few purchases, taking merely such quantities as they needed for immediate requirements, but were not disposed to operate for any distance ahead. The local demand for occasional outside orders were filled and some round lots, including the various grades, were sold. The unfavorable weather for country shipping—and precluded trading in fresh arrivals, prices for which most of the week have been little better than nominal. The stock of No. 2 Red in store at Chicago on the 10th inst was 1,146,000 bu. For the week receipts were 29 cars, against 170 cars the previous week. There were withdrawn from public elevators 72,000 bu, and from private warehouses 60,000 bu, leaving 1,134,000 bu. Red in store was quotable at 2@3½c over May, depending on quality—the outside price for special lots, and ranged at 1 12@1 13, to $1 10¾@1 13¾, to $1 11¼@1 13¾; fresh arrivals were quoted and ranged at $1 14½@1 15½, to $1 14@1 14½, to $1 12@1 16. No. 3 Red fresh arrivals free on board ranged at $1 09@1 13, with sales at $1 09@1 10½. No. 4 Red sold at 90c@$1 07. No. 2 Hard fresh arrivals free on board was quotable at $1 09@1 13, to $1 07@1 12, up to $1 10@1 14, and in store lots quotably about 1c under December. No. 3 Hard nominally $1 05@1 10.

SPRING WHEAT—The market has been quiet, in fact, dull and inactive all through the past week. What little trading there was, was confined to a few cars of fresh arrivals, and comprised No. 3 Spring and generally ordinary and poor No. 4. So little business done as to be positively difficult to establish a market and quotations have been almost nominal, particularly so for the higher grades. The small receipts prevented trading in lots, and ranged at 1 12@1 13, to $1 10¾@1 13¾, to $1 11¼@1 13¾; fresh arrivals were quoted and ranged at $1 14½@1 15½, to $1 14@1 14½, to $1 12@1 16. No. 3 Red fresh arrivals free on board ranged at $1 09@1 13, with sales at $1 09@1 10½. No. 4 Red sold at 90c@$1 07. No. 2 Hard fresh arrivals free on board was quotable at $1 09@1 13, to $1 07@1 12, up to $1 10@1 14, and in store lots quotably about 1c under December. No. 3 Hard nominally $1 05@1 10.

SPRING WHEAT—The market has been quiet, in fact, dull and inactive all through the past week. What little trading there was, was confined to a few cars of fresh arrivals, and comprised No. 3 Spring and generally ordinary and poor No. 4. So little business done as to be positively difficult to establish a market and quotations have been almost nominal, particularly so for the higher grades. The small receipts prevented trading in lots, and values came on sale. The market the balance evidently going to elevators direct on purchases to arrive. Choice Wheat would command a premium of 1@2c for it, but poor Wheat was dull. The receipts for the week were 1,000 cars. Colorado Wheat, were 164 cars, against 122 cars the previous week. There were withdrawn from public elevators 12,000 bu, and from private warehouses 7,000 bu, leaving nominally 1,000,000 bu. No. 1 Northern fresh receipts free on board ranged at $1 16@1 20, down to $1 15@1 17½, to $1 16@1 18¾, but entirely nominal. No. 2 Northern fresh arrivals free on board quotably early at $1 14@1 15, later at $1 05@1 12, and at the close $1 05@1 15, but entirely nominal. No. 3 Spring ranged at $1 00@1 05 for fair to good, and $1 05@1 10 for choice, and 50@70c for poor to fair, and was quotable at 90c@$1 00 for very poor, up to $1 10@1 15 for good to choice. No. 4 White sold at 93c@$1 01½.

RYE—Light trade and large trade was witnessed under this head the past week, and while the feeling was nervous and unsettled, the close shows the December up 1½c, while May gained ¼@¾c, and July lost ¼c. Sentiment was "bearish" the opening days notwithstanding the rather "bullish" showing in the Government report. Selling was of a liquidating general and support of the indifferent sort The heavy receipts in the Northwest and weakness there, together with the breaking of the drouth in the Southwest and semi-panic in Wall Street, all combined to create weakness and bouldation was general. December sold off to $1 03¾, while May touched $1 08¾ and July 97¾c. A material rally followed the break. Unfavorable Argentine news was the chief motive for the upturn and a good share of the buying was credited to the Northwest The fact that the English public crop report was bullish on the situation was also a strengthening influence. The decrease of 2,871,000 bu in the available supply, as reported by *Bradstreet's*, also had a like effect on values, there being an increase of 600,000 bu for the corresponding period last year. The strength at Liverpool was reported due to smaller offerings from Australia and adverse news from Argentine. A Buenos Ayres cable via Liverpool read: "Considerable loss by blight; cold weather retarding growth; frost." Another cable read: "Average yield in province of Santa Fe 11 bu." The week's advance all in all was 1½c, against 2¾c, the latter of which figures there was renewed selling by "bear" interests. Foreign statistics were "bear ish" and the Government report was bullish" The world's shipments exceeded expectations at 9,588,000 bu, compared with 10,592,000 bu the week previous, and 8,952,000 bu one year ago. The Russian shipments were 3,888,000 bu, against 4,688,000 bu, 39,104,000 bu, against 28,888,000 bu a year ago. The visible increased only 218,000 bu, against 2,352,000 bu increase for the same week in 1903. The total visible now stands at 37,168,000 bu, against 34,404,000 bu in 1903 and 48,151,000 bu in 1902. Local public stocks increased 19,000 bu and now include 1,702,000 bu, against 5,580,000 bu in 1903. Afloat is all quiet at 3,769,000 bu, a decrease of 158,000 bu. Stocks one year ago 5,571,000 bu. Contract stocks increased 61,800 bu, and now include 1,431,700 bu, against 1,369,900 bu a week ago and 1,000 one year ago. The Government crop report which came out late Saturday afternoon made the area of Winter Wheat is about 31,158,000 acres, a decrease of 1 per cent from last year, and 3 per cent below the average of the past ten years. The condition of Winter Wheat on Dec. 1 was 82.9, as compared with 86.6 in 1903, 99.7 in 1902, and a 10-year average of 93.1. The following table shows for each of the principal States the percentage of acreage sown to Winter Wheat this fall as compared with that sown last year, the averages of condition on Dec. 1 this year, the corresponding averages for 1903 and 1902, and the mean of the December averages of the last ten years:

The Illinois state report claimed owing partly dry weather at seeding time, and very late fall to chinch bugs, the area of Winter Wheat was 4 per cent smaller than in 1903, and the total acreage was 1,429,000. Northern Illinois reports only 33,000 acres; Central Illinois, 689,000 and Southern 757,000. Foreign crops was more possible this week as the summary in the issue of *Broomhall* indicated: "United Kingdom and Germany—The weather past week has been wet, which is favorable for the growing crops, although it is unfavorable to agriculture. France, Italy and Spain—The drouth has been generally relieved, and the crop outlook has improved in consequence. Roumania reports the winter crops in excellent condition, but there is no snow covering which is causing some anxiety. Arrivals at the ports are very small. Russia—Crop news is favorable. Situation in India is reported unchanged. India—The crops continue to progress favorably. Australia—Some private estimates on the exportable surplus reduced to 20,000,000 bu (this is about half of previous estimates). *Corn*—Broomhall of Nov. 25 said: "Latest advices from Russia report milder weather and crop news is generally quite favorable. There are still some complaints of scanty arrivals at the ports, but shipments will be larger as more Corn will be sold of the shipments, although quantities are decidedly smaller than they were a short time ago. Snow is reported in Central Russia and Roumania, which will give the land the needed moisture The colder weather has been favorably received on the whole, for it is hoped the frost will the check the heating which has caused so much loss. Corn markets have ruled firm on crop conditions, small offerings and a rather better millers' demand " Primary receipts were liberal the past week and generally ordinary and poor in quality. Offers were early, and later not so large. All received did not come on sale, but more or less was placed on to arrive sales. Supply at all times was ample for the demand, and prices ruled easy. Sales of 1,000,000 bu were reported, but the bulk of the business in the weather was so dark as make trading in Barley difficult. Usually there was a fair demand for the cheaper malting grades; they were strong. Prices for choice to fancy were nominal, there being few such lots came on sale, they could be disposed of. One lot of fancy Wisconsin was sold to arrive during the week and some fair also was sold. These sales were at 1c over May. Some fair to good Barley was offered. A moderate business was done in Screenings, but market was a shade weaker. When dirty and seedy they were dull for the demand was light and the supply large. There was a reduction of 713,000 bu in the visible supply and this in the last report was 5,753,000 bu, against 5,902,000 bu a year ago. No change in the local receipts which were 1,714 bu, against 1,717 bu last year it was 241,505 bu During the week 310 cars were received reported, compared with 312 cars the week before and 300 cars the next two weeks are reported. Exports from New York 99,012 bu, the week before they were 389,322 bu, two weeks ago 337,792 bu. Sales of Screenings were at 25@30c for Barley and 28@32c for Feed Barley, both on occasional car above Feed Barley quiet at 27½@ 33c. Low-grade malting sold usually around 60c now and then a dirty car at 38@39c. Fair to good malting Barley sold at 40@45c, choice 46@48c.

SEEDS—There was a good trade in Timothy Seed, but all other lines were exceedingly quiet. Spring delivery Timothy, under a good demand, contained the supply of cash offerings, and as a consequence of that buyers had an advantage and cash prices weakened some. Very little Clover came on sale, and the demand was rather limited. Hungarian and Millets remained salable at former prices; they were scarce on the regular market Very little was done in Flax, and no important change of note. Timothy Seed was easier in the price of Buckwheat; more coming on sale, with demand slack.

Timothy—Arrivals were liberal and output very moderate. Receipts largely in excess of a year ago, and largely in excess of shipments. There was a weak cash market. Prices sustained about the decline of the week. Demand is reported to have been kept agoing mainly by the demand for March delivery. About 25 cars for March delivery were sold. This trade seemed to be mainly local. Inquiry intimated the receipts were largely from one source. The selling was by local concerns who are taking the cash lots of country Seed and weaving them up into the March delivery trade. Seed is being offered ready and it looks as if unusually large deliveries will be made when the time comes. In the speculative market prices did not change materially, and what advantage there was in price changes was in favor of cash buyers. December delivery was not traded in. It was nominal at $2 70@2 74, usually 2½@2½c under March. Sales were at $2.75, a few cars sold at that February was offered at $2 80 and 5c below bid March sales to the extent noted were at $2 82½@2 85, at $2 85 mainly, and closed at $2 85 bid. Prime

Flax—There was hardly any business transacted. The market was in a neglected state. Since little interest was shown, and little effort made at either buying or selling, prices were not subjected to changes. They were for the most part nominal and the same from day to day until at the close when there was ½c advance. Arrivals very moderate here by rail during the week and no cargoes reported. Very little Flax also was taken out. In the Northwest the arrivals showed decrease. In that quarter stocks in the last report presented a liberal reduction, but for all that they remain abnormally large. In South America, according to the advices received, the crop was being harvested under very favorable conditions. Local receipts were 21 cars, compared with 27 cars and 200,000 bu by lake the year before, and 26 cars and 60,000 bu by lake two weeks ago. Withdrawals from regular houses was 3,136 bu, against 3,585 bu the previous week and 3,696 bu two weeks ago. Local regular stock the 16,647 bu; this does not include the Flax in private storage; this, no doubt, is much larger, but quantity cannot be ascertained; last year the regular stock was 77,749 bu. Duluth reported 526,115 bu decrease for last week, with 5,912,181 bu in public elevators there. Minneapolis decreased 18,957 bu, reporting 1,398,557 bu. For No. 1 cash Flax there was a nominal range of $1 16 all the week, and No. 1 Northwestern was quoted in the same way at $1 24; at the close there was ½c advance. Rejected had a nominal range of $1 13@1 21, depending on quality, or 3c discount from the grade above. December was usually quoted as salable at $1 16, but closed at $1 16½, and May, from $1 25 asked early, was $1 24 nominal later to closing at $1 24½.

Clover—Was quiet and strong, finally 25c advance quoted Hardly any was received. Lately from all reports the country has been offering very little. There was some business doing on outside account, at least the shipments would indicate it. No receipts were reported. Shipments moderate and larger than last year. Buyers would take cash Seed, but samples of lots in the country submitted for bids received no particular consideration. Futures inactive. During the week for the first time a quotation for March delivery was obtained. On account of absence of any trading to speak of values were almost nominal. Following table exhibits the movement during the week.

Contract grade spot was called nominally $12 50@12 75. March delivery quoted at $12 75@13 00. Country lots, common to choice, quotable at $9 00@12 50; very poor lower, and fancy above. Fair to good, $10 00@12 00. The closing was strong.

Other Seeds—Nothing was done, except it may have been that some sales were made to arrive, for it was only in this way that there were any offerings. The several lines were quotably steady. From reported railroad movement there would appear to have been something doing, though there were no evidences of it on the regular market. The quotations were allowed to stand unchanged from first to last, and as quoted they are in the table elsewhere given.

Buckwheat—Was quoted as easy. Some increase in offerings and a light demand caused 10@15c decline, to $1 10 for good milling.

HAY—The receipts for the week were 6,880 tons, against 6,572 tons for the previous week. Shipments for the week were 158 tons, against 62 tons for the previous week. The market for Timothy Hay ruled steady during the past week. Arrivals early in the week were liberal and a good demand existed. Consignments sold readily. Later, the receipts became smaller and the inquiry was not so good. Prices exhibit no particular change. Prairie Hay was quiet and dull throughout the week. The offerings were only moderate and the demand was also light. A weak feeling prevailed and prices declined 50c@$1 00 per ton. Quotations at the close ranged as follows: Choice Timothy, $12 00@12 50; No 1 Timothy, $10 50@11 50; No. 2 Timothy, $9 50@10 00; No. 3 Timothy, $8 00@9 00; Choice Prairie, $9 50@10 50; No. 1 Prairie, $9 00@10 00; No. 2 Prairie, $7 50@8 50; No. 3 Prairie, $6 00@7 00; No. 4 Prairie, $5 50@6 00. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $8 00@13 00 for fair to choice Timothy, $5 50@7 00 for State, and $7 00@10 00 for Iowa and Kansas Prairie Hay. Rye Straw sold at $9 00@9 50, Wheat Straw at $7 00@7 50, and Oat Straw at $7 50.

COOPERAGE—A fairly good business was taansacted in Cooperage during the past week, and the feeling was rather firm. Local packers accepted fair quantities, and outside orders were moderately large. Offerings were rather free, but held firmly. Ash Pork Barrels were in good demand and firmer and closed steady at $1 10@1 15. Oak Pork Barrels met with a little more favor and were quotable at $1 17½@1 20. Lard Tierces were in good request, with fair offerings, and prices were well maintained at $1 40@1 42½. Iron bound Lard Tierces were quiet and steady at $1 17½@1 20 for six-hoop and $1 25@1 27½ for eight-hoop. Oleo Tierces were quiet and steady at $1 25@1 27½.

HOGS—The receipts of Hogs during the past week were fairly liberal, but not as large as generally anticipated. Quality was fairly good for the season of the year. Market was fairly active throughout the week, and the changes in prices were slight. Packers accepted a good proportion of the receipts and shippers provided for a fair number of orders from the Eastern markets. Prices were higher early in the week, as the receipts were disapointing, but a weaker feeling was developed and prices settled back 10@15c, and market closed comparatively steady. Sales during the week were made at $4 15@4 55 for light, $4 25@4 45 for rough packing, $4 30@4 65 for mixed, and $4 35@4 65 for heavy packing and shipping lots, with the bulk of the sales at $4 40@4 60 for fair to good averages. At the close about 5,500 Hogs remained in the pens unsold. Pigs were in fair supply with rather a good demand and changed hands at $3 60@4 25, according to size and condition. The supply of Hogs at other large Western packing points was quite liberal and the quality rather good.

PACKING—Rather a good business was transacted in packing circles during the past week, but not as large as during the week previous Hogs were in fair supply, with only slight changes in prices, and packers manufactured Products rather freely. Mess Pork was made in fair quantities, and other cuts of Pork made quite liberally. Lard was produced rather freely, and the average yield was fair. Bulk of the Lard continues to be placed in tierces. Domestic cuts of Hams were made quite freely, and only a small percentage sold from the block. Skinned Hams were made in liberal quantities, and the bulk packed by manufacturers. Foreign cuts of Hams are still made very sparingly Shoulders were made in moderate quantities, and a fair percentage sold to the retail trade. Picnic Hams cut in good quantities, and the bulk cured by packers. Long Clear Sides made quite sparingly. Extra Long Clear Sides neglected. Short Clear Sides made in moderate quantities. Extra Short Clear Sides made in fair quantities. Short Rib Sides cut rather more freely to provide for outstanding contracts. Extra Short Rib Sides made in fair quantities. Rough Sides were made rather freely, and mainly of light and medium averages. Backs made in moderate quantities. Bellies cut in only fair quantities. Loins cut liberally for the retail and fresh Meats trade. Foreign fancy and special cuts of Meats made in limited quantities.

PROVISIONS—In the aggregate there was only a fair speculative business transacted in Hog Products during the past week. Outside orders were on a moderate scale, and local packers and speculators were not disposed to trade very freely. A fair share of the trade was in transferring contracts from January to May, and in the general trading the latter commanded the preference. The receipts of Hogs were not as free as generally anticipated, but were moderately large. Prices as a rule were a little more favorable to sellers. The returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited an increase of 80,000 Hogs, and the aggregate increase for the season is about 580,000. Supplies of all kind of Products are gradually enlarging, and the manufacture was fairly liberal. Foreign markets were dull and dragging, and quotations in Liverpool were reduced materially on the principal articles. Domestic markets were inclined to quietness, and will probably remain so until after the holidays. The receipts of Products from the interior continue liberal—for the week were about 319 cars—as packers are willing to sell their manufacture at current prices. Shipments were fairly large, and widely distributed. Early in the week, the speculative market was fairly active, but the feeling was comparatively easy. Offerings were moderately free, while buyers were a little backward, and prices declined materially on all the leading articles. At the reduction, there was a little more inquiry in a general way, and mainly from "shorts." A firmer feeling was developed, and prices rallied moderately, but not fully supported to the close. Near deliveries neglected. Moderate trading in contracts for July. In the shipping branch of the trade there was only a moderate business transacted. Buyers for the domestic trade were not inclined to do much business, and accepted only small lots. Exporters were backward about purchasing, owing the weakness manifested abroad, offerings of all kinds were on a moderate scale, and of some descriptions were chiefly of partly cured. Local packers sold slowly, while outside packers disposed of fair quantities. Prices rather inclined in favor of buyers, but the declines were slight.

Pork—A fair amount of interest was manifested in the market for Mess Pork during the week just closed, but the volume of business was not very heavy. Offerings the opening days were moderately free, while the demand was only fair and a lower range of prices was established Stocks are gradually enlarging, and this was possibly an early factor. Manufacture was fair. Outside speculative orders were only moderate, and local trading fair, and the market the closing days had a holiday appearance. At the decline established early in the week of 32½@35c, the demand improved, and the situation became firmer. Prices were advanced 35@40c. Near the close, prices receded again 7½@10c, and market closed rather steady. The demand on shipping account was moderate, and offerings not very large. At the close, cash lots were quotable at $11 30@11 40 for regular according to quantity, with repacked at 10@15c discount. Other cuts of Pork were in moderate request, with fair offerings, and prices ruled slightly lower on some descriptions.

Lard—Only a moderate trade was reported in the market for Lard during the past week. Trading was mainly local, and operators still cautious in their transactions. The trade was confined almost exclusively to contracts in January and May, with a little more interest in July. Foreign advices were again rather against holders, and supplies here and elsewhere are steadily enlarging. Packers favored the selling side the opening days and prices gradually declined 7½@10c all around. At the reduction in prices the demand improved, "shorts" accepting fair quantities, and a recovery of 12½@15c occurred Toward the close, there was a little pressure to sell, and prices declined 2½@5c. Demand on shipping account continued moderate, and offerings were light. A few lots were accepted by exporters. Prices generally ranged at about 6c discount on January figures. Refined was in light request for export, but prices were not made public. Loose lots were in rather good request, and the offerings were fair. Holders not so firm in their views. Prices were quotably steady at about 50c discount on January figures. Leaf Lard in fair demand, and offerings were larger. Moderate trades were made at $6 87½, and closed at $6 37½. Neutral was called for sparingly, and there was a little pressure to sell. Feeling was rather easy and prices were lower, closing at $7 37½@7 50 for No. 1 and $7 12½@7 25 for No. 2.

Short Rib Sides—Just a fair trade occurred in the market for Short Rib Sides the past week. Transactions were quite local in character, outside interest not being in any way marked. Transactions are mainly confined to contracts for January and May delivery, though July attracted a little more attention. Supplies on hand are said to be steadily enlarging, the manufacture being quite liberal. Feeling was a little unsettled, with the tendency of values downward the first of the week. Prices declined 12½@15c under miscellaneous selling. "Shorts" accepted fair quantities at the reduction in values and on moderate investment purchases later the price advanced 20@22½c. Toward the close, the feeling was not so firm, and prices settled back 2½@5c, and the close was fairly steady. Demand on shipping account was moderate, and offerings were rather light. Light and medium averages still scarce. Prices declined slightly. Cash lots at the close were quotable at $6 25@6 50, according to weight and age.

Green Meats—Only a moderate business was ransacted in Green Meats during the past week, and only a few sales were made public, and prices generally withheld. Offerings were not very free, and the demand was moderate. Local curers accepted a few lots, and outside orders were light Interior packers sold moderately. Hams in only fair request and prices without material change. Skinned Hams in moderate demand and prices ruled steady. A few sales made for future delivery. Shoulders were in light request and prices favored buyers. Picnic Hams were in moderate request in a quiet way, and prices were unchanged. Bellies were called for moderately, chiefly in small lots, and prices ruled steady.

Pickled Meats—The market for Pickled Meats attracted little attention during the past week. Demand from all quarters was light and offerings were moderate. Feeling quiet and little change to note in prices. Foreign advices were unfavorable and prices ruled lower, and orders from that quarter were light. Domestic markets were inclined to quietness, and will probably remain so until after the holidays. Stocks of all kinds are fairly large. Holders rather firm in their views especially for desirable averages. Buyers a little slow to meet the views of sellers. Hams were in moderate request, and prices ruled steady. Skinned Hams were called for in fair quantities, and prices ruled steady. Moderate quantities sold for future delivery. Shoulders were in small demand, and prices inclined in favor of buyers. Picnic Hams were called for moderately and prices ruled comparatively steady, especially for desirable averages. Belles were in moderate request at about former figures.

Dry Salted Meats—Less interest was manifested in the market for Dry Salted Meats during the past week, and the undertone to the market was comparatively easy, though the decline in prices was not marked. Offerings were moderate, and almost exclusively of partly cured lots, while the demand from all sources was comparatively small. Foreign markets were dull and dragging, and prices materially reduced on all the leading articles. Domestic markets rather quiet, as is usual at this season of the year. Merchants carrying only small stocks until after the close of the year. Interior packers rather disposed to sell. Export inquiry rather light. Foreign cuts of Hams were in small request and prices were unchanged. Shoulders were in small request and prices ruled rather steady. Long Clear Sides were in light demand prices inclined in favor of buyers. Extra Long Clear Sides were inactive and prices altogether nominal. Short Clear Sides were in fair request on export account, with moderate sales, and prices ruled about ⅛c lower. Extra Short Clear Sides were in moderate request to fill small orders, and prices were steady—closing at $6 40@6 45. Extra Short Rib Sides were in light request, with moderate offerings, and prices ruled steady—closing at $6 35@6 40. Rough Sides were in fair request, with no particular pressure to sell, and prices inclined in favor of buyers. Prices ranged at $6 25@6 50, according to weight and age. Plates were called for moderately, and prices were about ⅛c lower. Butts were quiet, and prices favored buyers. Backs met with a little favor, and prices ruled lower. Bellies were in small demand, and prices were ⅛@¼c lower. Foreign fancy and special cuts of Meats were quiet at about former figures.

Smoked Meats—The trade in Smoked Meats during the past week was moderate, owing to the seasonable weather, and the feeling was easy. Offerings were moderate, while orders were for limited quantities. Stocks were reported fair. Hams in light request and prices favored buyers. Skinned Hams were in moderate request and prices ruled steady. Shoulders were in light demand and prices ruled ⅛c lower. Picnic Hams were in small request and prices ruled ⅛@¼c lower. Sides of all kinds were called for moderately, and prices ruled about ⅛c lower. Breakfast Bacon in fair request and prices were unchanged.

Beef Products—The past week was quiet in the market for Beef Products and feeling was rather steady for most descriptions. Offerings were fair and the demand only moderate. Cattle were in fair supply and prices lower for common grades, while the better grades held up fairly well. Foreign markets were steady and domestic markets quiet. Shipments of Dressed Beef rather liberal. Manufacture of Products was moderate and supplies on hand are fair. Beef Hams were called for moderately and prices ruled rather steady. Extra Mess Beef quiet and steady at former figures. Plate Beef in rather light demand and prices ruled steadier Extra Plate Beef in moderate request and prices were slightly higher. Tallow was inclined to quietness, but was firmly held, and prices favored sellers. Oleo-Stearine was rather quiet and steady at 6¼@6½c.

Greases—Trade was moderate in Greases during the past week and there was no particular change to note in prices. Offerings were not very large, and the demand was only fair.

Representative Baker of New York, Friday, introduced a resolution requesting the Attorney General to "report to this House whether he has ascertained that the 'Beef trust' is in restraint of trade, and, if so, what steps he has taken under the provisions of law to cause a forfeiture of the property (in course of transportation from one State to another) of those constituting the so-called 'Beef trust.'"

Orders for the Steel rail requirement of the Pennsylvania Railroad Company for its lines east and west of Pittsburg for the year 1905, amounting to 102,700 tons were placed, Thursday, as follows: United States Steel Corporation, 55,500 tons; Lackawanna Steel Company, 7,000 tons: Cambria Steel Company, 20,100 tons, and the Pennsylvania Steel Company, 20,100 tons. The company will pay $28 00 a ton for the rails. The tonnage ordered is about one-half of that ordered for this year

The Erie Railroad contemplates the expenditure of $8,000,000 for new passenger and freight terminals at Jersey City The plans under consideration provide for a double-decked train shed, covering twenty-two tracks for freight on the ground floor and sixteen tracks exclusively for passenger trains on the second floor. Recently the Erie and Lackawanna discussed the advisability of building a tunnel under the river and erecting a joint passenger station in New York, but that plan was dropped

The Treasury Department has decided that American Wheat cannot be blended with Canadian. This statement is made by Henry L. Little of the Pillsbury mills It is the first definite intimation that the trade has on this point The question was submitted to the Attorney General by Secretary of the Treasury Shaw two days ago The Pillsbury Washburn Company is operating two bonded mills with Canadian Wheat at Minneapolis. All the Flour and offal made from the Canadian Wheat must be exported if the millers desire to secure a rebate of the import duty of 25c per bu.

The American Hide and Leather Company for the past few months has been earning $150,000 net per month. Indications point to a continuation of earnings at about this rate this winter, as the company was very fortunate in its Hide purchases and has a large supply of low priced Hides, which, converted into Leather, will permit of good profits. Monthly earnings of $150,000 are not to be expected for the full year, however, although such earnings would aggregate but $1,800,000, and the twenty-two companies and firms absorbed by the American Hide and Leather Company showed net profits the year previous to the consolidation of $1,585,000

Early in January the Illinois Central directors meet to declare the one hundredth semi-annual cash dividend on the stock of that company. For fifty years, without a break, the Illinois Central will then have paid cash dividends averaging over 6 per cent per annum, not taking into account the valuable rights which the company has from time to time given to its stockholders. The gross and net earnings have shown a wonderful increase since July 1, and there has been some talk in the street to the effect that the directors would next month celebrate the occasion by putting the stock on a 7 per cent basis. Nothing definite can be ascertained as to this beyond the fact that the company is well able to pay the increased rate.

The directors of the Minneapolis and St. Louis Railroad at their meeting in New York, Wednesday, decided to act conservatively and to accumulate a larger surplus before resuming the common dividends. There is every indication that both the gross and net earnings for the last half of the present fiscal year ending June 30 will be very much in excess of those for the first half, and that for the whole year large gains will be recorded. Corn is now being moved, and this will be an important factor in the company's traffic for some time. General business is very satisfactory. In view of these facts, it would not seem surprising if a dividend were paid on the common stock next June.

It appears reasonably certain that the directors of the Western Stone Company, Chicago, have under consideration the matter of paying dividends on the stock. The proposition is said to have been gone over at length at a recent meeting of the board, and a decision favoring a disbursement is said to have been reached, but formal action was deferred for a time. The company paid a dividend of 2 per cent in 1897 and none since. Earnings for 1904 are said to justify the contemplated payment. Business has increased 30 per cent during the year. At the close of 1903 the company had an available surplus of $116,433. What the amount of the dividend will be is only guessed at, but 2 per cent on the outstanding capital of $2,250,000 would be only $55,000.

The chartering of scores of new traction companies almost every week is one of the prominent developments of the year. Last week five of these corporations were chartered at Harrisburg, Pa., in one day. Literally hundreds of them are getting out charters in every part of the country. These lines run from ten miles up to 150 miles. Many new traction companies are being projected along the Pacific Coast. The General Electric Company is booking many orders for equipment for these roads, and this work, together with the steam railway conversion work, promises to make 1.05 a memorable one in the company's history. Net earnings are now understood to be running at about $1,000,000 a month, while the annual dividend requirements are $3,665,752. Orders in sight are said on good authority to exceed $60,000,000, the largest volume of unfilled orders in the company's history.

It was reported, Thursday, in Wall Street that holders of common stock of Atchison, Topeka and Santa Fe, representing about $40,000,000, will probably oppose the proposed issue of the $50,000,000 convertible bonds, as announced by President Ripley, of that company. The last annual report shows large earnings, sufficient, as stated in the report, to pay 5½ per cent on the preferred and 9½ per cent on the common stock. The stockholders believe that the earnings for the last six months will show even a further increase. Point is made that the putting of $50,000,000 additional bonds ahead of the preferred stock is not likely to increase the latter's investment value, and the convertibility of the bonds into common stock whenever it becomes to the holders' interest to do so is not likely to enhance the value of the common stock, as shown by the effect of President Ripley's announcement on the present market.

There has been excellent buying of the securities of the American Car and Foundry Company. This buying is based on the knowledge that there has been a great improvement in the company's business. The outlook for the car manufacturing industry is decidedly encouraging. Well informed people believe that if present conditions in the car industry continue the earnings of the company will be sufficient to resume dividends on the common stock some time during the coming year. In connection with the improvement in the demand the company is also receiving better prices than it was possible to obtain several weeks ago, thereby increasing its margin of profit. The company's working capital, amounting to upward of $14,500,000, is ample to handle its business, and as soon as surplus earnings reach a normal scale it is likely that a portion will be used to pay dividends on the common stock and a portion used to further increase the working capital, in line with the company's policy.

There is some reason to believe that the common stock of the International Paper Company will receive a small dividend some time during 1905. In connection with this proposed bond issue the common stock has had a material rise. This advance is based upon the assumption that the money that has been taken out of the company's earnings from time to time for improvements really belonged to the common stockholders, and now that the treasury will be reimbursed to some extent, some distribution in the way of dividends should be made on the common stock. A number of the large holders of the common shares are already bringing pressure upon the directors to give the common stock dividends, and it is not unlikely that the matter will come before the directors in concrete form some time during the coming year. It is known that some of the directors are opposed to resuming dividends on the common shares, while on the other hand it is also known that some of the directors favor it. A rate not less than 2 per cent per annum is being talked of.

The stockholders of the Illinois Brick Company are in receipt of a circular sent out by a Chicago brokerage firm asking for proxies to be used at the forthcoming annual meeting of the company next February The statement is made in the circular that the firm already controls enough proxies, voting cumulatively, to elect two directors The following assertions are made regarding the business of the company and the proposed reorganization plan. "On the first Monday of February, 1905, the annual meeting of the Illinois Brick Company will take place. At that time a board of eleven directors for the ensuing year will be chosen, and there will undoubtedly come up for action a proposition to retire the outstanding common shares, giving in exchange for every 600 shares of common 100 shares of what is now preferred, and cutting a $9,000,000 corporation down to a $4,000,000 corporation, all of one kind of stock, and permitting it in our opinion, to pay 2 per cent quarterly dividends and pass 1½ per cent or more to surplus. This plan of retirement is one that we have brought about owing to the fact that our customers hold practically a sufficient number of shares to defeat any retirement proposition that is unsatisfactory. While we do not think the ratio of exchange, 6 to 1, is fair to the common certificate, still, being a compromise ratio, it has received our informal assent and also that of the prominent shareholders among the management. The plan will doubtless carry, and the new certificates ought to sell above $100 a share."

The output of the St. Louis Flour mills for the past week was 61,200 brls, against 59,850 brls for the previous week.

The packing at Milwaukee since November 1 is estimated at 183,921 Hogs, against 191,289 for the corresponding time in 1903.

Ten packers purchased 20,800 Hogs to-day; shippers, 7,000; left over, 8,000. Market closed quiet. Heavy lots sold at $4 72½.

After allowing for new fixed charges, experts claim Atchison earnings will equal about 7½ per cent on the common stock.

Estimated receipts for to-morrow: Wheat, 54 cars; Corn, 937 cars; Oats, 110 cars; Rye, 8 cars; Barley, 68 cars; Hogs, 30,000.

Authorities claim that the United States Steel Corporation will need a great deal more Pig Iron than in can turn out in its own plants.

The quantity of Flour and Wheat on passage to Europe during the past week decreased 2,840,000 bu, and the quantity of Corn decreased 653,000 bu.

The stock of Flax Seed at Duluth on Dec. 17 was 6,243,043 bu, compared with 5,912,181 bu the previous week—an increase of 330,862 bu. Stock last year, 4,822,000 bu.

Exports of Flax Seed from India the past week were 440,000 bu, compared with 304,000 bu for the week previous, and 326,000 bu for the corresponding week in 1903.

The average weight of the Hogs received at Chicago last week was 229 lbs, against 233 lbs the previous week, 219 lbs the corresponding week in 1903, and 216 lbs in 1902.

Broomhall cables: "Our agent at Agra cables that the United and Central Provinces have received opportune rains. These are the second and third largest provinces in India."

Average cost price of Beef Cattle at Chicago for the past week was $4 85, against $5 05 the previous week, $4 30 a year ago, and $4 50 two years ago. The average a year ago was the lowest during 1903.

Cotton in New York was lower in the late trading, although showing strength early on the cables. Support was withdrawn and selling pressure increased. Closing prices were 16@20 points lower.

Stocks of Wheat in public warehouses in Liverpool reported at 5,152,000 bu, against 5,192,000 bu one week ago and 3,360,000 bu one year ago. Stocks of Corn reported at 526,000 bu, against 634,000 bu one week ago and 1,037,000 bu last year.

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were increases of 1,477,000 bu Wheat, 794,000 bu Corn, 172,000 bu Rye and 1,363,000 bu Barley, and a decrease of 12,000 bu Oats.

East bound shipments all rail from Chicago the past week are as shown in the following table:

	Flour, brls.	Grain, bu.	Prov tons.
Past week	144,733	2,427,000	23,432
Previous week	147,229	2,077,000	26,449
Last year	127,873	1,466,000	30,479

Average cost price of Hogs at Chicago, Saturday, was $4 55, against $4 54 Friday, $4 44 a week ago, and $4 33 a year ago. Average cost for the week, $4 51, against $4 46 the previous week, which was low week for the year. Average the corresponding week a year ago, $4 45; two years ago, $6 10, and three years ago, $6 18.

Stocks in New York were strong, and averaged higher. The support was good, despite a report that a strong and aggressive "bear" pool had been formed to force prices lower. Railway shares were ⅛ to ¼ lower to ¼ to 1¾ higher. Tractions gained 1¼ to 2½. Industrials advanced ⅛ to 5 points, the later on International Power. Money 2½ to 2¾ per cent.

The New York *Producers' Price Current* says of Hops: "Continued dullness prevails in all markets. In New York State no sales are reported and we hear the same story from the Pacific Coast. Brewers are showing absolutely no interest in the situation and it would appear as if there would be little improvement until after the holidays. Foreign markets also reported as exceedingly quiet."

Active bidding for West and North Chicago Railway by parties who are said to have claimed to hold control of these lines, was a feature of the local stock market. West Chicago Railway advanced 9 points, and North Chicago Railway 5½. Industrials were mostly higher, with moderate trading. The best gains were in Can, Biscuit, and Swifts. Western Stone lost 1½, which was recovered.

The eighteenth annual report of the Inter-State Commerce Commission was transmitted to Congress to-day. The Commission says: "The act as amended by the Elkins law of 1903 appears to be operating successfully as applied to carriers subject to its provisions but it is believed that these provisions might be made somewhat more definite and extended to apply to other agencies connected with transportation. Authority to require the establishment of joint through rates over connecting and continuous lines is also believed to be necessary. Evils attending the use of private freight cars are dwelt upon. The matter of terminal railroads owned or controlled by shippers, is referred to as a most dangerous means of giving preference to favored persons. The Commission promises to suppress the wrong-doing. There were 43,366 employes injured and 3,367 killed in 1904. There were 8,077 passengers injured and 321 killed. The Commission urges the adoption of the block system."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is quiet, with sales limited. Prices easy.

WINTER WHEAT—Was generally dull and slow sale. Choice soft Winter was in some request by millers. No. 2 Red in store ranged nominally 2@3½c over May—outside for special bin lots ranging at $1 12@1 14½, and fresh arrivals free on board at $1 15@1 16. No. 3 Red fresh arrivals free on board quotable at $1 10@1 13, with sales at $1 12½@1 13. No. 2 Hard fresh arrivals free on board quotable at $1 10@1 14 and No. 3 Hard at $1 02@1 12, with sale of a choice car at $1 14.

SPRING WHEAT—Was quiet. There was a little Wheat taken by a miller, but demand, generally speaking slack. Prices little better than nominal. No. 1 Northern fresh arrivals free on board quotable at $1 15@1 18. No. 2 Norhern quotably $1 08@1 15. No. 3 Spring nominally 95c@$1 10, with sales at $1 10. No. 4 Spring quotable at 56@60c for very poor to $1 00@1 05 for good to choice.

REGULAR WHEAT—The trade was moderate and mainly professional with the tone rather stronger, the close showing the December up ⅛c, while May gained ½c and July lost 1-16c. The start was firmer on scattered buying by commission houses, due principally to the fact that the Russian shipments were smaller, the arrivals in the Northwest 153 cars less than a year ago, and the markets there all stronger. Market also gathered some strength on the showing of the English cables, which failed to respond to the break on this side Saturday. The large decrease in the amount on ocean passage, 2,840,000 bu, leaving the same 38,264,000 bu, against 27,040,000 bu one year ago, was also a "bull" factor. World's shipments were 8,840,000 bu, against 9,283,000 bu the previous week and 10,408,000 bu one year ago. Liverpool quoted spot steady to ⅛d lower and futures ⅛d higher. Stocks there, 5,152,000 bu, decreased 40,000 bu. London, Antwerp and Berlin unchanged. Paris was steady to ⅛c higher. Buda Pesth was ⅛c lower. The strength in December started local operators to buying May, but considerable realizing followed the advance. The visible supply increased 1,477,000 bu, compared with 163,000 bu increase same week in 1903. Total is now reported 38,585,000 bu compared with 34,567,000 bu in 1903 and 48,816,000 bu in 1902. Local public stocks decreased 39,000 bu, to 1,663,000 bu, against 8,722,000 bu in 1903. A private Argentine cable read: "Weather fine; harvesting progressing rapidly." *Broomhall* cabled his agent at Agra, India, cabled that the United and Central Provinces have received most opportune rains for Wheat. The map showed light snows in Illinois and the Ohio Valley and generally fair weather was predicted by the Signal Service. Primary receipts were 138,000 bu less than a year ago. Kansas City and St. Louis received 214,000 bu, against 263,000 bu in 1903. Winnipeg received 142 cars, against 79 cars same date in 1903. Minneapolis reported stocks increased 340,000 bu in two days, and claimed there were 81 cars of Canadian Wheat in to-day's receipts. Clearances again very moderate and no boat loads accepted at the seaboard. Minneapolis messages reported a better demand for cash Wheat from millers. Receipts at Duluth 127 cars, at Minneapolis 614 cars, a total of 741 cars, against 615 cars Saturday, 1,115 cars a week ago, and 894 cars last year. Local receipts included 7 cars Winter, 25 cars Spring and 8 cars mixed, total of 40 cars, against 73 cars last year. Included in above was none contract grade. There were also 31 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 54 cars. The withdrawals were 1,700 bu. Receipts at Western points were 1,033,-615 bu, against 1,171,824 bu last year. At Eastern points 55,355 bu, against 312,620 last year. Shipments from Western points 238,834 bu, against 203,355 last year, and from Eastern points 58,165 bu against 97,629 bu last year. Shipments of Flour were 9,332 brls. Exports of Wheat in Flour were equal to 100,159 bu.

Future Deliveries of Regular Wheat—Moderate trade and closing higher.

DECEMBER—Sold at $1 10@1 11. Opened at $1 10; sold to $1 11, to $1 10⅞, to $1 11, to $1 10⅝, to $1 10⅞, to $1 10¼, to $1 10⅜, to $1 10, and closed at $1 10 bid.

MAY—Sold at $1 10⅝@1 11½. Opened with sales at $1 10⅝ to $1 11; sold to $1 10⅞, to $1 11⅜, to $1 10⅞, to $1 11⅜@1 11½, to $1 11¼, to $1 11½, to $1 11⅛@1 11¼, to $1 11⅜@1 11½, to $1 10⅞, to $1 11⅜, to $1 10⅞, to $1 11, to $1 10⅝, to $1 10⅞, to $1 10¾, to $1 11, and closed at $1 11 asked.

JULY—Sold at 98@98⅛c and at 98⅞c. Opened at 98½c to 98⅝c; sold to 98⅜@98¾c, to 98⅝c, to 98⅞c, to 98⅝c, to 98¾c, to 98⅜c, to 98½c, to 98@98⅛c, to 98¼@98⅜c, and closed at 98¼@98⅜c asked.

CORN—A fair trade, with the feeling a little unsettled, resting prices showing the December ⅜c higher, while May gained ⅛c and July unchanged. The start was easy on the heavy receipts and larger world's shipments, but the offerings, which came chiefly from floor traders and cash houses, were well taken by commission houses, and market soon turned stronger. Values were helped to some extent by the strength in Wheat and cash situation. There is said to be a good call from the East, but the car situation tends to curtail transactions. Receipts were 1,025 cars, against 259 cars last year, and 937 cars were estimated for to-morrow. World's shipments were 3,792,000 bu, against 2,525,000 bu the week previous and 3,634,000 bu one year ago. The quantity on ocean passage decreased 653,000 bu to 16,816,000 bu, compared with 14,725,000 bu one year ago. Liverpool quoted spot and futures steady, the stock there—526,000 bu—decreased 108,000 bu last week. The Roumanian crop was officially reported 20,656,000 bu, compared with 83,572,000 bu a year ago. Local arrivals were again quite liberal at 629,000 bu and shipments 242,-000 bu. Withdrawals from store included 131,500 bu No. 2 from private elevators. Clearances were the best in some days at 687,000 bu, a fair percentage via the Gulf. One of the larger receiving houses was reported as reselling 100 cars this morning at a reduction of ¼c compared with Saturday's figure. Western receipts were 1,278,000 bu, compared with 553,000 bu, and shipments 491,000 bu and 156,000 bu respectively. The visible supply increased 794,000 bu, compared with 94,000 bu increase one year ago. Total is now reported at 5,359,000 bu, compared with 5,687,000 bu in 1903 and 6,312,000 bu in 1902. Local public stocks increased 335,000 bu to 778,000 bu, against 2,008,000 bu corresponding date in 1903. Shipping sales here were 150,000 bu, and 18 boat loads at the seaboard. Car lots were fair demand and prices ¼@½c lower. No. 2 and No. 2 Yellow closed at 45¾@46¼c according to location. No. 2 White sold at 46c. No. 3 sold at 43@43¼c and closed at 43c. No. 3 Yellow sold at 43¼c and closed at 43c. No. 2 sold at 42½c.

Corn by sample—Offerings were large and the demand good. Feeling, however, weaker, and prices ¼@½c lower. Sales on track and free on board: No Grade sold at 39@41½c. No. 4 at 40½@42¾c. No. 3 at 43@43½c. No. 3 Yellow at 43@44½c. No. 2 at 46c. No. 3 White at 43@43½c. No. 2 White at 46c. Billed through: No Grade at 39½@40c. No. 4 at 40@42c. No. 3 at 41½@42½c. No. 3 Yellow at 41½@42½c. No. 3 White at 41½@42½c.

Future Deliveries of No. 2 Corn—Fairly active and firmer and closed ⅛@⅜c higher.

DECEMBER—Sold at 45⅛@46c. Opened at 45⅛c to 45¼c and sold at 45½c, to 45⅜c, to 45⅝c, to 45¼c, to 46c, to 45¾c, to 45⅞c, and closed at 45⅞c.

JANUARY—Sold at 42½@42⅞c. Opened at 42¾c, and sold at 42⅞c, to 42½c, to 42⅝c, to 42½c, to 42⅝c, and closed at 42⅝c bid.

MAY—Sold at 45c and 45⅜@45½c. Opened at 45⅛c to 45c, and sold at 45¼@45⅜c, to 45¼c, to 45⅜@45½c, to 45¼@45⅜c, to 45⅜c, to 45@45⅛c, to 45¼c, and closed at 45¼c asked.

JULY—Sold at 45⅜@45¾c. Opened at 45⅜c and sold to 45¾c, to 45⅜@45½c, to 45½c and closed at 45½c sellers.

OATS—Were moved ¼c, with a slow trade, and closed about the same as Saturday to a fractional decline, the latter being on December. Statistics were a little "bullish." The visible supply decreased 12,000 bu and local stocks decreased 417,000 bu. Cancellations were 110,000 bu Standard. Withdrawals 974,000 bu, including 89,875 bu Standard. Seaboard clearances 3,175 bu. Arrivals 181 cars, with 110 cars expected to-morrow. Duluth had 23 cars and Minneapolis 86 cars. Cash sales were 25,-000 bu. Car lots to go store were steady to ½c lower. No. 4 at 28¼c. No. 4 White at 29¾@30½c. Standard in store closed about 29¼c.

Oats by sample were in moderate request and steady for good, but slow and ½c lower for poor through billed. Sales on track and free on board. No. 4 at 28¾@29½c. No. 4 White at 28@30¼c. No. 3 at 30c. No. 3 White at 29½@31c. Standard at 30½@31c. No. 2 at 30c. No. 2 White at 30¾@31½c. Billed through: No. 4 White at 28½c. No. 3 White at 30¼@30½c. Standard at 30½c. At the river. No. 4 White at 27@28c. No. 3 White at 28@29c. Standard at 29¼@29½c. No. 2 White at 29½c.

Future Deliveries of Contract Oats—Stronger early, but reacted and closed steady.

DECEMBER—Slow at 29⅛@29¼c. Opened at 29¼c; closed at 29⅛@29¼c.

MAY—Sold at 31¼@31½c. Opened at 31¼c to 31¼@31⅜c; sold to 31½c, to 31¼@31⅜c at close.

JULY—Sold at 31¼@31½c. Opened at 31⅜c, sold to 31½c, to 31¼c, and closed there.

RYE—Was quiet and unchanged. There was a little demand for cash, and fresh arrivals were taken by the usual buyers, but futures neglected. The visible supply increased 172,000 bu. Receipts were ten cars and there were withdrawn from private warehouse six cars. No exports from New York. No. 2 in store nominally 74c and fresh receipts free on board sold at 77@78½c. No. 4 sold at 70½@71c.

Future Deliveries of No. 2 Rye—Neglected. December nominally 74c. May 77c bid and 78c asked.

BARLEY—All malting grades and good quality of Screenings sold very well and ruled steady. A little more Barley was offered. Supply was fair. Of the cheaper malting grades, buyers responded very well. Consignments were generally closed out; about the only kind remaining unsold was a few cars of musty goods and no one seemed to want these. Posted receipts 88 cars. There was a large increase in the visible as shown in the table elsewhere given. The quantity on the lake reported last week seemed to have reached Buffalo, where there was a large gain both in the stocks in store and afloat. The visible appeared as 1,200,000 bu larger than a year ago. Sales of Screenings were made at 28@37c for common to fancy. Feed Barley nominal 37@38c. Low grade malting, at 40c, with very dirty cars 1@2c below; fair to good at 41@44c, choice at 45@46c; very fancy in round lots possibly a shade over. Last week something like 300,000 bu were sold to arrive, though hardly any business then reported.

SEEDS—Were very quiet, and a reaction in the case of Flax Seed from Saturday's advance was the only change in the entire market.

Timothy—There was again present a fair demand for March delivery. The recent quotation was paid and bid. This demand seems to be about the only support the market has. It keeps alive a demand for cash Seed. Outside regular order trade said to be neglected, almost lifeless. Not much cash Seed offered and yet for this there was quoted a heavy feeling. Contract spot or December delivery nominally unchanged at $2 72½, January quotable at $2 75, February offered at $2 80. March sold at $2 85, and that bid. April was $2 90 sellers and $2 87½ bid. Country lots quotable at $2 00@2 65 for low grade to fancy; inferior lower; fair to good, $2 35@2 45, and rough, dirty or hulled, $2 00@2 25.

Flax—There was a reaction of 1@1½c from Saturday's advance in prices. That left the market about where it was last Friday. The change was due to a break in prices in Northwestern markets. Nothing was done aside from the sale of a car of Northwestern; nothing else was offered. Only 2 cars or 1,800 bu came in. There were 7,811 bu taken out, 1 car or 1,800 bu by rail, the rest by lake. Minneapolis got 74 cars and Duluth 62 cars. Local regular stock last week decreased 12,897 bu, leaving 3,752 bu, against 73,445 bu the same time last year. No. 1 Northwestern salable at $1 24½, and No. 1 at $1 17. Rejected quotable at $1 14@1 21 depending on quality. December delivery salable $1 17 and May offered at $1 24½.

Clover—Only a few very small lots, some of them Alsike, offered. They did not amount to enough to attract any attention. The market was given a steady quotation. Contract grade quotable at $12 75. March delivery about $13 00. Country lots, common to choice, quotable at $8 00@12 50; very poor lower, and fancy above. Fair to good, $10 50@12 00.

Other Seeds—Were quotably unchanged from last week's closing prices, and market without trades owing to absence of orders. Hungarian quotably $1 05@1 15 for common to choice. Millet, common, quotable at 90c@$1 15 for common to choice, German at 90c@$1 25. Siberian at 80@90c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05. Mustard about 75c@$1 00. Buckwheat remains easy, with good milling about $1 10.

HOG PRODUCTS—Speculative trading in Hog Products was on a moderate scale. Offerings were not very large, and the demand was moderate and somewhat spasmodic, with fluctuations in prices within a narrow range. Outside orders were light, and local trading was moderate. Hogs were in fair supply and higher, and this feature, coupled with a stronger feeling in the Grain markets, tended to a little strength early, and prices ruled slightly higher. Offerings were moderate, and the demand was fair. After the early orders were provided for, a weaker feeling was manifested, and prices receded moderately, and the market closed steady. Bulk of the trading was in May contracts. Receipts of Hogs at the leading Western packing points were estimated at 77,900, compared with 84,800 one year ago. Foreign markets were dull and dragging, and prices declined 1s on Cumberland Sides, 6d on Hams and 3d on Lard. Domestic markets were quiet, and prices without material change. Receipts of Products were liberal of Lard and Meats about 48 cars. Shipments were Lard and Meats about 130 cars. Inquiry fair—of Lard and Meats about 130 cars. Inquiry on shipping account was light. Buyers were backward. Offerings were moderate, and held steadily. Sales small, and prices unchanged. Exports for the week, compared with the corresponding week in 1903, exhibited increases of 1,610 brls Pork and 5,456 boxes Meats, and a decrease of 5,153,000 lbs Lard.

Mess Pork—Only a fair business was transacted in Mess Pork, and the feeling was a little unsettled. Offerings were not very free, and the demand was only moderate. May delivery met with most favor. Market opened steadier at 2½@5c advance and further improved 7½@10c. Later the feeling was not so strong, and prices receded 2½@5c, and the market closed comparatively steady. Shipping demand was light and offerings were moderate. Cash lots quotable at $11 30@11 40 for regular according to quantity, with repacked at 10@15c discount.

DECEMBER—Quiet and quotable at $11 80.

JANUARY—Called for moderately, and offerings rather light. Sales were made at $12 57½@12 62½. Opened at $12 60, sold to $12 62½, to $12 57½, and closed steady.

MAY—Offerings were fair, and the demand was moderate. Sales were made at $12 85@12 95. Opened at $12 85@12 87½, sold to $12 90, to $12 85, to $12 95, to $12 90, to $12 92½@12 95, to $12 92½, and closed steady.

Lard—Trade in Lard was on a moderate scale, and the undertone to the market was stronger. Offerings were not very large, and the demand was only fair, and chiefly for May delivery. Prices were advanced 5@7½c, but receded 2½c toward the close, and the market closed rather steady. Foreign advices were unfavorable to holders. Demand on shipping account was limited, with light offerings. Cash lots were quiet and quotable at about 5c discount on January figures, closing at about $6 82½. Loose lots in moderate request, with fair offerings. Prices were quotable at 5c discount on January figures. Leaf Lard was in light demand with fair offerings. Prices quotably steady at $6 37½. Neutral in light demand, with only fair offerings. Prices quotably steady at $7 37½@7 50 for No. 1 and $7 12½@7 25 for No. 2.

DECEMBER—Quiet and quotable at $6 82½.

JANUARY—Quiet, with light trading at $6 85@6 87½, and closed steady at the range.

MAY—In fair request and offerings were not very large. Sales were made at $7 10@7 15. Opened at $7 10 to $7 12½, sold to $7 10, to $7 12½@7 15, to $7 12½, and closed steady.

JULY—Demand was light and offerings were small. Sales were made at $7 20@7 25. Opened at $7 20, sold to $7 22½@7 25, and closed quiet.

Short Rib Sides—A fair business was transacted in Short Rib Sides, and the feeling was a little unsettled. Offerings were not very large, and the demand was moderate. Prices were advanced 5@7½c early in the day, but settled back about 2½c, and the market closed rather steady around medium figures. Demand on shipping account was light, and offerings were small. Cash lots were quotable at $6 25@6 50 according to weight and age.

JANUARY—In fair demand and offerings were not very large. Sales were made at $6 47½@6 50. Opened at $6 47½, sold to $6 50, to $6 47½, to $6 47½@6 50, and closed steady.

MAY—Offerings were fair and the demand was moderate. Sales were made at $6 75@6 80. Opened at $6 75, sold to $6 80, to $6 75@6 77½, to $6 80, to $6 77½@6 80, and closed steady.

JULY—Quiet and quotable at $6 92½.

Other Meats—Sales were a trifle larger, and the feeling steady. Domestic demand was moderate, and orders from abroad comparatively light. Offerings of all kinds were not very large. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand with fair offerings. Prices favored buyers. Dry Salted Meats in moderate request, with only fair offerings, and prices were unchanged. Smoked Meats called for moderately, and prices ruled steady. Closing prices were as follows:

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Dec. 6.]

United Kingdom—We have had a week of mild weather with some rain. The recent frost found the crops with a fair amount of protective covering and there are no complaints, although some fears are expressed with regard to crops less hardy than Wheat. Rains have been rather frequent, but they have not been heavy, and November was by no means a wet month. The comparatively dry autumn has given farmers a splendid time for sowing and all field work is exceptionally forward for the time of year. Supplies of English Wheat appear to be a trifle larger, but markets have been generally steady or firm, although the official average price published last Saturday gave Wheat 1d lower at 30s 4d per 480 lbs.

Russia—Good falls of snow are reported, and with the exception of some central districts the crop situation is regarded as satisfactory. The Grain block on railway lines is still very bad, and it is said that as many as 100,000 wagons are being delayed in transit. Reckoning each of these to carry ten tons, it is easy to see that there must be enormous quantities of Grain on the various lines. In the meantime, bad roads are delaying the movement from first hands and this, with the railway blockade, has caused receipts at the ports to fall off considerably. Exports last week were of good size, but it is evident that stocks are being called on to provide the necessary material. A consular report for Trans-Caucasia states that the last harvest was generally favorable, abundant yields of Wheat and Barley having been obtained. Oats were a poor crop and Corn irregular, good in the South but poor in the North. Of the harvest of Cis-Caucasia, the consul at Novorossisk reports Wheat larger in quantity than last year's, but of indifferent quality, while Barley is a large crop of splendid quality. Owing to excessive heat and drouth the Corn crop is only one-half of last year's.

Roumania—Rains have cleared some of the snow cover from the fields, but there are no complaints. The Braila stocks continue going down to Sulina for winter shipment, there are still liberal quantities in sight. Shipments continue of a good size.

Bulgaria—Favorable crop reports continue to be received.

Argentina—The weather continues rainy in Santa Fe, and, although it is not thought any serious damage has yet been done, yet damage is certainly threatened, and unless there is a change for the better soon the matter will undoubtedly become serious. American crop experts report that rust has appeared. Shipments of Wheat have been maintained, but the movement of Corn outwards is now decreasing.

India—We continue to bear that all is going well with the crops.

Australia—A cable advice was received in Liverpool yesterday from Melbourne reporting that the crop is being damaged by great heat, and it is claimed that this damage is possible, owing to the crop being about a month late. We have had no word of this from our own correspondents at Adelaide but it is evident from their cables that there has been a long spell of very fine weather. Chartering for the loading of the new crop still continues, and the list of vessels fixed now makes a good show.

France—The frost has been followed by wet weather, and if the rains reach the drouthy districts of the South and Centre, the situation there may be relieved, but, of course, seeding is bound to be very late in the affected districts. With the return of mild weather complaints of vermin and insects have been renewed, and, on the whole, it is considered that the new crop has made a poor start. Although supplies have been more in evidence on country markets, prices have further advanced 6d to 1s per quarter; on the other hand, the Paris "term" market has ruled easy.

Spain—Our Barcelona correspondent reports that the crops are backward and have a poor appearance. The Government propose to reduce the duty on Wheat 4 pesetas per 100 kilos so long as the price for native Wheat remains above 36s per 480 lbs. Large quantities of foreign Wheat are being purchased.

Germany—The weather has been milder with further falls of rain, which have improved the condition of interior waterways. Supplies are coming forward freely, but meet a good demand.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, zero to 32 above; clear. Northwest—Temperatures, 4 to 26; partly cloudy. West—Temperatures, 8 to 22; fair; trace of snow in Northern Illinois and Eastern Iowa. Southwest—Temperatures, 18 to 36; generally fair. Ohio Valley—Temperatures, 24 to 34; light general snows.

Weather forecast for 36 hours: Illinois Fair; warmer central and west; Tuesday increasing cloudiness north and central. Indiana—Fair to-night; cloudy and warmer to-morrow. Missouri—Fair; warmer. Iowa Fair to-night; warmer Tuesday. Minnesota—Partly cloudy, with snow flurries to-night and in east to-morrow; warmer to-night. North and South Dakota—Fair; warmer to-night; colder Tuesday. Nebraska—Fair; warmer to-night; colder Tuesday afternoon. Kansas—Fair; warmer.

The London *Agricultural Gazette* of Dec. 5 says: "The period of severe frost came to an end on Monday or Tuesday last week in different parts of the country, and by Thursday the land was again workable, where it was not too wet from melted snow. An opportunity then occurred for clearing up arrears of Wheat sowing, which were not of great dimensions. No material damage has been done to the young crops by the frosts. The return of mild weather is good for the establishment of the late-sown Wheats, of which there is a large acreage in the Eastern counties."

The gross earnings from traffic of the Baltimore and Ohio Railroad, exclusive of the controlled or affiliated lines, for November, 1904, aggregate $5,757,747, an increase of $137,891 over 1903. A membership on the Chicago Stock Exchange sold, Monday, for $1,200; the last preceding sale was at $1,330, and the price a month ago was $1,500.

The West End Street Railway Company, Boston Elevated Railway Company, lessee, will pay a dividend of $2 00 a share on Jan. 2 on the preferred stock.

The receipts of Wheat at Liverpool during the past three days were 320,000 bu, of which 56,000 bu were American. Receipts of Corn, 173,000 bu, of which 137,000 bu were American

A Minneapolis dispatch, Monday, said: "Two more mills running here this morning than last week. Country receipts almost nothing. Exporters bidding 6d advance for Flour."

At a meeting of the Governors of the New York York Stock Exchange, Dec 19, John W. Ritchie, of the firm of Yates & Ritchie, was charged with fraud, found guilty, and expelled from the Stock Exchange.

Cotton in New York was heavy and decidedly lower Liverpool came 9 points lower. A strong "bearish" sentiment was created and realizing sales carried prices lower. The market closed 20@25 points lower

Local Securities were active and averaged lower for North Chicago Railway, Union Traction, Swifts and Metropolitan Elevated common. West Chicago Railway was well taken at 60. Carbon common advanced 1 point.

Stocks in New York sold to a higher level and maintained the greater part of the moderate gains. London sold Reading. Railway shares were well taken and gained ¼ to 3 points Industrials gained ⅛ to 1 point, with a few much more. Tractions were lower. Money 2¾ per cent.

Members of the St. Louis Merchants' Exchange, Monday, by a vote of 502 against 88, adopted an amendment to its rules regarding defaults of contracts. Hereafter any defaulter will be compelled to pay a penalty of 5 per cent upon the legitimate value of Grain. The latter is to be fixed by a committee, which will base its decision on the legitimate value for milling and shipping purposes.

The death of JOHN B. LYON Esq., one of the oldest members of the Chicago Board of Trade was announced on 'Change to-day. Mr. Lyon joined the Board of Trade in 1857, and there are only four or five persons left who were members at that time. He was a very large dealer and shipper in Grain during 1860 to 1870, and was more or less interested in the markets up to his death.

Bradstreet's report of the available supply for the past week shows the following changes.

Broomhall cabled: "The Russian official crop report issued Dec. 13, states condition of winter crops is generally not quite satisfactory. In the Southwest and in Kuban (important districts) the condition is good. In parts of the Steppes, portions of Central Russia and in the North (these being least important sections) the conditions is medium. In the Southeast and parts of the Center Provinces it is bad, and elsewhere satisfactory."

A Kansas City dispatch, Monday, said: "There has not been such a dull time with the mills in this section for a long period. They are stocked up with Flour to the limit and can't get shipping directions on any of it, although sold at much lower prices. They are also full up on Wheat, many country mills in this section having enough Wheat in storage tanks to run them until spring without buying a bushel. The talk about good milling demand is all rot'

A prominent railroad man says: "Union Pacific is to my mind the most remarkable railroad proposition in the world. It is in complete control of the railroad traffic west of the Mississippi River. It has 400,000 shares of Atchison stock, which, while not a controlling interest, is large enough to give the Union Pacific a strong voice in the management. Union Pacific has $350,000,000 of interest-returning securities, and this places it in control of the transcontinental railroad traffic, for the Union Pacific ownership in the Northern Securities roads is a great factor in harmonizing the transcontinental railroad interests"

Suit to force the Chicago Telephone Company to produce its books for public inspection was begun in the Circuit Court by the City of Chicago, which, Monday, asked an accounting with the company. It is declared that since 1889 the telephone company has held out between $350,000 and $500,000 which it should have paid the city. The city bases its demand for an accounting on its agreement with the company that 3 per cent of the company's gross receipts should be paid the city for the franchise rights given the company. The dispute is over the receipts in the territories annexed to Chicago since 1889, including the towns of Hyde Park, Cicero and Lake

Broomhall's weekly foreign crop summary says: "United Kingdom—The condition of Winter Wheat continues good. Frequent mention is made of the acreage having been increased. Threshing results continue very poor France—Heavy rains have occurred and farmers now desire dryer weather The crop is irregular in appearance. Offerings from first hands are larger. Germany—The condition of the crops is excellent, although still without snow covering. Italy and Spain Conditions have further improved Hungary—The crop situation is satisfactory Roumania and Russia—The crops look well, but want snow covering. Chili—Crop prospects are extremely poor owing to heavy rains"

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand was limited and market dull and neglected. Prices inclined to favor buyers.

WINTER WHEAT—Was steady. Some milling demand existed, mostly on outside account and sales of 100,000 bu of mixed lots were made since noon yesterday Local trade light. No. 2 Red in store ranged nominally 2@3½c over May—outside for special bin lots—ranging at $1 12@1 14½, and fresh arrivals free on board at $1 15@1 15½. No. 3 Red fresh arrivals free on board quotable at $1 10@1 13, with a sale at $1 11½. No. 2 Hard fresh arrivals free on board quotable at $1 10@1 14 and No. 3 Hard at $1 01@1 11, with a sale at $1 07½.

SPRING WHEAT—Was quiet Trade light and the demand slack. Prices little better than nominal. No. 1 Northern fresh arrivals free on board quotable at $1 15@1 18. No. 2 Norhern quotably $1 08@1 15. No 3 Spring nominally 95c@$1 10. No. 4 Spring quotable at 56@60c for very poor to $1 00@1 05 for good to choice, with a sale at 77c

REGULAR WHEAT—The trade was very moderate, still fluctuations were quite frequent within the established range. The feeling manifested, while a little unsettled, was rather easy on the whole, and the close ⅛c higher for December, while May lost ⅜c and July ⅛c. The situation at the start was weak and offerings were rather free. The sharp decline in the English markets and liberal receipts in the Northwest were the main "bear" influences. It was reported holders of Argentine Wheat at Liverpool were reselling in a panicky way, and this caused the decline there. Liverpool quoted spot ¼@½d lower and futures 1¼@1⅜d lower. Receipts there the past three days were 320,000 bu, of which 56,000 bu came from America. London came ½d lower. Paris was ¼c lower to ¼c higher. Antwerp lost ⅛c and Buda Pesth came ¼c higher. Receipts in the Northwest were 344 cars larger than a year ago, but primary receipts were 323,000 bu smaller than in 1903. Kansas City and St. Louis received but 97,000 bu, against 542,000 bu corresponding date last year. Stocks here in all positions were reported 3 834,000 bu, an increase during the week of 124,000 bu. Stock one year ago 5,697,000 bu. Contract stocks decreased 30,593 bu, and now include 1,421,107 bu, compared with 1,887,328 bu one year ago. *Bradstreet's* reported a decrease of 1,805,000 bu in the world's available supply, compared with a decrease of 702,000 bu for the corresponding week in 1903 Foreign crop conditions as cabled by *Broomhall* were very favorable. Minneapolis stocks were reported increased 600,000 bu the past three days, and 25 cars Canadian Wheat were reported in to-day's receipts At the decline established a better demand developed for the December, and the forward deliveries sold up in sympathy, many of the early sellers covering The weather map showed snows in Manitoba and Minnesota, but generally fair elsewhere and continued clear conditions were predicted by the Signal Service. Clearances were again very limited, and no boat loads accepted at the seaboard An official Russian crop report, issued Dec. 10, stated the condition of the winter crops was hardly satisfactory. In the most important districts the condition is good, but in portions of Central Russia and in the North the condition is medium and in the Southeast reported as bad Cash sales here 15,000 bu. Receipts at Duluth 317 cars, at Minneapolis 451 cars, a total of 768 cars, against 741 cars yesterday, 680 cars a week ago, and 424 cars last year. Local receipts included 6 cars Winter, 20 cars Spring and 9 cars mixed, total of 35 cars, against 194 cars last year. Included in above was none contract grade. There were also 8 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 38 cars. The withdrawals were 1,225 bu. Receipts at Western points were 753,372 bu, against 1,076,579 bu last year. At Eastern points 71,297 bu, against 304,216 last year. Shipments from Western points 277,462 bu, against 335,285 last year, and from Eastern points none, against 381,777 bu last year. Shipments of Flour were 11,011 brls. Exports of Wheat in Flour were equal to 49,519 bu.

Future Deliveries of Regular Wheat—Fair trade and market easier at the close.

DECEMBER—Sold at $1 09⅛@1 11⅛. Opened with sales at $1 09⅛ to $1 09⅜; sold to $1 09¼, to $1 11⅛, to $1 10½, to $1 10⅝, to $1 10⅜, to $1 11, at $1 10½, and closed at $1 10½.

MAY—Sold at $1 10⅛@1 11 Opened with sales at $1 10⅛ to $1 10⅜; sold to $1 10⅛, to $1 10⅞, to $1 10½, to $1 11, to $1 10⅝, to $1 10¾, to $1 10¼@1 10⅜, to $1 10⅝, to $1 10½, to $1 10⅜, and closed at $1 11⅛ asked

JULY—Sold at 97⅝@98½c. Opened with sales at 97⅝ to 98c sold to 98⅜c, to 98¼c, to 98½c, to 98⅛c, to 98⅜@98¼c, and closed at 98⅛@98¼c.

SEPTEMBER—Was quoted at one time nominally 93c and at another 92½c.

CORN—The market was quiet and fluctuations narrow, the close being ⅛c higher for December, while the May lost ⅛c and July unchanged. Offerings were moderately free at the start, cash houses again being among the principal sellers The lower cables and break in Wheat were among the chief "bear" influences. The large addition to local supplies this week was also a factor. At the decline "shorts" accepted moderate quantities and market became steadier. Liverpool quoted spot steady to ¼d lower and futures down ½@⅝d. Receipts there the past three days were 173,000 bu, of which 137,000 bu came from America. Local receipts were about as expected, at 908 cars, against 475 cars last year, and 413 cars are estimated for to morrow. Transfers from private elevators were 237 cars Stocks here in all positions were reported 3,168,000 bu, an increase last week of 1,395,000 bu. Stocks one year ago were 3,768,000 bu Contract stocks increased 308,000 bu, and now include 709,344 bu, compared with 1,806,800 bu one year ago. Western receipts were 1,619,000 bu, against 947 000 bu one year ago. Shipments were 597,000 bu and 185,000 bu, respectively. Local arrivals 1,185,000 bu, against shipments of 309,000 bu. Clearances were 67,000 bu, and 18 boat loads accepted at the seaboard *Bradstreet's* increased 2,207,000 bu, compared with a decrease of 696,000 bu for the corresponding week in 1903 Shipping demand fair, but car situation still a factor. Sales, 150,000 bu. Weather conditions ideal for the interior movement. Car lots were in good demand and offerings were smaller. Prices were firm. No. 2 and No. 2 Yellow closed at 46@46½c according to location. No. 3 sold at 43@43¼c and closed at 43c. No. 3 Yellow sold at 43¼c and closed at 43c No. 4 that was yellow sold at 42½c.

Corn by sample—Offerings were smaller and demand good. Feeling firm and prices without special change Sales on track and free on board: No Grade sold at 38½@41c. No. 4 at 41½@43c. No 3 at 43@43¼c. No. 3 Yellow at 43@43½c. No. 3 White at 43@43½c. Ears at 45@47c Billed through: No Grade at 35½@40c. No. 4 at 40¼@42¼c. No. 3 at 41½@42½c No. 3 Yellow at 41½@42¾c. No. 3 White at 41½@42½c.

Future Deliveries of No. 2 Corn—Moderately active and closed ⅛c lower to ⅛c higher.

DECEMBER—Sold at 45½@46c. Opened at 45½c to 46c, and sold at 46c, to 45⅝c, to 45⅞c, to 45¾c, to 45⅞c, to 45¾c to 46c, to 45⅞c, to 46c, and closed at 46c asked.

JANUARY—Sold at 42¾@42⅞c. Opened at 42¾c and sold at 42⅞c and closed at 42⅞c.

MAY—Sold at 45c and 45¼@45⅜c. Opened at 45⅛c to 45c and sold at 45@45⅛c, to 45¼@45⅜c, to 45⅛@45¼c, to 45¼c, to 45⅛c, to 45⅛@45¼c, to 45⅛c, and closed at 45⅛c bid.

JULY—Sold at 45⅜@45½c and 45½@45⅝c. Opened at 45½c and sold at 45⅜@45½c, to 45½@45⅝c, to 45½c, and closed at 45½c.

OATS—Were steady early, but closed easy with December ⅛@¼c lower and May off ⅛c. Trading was small, largely local. Selling of December and buying of May by a leading cash house widened the difference to 2⅜c. Cash sales were 25,000 bu Arrivals 98 cars, with 47 cars expected to-morrow. Cancellations were 15,000 bu. Contract stocks decreased 392,864 bu last week and are 3,570 640 bu Stocks in all positions decreased 637,00 bu and are 7,949,000 bu Seaboard clearances 135 bu. Car lots to go to store were steady No. 4 White sold at 28½c. Standard at 30¼c Standard in store closed at 29c. Deliveries 65,000 bu

Oats by sample were steady with a moderate demand and smaller offerings. Sales on track and free on board: No. 4 at 29½c. No. 4 White at 28½@30c. No. 3 White at 29½@31¼c. Standard at 30½@31¼c. No. 2 at 30¼c. No. 2 White at 30½@30¾c. Billed through: No. 4 at 26½c. No. 3 White at 30¼c. At the river: No. 4 White at 27½@28c. No. 3 White at 27½@29c. Standard at 29¼@29½c. No. 2 White at 30c.

Future Deliveries of Contract Oats—Were easier at the close.

DECEMBER—Sold at 28⅞@29c. Opened at 29c, closed at 29c.

MAY—Moderate trading. Sold at 31⅛@31¼c and at 31⅜c Opened at 31¼c to 31⅜c, sold to 31⅛@31¼c, to 31¼c at close.

JULY—Sold at 31⅛@31¼c and at 31¼c. Opened at 31¼c, sold to 31⅛@31¼c, to 31¼c at close.

RYE—Ruled quiet and weaker. Very little demand for either cash or futures and very little interest in the market. There were four cars received. No withdrawals from store here and no exports from New York. No. 2 in store nominally 73c and fresh receipts sold at 77½c. No. 4 sold at 62@70c.

Future Deliveries of No. 2 Rye—Neglected. December nominally 73c. May 76c bid and 78c asked.

BARLEY—A holiday dullness was unmistakably in evidence. Demand was tame though several buyers were present. The supply was ample though offerings were very moderate The business done and the prices paid reflected no material change in the market. There was at the same time an easy feeling present. In some cases sellers were not satisfied with the bids received, they said it meant concessions to accept them A few cars were held over. In the case of to-arrive lots buyers and sellers did not agree. Posted 60 cars inspected in. Market for Screenings quotable at 25@37c for poor to fancy. Feed Barley very quiet at 37@38c Low grade malting, at 40c, with very dirty cars 1@2c below: fair to good at 41@44c, choice at 45@46c; very fancy in round lots possibly a shade over

SEEDS—Only a small business was done. The only change to note in prices was in Flax, which again ruled lower. Grass Seeds were steady and without special news.

Timothy Was quotably steady for March delivery and for good qualities of cash Seed, at the same time heavy for common qualities. Cash offerings very moderate and trading light Nothing was done in a speculative way Orders seemed to lack force and buyers and sellers could not be brought together on price For March $2 85 bid and $2 87½ asked. April remained offered at $2 90. Other deliveries were entirely nominal December was about $2 72½, and January $2 75 Country lots quotable at $2 00@2 65 for low grade to fancy; extra fancy possibly up to $2 75; inferior lower; fair to good, $2 35@2 50, and rough, dirty or hulled, $2 15@2 25.

Flax—Prices were down again to the extent of 1@1½c, with no other reason for it than that in the Northwest there was another break. A small business was done. No 1 Northwestern spot and to-arrive sold at $1 23½, and No. 1 was $1 16 bid. Rejected nominally $1 13@1 20, depending on quality. December was nominally $1 16 bid. May sold at $1 23; closed at $1 23½ bid Local receipts were 5 cars and 6,747 bu were taken out. There were 29 cars received at Minneapolis and 134 cars at Duluth.

Clover—That the market was quiet and steady was all that could be learned. No Clover offered on the spot market. Occasionally a sample would be shown for value. For contract spot Seed there remains a nominal quotation of $12 75 March delivery about $13 00 Country lots, common to choice, quotable at $8 00@12 50; very poor lower, and fancy above Fair to good, $10 50@12 00.

Other Seeds—Were quotably salable at former prices, but market without offerings. Hungarian quotably $1 05@1 15 for common to choice. Millet, common, quotable at 90c@$1 15 for common to choice. German at 90c@$1 25 Siberian at 60@80c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 00 Mustard about 75c@$1 10 Buckwheat remains easy, with good milling about $1 10.

HOG PRODUCTS—Only a moderate trade was reported in Hog Products, and the undertone to the market was stronger. Offerings were comparatively light and the demand was only fair Prices ruled slightly lower during the early part of the session, but the feeling was stronger later, with a fair rally in prices, and the market closed steady. Bulk of the business was in May contracts. Outside orders were light, and will probably be small until after the holidays. Local trading was moderate—some changing of contracts ahead. Hogs were in rather good supply and prices steady Receipts at the leading Western packing points were estimated at 97,400, compared with 68,500 one year ago Foreign markets were rather easy for Meats, and Hams were quoted 6d lower, while Lard was steadier and 3d higher Domestic markets were quiet Receipts of Products continue large—of Lard and Meats about 36 cars. Shipments were quite large—of Lard and Meats about 207 cars Shipping demand was light and offerings were moderate. Sales limited and no marked change to note in prices.

Mess Pork—Trade was only moderate in May contracts, and the feeling was steadier. Offerings were moderate, and the demand was only fair. Trading chiefly in small lots. Market opened rather steady, and the filling of a few selling orders caused an easy feeling, and prices receded 2½@5c. Later, the feeling was stronger, and prices rallied 7½@10c, and the market closed steady Demand on shipping account was light, and offerings were moderate. Cash lots quotable at $11 35@11 45 for regular, according to quantity, with repacked at 10@15c discount.

DECEMBER—Quiet and quotable at $11 35.

JANUARY—Demand light and offerings were small. Sales were made at $12 60@12 65, and closed steady at $12 60@12 62½.

MAY—In fair request, and offerings were moderate. Sales were made at $12 87½@12 97½ Opened at $12 93½, sold to $12 87½@12 90, to $12 92½@12 95, to $12 92½, to $12 97½, to $12 95, and closed steady.

Lard—Only a moderate business was transacted in Lard Offerings were rather light, and there was a fair miscellaneous demand At the opening a few sales were made at 2½c decline, but a firmer feeling was manifested later and prices rallied 2½@5c, and the market closed rather steady Foreign advices were more favorable to holders Receipts from the interior continue quite liberal, and local supplies are fairly well maintained. Demand on shipping account was limited, with light offerings Cash lots were quiet and quotable at about 5c discount on January figures, closing at about $6 85 Loose lots in moderate request, with light offerings. Prices were quotable at 5c discount on January figures. Leaf Lard was in light demand, with fair offerings Prices quotably steady at $6 37½. Neutral in light demand, with only fair offerings. Prices quotably steady at $7 37½@7 50 for No 1 and $7 12½@7 25 for No. 2.

DECEMBER—Quiet and quotable at $6 85.

JANUARY—Quiet and steady, with small sales at $6 85@6 90, and closed steady at $6 87½@6 90.

MAY In fair request and offerings were moderate Sales were made at $7 10@7 15 Opened at $7 10, sold to $7 15, to $7 12½, to $7 15 and closed steady.

JULY—Quiet and quotable at $7 22½@7 25.

Short Rib Sides—A fair business was transacted in the market for Short Rib Sides, and the feeling was rather steady. Offerings were fair and the demand was moderately active Very little change to note in prices. Some business in transferring contracts from January to May. Demand on shipping account was light, and offerings were moderate. Cash lots were quotable at $6 25@6 50 according to weight and age.

JANUARY—In fair request and offerings were moderate. Sales were made at $6 45@6 50 Opened at $6 47½@6 50, sold to $6 45, to $6 50, and closed steady.

MAY Offerings were fair, and the inquiry was moderately active. Sales were made at $6 75@6 80 Opened at $6 77½, sold to $6 75, to $6 77½, to $6 75@6 77½, to $6 80, to $6 77½, to $6 77½@6 80, and closed steady.

JULY—Quiet and quotable at $6 90.

Other Meats—Sales were rather light, and the feeling steady. Domestic demand was limited. and orders from abroad comparatively light. Offerings of all kinds were not very large Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices favored buyers. Dry Salted Meats in moderate request, with only fair offerings, and prices were unchanged Smoked Meats called for moderately, and prices ruled steady. Closing prices were as follows:

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Dec. 18.]

Wheat—The market this week was quite changeable, but at the close there were practically no changes in the quotations from those of the previous week. On the early bulge in the Eastern and European markets this week there were some sales from here to the East, but later on, when the markets there showed a decline, the demand stopped altogether. The amount just now may be termed a holiday market. The millers and speculators are allowing their stocks to run as low as possible, so as to invest as little as they can. Until that date it is not likely that there will be very much doing here in either the trade or in the quotations. There is some small amount of business being transacted with the San Francisco and other California markets in a local way, but the volume may be considered as nominal. At the close of the week the lower prices in Chicago left the market lifeless. The news from Argentina, although still a factor, is not so much so as during the former week. The harvest there is now on, and the weather can not be considered as entirely detrimental. It now transpires that practically all of the Wheat sold for Eastern account several months ago has been taken out of the way, and railroads are again in a position to handle all the traffic in the Wheat line that the Grain men here can offer in the near future. The early selling this week shows to a certainty that the East is not so heavily overshort with Wheat as some have of late been led to expect, for on every upturn of the market there there is some buying here.

One of the features of the Wheat market during the past week is the sale of practically 50,000 bu of the Red Russian variety of the 1903 crop by a French house to a New York miller. This Wheat was raised in Oregon, was sold on the Portland country last year, and has but recently arrived. On its arrival it was found that a good sized premium could be obtained by its sale upon this coast, and this was done, and after paying two import duties the Wheat was secured by the New York milling concern at a lower figure than it could be obtained in this market. The incident is a remarkable one, and Grain men all agree that this is the first time it has happened in late years, if at all. It is understood that several more sales of this character are in progress. During the week, con-iderable the small stocks of Willamette Valley grade, the sales were quite liberal There is some small buying of Blue Stem from Walla Walla, but the movement is small The market remains too high for much in the export business, and daily cables coming now from Liverpool speak only of the weather and the crops. Spot Wheat bulls during the week were slightly more satisfactory than during the former period. Rains were quite general throughout the belt, and the long-suffering fields are in better shape for as a result. We quote Club and Red Wheat at 56c to 58c; Blue Stem, 58c to 59c, and Valley grade at 57c.

Flour—The Flour market was very quiet this week, and the tone in Wheat generally corresponds with it. There were a few small sales for Eastern account, but the volume was hardly worth while speaking of. Some business is being done with San Francisco in a small way, but the Flour men there seem to be holding off until after the first of the new year. Very little Flour is now being sold for South American account, the same business being true as in 'Frisco. In South America the Argentine situation is the chief talk, and much depends on how the harvest there progresses. Stocks of Flour in this section are not one-half of what the general trade believes it to be. The last steamer out to the Orient took out quite a large cargo of Flour, but most of this was sold several months ago. The only recent sales reported were what are called "fill-in orders" of special brands. One of the large Eastern Oregon mills has recently completed a large order from the Japanese Government, and has just received an additional order. Some few sales are now reported by the millers from places in the Kock Mountain territory. We quote export brands from $3 60 to $3 70; local Straights from $3 75 to $4 60, and Patents from $4 80 to $5 75.

BOSTON WOOL MARKET.

BOSTON, Dec. 16.—*The Commercial Bulletin*, concerning the Wool market, says: "The market is dull, with more interest in the contracting movement in the West and in foreign primary movements than in local trading, which has been confined to small parcels at full previous prices for all grades. The fleeces do not move and are at present held above the views of buyers. Speculation in scoured Wools has died out. Pulled Wools tend upward, owing to the high cost of skins. Imports of foreign Wools are large, and there are big quantities headed this way from Australia and South America, where American buyers have been operating liberally

"The shipments of Wool from Boston to date from Dec 31, 1903, are 246,605,3:0 lbs, against 227,-588,134 lbs last year The receipts to date are 301,-759,320 lbs, against 372,078,893 lbs for the same period last year."

ARGENTINE WHEAT AND FLAX SEED CROP.

The *Boletin Mensual de Estadistica y Comercio*, a publication issued by the Argentine Ministry of Agriculture, contains in its September number a revised statistics of the Argentine Wheat and Flax Seed crops of 1903-4, prepared in the Division of Statistics and Rural Economy of the said Ministry. The official figures, reduced to the United States equivalents, are given in the following tables:

ITEMS OF GENERAL INTEREST.

The Nashville Railway and Light Company has declared a dividend of 2½ per cent on its preferred stock, payable Jan. 1 to stockholders of record Dec 20.

Directors of the Colonial Trust and Savings Bank, Chicago, have declared the regular quarterly dividend of 1¼ per cent on its stock, payable Jan. 1, 1905

The Columbus Gas Light and Heating Company has declared a dividend of 3 per cent on the preferred stock, payable Jan. 1, to stockholders of record Dec 31.

The Pittsburg Coal Company has contracted with the American Car and Foundry Company for 5,000 coal cars, to be delivered by opening up of navigation next year.

Wells, Fargo & Co. have declared the regular semi-annual dividend of 3 per cent and an extra dividend of 3 per cent and an extra dividend of 3 per cent, payable Jan. 16 Books close Dec 31 and reopen Jan. 17.

The directors of the Knickerbocker Ice Company have declared the regular semi-annual dividend of 3 per cent on the preferred stock, payable Jan. 3. Books close Dec 22 and reopen Jan 3

It is now said the new South Side bank at Chicago will be a State institution instead of a National Bank, as was first announced. The concern will be known as the Kenwood Trust and Savings Bank, capital $500,000

The Commonwealth Trust Company of St. Louis will pay a dividend for the month of July when in addition to its regular quarterly dividend of 3 a share, on Dec. 31. This will amount in all to $46,-000, or 6 per cent on the capital stock, for the present year's earnings, and will leave undisturbed the capital, surplus and undivided profits with which the company began the year's business The capital, surplus and undivided profits will thus be much more than $5,700,000 after these dividends are paid.

Dornbusch's Buda Pesth correspond-nt, writing under date of Dec. 3, says: "This week trade was quiet in the Flour and Wheat line, and the business far short of the week s output, but as liquidation on old contracts was on a rather large scale, stocks are apparently reduced and the situation can be considered as fairly satisfactory. Most of the mills have been compelled to raise their prices in consequence of the advance in the cost of Wheat. Rising Rye prices have done in mill feeding-stuffs and prices are rising."

Mark Lane Express of Dec. 5 says: "The weather of November was cold. There was less rain than usual, and not the addition of half an inch in the form of snow the month would have been under an inch in its total downpour. Mists were frequent, and the London fogs were not that dreadful opaqueness noticeable in previous Novembers. Still, there were four market days when the proper inspection of samples was impossible, and back in itself very unfavorable trades, as it often have carrying charges going on against them."

The Treasury Department has decided that American Wheat cannot be blended with Canadian. The question was submitted to the Attorney General by Secretary of the Treasury Shaw two days ago, and Secretary Shaw's statement was supplemented with the following statistical data: Number of Flouring mills in the United States, 25,256; capital represented, $218,714,101; capital required to do the business, $218,714,101. Number of operatives and clerks employed, 45,000, wages paid annually, $23,000,000.

The Tamarack-Osceola Wire mill at Dollar Bay, Mich., has enjoyed an excellent patronage throughout the entire year, during which its monthly finished product has been anywhere from 750,000 to 1,000,000 lbs. The plant has frequently been operated extra time, and although the late dullness of season of the year in the Copper Wire trade there is no material falling off in the volume of orders, and the outlook now is for a still larger business next year. The principal buyer of the product of this plant is the Western Electric Company, the annual Copper requirements of which are said to be about 60,000,000 lbs.

Dornbusch's Paris correspondent, writing under date of Dec. 3, says: "The cold weather previously reported underwent a sudden change towards the end of the week, the temperature rising considerably and accompanied with rain. Fears are entertained that this will favor the increase of vermin. In several districts the sowings were not quite completed, chiefly owing to the dryness at the beginning of last month, and in the Sarthe district some of the Wheat area has not been sown this year. The germination of the autumn sowings is very satisfactory, and the plants covering the soil now hoped for to protect the young plants against subsequent frosts."

The *Iron Trade Review* says: "The announcement that the Steel rail manufacturers have decided to maintain the $28 price for standard sections for 1905 delivery, while fully anticipated, reinforces the improvement in the iron trade. This price agreement with the practical assurance that requirements would be in excess of the total for 1903, and with current developments in the billet market indicating a higher price for Steel under the increased operation of the Bessemer steel plants. From the Chicago district comes the report of 100,000 tons of rails closed for next year and of 100,000 tons additional pending. A Southern rail mill has taken for 75,000 tons of rails, and has announced, following a recent order from the Louisville and Nashville for 50 000 tons, these two going far toward taking up the fall capacity of the Southern mills. The Central Western and Eastern rail mills have under negotiation some large tonnages, but sales are not announced."

The Chicago Can Company, the new independent company formed for the manufacture of tin cans which was started in Chicago some time ago by people formerly identified with the American Can Company, is advertising that it has purchased the exclusive right of galvanizing by the hot process for making all sorts of galvanized iron cans from the American Can Company, and in the future will carry an exclusive line of galvanized iron goods. This advertisement was taken in the trade to mean that the American Can Company has dropped this part of its business. In the sales department of the American Can Company it was stated, however, that the manufacture of galvanized iron goods had been abandoned at the Chicago factories of the company. However, the company will still continue to make galvanized iron cans, but at its factory in Toledo, Ohio, and they will be sold in the Chicago territory as usual. The change is a step in concentrating the manufacturing work of the company, and doing it in the most profitable manner and at the most profitable places.

The raising by the Bowery Savings Bank, New York, of its rate of dividend to depositors from 3½ to 4 per cent is an item of great interest to Chicago bankers. Of the 28 savings banks in the County of New York (Manhattan) 18 have been paying 3½ per cent interest, 1 has paid 3 and 3¼, 3 have paid 3¼ and 4, 3 have paid 4 per cent, while 6 have paid 4 per cent. To the latter number the Bowery is now added, and as this is the largest savings institution in that city, with resources of $81,890,000, and carrying $67,340,000 of deposits, its action will doubtless have an influence on the policy of other banks. It is announced that the Bowery's action is based on the recent guaranteed repeal of the savings bank tax. Inasmuch as the total savings bank deposits in New York State are $1,166,991,444, the repeal of this tax, granting that it should add an average of one-half of 1 per cent in interest, would increase the revenues of the savings bank depositors by $5,880,000 There seems little likelihood that the rate on savings deposits in Chicago will be raised above 3 per cent for some time to come.

The long looked for plan of reorganization of the United States Leather Company was announced Friday. The plan takes good care of the present preferred stockholders, but it puts the common stockholders further away than ever from the hope of dividends. Of the existing stock there is outstanding $42,382,300 of the preferred and $29,-700 of the common. On the preferred, which is an 8 per cent cumulative stock, 41½ per cent of unpaid dividends have accumulate d. To wipe out this liability is one of the objects of the new organization. The bonded indebtedness amounts to $3,880,000. The new plan provides for $45,000,000 of 20 year 5 per cent bonds, $20,000,000 7 per cent cumulative preferred, and $40,000,000 of common. Present holders of preferred for each $100 share are to get $80 of the new bonds, $80 of the new preferred, and $20 of the new common. Present holders of the common are to get only three shares of the new common for ten shares of the present common. This will leave $18,818,200 of the new bonds, $12,700,000 of the new preferred to acquire additional properties, provide working capital, etc; also $8,818,200 of the new preferred and $20,000,000 of the new common for the same purposes. The immense sum of $6,500,000 of the new common stock is set aside for "new interests for their co-operation" and to pay bankers and underwriting commissions and fees growing out of the reorganization.

ADJOURNED FOR TWO DAYS.

The Directors of the Chicago Board of Trade have voted to adjourn over Dec. 24, and Monday, Dec. 26. Other leading Exchanges have followed suit, and the New York Stock Exchange, Cotton Exchange, and Chicago Stock Exchange will be closed on the same days.

ITEMS OF GENERAL INTEREST.

New York Exchange 15c premium.

Documentary Sterling steady at 484.

Chicago Bank Clearings to-day, $32,751,006.

Minneapolis has changed its mind—will not close on Saturday.

Prices on structural Steel and Steel plates have advanced $2 00 per ton.

There has been $1,700,000 Gold taken at New York for export to Europe the past two days.

Average cost price of Hogs at Chicago, Tuesday, was $4 56, against $4 60 Monday and $4 48 a week ago.

The Lake Shore and Michigan Southern Railway has declared the regular semi-annual dividend of 4 per cent.

Reported that 250,000 bu Corn were taken at the seaboard to-day for export, including a cargo for Roumania.

Deliveries on December contracts to-day were 205,000 bu Wheat, 75,000 bu Corn, 10,000 bu Oats and 10 000 bu Rye.

Ten packers purchased 34,200 Hogs to-day; shippers, 3,500; left over, 9,000. Market closed weak, 5c to 10c lower than Tuesday.

Estimated receipts for to-morrow: Wheat, 32 cars; Corn, 535 cars; Oats, 71 cars; Rye, 4 cars; Barley, 51 cars; Hogs, 34,000.

Cotton in New York declined early, as cables from Liverpool came 4 to 5 points lower. "Shorts" led the buying on the break and gave the market its rally. Closing sales were 5@7 points higher.

Local Securities were active, but with the exception of Can, Biscuit common and Diamond Match, which advanced, prices averaged lower. Can was active, preferred moved up 1⅛ and lost the greater part. Illinois Brick lost ½ to ¾.

All the Railroads terminating in Chicago except the Wisconsin Central, Tuesday, agreed to stop giving percentages of through rates to industrial lines and allow them instead only switching rates, the maximum to be $3 50 per car.

Stocks in New York were advanced in the early trading, and sold off later on profit taking. Gold engagements and light commission house buying were the features. The close was at liberal gains throughout the list. Money, 2¾ per cent.

The shipments of Flax Seed from India from April 1 to date amounted to 19,044,000 bu (Calcutta 12,328,000 and Bombay 6,712,000 bu), against 16,144,000 bu last season (Calcutta 10,728,000 bu and Bombay 5,416,000 bu), and 11,424,000 bu in 1902 (Calcutta 7,904,000 bu and Bombay 3,520,000 bu).

Ocean rates are advancing, and line agents say their capacity for January is about filled with engagements for Corn. The nominal rate for December loading, New York to Liverpool, is equal to 3c a bu, and January loading is 4½c Boston and New York. London rate is 5½c from Boston.

The American Smelting and Refining Company has declared the regular quarterly dividend of 1¾ per cent on its preferred stock and 1¼ per cent on its common stock. The preferred dividend is payable Jan. 10. Books close Dec. 27 and reopen Jan. 11. The common dividend is payable Jan. 17. Books close Jan. 6 and reopen Jan. 18.

The first report of James R. Garfield, Commissioner of Corporations, to Victor H. Metcalf, Secretary of the Department of Commerce and Labor, has been transmitted to the President and was made public to-day. Federal license is recommended for all inter-state commerce. A large part of the document is devoted to explanation of detailed work of the Bureau. The Commissioner says the result of specific investigations will go to Congress.

Beerbohm of Dec. 9 says: "Cables have reported fine hot weather for the Australian harvest, and there have been even rumors of damage by great heat. A private cable received early this week estimates the probable surplus at about 24,000,000 bu, against a surplus of evidently 40,000,000 bu last year, since 36,800,000 bu have already been exported and stocks of old Wheat are by no means exhausted. As will have been seen by our last Monday's list of ships afloat and chartered, there are about 100 vessels chartered for new crop loading from December to March, which compares with about 125 last year. A large portion of the Australian surplus will, therefore, evidently be shipped early."

EXPORTS OF FLOUR AND WHEAT.

The exports of Wheat and Flour in Wheat (reckoning 4½ bu Wheat to a barrel of Flour) from all American ports as reported by the Chief of the Bureau of Statistics of the Treasury Department monthly for four years were as follows:

REVIEW OF TO-DAY'S MARKETS.

FLOUR—There is practically no change in the situation. Demand slow and prices barely steady.

WINTER WHEAT—Very quiet. Millers holding off, but very small receipts was also cause for limited trade. Feeling firmer for soft Winter and easy for Hard Winter. No 2 Red in store ranged nominally 2@3c over May -outside for special bin lots—ranging at $1 13@1 16, and car lot fresh arrivals free on board at $1 15½@1 16½. No. 3 Red fresh arrivals free on board quotable at $1 10@1 13½. No. 2 Hard fresh arrivals free on board quotable at $1 11@1 13½ and No. 3 Hard at $1 01@1 10.

SPRING WHEAT—Was quiet. Trade light and the demand slack. Prices little better than nominal. Feeling firmer in sympathy with the speculative market. No. 1 Northern fresh arrivals free on board quotable at $1 16½@1 18½. No. 2 Northern quotably $1 08@1 15. No. 3 Spring nominally 98c@$1 12. No. 4 Spring quotable at 68@60c for very poor to $1 00@1 05 for good to choice, with sales at 70@75c.

REGULAR WHEAT—Was only moderately active, still the market was rather more interesting than that of the past few days. The feeling developed was stronger, and the close 2⅜c better for December, which at one time was quoted 2c over the May. The latter future gained 1⅛c, and the July ⅛c. The market was practically bare of offerings during the early part of the session, and this feature had much to do with the apparent congestion. Primary receipts were small, only about half those of one year ago, and the news from Argentina was more in favor of the "long" interest. Direct cables claimed the crop in the northern provinces was seriously injured by blight and frosts. Locals who sold early covered on the advance. December "shorts" were somewhat disturbed by reports that a large Eastern miller held about 1,100,000 bu cash here, or a large proportion of the standard grade. The news from the Northwest was moderately "bullish," Minneapolis claiming sales of 110,000 brls Flour yesterday, and reported the cash situation firm with a good demand from millers. Stocks there, however, are said to have increased 750,000 bu the past four days. Receipts in the Northwest were about in line with those of a year ago, while Kansas City and St. Louis received but 108,000 bu, against 519,000 bu in 1903. Cables were easier. Liverpool quoted spot steady to ¼d lower and futures ¼@⅜d lower. Liverpool decline was reported due to general liquidation there, influenced by a break of 3d in Argentine Wheat. London came ¾d higher. Paris came ½c lower. Antwerp was unchanged. Berlin lost ⅛c and Buda Pesth ⅜c. Minneapolis reported 32 cars of Canadian Wheat in to-day's receipts. A fair share of the outside buying was credited to Northwest interests. The map showed generally clear conditions. Snows were predicted for the Northwest and fair weather generally through the West. Northwest advices again referred to light marketings at country stations. Clearances were again small. Receipts at Duluth 171 cars, at Minneapolis 338 cars, a total of 509 cars, against 768 cars yesterday, 518 cars a week ago, and 485 cars last year. Local receipts included 2 cars Winter, 16 cars Spring and 8 cars mixed, total of 26 cars, against 72 cars last year. Included in above was none contract grade. There were also 3 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 32 cars. The withdrawals were 7,000 bu. Receipts at Western points were 648,020 bu, against 1,299,118 bu last year. At Eastern points 16,667 bu, against 399,175 last year. Shipments from Western points 305,321 bu, against 254,043 last year, and from Eastern points none, against 56,113 bu last year. Shipments of Flour were 12,828 brls. Exports of Wheat in Flour were equal to 57,717 bu.

Future Deliveries of Regular Wheat—Moderate trade and prices higher.

DECEMBER—Sold at $1 11@1 13⅝. Opened at $1 11, sold to $1 11½, to $1 11⅝, to $1 12½, to $1 12⅝, to $1 13⅜, to $1 13⅛, and closed at $1 13⅛.

MAY—Sold at $1 10⅝@1 12. Opened with sales at $1 10⅝ to $1 10⅝@1 10¾; sold to $1 11⅛, to $1 11, to $1 11¼, to $1 10⅞, to $1 11⅜, to $1 11¼, to $1 11⅝, to $1 11¼, to $1 12, to $1 11¾; closed at $1 11¾ sellers.

JULY—Sold at 98½@98⅞c. Opened with sales at 98½c to 98⅝c, sold to 98¾c, to 98½c, to 98¾c, to 98⅝c, to 98⅞c, to 98⅝@98¾c, and closed at 98⅝@98¾c.

CORN—Was moderately active, with the feeling stronger, the close being ¼c higher for December, the May gaining ½c and July ¼@⅜c. The principal feature early was the lack of speculative offerings. There was a fair miscellaneous demand, part of which was credited to "shorts." The cash situation was reported strong. Wheat was higher and the receipts ran short of the estimates. Cables were easier. Liverpool quoting spot ¼d lower and futures off ⅛d. Receipts were 345 cars, against 144 cars the corresponding date in 1903, and 535 cars are estimated for to-morrow. There were 20 cars and 29,000 bu withdrawn from private elevators. A New York message stated it was understood a cargo of Corn had been taken there for Roumania. Philadelphia wired: "Out of market entirely; railroads cannot move the stuff." The map was an ideal one for the movement and receipts at primary markets were 1,312,800 bu, compared with 543,000 bu in 1903. Shipments were 568,849 bu and 216,000 bu respectively. Local receipts were 971,000 bu and the shipments 303,000 bu. Southwestern markets were firm. Shipping demand was fair, but car situation tends to curtail transactions. Large sales rumored, but not confirmed and 35 boat loads accepted at the seaboard. Car lots were in good request and little larger supply. Feeling was stronger and prices ¼@1c higher. No. 2 sold at 47½c and closed at 46¼@46¾c. No 2 Yellow closed at 46¼@46¾c. No. 3 sold at 43½@43¾c and closed at 43¾c. No. 3 Yellow sold at 43¾@44c, closed at 44c.

Corn by sample—Offerings were fair and the demand good. Feeling stronger and prices anywhere from ¼c to 1c higher. Sales on track and free on board: No Grade sold at 40@41c. No 4 at 42@43¼c. No. 3 at 43½@43¾c. No. 3 Yellow at 43¾@44c. No 3 White at 43¾c. Ears at 45c. Billed through: No Grade at 38½@40½c. No. 4 at 40@43c. No. 3 at 41¾@43¼c. No. 3 Yellow at 41¾@43½c. No. 2 at 46c. No. 3 White at 43c.

Future Deliveries of No. 2 Corn—Active and quite firm, closing ¼@½c higher.

DECEMBER—Sold at 45¾@47¼c. Opened at 45¾c and sold to 47c, to 46¾c, to 47¼c, to 46½c, to 46¾c, to 46⅜c, to 46½c, to 46¼c, to 46½c, to 46¼c, and closed at 46¼c bid.

JANUARY—Sold at 43@43¼c. Opened at 43c and sold at 43¼c, and closed at 43¼c.

MAY—Sold at 45¼@45⅝c. Opened at 45¼c to 45¼@45⅜c, and sold at 45¼c, to 45½c, to 45⅜c, to 45⅝c, to 45½c, to 45⅝c, and closed at 45⅝c asked.

JULY—Sold at 45⅜@45⅞c. Opened at 45¾c to 45⅜@45¾c and sold at 45⅝c, to 45¾c, to 45⅝c, to 45⅞c, to 45¾@45⅞c and closed at 45¾@45⅞c bid.

OATS—Were stronger with other Grains and closed ⅛@¼c higher. Trading was slow, with offerings limited, except at 31½c for May, when they were equal to all requirements. Cash sales were 85,000 bu. Arrivals were 16 cars, with 71 cars estimated for to morrow. Seaboard clearances were 5,000 bu. Car lots to go to store were steady to ¼c higher. No. 4 White at 29½c. No. 3 White sold at 31c. Standard at 30¾c. Standard in store closed about 29¼c.

Oats by sample were steady to ¼c higher. Offerings light. Sales on track and free on board: No. 4 White at 27¼@29½c. No. 3 White at 29½@30¾c. Standard at 30½@31¾c. No. 2 at 30¼c. No. 2 White at 31¼@31¾c. Billed through: No. 4 White at 27½c. No. 3 White at 30@30½c. Standard at 31c. No. 2 at 30¼c. At the river: No. 3 White at 28½@29½c. Standard at 29½c. No 2 White at 30c.

Future Deliveries of Contract Oats—Were stronger and closed higher.

DECEMBER—Slow at 29⅛@29¼c. Opened at 29⅛c, sold to 29¼c and closed there.

MAY—Sold at 31¼@31½c. Opened at 31¼c to 31⅜c, sold to 31½c; closed at 31⅜@31½c.

JULY—Sold at 31¼@31⅜c. Opened at 31¼c, sold to 31⅜c, and closed there.

RYE—Was dull as ever. Sales of a few cars of fresh arrivals comprised the entire business. No interest shown in the market and futures neglected. No receipts to-day and there were withdrawn from private warehouses 13,000 bu and from regular elevators 1,000 bu. No exports from New York. No. 2 in store nominally 73c and fresh receipts free on board sold at 77½c. No. 3 sold at 74c and No. 4 at 65c.

Future Deliveries of No. 2 Rye—Dull and neglected. December nominally 73c and May nominally 77c.

BARLEY—There was rather more business than ordinary in Screenings. The trading was over the late range of prices at 27@37c for poor to fancy. Some poor cars of Barley on sale which had to be sold low. For the regular malting grades there was a slow, drowsy market. There were some buyers who at set prices would take some cars. The offerings were moderate of common to good. High and really choice Barley was scarce. Posted to-day 46 cars inspected in. For Screenings the market was quotable at 25@37c for poor to fancy. Feed Barley very quiet at 37@38c; some musty and unsound sold at 34@36c. Low grade malting about 40c, with very dirty cars at 38@39c; fair to good at 41@44c, choice at 45@48c; very fancy in round lots possibly a shade over. No business to-day quoted at over 45c.

SEEDS—The day passed without trading, and as to prices there were no changes whatever developed.

Timothy—No business was learned of. The cash market was almost bare of offerings. Little interest was shown in futures. Nominal prices were unchanged from recent quotations. Ten cars were presented as contract Seed and on inspection were declared such grade. Spot or December delivery, contract Seed, remained nominally $2 72½, January was quotably $2 75, February about $2 80. For March $2 85 was bid and April remains offered at $2 90. Country lots quotable at $2 00@2 65 for low grade to fancy; extra fancy possibly up to $2 75; inferior lower; fair to good, $2 35@2 50, and rough, dirty or hulled, $2 15@2 25.

Flax—Was entirely lifeless, being without offerings. As to prices there was no change from yesterday's reduced quotations. Five cars, or 4,500 bu, were received and none taken out. At Minneapolis the receipts were 61 cars, at Duluth 40 cars. Quotable: No 1 Northwestern sold at $1 23½, and No. 1 was $1 16 bid. Rejected nominally $1 13@1 20, depending on quality. December was nominally $1 16 bid. May quotable at $1 23½.

Clover—There was no Clover offered. Outside business reported as small. Dullness is customary around the holidays. Prices were nominally steady. Contract spot Clover quotable at $12 75. March delivery about $13 00. Country lots, common to choice, quotable at $8 00@12 50; very poor lower, and fancy above. Fair to good, $10 00@12 00.

Other Seeds—Were salable at former prices, but market was without offerings. Hungarian quotably $1 05@1 15 for common to choice. Millet, common, quotable at 90c@$1 15 for common to choice, German at 90c@$1 25. Siberian at 60@80c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05. Mustard about 75c@$1 00. Buckwheat remains easy, with good milling about $1 10.

HOG PRODUCTS—Trade in Hog Products was on a moderate scale, and the undertone to the market was comparatively easy, notwithstanding the firmer feeling in Grain. Too many Hogs here and at other Western packing points to encourage buying to any extent, and the offerings were only fair. Outside orders were light and local operators and packers traded only moderately, and mainly in contracts for May. A little selling on behalf of interior packers. Prices ruled slightly lower early, but rallied again somewhat during the latter part of the session, and the market closed rather steady at the advance. Hogs were in liberal supply, and prices ruled slightly lower. Receipts at the leading Western packing points were estimated at 119,100, compared with 99,800 one year ago. Foreign markets were quiet and steady for Meats, while Lard was stronger at 3d advance. Domestic markets were quiet and rather dull. Receipts of Products from interior packers were quite large—of Lard and Meats about 71 cars. Shipments were fair—of Lard and Meats about 131 cars. Shipping demand was rather light. Exporters provided for a few lots. Offerings of all kinds were moderate. Outside packers inclined to sell moderately. Sales were rather light, and prices ruled steady.

Mess Pork—Only a moderate trade was reported in Mess Pork, and the feeling was not very firm. Offerings were fair early, and prices ruled 5@7½c lower, with moderate buying. Later, a little more steadiness was manifested, and prices rallied again 2½@5c, and the market closed rather steady. Trading chiefly in May contracts, and mainly on local account. Manufacture gradually increasing. Inquiry on shipping account was light, and offerings were limited. Cash lots were quotable at $11 31@11 45, according to quantity, for regular, with repacked at 15@25c discount.

DECEMBER—Quiet and quotable at $11 35.

JANUARY—In light demand and offerings were moderate. Sales were made at $12 57½@12 60, and closed quiet at $12 57½.

MAY—Offerings were fair and the demand was moderate. Sales were made at $12 87½@12 95. Opened at $12 90, sold to $12 87½, to $12 92½@12 95, to $12 92½, and closed steady.

Lard—Not much life was manifested in the market for Lard, and the feeling was easier. Offerings were only fair, and the demand was moderate. Trading mainly local, and in May contracts. Receipts from the interior were fair—parties sending in Lard to deliver on future contracts. Production fairly liberal. Foreign advices a little more favorable to holders. Prices ruled 2½@5c lower early, but toward the close rallied 2½@5c, and the market closed rather steady at outside figures. Demand on shipping account was limited, with light offerings. Cash lots were quiet and quotable at about 5c discount on January figures, closing at about $6 85. Loose lots in moderate request, with light offerings. Prices were quotable at 50c discount on January figures. Leaf Lard was in light demand, with fair offerings. Prices quotably easier at $6 31¼. Neutral in light demand, with only fair offerings. Prices quotably steady at $7 37½@7 50 for No. 1 and $7 12½@7 25 for No. 2.

DECEMBER—Quiet and quotable at $6 85.

JANUARY—Called for moderately, and offerings were small. Sales were made at $6 85@6 90, and closed steady at $6 87½@6 90.

MAY—Offerings were not very large, and the demand was moderate. Sales were made at $7 10@7 15. Opened at $7 12½, sold to $7 10@7 12½, to $7 15, to $7 12½@7 15, and closed steady.

JULY—Quiet and quotable at $7 22½@7 25.

Short Rib Sides—Trade was fair in the market for Short Rib Sides, and the feeling was easier. Offerings were fair, while the demand was only moderate, and buyers were a little backward. Bulk of the trading was in May contracts. Some selling by interior packers. Prices ruled 5@7½c lower on the whole range, but rallied about 2½c toward the close, and closed steady. Shipping demand limited, and offerings were moderate. Cash lots quotable at $6 25@6 50 according to weight and age.

JANUARY—In rather light demand and offerings were moderate. Sales were made at $6 45@6 47½. Opened at $6 45, sold to $6 45@6 47½, to $6 45, to $6 45@6 47½, and closed steady.

MAY—Offerings were not very large, and the demand was moderate. Sales were made at $6 72½@6 75. Opened at $6 75, sold to $6 72½@6 75, to $6 75, to $6 72½, to $6 75, to $6 72½@6 75, to $6 75, and closed steady.

JULY—Quiet, with small sales at $6 87½.

Other Meats—Sales were rather light, and the feeling steady. Domestic demand was limited, and orders from abroad comparatively light. Offerings of all kinds were not very large. Green Meats in light demand and prices ruled slightly lower. Pickled Meats in limited demand, with fair offerings. Prices were unchanged. Dry Salted Meats in moderate request, with only fair offerings, and prices favored buyers. Smoked Meats called for moderately, and prices ruled steady. Closing prices were as follows:

ARGENTINE NOTES.

[From Dornbusch, Dec. 7.]

The European Grain markets have been deluged with telegrams during the past few weeks concerning the state of the crops in this country As far as we can learn, from the numerous inquiries that we have received from all parts, is that an attempt is being made to "bull" the market by stating that our crops are in jeopardy. A shower of rain in Rosario is now sufficient for a cable message to the effect that the weather is damaging the crops, and if there is a week of dry weather then a message to the effect that great damage is being done by drouth. One locust in any locality is multiplied into swarms, and a local hail storm is made to cover the whole country. Such messages as these naturally alarm the European markets, which are looking forward to our crop in view of the shortage that there will be in the American harvest this year.

Official reports, Oct. 27 to Oct. 31, issued by the Agricultural Office on the progress of the cereal crops, are eminently satisfactory; in some districts of Buenos Ayres province where drouth and frost delayed the Wheat and Flax Seed, we are now told that, thanks to plentiful rains, they have almost entirely recovered the lost ground. Two districts report rather much rain, Lujan and Puan, but a few fine days will put matters straight again. Preparations for sowing Corn have been going ahead strong, and in a few districts it is already in the ground Entre Rios reports are consistently good Santa Fe notices are very good, one district alone being poor (General Lopez) where the Wheat and Flax Seed have been so much affected by sudden changes in the temperature that half the crop is supposed to be lost. In some districts Corn is already coming up, while in others the planting is completed Cordoba reports are hardly so generally optimistic Some of the colonies, Villanueva, Villa Maria, have been visited by hailstorms which completely destroyed the young plants, while others, Amalia, El Trabajo, Ste. Maria, had no rain from May 19 to October 17, with the result that the Wheat and Flax Seed sowings did not mature; recent rains in some parts of these colonies have been only partial, and even then, are too late to save the situation. The areas affected in the foregoing cases are not of any great extent.

Inquiries at the hail insurance offices go to show that the damage this season is in excess of last year, but the districts affected are almost identical with those of previous years There are certain districts up Santa Fe and Cordoba way where hailstorms occur every year, or nearly so, and the colonists have to plow and sow, not for harvest purposes, but to recover the value from the hail insurance companies.

ROSARIO, Nov 9 —The position of the crops at present, as summed up by one of our most competent brokers, is, that taking into account the damage sustained by excessive moisture, it is unlikely that the coming Wheat harvest will exceed last year's This refers to the Santa Fe and Cordoba Provinces and of course means a considerable reduction in estimates *River Plate Review*

WHEAT GROWING COMPARED.

George E. Roberts, who is a Washington student of economics, calls attention to what Secretary Wilson calls 'the Wheat wave" that has passed over the country during the last twenty-five years. Its movements are illustrated by a comparison of the Wheat crops in the different States in 1882 and 1903. The first comparison should be made in the States east of the great rivers as follows:

	1882.	1903.
New England, New York, New Jersey	15,344,000	11,500,000
Pennsylvania	20,800,000	26,000,000
Maryland, Virginia, Delaware, Louisiana	31,158,000	26,177,000
West Virginia, Tennessee, Arkansas	16,391,000	13,743,000
Kentucky	17,250,000	7,728,000
Ohio	43,743,000	28,303,000
Michigan	32,315,000	15,521,100
Indiana	45,461,000	23,091,000
Illinois	52,300,000	16,570,000
Wisconsin	23,145,000	8,365,000
Iowa	25,487,000	12,530,000
Missouri	27,538,000	22,194,000
Total	350,432,000	212,628,000

The above table shows the decline of the Eastern and Central States as Wheat growers; the following table will show the development of the Wheat industry in the Western States. The increase in Minnesota, Kansas, Nebraska and the two Dakotas since 1882 has been almost 200,000,000 bu. Oklahoma and Indian Territory were not producing Wheat in 1882, but in 1903 they added 27,478,000 bu. California is the only Western State that shows a decline, and that is due to the fact that the big farms are being cut up into orchards and gardens, because there is more money in Fruit and Vegetables than there is in bonanza Wheat. The following table shows the Wheat crop in bushels in the States named for 1882 and 1903:

	1882.	1903.
Minnesota	33,000,000	70,000,000
Dakotas (North and South)	11,460,000	89,109,000
Kansas	31,218,000	87,249,557
Nebraska	18,000,000	42,117,000
Oklahoma and Indian Ter	....	27,478,000
Texas	4,173,000	19,880,000
Colorado	1,500,000	7,510,000
Utah	1,250,000	4,150,000
Montana	685,000	2,780,000
California	36,000,000	21,000,000
Oregon	12,000,000	12,400,000
Washington	1,250,000	20,000,000
Idaho	650,000	5,000,000
Total	151,516,000	409,003,557

MEXICO AS A WHEAT GROWER.

There is a strong probability that the Republic of Mexico will enter the markets of the world within the next few years as one of the great Wheat-producing countries. A number of syndicates recently obtained concessions from the Mexican Government by which they have the use of large areas of land for terms of years They are experimenting with different kinds of Wheat, and have already found that while ordinary varieties of Grain produce but from three to five sacks per acre, the "turkey red" variety will yield from twenty-five to thirty sacks, or from fifty to sixty bushels to the acre. Turkey Red Grain is also splendid milling Grain If it is discovered that large crops can be raised in Mexico an endeavor will be made to place the Grain-growing industry on a commercial footing

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 8 below to 24 above; cloudy. Northwest—Temperatures, 6 to 22 above, partly cloudy. West—Temperatures, 10 to 30, clear Southwest Temperatures, 24 to 58; clear. Ohio Valley—Temperatures, 20 to 32; partly cloudy

Weather forecast for 36 hours: Illinois, Indiana and Kansas Fair; warmer. Missouri and Lower Michigan Fair. Iowa—Fair to-day; cloudy Thursday Nebraska—Fair and warmer to-night; threatening and colder Thursday Minnesota—Partly cloudy; probable snow flurries Thursday, and in north portion to-night. North Dakota—Probably snow to-night and Thursday; colder Thursday. South Dakota Partly cloudy to-night; snow and colder Thursday

ITEMS OF GENERAL INTEREST.

The Michigan Central Railroad has declared the regular semi-annual dividend of 2 per cent.

The Lake Erie and Western Railroad has declared a semi-annual dividend of 2 per cent on its preferred stock.

Directors of the Western Trust and Savings Bank of Chicago have declared the regular quarterly dividend of 1½ per cent, payable Jan. 1.

The Tennessee Copper Company has declared a dividend of 5 per cent on its capital stock, or $1 25 a share, payable Jan. 25. Books close Jan 6 and reopen Jan 28.

The Corn Products Company has declared the regular quarterly dividend of 1¾ per cent on its preferred stock, payable Jan 10. Books close Dec. 24 and reopen Jan. 10.

The Indiana, Illinois and Iowa Railway has declared a dividend of 2 per cent, payable Feb. 1, to stockholders of record Jan. 21. The dividend was passed on June 23 last.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Dec. 8 have amounted to 1,312,000 bu, against 2,856,000 bu in the previous year, and 2 896,000 bu in 1902

The Roumanian Government has voted a sum of $1,000,000 for purchasing Corn and forage to be distributed among the distressed peasantry. If a fair portion of the required Corn should be purchased abroad, it might have a sensible effect on the market.

Rock Island listing on the London Stock Exchange is an accomplished fact. Cable advices to this effect reached New York interests, Tuesday, whose representatives on the other side have had the matter in hand. The necessary data was furnished to secure the granting of the application.

The receipts of Flax Seed at Bombay for the week ended Nov. 17 amounted to 1,126 tons, against 1,568 tons in the previous week and 1,410 tons in the same week last year. The total receipts at Bombay from Jan. 1 to Nov. 17 amounted to 211,151 tons, against 142,726 tons in the same period last year.

The United States Steel Corporation is now inaugurating improvement plans at the South Chicago plants of the Illinois Steel Company. The plans provide for an ultimate expenditure of over $7,000,000 New open hearth furnace plants, blooming mill and finishing mill, a structural Steel, billet and plate mill and additional heating capacity at the rail mill are specified.

Notice was given by the New England Railroad Company Tuesday, that the first mortgage 7 per cent and 6 per cent bonds of the New York and New England Railroad Company, maturing Jan. 1 next will be paid on that date Holders of the bonds will have the privilege of exchanging their bonds for the new consolidated mortgage 4 per cent bonds of the New England Railroad Company on the basis of par and accrued interest for the old bonds and 110 and accrued interest for the new.

The United States Steel Corporation, it is officially estimated, will make approximately 750,000 tons of pig Iron this month in its own furnaces It has secured enough Iron from outside sources to run its total supply for December up to about 780,000 tons. Although this is about the maximum amount of Iron it ever handled in four weeks, it is inadequate to meet the demand based on the orders booked for 1905 delivery. The pig Iron capacity now in blast will reach 81 per cent of its total.

At meetings held in Fall River, Mass., Tuesday, five textile unions voted in favor of the proposition to submit the labor troubles involved in the long pending strike to arbitration The vote was practically unanimous in each case. It is understood the manufacturers are reluctant to accept the arbitration proposal, most of them having gone on record unofficially as opposing it. The president of the United Textile Workers says if the mill owners will not arbitrate the strike will be "fought to a finish" There is no change in the running conditions of the mills.

That all cars, including locomotives, must be equipped with uniform automatic couplers is the decision handed down by Chief Justice Fuller of the Supreme Court of the United States in the case of Johnson vs. the Southern Pacific Railway Company Monday. Dining cars cannot be exempt from the requirements of the safety appliance law when in use even though empty The decision is considered by the Inter-State Commerce Commission and the Department of Justice to be a decided step forward in the protection of railroad employes

The foreign trade for November was again favorable to this country. The value of exports of Breadstuffs was $4 403,213 less than in the same month of last year, but the total merchandise exports reached the large total of $157,679,570, figures exceeded but once in November. There was a heavy increase in merchandise imports which made the total merchandise trade for the month $15,600,000 larger than in 1903 The excess of merchandise exports in November was $62,521,014, a decrease of more than $20,000,000 as compared with the same month in 1903

The treasury officials expect the foreign commerce of the United States to develop very materially in 1905. In general exports it is thought that the country will pass in the aggregate all previous records It is believed that we shall ship more manufactured Cotton than ever before, and that our Cotton trade, particularly with China, will be unprecedently large. Officials predict that exports of Iron and Steel will go far ahead of those of the last year, and probably will break all records. They also believe that exports of Copper and Mineral Oils will make new records.

The *Corn Trade News* of Dec 8 says: "General rains appear to have at length fallen in France, and the situation in the drouthy districts of the South and Centre has improved. There are continued complaints with regard to insects and vermin. The aspect of late sown fields is not satisfactory, but the early sown appear to be all right Offers on country markets continue to be made on a much smaller scale than is usual at this time of the year, and as sellers hold very firmly they have managed to obtain a further advance of 6d per quarter during the past seven days"

The results of operation of four lines of the Vanderbilt system for this year, December being estimated, were announced Tuesday. The Lake Shore report shows a larger increase in net earnings than the increase in gross earnings over the previous year. The Michigan Central shows a decrease in gross earnings of $1,352,201, but a decrease in net earnings of only $350,881 The Lake Erie and Western suffered a decrease in gross earnings of $217,738, and a net decrease of $112,078. The Indiana, Illinois and Iowa increased its gross earnings by $98,276 and reduced its operating expenses by $7,189, making its net earnings $105,465 more than last year.

The leading Steel manufacturers were in session in Jersey City, Monday, and reaffirmed the present price of $21 00 per ton for Steel billets. It is believed however that an advance of $2 00 per ton will be made in this product soon after the new year. Following the meeting of the billet manufacturers, members of the structural Steel combination met in New York, and, according to the best information, reaffirmed the present price for their products. It is known, however, that the consensus of opinion favors higher prices and it is believed that an advance will soon be made in structural shapes.

The American Cereal Company has issued an official announcement that in deference to the wishes of the retail trade and without waiting longer for the Great Western Cereal Company and H-O Company, it has acted independently and abandoned the Cereta cash and coupon premium plan. The company also proposes abandonment of the word spelling schemes on Feb. 1, provided the Great Western does so. The announcement follows a proposition for concerted action with other large manufacturers made by the American company under date of Dec. 5.

The *North British Agriculturist* of Dec. 7 says: "During the past week the weather has been mostly of a mild and muggy character, with heavy falls of rain over most parts of the country. The work of storing Turnips has been resumed with great vigor Tillage operations have also been resumed, and field work is in a very forward state. The marketing of Potatoes has also been engaging attention, and although prices are low, holders are willing to move part of their stocks, as the prospect of higher prices by spring is by no means assured. On the high grounds Live Stock is recovering from the effects of the blizzard of the former week; some of the animals had been for several days entombed in the snow wreaths."

A New York dispatch says: "An important announcement will soon be made in connection with the Duluth, South Shore and Atlantic. While its exact nature is not known, it is intimated by those interested in Duluth-South Shore affairs that the expected developments will be in the nature of an announcement from the Canadian Pacific Railroad headquarters at Montreal that the line will be extended from its present terminus at Duluth to a point somewhere in the vicinity of Thief River Falls, and there connected with the new extension of the Soo line This would give the Canadian Pacific Railroad two outlets for its Grain and facilitate the movement of the Western crops. Incidentally it would provide a large amount of new business for the Duluth-South Shore"

Plans of the Pennsylvania, Baltimore and Ohio, and some of the Vanderbilt lines to publish a new passenger rate sheet, on the basis of iron-clad rate agreements, probably will be dropped. The Wabash and Grand Trunk Roads were not represented at the meeting of rate clerks in Chicago, Tuesday, to establish a proposed rate sheet. The Michigan Central was represented, but emphatically refused to be a party to any agreement involving the infraction of the law as laid down by the Supreme Court of the United States in the case of the Joint Traffic Association, and insisted that the plan of the proposed rate sheet was illegal. The rate clerks finally decided to report to their superior officers that they had not been able to reach an agreement of the interested lines on the question of a new rate sheet.

The president of the Bankers' National Bank, Chicago, says of the money outlook: "It is the experience of bankers that extremes are likely to follow each other in the money market. We have had a period of unusually cheap money. Cheap money tends to stimulate expansion in all sorts of ventures—in the Stock market and in business. These in turn tend to expand credits very greatly. Before long the supply of loanable funds gets exhausted and money grows close very quickly The change often comes suddenly and when little expected. We are facing a spring of unusual expansion in all lines of business. The prevailing cheapness of money is encouraging large increases of the volume of credit. Under the circumstances I would not be surprised to see money become much closer during the spring months than most people expect it will. At present, however, the money situation remains quiet and easy."

Finance of Cleveland says: "There has been considerable talk in Cleveland the past week to the effect that the American Ship Building Company would surely pay a dividend on common stock. While it is impossible to ascertain the truth of this rumor, a dividend on common is not likely to be paid for some time to come, although it may be paid some time during the year 1905 The company did not have a very good year last year, but at present is overrun with business. It should make extremely large earnings on the common stock this year. It has accumulated a very large surplus. Just whether a dividend will be paid or not probably depends a good deal on how optimistic the directors feel when they come to consider the matter next spring or summer or probably next fall When the company was organized the common stock was paid in at $20 00 a share and now has a book value of about $65 00."

The Chicago *Inter Ocean* says: "There has been a great deal of speculation concerning the possible showing that will be made by the People's Gas Light and Coke Company, Chicago, for the fiscal year ending with the current month It is semi-officially stated that the net earnings for the period ought to approximate $3,226,000, as compared with $2 909 767 for the year 1903. Such a showing would mean substantially 9¾ per cent earned on the share capital of $35,100,000, as against 8.80 per cent earned on the stock last year It is not known, however, what amount the company will write off this year, or what proportion of the expense of maintenance and new construction may be charged to operating expense. It is stated that the company has actually earned the above amount, but the net results may be curtailed through the medium of the expense account, with a view to allaying possible detrimental results of a large showing."

The Everett Moore syndicate of Cleveland has recently made arrangements which will go a long way toward clearing up its indebtedness, and if certain other negotiations now being made in the interest of its telephone properties can be put through it is expected that the syndicate will be able to adjust all its obligations. In this event the bankers' committee which has been supervising its affairs will be discharged. The recent sales of $8,200,000 of Detroit United Railway bonds removed further care from the syndicate in the matter of the Detroit United The Citizens' Savings and Trust Company of Cleveland has closed an option at 84½ for Northern Ohio Traction and Light bonds of a par value of $578,000, which includes all the Everett-Moore holdings in this issue. There has been a general advance in Everett-Moore securities recently, and other sales have been made which have brought the syndicate considerable money. A year ago the bankers' committee secured from the creditors an extension to April 1, 1905. The statement is made by one of the committee that the obligations, which a year ago amounted to $4,600,000, have been reduced to less than $1,500,000.

A dispatch from Pittsburg, Pa., says: "Unless rain falls within ten days Western Pennsylvania, Eastern Ohio and West Virginia will have to close mills, shops and mines From the top of the Allegheny Mountains downward the drouth has caused cessation in work and misery to man and beast. Within the history of the United States weather bureau and the memory of the oldest inhabitant such dry weather has not before been experienced, and there are streams in Western Pennsylvania dry that have never been so before. There is no relief in sight. This is the driest year by three and one-half inches since 1871. The Edgar Thomson plant of the United States Steel Corporation at Braddock was the first of the industrial plants in the Pittsburg district to feel the water famine. The big plant has been working under rush orders for some weeks past, and it was intended that the men should work through the holidays with only Christmas and New Year's days off Two of the largest blast furnaces were banked, and the Standard Steel rail mill closed. The blast furnaces were banked because it was found impossible, owing to the drouth in the coke regions, to get a sufficient amount of coke to keep them running. With the blast furnaces banked, there was not enough Steel turned out to keep the Standard rail mill going. The railroads and other industries are being crippled."

Beerbohm of Dec. 9 says: "The reports regarding the Argentine crop are by no means so favorable as they were at this time last year. Mail advices of Nov. 15 report serious damage by the continual rains in the Provinces of Santa Fe and Cordoba, which last year had an area under Wheat of 5,080,000 acres, or 55 per cent of the total in the Republic. Cabled advices received since that date have been somewhat conflicting, but they have indicated far from favorable conditions on the whole. This week one cable confirms the above-mentioned damage in Santa Fe and Cordoba, and expresses the opinion that the quality will be poor. This morning our own correspondent, in his weekly cable, says that the weather has been more or less unfavorable, and that rain is reported to have damaged the Wheat and Flax Seed crops. The weather at present has, however, improved. It had been stated in some cables that the harvest had been commenced two or three weeks ago, but a private cable received yesterday by a well-known shipper says that 'harvest will be commenced in about 10 days.' This is later than usual, and indicates that shipments on an important scale may not commence before the middle of Febuary, instead of the middle of January as was the case last year. With regard to the probable total crop this year, we incline to the opinion that the increased area may compensate for the decreased yield per acre, and give a crop about equal to last year."

The Cincinnati *Price Current*, in its weekly crop summary, says: "No important changes. Winter Wheat mostly under snow, affording protection and something of moisture. Free Corn movement in many sections, but lessened when prices recede."

The International Power Company has declared a dividend of 3 per cent a share on the preferred stock, payable March 1. Books are now closed and will reopen March 3. This dividend makes $12 00 a share declared on the preferred stock since Oct. 1 last.

Stocks in New York averaged lower, but losses were less than 1 point, aside from Consolidated Gas and Tennessee Coal. Sugar advanced 1¼ and lost it. Steel was bought freely, but closed lower. Sentiment was badly mixed. Money, 2½ to 2¾ per cent.

The Duluth *Commercial Record* claims there are in farmers' hands in the Northwest yet to be marketed 70,000,000 bu of Wheat and 13,000,000 bu in country line elevators Deducting 20,000,000 bu for seed leaves 63,000,000 bu available for terminals and interior mills.

A. B. Jackman, Grain Inspector of Oklahoma, in his annual report to the Governor, says that 1,103 car loads of Wheat were shipped the past year up until the first of December, and that a majority of this Grain was sent South. There are three deputies, at Enid, El Reno and Oklahoma City.

The Cincinnati *Price Current* reports the packing of the West for the week at 720,000 Hogs, compared with 710,000 for the week previous and 655,000 for the corresponding week in 1903. Total packing in the West since Nov. 1 about 4,440,000 Hogs, compared with 3,795,000 Hogs to date last season, an increase of 645,000.

Judge Grosscup in the United States Court has decided that the Chicago Union Traction Company will have to find money to meet its obligations on January 1, or steps will be taken by the Court to turn the properties over to the underlying lines. The next hearing will be held on December 31, when the Court will take final action

Dornbusch of Dec. 9 had the following on the crop situation in Australia: "Latest crop advices are in the main indicative of an improvement in the outlook, and it is estimated that the total available for export from all States in the Commonwealth will be about 700,000 tons. So far the shipments to Europe of last crop are about 794,350 tons, besides a considerable quantity taken by South Africa. An unusually large number of ships have been chartered to load new Wheat"

The American *Elevator and Grain Trade* says: "Elevators may replace some of the present warehouses along the railroads in the Wheat districts of the Inland Empire. This year, for the first time in the history of the Pacific Coast States, a large part of Wheat crop of Washington and Oregon has found its outlet by rail to the East. Some Wheat has been shipped East by rail before, but the greater part of the crop heretofore has been exported, aside from what was used by the local mills. For that reason warehouses have always been largely used. The Grain is brought to them in sacks and is shipped out that way. Very few elevators for handling bulk Grain have ever been built in this country. Men who are in a position to know figure that the heavy Grain movement East by rail this year will continue to grow and that the erection of elevators will be a necessity The demand for Pacific Coast Wheat by millers in other sections of the United States this year will no doubt result in a greatly increased acreage next year. Then, too, local millers have ground more than the usual amount of Inland Empire Wheat this year, as shown by the heavy shipments of Flour to other parts of the country."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand little if any improved and market quite dull Prices steady.

WINTER WHEAT-Was dull. Millers holding off, but very small receipts was also cause for limited trade. No 2 Red in store ranged nominally 2@3c over May—outside for special bin lots—ranging at $1 12¼@1 17, and car lot fresh arrivals free on board at $1 15½@1 16½. No. 3 Red fresh arrivals free on board quotable at $1 10@1 14. No. 2 Hard fresh arrivals free on board quotable at $1 11@1 14 and No 4 Hard at $1 01@1 10

SPRING WHEAT—A few cars of the lower grades were sold. Choice Wheat met with some demand, but the poor Wheat was dull and difficult to sell. Some cars carried over several days in an endeavor to get what holders think the Wheat is worth. Prices about the same as yesterday, but so little doing that it is difficult to establish market quotations. No. 1 Northern fresh arrivals free on board quotable at $1 15@1 18½. No. 2 Northern quotably $1 08@1 15. No. 3 Spring nominally 98c@$1 12, with sales at $1 01@1 05. No. 4 Spring quotable at 56@60c for very poor to $1 00@1 05 for good to choice, with sales at 77@98c.

REGULAR WHEAT—The trade was only moderate, mainly local and professional, with the feeling prevalent weaker, the close showing the December 2⅝c lower, while May lost ⅝c and the July ½@⅝c. Early, the situation was stronger, influenced chiefly by higher cables and strength on the Minneapolis curb. The report of unfavorable weather in Argentina also acted as a "bull" factor. December was nervous and erratic, selling between $1 10½ and $1 14½, with not a trade between $1 14 and $1 13. The increased offerings of December caused the forward deliveries to sell off and the whole situation turned weaker. Liverpool quoted spot steady and futures ¼d higher. London ¼d higher. Paris steady to ⅛c higher. Berlin, Buda Pesth and Antwerp were unchanged. The stronger tone at Liverpool was said to be due to smaller Argentine offers and reports of unfavorable weather. Primary receipts were 345,000 bu smaller than a year ago. Arrivals in the Southwest only 70,000 bu, against 309,000 bu one year ago. Receipts in the Northwest were 96 cars less than in 1903. Stocks at Minneapolis were reported increased 850,000 bu the past five days. The Flour output the past week in the Northwest was 427,000 brls, against 536,000 bu one year ago. The Minneapolis mills were reported as about to close down for three days. *Price Current* reported no important change in the crop situation. Weather map showed a trace of precipitation in Kansas and snow and colder conditions were generally predicted. Clearances were small and no boat loads accepted at the seaboard. Cash sales here limited. Argentine shipments are estimated at 1,200,000 bu. Receipts at Duluth 50 cars, at Minneapolis 492 cars, a total of 542 cars, against 509 cars yesterday, 430 cars a week ago, and 638 cars last year. Local receipts included 1 car Winter, 35 cars Spring and 8 cars mixed, total of 44 cars, against 49 cars last year Included in above was none contract grade. There were also 8 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 32 cars. The withdrawals were 6,500 bu. Receipts at Western points were 773,791 bu, against 1,119,262 bu last year. At Eastern points 77,126 bu, against 290,044 last year. Shipments from Western points 278,046 bu, against 337,386 last year, and from Eastern points 35,089 bu, against 215,131 bu last year. Shipments of Flour were 14,145 brls. Exports of Wheat in Flour were equal to 95,761 bu.

Future Deliveries of Regular Wheat—Moderate trade and closing lower.

DECEMBER—Sold at $1 10½@1 14½. Opened with sales at $1 13½ to $1 13¾; sold to $1 14½, to $1 14, to $1 14½, to $1 13, to $1 12½, to $1 11½, to $1 11¾, to $1 11½, to $1 12⅛, to $1 10½, and closed at $1 10½.

MAY—Sold at $1 11⅛@1 12⅜. Opened with sales at $1 11⅞ to $1 12⅛; sold to $1 12, to $1 12⅜, to $1 11⅝, to $1 11¾@1 11⅞, to $1 11⅜, to $1 11⅞@1 12, to $1 11⅜, to $1 11½, and closed at $1 11½ asked.

JULY—Sold at 98⅛@98⅞c. Opened with sales at 98¾c and at 98¾@98⅞c; sold to 98⅞c, to 98¾c, to 98⅜c, to 98¼c, to 98⅛c and closed at 98⅛c.

CORN—A moderate trade was reported in Corn, and the feeling developed was easier. Resting prices showed the December ⅜c lower, while May lost ½c and the July ⅜c. Selling was more general, and the market apparently did not have the support so noticeable the past few days. Receipts were large and the cash trade was reported not so good as of late. Cash and commission houses were the leading sellers as also a prominent Provision specialist. Floor traders and "shorts" were the principal buyers. Receipts were 605 cars, making 3,416 cars so far this week, compared with 1,394 cars for the same period last year and 483 cars are estimated for to morrow Cables were stronger Liverpool quoted spot unchanged to ¼d higher and futures ¼@⅜d better. Primary receipts were 927,000 bu, against 526,000 bu last year and shipments 571,000 bu and 317,000 bu respectively. Local receipts were 584,900 bu and shipments 246,000 bu. Argentine shipments were again large this week, being estimated at 2,800,000 bu. There were 339 cars and 50,600 bu switched from private elevators. Clearances were quite liberal, 365,000 bu, and 15 boat loads were accepted at the seaboard. Shippers reported the Eastern demand more moderate, but sales were 225,000 bu. Indications are for unsettled weather, and may tend to curtail the interior movement Southwestern markets were easy. Car lots were in fair demand and moderate supply. Prices ¼@½c lower. No. 2 closed about 46@46½c. No. 2 Yellow closed at 46@46½c. No. 3 sold at 43½c and closed at 43½c. No. 3 Yellow sold at 43½c and closed at 43½c. No. 4 sold at 43c.

Corn by sample—Offerings were moderate and the demand hardly as good as of late. Feeling weaker and prices ¼@½c lower Sales on track and free on board: No Grade sold at 25@40½c. No. 4 at 41@43¼c. No. 3 at 43½c. No. 3 Yellow at 43¼@41c. No 2 at 46¾c. No 3 White at 43½@43¾c. Ears at 45@48c. Billed through: No Grade at 39@39½c. No. 4 at 40½@42½c. No. 3 at 41¾@43c. No. 3 Yellow at 41¾@43¼c. No. 3 White at 42¾@43c.

Future Deliveries of No. 2 Corn—Moderately active and easier, closing ⅛@⅜c lower.

DECEMBER—Sold at 45⅞@47¼c Opened at 47¼c and sold off to 46⅛c, to 46⅜c, to 45⅞c, to 46⅛c, to 45⅞c. and closed at 45⅞c bid.

JANUARY—Sold at 43@43⅜c. Opened at 43⅜c and sold at 43c, to 43¼c, to 43c, to 43¼c, to 43⅛c, and closed at 43¼c bid.

MAY—Sold at 45⅛@45¾c. Opened at 45⅝c to 45¾c and sold at 45⅝c, to 45¾c, off to 45⅛c and closed at 45⅛c asked

JULY—Sold at 45½@45⅝c and 46c. Opened at 45⅞c to 45⅞@46c, and sold at 46c, to 45½@45⅝c, to 45⅝c, to 45½@45⅝c. to 45⅝@45¾c, and closed at 45⅝@45¾c asked.

OATS—Prices advanced ⅛@⅜c and closed at a net gain of ⅛@¼c, the latter on July. There was fair buying of May at 31½c that finally lifted prices above that figure A feature was the buying of July by local interests which made it the strongest of all. There was also buying of May against sales of Corn Cash sales were 75,000 bu Arrivals 72 cars, with 76 cars estimated to-morrow. Withdrawals 106,100 bu Standard. Seaboard clearances 3,000 bu. Car lots to go to store were steady to ½c higher. No 4 White sold at 29¼c. Standard in store closed at 29⅜c

Oats by sample were steady to ½c higher, with a fair demand. Sales on track and free on board: No. 4 at 30c. No. 4 White at 29@30c No. 3 White at 30½@31½c. Standard at 31@31½c No 2 at 30¼c. No 2 White at 31½c. Billed through: No. 4 White at 27½@28¾c. No. 3 White at 30¾c Standard at 30¾@31c. At the river: No. 3 White at 28¾@29½c. Standard at 30c. No. 2 White at 30c.

Future Deliveries of Contract Oats—Were stronger and higher.

DECEMBER—Slow at 29¼@29⅜c. Opened at 29¼c; closed at 29⅜c

MAY—Fair trading Sold at 31⅜@31½c and at 31½@31⅝c. Opened at 31½c, sold to 31½@31⅝c, to 31⅜@31½c; closed at 31½c.

JULY—Sold at 31⅜@31⅝c. Opened at 31⅜c, sold to 31½c, to 31⅝c, to 31½c at close.

RYE A very dull trade, with no quotable change in prices, was about all there was to this market. There were seven cars received and there were withdrawn from private warehouses 5,500 bu and from public elevators 8,100 bu. No exports from New York. No. 2 in store nominally 73c, and a car of fresh receipts free on board sold at 77c.

Future Deliveries of No. 2 Rye—Nothing doing. December nominally 73c and May nominally 77c.

BARLEY There were only a few buyers for malting Barley on the market They did not seem to want much. After to-morrow there will be no Board for three days, and Tuesday will witness offerings of receipts accumulated during that time. This may have influenced buyers somewhat. A dull, heavy market was experienced Some Barley sold to arrive was said to have sold a little cheaper than same goods brought some time ago. There was a moderate business in Screenings at about former prices. A few cars of poor Barley, damaged, thin, and some dirty, seedy, called feed Barley, was offered and no demand seemed to exist for it To-day 52 cars were posted in. Screenings were quotable at 25@36½c for poor to fancy. Feed Barley at 37@38c. Low-grade malting about 40c, with very dirty cars at 38@39c; fair to good at 41@44c, choice at 45@48c; very fancy in round lots possibly a shade over.

SEEDS—Steadiness prevailed. The only instance of any change in prices was that May delivery Flax sold a trifle lower.

Timothy—There remained a very quiet market. Nothing new was noted. Future deliveries devoid of business. Same prices were bid and asked as for some days past. Cash offerings only moderate and no very good Seed among them. Good to high grade Seed quotably steady, common grades easy. Spot or December delivery, contract Seed, remain at $2 72½, January at $2 75, February about $2 80 and for March $2 85 was again bid. April remains offered at $2 90. Country lots quotable at $2 00@2 65 for low grade to fancy; extra fancy possibly up to $2 75; inferior lower; fair to good, $2 35@2 50, and rough, dirty or hulled, $2 15@2 25.

Flax—Some May delivery Flax was offered. It caused the price of that future to decline ½c. In the rest of the market there was no change, and in the rest of the market there was no trading. Four cars or 3,600 bu came in while none was taken out. Northwestern receipts were 61 cars at Minneapolis and 22 cars at Duluth. No. 1 Northwestern was salable at $1 23½, and No. 1 at $1 16. Rejected nominal, depending on quality, at $1 13@1 20 December salable at $1 16, and $1 23 was paid for May.

Clover—The market remained steady. There was no change. A few lots offered, small lots, not enough to be important. Former prices obtainable and quotable as follows: Contract spot Clover quotable at $12 75 March delivery about $13 00. Country lots, common to choice, quotable at $8 00@12 50; very poor lower, and fancy above. Fair to good, $10 50@12 00.

Other Seeds—No change quotable. There were no offerings. Market inactive. Nominally steady as follows: Hungarian quotably $1 05@1 15 for common to choice. Millet, common, quotable at 90c@1 15 for common to choice. German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05. Mustard about 75c@$1 00. Buckwheat dull and easy. Some to arrive submitted for bids. Buyers do not care for this. Demand tame for spot Wheat. Good milling quotable at $1 10; common lower.

HOG PRODUCTS—Rather a light business was transacted in Hog Products, and the feeling was easier. Outside orders were small and local trading was moderate. There was a little pressure to sell early, and a little activity prevailed temporarily, but after that time a quiet feeling prevailed. Market lacked general support. Hogs were in rather good supply, and prices ruled lower, and the undertone to the Grain markets was rather easy, and these features had a little influence in depressing prices All articles ruled slightly lower, and the market closed rather quiet. Receipts of Hogs at the leading Western packing points estimated at 101,700, compared with 64,500 one year ago Returns of the packing of the West for the week exhibited an increase of 65,000 Hogs compared with the returns for the corresponding week in 1903 Foreign markets were easy, and Backs were quoted 2s lower Domestic markets were steady. Receipts of Products were good—of Lard and Meats about 29 cars. Shipments were fair of Lard and Meats about 127 cars Demand on shipping account was moderate, and chiefly to provide for small orders Offerings were moderate. Exporters accepted a few lots. *Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth

†Flour made by mills outside of St. Louis, but controlled in that city

The Minneapolis Flour output last week decreased 15,000 brls To-day there were sixteen mills in operation, and with no stops they should make not far from 300,000 brls for the week. For the same week in 1903 the production was only 177,185 brls.

Though trade has taken on rather a holiday air, local millers do not complain specially about poor business. Notwithstanding that there has been a heavy falling off in orders since about Dec. 1, they report a volume of business fully up to the average for this time of year Last week moderate sales were made in domestic markets Some business was also done abroad Aside from patent produced from Canadian Wheat being sold, Glasgow and other Scotch markets took some clears The mills have a large number of orders on their books, and though shipping directions are coming in only fairly well, enough are received to permit a pretty good showing as to output.

Millfeed has advanced 75c per ton and,seems to be in a strong position

Minneapolis and outside millers quote Patents at $5 60@5 75 per brl in wood, f. o. b. Minneapolis.

Eastern prices to day (Dec 20) asked by Minneapolis and outside mills for Patent in wood, were: Boston rate points, $6 35@6 45, New York rate points, $6 30@6 40; Philadelphia rate points, $6 25@6 35; Baltimore rate points, $6 20@6 30; Albany rate points, $6 30@6 40; Utica, Syracuse, Hornellsville and Rochester rate points, $6 25@6 35; Ohio, lower peninsula of Michigan and Indiana, $6 15@6 25; upper peninsula of Michigan, in sacks, $5 85@5 95; Missouri points, $5 75@5 85; Wisconsin, Iowa and Illinois, $5 90@6 00.

Reports from nearly all markets in the United States this week tell of quiet Flour markets and of conditions unsatisfactory to millers and Flour dealers. Louisville forms the one bright and shining exception Her millers are reported to be satisfied, which they may well be, in view of increasing orders and a trade that is of normal proportions It is to be hoped that they appreciate the kindness of the fates, in so great contrast to their unkindness to millers elsewhere. A curtailed output was the general experience last week

Kansas City telegraphs some improvement in the Flour trade the last day or two Millers there are discussing the chance of grinding Canadian Wheat. The trade in millfeed is generally active. St. Louis, in particular, has a demand in excess of supply. The Winter Wheat has received the snow and moisture it so sadly needed, and conditions in the Winter Wheat territory generally are more favorable for the growing crop than they have been. Millers in Manitoba and Eastern Canada continue to enjoy a good home trade

Glasgow, Liverpool and London cables all indicate quiet markets with a tendency to lower prices. The usual holiday dullness prevails and no activity is looked for until after the new year. Holland cables that good Clears are freely offered at 10.87@11 00 florins and some business has resulted at these prices

OAT SMUT.

[From the American Elevator and Grain Trade.]

It is a little early to talk remedies for Oat smut, but it may be interesting to know that Bulletin No 111 of the Wisconsin Experiment Station puts the loss during the last three years from that cause in that State at $'3,500,000 During this period the rural public schools have cost the taxpayers of the State $11,500,000. This is an immense waste, considering that it is, a large part, an unnecessary loss that might be avoided had the farmers understood the cause of smut and the means for its prevention.

The preventive measure in common use by advanced farmers is heating the seed Oats with a 40 per cent solution of formaldehyde, which can be purchased from or obtained through any good druggist at about 50c per pound. One pound of this 40 per cent solution stirred into 45 gallons of water makes a solution of about proper strength for treating seed Oats, and a sufficient quantity for treating 15 bu. Upon a well swept floor spread a layer of 2 or 3 inches deep of the Oats to be treated, and with a water sprinkler thoroughly wet down with the solution. Place upon this wet layer another layer of the Oats and wet down as before, and so continue until all the Oats are wet, or until the pile is as large as it is desired to handle. Then thoroughly shovel over and into a well rounded pile and allow to stand for two hours and spread out in as thin layer as possible and shovel over from time to time until dry, hastening the drying as rapidly as possible. Warm, clear weather is desirable for this work

Wheat smut, which has done so much to reduce the grade of Spring Wheat of the Northwest during the last two seasons, might be avoided in the same way, were farmers as anxious to find the defects of their Grain as they are to "cuss" elevator men for pointing them out The latter have, during the winter just ended urged upon Grain growers the necessity of planting only clean and smut-proof seed, and it is likely their advice will be taken by many reasonable Wheat farmers.

STORING GRAIN IN MINNESOTA.

[From the American Elevator and Grain Trade.]

A lawsuit growing out of the storing of Grain in private elevator for a farmer at Redwood Falls, Minn., recently came to judgment, the trial court finding the issues for the farmer

The case was that of Levi Charter and others against Wm. J. Bettingen & Co. The facts as stated by the court are that the Wheat in controversy, 5,569¼ bu, was stored in the elevator of J. A. Engelhart, who owned the property up to March 14, 1902. Bettingen & Co. were his Minneapolis consignees. On March 14, 1902, Engelhart transferred all of his elevator property at Redwood Falls to Bettingen, claiming that an oral agreement had been made that Bettingen was to pay all the outstanding storage tickets. Bettingen denied this

The court contended that the Wheat was unlawfully shipped out of Engelhart's elevator and consigned to Bettingen; and that inasmuch as the law regards it as stolen property, Bettingen must return the Wheat or pay over to Charter the value of the same The court concludes his opinion as follows: "Each of the warehouse receipts was an obligation on the part of Engelhart to deliver a certain quantity of Wheat to the holder, and as Bettingen had entered into a contract made for the benefit of the holders, if they elected to avail themselves of the contract, I think they were bound, before bringing suit, to make a demand upon Bettingen, and if such demand were refused, the holder was entitled to recover the market value of the Wheat at the time of the demand."

CINCINNATI WILL REVISE RULES.

It is probable that by the first of the year the Cincinnati Chamber of Commerce will have a set of revised Grain rules in force. The rules now in force were made twenty-five years ago and have been amended from time to time until, it is said, they are now more or less complex Several controversies have arisen during the past year calling for the decision of the superintendent, who has not always found it easy to apply the existing rules to an equitable adjustment of differences under present-day conditions of the trade. The superintendent undertook to point out some of the changes that were needed, with the result that the directors finally referred the entire matter to the Grain Inspection Committee.

The committee drafted a set of revised rules and recommended them to the board. They were referred to a committee consisting of F. F. Collins, chairman, Joseph D Morten and Walter A. Draper. The committee is now at work on the rules.

There is great anxiety on the part of the trade to have the new rules ready for the new year, and every effort will be made by the committee to finish its work so that final action by the board of directors may be had before Dec. 30.

INTER-STATE COMMERCE COURT.

[From the Louisville Evening Post.]

There is much talk of an "Inter-State Commerce Court,' one for each of the nine judicial districts, its decision subject to review by the Supreme Court. There is something reasonable in the suggestion. Like marine law, there is Inter-State Commerce law growing up under new conditions. The functions of such a court would differ in some respects from the functions of an ordinary court, but rate-making power affecting nearly $2 000,000,000 of revenue should be used judicially, and should be subject to review. Under such a system it ought to be possible to correct abuses without checking development

THE WEATHER CONDITIONS.

Extreme Northwest -Temperatures, 24 below to 4 above, snow general, cloudy. Northwest—Temperatures, 6 to 27. West—Temperatures, 28 to 38, generally fair. Southwest—Temperatures, 32 to 58; partly cloudy; trace of rain in Eastern Kansas and Oklahoma. Ohio Valley—Temperatures, 16 to 40, clear

Indications are for snow and much colder in Northwest. Warm weather will continue in Western lake region and Middle States until Friday night

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Dec. 21.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 42 "outside mills" with a daily capacity of 32,180 brls, from Jan. 1, 1904, to Dec. 10, 19.4, with comparisons:

	1904 Flour, brls	1904 Wheat, bu.	1903 Flour, brls.	1903 Wheat, bu.
Minneapolis	13,948 595	61,108,000	14 964,935	67,337,000
Duluth	791,295	3,759,000	1,089,510	4,808,000
42 outside mills. . .	6,686,950	31,763,000	7,087,740	31,895,000
Totals.	21,416,840	99,630,000	23,140,185	104,139,000

These figures represent the approximate consumption of 4,500,000 bu less Wheat this year than in 1903. This has occurred from the mills of Minneapolis and Duluth making 1,322,555 brls less Flour than in 1903, and the outside mills 400,790 brls less

ITEMS OF GENERAL INTEREST.

Crane & Co., Chicago, will distribute over $250,000 among their employes at their annual Christmas profit sharing.

The Mahoning Coal Railroad has declared the usual semi-annual guaranteed dividend of 2½ per cent on its preferred stock

The John Thompson & Son agricultural machine works and gasoline engine factory, Beloit, Wis., was destroyed by fire, Tuesday, causing a loss of $100,000.

Application has been made to the New York Stock Exchange by the Southern Railway Company to list $652,000 additional first mortgage 5 per cent bonds of 1991.

The New York City Railway Company loses fully $1,000 a day through an illegal system of transfers, according to a statement made, Wednesday, by the company's chief inspector in a police court

Employes of banks, brokerage firms, manufacturing establishments, department stores, and other large corporations at Chicago will receive more than $1,000,000 as Christmas presents, Saturday.

At a special general meeting in London, Wednesday, of the shareholders of the Grand Trunk Railroad it was agreed to guarantee the issue of $7,500,000 4 per cent Gold bonds for the construction of the Lake Superior branch of the road.

Within a short time, it is reported, the Cincinnati, Hamilton and Dayton will operate all its freight and passenger trains between Chicago and Cincinnati over its own rails, canceling the traffic alliance which has existed for years between it and the Monon.

The Steel Bar Association, at a meeting in Jersey City, Tuesday, advanced the price of Steel bars $2 00 a ton. The Steel plate manufacturers voted to advance the price of Steel plates $2 00 a ton. The manufacturers of structural Steel also advanced the prices of their product about $2 00 a ton.

The time for making subscriptions to the stock of the American Strawboard Company under the reorganization plan of the United Boxboard and Paper company has been extended from Jan. 2 to Jan. 12. The second payment of 10 per cent on subscriptions has been put at Jan. 20 instead of Jan. 10

It is stated at Copenhagen that a steamship company composed of Norwegians and Americans will soon be incorporated, with a capital of $2,500,000. It is the purpose of the incorporators to operate a line of steamers between ports of Sweden and Norway and New York, starting with three ships of 10,000 tons each.

The Louisville and Nashville is the first of the big railroads to increase its dividend rate, the directors having just placed the preferred stock on a 6 per cent basis In the past fiscal year the road earned 11 per cent on its stock. During four years vast sums of money were spent in improving the road and adding to its equipment

The Illinois State Board of Equalization finished its taxation report, Wednesday, and adjourned sine die. The total value of the assessed property of the State this year was $1,080 775,546 This is a little over $2,000,000 less than the assessment for 1903, but it will not materially affect the State tax rate for 1904. The rate last year was 52c. It may be a trifle more this year.

The directors of the Reading Company at their meeting in New York, Wednesday, declared an initial dividend of 1½ per cent on the common stock. They also declared a dividend of 2 per cent on the second preferred. The common stock dividend is payable Feb. 1 to stockholders of record Jan. 24. The second preferred dividend is payable May 10 to stockholders of record April 22.

Notices were posted, Wednesday, at Sharon, Pa., by the American Sheet and Tin Plate Company that the remaining five mills of the plant will be placed in operation next Monday. Fifteen mills are now running. The starting of these mills will afford employment to 150 men, making 1,300 now at work After Monday there will not be an idle Tin mill owned by the company in the country.

Officials of the American Ship Building Company do not place credence in the report that a certain element of common shareholders is preparing to force the company to pay a dividend on the common stock. Advices from Cleveland state that a pool representing some 25,000 shares, or about one-third of the common stock outstanding, has already been formed for the purpose of forcing the company to make a disbursement, but the inconsistency of such action at this time is declared to give the story a strong color of uncertainty.

The preferred and common stock of the Great Lakes Towing Company has been listed on the Cleveland Stock Exchange. The stock of this company is largely held in Chicago. It is understood that the outlook for the company is excellent The company has issued $2,500,000 of 7 per cent noncumulative preferred and $2,500,000 common stock. Of the preferred there is outstanding $1,952,850, and of the common there is outstanding $1,675,000. The company was incorporated under the laws of New Jersey and succeeded a large number of companies engaged in towing, wrecking, lighterage, etc., on the great lakes. The company owns a large fleet of tugs, lighters, barges, etc.

The Chicago *Inter Ocean* says: "It is said that during the past week a strong 'bear' pool has been organized in Wall Street. It is composed of three prominent 'bears' who were active in the market during the great decline last year The pool has a backing of approximately $20,000,000, and is at the present time manipulating the market in order to put out its line of 'shorts.' One of the leading members of the pool says that the big men have more stocks than they want, and that much of the recent buying has represented forced accumulation. It is the belief of this man that the big men will liquidate stocks at the earliest opportunity. Thus far the sales of this clique have been heaviest in Reading, St Paul, Union Pacific, and United States Steel preferred."

Dornbusch of Dec 9 says of the crop situation in Russia: "Heavy snow fell in Azoff regions at the end of last week and navigation is officially closed. Nevertheless, the loading of Grain cargoes is carried on, and it is hoped that the water will be clear of ice for a couple of weeks At Rostoff alone about ten steamers are waiting for cargoes. Stocks in Nikolaeff have reached considerable proportions and are close upon 800,000 bu, of which about 560,000 bu are Wheat, the balance consisting chiefly of Barley and Oats, supplies of Rye and Corn being small. The general condition of the Wheat and Rye crops is satisfactory. Railway shortcomings and heavy country roads are responsible for smaller supplies than would have come down to the seaboard in ordinary circumstances. Last week's shipments were again large."

"There is every indication of a disastrous Wheat rust in 1905, which will materially affect the Wheat yield of the Red River Valley," says Professor Conway MacMillan of the University of Minnesota This statement was made in an interview in a Minneapolis paper. Professor MacMillan has made a careful study of Wheat and its ailments the past year. He says that farmers will have to get new Seed, as the rust is strongly infected in the straw and stubble brought about in 1904, and rust fungus is shown particularly in virulent qualities. He believes an advantage can be gained by a selection of Seed Wheat if possible from fields where rust was prevalent, provided it should be full weight, but seed of low weight might indicate weakening of the present plant by disease, while seed from a smutty field is almost sure to communicate smut to the next crop Seed Wheat from a rusted field, if it is of good weight and appearance, is less likely to produce plants which will be badly rusted. He suggests as a protection to develop rust-proof varieties.

The American *Elevator and Grain Trade* says: "The dearth of Rye Straw in the East still continues, with prospects that Straw will reach the high prices of last winter or even higher. The production of Rye in the West is decreasing year by year, and Spring Wheat is taking its place. As a result the shipments of Rye Straw from that section have fallen off Some Rye is raised in the New England States and other parts of the East, but not as much as formerly. The Straw is largely used as bedding for horses, and that coming to this country from Belgium and France was considered especially good for this purpose. It was excluded by the government last year, however, on the grounds that it was liable to introduce the foot and mouth disease among animals in the United States. If the embargo is not lifted this season dealers state that they expect to see Rye Straw reach prohibitory figures before next year's crop is harvested "

Dornbusch of Dec. 9 has the following on the Flour market: "The general demand has not been influenced by the fluctuations in American markets, nor by the reports of bad harvest weather in Argentina Bakers and consumers appear to have enough stock on hand to meet their trade needs until after New Year's Day, so that it is vain to expect activity during the remainder of this month. Although the absence of American supplies has given British millers freer hands and more opportunity for developing business, the present fairly good value of Flour has attracted competition from several sources which in ordinary seasons were less prominent. Supplies, although to a relatively moderate extent, are coming from France, Holland, Belgium, Germany, Hungary, Russia, Turkey, Argentina, Chili, Australia, etc., but these combined sources, in addition to what has come in from America and Canada, do not, since Sept. 1, amount to more than 1,002,000 sacks, in comparison with imports of 2,084,000 sacks in corresponding period last year. The quantity afloat for United Kingdom equals 261,000 sacks, against 258 000 sacks in previous week and 378 000 sacks a year ago."

Estimated receipts for Tuesday: Wheat, 70 cars; Corn, 1,076 cars; Oats, 135 cars; Rye, 10 cars; Barley, 90 cars; Hogs, 18,000 for Saturday and 38,000 for Monday.

A London cable says: "Argentine reports indicate crop has improved generally. Exportable surplus of Wheat 2,500,000 tons, and of Flax Seed 750,0 0 tons."

The Treasury Department has decided that Canadian Wheat can be blended with that of the United States and milled. The entire product must be exported.

The receipts of Wheat at Minneapolis and Duluth for the past five days were 3,163 cars, compared with 3,059 cars one week ago, and 2,441 cars corresponding week one year ago.

The receipts of Wheat at Liverpool during the past three days were 224,000 bu, of which 32,000 bu were American. Receipts of Corn, 152,000 bu, of which none were American.

Argentine Wheat markets easy, owing to light arrivals and a small export demand. Corn strong, with a good export demand. Arrivals at ports fair, and condition satisfactory.

Philadelphia's steamship capacity for the exportation of 1,000,000 bu Grain a month has all been taken for this month, and a large portion of the January room also chartered.

The receipts of Hogs at the leading Western markets during the past six days were about 497,000, against 496,000 the previous week, and 270,000 for the corresponding time in 1903.

Cotton prices in New York moved irregularly, advancing early and declining later. Liverpool closed 2 points lower and reported the spot demand slow. The market closed steady to 3 points higher.

Secretary Hester of the New Orleans Cotton Exchange makes the amount of Cotton brought into sight for the week 330,476 bales, compared with 412,688 bales last year, 361,134 bales in 1902, and 394,795 in 1901.

Argentine Wheat visible is 1,104,000 bu, against 1,328,000 bu the previous week, and 704,000 bu last year. The Argentine Corn visible is 2,409,000 bu, against 2,671,000 bu the previous week and 2,280,000 bu last year.

Argentine cable says: "In the North harvesting has been completed satisfactorily, and threshing is commencing. The quality of the Wheat is medium. The weather is generally favorable, although light rains fell yesterday."

Shipments of Wheat from Argentina this week were 992,000 bu, against 864,000 bu the previous week, and 176,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 92,973,000 bu, against 62,224,000 bu same time in 1903.

The *Modern Miller's* weekly review says: "In sections where the Winter Wheat is not covered by snow, notably in southwestern and southeastern portions of the Wheat belt, the plant has a small but healthy growth. Conditions in general are satisfactory for this time of year. Wheat seeding is still going on in some sections of the Southeast, where this work was delayed by the dry weather."

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 65,000 brls of Flour and 93,000 bu Wheat, against 102,000 brls Flour and 163,000 bu Wheat the preceding week, a decrease of 37,000 brls of Flour and a decrease of 70,000 bu Wheat. For the corresponding week last year the exports were 112,000 brls of Flour and 751,000 bu of Wheat.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Dull owing to the unsettled condition of the Decemqer Wheat price.

WINTER WHEAT—Ruled dull. Millers holding off, and very small receipts also cause for limited trade. No. 2 Red in store ranged nominally 2@3c over May—outside for special bin lots ranging at $1 13¼@1 15½, and car lot fresh arrivals free on board at $1 15½@1 16½. No 3 Red fresh arrivals free on board quotable at $1 10@1 14 No. 4 Red sold at $1 07. No. 2 Hard fresh arrivals free on board quotable at $1 11@1 14 and No. 3 Hard at $1 02@1 10.

SPRING WHEAT—There were a few cars sold to millers and speculators, but the market, generally speaking, was dull. Choice Wheat met with some demand, but the poor Wheat was dull and difficult to sell. Prices about the same as yesterday, but so little doing that it is difficult to establish market quotations. No. 1 Northern fresh arrivals free on board quotable at $1 16@1 18½. No. 2 Northern quotably $1 08@1 15. No. 3 Spring nominally 98c@$1 12, with sales at $1 01@1 06. No. 4 Spring quotable at 56@60c for very poor to $1 00@1 05 for good to choice, with sales at 88@99c.

REGULAR WHEAT—The close was at advances of ¼@⅞c. The market was helped no little toward the close by the reported decision of the Attorney-General of the United States that millers may mix Canadian and American Wheat, and export the Flour, receiving the drawback on the Canadian. Some of the local traders believe that this decision will enable millers to work off low grade American Wheat mixed with high grade Canadian, leaving a large part of the high grade American Wheat on hand. On the other hand, it is argued that this will enable millers to export American Wheat that otherwise would not go out, and this is "bullish." It was difficult for the trade to determine whether the buying late was on Wall Street or local account, but the Wheat seemed to be well taken and it closed strong. Cash sales were 10,000 bu. Clearances for the week were 1,081,000 bu, compared with 1,144,000 bu the week before, and 2,336,000 bu same time one year ago. There was another day of unsettled conditions in the Wheat market. The December price bobbed up and down in a manner to frighten both the "bulls" and "bears." It was offered from $1 12 down to $1 10¼ without a sale being made, and from $1 10¼ it was bid up to $1 11. The volume of business was small, the brokers being without outside orders and giving more attention to Christmas and Christmas presents than anything else. The news from the Southern hemisphere was conflicting in character one set of cables reported weather as threatening, another told of scattered rains, while a third cable said that the Wheat crop in the north of Argentina had been harvested under favorable conditions and threshing was now being vigorously pushed. The quality was medium. Northwestern and local receipts of Wheat were larger than a week ago and the stocks at Minneapolis and Duluth increased 900,000 bu and 600,000 bu, respectively. Buda Pesth ½c lower. Berlin ¾c lower Liverpool was ⅛d lower. Paris unchanged to 1c off. London ¼d higher. Antwerp unchanged. Spot Wheat at Liverpool unchanged to ½d higher. Private Argentine cable puts exportable surplus of Argentina at 2,500,000 tons, or 93,730,000 bu. Argentine shipments for week were 992,000 bu, against 864,000 bu last week and 176,000 bu one year ago. Since Jan. 1 Argentine exports were 92,973,000 bu, as compared with 62,224,000 bu for the corresponding period of last year—practically all of the crop and calendar year. Argentine visible 904,000 bu, against 1,398,000 bu a week ago and 736,000 bu one year ago. The Italian official report makes the Wheat crop of that country 150,400,000 bu, against 179,200,000 bu one year ago. Receipts at Duluth 452 cars, at Minneapolis 151 cars, a total of 603 cars, against 542 cars yesterday, 569 cars a week ago, and holiday last year. Local receipts included 2 cars Winter, 14 cars Spring and 12 cars mixed, total of 28 cars, against no cars last year. Included in above was 1 car contract grade. There were also 10 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 70 cars. The withdrawals were 6,075 bu. Receipts at Western points were 729,195 bu, against holiday last year. At Eastern points 295,521 bu, against holiday last year. Shipments from Western points 254,160 bu, against holiday last year, and from Eastern points no bu, against holiday last year. Shipments of Flour were 27,422 brls. Exports of Wheat in Flour were equal to 133,399 bu.

Future Deliveries of Regular Wheat—Good trade and closing higher.

DECEMBER—Sold at $1 10¼@1 12⅛. Opened at $1 11; sold to $1 12⅛, to $1 10¼, to $1 10¾, and closed at $1 10¾.

MAY—Sold at $1 11⅛@1 11¼ and at $1 12⅜. Opened with sales at $1 11½ to $1 11⅝; sold to $1 11½@1 11⅝, to $1 11⅜@1 11½, to $1 11⅛@1 11¼, to $1 11⅝, to $1 11⅜, to $1 11⅝, to $1 11½, to $1 11⅞, to $1 11½@1 11⅝, to $1 11⅞@1 12, to $1 11¾, to $1 12, to $1 11⅞, to $1 12@1 12⅛ to $1 12, to $1 12⅜, to $1 12¼@1 12⅜, and closed at $1 12¼@1 12⅜ asked.

JULY—Sold at 98c and 98½@98⅝c. Opened at 98⅛c; sold to 98c, to 98⅛@98¼c, to 98c, to 98⅜c, to 98⅛c, to 98⅜@98½c, to 98⅛c, to 98⅜c, to 98¼c, to 98½@98⅝c and closed at 98½@98⅝c.

CORN—More or less strength was shown during the day. The price was ¼@⅜c better at the close. Cash sales made here 75,000 bu, and none at the seaboard. Export clearances for the week 1,862,000 bu, against 454,000 bu the week before and 816,000 bu a year ago. Buying of 600,000 bu of May by one of the leading elevator and Grain concerns overbalanced all else in the matter of influences, causing somewhat of a change in the sentiment. The reported taking of a round lot of Corn by the Japanese Government, which, it was claimed, was to be handled by the Northwestern Transportation Company, was a factor and attracted a great deal of attention. A cable from Rosario told of the rains there benefitting the growing Corn crop of that country, which is expected to be large. Weather cloudy West and growing colder cold wave coming down from Northwest. Liverpool ⅛@⅜d lower. Argentine shipments for the week exceed expectations, and are 2,914,000 bu, compared with 2,391,000 bu the preceding week and 1,260,000 bu a year ago. Cars here to-day 489, against 483 estimated. There are 3 cars contract, and 1,076 cars are expected here Tuesday. Argentine shipments from Jan. 1 to date, 98,416,000 bu, against 77,505,000 bu year before. Local receipts 564,600 bu, and 265,138 bu shipped. Car lots were in fair supply and market steady. No. 2 and No. 2 Yellow sold at 46⅝c, and closed at 46¼@46⅝ according to location. No. 3 sold at 43¼@43½, and closed at 43½c. No. 3 Yellow sold at 43¼@43½c, and closed at 43½c. No. 3 White sold at 43¼c. No. 4 sold at 42½@42¾c.

Corn by sample—Was in fair request and offerings liberal. Feeling steady and prices about unchanged. Sales on track and free on board: No Grade sold at 38@39c. No. 4 at 41@43¼c. No. 3 at 43¼@43¾c. No. 3 Yellow at 43¼@44c. No. 2 Yellow at 46⅝c. No. 3 White at 43½@43¾c. Ears at 45@46½c. Billed through: No Grade at 35@40½c. No. 4 at 37½@42½c. No. 3 at 41¾@43c. No. 3 Yellow at 41¾@43c. No. 3 White at 41¾@43c.

Future Deliveries of No. 2 Corn—Trade was better and the market somewhat stronger, owing to the character of the buying. The close was ¼@⅜c higher.

DECEMBER—Sold at 45⅞@46¼c Opened at 46c, sold to 45⅞c, to 46¼c, to 46⅛c, to 46¼c, to 46@46⅛c, closing at 46⅛c bid.

JANUARY—Sold at 43@43⅝c. Opened at 43⅛c and sold to 43c, to 43⅝c, to 43½c, to 43⅜c, to 43⅝c, to 43⅝c, closing at latter.

MAY—Sold at 45½@45⅝c Opened at 45⅝c to 45⅝@45¾c, sold to 45⅜c, to 45½@45⅝c, to 45⅝c, to 45⅝c, to 45⅞c, closing at 45½@45⅝c bid.

JULY—Sold at 45½@45⅝c to 46@46⅛c. Opened at 45⅝c to 45⅝@45¾c; sold to 45½@45⅝c, to 45⅞@46c, to 45⅞c, to 46@46⅛c, to 46c, closing at 45⅞c bid.

OATS—Were held firmly, with prices ⅛c higher at the close. Trading was moderate and a general evening up resulted. Arrivals were 86 cars, with 135 cars expected to-morrow. Withdrawals were 114,575 bu Standard. Seaboard clearances 9,000 bu. Car lots to go to store were steady to ⅛c higher. Standard in store closed about 29⅜c.

Oats by sample were taken fairly and prices showed steady to ¼c higher. Sales on track and free on board: No. 4 White at 28½@30¾c. No. 3 at 30¼c. No. 3 White at 30½@31½c. Standard at 31@31½c. No. 2 White at 32c. Billed through: No. 4 White at 30½c. No. 3 White at 30¾c. Standard at 31c. At the river: No. 4 White at 27½@29½c. No. 3 White at 28@29¾c. Standard at 30c. No. 2 at 29¼c. No. 2 White at 30½c.

Future Deliveries of Contract Oats—Were stronger and made small gains.

DECEMBER—Sold at 29¼c and 29¼@29⅜c. Opened at 29⅜c; closed at 29⅜c.

MAY—Sold at 31⅜@31⅝c. Opened at 31½c, sold to 31⅜c, to 31⅝c at close.

JULY—Sold at 31½c and at 31⅝@31¾c. Opened at 31½c, sold to 31⅝@31¾c; closed at 31⅝c.

RYE—Very dull—no market. Small receipts prevented trading in fresh arrivals and there was no demand for in store lots. Futures likewise neglected and entirely nominal. Apparently no interest in the market. There was one car received and seven cars withdrawn from private warehouse. No exports from New York. No. 2 in store nominally 73c and fresh arrivals free on board quotably about 77c.

Future Deliveries of No. 2 Rye—Entirely nominal at 73c for December and at 77c for May.

BARLEY—From the very small volume of the sales, trade on the market could be called nothing better than dull. Arrivals small and only a part of the receipts coming on the market. Some cars received were not offered owing to cloudy, dark weather being unfavorable for selling. Only a few of the customary buyers were present. The little business done was in the under grades. No high grade qualities were offered. Posted receipts 33 cars. Screenings were more quiet than of late, without change, and quotable at 25@36½c for poor to fancy. Feed Barley at 35@38c. Low-grade malting about 40c, with very dirty cars at 38@39c; fair to good at 41@44c, choice at 45@48c; very fancy in round lots possibly a shade over.

SEEDS—Business was extremely quiet. In most lines nothing was done. Nothing developed to disturb prices and in a general way they were unchanged.

Timothy—There was very quiet holiday kind of a market. There was a tone of steadiness present and former prices were obtainable. Spot or December delivery, contract Seed, nominal at $2 72½, January at $2 75, February about $2 80. March sold at $2 85 and that bid. April sold at $2 87½, a figure which lately has been bid and a shade over asked. Country lots quotable at $2 00@2 65 for low grade to fancy; extra fancy possibly up to $2 75; inferior lower; fair to good, $2 35@2 50, and rough, dirty or hulled, $2 15@2 25.

Flax—There was absolutely nothing done. The market was in no way disturbed from its late position, being nominal all around. Five cars or 4,500 bu were received; none taken out. Minneapolis got 62 cars and Duluth 67 cars. No. 1 Northwestern was salable at $1 23½, and No. 1 at $1 16. Rejected nominal, depending on quality, at $1 18@1 20. December salable at $1 16, and $1 23 was the nominal quotation for May.

Clover—Nothing new at all. The market was called nominally steady—just the same as of late. Contract spot Clover quotable at $12 75. March delivery about $13 00. Country lots, common to choice, quotable at $8 00@12 50; very poor lower, and fancy above. Fair to good, $10 50@12 00.

HOG PRODUCTS—A quiet feeling prevailed in the market for Hog Products incident to the holiday season, and the aggregate trading was moderate. Hogs were in fair supply, and prices lower. Receipts at the leading Western packing points were estimated at 73,600. Foreign markets were reported steady for Meats, with Backs 6d lower and Hams 6d higher, while Lard was easier at 3d decline. Domestic markets quiet. Receipts of Products were good -of Lard and Meats about 23 cars. Shipments were light—of Lard and Meats about 75 cars. Speculative market opened rather easy, with fair offerings and only a moderate demand. Prices ruled lower on all the leading articles. Toward the close the feeling was stronger, with "shorts" inclined to provide for outstanding contracts, and prices rallied sharply, and closed steady. Outside orders were light and local trading was not very large. Stocks on hand are gradually increasing. Shipping demand was light, and offerings were moderate. Sales were light, and prices without material change.

Mess Pork—Rather a light business was transacted in the market for Mess Pork, and the feeling was unsettled. Offerings were not very large, and the demand was moderately active. Prices declined 7½@10c, but toward the close rallied 10@12½c, and the market closed steady at about outside figures. Shipping demand light, and offerings were small. Cash lots quotable at $11 35@11 45 for regular, according to quantity, with repacked at 10@15c discount.

DECEMBER—Quiet and quotable at $11 35.

JANUARY—In light request, with moderate offerings. Sales were made at $12 45@12 57½. Opened at $12 52½, sold to $12 45, to $12 47½, to $12 45, to $12 57½, and closed steady.

MAY—Offerings were fair and the demand was rather active. Sales were made at $12 77½@12 87½. Opened at $12 85, sold to $12 77½, to $12 82½, to $12 80, to $12 87½, and closed steady.

Lard—Little interest was manifested in the Lard market, and the feeling was comparatively firm. Offerings were moderate, and there was a fair inquiry. Prices ruled 2½@5c lower early, but rallied 5@7½c, and the market closed steady. Foreign advices were rather unfavorable to holders. Very little demand on shipping account and offerings were moderate. Cash lots quiet and quotable at about 5c discount on January figures, closing at about $6 82½. Loose lots in moderate request, with light offerings. Prices were quotable at 50c discount on January figures. Leaf Lard was in light demand, with fair offerings. Prices quotably steady at $6 31¼. Neutral in light demand, with only fair offerings. Prices quotably steadier at $7 37½@7 50 for No 1 and $7 12½@7 25 for No. 2.

DECEMBER—Quiet and quotable at $6 82½.

JANUARY—In rather light request and offerings were small. Sales were made at $6 85@6 87½, and closed steady at the range.

MAY—Offerings were fair, and the demand was moderate. Sales were made at $7 07½@7 15. Opened at $7 10, sold to $7 07½, to $7 15, to $7 12½@7 15, and closed steady.

JULY—Quiet with small sales early at $7 17½.

Short Rib Sides—A fair business was reported in Short Rib Sides and the feeling was unsettled. Offerings were moderately free, and the demand was only fair. Market was easy early, with a little pressure to sell, and prices declined 2½@5c. Toward the close the feeling was stronger, and prices rallied 10@12½c, and the market closed rather steady. Supply steadily enlarging. Shipping demand was light and offerings were small. Cash lots quotable at $6 12½@6 37½ according to weight and age.

JANUARY—In rather light demand and offerings were fair. Sales were made at $6 35@6 47½. Opened at $6 40, sold to $6 35, to $6 47½, and closed steady.

MAY—Offerings were fairly liberal, and the demand was rather active. Sales were made at $6 65@6 75. Opened at $6 67½, sold to $6 65@6 67½, to $6 67½ to $6 65, to $6 72½@6 75, and closed steady.

JULY—Quiet, with small sales at $6 80@6 87½, and closed at $6 87½.

Other Meats—Sales were rather light, and the feeling steady. Domestic demand was limited, and orders from abroad comparatively light. Offerings of all kinds were not very large. Green Meats in light demand and prices were unchanged. Pickled Meats in limited demand, with fair offerings. Prices ruled steady. Dry Salted Meats in moderate request, with only fair offerings, and prices favored buyers. Smoked Meats called for moderately, and prices ruled steady. Closing prices were as follows:

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, THURSDAY EVENING, Dec. 22, 1904.

The local money market presents an easy tone despite the strong efforts of the banks to hold and maintain rates. Loans were made as low as 4 per cent on sharp call, but the greater part of the money put out was at 4½ to 5 per cent. It was only where the best of collateral was offered that inside rates were made. In the Northwest there is an easier tone and funds have accumulated of late. In New York the money market has an easy tone, the recent bank statement being favorable, but it would not be a surprise to see a flurry before the end of the year, as it generally comes. Bankers are not looking for any material change and are making loans on mercantile paper at 4 to 4½ per cent for maturities up to six months. The nominal rate on time loans on stock collaterals was 3½ to 4 per cent. On the Stock Exchange rates were 2½ to 3½ per cent.

New York exchange was firm at 10@25 per cent premium per $1,000 and offered at 30 per cent. Foreign exchange was firmer and shippers' sixty-day documentary sterling bills on London ranged at 483@483¼.

A large business was transacted with mercantile houses. All lines are fairly busy. Holiday goods were taken with increased freedom and a better quality bought. The tendency in favor of a higher grade of goods appears to be a feature each year. Prospects are for a good business in the heavier lines from now on. Dry goods are moving in liberal volume, many repeating orders are being received, showing that distributers who made purchases early in the season have had a satisfactory trade and are replenishing. Cottons are easier, although no lower, and there is a good jobbing sale. Woolens are held strongly in sympathy with the advance in Wool. A satisfactory condition prevails in the Iron and Steel trade. A large tonnage is constantly being placed. The feature is the buying of Steel rails by the largest railroads now that the price has been settled at $28 for 100. Had it been fixed earlier buyers would have demanded a reduction of $2 80 a ton. Now with prices on other articles up from the low point, present values do not appear out of line. Structural material, bars, plates and sheets are being bought liberally and for immediate delivery at 1.60 to $2 00 a ton premium is frequently paid and its prices were put up $1 00 per ton. From present indications consumers will have to go record production closely for the next few months and possibly for a long period. It looks as though the United States Steel Corporation will practically be the market of late for round lots of pig Iron will have to buy a great deal more, as its consuming capacity exceeds its output in this line. The market was strong at the advance in rails from the steadily held and are having a good sale. Coal is moving more freely, due to colder weather in the West. Locally trading in lumber is good and owing to continued activity in building, but there is a falling off in the outside demand. Dealers go into the winter with liberal stocks, but they are no larger than will be required for a good and early spring trade. A large business was transacted in fancy groceries, but on other lines there was quietness. Tanners are having an active trade. Their stocks are light and manufacturers are placing orders ahead, which is something unusual. Collections are good.

Cotton in New York suffered another decline on top of that in recent weeks. The total net loss is the past thirty days and sentiment is still "bearish." most of the operators being against the price. The decline is due to the confirmation of the big crop, the holding off of large consumers and to realizing by the "bull" interest that support at higher prices in anticipation of an active spot demand. The trade has been somewhat disappointing of a "bearish" report on the ginning returns December 23. Closing prices were at losses of 40 to 42 points for the week.

Local securities were active, a feature being the bidding of 60 for West Chicago Railway shares, or 9 points over the previous week's advance. This was thought openly by interests supposed to be active in controlling the Union Traction Company, and who have claimed heretofore to have all the stock they needed. The open advertising for stock at a fixed price, was a surprise to the market brought in fair selling. North Chicago was bid 90¼ points on a similar move, but it was not entirely held at the last. There is a contest for control of the Illinois Brick Company shares were depressed. In the American Can share the announcement was made that the Chicago Can Company had bought back a number of can supplies. This was taken as a help to the Can stock and they averaged higher. Elevated shares were easy with light trading. Box Board affairs are said to be in better shape, but there were no material changes in prices.

The New York Stock market was less interesting. The big operators in Wall Street are fighting among themselves over "inside" stock developments," but Wall Street in itself and the traders are less interested in the developments, as the announcement of a new dividend policy of late have not brought the results expected to the Street in general. There was an absence of the panicky feeling that has prevailed in previous weeks at the end of a year following the returns of trading. Money was easier, which accounted in a measure for the support given the market at various periods during the week. Prices probe-bathing became a feature, but the reactions from the prices were not extensive. Gold engagements of over $3,000,000 were made, but failed to act as a "bearish" influence. Steel shares were strengthened by the advance in prices of finished materials and by the liberal placing of orders for delivery next year. Railway shares were bought and advanced on reports of large earnings, heavy traffic, both present and prospective. Reading, comment is to get a semi-annual dividend of 1½ per cent by the directors at their meeting on the 28 years. The market at the last was upset by recommendation by the Bureau of Corporations regarding their regulations. Prices receded at the last and closed at nearly the lowest prices. Total sales on the New York Stock Exchange for the week were 3,111,000 shares, compared with 7,425,400 shares the previous week and 2,781,000 shares last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week were:

COMMERCIAL.

Business in commercial circles on the Chicago Board of Trade was only of moderate volume the past week. The close approach of the holidays naturally tended to limit speculative operations and the leading markets ruled rather tame and uninteresting the closing days. Receivers, however, were favored with fair consignments, especially of Corn, and the Bruns Grain Co. was credited with being the Shippers, too, were favored with a goodly number of orders, but business was restricted owing to the car situation. With the advent of the new year business is expected to revive in all branches.

Foreign crop news was quite favorable the past week and the outlook for the winter wheat crop is most satisfactory. Beneficial rains were reported in India, and the harvest in Argentina was said to be progressing rapidly. An increased Wheat area is reported in France and the condition is said to be good. Heavy rains fell in France but the crop is irregular in appearance. In Germany conditions are excellent, and a further improvement was reported in Russia. In Hungary, Roumania the crops look well, but want snow covering, and in Austria-Hungary conditions are satisfactory.

Crop conditions in this country were little changed the past week. The outlook for Winter Wheat was possibly slightly improved in certain sections in the West, but most complaints came from West and Southwest. The situation as a whole is hardly as satisfactory as customary at this season of the year. Climatic conditions were most favorable, however, for the winter wheat crop and the markings shows steady improvement. The excellent condition of the crop has caused holders to market freely, the movement being limited only to the carrying capacity of the railroads.

The movement of Grain was fair the past week. In the Northwest receipts of Wheat were surprisingly liberal, but in the Southwest and in other interior marketings were small. In the Southwest, however, there was a noticeable shrinkage in the receipts of Wheat at terminal points. Through shipments of Wheat were reported as moderate. Corn moved freely from all sections. Receipts at the principal points of accumulation were heavy and Shippers were in for a continued liberal movement as it is estimated that 250,000 bu to 15,000,000 bu was bought to come forward this month. The marketing of Oats was comparatively light. No material change in the Rye crop is was liberal and large quantities are expected to go forward next month. Scarcity of cars is causing shippers some anxiety. Exports of Flour and Wheat were fair, those of Corn and Oats were larger than for some time, a fair share of which was in the Gulf. Bookings of Wheat were light and most of the business according to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was an increase in Wheat, Corn, Rye and Barley, and a decrease in Oats.

Considering the close approach of the holidays, a comparatively fair amount of interest was manifested in the Grain markets on "Change the past week. Trading was in keeping with the jobbing and professional and fluctuations continued within moderate limits. The leading markets were somewhat unsettled with Wheat the leader in the speculative list. Early, conditions appeared in favor of the "long" interest and rather a strong tone was prevalent, but at the improvement in values there was free realizing and a decline was soon recorded. Values were governed to a considerable extent by the movement on this side and tone of foreign markets. Only a moderate trade was reported in Hog Products, and the feature of the markets was steadier. Offerings were comparatively light and the demand was only fair. Prices ruled steady to firm the early part of the week, but the feeling was stronger later, with a fair rally in prices, and the markets closed steady. Bulk of the business was in May contracts. Outside speculation was light and will probably be small until after the holidays. Packing of the West for the week was reported at 790,000 Hogs, compared with 685,000 for the corresponding week in 1903. Aggregate returns for the season to date is 645,000 Hogs in excess of last winter season to present date.

An excellent trade was reported in the market for cash Corn the past week, the business in the other cereals being only moderate. Receipts of Corn were liberal and the offerings sold readily, the price holding up moderately well. Some shilling demand existed for Wheat, mostly on outside account. Local trade light. Oats were in moderate request and the offerings light. Rye was quiet. Barley was inclined to dullness, the demand being tame. Only a small business was reported in Seeds and there was no special change to note in values. Hay was dull with demand light. Offerings large. Shipping demand for Hog Products was light and offerings were moderate. Sales limited and no marked change to note in prices. Cattle were marketed in fair numbers and prices ruled steady to firm. Sheep were stronger for all descriptions.

FREIGHTS—The car situation East and West of Chicago is becoming acute, the scarcity retarding the movement of Corn. Tariff is as follows:

To—	From Chicago.	From Miss. River.	Domestic.	Export.
Boston	15c	12c	25	17½
New York.....	13½	10	23	17½
Philadelphia	18	14	21	16½

Newport News..17		13½	20	15

Flour rates are 20c domestic and 16½c for export. Provisions are 30c per 100 lbs. Chicago to New York.

Ocean rates are advancing and the lines have their available room for January well booked. Rates are 14d to 14d per 8 bu from Chicago to York and 14d to 20d from Boston. Through rate on Wheat from Chicago to Liverpool is 14.15@14.40c per bu and Corn 10.51@10.66c. Flour 21.40c per 100 lbs and provisions 35c per 100 lbs.

FLOUR—There is nothing particularly new to note under this head. The situation from the general standpoint remains about the same as a week ago. Winter Wheat Flours in some instances were marked up 10c. The demand, however, was not improved and market as a whole ruled dull. Jobbers and bakers bought sparingly of Flour will probably hold off using until after the advent of the new year. Shipping orders from the outside were rather more numerous the past week. The sales consisted largely of purchases, but the demand from points in Ohio, Indiana and Illinois was very moderate. A few small lots were taken by Eastern millers in the two principal Winter Wheat storage tanks to run them until the Spring Wheat movement is established. The talk about good milling demand is all rot." The week closed steady the following prices:

MILLSTUFFS—Ruled rather steady during the past week and no important changes were made. Demand moderate and offerings moderate. Bran in bulk sold at $17 and in sacks at $18. Sacked included, at $17.25@17.50. Shorts in 100 lb sacks sold at $17.25.

WINTER WHEAT—There has been only a small business transacted in Winter Wheat during the past week, and no change of consequence was made in prices. A rather steady feeling existed, and the market reacted in sympathy with the speculative market. The demand has been of an indifferent character, buyers not at all anxious to purchase. Millers did a little buying, but it was in a quiet sort of a way for nearby wants and in quantities as they needed for their immediate requirements, and were not the least inclined to stock up. Besides the local demand, occasional sales of cash lots were reported to shippers, but including the various grades, were sold. The receipts have been small—next to nothing—and practically nothing arriving. The prices for which most of the week have been little better than nominal. The stock of No. 2 Red in store was 276,000 bu, and a year ago was 418,000 bu. For the week receipts were 19 cars, as against 24 cars last week. There were withdrawn from public elevators 16,000 bu, and from private warehouses 97 cars were taken. No. 2 Red in store was quotable at 98c over May, depending on quality—but outside price for special bin lots, and ranged at 81 @82½ cents, and fresh receipts free on board at 82@82½c. No. 3 Red in store there were quotable at 81@82½ 14, with sales at 81½@1 14, and sold at 81@83. No. 2 Hard fresh receipts free on board were quotable at 81@82½ 14. No. 3 Hard fresh arrivals free on board were quotable at 80@ 82 1⅛, with sales at 81@82 10 and a very choice car sold at 81 14.

SPRING WHEAT—The market was very quiet all the past week, with no material change to note in prices. The little trading reported, was confined to the few cars of fresh arrivals, and comprised No. 1 Spring and generally ordinary and poor No. 4. So little business done that it is difficult to result to establish a market and quotations have been almost nominal, particularly so for the higher grades. Receipts were large, consisted mostly, and only a part of the arrivals came on the market, the balance evidently going to elevators direct on purchase to arrive. Choice Wheat would sell, there was a demand for it, but offers were few and scarcely enough to furnish cars. Many shippers appeared more anxious about contracts already booked rather than for new business. Bookings were light, although a fair business reported in some weeks. The movement through the West was liberal, more than double that of a year ago at this time, and the quality of the Corn generally excellent. Cash demand from Argentina was favorable and a large yield indicated. The Liverpool market was easy and stocks there decreased 108,000 bu, leaving the same at 7,000,000 bu. Stocks afloat compared with 1,037,000 bu on the corresponding date in 1903. The sail for car lots was quite brisk all the week, the current receipts selling well at satisfactory prices, but the demand was somewhat depending on quality, as will be noted in the table on the opposite page.

RYE—Prices averaged slightly higher. Trading was only fair, but offerings were very light. There appears to have been a turn for the better in this market after a long course of decline in values. Since the decline local cash demand has been moderate reduction from the high point. Supplies in the visible and in the country, however, are still large and there is no especial inducement at the moment for speculators to take up or buying side with any vim. "Shorts" are covering moderately, and find offerings comparatively light. Cash Rye sold from 2c to 3c under May, cash interests being apparently the only ones to do liveries on December contracts were made each day and was scattered among the trade. Cancellation of receipts of Standard Oats in the past two weeks aggregate about 2,000,000 bu to be shipped East. Cash business was fair and prices in the sample market were advanced. Export clearances for the week were 12,000 bu, against 36,735 bu the previous week and 133,300 bu last year. Contract stocks were 3,570,616 bu, a decrease of 32,884 bu during the week. Local stocks decreased 27,000 bu. Stocks in all positions decreased 627,000 bu, against 1,537,000 bu last year. Minneapolis and Duluth increased 1,441,000 bu to 15,978,000 bu.

BARLEY—Another very dull week was past in this market and prices did not undergo any special changes. Interest was lacking and cash trading was confined to the few cars of fresh arrivals. There was a little inquiry for the car lots from millers and distillers, and this created a steady feeling for the latter, but nothing was done in round lots. No one next to no inquiry for futures. There were offerings of both December and May, but no one seemed disposed to take hold of them. The receipts for the week aggregated 22 cars, against 25 cars previous week. There were withdrawn from public elevators 12,000 bu and from private warehouses 9 cars and 3 cars left. The visible decreased 172,000 bu, and was reported at 2,165,000 bu, against 1,306,000 bu a year ago. Local stock in store was 293,000 bu, and a year ago was 379,000 bu. No. 2 in store was nominally 73@74c and fresh arrivals free on board sold at 72@75½c. No. 3 fresh receipts sold at 70@71c, with a very poor car at 68c. Future deliveries of No. 2 Rye were nominal. Closed nominally 73@74c. May was at one time 77c bid and 78c asked, then again 76c bid and 78c asked, and closed nominally about 77c.

BARLEY—The market got into its annual state of dullness, characteristic of the last of the year holidays. Arrivals were somewhat smaller, and offerings were only moderate, at the same time supply was liberal, which with the light demand improved sufficient to clean up the market. There was this about it, however, buyers became indifferent and and their ideas of values and to consequence there was no inquiry from millers or others. Very little business was done in to arrive lots; buyers and sellers could not get together. A feature of the week was the large increase in the visible supply, which amounted to 1,000,000 bu. The gain was greatest in the Buffalo in store and afloat stock, shipments lately made, probably from different points than those which made the gain at point. The visible was given as 7,116,000 against 5,944,000 bu a year ago. Local stock did not change much. It increased 1,000 bu, to 1,733 bu; last year it was 1,000,000 bu. Receipts expected in during the week 278 cars, compared with 340 cars a week and 312 cars two weeks ago. No output reported. Exports from New York sang up the week's end, being 40,453 bu, while before they were 99,04! bu and two weeks ago 289,32c bu. The general range of prices was not materially different than the preceding week. For Screenings there was a quotable range of 40@42c, with no fancy. Feed Barley was very quiet at 37@38c. Low grade malting at 40c, with very dirty cars 1 2c below; fair to good at 41@44c, choice at 45@46c. Fancy would bring possibly 47c, but none offered.

SEEDS—Nothing at all important transpired in this market. Of all lines the arrivals and offerings were on a small scale. Order demand also was very poor. The market from first to last presented a holiday aspect. In the market for the different kinds of Grass Seeds no price changes occurred. It was noticed that any variations in prices appeared and in this market was the result of a decline, a reaction from the advance of the last week.

Timothy—The market ruled very quiet. Cash offerings were smaller than a week ago, they were, at the same time, ample for the demand. Trade requirements were very small, orders being light. Cash demand was not prompted much by the advent of March delivery. This demand was steady at the previous quotation. Less was done in it for the offerings were small. Values generally were without change. Trade was interrupted by the holidays, no doubt, tended to make the market quiet. It has that influence on all lines but strictly holiday goods. During the week ten cars of contract for March delivery sold at the opening and passed as such. This is a smaller amount than of recent weeks has come out. The contract grade, spot or December delivery had a steady quotation of $2 85@2 87½, with sales at $2 85. For May very fair to good ranged at $2 35@2 45 and high-grade country lots at $2 50@2 55. Rough Seed was about $1 50@1 75.

Clover—Values ruled steady to firm the past week against none a week ago. On the regular market, however, no particular increase in offerings appeared. Small unimportant lots was all that was noticed. Demand fairly good for salable, unsatisfactory to anxiety. Steadiness prevailed. Values were, for the most part, nominal and unchanged from the quotations of a week ago. There was but a small output. Order was mostly of a very tame order. It is customary for it to be quiet just before the holidays, particularly when prices are as high as they have been lately. No speculative interest in the market. Movement for the week, with comparisons, was as follows:

During the week spot contract grade was quoted at $12 75. Choice quotable at $13 00@13 25, fancy lots, common to choice, quotable at $8 00@11 50 very poor lower, and fancy above. Fair to good, $10 50@12 00.

Timothy Seeds—There were no new developments. No changes were made in the quotations for Hungarian and the different kinds of Millet. Both arrivals and output were fair. There were no offerings. Trade was not engaged in to any extent of values. Prices quoted are in the table elsewhere given.

Flax—The advance in prices noted at the close of last week was lost the first day of the week following on opening to inside prices What occurred here was shaped mainly after events in the Northwest, where the nearer prices slumped. There was little business done here. Some Argentine delivery was sold, but sales were not important at all. Arrivals were very small. A little more Flax arrived in Minneapolis and Duluth and the same has been mainly taken out. There was about 475,000 bu increase in Northwestern stocks last week. Local regular stock was given as 3,781 bu, a decrease of 12,837 bu a year ago this stock was 74,41 bu. Duluth increased 330,962 bu, reporting 5,01?,?81 bu. Minneapolis with 95,953 bu increase had 1,49?,590 bu. No. 1 Northwestern cash quoted from $1 26 to $1 23½, and No 1 in a nominal way from $1 18 to $1 16. Rejected nominally 3c under the price of the grade above. December delivery without trading ranged $1 18 to $1 16. There was a

small business in May delivery, the price of which broke from $1 26 to $1 23.

Buckwheat—Ruled quiet. Demand was said to be tame. There was no reaction from the recent decline, but the market remained easy at $1 10 for good milling, with poor quality lower.

HAY—The receipts for the week were 4,670 tons, against 6,880 tons for the previous week. Shipments for the week were 129 tons, against 158 tons for the previous week. A dull and dragging market was experienced throughout the week for both Timothy and Prairie Hay. The offerings were large and the demand was light from all sources. Local buyers were taking hold sparingly, merely supplying necessary wants, and there was no shipping inquiry. The feeling was weak and prices declined 50c@$1 00 per ton. Quotations at the close ranged as follows: Choice Timothy, $11 00@11 50; No. 1 Timothy, $10 50@11 00; No. 2 Timothy, $9 00@9 50; No. 3 Timothy, $8 00@9 00; Choice Prairie, $9 50@10 00; No. 1 Prairie, $9 00@9 50; No. 2 Prairie, $7 50@8 00; No. 3 Prairie, $6 00@7 00; No. 4 Prairie, $6 00@6 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $8 00@12 00 for fair to choice Timothy, with very fancy $13 00, $5 50 for State, and $6 50@10 00 for Dakota, Iowa and Kansas Prairie Hay. Rye Straw sold at $9 00@9 50, and Oat Straw at $6 50@7 00.

COOPERAGE—There was a fairly good demand for Cooperage during the past week, and the market was rather easy. Local packers purchased fair quantities, and outside orders were moderate. Offerings of all kinds were fairly large, with holders easier in their views. Lard Tierces in rather better request than Pork Barrels. A fair inquiry prevailed for ash Pork Barrels, and prices ruled steady at $1 12½@1 15. Oak Pork Barrels were in moderate request, and prices ruled easier at $1 15@1 17½. Lard Tierces were in good demand, especially on local account, and offerings were fair. Prices ranged at $1 37½@1 45, and closed steady at $1 37½@1 40. Iron bound Lard Tierces were quiet and rather slow sale at $1 17½@1 20 for six hoop, and $1 25@1 27½ for eight hoop. Oleo Tierces were quiet and steady at $1 25@1 27½.

HOGS—The receipts of Hogs were quite liberal—rather larger than generally anticipated. The quality was rather good early in the week, but was not quite so good toward the close. Market was active during the greater portion of the week. Packers purchased with considerable freedom. Shippers provided for moderate orders, as the demand from the Eastern markets was comparatively light. The feeling was rather firm early in the week, and prices were advanced 5@10c. Toward the close, an easier feeling was manifested, and prices receded again, and the market closed rather steady. Sales during the week were made at $4 15@4 60 for light, $4 30@4 50 for rough packing, $4 30@4 70 for mixed, and $4 45@4 72½ for heavy packing and shipping lots, with the bulk of the sales at $4 35@4 65 for fair to good averages. At the close about 13,000 Hogs remained in the pens unsold. Pigs were in fair supply with rather a good demand and changed hands at $3 75@4 35, according to size and condition. The supply of Hogs at other large Western packing points was quite liberal and the quality rather good.

PACKING—Considerable activity in packing circles during the past week, and the manufacture of Products was fairly liberal. Packers purchased Hogs rather freely. Manufacture of Mess Pork gradually enlarging. Other cuts of Pork made in fair quantities. Lard produced rather freely, and the yield was quite good. Nearly all the Lard was placed in tierces. Domestic cuts of Hams made rather freely, and only a small proportion sold from the block. Skinned Hams made with considerable freedom, and the bulk cured by manufacturers. Foreign cuts of Hams made in very small quantities. Shoulders made moderately, and a fair proportion delivered from the block to the retail trade. Picnic Hams cut in fairly liberal quantities, and only a small proportion delivered from the block. Long Clear Sides made sparingly. Extra Long Clear Sides neglected. Short Clear Sides made in moderate quantities to provide for future contracts. Extra Short Clear Sides cut rather freely. Short Rib Sides made in rather liberal quantities. Extra Short Rib Sides cut in fair quantities. Rough Sides made quite freely, with the preference given to light and medium averages. Backs cut in moderate quantities and met with a little more favor. Bellies made in fair quantities. Loins cut rather freely to meet current wants. Foreign fancy and special cuts of Meats made in limited quantities.

PROVISIONS—Speculative trading in Hog Products was only on a moderate scale during the week just closed. Outside orders were comparatively small, and will probably remain so until after the holidays, while local trading was only fair and in conservative quantities. The general surroundings of the trade were rather favorable to a comparatively steady market, but there appears to be a hesitancy on the part of buyers except where slight profits could be realized, while the selling was pronounced except on behalf of parties who have the property or the facilities for producing it. It was evident that interior packers regarded the speculative market the best place to dispose of such articles that may have on hand or may produce, and a fair proportion of the selling was credited to that interest. Hogs were in liberal supply at Chicago and the other larger Western packing points, and the returns of the packing of the West for the week exhibited an increase of 65,000 Hogs, compared with the returns for the corresponding week in 1903. Prices of Hogs were slightly higher on the whole range, and packers appeared to be willing to accept them quite readily at the current figures. Stocks of Products are gradually increasing—the speculative articles keeping place with other descriptions. Foreign markets were quiet and prices of Meats inclined in favor of buyers, while Lard was steadier and prices were advanced slightly. Domestic markets were inclined to quietness as is usual at the holiday season of the year. Receipts from the interior continue quite liberal, confirming the position, of the packers in disposing of their Product here. About 210 car loads were reported. Shipments were fairly liberal, and widely distributed. Exports for the week were rather good of Pork and Meats, and smaller of Lard, compared with the returns one year ago. Early in the week the undertone to the market was comparatively easy, with fair miscellaneous offerings, while the market lacked general support. Prices declined moderately on all the leading articles, as prices of Hogs failed to decline, as anticipated, and the Grain markets exhibited a little more strength, the demand improved slightly, and prices advanced moderately. Toward the close, the feeling was not so firm, and prices receded to medium figures, and the market closed rather steady. Trading in January delivery is gradually decreasing as delivery day approaches, and the bulk of the business was in May, with scattering trades in July. In the shipping branch of the trade there was only a moderate business transacted. Buyers for the domestic trade accepted only moderate quantities, and exporters provided for a few orders. Offerings were not very large, and sellers rather slow to grant concessions. Sales in the aggregate were comparatively light, and prices of some descriptions inclined in favor of buyers.

Pork—The market for Mess Pork was only moderately active during the past week, and the bulk of the business was credited to local operators. Offerings were not very free, and the demand was only fair and generally for conservative quantities. Bulk of the business was in May delivery. A slight business reported in transferring contracts ahead. Stocks are gradually enlarging, and the manufacture in increasing. Early in the week, the feeling was rather easy, and there was a little inclination to sell, while there was no particular support to the market. Prices declined 7½@10c on the whole range. At the decline the demand improved slightly, and prices rallied 12½@15c. Some realizing at the advance developed a weaker feeling, and prices receded again 7½@10c, but toward the close rallied 2½@5c, and the market closed rather steady. Demand on shipping account was moderate, and there was no particular pressure to sell. Cash lots at the close were quotable at $11 35@11 45 for regular according to quantity, with repacked at 10@15c discount. Other cuts of Pork were in moderate request, with fair offerings, and there was no particular change to note in prices.

Lard—Trade in Lard was on a moderate scale during the past week, and the market was steadier in a general way. Offerings were not very free, and the demand was only fair. Supply gradually increasing. Manufacture fair, and receipts from the interior were larger. Foreign advices a little more favorable to holders. Trading as a rule not in very large quantities, and the bulk of the business was in May contracts. Early in the week, the feeling was rather easy, and prices ruled 2½@5c lower. At the reduction, there was a fair inquiry, partially from "shorts," while there was less pressure to sell, and a firmer feeling was established. Prices rallied 5@7½c, and the appreciation was fairly well supported to the close. Demand on shipping account was limited, and offerings were small. A few lots were accepted by exporters. Prices generally ranged at about 5c discount on January figures. Refined was in light request for export, but prices were not made public. Loose lots were in only fair request, and the offerings were fair. Prices were quotably steady at about 50c discount on January figures. Leaf Lard in moderate demand, and offerings were fair. Moderate trades were made at $6 31¼@6 37½, and closed at $6 31¼. Neutral was called for sparingly, and there was a little pressure to sell. Feeling was rather easy and prices were lower, closing at $7 25@7 37½ for No. 1 and $7 00@7 12½ for No. 2.

Short Rib Sides—A larger trade proportionately than in other speculative descriptions of Hog Products was reported in Short Rib Sides during the past week. Outside orders were rather light, and local trading was fair. January delivery met with some favor, but May was the principal month traded in. Scattering trades were made in July contracts. Interior packers favored the selling side of the market. Supplies are gradually enlarging, and manufacture fair. Early in the week, the feeling was rather easy, with considerable realizing, and prices declined 5@7½c. At the reduction, the demand improved, and prices again rallied 5@7½c. The advance brought sellers into the market again, and prices again receded 5@7½c, but toward the close settled back 2½@5c, and the market closed rather steady. Demand on shipping account was moderate, and offerings were rather light. Light and medium averages still scarce, except of partly cured. Prices were unchanged. Cash lots at the close were quotable at $6 25@6 37½, according to weight and age.

Green Meats—Only a moderate business was reported in Green Meats during the past week. Offerings were not very large, and the demand was somewhat limited. Holders rather firm in their views, and buyers were backward. Local curers were not inclined to purchase, and orders from outside parties were small and for limited quantities. Hams were in rather light demand and prices ruled easy and about ⅛c lower. Skinned Hams were in moderate request and prices ruled comparatively steady. Sales limited for future delivery. Shoulders were called for sparingly, and prices favored buyers. Picnic Hams were called for moderately, and prices ruled steady, especially for the light averages. Bellies were called for sparingly, and offerings were moderate. Prices ruled rather firm.

Pickled Meats—Trade in Pickled Meats was comparatively light during the week just closed. Offerings were fair in a quiet way, but chiefly for present delivery, while the demand from all sources was moderate. Some little inquiry for future delivery, but buyers and sellers were apart in views. Feeling was rather easy, but no marked decline in prices was established. Supplies of all kinds are fairly liberal. Foreign markets were dull and dragging, and prices ruled lower. Orders from that quarter were small, and for limited quantities. Merchants in the domestic trade not inclined to purchase to any extent at present. Hams were in moderate demand in a quiet way, and prices without material change. Skinned Hams were called for moderately, and prices were unchanged. Only limited quantities sold for future delivery. Shoulders were in limited request and prices unchanged. Picnic Hams were called for in fair quantities, and mainly for light averages, and prices ruled steady. Bellies were in fair request at about former figures.

Dry Salted Meats—Only a limited business was transacted in the market for Dry Salted Meats during the past week. Offerings were moderate, with a good proportion of partly cured, while the demand was somewhat limited. Exporters accepted a few small lots, but the advices from that quarter were decidedly unfavorable to holders—lower prices being quoted for most descriptions, with fair supplies on hand. Domestic markets were quiet and rather slow, as the colder weather and this season of the year generally increases the consumption of Fresh Meats and Poultry. Supplies of all kinds are gradually increasing. Manufacture fairly liberal. Foreign cuts of Hams were in small request, and prices were unchanged. Shoulders were in light request, and steady. Long Clear Sides were rather quiet, and prices comparatively steady. Extra Long Clear Sides inactive and prices nominal. Short Clear Sides were in fair export demand in a quiet way, and prices ruled steady. Extra Short Clear Sides were in moderate demand, with limited offerings, and prices were quotably lower—closing at $6 30@6 35. Extra Short Rib Sides were in rather light request, and prices were lower—closing at $6 25@6 30. Rough Sides were called for in moderate quantities, and offerings were fair. Prices ruled rather easy at $6 12½@6 37½ according to weight and age. Plates were in limited request, and prices ruled steady. Butts were quiet and prices favored buyers. Backs were in limited request and prices were slightly lower. Foreign fancy and special cuts of Meats were quiet and slow at former prices.

Smoked Meats—The trade in Smoked Meats during the past week was moderate, owing to the seasonable weather, and the feeling was steady. Offerings were moderate, while orders were for limited quantities. Stocks were reported fair. Hams in light request and prices were unchanged. Skinned Hams were in moderate request and prices ruled steady. Shoulders were in light demand and prices ruled rather steady. Picnic Hams were in small request and prices favored buyers. Sides of all kinds were called for moderately, and prices were without material change. Breakfast Bacon in fair request and prices were unchanged.

Beef Products—The past week was quiet in the market for Beef Products and feeling was slightly firmer for most descriptions. Offerings were fair and the demand only moderate. Cattle were in fair supply and prices lower for common grades, while the better grades held up fairly well. Foreign markets were steady and domestic markets quiet. Shipments of Dressed Beef rather liberal. Manufacture of Products was moderate and supplies on hand are fair. Beef Hams were called for moderately and prices ruled about 25c higher. Extra Mess Beef quiet and steady at 25@50c advance. Plate Beef in rather light demand and prices ruled steady. Extra Plate Beef in moderate request and prices were slightly higher. Tallow was inclined to quietness, but was firmly held, and prices were unchanged. Oleo-Stearine was rather quiet and steady at 6¼@6½c.

Greases—Only a moderate business was reported in Greases during the past week, and prices were without particular change. Offerings were moderate, and the demand was only fair.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Dec. 22.]

There is a continuance of liberal numbers of Hogs in the market channels. Total Western packing 720,000 Hogs, compared with 710,000 the preceding week and 765,000 two weeks ago. For corresponding time last year the number was 565,000, and two years ago 560,000. From Nov. 1 the total is 4,440,000, against 3,795,000 a year ago—an increase of 645,000. The quality of Hogs being marketed is generally good. Prices have been fairly steady, the week gaining slightly. Prominent markets at the close indicate an average of about $4 50 per 100 lbs compared with $4 45 a week ago, $4 40 two weeks ago, $4 50 a year ago, $6 25 two years ago, and $6 05 three years ago. In various localities the current correspondence indicates something of hastening of Hogs forward because it is regarded unprofitable to feed them into fuller weight at current values of Hogs and feeding material. There are indications, however, of good numbers of young stock. Quite likely there may be some lessening in current offerings in the near future, with perhaps enlarging numbers somewhat later.

The speculative Provision market has ruled comparatively quiet the past week, and the fluctuations have been confined within narrow ranges. Compared with a week ago prices for leading articles at Chicago are without material change with the exception of Mess Pork, which is slightly higher. Foreign markets were dull, with an easy tone, while domestic markets ruled quiet and without material changes. There was only a moderate business reported in all of the departments of the Provision trade. The export clearances of Product were fair, showing an increase over the preceding week and a slight decrease as compared with the corresponding week last year. It may be observed that Lard exports since the first of November have been very considerably decreased. The supplies afloat and in Europe on November 1 were 45,000 tierces in excess of last year, and on December 1 were 52,000 tierces in excess in such comparison. This difference will likely be much reduced in the exhibits for January 1, under the reduced movement in that direction.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	764,000	491,000
Bacon, pounds	11,386,000	8,708,000
Total, Meats	12 150,000	9,200,000
Lard, pounds	9,369,000	14,522,000
Total, Product	21,519,000	23,724,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since November 1, at undermentioned places compared with last year, as follows:

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Dec. 22.]

There are very few changes in conditions surrounding agricultural interests in the developments of the past week. There is a very general covering of snow in the Winter Wheat regions from Pennsylvania to Kansas. This serves as a protection to the plant from hard freezings, and contributes something of moisture, which is universally needed in all these sections. There is yet room for the view that the retarded progress of the Wheat plant may not result in serious interference with favorable development later in the season. But so long as there is so much margin for conjecture there will naturally be a good share of apprehension and of misgivings among those who are observers of such conditions, especially if they be interested either as growers or as traders on the market changes. The latter class is to be expected to make all capital possible out of uncertainties and in the application of any shade of unfavorableness. But Old Nature often has a way of bringing about results which are more satisfactory than has been pictured by the market artists.

Corn has been moving rather freely into market channels in many sections, conditions of weather, of roads and of demand encouraging the same, as well as prices, although there is much to indicate a widely prevailing sentiment in the interior that Corn prices are likely to be higher later. It is evident that with a receding turn in current prices the offerings of Corn from farmers are quickly lessened. And the farmer in these days of mail deliveries and telephones is constantly informed as to market conditions and doings. The prevailing price for Corn in Indiana and Illinois at shipping points is 40c per bu. with some instances of a lower range, while in Ohio it is higher and in Iowa lower.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 10 to 32 below zero; clear. Northwest Temperatures, 28 above to 24 below; partly cloudy. West—Temperatures, 12 to 54 above; cloudy. Southwest—Temperatures, 28 to to 60 above; cloudy. Ohio Valley Temperatures, 44 to 52; cloudy; light scattered rains.

Indications are for much colder weather in Middle States. Local snow flurries will occur in Upper Lake region and some snow also probable from Missouri Valley westward.

ITEMS OF GENERAL INTEREST.

Fire in the Implement store of D M. Wattins, Logansport, Ind., Tuesday, damaged the building and stock to the extent of $75,000.

The securities of the Kansas City Railway and Light Company have been admitted to the unlisted department of the Chicago Stock Exchange. They were formerly traded in on the free list.

The Detroit United Railway Company has declared the regular quarterly dividend of 1 per cent, payable Feb. 1. Stockholders of the company will hold their annual meeting on Feb. 7 for the purpose of paying the dividend. Books will close from Jan. 12 until Feb. 8.

At a meeting of directors of the Vulcan Detinning Company a dividend of 1¾ per cent was declared on the preferred stock. The dividend is payable Jan. 20. Books close Jan. 10 and reopen Jan. 21. Dividend payments on the preferred stock were suspended in November, 1903, this being the first payment since that time. The belief is expressed that the dividends will be continued at this rate.

A Duluth dispatch says: "The papers are all signed and the money is all available in New York for the construction of the immense power canal of the Great Northern Power Company here. Bankers of New York, Boston and Philadelphia will finance the deal, and the original bond issue provides $3,600,000. The work begins this winter, and 500 men will be at it in thirty days. The initial power plans call for 20,000 horse power, to be followed later by several times as much."

An extensive owner of the stock of the National Carbon Company, who returned recently from Cleveland, is quoted as saying that the earnings of the past year and the amount of business booked ahead fully justify the disbursement ordered on the common stock. He said that while the dividend was not made regular, there is every reason for believing that another of a similar amount will be declared in June and that the directors hope then to be able to announce it as a regular payment.

It is possible that Missouri Pacific will show for the fiscal year ending Dec. 31, 1904, a share surplus nearly as large as in 1903. The surplus in 1903 was equal to 9.7 per cent on the stock. During the first part of the present year net earnings showed heavy losses, which, together with the increase in fixed charges, resulted in a loss in surplus equivalent to about 3 per cent on the stock. In later months the showing has been much improved. Fixed charges will be increased this year by about $500,000, due to the issue of $20,000,000 4 per cent bonds during 1903 and 1904.

The International Trust Company of Baltimore has sold to New York men 6,000 shares of the common stock of the Alabama Consolidated Coal and Iron Company. The price paid is said to have been $225,000, and, with this acquisition, New York interests are understood to have secured control of the property. The names of the purchasers have not been divulged, but it is said they are closely identified with the largest Iron interests of the South. It is believed in some quarters that this purchase is part of a comprehensive plan for the consolidation of all the Southern Iron and Coal companies.

"While quality of Steers is poor," says the Chicago *Drovers' Journal*, "there is not the urgency in demand for the choice cuts of Meats. Packers, having supplied the Christmas trade from purchases made earlier this month, now show more respect for the medium grades, while common classes are also selling more advantageously, though general inquiry is still handicapped by the increased consumption of Poultry, and the smaller runs here this week have proved quite sufficient for buyers' needs, while traders say prospects do not favor a very material increase in demand in the next week or two."

Charles W. Morse, the organizer and promoter of the American Ice Company, is again in control of that company, and is back of the plan to scale the capitalization and place it upon a stronger financial footing. Mr. Morse's interest is said to be largely in the preferred stock. The plan is to exchange the preferred stock share for share, but holders of the common stock will receive but one share of new common for each five. This will reduce the capitalization, and will place the control of the property in the hands of the preferred stockholders. The plan as now proposed is said to meet with the approval of the holders of a majority of the stock.

From the beginning of the year to Monday night sales of bonds on the New York Stock Exchange were $978,863,500, compared with $666,157,500 in the corresponding period last year. The fact is interesting as denoting in a way the state of the investment market, although speculative bond issues cut a large figure in this year's sales, nor should it be forgotten that the best test of the state of the investment demand is afforded by the business over the counter. Of that, however, bond houses have had no complaint to make, and the way in which new issues are being advertised for sale and offered by bankers indicates a very healthy appetite on the part of the public.

The Pressed Steel Car Company of Pittsburg has finally beaten the United States Steel Corporation in securing a Canadian subsidiary to take care of the Dominion trade. It holds the paramount interest in the Canada Car Company of Montreal, recently organized, of which W. P. Coleman, former vice president of the American Car and Foundry, is president. By next August the new concern will have a going plant, and the Pressed Steel Car Company will have a Canadian ally able to take care of Dominion business. For over two years the Steel Corporation has been planning a similar step, but has not finally closed up any of the various plans submitted for maintaining its hold on the Canadian trade.

The president of the American Iron and Steel Association is optimistic as to the future of Iron and Steel. He says: "The abnormal depression which existed during most of this year was largely due to a feeling of distrust in the ability of the country to consume the product of the furnaces and mills. That distrust arose mainly from doubt whether the various needs of the country for all sorts of constructions requiring Iron and Steel could be financed, which doubt has disappeared, not, of course, in relation to the speculative and intrinsically unsound things, but in regard to those things which are really needed and can pay their way. I think that, unless prevented by the scarcity of coke and ore and unreasonable demands for higher wages, the production of pig Iron in 1905 in this country is likely to be the largest ever turned out."

The Supreme Court of the United States has reversed and remanded to the Supreme Court of Illinois the case of Crawford & Valentine vs. John E. Burke. This was an action in trover, instituted in 1897 in the Circuit Court of Cook County, by Burke, against Crawford & Valentine, for damages. He alleged fraudulent conversion of 550 shares of Metropolitan Traction stock. Crawford & Valentine were stock brokers, employed by the plaintiff, and held the shares as security for the amount due them on the stock. It was also alleged that after selling the stock and converting the proceeds to their own use they demanded margins, and obtained the aggregate sum of $10,800. Suit was brought in January, 1900, and a jury trial waived in May, 1900. The case rested without action until January, 1901, when the defendants set up the fact that they had been discharged in bankruptcy in April, 1900. The plaintiff maintained his claim was excepted from operation of bankruptcy. The defendants were found guilty in the Circuit Court. The verdict was affirmed in the Appellate Court, and in the Supreme Court of Illinois. The opinion of the United States Supreme Court cites section 17 of the bankruptcy act of 1898, releasing bankrupts from all provable debts except judgments in actions for fraud.

TO COUNTRY SHIPPERS.

If you do not receive your account sales as promptly as usual do not blame the commission merchant. Account sales are all made out and are being mailed by merchants still; they save to all the express charges. The Express Companies are two to three days behind time making their collections, and consequently remittances from what the charges are they cannot very well send out their account sales. Therefore, it is asked of country shippers to be patient for a day or two.

TRADE NEWS ITEMS.

No market report will be issued from this office Monday.

The banks will be closed Monday; there will be nothing doing at the freight houses. Monday will be a holiday, given over to the celebration of Christmas and business in the produce markets will also have to be practically suspended.

Naturally at this period of the year every one does, as should be the case, wears an air of feeling of good will is bounding out from every, heart, and while commission merchants are singing a Merry Christmas to their correspondents and shippers, the publishers of the DAILY TRADE BULLETIN enter heartily into swelling the chorus.

The past week developed a somewhat stronger feeling in the Butter market and prices were advanced 1c for the strictly fancy goods and the other descriptions held steady to firm in sympathy with the best makes. There has been a steady demand and just enough doing to keep the market clear of any accumulation, although the medium grades did not go so readily as the best makes. Extras have been scarce and in consequence demanded by buyers and to fill occasional outside orders, and it was the firmness for these which extended to the under grades although not in the shape of higher prices, as they came into competition with storage goods. The receipts have been moderate and show no increase over last week, with a very small proportion of the goods really fine. A good many of the makes showed the usual wintry defects, leaving had a frosty flavor and showed some mottle or wivy color, which brought down the grade.

To-day there was no change to note in the market ruling firm and trade satisfactory.

Extras in Creameries were quotably firm at 27c. Offerings were not large and demand good. Difficult to buy and generally held higher.

June Extras in good demand and quotable at 24@24½c.

Firsts in Creameries are quotably 23@24c. Offering and trade about as usual for the week. Some lines just above Seconds have to be sold at the inside figure.

Seconds in Creameries are quiet and quotable at 19@21c.

Ladles quotable at 14½@18c.

Process Butter (renovated) is quotable at 18@19c per lb.

Dairies are in only fair supply and in good demand. They are holding firm. Extra makes are quotable at 22c. Firsts are quotable at 19c. Seconds or such goods as sank faster and not of uniform color are quotably 15c.

Packing Stock in supply and in good demand. For choice, sweet, solid stock buyers are paying 18@18½c, but cheesy and curgy stock ranges down lower. Butter in paper-lined barrels brings a premium.

Roll Butter is salable at 15½@16c for ordinary to good, with selections in a small way to the retail trade at higher prices.

BEANS—Hand-picked Pea Beans were called 5c higher. Demand fair for this time of the year. Local stocks are small and arrivals from the country are also small. Both dealers and their offerings are expected to increase after the holidays. Red Kidney, Butter in paper-lined barrels and Limas rules steady and met with fair sale.

An easy feeling ruled in the market for Eggs during the past week and prices declined 3c for fresh and about 1@2½c for storage stock. The decline in price could be attributed only to a lack of demand and an increased desire to sell, stimulated by the mild and unseasonable weather, which continued, to cold, and to increase the production of fresh stock. The receipts have not been excessive, as yet and have been only moderate, running about the same as last week and about the same as the corresponding week a year ago. There was no special demand and trade did not find it so easy to keep sold out, although there has been no accumulation excepting it was of the dissatisfaction of their correspondents to ship stock at the current quotations and were taken by home buyers for local use and to fill occasional outside orders. Storage Eggs were in moderate sale and all the week—considerable stock reported on hand yet and naturally had some influence on the market for fresh.

To-day the market was steady. Demand moderate.

Fresh Eggs at mark, as received, cases returned, cover a wide range and are quotable at 15@20c per dozen, depending on quality. The price depends on how many bad Eggs are in a case. Some lots are very poor, badly shrunken and stale.

Fresh Eggs at "mark" as general receipts, new cases included, quotably 17@21c, and shipping cases included, quotably according to quality.

"Firsts" are quotably about 21c. This classification means fresh-gathered Eggs candled in new white wood 30-dozen cases, unless otherwise billed. Eggs are specified, shall be reasonably clean, of good average size, and shall contain 45 per cent fresh, reasonably full, strong, sweet Eggs from May 15 to Sept. 15. The balance other than the loss may be decretive in strength and fullness, but must be sweet. There may be a total average loss of two dozen per case, but if the loss exceeds this amount by not over 50 per cent the seller may be good delivery upon allowance of the excess.

"Extra Firsts" are quotably 23c per dozen To meet the classification of Extra Firsts Eggs must be fresh gathered, be packed in new white wood 30-dozen cases, unless otherwise billed, and be of uniformly clean, of good average size, and between Nov. 1st and Dec. 31st shall contain 50 per cent of fresh, reasonably full, strong, sweet Eggs. The balance, other than the loss, may be decretive in strength and fullness, but must be sweet. There may be a total average loss of two dozen per case, but if the loss exceeds this amount by not over 50 per cent the seller may be good delivery upon allowance of the excess.

"Firsts" are quotably 21c. This is a very high standard Eggs, pick up by some of the best city merchants to meet the requirements of a particular high class of trade. It requires going through a good many cases to get one case up to this standard, as nothing but large, full, strictly fresh-laid Eggs are taken.

Dirties in good supply and demand light. Quotably 14@16c—outside for candled stock.

Seconds, including checks, cracks and dirty and cracked, not leakers, quotable at 10@14c per dozen, depending on quality.

Refrigerator Eggs are showing weakness, and Aprils offered at 18c and 17½c was bid.

FRESH FISH—Receipts of inland lake and river fish about the same as last week. Bass and Pickerel have the preference. Suckers, Carp and Buffalo do not sell well and have to be sold cheap.

Dressed Poultry—The market was quiet and at the same time a firm feeling existed and in some cases slightly higher prices were realized, on account of the only small offerings.

The weather was colder and more favorable and some benefit to the market.

The receipts were unusually small for the day before Christmas. Turkeys were really scarce with just a moderate supply of Chickens, Ducks and Geese.

A moderate demand existed, but it was of a local character, and only from parties who happened to find themselves short of a little stock and who wanted to get enough of certain kinds to carry them over to-day. The inquiry was during the morning, but when trade was at its best all over, and the late arrivals did not go so easily as during the morning, but the market was well cleaned up and closed in good condition for next week.

Dressed Turkeys were scarce and wanted in "round" grades. Every buyer just wanted a few. Feeling firmer in consequence of small offerings.

Dressed Chickens in only moderate supply and in only fair demand, and ruled firm at quotations.

Capons were slow sale with a fair supply on the market, and only a small portion were really fine. Some stock received dressed like Capons, but were only ordinary Chickens, and such lots were particularly slow sale, except at low prices.

Dressed Ducks in moderate supply and in light demand. They were slow sale.

Dressed Geese in fair supply and in fair demand. Most of the Geese were greasy and missed an advantage on the holiday trade. Some such lots clearing up at 8@9c, while really fancy brought 9c, and market clearing up.

No demand existed for car lots to-day. Local buyers supplied their wants yesterday. There is not any increase of cars, but not enough to cut any figure. Arrivals were light. Former prices were maintained, reduced receipts making a steady feeling.

SWEET POTATOES—No business to speak of was done in the market this week. About the only demand was when some local retailer would appear for a few barrels. The trade as a rule had provided for Christmas wants.

A car load came in to-day. The main part of these arrived in bad shape. The trade was not provided for Christmas wants.

Squabs sell well and the receipts are fair. Those just ready to take the nest, full feathered, are the most desirable. They are faster before they commence to fly. However they should not be taken too young, as they must be feathered to make a good appearance.

APPLES—There was a small local demand today. No business to speak of on outside account. The outside dealers have generally provided their Christmas supply.

There has been a very fair demand lately for fine goods, and of really fine Fruit, of special varieties particularly, the supply is only moderate such goods firmly held.

Holders seem to be fairly strong generally. No changes in prices noted.

HOW TO DRESS CALVES.

Calves from three to six weeks old, and weighing about one hundred pounds, or say from eighty to one hundred and twenty pounds, are the most desirable weights for shipment. The head should be cut out, so as to leave the hide of the head on the skin. The legs should be cut off at the knee joints. The entrails should all be removed, excepting the kidneys; the liver, lights and heart should be taken out. Cut the carcass open from the neck through the entire length—from head to bumgut. If this is done they are not so apt to sour and spoil in hot weather. Never ship a fine carcass has spoiled in hot weather because of it not being cut open. Don't wash the carcass out with water, but wipe out with a dry cloth. Don't skip until the animal heat is entirely out of the body, and then put the carcass up in a bag as this keeps the air from circulating, and makes the meat more liable to become tainted.

It is very essential that the directions for dressing Calves followed, especially in regard to cutting. Calves cool off properly before shipping in hot weather. Hundreds of Calves are received in bad order and sold for not much more than charges and some do not bring freight. Numerous carcasses are also condemned by the health officers. They should hang up 4 to 5 hours or over night, as an airy place to properly cool off before shipping.

Calves under fifty pounds should not be shipped, and are liable to be condemned by the health officers as being unfit for food. Merchants, too, are liable to be fined, if found selling these slunks, for violation of State law. Very heavy Calves, such as have been fed on buttermilk, never sell well in our market—they are neither Veal nor Beef.

Fasten the shipping tag with your name and address written plainly thereon to the hind leg.

The best selling days for Calves are Tuesday, Wednesday, Thursday and Friday morning. The first and last days of the week there is not much demand, and after Friday morning—that is, Friday afternoon and Saturday—buyers generally have their wants supplied.

Of course there is some demand every day, but usually the best days to sell Calves are Tuesday, Wednesday, Thursday and Friday morning.

The New York Central and Hudson River Company has declared the regular quarterly dividend of 1¼ per cent, payable Jan. 15 to stockholders of record Dec. 31.

HOW TO DRESS AND SHIP POULTRY.

In the first place, Poultry should be well fed and well watered, and then kept from 18 to 24 hours without food before killing. Stock dresses out brighter when well watered and adds to the appearance. Full crops injure the appearance, and are liable to sour, and when this does occur correspondingly lower prices must be accepted than obtainable for choice stock Never kill Poultry by wringing the neck.

To DRESS CHICKENS—Kill by bleeding in the mouth or opening the veins of the neck; hang by the feet until properly bled; scald and pick carefully and do not remove intestines nor crop. Scalded Chickens sell best. For scalding Chickens the water should be as near the boiling point as possible without boiling—190@175° Fahrenheit; pick the legs dry before scalding; hold by the head and legs and immerse and lift up and down five or six times; if the head is immersed it turns the color of the comb and gives the eyes a shrunken appearance, which leads buyers to think the fowl has been sick; the feathers and pin feathers should then be removed immediately, while the body is warm, every cleanly and with a downward motion; then "plump" by dipping ten seconds in water nearly or quite boiling hot, and then immediately into cold water; hang in a cool place (or better place on shelves in the shape you wish them to appear when cooled—hanging draws the breast muscles and causes them to look thinner when cooled and harder so pack) until the animal heat is entirely out of the body. To dry pick Chickens properly, the work should be done while the Chickens are bleeding; do not wait and let the bodies get cold. Dry picking is much more easily done while the body is warm. Be careful and do not break and tear the skin.

To DRESS TURKEYS—Observe the same instructions as given for preparing Chickens, but always dry pick. Pick when warm to avoid tearing. The tail feathers come off with a twist—a straight pull will "set" them. Dressed Turkeys when dry picked, always sell best and command better prices than scalded lots, as the appearance is brighter and more attractive. Endeavor to market all of and heavy Gobblers before January 1, as after the holidays the demand is for small fat Turkeys only, old Toms being sold at a discount to canners.

DUCKS AND GEESE—Should be scalded in the same temperature of water as for other kinds of Poultry, but it requires more time for the water to penetrate and loosen the feathers. Some parties dress Geese without scalding, but have had a heavy falling off in orders since about Dec. 1, they report a volume of business fully up to the average for this time of year. Last week moderate sales were reported on the commission markets. Some business was also done abroad. Aside from patent produced from Canadian Wheat being sold, Glasgow and other Scotch markets took some clears. Trade continues to a large number of cities on their books, and though shipping directions are coming in only fairly well, enough are received to permit a good working out of stocks to outputs.

Milfeed has advanced 75c per ton and seems to be in a strong position.

Minneapolis and outside millers quote Patents at $4 80@5 00 per bbl for first, and Minneapolis.

Eastern prices to day (Dec. 20) asked by Minneapolis and outside mills for Patent in wood, were: Boston rate points, $5 30@5 45; New York rate points, $5 30@5 40; Philadelphia rate points, $5 20@ 5 25; Baltimore rate points, $5 20@5 30; Albany rate points, $5 30@5 40; Utica, Syracuse, Horseliesville and Rochester rate points, $5 25@5 35; Ohio, lower Michigan and Indiana, $5 20@5 30; Chicago, upper peninsula of Michigan, in sacks, $5 85@5 95; Missouri points, $5 75@5 85; Wisconsin, Iowa and Illinois, $5 90@6 00.

Reports from nearly all markets in the United States this week tell of quiet Flour markets and of conditions unsatisfactory to millers and Flour dealers. Louisville forms quite a bright and shining exception. Her millers are reported to be satisfied, which they may well be, in view of increasing orders and a trade that is of normal proportions. It is to be regretted that they cannot be satisfied, which they may well be, in view of increasing orders and a trade that is of normal proportions. It is to be regretted that they cannot be satisfied with the kindness of the fates, in so great contrast to their unkindness to millers elsewhere. A cartailed output was the general experience last week.

Kansas City telegraphs some improvement in the Flour trade the last day or two. Millers there are discussing the chances of grinding Canadian Wheat. The trade in millfeed is generally active. St. Louis, in particular, has a demand in excess of supply. The Winter Wheat has received the most benefit from it so sadly needed, and conditions in the Winter Wheat territory generally are more favorable for the growing crop than they have been. Millers in Manitoba and Eastern Canada continue to enjoy a prosperous season.

Glasgow, Liverpool and London cables all indicate quiet markets with a tendency to lower prices. The usual holiday dullness prevails and no activity is looked for. Cables to Mr. Edward Allfand cables that good Clears are freely offered at 10.87@ 11.00 florins, and some business has resulted at these prices.

STORING GRAIN IN MINNESOTA.

[From the American Elevator and Grain Trade.]

A lawsuit growing out of the storing of Grain in Minneapolis elevators, and which went to Faribault, Minn., recently came to judgment, the trial court finding the issues for the farmer.

The case was that of Levi Charter and others against Jas. Bentigen & Co. The facts as stated by the court are that the Wheat in controversy, 8,585¾ bu, was stored in the elevator of J. A. Eugelhart, who owned the property up to March 14, 1902. Bettingen & Co. were then Minneapolis consignees. On March 14, 1902, Eugelhart transferred all of his elevator property at Redwood Falls to Bettingen, claiming that an oral agreement had been made that Bettingen was to pay all the outstanding storage tickets. Bettingen denied this.

The court contended that the Wheat was unlawfully shipped out of Eugelhart's elevator and consigned to Bettingen; and that inasmuch as the Wheat was delivered to a mixing property, Bettingen must return the Wheat or pay over to the farmers the value of the same. The court concludes his opinion as follows: "Each of the warehouse receipts was an obligation on the part of Eugelhart to deliver a certain quantity of Wheat to the holder, and as Bettingen had entered into a contract made for the benefit of the holders, if they elected to avail themselves of it, they had a right to make their demands, before bringing suit, to make a demand upon Bettingen; and if such demand were refused, the holder was entitled to recover the market value of the Wheat at the time of the demand."

Within a short time, it is reported, the Cincinnati, Hamilton and Dayton will operate all its freight and passenger trains between Chicago and Cincinnati over its own rails, canceling the traffic agreement which has existed for years between it and the Monon.

CINCINNATI WILL REVISE RULES.

It is probable that by the first of the year the Cincinnati Chamber of Commerce will have a set of revised Grain rules in force. The rules now in force were made twenty-five years ago and have been amended from time to time until, it is said, they are now more or less complex. Several controversies have arisen during the past year calling for the decision of the superintendent, who has not always found it easy to apply the existing rules to an equitable adjustment of differences under present-day conditions of the trade. The superintendent has undertook to point out some of the changes that seemed to be necessary to him, and directors finally referred the entire matter to the Grain Inspection Committee.

The committee drafted a set of revised rules and recommended them to the board They were referred to a committee consisting of F. F. Collins, chairman; Joseph D. Morten and Walter A. Draper. The committee is now at work on the rules.

There is great anxiety on the part of the trade to have the new rules ready for the new year, and every effort will be made by the committee to finish its work so that final action by the board of directors may be had before Dec. 30.

INTER-STATE COMMERCE COURT.

[From the Louisville Evening Post.]

There is much talk of an "Inter-State Commerce Court," one for each of the nine circuits, its decision subject to review by the Supreme Court. There is something reasonable in the suggestion. Admiralty, marine law, and the Inter-State Commerce law growing up under new conditions. The functions of such a court would differ in some respects from the functions of an ordinary court. Its rates could be changed every year afterward; $5,000 of revenue should be used judicially, and should be subject to review. Under such a system it ought to be possible to correct abuses without checking development.

ITEMS OF GENERAL INTEREST.

The Mahoning Coal Railroad has declared the usual semi-annual guaranteed dividend of 2½ per cent on its preferred stock.

The John Thompson & Son agricultural machine works and gasoline engine factory, Beloit, Wis., was destroyed by fire, Tuesday, causing a loss of $100,000.

Application has been made to the New York Stock Exchange by the Southern Railway Company to list $5,000,000 additional first mortgage 5 per cent bonds of 1994.

The New York City Railway Company loses fully $1,000 a day through an illegal system of transfers, according to a statement made, Wednesday, by the company's chief inspector in a police court.

At a special general meeting in London, Wednesday, of the shareholders of the Grand Trunk Railroad it was agreed to guarantee the issue of £1,500,000 4 per cent Gold bonds for the construction of the Lake Superior branch of the road.

The Steel Bar Association, at a meeting in Jersey City, Tuesday, advanced Steel bars $2.00 a ton. The Steel plate manufacturers voted to advance the price of Steel plates $2.00 a ton. The manufacturers of structural Steel also advanced the prices of their product about $2.00 a ton.

The time for making subscriptions to the stock of the American Strawboard Company under the reorganization plan of 1900 has been extended. Paper company has been extended from Jan. 2 to Jan. 12. The second payment of 10 per cent on subscriptions has been put at Jan. 20 instead of Jan. 10.

It is stated at Copenhagen that a steamship company composed of Norwegians and Americans will soon be incorporated, with a capital of $2,500,000. It is the purpose of the company to operate a line of steamers between ports of Sweden and Norway and New York, starting with three vessels and adding to the fleet.

The Louisville and Nashville is the first of the big Railroads to increase its dividend rate, the directors having just placed the preferred stock on a 5 per cent basis. For the year the road earned 11 per cent on its stock. During four years vast sums of money were spent in improving the road and adding to its equipment.

The Illinois Railroad and Warehouse Board of Equalization finished its taxation report, Wednesday, and addressed sine die. The total value of the assessed property of the State this year was $1,084,775,545. This is a 4 per cent increase over the assessment of last year. In 1903, but it will not materially affect the State tax rate for 1904. The rate last year was 85c. It may be as low as 80c this year.

The directors of the Reading Company at their meeting in New York, Wednesday, declared an initial dividend of 1½ per cent on the common stock. They also declared a dividend of 1 per cent on the second preferred. The common stock dividend is payable Feb 1 to stockholders of record Jan. 24. The second preferred dividend is payable May 10 to stockholders of record April 22.

The holiday number of the *Northwestern Miller*, of Minneapolis, is the finest issue of that publication ever presented to the public, excelling in contents and artistic typography any similar issue of any milling journal. It is a credit to the publishers and the Flour trade, which they represent.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market quiet and steady as recently quoted.

WINTER WHEAT—Was dull. Feeling easy and cash lots did not follow the advance in the speculative market. At former prices millers bought a few cars. No. 2 Red in store nominally $1 14¾@1 16⅛, and fresh arrivals free on board quotably $1 16½@1 17½. No 3 Red fresh arrivals sold free on board at $1 13@1 13½ and was quotable at $1 11@1 14. No. 2 Hard fresh arrivals free on board quotable at $1 12@1 14. No. 3 Hard fresh arrivals free on board quotable at $1 10@1 13, with sales at $1 05@1 11.

SPRING WHEAT—There were a few cars sold to the usual buyers, but the market, generally speaking, was dull. Choice Wheat met with some demand, but the poor Wheat was dull and difficult to sell. Prices about the same as last quoted, but so little doing that it is difficult to establish quotations. No. 1 Northern fresh arrivals free on board quotable at $1 16½@1 20. No. 2 Northern quotably $1 08@1 16. No. 3 Spring nominally 98c@$1 12, with sales at $1 06. No. 4 Spring quotable at 58@60c for very poor to $1 00@1 05 for good to choice, with sales at 95@98c.

REGULAR WHEAT—The trade was of moderate volume and rather spasmodic and professional. Feeling strong and the close was 2¼c better for the December, May gained 2¼c and the July ¾c. The situation at the start was strong, with the buying led by "shorts" and the Northwest. An early Argentine cable was the chief "bull" incentive which, with the upturn at Minneapolis, caused interests with outstanding contracts to provide for the same. The cable referred to claimed the Wheat crop was ripening prematurely and the yields below expectations—especially poor in the South. At the advances established the offerings increased, a fair share of which was supposed to come from local elevator interests and prices settled back some, but rallied again sharply and market closed near the top prices of the day. A later Argentine cable claimed the new crop of Wheat was of fine quality in the Provinces of Santa Fe and Cordova, the average being 60½ lbs; in Buenos Ayres the quality is reported better than last year. Surplus 2,500,000 tons, or 93,333,000 bu. World's shipments were larger than anticipated at 10,432,000 bu, compared with 8,840,000 bu the week previous and 7,792,000 bu one year ago. The quantity on ocean passage decreased 344,000 bu and is now 35,920,000 bu, against 25,768,000 bu one year ago. The map showed rain or snow all through the Winter Wheat belt and snow, accompanied by a cold wave, was predicted by the Signal Service. The English visible was reported decreased 1,182,000 bu, compared with an increase of 745,000 for the corresponding week in 1903. Minneapolis wired there was a much better demand for cash Wheat, with low grades 4@5c higher; movement in the country almost nothing. English farmers' deliveries last week were 264,000 bu and the price 91½c, was ¼c lower than the week previous. Clearances were very moderate and no boat loads accepted at the seaboard. Minneapolis reported stocks increased 260,000 bu past three days. Receipts at Duluth 246 cars, at Minneapolis 665 cars, a total of 911 cars, against 603 cars Saturday, 768 cars a week ago, and 1,920 cars last year. Local receipts included 9 cars Winter, 71 cars Spring and 70 cars mixed, total of 150 cars, against 211 cars last year. Included in above was no cars contract grade. There were also 7 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow, no report. The withdrawals were no bu. Receipts at Western points were 1,521,577 bu, against 2,386,200 bu last year. At Eastern points 163,320 bu, against 1,328,143 bu last year. Shipments from Western points 329,858 bu, against 863,620 bu last year, and from Eastern points 81,125 bu, against 446,928 bu last year. Shipments of Flour were 5,310 brls. Exports of Wheat in Flour were equal to 109,520 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher.

DECEMBER—Sold at $1 12¼@1 13. Opened at $1 12¼, sold to $1 13, to $1 12¾, to $1 13, to $1 12½, to $1 13, and closed at $1 13.

MAY—Sold at $1 12¾@1 14⅝. Opened with sales at $1 13⅛ to $1 12¾; sold to $1 13, to $1 12⅞, to $1 13½, to $1 12⅞, to $1 13⅜, to $1 13⅛, to $1 13⅝, to $1 13⅜, to $1 13⅝, to $1 13½, to $1 13¾, to $1 13½, to $1 14⅝, to $1 14½@1 14⅝, and closed at $1 14½@1 14⅝ bid.

JULY—Sold at 98⅝@99⅜c. Opened with sales at 98¾c to 99c, sold to 99⅛c, to 98¾@98⅞c, to 99⅛c, to 98⅝c, to 99c, to 99¼c, to 99c, to 99⅜c, to 99¼@99⅜c, and closed at 99¼@99⅜c.

CORN—A moderate trade and stronger tone, the close showing December ⅜c higher, while the May gained ⅝c and the July ⅛c. Offerings at the start were exceedingly moderate, while there was a fair miscellaneous demand and the situation was strong. The wet weather all through the Corn belt, coupled with the rise in Wheat, more than offset the effect of the large receipts and heavy addition to the quantity on ocean passage. The cash situation, too, was reported healthy, a good share of the present arrivals being applied on sales. World's shipments showed some increase at 4,486,000 bu, compared with 3,792,000 bu the week previous and 3,347,000 bu one year ago. Exports fair at 252,000 bu and the seaboard reported no boat loads accepted. Wire service with the East poor. The increase on ocean passage was 1,998,000 bu, making the amount destined for Europe 18,814,000 bu, compared with 11,040,000 bu one year ago. Receipts were 1,915 cars and 421 cars and 52,600 bu were switched from private elevators. Export and Eastern inquiry was said to be good, but sales restricted. Snow and much colder weather was generally predicted by the Signal Service. Local arrivals were 1,151,000 bu and shipments 517,000 bu. Southwestern markets were all firm. Car lots were in good demand and offerings not as large as the receipts would indicate. Prices were without special change. No. 2 sold at 46¾c, and closed at 46½@47c, depending on location. No. 2 Yellow closed at 46½@47c. No. 3 sold at 43¾c, and closed at 43¼c. No. 3 White sold at 45¼c. No. 3 Yellow sold at 43¼@43½c, and closed at 43¼c. No 4 sold at 42¾@43c.

Corn by sample—Was in good demand, with offerings rather liberal. Feeling was firm and prices without special change. Sales on track and free on board: No Grade sold at 37@41c. No. 4 at 42½@43¼c. No 3 at 43¼@43½c. No. 3 Yellow at 43¼@43¾c. No. 3 White at 43¼@43½c. Ears at 45@47c. Billed through: No Grade at 38@41c. No. 4 at 41@42¾c. No. 3 at 41¾@43c. No. 3 Yellow at 41¾@43¼c. No. 3 White at 41¾@43¼c.

Future Deliveries of No. 2 Corn—Moderately active and stronger and closed ⅛@⅜c higher.

DECEMBER—Sold at 46@46¾c. Opened at 46¼c to 46c and sold at 46¾c, to 46½c, to 46¾c, to 46⅝c, to 46¾c, to 46½c, and closed at 46½c bid.

JANUARY—Sold at 43⅝@43⅞c and 44c. Opened at 43¾c and sold at 43⅝@43¾c, to 44c, to 43⅞c, and closed at 43⅞c.

MAY—Sold at 45½@45¾c. Opened at 45½c to 45¾c and sold at 45½c to 45¾c, to 45⅝c, to 45¾c, to 45½@45⅝c, to 45⅝@45¾c, and closed at 45⅝@45¾c asked.

JULY—Sold at 45⅞@46c and 46⅛@46¼c. Opened at 46c, and sold at 46⅛c, to 45⅞@46c, to 46⅛@46¼c, to 46c, to 46@46⅛c, to 46c, and closed at 46c.

OATS—Were neglected, but prices held well and closed with a fractional gain. The regular first of the week statistics were not made up. Arrivals were 250 cars, with no estimates for to-morrow. Withdrawals were 101,600 bu Standard. Car lots were taken freely, but no round lots were sold. Cash sales were 15,000 bu. Seaboard clearances 1,000 bu. Car lots to go to store were steady to ¼c higher. Standard in store closed about 29½c. No. 3 White to go to store sold at 31¼c.

Oats by sample were in better request and offerings taken with prices steady to ½c higher. Sales on track and free on board: No 4 White sold at 28@31c. No. 3 at 30½c. No. 3 White at 30½@31⅝c. Standard at 31@31¼c. No. 2 at 30¼@30½c. No. 2 White at 31½@31¾c. Billed through: No. 4 at 30c. No. 3 White at 30½@31c. Standard at 31@31¼c. No 2 White at 31½c. At the river: No. 4 White at 27¾@29¼c. No. 3 at 29¼c. No. 3 White at 28½@30c. Standard at 30c. No. 2 at 29¼c. No. 2 White at 30½c.

Future Deliveries of Contract Oats—Were stronger, with small trading.

DECEMBER—Sold at 29⅜@29½c. Opened at 29½c, sold to 29⅜c; closed at 29⅜@29½c.

MAY—Slow. Sold at 31½c and at 31⅝@31¾c. Opened at 31½c, sold to 31⅝@31¾c, to 31⅝c at close.

JULY—Sold at 31⅝@31¾c. Opened at 31⅝c, sold to 31¾c, 31⅝c at close.

RYE—Remains dull and neglected. The market failed to be affected in the least by the other Grain markets. There is apparently no interest in the market and nothing whatever doing in futures. The fresh arrivals were taken by the usual buyers and among the receipts were some poor samples. There were eight cars received and six cars withdrawn from private warehouse. No exports from New York. No. 2 in store nominally 73c and fresh arrivals free on board sold at 74@77c for poor to good. No 3 sold at 67c.

Future Deliveries of No. 2 Rye—Nothing doing. December 73c bid. May nominally 76c.

BARLEY—There was a very good business transacted in this market at former prices. Demand was good for low grades and slow for the better grades. Receipts were large, and mainly of low grade Barley. On account of bad weather samples were slow in coming on the market and on this account some cars may be held over. To-day's postings showed 141 cars inspected in. Screenings were quotable at 28@37c for poor to fancy. Feed Barley was slow and quotable at 35@37c. Low grade malting about 40c, with very dirty cars at 38@39c; fair to good at 41@44c, choice at 45@46c; very fancy in round lots possibly a shade over.

SEEDS—Flax was higher, but inactive. Timothy was steady for both cash and future deliveries. Clover and Other Seeds ruled steady at former prices.

Timothy—There was a small business transacted in cash Seed and the market was called steady. Offerings and demand were both moderate. Futures ruled steady and inactive. Spot or December delivery, contract Seed, nominal at $2 72½, January at $2 75, February about $2 80. March received bids of $2 85. April was nominally $2 87½. Country lots quotable at $2 40@2 65 for low grade to fancy; extra fancy possibly up to $2 75; inferior lower; fair to good, $2 35@2 50, and rough, dirty or hulled, $2 15@2 25.

Flax—No. 1 Northwestern sold at $1 25, which was 1½c higher, and No. 1 nominally 1c better. Offerings of cash Seed were small. Futures were nominally higher but inactive. Local stocks were reported at 3,752 bu, which was the same as last week and the week before. Receipts were 72 cars at Minneapolis, 161 cars at Duluth, and 6 cars or 5,400 bu here. There was none taken from store. No. 1 Northwestern sold at $1 25, and No. 1 was nominally at $1 17. Rejected nominal, depending on quality, at $1 14@1 21. December salable at $1 17, and May was offered at $1 25.

Clover—The market was nominally unchanged. Offerings of cash Seed on the open market were small. Contract spot Clover quotable at $12 75. March delivery about $13 00. Country lots, common to choice, quotable at $8 00@12 50; very poor lower, and fancy above. Fair to good, $10 50@12 00.

Other Seeds—Market in every way the same as lately quoted. There were no offerings. Salable at prices following: Hungarian at $1 05@1 15 for common to choice. Millet, common, quotable at 90c@$1 15 for common to choice. German at 90c@$1 25. Siberian at 60@80c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05. Mustard about 75c@$1 10. Buckwheat dull and easy. Good milling quotable at $1 10; common lower.

HOG PRODUCTS—Trade was moderate in Hog Products, and the feeling was a little unsettled. Outside orders were light, and local trading was only fair. Offerings were moderate, and there was no particular demand from any source. Early in the day, the undertone to the market was stronger, in sympathy with the moderate supply and higher prices for Hogs, and the firmer feeling in Grain. Prices rallied slightly all around. After the early orders were provided for, there was a little inclination to sell and an easier feeling prevailed. Prices receded again, and the market closed steady. Near deliveries rather quiet. May met with most favor. Receipts of Hogs at the leading Western packing points for three days were 116,000, compared with 175,000 for the corresponding time last year. Foreign markets were closed, and domestic markets were quiet. Receipts of Products were liberal—of Lard and Meats about 76 cars. Shipments were moderately large—of Lard and Meats about 198 cars. Demand on shipping account was moderate to provide for small orders, and offerings were only fair. Buyers and sellers were somewhat apart in views, and sales were limited. Prices rather inclined in favor of buyers.

Mess Pork—Only a moderate business was transacted in Mess Pork, and there was not much life to the market. Offerings were not very large, and the demand was only fair. Trading chiefly in May contracts. Early, the feeling was stronger, and prices ruled 5@7½c higher, but toward the close receded again to inside figures, and the market closed steady. Shipping demand was light and offerings were moderate. Cash lots were quotable at $11 35@11 45 for regular according to quantity with repacked at 10@15c discount.

DECEMBER—Quiet and quotable at $11 35.

JANUARY—Demand light and offerings small. Sales were made at $12 57½@12 62½. Opened at $12 62½, sold to $12 57½, and closed steady.

MAY—In moderate request and offerings were only fair. Sales were made at $12 87½@12 95. Opened at $12 95, sold to $12 90, to $12 95, to $12 87½, and closed steady.

Lard—Trade was moderate in the Lard market, and the feeling was rather steady. Offerings were rather light, and the demand was only fair. Prices ruled about 2½c higher early, but receded again, and the market closed rather steady. No advices from abroad. Trading largely on local account. Very little demand on shipping account and offerings were moderate. Cash lots quiet and quotable at about 10c discount on January figures, closing at about $6 77½. Loose lots in moderate request, with light offerings. Prices were quotably steady at 50c discount on January figures. Leaf Lard was in light demand, with fair offerings. Prices quotably steady at $6 31¼. Neutral in light demand, with only fair offerings. Prices quotably steady at $7 37½@7 50 for No. 1 and $7 12½@7 25 for No. 2.

DECEMBER—Quiet and quotable at $6 75.

JANUARY—Called for sparingly, and offerings were rather light. Sales were made at $6 87½@6 90. Opened at $6 87½, sold to $6 90, to $6 87½ and closed quiet.

MAY—In fair request and offerings were moderate. Sales were made at $7 12½@7 17½. Opened at $7 15, sold to $7 15@7 17½, to $7 12½@7 15, and closed steady.

JULY—Offerings were light, and demand limited. Sales were made at $7 22½@7 25. Opened at $7 22½, sold to $7 25, to $7 22½@7 25 and closed steady.

Short Rib Sides—Trade was only fair in the market for Short Rib Sides, and the feeling was somewhat stronger. Offerings were not very large, and the demand was only fair. Early, there was a fair inquiry, and prices ruled 2½@5c higher, but an easier feeling prevailed later, and the advance was lost. Market closed steady around medium figures. Shipping demand was light and offerings were moderate. Cash lots were quotable at $6 25@6 37½ according to weight and age.

JANUARY—In moderate request and offerings were fair. Sales were made at $6 45@6 50. Opened at $6 47½, sold to $6 50, to $6 45, to $6 47½, and closed steady.

MARCH—Quiet and sold sparingly at $6 65.

MAY—Offerings were fair, and the demand was moderately active. Sales were made at $6 72½@6 77½. Opened at $6 77½, sold to $6 75, to $6 75@6 77½, to $6 72½@6 75, to $6 75, and closed steady.

JULY—Quiet and sold sparingly at $6 87½.

Other Meats—Sales were rather light, and the feeling rather easy. Domestic demand moderate, and orders from abroad comparatively small. Offerings of all kinds were not very large. Green Meats in light demand and prices ruled lower. Pickled Meats in limited demand, with fair offerings. Prices favored buyers. Dry Salted Meats in moderate request, with only fair offerings, and prices were unchanged. Smoked Meats called for moderately, and prices ruled easier. Closing prices were as follows:

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Dec. 23.]

United Kingdom—It is reported that over two inches of rain have already fallen in the United Kingdom during December. The fall was welcome for making good former arrears, and as field work is unusually forward for the season, farmers are not inclined to complain of the hindrance to ploughing and seeding. There remains, in fact, very little Winter Grain now to be seeded, and as regards the bulk of the crop, which should be in the ground, there is nothing but praise. We continue to hear many complaints about the poor yields from the last harvest, the shelling results being very disappointing on the 1st inst. The estimate of the crop officially returned as sold keep around 400,000 bu per week, which, of course, can only be regarded as quite moderate, while the price appears to be settled about 30s to 30s 6d per quarter, or 80 lbs, which is several shillings above the level of any recent year.

Russia—Latest crop news is favorable. There are still complaints of great delay in forwarding Grain from the interior by rail, and as a consequence arrivals at the ports are still rather meagre and there has been further reduction in the visible stocks; our latest reports from Novorossisk and the Crimea, however, show liberal quantities coming forward for winter shipment and export movement last week was well maintained, although naturally the quantities showed some reduction for navigation of the Azoff is now closed, although we have not heard that any steamers are actually frozen. The final official estimates of the crops last harvested were issued in St Petersburg a few days ago. The total Wheat crop as actually returned as larger than last year's, being 460,000,000 bu, and Rye is 88,000,000 bu larger; Barley shows a small decrease, Corn a good decrease, but the Oats quantity has jumped up some 240,000,000 bu.

Roumania—The condition of the new crops is still regarded as very favorable, but the snow has now disappeared over a large portion of the area, and anxiety is felt for fields with strong, healthy plants, such is not the case with regard to the late, drouhty districts around Braila, so that on the whole the situation is not considered as encouraging as it was a fortnight ago. Arrivals of Grain at Braila have dropped to small figures, but a big move has been formed at Sulina for winter shipment.

Hungary—The condition of the young crops is reported to be unusually vigorous.

Argentina—To-day's weather reports are considered good, but it would appear that unsettled conditions must still prevail in some districts. Our own cable received last Friday announced that there was no change for the worse, which apparently the improved conditions have not been generally maintained. There are complaints that the quality of new Wheat is likely to be inferior and an average weight of 60 lbs per bushel, and even 60 lbs has been mentioned.

Australia—Private estimates of the exportable surplus are now as low as 30,000,000 bu, which is just about one-half of what was obtained from the crop of 1903, but as the weather has been very favorable for the harvest, the quality is likely to be better.

India—We have had no news of the crops since last Tuesday, and presume all is going well. Shipments last week were again large, but we expect smaller quantities in the near future.

France—Good falls of rain have improved the crop situation, but naturally the crops must still be very much in the dry districts which suffered from the long period of dry weather. Spot and local provincial markets have been more liberal, but the latter are not the active demand and prices have further advanced slightly.

Italy—Favorable rains fell in the latter part of November.

Spain—Our Barcelona correspondent reports that the recent rains were general, and sowing has been resumed in the drouhty parts.

Holland and Belgium—Mild, rainy weather is reported and there are fears that vegetation may advance too quickly

Germany—The weather recently has been very wet and unseasonably mild. The rains were quite welcome, however, in order to make good previous deficiences, and there are no complaints about the crops. Inland waterways are now in good shape and business has been active, buyers seizing the opportunity to get the grain they require. Good qualities of native Wheat and Rye continue to be exported.

North Africa—There are complaints of drouth in Southern districts, but in the North further rains have fallen.

THE WEATHER CONDITIONS.

Extreme Northwest Temperatures zero to 28 below; clear. Northwest—Temperatures, 20 above to 35 below; snow in Minnesota; clear in North Dakota. West.—Temperatures, zero to 36 below; rain and snow general. Southwest—Temperatures, 6 below to 34 rain or snow general and fairly heavy. Ohio Valley—Temperatures, 44 to 52; rains heavy and general

Indications are for cold wave over entire district to-morrow, with temperatures below zero Storm will continue moving Eastward, the rain and snow clearing by Wednesday.

FLAX SEED INSPECTION RULES.

Adopted by the Board of Trade of the City of Chicago, and to go into effect July 1 1904:

Section 1. The weight per measured bushel designated for each grade of Flax Seed shall be commercially pure Seed.

No. 1 Northwestern. Flax Seed—Flax Seed to grade No. 1 Northwestern shall be mature, commercially sound, dry and sweet. It shall be Northern grown, or shall have the characteristics thereof The maximum quantity of field, stack, storage or other damaged Seed and intermixed shall not exceed twelve and one-half per cent. The minimum weight shall be fifty-one (51) pounds to the measured bushel.

No 1 Flax Seed—No 1 Flax Seed shall be commercially sound, dry and free from mustiness and carrying intermixed not more than twenty per cent of immature or field, stack, storage or other damaged Flax Seed, and weighing not less than fifty (50) pounds to the measured bushel.

Rejected Flax Seed—All damp and musty Flax Seed and that carrying thereon immature or field, storage or other damaged Flax Seed in excess of twenty-five per cent, and weighing not less than forty-six and one-half (46½) pounds shall be graded "Rejected."

No Grade Flax Seed—Flax Seed that is wet, mouldy, warm or in a heating condition or is in anywise hurt by temporary storage, or weighs less than forty-six and one-half (46½) pounds shall be graded "No Grade."

Flax Seed that is smashed, burnt, or intermixed with dirt, Seed shall not be known by any grade, but shall be inspected in the usual way to determine percentage of impurities, and shall be posted as "Burnt or Smoky Flax."

Section 2. Sampling and Inspecting Flax Seed received in cars, in bulk, by railroad, a geared screw sampler shall be passed down through the Seed, at not less than seven points equally distributed. At each point an equal quantity of Seed shall be taken, aggregating three pounds, which shall be deemed an average sample of car-load. When car is inspected, cards in duplicate shall be written stating the result—the one attached to Grain door of car, the other attached to sample Provided, always, should the car be so unevenly loaded, either as to quality or impurity, as to leave a doubt in the mind of the inspector as to correctness of such result, he shall not call it such by the fact and report to consignee.

Sec. 3. When inspector receives notice to inspect Flax Seed in car from bulk, he shall proceed as follows As the bags are filled or emptied, he shall take from each bag the same quantity. The sample so taken shall be intermixed, and three pounds taken therefrom which shall be deemed an average sample of lot

Sec. 4 The inspection of Flax Seed from elevator or warehouse, or from railroad transportation, be made by passing a Grain trier of suitable length through each draught after the Seed has been elevated to shipping bin, and by taking a sample by drawing therefrom at each filling of hopper an equal quantity From every ten samples so drawn, an average sample of three pounds shall be taken On completion of shipment from any elevator or warehouse an equal quantity of Flax Seed shall be taken from the accumulated three pound samples, aggregating six pounds, shall be considered an average sample of the shipment that shall leave the warehouse

Sec. 5. The inspection of Flax Seed from elevator or warehouse to railroad transportation shall be made by drawing with Grain trier, samples from eight points in each car, shall be in car, and taking from each an equal amount, aggregating three pounds, which shall be considered a legal sample.

Sec. 6. To test Flax Seed one pound of average impurity and quality shall be taken from the sample to be tested, and the impurity or foreign matter therein shall be removed as near as practicable by the use of two sieves, one with meshes three by sixteen, the other with meshes sixteen by sixteen. The per cent of impurity and weight per bushel thereof shall be determined. Such impurity shall be determined by the use of proper testing sieves The impurity shall consist of Flax Seed, which shall be enveloped and tagged with the result of test, and numbered to correspond with record. Such impurity shall be kept on file.

Sec. 7. The inspector, at the date of inspection shall issue a certificate of inspection, setting forth grade of Flax Seed, the number of pounds, the per cent of impurity, weight per measured bushel, and fees. Also, the name of railroad or vessel by which either received or shipped, the number and initial of car and the number of gross bushels shipped from elevator or warehouse.

Sec. 8. The inspector shall post on Change at the first session of each day, week and month, a tabulated statement of the quantity of Flax Seed in city as follows: The daily—All inspections of Flax Seed since closing of previous day. The weekly: The amount of Flax Seed in store. The monthly—All inspected receipts and shipments during the month last past.

Sec. 9 On notice from any elevator firm that they are about to receive from a certain railroad, Flax Seed, or from any railroad that they will, in detail, report to said firm all Flax Seed inspected on said road. Such notice to state Flax Seed shipped from elevator shall also be reported in full to elevator office

Sec. 10. The inspector shall place before the Board of Directors not later than the second Monday after the second day of January each year, a tabular statement of the quantities received, shipped and shipments of Flax Seed for the preceding year ending Dec 31, with such information as may be of interest to the Board Also, a financial report showing the receipts and disbursements of the office for that period.

Sec. 11. Any member of the Board of Trade interested shall have the right of appeal from the decision of the Inspector to the Committee on Flax Seed Inspection, by giving notice in writing and paying to the Secretary of the Board of Trade dollars for each and every case appealed. The inspection is sustained the five dollars shall be paid to the committee. But if not sustained, to be returned. If practicable the committee shall examine the Seed upon which appeal has been taken. If not practicable, the Inspector shall have the privilege taken by him.

Sec. 12. The Board of Trade in establishing the regulations for the inspection of Flax Seed, and appointing an Inspector thereof, assumes no liability or responsibility for any loss, damage or other, wise on the part of the Inspector.

Sec. 13. The fees for inspecting and certifying Flax Seed shall be as follows: For each car or part of car 75c: for each lot in car divided by bulkhead 50c: for each additional division in car or warehouse to lake transportation, 75c; for each two-bushel bag, 5c, for each four bushel bag, 10c; for each weighing, 25c. Provided, further, that in no case shall the charge for the inspection of Flax Seed be less than 50c.

Sec. 14. The rules regarding and certifying Flax Seed shall be as follows:

All sales of Flax Seed, unless otherwise agreed, are made upon the basis of pure Seed, that is: Seed tendered or delivered on contract shall be free from impurity or foreign matter, but must contain the sale quantity of pure Seed and for such pure Seed only shall payment be required.

In the delivery of Flax Seed from elevator or warehouse, on which a warehouse receipt is covered by the warehouse receipt shall be delivered, and any excess or deficiency between the quantity of net or pure Seed delivered and the quantity of net or pure Seed covered by the warehouse receipt, shall be paid for or by as the case may be to the elevator or Warehouse Company, according to the average market price of the day of delivery.

ITEMS OF GENERAL INTEREST.

Damage of $20,000 was caused by a fire at Ogden, Iowa, Monday.

The St. James Hotel, Duluth, Minn., was damaged by fire, Monday, to the extent of $25,000.

Reports from New York say that on the price of Iron ore for next season's delivery was announced, Monday, in Cleveland.

The Norfolk and Southern Railroad has declared a quarterly dividend of 1½ per cent on the capital stock, payable Jan. 16. Books close Dec. 31 and reopen Jan. 11.

The Philadelphia Company of Pittsburg has declared the regular quarterly dividend of 1½ per cent on the common stock, payable Feb. 1 to holders of record Jan. 2.

The Iowa Brewing Company's plant at Iowa City, Iowa, owned by Valvo Brothers, and valued at $125 000, was destroyed by fire, Thursday. The insurance was $80,0.0.

The Broad Exchange Company has declared a regular quarterly dividend of 1¼ per cent on the preferred stock, payable Jan. 3. Books close Dec. 27 and reop n Jan. 4.

The directors of the Bankers' National Bank, Chicago, Friday, declared the regular quarterly dividend of 2 per cent, payable Dec. 31 to stock holders of record Dec. 23.

There can be no effective opposition to the plan of the Equitable Trust and Savings Bank of Chicago, Thursday, to increase the capital to $1,000,000 and to change the par value of the preferred stock in tangible assets at just about its market value, or $40 a share.

The Kansas City *Standard* of Nov. 30 says: "The harvest prospects continue to be brilliant and the pasture lands are in good condition, so that a busy time may be predicted for trade, commerce and industry."

The Ottawa and New York Railroad, extending from Ottawa to Tupper Lake, was sold, Thursday, at St. Regis, Can., for $1,000,000. It was bid in for a committee of the bondholders, most of whom are members of the New York Central board of directors

The Dedham Savings Bank of Dedham, Iowa, has been closed, and the president, who left ostensibly on business, is gone. He is said to be short about $20,000, and the bank has commenced suit against him for the amount. The bank had $60,000 in deposits.

A New York banking firm have purchased from the St. Louis and San Francisco Railroad the balance of $1,500,000 of its two and one-half year 5 per cent collateral trust notes due Dec. 1, 1906, assumed upon the St. Louis, Memphis and Southwestern Railroad Company.

The American Woolen Company has declared the regular quarterly dividend of 1¾ per cent on the preferred stock, payable Jan. 16. Books close Jan. 2 and reopen Jan. 27. This makes the twenty-third consecutive quarterly dividend of 1¾ per cent declared on the preferred stock, and amounts to $49 2s a share, or $8,650,000 on the entire preferred capital.

The *Corn Trade News* of Dec. 16 says: "It is reported from a reliable source that the surplus of Corn in Roumania is not sufficient for home requirements and the new Corn is quite unfit for human consumption. The Roumanian Government is definitely arranging although a number of bankers have made propositions which show clearly that the new bonds will prove a popular issue."

A New York dispatch says: "The statement that Hugh L. Cooper & Co. and J. P. Morgan & Co. jointly will underwrite the proposed new issue of Atchison bonds, while not explicitly denied, is pronounced premature. No underwriting has yet been definitely arranged, although a number of bankers have made propositions which show clearly that the new bonds will prove a popular issue."

The $5,000 tons of Steel rails wanted by the Mexican Central for 1905 delivery cannot be secured from the Tennessee Coal and Iron Company, as originally contemplated. That company has sold its output so far for the year 1905 and will not guarantee delivery. It is expected that the Mexican Central will now place its order with the Steel corporation and the allied members of the Steel rail pool.

Fifty-five cents on the $100 valuation is the Illinois tax rate for the year 1904. Last year the rate was 62c on the $100. The rate was announced, Friday, by the board composed of the Governor, Auditor and State Treasurer. There is to be raised in taxes this year $4,890,600 for the general fund and $1,000,000 for school purposes, which divides the State tax rate 45c for general and 10c for school purposes.

The *Corn Trade News* of Dec. 15 says: "Abundant rains have fallen in France during the past seven days and the same have been generally received by growers, who hope that the rains will bring on the backward crops in the districts which suffered so severely from drouth. It is considered that the crop situation is much more satisfactory for the moment, but it is hoped that the rains will not last too long"

The Chicago Breweries, limited, report for the year ended Nov. 30 states that the amount standing to the credit of profit and loss account is $14,-639, which, with $18,581 brought forward, leaves a balance of $32,820. From this a dividend of 7 per cent for the year will be paid, less tax, leaving $13,562 to carry forward. The amount debited for repairs, renewals and depreciation of plant and machinery is America is $14, and the amount written off for bad debts $1,195.

For the first three months of 1905 the net earnings of the United States Steel Corporation are estimated at not less than $20,000,000, which is lower than this total will be regarded as distinctly disappointing. This estimate is based, first, on the known amount of unfilled orders on the books, exceeding 4,000,000 tons on second, on the fact that at the beginning of the quarter the corporation will actually have nearly all its blast furnaces, Bessemer and open hearth plants in operation service. No time will be lost preparing for any revival. The conditions in the Steel corporation's trade on Jan. 1 will almost duplicate those existing on Jan. 1, 1902, both in number of orders on the books and the readiness of the plants.

Shippers of Grain explain the lack of shipping business in Oats to the East this season as due to the fact that there is no export demand, while the East was filled up with Oats from the interior and from the States east of Illinois. Indiana and Ohio this year, as usual, sold their crop direct from the farms, while Iowa and Minnesota received from Michigan. In fact, the Oats crop East, as everywhere, was unusually large and fine. Despite its fine quality, however, Grain men say that it is far surpassed by certain Oats, which are classified in Europe as "superb" The Oats crop of Russia this year is 1,130,000,000 bu or nearly 300,000,000 bu larger than that of last year. Russian shippers have been offering Oats to the rest of Europe for delivery running up to July next at figures lower than can be quoted by shippers at the American seaboard.

ITEMS OF GENERAL INTEREST.

New York Exchange 25c premium

Documentary Sterling steady at 483¾.

Chicago Bank Clearings to-day, $27,126,623.

Continental Wheat stocks on the reverse page.

Reported that 40,000 bu Corn were taken at the seaboard to-day for export.

Deliveries on December contracts to-day were 15,000 bu Wheat, 80,000 bu Corn and 15,000 bu Oats.

Estimated receipts for to-morrow: Wheat, 31 cars; Corn, 309 cars; Oats, 33 cars; Barley, 5 cars; Hogs, 20,000.

The annual dues on the Chicago Board of Trade for 1905 have been fixed at $50 00, or the same as for several years.

Average cost price of Hogs at Chicago, Tuesday, was $4 48 against $4 44 Monday, $4 56 a week ago, and $4 62 a year ago.

Eight packers purchased 9,400 Hogs to-day; shippers, 1,500; left over, 3,000. Market closed steady. Heavy sold up to $4 75.

Local Securities were slow, with small declines in a few shares, in which the most interest centered. Swift's was an exception, and gained ⅞ on small offerings.

A Buenos Ayres cable says: "No damage reported by frost. Weather continues fine. Heavier shipments of new crop Wheat will commence in about four weeks."

Beef Steers sold at Chicago thus far this week at $2 80@6 15, against a range of $2 65@6 50 a week ago, and $2 80@7 60 two weeks ago, showing a rapid narrowing in the "spread" between common and choice Steers.

The annual report of the Department of Agriculture will be issued this afternoon. It will give the final yields of Wheat, Corn, Oats, Rye, Barley, Buckwheat, Hay and Potatoes, and value of farm products on December 1.

Cotton in New York was depressed by continued liquidation and "bear" pressure. The factor was the Census report giving the ginning at 11,986,614 bales, against 8,749,679 bales last year. Closing prices were at losses of 34@39 points.

Stocks of Wheat in public warehouses in Liverpool reported at 5,114,000 bu, against 5,152,000 bu one week ago and 3,376,000 bu one year ago. Stocks of Corn reported at 394,000 bu, against 526,000 bu one week ago and 951,000 bu last year.

The census Cotton report says: "Number of counties reported 737; round bales ginned in said counties 11,986,614, against 8,749,669 bales last year. Counting round as half bales total ginned in said counties 11,846,113 bales, against 8,427,259 bales last year."

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were increases of 1,138,000 bu Wheat, 1,849,000 bu Corn, and decreases of 517,000 bu Oats, 65,000 bu Rye, and 367,000 bu Barley.

Application has been made to the New York Stock Exchange to list the following: Standard Milling Company, $3,357,000 first mortgage 5 per cent bonds of 1930, $6,900,000 5 per cent noncumulative preferred stock, $4,600,000 common stock; Atlantic Coast Line Railroad Company, $7,830,000 additional common stock.

Stocks in New York advanced on a steady absorption of the offerings by London and by local profit takers. Railway shares advanced ½ to 1½, except New York Central lost ¾ and Deleware and Hudson declined 2½, with a reaction of ¾. Copper developed exceptional strength and gained 2¾. Steel advanced ¾ to 1. Money easy at 2½ per cent.

Broomhall's weekly summary of foreign crops reads: "France—Weather the last week has been colder and dryer which was what farmers desired, owing to the damp and mild conditions of previous fortnight. Crop outlook has improved. Russia—Semi-official crop report up to December 10, says condition of Winter Wheat good, but Rye below medium. Condition in other European countries unchanged from a week ago. Australia—Weather continues favorable. India—Our agent at Agra cables that official crop report states the Wheat area of the United Province of Agra and Oudh has been increased 7 per cent. Condition of the Wheat is excellent. This is the second largest Wheat growing government. The acreage of Punjab, the largest government, is given as 7,865,000 acres, or a decrease of 10 per cent from last year. Condition of the Wheat is good."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand shows no improvement and market is quiet and unchanged in price.

WINTER WHEAT—Remains dull. Very limited demand from all sources. Market steady and unchanged, with soft Wheat possibly firm. No. 2 Red in store nominally $1 15⅝@1 17⅜, and fresh arrivals free on board quotably $1 17@1 17½. No. 3 Red fresh arrivals free on board was quotable at $1 11@1 14. No. 4 Red sold at $1 09. No 2 Hard fresh arrivals free on board quotable at $1 12@1 14. No. 3 Hard fresh arrivals free on board quotable at $1 10@1 12½.

SPRING WHEAT—There were a few cars sold to the usual buyers, but the market, generally speaking, was quiet. Choice Wheat met with some demand, but the poor Wheat was dull and slow sale. Prices about the same as last quoted, but so little doing that it is difficult to establish quotations. No 1 Northern fresh arrivals free on board quotable at $1 17@1 20. No. 2 Northern quotably $1 08@1 16. No. 3 Spring nominally $1 00@1 12. No 4 Spring quotable at 56@60c for very poor to $1 00@1 05 for good to choice, with sales at 58c@$1 02.

REGULAR WHEAT—Moderate trading within a lower range, the close showing December down ⅛c, while the May lost ⅛@⅜c and the July ⅜c. Floor traders who went home "long" yesterday were fair sellers at the start, and liquidation became more general as the session advanced. Interests conspicuous on the selling side yesterday were again prominent on the "bear" side to-day. The lower cables, favorable Argentine and European crop advices were among the weakening influences. Liverpool spot unchanged to ½d lower and futures ¾d lower. London and Antwerp were unchanged. Paris steady to ¼c higher. The visible increased 1,133,000 bu, against 1,818,000 bu increase one year ago, and the total is now 39,718,000 bu, compared with 36,385,000 bu in 1903 and 49,678,000 bu in 1902. Local public stocks decreased 24,000 bu, to 1,639,000 bu, against 2,768,000 bu in 1903. Stocks in all positions increased 14,000 bu, to 3,848,000 bu, against 5,994,000 bu one year ago. Contract stocks were reported decreased 9,500 bu, to 1,111,600 bu, against 1,914,000 bu the corresponding date in 1903. A direct Argentine cable stated that no damage from frost had been reported, that the weather continued fine, and heavier shipments of new Wheat would commence in about four weeks. The weather map, as far as made up, showed severe conditions all over the country, and fair and continued cold weather predicted. Northwest cars were 83 smaller than a year ago, but Minneapolis reported 380,000 bu increase in stocks there the past three days. Crop advices from India were very favorable. The break of 2c in May Wheat at Minneapolis was one of the late features. The decline at Liverpool, according to *Broomhall*, was due to the large Russian shipments. St. Louis reported the sale of 40,000 bu No. 2 Red to go to Southeastern millers at $1 18 to $1 18½. Continental Wheat stocks Dec. 1 reported 46,392,000 bu, against 45,334,000 bu Nov. 1 and 43,788,000 bu Dec. 1, 1903. The late rally was due to "shorts" covering on rumors the Government report was likely to make a "bullish" showing. Receipts at Duluth 237 cars, at Minneapolis 194 cars, a total of 431 cars, against 914 cars yesterday, 509 cars a week ago, and 514 cars last year. Local receipts included 5 cars Winter, 11 cars Spring and 21 cars mixed, total of 37 cars, against 43 cars last year. Included in above were 5 cars contract grade. There were also 2 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow, 31 cars. The withdrawals were 3,000 bu. Receipts at Western points were 537,148 bu, against 1,106,135 bu last year. At Eastern points 39,810 bu, against 244,633 bu last year. Shipments from Western points 272,186 bu, against 308,307 bu last year and from Eastern points no bu, against 206,3 0 bu last year. Shipments of Flour were 7,359 brls. Exports of Wheat in Flour were equal to 26,160 bu.

Future Deliveries of Regular Wheat—Fair trade and closing shade lower than yesterday.

DECEMBER—Sold at $1 12⅝@1 13½. Opened at $1 13; sold to $1 13⅛, to $1 13, to $1 13½, to $1 12⅝, to $1 12⅞, and closed at $1 12⅞ bid.

MAY—Sold at $1 13⅜@1 14⅛. Opened with sales at $1 14⅛ to $1 14; sold to $1 14⅛, to $1 13¾, to $1 14¼, to $1 13⅞, to $1 14, to $1 13⅝, to $1 14, to $1 13¾, to $1 14⅛@1 14¼, to $1 13⅝, to $1 13⅝, to $1 13½, to $1 14@1 14⅛, one trade at $1 14⅛, to $1 14, and closed at $1 14 bid.

JULY—Sold at 98¾@99⅜c. Opened with sales at 99¼c, to 99⅜c; sold to 99⅛c, to 99¼c, to 98¾c, to 99⅛c, to 98¾c, to 99c, to 98⅞@99c, and closed at 98⅞@99c.

CORN—There was rather a better trade with the tone prevalent easier, the close showing December ¾c lower, while the May lost ¼@⅜c and July ¼c. The selling was quite heavy early in the session and a good share of the offerings were credited to local elevator interests and Eastern holders. The liberal addition to the visible as well as local supplies, together with the colder weather and easier feeling abroad, were among the chief "bear" factors. At the declines established "bull" interests gave the market good support and there was a slight recovery. Stocks here in all positions increased 1,307,000 bu last week to 4,495,000 bu, compared with 4,221 000 bu one year ago. The visible increased 1,849 000 bu, against 11,000 bu increase for the corresponding week in 1903. Total 7,268,000 bu, against 5,728,000 bu in 1903 and 7,112,000 bu in 1902. Stocks in public elevators increased 640,000 bu to 1 418,000 bu, compared with 2 244,000 bu in 1903. Contract stocks increased 474,149 bu, and now include 1,184,493 bu, against 2,012,842 bu one year ago. Receipts were 554 cars, and 300 cars estimated for to-morrow. There were 170 cars and 5,500 bu switched from private elevators. Liverpool quoted spot steady to ¼d lower and futures ¼@½d lower since last Friday. Fair and continued cold weather was predicted. London cabled the market there looked overloaded. Shipping demand moderate, but poor wire service possibly checked business. Exports were 6,000 bu. Local arrivals were 1,322,600 bu and shipments 417,000 bu. Car lots were in good request and fair supply. Feeling easier and prices ¼c lower. No. 2 and No. 2 Yellow closed about 45¾c. No. 2 White sold at 45⅞c. No. 3 sold at 43@43¼c, and closed at 43@43¼c. No. 3 Yellow closed at 43@43¼c. No. 3 White sold at 43¼c. No. 4 sold at 42½c, and No Grade at 39c.

Corn by sample—Demand fair and offerings smaller. Feeling was easy, with prices unchanged to ¼c lower. Sales on track and free on board: No Grade sold at 35@41½c. No. 4 at 42½@42¾c. No 3 at 43¼@43½c. No. 3 Yellow at 43¼@43¾c. No. 2 Yellow at 45½c. No 3 White at 43¼@43½c. Ears at 45@47c. Billed through: No Grade at 38½@40c. No. 4 at 41@42½c. No. 3 at 41¾@42¾c. No. 3 Yellow at 41¾@43c. No. 2 at 43c. No. 3 White at 41¾@42⅞c. No 2 White at 43c.

Future Deliveries of No. 2 Corn—Moderately active and easier, closing ¼@¾c lower.

DECEMBER—Sold at 45¾@46¼c. Opened at 46¼c, and sold at 45⅞c, to 46c, to 45⅞c, to 46c, to 45¾c, and closed at 45¾c asked.

JANUARY—Sold at 43⅜c and 43⅜@43¾c. Opened at 43⅜@43¾c, and sold at 43⅜c, and closed at 43⅜c bid.

MAY—Sold at 45¼@45⅝c. Opened at 45⅝c to 45½@45⅝c, and sold at 45⅝c, to 45½@45⅝c, to 45⅜c, to 45¼c, to 45½c, to 45⅜c, and closed at 45⅜c bid.

JULY—Sold at 45⅝@45¾c and 45⅞c. Opened at 45⅞c, and sold at 45¾c, to 45⅞c, to 45⅝@45¾c, to 46¼c, and closed at 45¾c.

OATS—Were sparingly handled and prices moved within narrow limits. At the last December was bid up ¼c and closed ¼c higher, shippers doing the buying. May and July closed easier. The visible supply decreased 617,000 bu and local stocks of contract decreased 621,000 bu and are 2,949,000 bu. Stocks in all positions decreased 731,000 bu and are 7,217,000 bu. Arrivals were 60 cars, with 33 cars expected to-morrow. Duluth had 69 cars and Minneapolis 23 cars. Withdrawals were 94,600 bu Standard. Cash sales were 25,000 bu. Car lots to go to store were steady. Standard in store closed about 29⅝c.

Oats by sample were taken moderately and prices held steady. Supplies were greatly reduced. Sales on track and free on board: No Grade at 28¼c. No. 4 at 30c. No 4 White at 29@30¼c. No. 3 at 30c. No. 3 White at 30¼@31½c. Standard at 31@31½c. No. 2 at 30c. Billed through: No. 3 White at 30¼@31c. Standard at 31@31¼c. No. 2 at 30@30¼c. At the river: No. 4 White at 28@29½c. No. 3 White at 29¼@29¾c. Standard at 30¼c.

Future Deliveries of Contract Oats—Were slow, and distant futures closed easier.

DECEMBER—Sold at 29⅜@29⅝c. Opened at 29⅜c, closed at 29⅝c.

MAY—Sold at 31⅜@31⅝c. Opened at 31½c to 31⅝c, sold to 31⅜c, to 31½c at close.

JULY—Sold at 31⅜@31½c and at 31½@31⅝c. Opened at 31½c, sold to 31⅜@31½c, to 31½@31⅝c at close.

RYE—Was dull and without special change. There was no interest shown in the market, and nothing whatever done in futures. So little doing it was difficult to establish quotations. Only three cars received. There were no withdrawals from store here and no exports from New York. No. 2 in store nominally 73½c, and fresh arrivals sold free on board at 75@76½c. Part car No. 4 sold at 60c.

Future Deliveries of No. 2 Rye—Neglected. December 73½c bid and May 76½c bid.

BARLEY—There was not so much as yesterday offered. Of common to fair grades of malting the supply was fairly good. There were but few cars of extreme grades, poor and choice. Several buyers were present; in fact, the customary buyers were about all doing something. Compared with yesterday the market was about steady. A very good reduction appears in to-day's visible supply report, which, however, exceeds that of last year. Local stock did not change. There were sales of Screenings at 28@37c for poor to fancy. Feed Barley was slow and quotable at 37c if good; below if thin, dirty or otherwise very poor; it sold down to 33c. Low grade malting about 40c, with very dirty cars at 38@39c; fair to good at 41@44c, choice at 45@48c; very fancy in round lots possibly a shade over.

SEEDS—A fair quantity of cash Timothy was sold. Aside from this nothing of account was done. In no particular was there any essential change in prices.

Timothy—Was heavy for cash Seed offered. There was a very good quantity on sale and demand limited. No essential change quoted. March delivery was steady; the recent quotation was bid. Nothing else developed. Cash sales were made at $2 35@2 45 for fair to good quality. Contract Seed remained nominal at $2 72½. January at $2 75, February about $2 80. March was $2 85 bid. April was nominally $2 87½. Country lots quotable at $2 00@2 65 for low grade to fancy; extra fancy possibly up to $2 75; inferior lower; fair to good, $2 35@2 50, and rough, dirty or hulled, $2 15@2 25.

Flax—No business was done; there was no Flax offered. The market was entirely lifeless and nominal. No change in prices. Three cars or 2,700 bu were received here; none taken out. Minneapolis receipts 17 cars and Duluth 138 cars. No 1 Northwestern was nominally $1 25, and No. 1 quotable at $1 17. Rejected nominal, depending on quality, at $1 14@1 21. December quotable at $1 17, and May at $1 25.

Clover—Was inactive and quotably steady. The holiday dullness of trade is now being experienced. Contract spot Clover quotable at $12 75, March delivery about $13 00. Country lots, common to choice, quotable at $8 00@12 50; very poor lower, and fancy above. Fair to good, $10 50@12 00.

Other Seeds—There was no business learned of, though late sowing Grass Seeds were quotably salable at former prices: Hungarian at $1 05@1 15 common to choice. Millet, common, quotable at 90c@$1 15 for common to choice. German at 90c@$1 25. Siberian at 60@80c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05. Mustard about 75c@$1 10. Buckwheat nominally easy. Good milling quotable at $1 10; common lower.

HOG PRODUCTS—Very little business was transacted in Hog Products, and the feeling was comparatively easy. Outside orders were limited owing to the telegraphic difficulties, and local operators and packers were indifferent about trading. Hogs were in small supply, owing to the blizzard in the West, and prices ruled higher, but this feature had little effect. In fact, Products were sold moderately on the supposition that the Hog supply would be liberal after the storm subsides, and that the reports of the stocks on hand at the close of the month would show a substantial increase. Demand from all sources was on a moderate scale. Prices declined moderately on all the leading articles, but rallied slightly from the inside figures reached. Bulk of trading was in May contracts. Receipts of Hogs at the leading Western packing points were estimated at only 37,500 compared with 59,000 one year ago. Foreign markets were quiet and steady at former figures. Domestic markets were quiet and unchanged. Receipts of Products were good—of Lard and Meats about 30 cars. Shipments were comparatively light—of Lard and Meats about 92 cars. Exports for the week, compared with those for the corresponding week in 1903, exhibited increases of 1 410 brls Pork, 1,533,000 lbs Lard, and 7,581 boxes Meats. Nothing of consequence doing in the shipping branch of the trade. Demand limited. Brokers had few orders on account of wire trouble. Offerings were small, and there was no particular change to note in prices.

Mess Pork—Rather a light business was reported in the market for Mess Pork, and the feeling was a little unsettled. Offerings were fair, and the demand was moderate. Bulk of the business was in May contracts. Market opened a trifle steady, with a few sales at 5c advance. Later, a weaker feeling was manifested, and prices declined 10@12½c, with moderate selling. Toward the close, a little more steadiness prevailed, and prices rallied 5@7½c, and the market closed steady. Shipping demand was limited, and offerings were small. Cash lots quotable at $11 30@11 40 for regular, according to quantity, with repacked at 10@15c discount.

DECEMBER—Quiet and quotable at $11 30.

JANUARY—Called for sparingly, and offerings were moderate. Sales were made at $12 50@12 57½. Opened at $12 50, sold to $12 57½, to $12 55, and closed steady.

MAY—Offerings were fair, and the demand was only moderate. Sales were made at $12 80@12 92½. Opened at $12 92½, sold to $12 80, to $12 87½, to $12 85@12 87½, and closed steady.

Lard—Only a moderate business was transacted in the Lard market, and the undertone was rather easy. Offerings were only fair, and the demand was comparatively light. Trading mainly local. Foreign advices were unchanged. Prices declined 2½@5c early but rallied again 2½c, and the market closed rather steady at medium figures. Very little demand on shipping account and offerings were moderate. Cash lots quiet and quotable at about 10c discount on January figures, closing at about $6 75. Loose lots in moderate request, with light offerings. Prices were quotably steady at 60c discount on January figures. Leaf Lard was in light demand, with fair offerings. Prices quotably steady at $6 31¼. Neutral in light demand, with only fair offerings. Prices quotably steady at $7 37½@7 50 for No. 1 and $7 12½@7 25 for No. 2.

DECEMBER—Quiet and quotable at $6 75.

JANUARY—Inquiry rather light, and offerings moderate. Sales were made at $6 82½@6 87½. Opened at $6 85@6 87½, sold to $6 82½, to $6 85, and closed steady.

MAY—Offerings were only fair, and the demand was moderate. Sales were made at $7 07½@7 12½. Opened at $7 12½, sold to $7 07½@7 10, to $7 10@7 12½, and closed steady.

JULY—Quiet and quotable at $7 20.

Short Rib Sides—Only a fair trade was reported in the market for Short Rib Sides, and the feeling was not very firm. Offerings were fair, and the demand was moderate. Bulk of the business was in May contracts. Prices ruled 2½@5c lower early in the day, but a little more steadiness prevailed, and prices rallied again, and closed steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $6 12½@6 37½ according to weight and age.

JANUARY—Demand was light and offerings were small. Sales were made at $6 42½@6 45. Opened at $6 42½, sold to $6 45, and closed quiet.

MARCH—Quiet, with small sales at $6 57½.

MAY—Offerings were fair, and the demand was only moderate. Sales were made at $6 67½@6 72½. Opened at $6 72½, sold to $6 70, to $6 72½, to $6 67½@6 70, to $6 72½, to $6 70, and closed steady.

JULY—Quiet and quotable at $6 82½.

Other Meats—Sales were comparatively small, and the feeling rather steady. Domestic demand moderate and orders from abroad comparatively small. Offerings of all kinds were not very large. Green Meats in light demand and prices ruled steady. Pickled Meats in limited demand with fair offerings. Prices were unchanged. Dry Salted Meats in moderate request, with only fair offerings, and prices ruled steady. Smoked Meats called for moderately, and prices ruled steady. Closing prices were as follows.

ITEMS OF GENERAL INTEREST.

The Pioneer Roll Paper Company sustained a loss of $100,000 by the burning of its building in Los Angeles, Cal., Friday.

Two entire blocks in the business district of Sioux City, Iowa, were destroyed by fire, Friday. Loss estimated at $2,000,000.

The directors of the First National Bank, Chicago, Tuesday, declared the regular quarterly dividend of 3 per cent, payable Jan. 1, to stockholders of record Dec. 31.

The directors of the Central Trust Company of Illinois, Chicago, Tuesday, declared the regular quarterly dividend of 1 per cent, payable Jan. 1. Books closed Dec. 27 and reopen Jan. 5.

The annual meeting of the Diamond Match Company will be held in Chicago on the 1st day of February, 1905. The stock transfer books will be closed at the close of business Jan 21, and will reopen Feb. 2.

The Buchanan-Anderson-Nelson Company, incorporated with $2,000,000 capital, Saturday, in Albany, N. Y., it was reported, Monday, in Louisville, is to acquire the Anderson-Nelson distilleries on Bear Grass Creek, Kentucky.

Tucker, Anthony & Co., of Boston, and Charles D. Barney & Co., of New York and Philadelphia, announce that they have formed a syndicate to supply the money for the development of the water power in the St. Louis River between Duluth and West Superior.

It is expected that the American Steel and Wire Company will advance the price of wire products during the first week in January. The increase will probably be $1.00 per ton. Every mill of the company is running and sales are not being made more than thirty days ahead.

In the informal discussion of the proposed merger of the Royal Bank of Canada and the Merchants' Bank of Canada several obstacles developed which seemed insuperable. They may, perhaps, be overcome hereafter, but at present the suggested negotiations have been declined.

A committee was appointed, Tuesday, at the annual meeting of the Illinois Brick Company, Chicago, to consider the plan devised some time ago by President George C. Prussing for scaling the capitalization to a figure commensurate with the assets of the company. This committee will report at the January meeting of the board and the matter will be submitted to the stockholders at the annual meeting in February.

The directors of the American Trust and Savings Bank, Tuesday, declared a dividend of 4 per cent for the last six months of the year, payable Dec 31. This is at the rate of 8 per cent per annum, and fulfills the predictions freely made that the dividend rate would be increased from 6 to 8 per cent. The directors furthermore voted to amend the laws of the bank so as to permit of dividends being paid quarterly in the future, according to the calendar quarters. The rate of 8 per cent will be maintained.

Dornbusch's Buda Pesth correspondent, writing under date of Dec. 10, says: "The Flour market has shown little activity this week, but millers insist upon full prices. Stocks remain on about the same level as last week, and as the outturn has been reduced the whole of it was absorbed during the week. Millers are busy with the filling of old contracts due this month, although there will probably be many extensions in spite of the increased consumption. Mill feedingstuffs continue firm in absence of stocks."

The directors of the Illinois Brick Company, Chicago, held their regular monthly meeting, Tuesday, and took the expected action regarding dividends and the reorganization plans. A dividend of 2 per cent was declared on the preferred stock, payable Jan 14 to stockholders of record Jan. 4. Books close Jan. 4 and reopen Jan. 15. This makes 6 per cent on the preferred stock for the year, and leaves the issue still 6 per cent in arrears of the cumulative dividends. It is hoped 2 per cent may be paid quarterly on the preferred stock, or its equivalent, next year, thus gradually reducing the arrears.

Dividend and interest disbursements to be made in January will break all records. The compilation indicates a total of about $136,000,000 to be paid out by leading railroad and industrial corporations, banks, trust companies, traction companies, and the National Government. This is nearly $3,000,000 larger than in January a year ago, when total payments of similar institutions were about $133,800,000. The industrial distributions show considerable falling off because of reduction and passing of dividends, but this is much more than offset by increased payments on the part of railroads and traction companies.

The Chicago *Inter Ocean* says: "The First National Bank, Chicago, has had rather a lean year, due to the low rates of interest prevailing and to the fact that its bond department, one of its largest earners, was turned over to the First Trust and Savings Bank. However, what the stockholders of the First National have lost in this respect they have gained in the First Trust's prosperity, since the stockholders of the two banks are identical. Counting together the figures of the two institutions, in comparison with previous years of the First National, there has been a large deposit expansion during the year, and only a small decrease in profits."

It is said that the pool in Lehigh Valley stock formed in 1902 by E. B. Smith & Co. and amounting to from 40,000 to 60,000 shares has been dissolved, the stock being distributed to members. The stock was accumulated at from 60 to 70. Dividends being assured and E. B. Smith having been elected to the directory, there is no use of continuing the pool. Most of the stock is held for permanent investment. An effort is being made to raise a question about the next Lehigh Valley dividend, which will be acted upon shortly. A declaration of 2 per cent is expected, but there are a few who predict that there will be 1 per cent extra.

The First Trust and Savings Bank, Chicago, finished its first year, Tuesday. The record of the bank is unique in Chicago financial history, and it is believed that it will be many years before some features of the record will be equaled. In the year ended Dec 27 the deposits of the bank rose from nothing to over $17,500,000, breaking all records for rapid growth in the history of Chicago banking. The record of earnings is as remarkable. When the books of the bank are closed up at the end of the year they will show profits close to $500,000. This is 50 per cent earned on the $1,000,000 capital stock of the institution during the first year, something unheard of in Chicago banking.

The report of Fraser & Chalmers limited, for the fiscal period ended June 30 last states that the income for the year has been reduced by £5,412, being one quarter's dividend on the preference shares held in the Allis-Chalmers Company, that company having for the time stopped paying dividends, owing to changes in trade and heavy expenses connected therewith. In spite of this loss of income, the net earnings of £14,511 are only £3,972 less than last year, after allowing for full depreciation on buildings and plant at Erith. In order to provide for further capital required in the early future to meet expenditures on the lines now under construction, and the demands for improved accommodation arising from the constantly growing traffic, the deferred annuitants will be asked at the general meeting to authorize the creation of further debentures.

In the incorporation recently at Springfield, Ill., of the Prairie Oil and Gas Company is said to lie confirmation of the stories that have recently been circulated to the effect that the Standard Oil Company was planning an immense pipe line connecting the new Oil fields of Kansas and Indian Territory with the great refineries at Whiting, Ind. The Prairie Oil and Gas Company is the pipe line company of the Standard Oil in Kansas. Its legal headquarters are at Neodesha, Kan., but its main operating headquarters are at Independence. The company has a capital stock of $3,500,000 in Kansas, and has recently incorporated under the Illinois laws, with a capital in Illinois of $1,900,000. The new pipe line will run from Kansas City to Whiting, Ind., and the route is said to have been already selected. It will cost several million dollars, but probably nowhere near $10,000,000, as stated in Kansas dispatches. Work has already been begun in Kansas.

The *Corn Trade News* of Dec. 12 says: "Our agent, writing from Buenos Ayres under date of Nov. 16, says: 'You on your side apparently overlook the fact that this is a very large country, and that while in the North Wheat may be harvesting, that in the South may not even be in flower. It has always been my rule to cable you should any considerable area be affected, but when the weather is unfavorable merely in one locality representing, perhaps, not one-thousandth part of the total area, I do not consider it of sufficient importance to warrant a cable. Take, for instance, the rains in the early part of November. On reading the morning papers one would see that perhaps half a dozen correspondents in the Province of Santa Fe expressed their fears that they were getting too much rain, while a dozen others would state that the rain was most beneficial. In conclusion, I must state that the crop prospects are better now than they were at this time last year.'"

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market continues quiet but millers are looking forward to a better demand from the South after the New Year.

WINTER WHEAT Ruled quiet. Very limited demand from all sources. Market steady and unchanged, with soft Wheat rather firm. No. 2 Red in store nominally $1 15½@1 17⅛, and fresh arrivals free on board quotably $1 17@1 18 No 3 Red fresh arrivals free on board quotable at $1 11@1 14. No 2 Hard fresh arrivals free on board quotable at $1 12@1 14. No. 3 Hard fresh arrivals free on board quotable at $1 05@1 12.

SPRING WHEAT—A few cars of ordinary Wheat sold to the usual buyers, but the market, generally speaking, was quiet. Choice Wheat met with some demand, but the poor Wheat was dull and slow sale. Prices about the same as last quoted, but so little doing that it is difficult to establish quotations. No. 1 Northern fresh arrivals free on board quotable at $1 17@1 20. No. 2 Northern quotably $1 08@1 15. No. 3 Spring nominally 98c@$1 12, with sales of a couple of cars at 98c@$1 00. No. 4 Spring quotable at 56@60c for very poor to $1 00@1 05 for good to choice, with a sale at 98c

REGULAR WHEAT—Was active and broader than for some days past. Early the tone was weak, but market displayed great recuperative power and sold up 2½c from the low point and closed with May ⅜c higher, while December and July gained a fraction and closed near the top. There was a rush on the part of "longs" to liquidate upon the opening and the general selling run the market into many stop-loss limits, the execution of which added to the depression. Support was of the indifferent kind, but at the decline "shorts" came in causing the rally. The Government report was the early "bear" incentive, showing a crop of 652,399,000 bu, or larger than many in the trade had anticipated. The lower Liverpool cables, too, acted as "bear" factors, Liverpool quoted spot unchanged, but futures were off 1d and the decline was reported as due to reselling of La Plata Wheat in that market. Paris ¼c lower, Berlin off ⅛c and Buda Pesth down ½c. Receipts were light in all directions, but was generally conceded as due to the late storms and unfavorable weather conditions. The map showed no precipitation and fair and milder weather was predicted. The *Price Current* stated that the snow had now disappeared and rainfall had developed a better position for the Wheat fields; that the surface moisture was well absorbed, modifying prejudicial influence from the present freezing weather. An Argentine cable reported light rains and claimed the arrivals of new Wheat at Rosario were of poor quality. Light receipts were predicted and all mills were reported working, having plenty of orders for Flour on hand. Minneapolis messages reported stocks had increased 380,000 bu past five days. *Bradstreet's* available supply decreased 710,000 bu, compared with 789,000 bu decrease for the corresponding week in 1903 The buying on the break was credited to interests which have sold freely the past few days. Argentine shipments this week were estimated at 400,000 bu Winnipeg had 46 cars, against 96 cars last year Kansas City and St. Louis received 69,000 bu, compared with 322,000 bu in 1903. According to the Government report the average weight of Wheat in the Northwest is about five pounds less than in 1903. The crop of 1904 is equal to about 140,700,000 bushels of last year's average weight. Cash sales here were placed as high as 100,000 bu. Receipts at Duluth 77 cars, at Minneapolis 59 cars, a total of 136 cars, against 431 cars yesterday, 542 cars a week ago, and 579 cars last year. Local receipts included 1 car Winter, 3 cars Spring and 11 cars mixed, total of 15 cars, against 37 cars last year. Included in above were none contract grade. There were also 4 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow, 20 cars. There were no withdrawals. Receipts at Western points were 368,282 bu, against 1,004,202 bu last year. At Eastern points 76,049 bu, against 180,733 bu last year. Shipments from Western points 242 389 bu, against 425,250 bu last year and from Eastern points 12,836 bu, against 234,116 bu last year. Shipments of Flour were 17,153 brls. Exports of Wheat in Flour were equal to 90,524 bu.

Future Deliveries of Regular Wheat—Good trade and after sharp break closed higher.

DECEMBER—Sold at $1 11¼@1 13. Opened with sales at $1 11½ to $1 11¼; sold to $1 12, to $1 11¾, to $1 12⅛, to $1 12, to $1 13, to $1 12⅞@1 13, and closed at $1 12⅞@1 13.

MAY—Sold at $1 12⅛@1 14⅝ Opened with sales at $1 13¼ to $1 12¾; sold to $1 12⅝, to $1 12⅛, to $1 12⅞, to $1 13½, to $1 13⅜, to $1 13⅛, to $1 13⅜, to $1 12⅞, to $1 13¾, to $1 13⅝@1 13⅝, to $1 14⅛, to $1 14⅛, to $1 14⅝, to $1 14⅜, to $1 14⅜, and closed at $1 14⅝ bid.

JULY—Sold at 98¼@99c. Opened with sales at 98¾c to 98½c; sold to 98¼c, to 98½c, to 98¼c, to 99c, and closed at 99c.

CORN—The trade was only moderate, and the feeling prevalent a continuation of that developed yesterday. Lower prices ruled, but the close was ⅛c lower for December, with May steady and July off 1-16c The Government report, showing a crop of 2,467,000,000 bu, against 2,244,176,000 bu last year, and the early break in Wheat were the two principal "bear" influences. Receiving and commission houses were conspicuous on the selling side from the start and demand was confined mainly to "shorts." Receipts were 435 cars, against 142 cars last year, and 242 cars were estimated for to-morrow There were 307 cars and 103,400 bu switched from private elevators. Weather was favorable for the interior movement and fair and warmer conditions were predicted. Liverpool quoted spot unchanged and futures ½d lower Western receipts were 1,161,000 bu, against 196,000 bu one year ago. Shipments 455,000 bu and 221,000 bu respectively. Local arrivals were 988,000 bu. Exports were the best in some days at 462 000 bu, of which 206,000 bu was via New York Shipping inquiry here more moderate, but business restricted to some extent owing to the Eastern car situation. *Bradstreet's* available supply increased 2,909,000 bu, compared with 72,000 bu decrease for the corresponding week in 1903, and was looked upon as a "bearish" feature. Argentine shipments this week were estimated at 1,100,000 bu. Car lots were in good demand and more moderate supply. Feeling easy and prices about ¼c lower. No. 2 and No. 2 Yellow closed at 45½c. No. 3 sold at 43c, and closed at 43c. No. 3 Yellow closed about 43c. Cash sales here 75,000 bu and 5 loads at the seaboard.

Corn by sample—Offerings were smaller and the demand fair. Feeling easy, with prices unchanged to ¼c lower. Sales on track and free on board: No Grade sold at 36@40½c. No. 4 at 42¼@43c. No. 3 at 43@43¼c No. 3 Yellow at 43¼@43½c. No. 3 White at 43½c. Billed through: No Grade at 38@40c. No. 4 at 41¾@42½c No. 3 at 41½@42½c. No. 3 Yellow at 41½@42¼c No. 3 White at 42¼c.

Future Deliveries of No. 2 Corn—Moderately active and weak early, rallied some, and closed ⅛c lower to ⅛c higher.

DECEMBER—Sold at 45⅝@45¾c. Opened at 45¾c, and sold at 45⅝c, to 45⅝c, and closed at 45⅝c.

JANUARY—Sold at 43@43¼c. Opened at 43¼c and sold at 43c, to 43¼c, and closed at 43¼c.

MAY—Sold at 45⅛c and 45⅜@45½c. Opened at 45⅜c to 45¼c and sold at 45⅜@45½c, to 45¼@45⅜c, to 45¼c, to 45⅜@45¼c, to 45⅜c and closed at 45⅜c bid.

JULY—Sold at 45½@45⅝c. Opened at 45½c, and sold at 45⅝c, to 45½c, to 45¼c, to 45⅝@45¾c, and closed at 45⅝@45¾c bid.

OATS—Were weaker at the start, as the final Government report made the crop 894,595,000 bu, or 110,000,000 bu more than last year Prices had a small range and closed steady to ⅛c lower. Cash demand was better—150,000 bu. Arrivals were 48 cars, with 31 cars estimated for to-morrow. Duluth had 17 cars and Minneapolis 8 cars. Withdrawals were [illegible],000 bu. Seaboard clearances, 14,000 bu. *Bradstreet's* decreased 903,000 bu. Car lots to go to store were steady. Standard in store closed at 30⅛c

Oats by sample were in light supply and firm. Demand was fair. Sales on track and free on board: No 4 White at 30½c No. 3 White at 30½@31¾c Standard at 31½c. No 2 at 30@30½c No. 2 White at 31½@32c. Billed through Standard at 31½c. At the river: No. 3 White at 29¼@30¼c. Standard at 30¼c. No 2 at 29¼c.

Future Deliveries of Contract Oats—Were slow, but steady.

DECEMBER Sold at 29⅝@29⅝c. Opened at 29⅜c, sold to 29⅝c, and closed there.

MAY—Sold at 31⅜@31½c. Opened at 31⅝c to 31½c, sold to 31½c at close.

JULY—Sold at 31⅜@31½c and at 31½@31⅝c. Opened at 31⅝@31½c; closed at 31⅝@31½c

RYE Remains dull and almost wholly neglected Offerings light and demand light. There was a little call for December and 1c higher price bid, but otherwise the market was unchanged. Only one car received and 2,500 bu withdrawn from public elevator. No exports from New York No. 2 in store nominally 74½c and a car fresh receipts sold at 77c.

Future Deliveries of No. 2 Rye—Quiet. No trading December 74½c bid and 75c asked. May 76½c bid and 78c asked.

BARLEY—There was a strong market for malting of all grades. Supply was light and comprised cars of common to good, no choice to fancy. For such as was offered the market favored sellers. Prices were quoted from steady and unchanged to ½@1c better; there seemed to be different experiences. The range of prices at which there was trading was the same as it has been of late. Very little low grade, feed Barley or Screenings offered. Market without essential change for these. Some fancy Screenings sold yesterday had to be resold at a lower prices to-day, having been refused on account of not coming up to sample. There were posted 21 cars inspected in. Market for Screenings quotable at 26@37c for poor to fancy. Feed Barley at 37@38c if good; below if thin, dirty or otherwise very poor. Low grade malting about 40c, with very dirty cars at 38@39c; fair to good at 41@44c, choice at 45@48c; very fancy in round lots possibly a shade over.

SEEDS—About the only change was in Flax; this ruled a shade lower. The market for Grass Seeds was quiet and usually steady, but Timothy was heavy.

Timothy Was slow and quiet. Cash offerings moderate and demand the same. A holiday dullness is present in the market. Feeling heavy for everything but March delivery and that remains steady. Contract Seed still nominal at $2 72½, January at $2 75, February about $2 80. March salable at $2 85. April nominally $2 87½. Country lots quotable at $2 00@2 65 for low grade to fancy; extra fancy possibly up to $2 75; inferior lower; fair to good, $2 35@2 50, and rough, dirty or hulled, $2 15@2 25. Fifteen cars were submitted to-day as contract Seed, and only two cars passed inspection.

Flax There was ½c decline in the nominal quotations representing to-day's market No business was done aside from the sale of a bag lot. The market was neglected and uninteresting. Movement small all around. Locally only 1 car or 900 bu received and none taken out. At Minneapolis the receipts were 9 cars, at Duluth 17 cars. No. 1 Northwestern was nominally $1 24½; a bag lot sold at $1 23, and No. 1 was quotable at $1 16½. Rejected nominal, depending on quality, at $1 13@1 20. December quotable at $1 16½, and May offered at $1 24½.

Clover Market without offerings and nominally steady as follows: Contract spot Clover quotable at $12 75 March delivery about $13 00 Country lots, common to choice, quotable at $8 00@12 50; very poor lower, and fancy above. Fair to good, $10 50@12 00

Other Seeds—Remain nominally steady No business on the regular market was done. Hungarian at $1 05@1 15 common to choice. Millet, common, quotable at 90c@$1 15 for common to choice, German at 90c@$1 25. Siberian at 80@90c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05 Mustard about 75c@$1 10. Buckwheat nominally easy. Good milling quotable at $1 10; common lower.

HOG PRODUCTS—Little interest was manifested in the market for Hog Products, and the feeling was easier in sympathy with an easy undertone to the Grain markets. Offerings were not very large, and the demand was only fair. Outside orders were small, and local trading was moderate. Prices were rather steady early in the day, but after the early orders were provided for, an easy feeling prevailed, and prices settled back slightly. About the middle of the session a little more steadiness was manifested, but toward the close receded again to inside figures, and closed rather steady. Bulk of the trading was in May contracts Hogs were in moderate supply, and prices ruled higher. Receipts at the leading Western packing points were estimated at 42,000, compared with 78,000 one year ago. Returns of the packing of the West for the week, compared with the returns for the corresponding week in 1903, exhibited an increase of 135,000 Hogs. Since the opening of the season, the increase has been about 15½ per cent. Foreign markets were quiet and steadier, with Backs quoted 6d higher. Domestic markets were without material change. Receipts of Products were quite liberal—of Lard and Meats about 65 cars. Shipments were light—of Lard and Meats about 87 cars. Demand on shipping account was light, and there was little pressure to sell. Sales were limited, and there was no particular change to note in prices.

Mess Pork—Trade in Mess Pork was on a moderate scale, and the feeling was comparatively easy. Offerings were not very large, and the demand was moderate Market opened rather steady on the filling of a few buying orders, but after these were provided for, an easy feeling was developed and prices receded 5c. Toward the close, there was a little more steadiness, and prices rallied 2½@5c, but suddenly receded again 7½@10c, and the market closed comparatively steady around inside figures Shipping demand light, and offerings were small. Cash lots were quotable at $11 25@11 35 for regular, according to quantity, with repacked at 10@15c discount.

DECEMBER Quiet and quotable at $11 25

JANUARY Called for moderately, and offerings rather light Sales were made at $12 47½@12 55. Opened at $12 55, sold to $12 50, to $12 52½, to $12 47½, and closed steady.

MAY—Offerings were not very large and the demand was moderate. Sales were made at $12 77½@12 87½. Opened at $12 87½, sold to $12 82½, to $12 87½, to $12 77½, to $12 80, and closed steady.

JULY—Quiet and steady, with small sales at $12 90@12 92½.

Lard—Rather a light business was transacted in Lard, and the feeling was easier. Offerings were moderate, and there was only a small demand from any source. Foreign advices were unchanged. Prices ruled 5@7½c lower, and the market closed quiet around inside figures Trading mainly local Little demand for shipment, and offerings were limited. Some old on the market at 7½@10c discount on January, while new is held at January figures—quotable at the close at $6 77½ Loose lots in moderate request, with light offerings. Prices were quotably steady at 50c discount on January figures. Leaf Lard was in light demand, with fair offerings. Prices quotably steady at $6 31¼. Neutral in light demand, with only fair offerings. Prices quotably steady at $7 37½@7 50 for No. 1 and $7 12½@7 25 for No. 2.

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Dec. 23.]

Wheat—Conditions which ruled in the local Wheat market during the past week were not such as to arouse any of the activity in man. Everywhere and everybody in the Wheat business took things easily this week, and consequently there is but little new to tell. With the dullness and inactivity of the markets on account of the Christmas season, comes the usual lower prices, the offers of Wheat this week being generally 2 per cent lower than those of the previous week. Even so, the cut quotations there is practically no disposition among the milling trade to buy Wheat. According to a recent report quite a large amount of Grain has been sent to the California metropolis during the past few weeks. The merchants there have been having much the best of it, and offers were afraid that the general trade would become aware of it. At the primary points the receipts report that there has been but little business during the past month. A report from the Walla Walla country says that most of the Wheat there has already passed out of the hands of the growers, who are now not even offering their holdings for sale. It is a holiday market all the way through to the core, and was generally expected. Reports from the various Wheat belts of the Pacific Northwest go to show that a large acreage of Wheat will be sown this year. Some of the Grain men place the estimate as high as 10 per cent above that of last season, but this is considered to be excessive. The rains which have fallen of late have proven a godsend to the growers of Wheat, for previous to the fall the farmers there were getting a little discouraged. There has been at least 10 per cent increase in the acreage, and this same condition is reported by others. Before the rains arrived there was not any real suffering among the stock, but this condition would in a much larger production is agreed to by all. In Umatilla there is some concern among the Wheat growers that there will be some frozen Wheat this season. It seems to be the history of that section that whenever they have a long dry spell it is almost invariably followed soon after by a hard freeze. In that section, therefore, the acreage is reported now to be smaller than that of the previous season. In the Willamette Valley belt conditions have been quite good. We quote Club and Red Wheat at 83c, and Sic; Bluestem, 86c and 88c, and Valley grade 85c and 87c per bu.

Flour—If the Wheat market has been dull this week it was nothing to compare with the quietude which ruled in Flour, the tone of which is almost lifeless. Local sales are now practically nominal, and there is but little going on from the outside. There are some but few inquiries, but they originate in from Eastern points, and sales are few and far between. Some lower offers have been made, but none of these were accepted by the local millers. During the week a report of 5 per cent reduction was received from the Orient, but a few offers at lower figures were submitted by China and were refused. Representatives of Portland mills have just sent to the Orient about a month ago report that they can hardly get the Flour buyers there even interested in the market at the present figures. From recent advices from the Orient and from the local milling interests there is every pro-pect that there will be something of a revival of the buying from that quarter in this market after the turn of the year. The Eastern mill agent who supplies do not look good to them in their own territory, and want to know what they can expect from this section in the way of delivery next month. During the week no changes were made in the local values. We quote export brands from $3 60 to $3 70, local Straights from $3 75 to $4 00, and Patents from $4 00 to $4 75.

Statistician Hyde says: "It has been found impracticable to make a definite estimate of the amount of Wheat lost by milling, owing to the difficulty of drawing a hard and fast line between the millable and the nonmillable. Reports, however, have been made on the average weight of Wheat per bushel in the three principal Spring Wheat States, and such average has been found to be: Ibs in Minnesota, 51 lbs in North Dakota and 50 lbs in South Dakota."

THE WEATHER CONDITIONS.

Extreme Northwest Temperatures, 4 below to 82 above; several points missing; generally clear. Northwest—Temperatures, 2 to 28, generally cloudy. West—Temperatures, 4 to 30, generally cloudy. West—Temperatures, 12 to 32, clear. Ohio Valley —Temperatures, 5 to 16; clear.

Indications are for general moderation in temperature throughout this district, with fair in Southern and partly cloudy in Northern sections.

The Delaware and Hud on Company has declared a dividend of per cent for 1905. This is the same rate as in the previous year. The payments will be distributed quarterly, March 15, June 15, Sept. 15, and Dec. 15.

America		520,000
Germany	4,976,000	1,912,000
Total	20,240,000	20,232,000

ITEMS OF GENERAL INTEREST.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Dec. 10 have amounted to 6,424,000 bu, against 3,112,000 bu in the previous year, and 3,089 000 bu in 1902.

The Texas & Pacific Railroad Company has declared the regular semi-annual dividend of 2½ per cent on its preferred stock, payable Jan. 16. Books close Jan. 5 and reopen Jan. 17.

The Republic Iron and Steel Company has published the office of general manager and the operative department in connection with it, located in Chicago. It has created the office of district manager for the mills and the mining interests.

Charles M. Traver, president of the closed First National Bank of Conneaut, Ohio, filed a personal petition in voluntary bankruptcy in the United States District Court at Cleveland, on Wednesday. His liabilities are placed at $50,000 and assets at $25,000.

The gains in both gross and net earnings in October were larger than in any preceding month of the year. It is believed the reports for November and December will surpass that of October, making the year 1904 the most prosperous ever known by American railroads.

The Panhandle Railroad has declared a semi-annual dividend of 2 per cent on the preferred stock, payable Jan 16 to stockholders of record Dec. 31, also an extra dividend of 2½ per cent on the common stock, payable Feb. 15 to stockholders of record Feb. 4.

The directors of the Pennsylvania Company have declared a dividend of 3 per cent, an increase of 1 per cent over last year. The dividend is payable Dec. 31 to stockholders of record Dec 20 The Pennsylvania Company is a subsidiary of the Pennsylvania Railroad company.

The shipments of Flax Seed from India from April 1 to date amounted to 19,48 1,000 bu (Calcutta 12,58 8 0 and Bombay 6,792,000 bu), against 18,480,000 bu last season (Calcutta 10,874,000 bu and Bombay 5,606,000 bu), and 11,496,000 bu in 1902 (Calcutta 7,952,000 bu and Bombay 3,544,000 bu).

The bureau of yards and docks, Navy Department, Washington, has opened bids for the completion of the dry dock at the Mare Island Navy Yard to the Scofield Company of Philadelphia, Pa., The amount of the contract is $1,585,000 This dry dock is 750 feet long on the floor.

Fire, Tuesday, completely destroyed the four-story warehouse and the entire stock and fixtures of the Puller & Johnson-Shugart Company, Council Bluffs, Ia., the loss on the building being estimated at $50,000, and on the stock of about $100,000, on which was carried insurance of about $75,000.

The receipts of Flax Seed at Bombay for the week ended Nov 21 amounted to 1,063 tons, against 1,126 tons in the previous week and 1,315 tons in the same week last year. The total receipts at Bombay from Jan. 1 to Nov. 24 amounted to 212,0 tons, against 144,423 tons in the same period last year.

The American Sheet and Tin Plate Company in Pittsburg has advanced black sheets and tin plates $2.50 a ton. Galvanized sheets were advanced $1 00 a ton a week ago. This fixes the minimum price of black sheets at $2.15, tin plates at $3.15 base and galvanized sheets of No. 28 gauge at $3.35 per 100 lbs.

The threatened contest for the control of the Illinois Brick Company at the forthcoming annual meeting has been dropped Under an agreement made prior to the directors' meeting on Tuesday, all differences were settled amicably, and it was decided that the present management should be re elected

The Royal Trust Company of Chicago and H. E. Ambler, trustees, have begun suit at Sioux Falls, S. D. for the appointment of a receiver for the Citizens' Telephone Company of that city, and possession of the property under foreclosure proceedings, it being alleged that the company has defaulted in the payment of interest on bonds.

Detroit United Railway Company's directors have declared the regular quarterly dividend of 1 per cent, payable Feb 1. The report that the dividend rate will be increased early in 1905 is denied. There is no immediate prospect of an increase The annual meeting of the company will be held on Feb. 7, 1905. Books close from Jan. 12 to Feb 7.

The trustees of the sanitary fund of New York have rejected all bids for the $1,500,000 4 per cent one to twenty-year bonds recently offered for sale. The bid for which the Emigrant Industrial Savings Bank was the highest bidder No reason has been given for the action, but it is presumed that some legal complication was the cause for it. It is not known whether the bonds will be readvertised.

Canada Southern directors have declared a semi-annual dividend of 1¾ per cent, payable Feb. 1 to stockholders of record Dec. 31. This compares with 1¾ per cent paid in the first case and 1½ per cent a year ago. The dividend is the regular payment provided for under the lease to the Michigan Central, and has been paid for the past year. The lease calls for the payment of 3½ per cent per annum on the stock.

An Indianapolis, Ind., dispatch says: "Hugo Jacobson, representing the Compagnie Generale des Produite Metallurgiques de Paris, a French corporation that sustains the relation to the continent of Europe that the United States Steel Corporation does to this country, is here collecting for available sites for factories. 'We propose to invest $9,000,000 in America to begin with,' said Mr. Jacobson."

The Chicago *Inter Ocean* says: "In spite of the advance of 1oc per 100 lbs on tin plate Dec. 22, the United States Steel Corporation is said to be selling at the old figures to the American Can Company The latter is taking orders for 1905 delivery at reductions of $1 50 per 1,000 in the price of two-pound cans. It is said the two companies are working hand in hand to destroy competition in making cans."

The directors of the American Car and Foundry Company are scheduled to meet about Jan. 1 to act on the dividend of 1¾ per cent on the preferred stock. While it is unlikely that any action will be taken regarding dividends on the common stock, it is expected that the statement of earnings to be submitted at the meeting will partially reflect the improvement that has taken place in the company's business.

President Doogue of the Mergenthaler Linotype Company denies a current report that the company is negotiating for or has made an offer for the Linotype and Machinery Company, limited, of England. He says financial and other considerations of the British company are such that the American company would be injured by any alliance. The American company has new patents and improved machines not developed in Europe.

The next meeting of the board of directors of the Metropolitan West Side Elevated Railroad, Chicago, will be held during the second week in January. It is said that action looking to applying dividends on the preferred stock will be made the principal subject for consideration at the meeting, and that final action in the matter will be taken in January. It is believed that the plan will be somewhat divided on the subject of resuming payments.

The prosecution of the Paper trust was begun Tuesday through an injunction issued against twenty-five Paper manufacturing companies located in the States of Minnesota, Wisconsin and Michigan, whose product has been exclusively handled by the Paper Company. The injunction suit, which was begun by order of Attorney General Moody, was filed in the Circuit Court at St. Paul by James C. Hough, United States Attorney for the district of Minnesota.

The *Mark Lane Express* of Dec. 12says: "Farmers have nothing but praise for the aspect of the autumn-sown crops, and the frosts of last week will, we hope, have done away with any danger to the roots. The mild days of the past week were less welcome than the sharper touch felt on Saturday night. It is to be hoped we may have a frosty spell, with a clear, cold air, over Christmas. They do not wish for keen frost, but a day temperature of 40 degrees, falling to 30 degrees at night, would meet their desires."

The promoters of the United States Leather readjustment plan are to receive $6,200,000 in common stock of the new company for their services This is to go to the Guggenheim Valentine interests of Chicago and the bankers, Kuhn, Loeb & Co. The promoters' allowance is nearly one-half the amount allowed the preferred stockholders for their $12,500,000 dividend arrears, or 25 per cent on preferred stock. It is nearly one-third of the amount allowed the common stockholders for what equity they may have in the property.

The exchange of Republic Iron and Steel certificates has progressed rapidly. Since the first of this month, when the exchange began, there has been 80 per cent of the new securities put out. The Consolidated Stock Exchange and the New York and Philadelphia Exchanges have been very much facilitated by the arrangement to transfer certificates by Philadelphia Trust Company. The offices certificates issued in either city. Since the 14th of December the voting trustee certificates have not been a good delivery, and apparently they will not be issued in short time.

The valuation of Live Stock received at Chicago during 1904, as figured from average prices made by the *Drovers' Journal*, including Stock received by packers, was $269,879,000 or $30,231,100 smaller than for 1903. Comparative values follow:

	1904.	19.3	Decrease.
Cattle	$144,000,100	$168,000,500	$14,000,400
Calves	3,002,000	3,199,900	197,500
Hogs	88,700,000	107,981,000	19,281,000
Sheep	12,300,000	13,800,000	1,500,000
Horses	14,974,300	13,682,000	1,312,3.0
Total	$269,879,000	$301,922,000	$30,231,100

*Increase.

The directors of the National Bank of North America, Chicago, which has declared a second dividend in liquidation, amounting to $20 00 a share on the $1,000,000 capita stock The payment calls for $20,000 One other dividend has already been paid, of $50 00 a share, so that the aggregate dividend will make $80 00 a share received on the stock. As the stock has not been transferable since the first dividend was declared, the present dividend will be made to the stockholders. Settlements will be made as fast as the stock is presented at the Commercial National Bank. Another dividend is expected in about thirty days.

Charles B. Kelsey of Grand Rapids, Mich., C. H. Gout of Chicago, with whom Mr. Kelsey is associated in the ownership of the Florence (Ga.) gas plant, and a number of Western capitalists have purchased light and power plants in a number of contiguous to Wilkesbarre, Pa., and will consolidate them under the name of the Wyoming Valley Light, Heat and Power Company. The new plants are located in Wilkesbarre, but the properties acquired provide light and power for sixteen boroughs and towns in proximity to that city. The new company will begin operations on the beginning of the year and will capitalize at $1,400,000.

The Crucible Steel Company is said to be considering the advisability of issuing scrip in payment of the accumulated dividends on the six per cent preferred stock. It is proposed to make the scrip redeemable in bonds which the stockholders have authorized, but the company has not issued. Under the authority of the stockholders the company cannot issue the bonds below 97½ not. It is suggested, however, that the holders of the preferred stock would be willing to exchange dividend scrip for bonds, at par, if they could also be sure of realize on the back payments at a loss of only 2½ points. The matter is under discussion, but it is not known that any definite action has been approved prospects in the Steel trade have grown strengthened Crucible's position, and there is a fair prospect of the company next year paying its back years of earnings.

North British Agriculturist of Dec. 14 says: "During the past week the weather has been rather variable, varying from the soft and muggy kind to a pinching severity of coldness, which has prevailed over most parts of the country during the inland and higher lying districts the snowfall has completely stopped tillage operations. On the hill grazings the sheep have been rather hard off, well at all, and flockmasters have had an anxious time Generally field work is in a very forward state, and farmers would much prefer to have the country weather in its present days. Turnips are not very pressing. The marketing of Potatoes is being proceeded with, for, although the present prices are not very remunerative, there is a general hope of higher values being realized by spring. Threshing is being carried out to meet immediate requirements, as present prices for Grain are not very remunerative either."

The *Times of Argentina* of Nov 14 says: "A sharp advance in Corn prices has taken place during the past week. The available stock is reported to be less than 300,000 tons, and as the new crop is being shipped, threatens to create a shortage long before the next crop is available. Holders contend that when our available stock is exhausted every remunerative mill will fall in the hands of our American cousins, and, as their proclivities for squeezing are well known, they only sell on an advancing market. So far Corn holders are reporting well, as an advance of 5 per cent has been established during the week. There has been little movement in Flax Seed. There is very little spot Seed available, while sellers for forward delivery are few and far between. The area under Seed cultivation this year is better than it was last year. The weather has not been over propitious owing to wet and late frosts, and, as prices are low and the coming crop is not expected to be everything that is desirable, there is no inclination to plunge into forward operations; meanwhile Seed prices rule weak. The Wheat market has been steady. Buyers are not disposed to do much in new Wheat. The trade is fully expected to harvest one, and it is held that the anticipated enormous supply at the commencement of the season will probably bring down prices. The Maize market is quiet, and are not disposed to pay current figures, although quotations are lower on the week."

One of the probabilities arising out of the reestablishment of friendly relations between the Gould and Pennsylvania railroad systems is the rumor of the Western Union Telegraph Company and the Mackay Company, which controls the Postal Telegraph Company, will be ordered to remove their wires from the Pennsylvania lines. Western Union had done nothing in itself to bring about this order, but the Pennsylvania hostility toward the Gould properties in any way, so that Western Union had to suffer for the sins of others.' Harmonious relations between the Pennsylvania Railroad and the would practically be reestablished, leaving the indefensive Western Union Company alone suffers a loss as a result of the warfare waged a year ago. As matters stand, the loss appears irreparable. Western Union, however, has a large line of competition of property at $1,000,000, while its loss of business is heavy and continuous, since it cannot again be put back on Pennsylvania lines, as Postal Telegraph, the Pennsylvania Railroad has entered into a contract and cannot be disturbed. Of the difficulty thus created there is only one possible solution, which is for the two companies to consolidate, and there is good authority for the statement that this is likely to eventuate, though not in the immediate future.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 981,000 bu, against 1,081,000 bu for the previous week, and 2,916,000 bu for the corresponding week last year. Exports since July 1 were 34,864,000 bu, compared with 87,722,000 bu for the corresponding time last year.

The *Modern Miller* says: "The Winter Wheat crop has been greatly benefitted by moisture from rain and snow, which preceded the late hard freeze. The plant is in excellent condition to withstand winter weather changes. Little Wheat is moving, and in many sections country reserves are reported as being unusually small."

Stocks in New York were affected by an advance in interest rates to 3 to 4 per cent. also by liberal selling. There was also good buying by London. New York Central, which has been a leader of late, turned weak and affected the entire list. In the final dealings the market became irregular for Railway shares and weak for Industrials. Anaconda lost 5 points, and Amalgamated Copper 1¾.

The Secretary's report of business for 1904 on the Chicago Stock Exchange: The past year—1904—has been a satisfactory one. The strike of the packing houses at the Stock Yards affected and depressed business on the Exchange during the summer months, but since then a decided improvement is shown in the amount of Stocks and Bonds traded in. The new year looks bright and hopeful for prosperity. The sales show an increase over last year as follows:

	Stocks, shares.	Bonds.
1904	1,251,177	$5,432,700
1903	1,013,780	3,438,500

Broomhall cables: "Indian Wheat crop—The official crop report of India States that the present acreage of Wheat in the Central Provinces has been increased 7 per cent and in Berar decreased 25 per cent. The condition of the crop in both Provinces is satisfactory at the moment, but rain is wanted. Including the reports on Punjaub and the United Provinces of Agra and Oudh, as given out Wednesday, the former showing a decrease of 10 per cent and the latter an increase of 7 per cent from last year, the present acreage of the four Provinces amounting to about 68 per cent of the total Indian Wheat area is as follows:"

	1904-05, acres.	1903-04, acres.	1902-03, acres.
Punjaub	6,989,200	7,765,700	6,095,200

Total	1,438,000,000	1,271,000,000	1,703,000,000

ESTIMATES COMPARED.

In September last the DAILY TRADE BULLETIN made an estimate of the Wheat crop of the three Northwestern States, which compares as follows with the report of Department of Agriculture on December 28:

States	BULLETIN est., bu	Agriculture est. bu
Minnesota	68,200,000	68,344,000
North Dakota	51,100,000	53,842,000
South Dakota	31,800,000	31,557,000
Total	151,100,000	153,743,000

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market very quiet and sales limited. Prices steady

WINTER WHEAT—Was quiet, trading being very light. A few small parcels of the different grades were taken since yesterday by country millers and a little Wheat was bought by local millers. Feeling was firmer. No. 2 Red in store was quotable $1 14½@1 15⅛ and fresh arrivals free on board at $1 18@1 19. No. 3 Red sold at $1 11 and was quotably $1 12½@1 15. No 2 Hard in store sold at $1 14, and fresh arrivals free on board quotably $1 11@1 15. No 3 Hard fresh arrivals free on board quotable at $1 06@1 12.

SPRING WHEAT—Only a few lots were traded in—chiefly ordinary Wheat—and generally speaking, was quiet. Choice Wheat met with some demand, but the poor Wheat was dull and slow sale. Feeling firmer and quotations higher, but so little doing that it is difficult to establish quotations. No. 1 Northern fresh arrivals free on board quotable at $1 18@1 20. No. 2 Northern quotably $1 16@1 16. No 3 Spring nominally 98c@$1 12, with sales of a couple of cars at 98c@$1 04. No. 4 Spring quotable at 66@60c for very poor to $1 00@1 05 for good to choice, with sales at 75@98c

REGULAR WHEAT—A fair trade and quite active market, with the feeling prevalent again unsettled. Closing prices showed the December up 1@1⅛c, while the May lost ¾c and the July ½c. The strength in the Northwest, better cables and smaller receipts were the early strengthening factors. Liverpool quoted spot steady to ¼c lower and futures ⅛@½d higher. Paris was steady to ¼c lower. Antwerp was unchanged. Receipts at Liverpool the past three days were 680,000 bu and only 64,000 bu of the same from America. Argentine shipped 512,000 bu, making 93,485,000 bu for the year, against 62,240,000 bu during 1903. The visible there was reported 1,176,000 bu, against 1,104,000 bu last week and 552,000 bu one year ago. Receipts in the Northwest were small, and the stock at Minneapolis was reported decreased 50,000 bu yesterday for the first time this season. Duluth stocks said to have increased 385,000 bu so far this week. India shipments (unofficial) were reported at 2,696,000 bu. The map showed continued clear conditions and fair weather with rising temperatures predicted. An early feature was the very moderate speculative offerings, while the demand was quite general. Part of the buying was credited to the Eastern "longs" and local elevator interests. Winnipeg had 70 cars, against 71 cars last year. French country markets were reported off equal to 2½c. Receipts at Kansas City and St. Louis were only 67,000 bu. The *Modern Miller* reported the Winter Wheat crop greatly benefited by moisture, and the plant in excellent condition to withstand weather changes. Clearances for the week were 931,000 bu, and total since July 1 34,864,-000 bu, compared with 87,722,000 bu one year ago. Liquidation and profit taking was the feature the closing hour. "Long" property came out freely, and stop loss limits reached in some instances, and good share of selling credited to Eastern "longs." Receipts at Duluth 44 cars, at Minneapolis 159 cars, a total of 203 cars, against 136 cars yesterday, 603 cars a week ago, and holiday last year. Local receipts included 1 car Winter, 8 cars Spring and 13 cars mixed, total of 17 cars, against cars last year. Included in above were none contract grade. There were also 6 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow, 20 cars. There were no withdrawals. Receipts at Western points were 379,-466 bu, against holiday last year. At Eastern points 111,827 bu, against holiday last year. Shipments from Western points 218,120 bu, against holiday last year and from Eastern points no bu, against holiday last year. Shipments of Flour were 19,961 brls. Exports of Wheat in Flour were equal to 89,829 bu.

Future Deliveries of Regular Wheat—Good trade and market irregular.

DECEMBER—Sold at $1 13½@1 14¾. Opened at $1 13½; sold to $1 14¼, to $1 14, to $1 14¼, to $1 13½@1 13⅝ to $1 14, to $1 13¾, to $1 14¾, to $1 14, and closed at $1 14.

MAY—Sold at $1 13½@1 13⅝ and at $1 15⅝. Opened with sales at $1 14⅝ to $1 14¾; sold to $1 14⅞, to $1 14½, to $1 15½, to $1 15⅜, to $1 15⅝, to $1 14⅞, to $1 15⅛, to $1 14¾, to $1 15⅜, to $1 14½, to $1 14¾, to $1 14¼, to $1 14⅞, to $1 13¾@1 13⅞, to $1 14¼, to $1 13¾, to $1 13⅞, to $1 13⅝, to $1 13¾, to $1 13½@1 13⅝, to $1 13⅜@1 13¾, and closed at $1 13⅜@1 13¾

JULY—Sold at 98⅝@98½c and at 99½c. Opened at 99⅛c to 99⅜c; sold to 99¼c, to 99⅛@99¼c, to 99½c, to 98¾c, to 99c, to 98½c, to 98⅝@98½c, to 98½c, and closed at 98½c.

CORN—A moderate trade, with December weak and the distant futures steadier. December was ½c discount under the May at one time and closed ¾c lower, May up ⅛c and July unchanged. Early strength in Wheat, smaller receipts and lighter Argentine shipments were among the strengthening influences. Cables, too, were higher and acted as a "bull" factor. Liverpool quoted spot steady to ¼d lower, while futures were ¼@⅜d higher. Receipts there the past three days were 254,000 bu, of which 120,000 bu came from America. Receipts were only 177 cars, and 306 cars are estimated for to-morrow. There were 346 cars and 71,000 bu switched from private elevators. Argentine shipments were 1,621,000 bu and the total for the year 100,028,000 bu, compared with 78,217,000 bu year ago. The visible there was reported 2,148,000 bu, against 2,409,000 bu one week ago and 1,817,000 bu last year. Export demand there said to be very moderate. The map showed favorable conditions for the movement and continued fair weather predicted. Exports were the largest in some days 731,000 bu, of which 400,000 bu was via New Orleans. Clearances for the week 1,582,000 bu, against 525,000 bu last year. Primary receipts were 473,000 bu and shipments 636,000 bu. Local arrivals were 284,000 bu and shipments 640,000 bu. Shipping demand fair, but business limited to some extent owing to Eastern car situation. Car lots were in moderate supply and fair demand. Feeling steady and prices ¼@½c higher. No 2 and No. 2 Yellow closed about 43½@44c. No 3 sold at 43¼@43½c, and closed at 43¼c. No. 3 Yellow closed at 43¼c. No. 4 sold at 42½@42¼c. No Grade sold at 39c.

Corn by sample—Offerings were moderate and the demand rather good. Feeling firm and prices steady to ½c higher. Sales on track and free on board: No Grade sold at 30@41¼c. No 4 at 42¼@43c. No 3 at 43½c. No. 3 Yellow at 43½@43¾c. No. 2 Yellow at 43¾c. No. 3 White at 43½@43½c. Ears at 45½c. Billed through: No Grade at 39@41c. No 4 at 41¼@42½c. No. 3 at 41¾@43c. No. 3 Yellow at 41¾@41¾c. No. 3 White at 42½@43c.

Future Deliveries of No. 2 Corn—Moderately active and a little unsettled, closing ⅜c lower to ⅛c higher

DECEMBER—Sold at 44¾@46c. Opened at 46c, and sold at 45½c, to 45⅝c, to 45c, to 45¼c, to 45c, to 45⅛c, to 45¼c, to 44¾c, to 44⅞c; closed at 44⅞c bid.

JANUARY—Sold at 43@43⅛ and 43¼c. Opened at 43¼c and sold at 43⅛c, to 43½c, to 43@43⅛c, and closed at 43@43⅛c.

MAY—Sold at 45⅜c and 45⅝@45¾c. Opened at 45½@45⅝c to 45⅝@45¾c, and sold at 45½c, to 45⅝c, to 45⅜@45½c, to 45⅝c, to 45⅜c, to 45½c, and closed at 45½c bid.

JULY—Sold at 45⅝@45¾c and 46c. Opened at 46c, and sold at 45¾@45⅞c, to 45⅞c, to 45⅝@45¾c, and closed at 45⅝@45¾c

SEPTEMBER—Sold at 46 and 46⅛c.

OATS—Were stronger and gained ⅛@¼c. There was buying by cash houses and moderate offerings. Cash sales were 50,000 bu. Arrivals were 35 cars, with 41 cars expected to-morrow. Withdrawals were 93,800 bu. Seaboard clearances 12,000 bu. Car lots to go to store were steady to ⅛c higher. No. 3 White sold at 31⅛c. Standard in store closed at 29⅞c

Oats by sample were in light supply and prices were called steady to ¼c higher. Demand fair. Sales on track and free on board: No 4 White at 30½@30¾c. No. 3 at 29¾c. No. 3 White at 31@32c. Standard at 31⅝@32c. No. 2 at 30½@30¾c. Billed through: No 3 White at 31@31½c. Standard at 31⅝c. At the river: No. 4 White at 29c@29¼c. No. 3 White at 29¾@30c. Standard at 30½c.

Future Deliveries of Contract Oats—Were firmer and closed higher.

DECEMBER—Sold at 29⅝@29¾c and 29⅞c. Opened at 29¾c, closed at 29⅞c

MAY—Sold at 31½@31⅝c. Opened at 31⅝c to 31¾c, sold to 31½c, to 31½@31⅝c at close.

JULY—Sold at 31½@31⅝c and at 31¾c. Opened at 31⅝c to 31¾c; sold to 31½@31⅝c, and closed there

RYE—Only a limited business was transacted in this market. The feeling was firmer and prices averaged a shade higher. Only one car received and two cars withdrawn from private warehouses. No exports from New York. No. 2 in store sold at 75c and fresh arrivals free on board at 77@78c.

Future Deliveries of No. 2 Rye—Firmer. December 75c asked. May sold at 78½c, and that the closing.

BARLEY—Little Barley was to-day offered and the trade was soon over. Buyers looked the situation over, bought a few cars, found the offerings very small and they usually left the market early. It was distinctively a holiday market. It could not be said that there was anything changed to values. Thirty-three cars came in, but only a small part came on sale. Screenings were quotable at 26@37c for poor to fancy; very few sales. Feed Barley about 36@37c if good; below if thin, dirty or otherwise very poor. Low grade malting about 40c, with dirty cars at 38@39c; fair to good at 41@44c, choice at 45@48c; very fancy in round lots possibly a shade over.

SEEDS—Were quiet, with Timothy and all Grass Seeds steady, but in some particulars Flax was a shade easier.

Timothy—Was quotably steady. A few cash lots offered and no difficulty experienced in disposing of them. Nothing was done in futures. Good demand existed for March with no offerings. Other deliveries neglected. No changes in prices were quotable. Contract Seed remains nominally $2 72½, January $2 75, February about $2 80. March salable at $2 85 and a shade over bid for round lots. April offered at $2 90. Country lots quotable at $2 00@2 65 for low grade to fancy, extra fancy possibly up to $2 75; inferior lower, fair to good, $2 35@2 50, and rough, dirty or hulled, $2 15@2 25.

Flax—No. 1 Northwestern cash and No 1 for May delivery were quoted ½c lower. These were the only changes and there was an entirely lifeless market. Three cars, or 2,700 bu, were received here and none taken out. Northwestern receipts were 28 cars at Minneapolis and 30 cars at Duluth. No. 1 Northwestern was nominally $1 21 and No. 1 at $1 16½. Rejected, depending on quality, $1 13@1 20. December quotable at $1 16½, and May offered at $1 24.

Clover—Was entirely unchanged. Quotably steady, with former prices obtainable, but on the regular market there was no Clover offered. Contract spot Clover quotable at $12 75. March delivery about $13 00. Country lots, common to choice, quotable at $8 00@12 50; very poor lower, and fancy above. Fair to good $10 50@12 00

Other Seeds—Were nominally unchanged from late prices. Inactive because there were no offerings. Salable as below: Hungarian at $1 05@1 15 common to choice. Millet, common, quotable at 90c@$1 15 for common to choice. German at 90c@$1 25, Siberian at 80@90c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05. Mustard about 75c@$1 10. Buckwheat nominally easy. Good milling quotable at $1 10; common lower

HOG PRODUCTS—A little more interest was manifested in the market for Hog Products, and the feeling was somewhat unsettled. Outside orders were a trifle larger. Local trading was only fair. Hogs were in moderate supply, and prices favored sellers. Receipts at the leading Western packing points were estimated at 60,800, compared with about 70,000 one year ago. Foreign advices indicated an easy feeling in that quarter, and Liverpool quotations were reduced 3d on Lard and 6d on Hams, Backs and Cumberland Sides. Domestic markets were quiet and slow. Receipts of Products were good—of Lard and Meats about 29 cars. Shipments were fair—of Lard and Meats about 114 cars. Offerings of the speculative articles were fair, and the demand was only moderate. At the opening, the feeling was rather easy, and a few trades were made at slightly reduced prices. Later, a little more steadiness was manifested temporarily, and prices rallied again. Toward the close, there was some inclination to realize, and a weaker feeling was developed. Buyers were backward, and prices declined to inside figures, and the market closed steady. Some business in the way of transferring contracts from January to May. Demand on shipping account was light, with no particular pressure to sell. Exporters bought moderately, and the domestic demand was light. Sales were limited, and prices were without material change.

Mess Pork—A fair speculative business was transacted in Mess Pork, and the feeling was somewhat unsettled. Offerings were fair, and the demand was only moderate. Early, the feeling was rather easy, and prices ruled 2½@5c lower. Later, there was a little miscellaneous buying, and prices rallied again 2½@5c. At the advance there was some pressure to sell and a weak feeling was developed. Prices receded 7½@10c, and the market closed steady around inside figures. Shipping demand was light and offerings were limited. Cash lots were quotable at $11 15@11 25 for regular according to quantity, with repacked at 10@15c discount.

DECEMBER—Quiet and steady, with small sales at $11 10. Closed at $11 05.

JANUARY—Offerings were fair, and the demand was moderate. Sales were made at $12 35@12 47½. Opened at $12 45, sold to $12 47½, to $12 35@12 37½, and closed steady.

THE WEATHER CONDITIONS.

Extreme Northwest Temperatures, 16 to 38; generally fair. Northwest—Temperatures, 20 to 58; partly cloudy; range mainly 20 to 36. West—Temperatures, 24 to 36; clear. Southwest—Temperatures, 24 to 44; clear. Ohio Valley—Temperatures, 26 to 30; generally fair.

Indications are for continued fair and mild weather throughout the district, with no indications of colder for several days.

A Boston dispatch says: "Despite the fact that the Wool market remains quiet, the supply of unsold material available has seldom been so small as at present. Some of the largest houses practically are sold out of domestic Wool, while all are carrying moderate stocks. It is estimated that the first of the year will see the supply reduced to 25,000,000 lbs. There is a good demand for Territory Wools. Pulled Wools are firm and quiet and foreign grades are steady."

In the State District Court at Houston, Texas, Tuesday, John H Kirby of Houston commenced suit against Patrick Calhoun of Atlanta, Ga, doing business in New York, for stock in the Houston Oil Company of the value of $1,89,300. He alleges that this stock belongs to him and that Calhoun is illegally withholding it. Garnishment against the receivers of the Houston Oil Company and the Kirby Lumber Company has been served to recover property held by them and sums owing them by Calhoun.

THE FLOUR PRODUCTION.

MINNEAPOLIS, Dec. 28.—The *Northwestern Miller* reports the weekly Flour output at milling centers for two weeks, with comparisons, as follows:

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city.

Though there was an increased milling capacity in operation early in the week, all except two mills shut down Saturday morning, and the Minneapolis Flour output for the week decreased 2,500 brls. The quantity of Flour turned out (week of Dec. 24) was 261,740 brls, against 177,185 brls in 1903 and 238,230 brls in 1902. The local mills will not resume operations until to-morrow (Wednesday) and this will make the week's work only about two-thirds its usual length. On this basis the week's production is likely to run not much beyond 200,000 brls.

Trade for the week with Minneapolis mills was of a "holiday character." Sales fell off heavily. Some managers even stated that business was lighter than for the corresponding time a year ago. The upward tendency of Wheat had the effect with some mills of bringing in an increased number of shipping directions on old orders. There was virtually no business done in foreign markets, the holidays seeming to cut off even the few inquiries that are usually made.

The fact that two good sized mills are running exclusively on export orders, grinding Canadian Wheat, and are likely to continue to do so for some time to come, has the effect of taking care of about 4,000 brls of Flour daily and relieves the domestic markets to that extent. This is illustrative of one of the favorable results to be derived from milling foreign Wheat.

Millfeed is strong and tends upward.

The price of Patent Flour was to-day (Dec. 27) advanced 10c per brl by most mills of the Northwest, and that grade is now quotable on the basis of $5 70@5 95 per 196 lbs f. o. b. Minneapolis.

Eastern prices to day (Dec. 27) asked by Minneapolis and outside mills for Patent in wood, were: Boston rate points, $6 45@6 55; New York rate points, $6 40@6 45; Philadelphia rate points, $6 35@6 45; Baltimore rate points, $6 30@6 40; Albany rate points, $6 40@6 50; Utica, Syracuse, Hornellsville and Rochester rate points, $6 35@6 45; Ohio, lower peninsula of Michigan and Indiana, $6 25@6 35; upper peninsula of Michigan, in sacks, $5 95@6 05; Missouri points, $5 85@5 95; Wisconsin, Iowa and Illinois, $6 00@6 10.

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Dec. 29.]

The snow which has covered the Winter Wheat crop for two weeks melted away the past week, with a good general rain and a few days of warm weather. The warm spell has been followed by a sudden fall in temperature, with high winds, accompanied by more snow over the northern and central portions of the Wheat section. Latest reports from our correspondents reflect the condition of the Wheat plant during the few days of warm, rainy weather, and indicate that the Wheat plant has suffered less by the effects of drouth than many had feared, especially in the Ohio Valley, where the drouth was most severe. The plant greened up, with signs of renewed growth, and the impression is that the condition of the plant is better than had been previously reported, and on the whole would seem to be up to the average at this time. What effect the later sudden fall in temperature will have, where the ground was full of moisture and unprotected, will be more fully indicated in next week's reports. Such weather conditions are not regarded as favorable for the tender Wheat plants, though it is yet doubtful whether any serious harm has resulted therefrom. The plant is generally small, but well rooted.

An interesting feature in the conditions of the week which brought about the disappearance of snow and the rainfall in the Winter Wheat regions is the fact that the ground being unfrozen, and the rain coming in a moderate way, admitted of the absorption of the moisture by the earth in a most gratifying manner throughout the sections where there had been the prolonged conditions of drouth. While the rain has been followed by a sudden hard freezing condition the surface moisture has been so well absorbed that the freezing may not prove especially prejudicial to the general position of the Wheat plant.

The inclement weather of the past week interfered moderately with the interior movement of Grain. Otherwise there have been no important changes in the Corn or Oats situation. There has been a fairly good interior feeding demand for Corn, fairly liberal supplies, but no heavy offerings on the market. Interior supplies of Winter Wheat in most sections are reported light. Feeding supplies generally are plentiful.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Dec. 29.]

For the holiday week the marketing of Hogs has been comparatively liberal, although falling decidedly short of recent weekly records. Total western packing 565,000 Hogs, compared with 720,000 the preceding week, and 710,000 two weeks ago. For corresponding time last year the number was 430,000, and two years ago 395,000. From Nov. 1 the total is 5,005,000, against 4,225,000 a year ago—an increase of 780,000, or 18 per cent. There is a continuance of generally good quality of current offerings. Prices have been fairly steady and close slightly higher than a week ago, prominent markets indicating a general average of about $4 55 per 100 lbs, compared with $4 50 a week ago, $4 45 two weeks ago, $4 55 a year ago, $6 30 two years ago, $6 25 three years ago.

The speculative Provision market has been quiet the past week, and the holiday season interfered with business. Price changes have been unimportant, and the week closes with leading articles at Chicago quoted about the same as at the close a week ago. Grain markets continue to influence values. The deferred deliveries are attracting increased attention.

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since November 1, at undermentioned places compared with last year, as follows:

ITEMS OF GENERAL INTEREST.

The St. Croix Shoe Company, Calais, Me., assigned, Tuesday, for the benefit of creditors. The liabilities exceed $150,000; assets not known.

A number of good railroad reports were made, Thursday, including the Reading's November showing for all companies of a net increase of $775,000, and since July 1 of a net increase of $925,000.

The directors of Street's Western Stable Car Line, Thursday, declared the regular quarterly dividend of 50c a share on the common stock, payable Jan. 25. Books close Jan. 14 and reopen Jan. 26.

The Comptroller of the Currency has declared dividends in favor of creditors of insolvent national banks as follows: First National of Jacksonville, Fla., second dividend, 15 per cent; First National, Macon, Ga., first dividend, 20 per cent.

The United States Steel Corporation has unfilled orders on the books for 1905 delivery aggregating 5,100,000 tons. It probably will have 5,500,000 tons by the close of the calendar year. October 1 the unfilled orders amounted to 3,027,436 tons; Dec. 31, a year ago, 3,215,123 tons, and Dec. 31, 1902, 5,347,253 tons, which stands as the record for the year end.

Judge Carter, in the Superior Court, at Indianapolis, Ind., Tuesday, granted a restraining order against the further operation of what is called a plumbers' trust, composed of the plumbers' supply houses of Indianapolis. A party complained that the supply houses would sell goods only to members and he was refused the privilege of purchasing.

The directors of the Wabash Railroad Company met in New York, Thursday, and decided not to make any distribution on the debenture A bonds. In June it was decided that the money which might be used to pay interest on the A bonds was needed for improvements to the property. The directors, at Thursday's meeting, decided to carry out this plan.

A Chicago official of the Corn Products Company was quoted, Wednesday, as saying that December will prove the largest month for sales in its history. The quarter ending with the present month will show up very large in gross, and the net results should be greater on account of steadier prices for finished products and lower prices for Corn compared with a year ago.

The State Bank of Dedham, Iowa, was placed in the hands of a receiver, Wednesday, on the order of State Auditor Carroll, and an effort will be made to liquidate its affairs, which are badly involved through an alleged $15,000 shortage of Cashier A. B. Caton. Caton has admitted his shortage, and efforts are being made to secure settlement. The bank is expected ultimately to pay its depositors in full.

The $7,333,000 common stock of the Atlantic Coast Line Railroad Company, for the listing of which application has been made, is the stock authorized at a meeting of the stockholders a month or so ago to be distributed to old stockholders in the form of a stock dividend. The listing of the stock, of course, is intended to make the dividend of value by making the new shares a delivery on the New York Stock Exchange.

The annual report of the Kansas City Railway and Light Company shows that the gross earnings of the street railway companies for the year ended May 31 were $3,397,436, an increase of 6.58 per cent. Operating expenses increased only slightly, and the gain in net earnings was 10.83 per cent. For the lighting companies, gross earnings were $480,931, an increase of 23 per cent. The net earnings of the lighting companies increased 82.50 per cent.

It comes from high authority that some of the most powerful interests in the management of the Western Stone Company, Chicago, oppose the payment of a dividend, as suggested by several of the directors. The influence against dividends is said to be strong enough to overcome the sentiment favoring a disbursement, and hence action will likely be deferred until next summer. The company's earnings have been very satisfactory during the past year, but the surplus is said to be needed for working capital.

Banks hold $13,683,425 in excess of legal requirements.

The Duluth *Commercial Record* does not agree with the Department of Agriculture in regard to the weight of Wheat in the Northwest. It claims that the test weight of the cargoes leaving Duluth this season is 55 3 lbs, and that the average weight of the Wheat received at Duluth, before cleaning, was 53.8 lbs.

The receipts of Flour and Grain at Chicago for the past week were equal to 6,813,000 bu and the shipments were equal to 3,930,000 bu. For the corresponding week in 1903 the receipts were equal to 3,076,000 bu, and the shipments to 3,093,000 bu. These figures are supposed to include the through shipments of Flour

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 68,000 brls of Flour and 172,000 bu Wheat, against 65,000 brls Flour and 93,000 bu Wheat the preceding week, a increase of 3,000 brls of Flour and an increase of 79,000 bu Wheat. For the corresponding week last year the exports were 277,000 brls of Flour and 1,329,000 bu of Wheat.

The Boston *Commercial Bulletin* has just completed its annual canvass of the Wool supply of the country. It says that Boston greets 1905 with a "startling situation." It finds that the supply of Wool, domestic and foreign, on hand unsold here is the smallest carried over in fifteen years. The *Journal* reports that there are of all kinds of Wool only 29,000,000 lbs on sale in Boston, and that of this small total but 23,500,000 lbs is domestic.

The following table exhibits the inspection of Grain at Chicago during December in the past six years:

	Wheat, cars.	Corn, cars.	Oats, cars.	Rye, cars.	Barley, cars.	Total cars.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market devoid of interest. Buyers will be backward until after the annual inventories are taken. Prices firm.

WINTER WHEAT—Was quiet, trading being very light. Feeling was easy. No. 2 Red in store was quotably $1 15½@1 16⅛ and fresh arrivals free on board at $1 18@1 18½. No. 3 Red was quotably $1 12½@1 15. No. 2 Hard fresh arrivals free on board quotably $1 14@1 16. No. 3 Hard fresh arrivals free on board quotable at $1 06@1 13, with a sale at $1 12.

SPRING WHEAT—Only a few lots were traded in—chiefly ordinary Wheat—and generally speaking, was quiet. Choice Wheat met with some demand, but the poor Wheat was dull. So little doing that it is difficult to establish quotations. No. 1 Northern fresh arrivals free on board quotable at $1 18@1 20. No. 2 Northern quotably $1 16@1 16. No. 3 Spring nominally 98c@$1 12, with a sale at $1 02. No. 4 Spring quotable at 56@60c for very poor to $1 00@1 05 for good to choice, with sales at 68@98c

REGULAR WHEAT—There was a fair trade and decidedly nervous market, fluctuations being frequent within the established range. Closing prices showed the December off 1c, while May gained ⅝c, and the July ¼@⅜c. Buying was led by locals, outside trade being light, and the selling greatly scattered. Receipts were moderate, and it was rumored the Illinois State Report for December would be very "bullish." Northwest cars were 268 cars less than a year ago. The map showed clear conditions, and fair weather was predicted. *Broomhall* estimated the world's shipments this week at 6,000,000 bu and predicted a decrease on ocean passage. Weather conditions in Australia were cabled as favorable. Liverpool quoted spot steady to ½d higher and futures steady to ⅛d lower. Paris came ¼@1c lower. Antwerp was unchanged. Berlin declined ⅝c; Buda Pesth ⅝c. Local weekly receipts were 511,000 bu, and shipments 341,000 bu. The English visible supply increased 796,000 bu. Minneapolis reported stocks increased 80,000 bu the first day of the week, and also reported large Flour sales. Primary receipts this week were 3,718,000 bu, against 3,968,000 bu last week and 6,557,000 bu one year ago this date. English farmers' deliveries were 168,000 bu at 91¾c, against 264,000 bu last week at 91½c. Imports into the United Kingdom this week were estimated at 5,200,000 bu, compared with 5,000,000 bu same week in 1903. Receipts in the Northwest for the week were 2,005 cars, compared with 3,163 cars last week and 3,534 cars one year ago. Minneapolis reported millers there buying No. 2 Northern, the first in some time, and claimed No. 4 Wheat had advanced 10c this week. It was rumored Odessa stocks were now 3,000,000 bu, against 11,000,000 bu one year ago. Baltimore reported large sales of milling Wheat to go South. Late messages stated the United States Attorney General had decided the import duty question in favor of the milling interests. Receipts at Duluth 57 cars, at Minneapolis 267 cars, a total of 324 cars, against 203 cars yesterday, holiday a week ago, and 592 cars last year. Local receipts included 2 cars Winter, 3 cars Spring and 11 cars mixed, total of 16 cars, against 20 cars last year. Included in above were none contract grade. There were also 15 cars and no bu taken from unlicensed elevators. The estimated receipts for Tuesday are 50 cars. There were no withdrawals. Receipts at Western points were 573,037 bu, against 1,027,627 bu last year. At Eastern points 96,182 bu, against 113,681 bu last year. Shipments from Western points 208,514 bu, against 397,374 bu last year and from Eastern points 77,822 bu, against 408,116 bu last year. Shipments of Flour were 17,609 brls. Exports of Wheat in Flour were equal to 157,387 bu.

Future Deliveries of Regular Wheat—Good trade and closing stronger.

DECEMBER—Sold at $1 13@1 14¾. Opened with sales at $1 14½ to $1 14¾, sold to $1 14⅛, to $1 13⅞, to $1 14 to $1 13¾, to $1 14⅛, to $1 13, and closed at $1 13 asked.

MAY—Sold at $1 13⅝@1 13½ and at $1 14⅝@1 14¾. Opened with sales at $1 13⅞ to $1 11; sold to $1 14¼, to $1 13⅝@1 13½, to $1 14, to $1 13¾, to $1 14½, to $1 11, to $1 14⅝@1 14¾, to $1 14½, to $1 14⅝, to $1 14⅜, and closed at $1 14⅝ bid.

JULY—Sold at 98¼@98⅞c. Opened with sales at 98⅞c to 98½c; sold to 98⅝c, to 98¼c, to 98⅞c, to 98⅝c, to 98⅞c, to 98¾@98⅞c, and closed at 98¾@98⅞c.

CORN—A fair trade for the closing day of the year, the tone prevalent being easy. The chief feature was the December liquidation, which carried that delivery to 2¾c under May, or ¼c under the January. Closing prices showed December off 2⅜c, while the May lost ¼@⅜c and July 1-16c. Cables were easy, the weather favorable and country offerings were reported larger. Liverpool quoted spot steady and futures unchanged to ⅛d lower. Receipts were 375 cars, or larger than expected. Weekly receipts were 3,983,000 bu and shipments 1,826,000 bu. Primary receipts this week were 5,994,000 bu, against 3,297,000 bu same week in 1903. Fair weather was predicted by the signal service. There were 366 cars and 93,400 bu switched from private elevators. Shipping demand was only moderate. Buyers were reported filled up at old rates of freight and were not disposed to take hold on the basis of new billing effective January 5. Estimated cars for Tuesday 515 cars. Exports were 397,000 bu. Car lots were in fair demand, with offerings rather liberal. Feeling easy and prices about ½c lower. No. 2 sold at 43¾c and closed about 43½c. No. 2 Yellow closed at 43½c. No. 2 White sold at 43¾c. No. 3 White sold at 43¼c. No. 3 closed at 43@43¼c. No. 3 Yellow sold at 43¼c and closed at 43@43¼c. No. 4 sold at 42½@42¾c, and No Grade at 39c.

Corn by sample—Demand good and offerings fair. Feeling weak and prices unchanged to ½c lower. Sales on track and free on board. No Grade sold at 36@40¼c. No. 4 at 42¼@42¾c. No. 3 at 43¼@43½c. No. 3 Yellow at 43¼@43¾c. No. 3 White at 43¼@43½c. Billed through: No Grade at 37½@40c. No. 4 at 41@42¾c. No. 3 at 41½@42½c. No. 3 Yellow at 41½@42¼c. No. 3 White at 42½@42½c. No. 2 White at 42¾c.

Future Deliveries of No. 2 Corn—Moderately active and weaker, closing ⅛c to 2⅜c lower.

DECEMBER—Sold at 42½@44½c. Opened at 44½c, and sold at 43⅞c, to 44c, off to 43c, to 43⅛c, to 42½c, to 42¾c, to 42½c, and closed at 42½c bid.

JANUARY—Sold at 42¾@43¼. Opened at 43¼c, and sold at 43c, to 43⅛c, to 42¾c, and closed at 42¾c.

MAY—Sold at 45⅛@45½c—not much at 45⅛c. Opened at 45½c to 45⅜c and sold at 45½c, to 45¼@45⅜c, to 45⅜c, to 45¼c, to 45⅜c, to 45⅛@45¼c, to 45¼c, to 45⅛@45¼c, with one tive at 45⅛c, to 45⅛@45¼c, and closed at 45⅛@45¼c bid.

JULY—Sold at 45⅝@45⅞c. Opened at 45⅞c, and sold at 45⅝c, and closed at 45⅝c asked.

OATS—Were sparingly traded in and closed unchanged for May to ⅛c lower for December and ⅛c off for July. Cash houses were moderate buyers and country commission houses sellers. Arrivals were 54 cars, with 67 cars expected Tuesday. Withdrawals were 96,050 bu Standard and cancellations 49,429 bu. Seaboard clearances 8,000 bu. Cash sales 25,000 bu. Car lots to go to store were steady. Standard in store closed at 29⅝c.

Oats by sample were in moderate request and steady, with offerings light. Sales on track and free on board: No. 4 White at 31c. No. 3 White at 31@31⅝c. Standard at 31¾@32c. No. 2 at 30⅛@30¾c. No. 2 White at 32@32¼c. Billed through: No. 4 White at 29½c. No. 3 White at 31¼@31½c. Standard at 31¾c. No. 2 at 30½c. At the river: No. 4 White at 29¼c. No. 3 at 29¼c. No. 3 White at 29¼@30¼c. Standard at 30½c.

Future Deliveries of Contract Oats—Were slow, but with only fractional changes.

DECEMBER—Sold at 29¾@29⅞c. Opened at 29⅞c, sold to 29¾c at close.

MAY—Sold at 31½@31⅝c. Opened at 31⅝c, sold to 31½c, to 31½@31⅝c at close.

JULY—Sold at 31⅝c, opening and closing at that price.

RYE—Was dull and neglected. Feeling easy. Not enough doing and not enough interest in the market to ascertain more than nominal quotations. Only two cars received. There were no withdrawals from store here and no exports from New York. No. 2 in store was quotably about 75c and fresh arrivals free on board about 76@77c.

Future Deliveries of No. 2 Rye—Neglected. December 75c asked. May 76½c bid.

BARLEY—Ruled very quiet. Little Barley came on sale. Demand restricted. Some buyers held off because the goods on sale were not the kind they wanted. All desired to clean up since there would be no market again until Tuesday. Only 21 cars were posted inspected in. Screenings were for the most part nominal and quotable at 26@37c for poor to fancy. Feed Barley about 36@37c if good; below if thin, dirty or otherwise very poor. Low grade malting about 40c, with dirty cars at 38@39c, fair to good at 41@44c, choice at 45@48c; very fancy in round lots possibly a shade over.

SEEDS—There was a typical holiday market—practically nothing doing. Flax prices weakened again and that was the only change in prices.

Timothy—Was quotably steady. No change could be learned of. Cash offerings were small. No speculative interest was shown aside from bids made for March delivery. Sellers generally were scarce. Some Seed mixed with Barley sold at $2 37½. For contract spot Seed there was a nominal quotation of $2 72½. January quotable at $2 75, February about $2 80. March salable at $2 85 for small lots with $2 87½ bid for 25 cars and $2 90 bid for 50 cars. April offered at $2 90 and $2 87½ bid. Country lots quotable at $2 00@2 65 for low grade to fancy; extra fancy possibly up to $2 75; inferior lower; fair to good, $2 35@2 50, and rough, dirty or hulled, $2 15@2 25.

Flax—There was ½c decline quoted, but it was a nominal reduction as no business transpired. For No. 1 Northwestern $1 23½ was bid and $1 16 bid for No. 1. Rejected was nominally $1 13@1 20. May delivery, the only future quoted, nominal at $1 23. Local receipts 1 car or 900 bu, and taken out 1 car or 1,034 bu. Minneapolis got 86 cars and Duluth 35 cars.

Clover—Nominally unchanged. There was no trading. Contract spot Clover quotable at $12 75. March delivery about $13 00. Country lots, common to choice, quotable at $8 00@12 50; very poor lower, and fancy above. Fair to good, $10 50@12 00.

Other Seeds—Quotably steady and former prices obtainable. Offerings were absent. Hungarian $1 05@1 15 common to choice. Millet, common, quotable at 90c@$1 15 for common to choice. German at 90c@$1 25. Siberian at 60@80c, Broom Corn Millet at $1 00@1 15, and Early Fortune about 85c@$1 05. Mustard about 75c@$1 00. Buckwheat dull; good milling quotable at $1 10; common lower.

HOG PRODUCTS—Trade in a speculative way in Hog Products was fair for the closing day of the week, and the feeling was a little unsettled. Outside orders were moderate, and local trading was only fair. Receipts of Hogs were larger than generally anticipated, and prices ruled lower, and this feature had a weakening influence on the market early in the day, and caused a slight decline in prices. At the reduction, the demand improved, mainly from "shorts," and in sympathy with the steadier feeling in Grain, and a firmer feeling manifested. Offerings not so free and prices rallied again, and the market closed rather steady. Fairly good supply of Hogs estimated for the coming week. Receipts at the leading Western packing points were estimated at 63,000, compared with 54,000 one year ago. Foreign markets were reported steadier, but Backs were quoted 1s lower. Domestic markets were quiet and prices steady. Receipts of Products were moderate—of Lard and Meats about 14 cars. Shipments were small—of Lard and Meats about 65 cars. Demand on shipping account was fair, especially for Pickled Meats, and offerings were moderately free. Sales were somewhat larger, and prices without material change.

Mess Pork—A fair speculative business was transacted in Mess Pork, and the feeling was somewhat unsettled and prices rather irregular. Offerings were fair, and the demand was moderate. An easy feeling prevailed early in the day, and prices ruled 2½@5c lower. At the decline the demand improved, and prices rallied 7½@10c, and the market closed comparatively steady. Shipping demand was light, and offerings were small. Cash lots quotable at $11 05@11 15 for regular, according to quantity, with repacked at 10@15c discount.

DECEMBER—Quiet and quotable at $11 05.

JANUARY—In fair request and offerings were not very free. Sales were made at $12 32½@12 40. Opened at $12 35, sold to $12 32½, to $12 35, to $12 32½, to $12 40, to $12 32½, to $12 37½@12 40, and closed steady.

MAY—Offerings were fair, and the demand was moderately active. Sales were made at $12 72½@12 82½. Opened at $12 72½ to $12 75, sold to $12 72½, to $12 75, to $12 72½, to $12 80, to $12 75, to $12 82½, to $12 80, and closed steady.

Lard—Only a moderate business was reported in the Lard market, and the feeling was rather steady. Offerings were not very large, and the demand was somewhat limited. Foreign advices were unchanged. Prices were about 2½c lower early, but rallied again 2½@5c, and the market closed rather steady. Trading was mainly local. Demand on shipping account was light, and offerings were moderate. New was quotable at about January figures closed at about $6 77½. Loose lots were in moderate request, with light offerings. Prices were quotably steady at 25c discount on January figures. Leaf Lard was in light demand, with fair offerings. Prices quotably steady at $6 25. Neutral in light demand, with only fair offerings. Prices quotably steady at $7 25@7 37½ for No. 1 and $7 00@7 12½ for No. 2.

DECEMBER—Quiet and quotable at $6 70.

JANUARY—In moderate request and the offerings were only fair. Sales were made at $6 72½@6 77½. Opened at $6 72½, sold to $6 75@6 77½, to $6 75, to $6 77½, and closed steady.

MAY—Offerings moderate and the demand was only fair. Sales were made at $7 00@7 05. Opened at $7 00, sold to $7 02½@7 05, and closed steady.

JULY—Quotable at $7 12½.

Short Rib Sides—Trade was fair in the market for Short Rib Sides, and feeling was a little unsettled. Offerings were moderately free, and the demand was fair. Early there was a little pressure to sell, and prices ruled about 2½c lower. Later, there was a fair general inquiry, while there was less pressure to sell, and prices rallied 5@7½c, and closed comparatively steady. Shipping demand was light and offerings were moderate. Cash lots were quotable at $6 12½@6 37½ according to weight and age.

JANUARY—Offerings were fair, and the demand was moderately active. Sales were made at $6 35@6 42½. Opened at $6 35, sold to $6 37½, to $6 35, to $6 40@6 42½, and closed steady.

COMMERCE OF CHICAGO.

1904.

Receipts of Flour and Grain Moderately Decreased.

TOTAL SHIPMENTS OF FLOUR AND GRAIN CONSIDERABLY REDUCED.

Trade in Flour Fair--In Grain, Seeds and Provisions Fairly Large.

Speculative Trading in Grain and Provisions Rather Liberal.

RECEIPTS OF HOGS, CATTLE AND SHEEP SOMEWHAT SMALLER.

Slaughtering of Live Stock Reduced Moderately—Movement of Provisions Rather Good.

OFFICE OF THE DAILY TRADE BULLETIN,
CHICAGO, December 31, 1904.

In presenting the usual annual review of the Commerce of Chicago—covering the trade in Flour, Grain, Seeds, Provisions, and Live Stock—for the year 1904 it is with regret that the publishers of the DAILY TRADE BULLETIN have to chronicle a decrease in most branches of business. A falling off in some of the crops in the country tributary to the Chicago market, and the apparent indifference of some of the railroads to encourage trade in this direction—in fact, to divert it elsewhere—partially accounts for the reduction in the season's trade. The "long haul" is in favor with the railroad officials, and they are making efforts to enlarge this branch of their business, which must be, to some extent at least, at the expense of the larger distributing markets. However, the Commission Merchants of Chicago present rather a creditable business showing, notwithstanding the adverse circumstances surrounding them. The aggregate receipts of Flour and Grain show a fair decrease compared with those of 1903, and the shipments are also materially less. The strike of vessel employes at the opening of lake navigation retarded the movement by the water route. The inspection of Grain shows a material reduction in the number of cars examined and passed upon, but car loads are gradually gaining in size, and the decrease in receipts was not as marked as indicated on the face of the returns. Elevator capacity for the storage of Grain was increased about 8,000,000 bu, and in the aggregate is now 69,000,000 bu. In the speculative market, trading in Grain was quite active, and fluctuations in prices were frequent, and in some cases within rather wide ranges. Outside operators traded less freely than for some time past, and a larger proportion of the business was credited to professional speculators. In the market for cash Grain, there was quite a good business transacted, especially in Corn, Oats, Barley, and Hay, while in Wheat, Flax Seed and Grass Seeds, business was only fair. Prices of all these articles were quite satisfactory to producers. Speculative trading in Provisions was fairly active, with the bulk of the business in deliveries distant from the cash market. Prices fluctuated frequently, and within rather wide ranges. Shipping demand was quite good, though checked to some extent by the labor troubles during the summer months. Interior packers sold their Products in this market with considerable freedom. Facilities for storing Provisions were somewhat enlarged during the past year. Export demand was somewhat limited, while the domestic trade was quite good. Packers sold with considerable regularity, and toward the close the year the supply of some descriptions was about exhausted. The receipts of Live Stock of all kinds were somewhat lighter than during 1903, but about 11,450,000 head of Live Stock were slaughtered and the Products readily disposed of. The shipments of all kinds of Live Stock were materially enlarged. Business on the Chicago Stock Exchange was rather active, being stimulated to some extent in sympathy with the trading in Wall Street. Stocks and Securities met with considerable favor, and the lists were somewhat extended. Financial affairs were in good condition throughout the year. Bankers reported rather an active business, the clearings of the associated banks showing an increase of about 2½ per cent, but the low rates of interest prevailing made banking a little less profitable. The demand for financial assistance to move the crop was less urgent, interior bankers and their depositors being in a more independent position, and bank officials had to depend more on the local and near-by demand in granting favors. The mercantile trade was rather good in all departments—possibly not quite as large as during 1903 feeling to some extent the falling off in the receipts of Grain and Live Stock, as these branches of business are to a great extent reciprocal and exchangeable. Manufactures of all kinds fell off somewhat during the year, partially due to labor troubles. All the railroads centering in Chicago transacted a good business during the year. Passenger travel was stimulated to some extent by the St. Louis Exposition, and the general miscellaneous movement of freight was rather profitable. Rates were well maintained—possibly too well to satisfy shippers generally. A strong effort is being made to pass a law which may be more equitable to shippers throughout the country, and merchants are confident that ultimately the effort will be successful. Freight rates by the water route were quite satisfactory to shippers, but the movement of Grain by lake was not as liberal as during the previous year. The movement of farm Products at Chicago during the year 1904, compared with the returns for the previous year, exhibit increases in the receipts of Flour, Corn, Barley, Timothy Seed, Clover Seed, Other Grass Seeds, Broom Corn, Hay, Cured Meats, Canned Meats, Dressed Beef, Beef in packages, Pork, Lard, Cheese, Butter, Dressed Hogs, Live Hogs, Hides, Wool, and Shingles, and decreases reported in Wheat, Oats, Rye, Flax Seed, Potatoes, Cattle, Sheep, Lumber and Salt. The shipments during 1904, compared with those of 1903, exhibit increases in Flour, Barley, Other Grass Seeds, Flax Seed, Broom Corn, Cured Meats, Cheese, Butter, Dressed Hogs, Cattle, Sheep, Hides, Wool, and Lumber, and decreases in Wheat, Corn, Oats, Rye, Timothy Seed, Clover Seed, Hay, Canned Meats, Dressed Beef, Beef in packages, Pork, Lard, Potatoes, Shingles, and Salt.

A Good Trade in Flour.

A good business was transacted in the local Flour market during the past year, the trade being particularly active during September, October and the first half of November. The volume of business was quite large and the prices obtained were as a rule satisfactory most of the year. The production was somewhat larger than last year, a new mill with a daily capacity of 3,000 brls having been constructed since our last review. Prices during the year just closed compared with those of Wheat were relatively lower, as millers followed the Wheat market even more closely than in former years and changed prices frequently with that cereal. The bulk of the local production, as customary, was placed with city jobbers and the domestic trade, buyers in most instances pursuing the old policy of taking hold only as their wants necessitated and at no time carrying very large stocks. There were very few periods when the local miller was able to secure a reasonable profit in shipping to foreign markets, and there was practically no foreign business after the sensational rise in Wheat values last fall. Here and there, however, moderate sized lots sold to go abroad, as the old world must have the American Flour for blending purposes. Flour made from the lower Wheats of Argentina, Russia and, in fact, all other countries will not be accepted by the average Continental or United Kingdom baker before it has been touched up with the white product manufactured in the United States. During the spring months sales to go to the other side were limited, the glowing accounts regarding the outlook for the India Wheat crop and large quantities of Breadstuffs afloat causing the European buyer to hesitate in providing for future wants. Rail rates as well as ocean were fairly satisfactory this year, there being less discrimination against the local market in favor of the Northwest, and this feature enabled millers to compete with their larger rivals in that section of the country. Fluctuations in Flour values were somewhat wider than those of the year previous. Standard Patents covered $1 70 range, ruling the lowest in January at $5 10 and the highest in October at $6 80. During the year 1903 the range was $4 00@5 10. In 1902 the range was $4 00@4 40. Winter Patents ranged at $4 20@5 60. Bakers at $2 80@4 00, low grades $2 10 @2 90 and White Rye $2 95@4 55. The inward and outward movement was larger than of the year 1903, the receipts being about 8,780,000 brls and the shipments 7,217,000 brls. During the year 1903 the receipts were 7,780,000 brls and the shipments 5,844,871 brls. March was the month of largest receipts, 1,313,885 brls, and August the smallest, 517,105 brls. Local stocks were at no time very large, the greatest supply being on April 1, when 41,000 brls was on hand, and the smallest on January 1, 17,700 brls. Early in the year consumers of Flour the country over purchased good sized quantities, believing the outbreak of the Russo-Japanese war would cause a sharp rise in values. Large quantities were bought on speculative account, and later on millers had to compete with the speculator. Many of the city mills were in consequence obliged to close down in April and May. During the early summer the market was very quiet, most buyers not believing in the Wheat advance. In August the general situation became more animated, the steady advance in Wheat causing buyers to take hold with greater freedom. Bids from abroad were the best of the season, but in most instances were prohibitive. With the advent of fall the demand became quite urgent, and it was at this period that the best business of the year was booked. Many of the local mills had their output sold 30 to 60 days ahead and the production was liberal. The inferior quality of the Winter Wheat crop caused millers some anxiety, as also did the poor quality of the Spring Wheat crop. Millers claimed it required 5 bu to 5 bu 10 lbs of good Spring Wheat weighing 52½@54½ lbs per bu to make a barrel of Flour instead of 4½ bu as in former years. With the reaction in Wheat values toward the close of the year the situation again became dull and stagnant and so continued up to the close of the year. Exports from all parts for the year were 11,000,000 brls, compared with 16,500,000 brls in 1904, 17,998,000 brls in 1902 and 19,234,000 brls in 1901.

The following table shows the range of prices of the various grades of Flour each month during the past year.

Wheat Summary for 1904.

The speculative transactions in Wheat were on a liberal scale during the past year, but the cash business was of a moderate character. The domestic demand for milling purposes was fair, but the shipping, and particularly the export trade, fell far short of the average. The fluctuations covered a wide range and were most marked during August and September, especially so in August, when the price in the leading speculative future was advanced about 25c. As in the past years extreme prices for cash were paid in the way of premiums by millers to secure choice Wheat, and this year the greatest premiums prevailed for No. 1 Northern. The damage to the Spring Wheat crop by rust cut the supply of choice Wheat short and very little of it reached the Chicago market, but was secured and held by the millers in the Northwest. Besides the regular every day influences, such as the demand, movement, weather, exports, war news, etc, the damage to the crop in the Northwest created the excitement and furnished the principal food for speculation. At one time the Winter Wheat crop was estimated 415,000,000 bu but this was cut down in May to 353,000,000 bu, and the aggregate crop of Winter and Spring early estimated indicated a yield of 630,000,000 bu, which was reduced to somewhat about 550,000,000 bu. Foreign crops on the whole were good, with France and England short of last year, and the world's crops estimated 300,000,000 bu smaller than a year ago. The quality of the American crop was below the average, the Winter Wheat being damaged some by excessive rains, and the Spring Wheat by rust. The percentage of contract Wheat received in the Chicago market was very small. The visible supply at the beginning of the year was 38,104,000 bu and reached 40,600,000 bu the last of January, after which there was a steady decrease until the last of August when the visible supply was down to 11,987,000 bu, and from this date commenced to increase, and was nearly 40,000,000 bu by the last of December. During 1903 the largest supply was 50,000,000 bu. The export movement of Wheat and Flour for the year 1904 since January 1, was about 65,000,000 bu, against 161,000,000 bu the previous year and 210,000,000 bu for the year 1902, and 268,000,000 bu for the year 1901. Cash Wheat during January ranged at 81¼ @93¼c—the extreme prices being the market for No 2 Red, which brought 3@5c premium over Spring Wheat grades. There was an almost steady advance from the opening of the month to close. The war news in the far East was a disquieting feature and was one of the principal factors on the market, but at the same time there were rumors that a certain firm had a very strong hold on the market and was shaping things to give the "short" interest a sharp "squeeze," if not, carry a deal which might terminate in a "corner." Conditions all seemed to favor the "bull" interest as was evidenced with what ease the market was controlled. Local stocks were comparatively small, the receipts very light and there were no additions made to the stocks, in fact the daily arrivals of all choice Wheat were readily taken by millers and shippers and scarcely enough received to supply the requirements. The visible supply was much below the quantity in sight at the corresponding dates a year ago. On the other hand, the "bear" interest advanced the argument that farmers' holdings were undoubtedly larger than a year ago, also pointed to the light export movement and the much larger European stocks than a year ago. Trading was within a much higher level than the year before and the "short" interest lived in hopes that a sharp break would result when the "longs" got ready to sell. Such were the conditions during the month of January. The winter was an unusually severe one, but the Winter Wheat plant was amply covered with snow, excepting in some portions of the Southwest. During February prices ranged at 86c@$1 10 with Red Winter maintaining the premium of 3@5c heretofor noted. About the same conditions prevailed at the commencement of the month, but the virtual breaking out of the war between Russia and Japan on the 8th and 9th of the month influenced general buying. Outsiders entered the market as buyers and the very heavy trading carried market beyond the control of any one party. Excitement ran high as is usually the case during war times and the fluctuations of prices were severe. But it was quiet evident that some parties were loaded up heavily and this excitement gave them a good opportunity to unload. Realizing became general. During the early part of February the disastrous fire occurred in Baltimore and this helped to unsettle and depress the market. After the market had a break of a few cents from the high point the "bull" interest gave support to the market and prices again shot up rapidly. The influences which helped the advance were the war news and unfavorable news regarding the growing crop, and although it was too early to get much of any idea of the growing Wheat yet the reports gained more credence, especially those from the Southwest where it was claimed the growing Wheat had had insufficient snow covering and a lack of moisture. The report later that the British fleet had left to intercept the Russian fleet should it attempt to pass through the Dardanells also proved to be a disturbing element and helped to carry prices to the high point reached, that is May delivery sold up to $1 09. After this very heavy realizing brought about a decline of nearly 10c, May selling to 96¾c the last day of Febuary. During March cash No. 2 Red ranged 89¾c@$1 02⅞ and No. 1 Northern at 88¼@98¾c showing Red to have been held at good premium. The selling pressure which was brought to bear on May future during February continued until March 9th when May touched 90¾c—or about 18¼c below the high point reached in February. The free liquidation and very severe decline caught a great many stop loss orders, which helped to demoralize the market. The cash demand which had been very light on account of the high prices also a factor favorable to the "bear" side as was also a freer movement in the receipts, an increase in the quantity on passage and largely increased world's shipments. Russia's exports were very heavy. Rains in the Winter Wheat belt were a weakening factor. The failures of the "bull" Cotton clique acted somewhat against the market. But from 90¾c early in March, prices for May worked back again to 97⅞ largely on the continued unfavorable crop news and the manipulation of the market, the "bull" interest evidently using the May future to influence the July which it was claimed had been sold heavily. During April cash No. 2 Red covered a range of 93c@$1 02⅜ and No. 1 Northern in store ranged at 85½@96¾c. The higher prices prevailed the early part of the month and the lower between the 20th and 26th of the month. The decline was attributed to very general realizing. Operators had loaded up on the expectation that the Government crop report would be "bullish." In this they were not disappointed, for the report made a condition of 76.5 against 86.6 December 1, 1903. The area was reported at 32,016,000 acres, indicating a yield of about 415,000,000 bu. While the condition was as low as had been expected, yet the report failed to have any "bullish" effect on the market, but to the contrary brought out heavy selling only when the market failed to respond and there was general selling, the decline bringing out Wheat held on stop "loss" orders. There was some rain in the Winter Wheat districts where rain was badly needed and this had a weakening, effect as did also the very light export clearances. Foreign crops were genererally reported in good condition, excepting Russsia where too dry weather was reported and conditions varied considerably. However, the weakness continued during most of the month, but toward the close a firmer feeling again developed. The month of May developed a stronger tone and some advance in prices, especially for May delivery and cash, with the range of No. 2 Red for the month $1 00@1 06 and No. 1 Northern at 87¾c@$1 01½. No very important outside influences were brought to bear upon the market, nothing outside of the usual routine character, excepting it was the Government crop report and even this fell flat to a certain extent as the private reports had forecast the nature of the report. Speculators therefore acted rather indifferent. The report when made public showed an abandoned acreage of 15.4 per cent, 27,063,000 acres, and indicated a possible yield of 353,000,000 bu, against an estimated yield in April of 415,000,000 bu. But the very small local stocks made "shorts" a little uneasy and to their covering of the nearby futures was the advance mostly attributed. The stock of contract Wheat in May was down to 285,000 bu. The small stock and small receipts made July "shorts" feel that they would have to look to new arrivals to fill their contracts and being little dubious about that felt more disposed to cover. During June No. 2 Red ranged at 93c@$1 06 and No. Northern at 92c@$1 00. Price changes were small and the tendency was downward, with July the principal future, advancing the first week about 4c, and then declined 6c. The party who was credited with being the principal holder of the contract Wheat make no move to force the market. The June crop report made the aggregate Spring and Winter Wheat yield equal to 630,000,000 bu, against 637,000,000 bu crop for the year 1903. The India crop too had a sort of branch influence being reported 353,000,000 bu, against 292,000,000 bu last year and an average crop the last five years of 291,000,000 bu. Just at the close of June the market steadied up some by the firmer tone of foreign advices, a wet harvest in the Southwest, unfavorable advices regarding the crop in that section and an unusually small visible supply. July brought about some important changes and an almost steady and uninterupted advance from start to finish. No. 2 Red covered a range of 94½c @$1 12 and No. 1 Northern 94½c@$1 03½; the No. 2 Red up to about the middle of July brought 8 to 10c premium, which was lost before the close of the month. Prices for the September delivery advanced 10@10½c and the sharp advance was due to the advantage the 'longs' had over the market, helped by the unfavorable crop news. The regular July Government report was favorable, but the advices from the Southwest from July 1 to July 15 were very bad, and reported heavy damage by rains, sprouting and moulding. About this time some reports also indicated rust in some of the Spring Wheat in Iowa and South Dakota. "Shorts" became alarmed and covered freely. The month of August found prices again higher with No 2 Red ranging at 94c @$1 13 and No 1 Northern at $1 02@1 20. The September delivery showed further advances of about 24c up to the 22nd of the month and the December and May deliveries advances of 25@26c, after which a reaction set in and before the close of the month 7@8c of the advance was lost. The excitement which naturally attended this sharp advance was attributed mainly to the unfavorable crop reports received principally from the Spring Wheat sections. Advices came pouring in that black rust had seriously damaged the crop in the Northwest, and that the infection was spreading rapidly and gone over a very wide area. Northwest operators sent in large buying orders, and the country in fact went buying mad, and eclipsed all other news which had secondary effect. There was enormous buying. "Shorts" covered freely, and bid over each other in order to do so, and there was extensive speculative buying for higher prices. But large profits which some of the early buyers had in sight naturally induced selling and the realizing brought about the reaction attended to. September proved to be another worrisome month to the trades in Wheat. Cash No 2 Red ranged at $1 05½@1 18¼ and No. 1 Northern at $1 10@1 22. It was this month that prices reached the highest point. The December future started in with a weaker feeling and a decline to $1 05⅛ and May $1 07¾, but again started up and sold to $1 18¼ and $1 18⅞ respectively followed by a break of 9@9½c, and another partial rally before the close of the month. The September Government report confirming the extent of the damage and the general situation as already given out by private sources, carried the market to the high point. The reports made the average condition of Spring Wheat 66.2 per cent, against 87.5 the month previous. On this condition the Spring Wheat indicated a yield of 202,000,000 bu, and with 328,000,000 bu of Winter aggregated a total crop of 530,000,000 bu, against 637,000,000 bu a year ago, and 670,000,000 bu two years ago. While the market was decidedly sensitive, it was quite evident that the reports of bad crops had become less effective and that full allowance in prices had been made for the extent of the damage. Hence operators were again willing to take into consideration other influences. The foreign situation was not strong and the world's shipments were large, Russia's contributions about this time being unusually heavy. Cables did not respond to the upturn here very freely and the foreign demand was disappointing. Besides the weather in the Spring Wheat sections had been more favorable and enabled the finishing of harvest. During October No 2 Red was quoted at $1 09¼@1 19½ and No. 1 Northern $1 15@1 22, and the market for futures very unsettled; December sold at $1 07@1 16⅛ and May at $1 70¼@1 15⅛—it will be noticed that December passed the May future by 1¼c, and was quoted one time 1⅜c over. The month started in easy on the rumors of large shipments of cash from Duluth, and influenced by the large receipts in the Northwest, and the large yield in Argentine, being reported at 131,000,000 bu, against 118,000,000 bu last year. The October crop report, too, indicated 21,000,000 bu more Winter Wheat than the previous report. But there was a "short" interest out, and when demand to cover started in, market responded readily, and accounts for December passing the May delivery. The month of November showed moderate fluctuations, with cash No. 2 Red quoted at $1 09⅞@1 18½ and No. 1 Northern at $1 15@1 20. The December future sold between $1 06⅛@1 15 and May at $1 08@1 14½. Early in the month there was a weak feeling and a moderate decline influenced by liquidation of "long" property, due in part to the fine weather, the very limited cash demand and large world's shipments. But it was only for a few days, when the tide turned again in favor of higher prices, on the report of continued too dry weather in the Winter Wheat districts, and reports of Hessian fly, coupled with the rumor of war possibilities between England and Russia. Top figures, however, were not maintained and at the close of November prices were at about the lowest point for the month. During December slight changes occurred and fluctuations were confined within rather narrow limits, until after the 20th of the month when prices started up again. No. 2 Red ranged at $1 09¼@1 17 and No 1 Northern at $1 15@1 20. The May future sold at $1 08½@1 14⅛. The influences were of the usual character and not sufficient to cause any great change excepting that the fall of snow gave moisture to sections where it was needed and helped to bring about an easier feeling.

An Immense Trade in Corn.

There was a very heavy speculative trade in Corn during the year just closed, and fluctuations were wide and at times on the sensational order. The volume of business was undoubtedly larger than that of the year preceeding, the market ruling animated from the start. Prices covered a fair range and were decidedly irregular and unsettled, particularly with the approach of May. The low price on cash Corn was in January—42¾c—and the high point in November—58¼c. Last year the range was 12c, and the year prior 44@88c. While speculative operations showed some increase, the actual amount of Corn handled last year was about the same as during the year 1903. The inward and outward movement, was liberal, showing a slight increase compared with last year. Receipts will be about 100,500,000 bu, as compared with 98,547,000 bu in 1903 and 50,622,000 bu in 1902. Shipments were about 74,800,000 bu, against 90,170,000 bu in 1903 and 45,557,000 bu in 1902. September was the month of largest receipts, 13,578 cars, or 14,801,290 bu, and the shipments during the same month were 12,361,629 bu. Exports for the year will aggregate about 41,500,000 bu, as compared with 90,250,000 bu in 1903, 12,726,000 bu in 1902 and 103,362,000 bu in 1901. The largest receipts were during June, July, August and September—about 41,000,000 bu. The yield this year turned out better than expected earlier in the season, as was the case last year. The final estimate showed a crop of 2,467,480,000 bu, as compared with 2,244,176,000 bu in 1903 and 2,523,648,000 bu in 1902. The area was 92,231,581 acres, against 88,092,993 acres in 1903.

The following table exhibits the estimated yield of Corn for 1904, as indicated by the final report of the Department of Agriculture, in what are known as the Corn surplus States, compared with the yield in the past two years:

	1904, bu.	1903, bu.	1902, bu.
Ohio...........	100,000,000	88,000,000	122,000,000
Indiana.......	143,000,000	148,000,000	171,000,000
Illinois........	344,000,000	264,000,000	372,000,000
Missouri......	162,000,000	203,000,000	264,000,000
Kansas.......	135,000,000	172,000,000	223,000,000
Iowa..........	303,000,000	220,000,000	298,000,000
Nebraska.....	261,000,000	172,000,000	253,000,000
Total.	1,438,000,000	1,271,000,000	1,703,000,000

Prices were unsettled from the opening of the year and advanced steadily. From 42¾c in January, the price of cash sold to 56⅞c in April, and the May, the then active delivery, from 46⅞c to 57½c. Speculators early in the year anticipated the crop would be an irregular and uneven one, and the quality such as would require careful handling to bring it up to the standard grade. There was some difference as to the effect on the price of the very low quality, but it was generally taken for granted a poor quality crop was against the price. The quality at this time of the year, January and February, was so poor, however—80@85 per cent running low grades—that handlers assumed country buyers would find the purchase in the interior unprofitable and the movement would consequently be small. "Bull" interests in Chicago and Wall Street loaded up with large quantities of May, as it was figured there would be but little that would be up to the speculative standard. There were several setbacks in the upward tendency of values, among which factors were the large fire at Baltimore, there being some apprehension that the terrific losses meant money troubles for some and more or less trouble for all. Another "bear" influence about this time was the sharp break in cash values. The advent of bright, colder weather also had a depressing influence. The Government report March 1 showed 37.4 per cent, or 835,000,000 bu on hand on the farms, against 1,050,000,000 bu the year previous, the amount in the surplus States being only 459,000,000 bu, as against 760,000,000 bu in 1903. The statement, while "bullish," had but a temporary strengthening influence. The break in Wheat of 12½c and decline in Provisions also depressed the price, as also did the better grading, but 45@50 per cent being low grades. The May price broke to 46½c. The abandoning of the May Corn deal by the principal "long" was not only the big feature, but it was the factor as well. Millions of bushels of "long" May Corn were thrown over, and as the "shorts" and others kept away from the offerings, sharply lower prices resulted. The fact that the drying houses were being run night and day, and that the contract stocks were increasing sharply, was too much for the "bull" party to withstand and the May Corn was put on the market. The same people who sold the May were also on the selling side of the July, in the way of a "hedge" against the cash Corn that was delivered them on May contracts. The upward tendency of Wheat and the fact of the Corn belt having too much rain for the new crop checked the decline and the cash situation was less discouraging to the "bull" element and but for the tie-up on the lakes the price would have started upward earlier than it did. Crop advices were not of the best, country offerings fell off and the drouth in Eastern Europe became a factor. Cash values advanced from 46½c in April to 55¾c in August. The condition of the new crop on July 1 was reported 86.4 per cent, against a ten-year average of 83.4 per cent, and the condition on Aug. 1 was said to be 87.3. While the statement was "bearish," the effect of the Government report was practically offset by the action of Austria-Hungary in prohibiting exports of all feeding stuffs. As this country raised 128,000,000 bu Corn and 115,000,000 bu Barley last year and exported 42,000,000 bu Corn, the situation abroad was construed as quite "bullish." The fear of frost in September caused "shorts" a good deal of uneasiness, and the price of May sold from 43¾c in July to 53½c in September. The sharp bulge in Wheat was one of the chief "bear" helps. Around 53@53½c for May, "bear" holders became more aggressive and the weather turned out ideal during the closing months of the year. The quality of the new crop proved to be excellent and an early movement set in, the receipts being only equal to the carrying capacity of the railroads. Cash values gradually sagged to 45¼c in December, while May touched 44¾c. Realizing became general and the close of the year found the general undertone to the market easy. At the decline established, however, an excellent foreign and Eastern demand developed and was the chief barrier to a more severe depreciation in values.

Large Oats Trade—Prices Averaged Well.

No sensational features developed in the Oat market in 1904. Trading was large, but the quantity handled in Chicago fell considerably short of previous years, despite the fact that the crop was the second largest on record. In the early months supplies were light, as the crop of 1903 was a moderate one and consumption was sufficiently large to absorb it. No disposition, however, was shown on the part of the strong interests to manipulate the market, and the trade moved with less than the usual fear of erratic changes. The only squeeze was at the last of July, when prices advanced 4c in one day. There were times when fluctuations were sharp with trading heavy, but taking the year throughout it was a good one for speculators and handlers in general. From a crop standpoint the harvest of 1904 was the second largest on record and in quality has seldom, if ever, been exceeded. The final yield, as reported by the Department of Agriculture, was 894,595,552 bu, compared with 784,000,000 bu in 1903. The yield per acre was above the average—32.1 bu—against 28.4 bu in 1903. The crop was harvested without excessive rains throughout the greater part of the belt and came to market in better shape than usual, although a little late in starting. The movement from first hands in the early fall was above the average and stocks piled up everywhere the visible supply exceeding all previous records and increased to above 25,000,000 bu, while the available supply at the top notch was a trifle over 31,000,000 bu. These excessive supplies were fairly maintained until the close. Country elevators through Illinois and Iowa were well filled, and were not changed to any extent in the last few months in November and December, leaving supplies, present and prospective, all that can possibly be required for domestic consumption and any export demand that may come from shortage of feedstuffs in Europe. In regard to the export demand, it was disappointing. The drouth in most of the surplus European countries was severe and led the trade to believe that America would be called upon to supply more than the usual quantities. Up to the last of the year, 1904, export business had not materialized to any extent, despite the exceptionable quality, which it was expected would commend them to foreign consumers. The Russian crop as given out late in December showed a yield of 1,189,000,000 bu, compared with 843,000,000 bu in 1903. This in a measure explains the indifference of foreigners to American Oats, as they were able to secure them from Russia. Exports from the United States for the eleven months aggregated 1,024,245 bu, compared with 1,401,826 bu for the twelve months of 1903. A feature of the speculative trading in the last half of the year was the confidence displayed in values, due largely to the excellent quality, and a large part of the trading consisted in buying Oats and selling Corn. These spreads were at 14c to 16c difference, but resulted in comparatively little profit. Unusually large lines were spread, some running into the millions. The Oats were bought from 37c down to 30⅛ for May delivery, and the close was at almost the low figures of the year. The range on May for the twelve months was 30⅛c to 40⅛c and on cash lots 28¾c to 46c, compared with 31¼c to 40⅜c for May and 31¼c to 45c for cash lots for the same time the previous year. Country holders hedged their purchases here by selling May, and more than the visible supply was sold against in the Chicago market in the last few months. Some of the interior elevator operators, however, had so much confidence in the future of prices that they loaded their houses full of Oats that cost them 33c to 35c and held them without hedges. They now have 2c to 3c loss on the purchase price. There was no uneasiness shown about making hedges, which is more than could be said of the crops of the two previous years. Toward the last of December elevator interests who had sold December against cash holdings began taking off their hedges and replacing them for May at 2c to 2½c difference. Contract stocks had accumulated until there was nearly 4,000,000 bu held in public houses. The greater part of the holdings were delivered on December sales about the middle of the month by one interest. Contrary to expectations the enormous deliveries were well taken and their effect on the market was less than anticipated. While a "bearish" feeling pervaded the trade after harvest owing to the large yield, prices yieldly slowly, as Wheat and Corn averaged high and there was enough demand from speculators who believed that Oats would ultimately work higher, to sustain values around 34c to 35c for May part of the time, but they worked down to 30⅛c from which a rally of nearly 3c occurred, but it was mostly lost later. As to the consumption of Oats, it is one of the remarkable features, that no matter how large or how small the crop is from year to year, the end of the season invariably finds stocks low, as consumption is so flexible that it expands or contracts with the crop and prices. An enlarged crop and low prices always increases consumption and excessive waste, while a short crop and high prices brings with it a husbanding of supplies and curtailment of consumption, so that there has always been enough to go around year in and year out. Iowa which for three years has not had a surplus of Oats owing to various unfavorable conditions has a supply this year for shipmens outside of the State, which is more than has occurred the past two years. Close observers of conditions say that about 30 per cent of the crop has left farmers' hands and 25 per cent is in country elevators, the balance having been consumed or left the State. The crop of the State was 122,323,000 bu, compared with 81,123,944 bu in 1903. Illinois had a yield of 117,341,090 bu, against 98,525,762 bu in 1903, and 40 to 50 per cent is said to remain in farmers' hands. Minnesota and South Dakota cut an important figure in the Oat trade and had more than an average crop, the greater part of which has been marketed early.

A Review of Rye for 1904.

The market for Rye like in other years, acted much in sympathy with the other Grain markets, but has not been altogether a "trailer," but showed at times an independent movement, and "stunts" of its own, notably in February, when prices were advanced 18½c for May delivery and cash followed, again in July, when September delivery was forced up 11c and cash did likewise, and again in August when September was advanced 1 c. The low prices for the year were in January when cash No 2 was quoted 51@52½c, and rallied to 57c. In February prices were forced to 75@77c. This advance while partly due to the advance in other Grains, was partly influenced by the Russia-Japan war the small stock in store here, and the very small receipts of contract grade, in fact nearly all the Rye coming was poor, and not enough good received to mix this poor with, so that the poor Rye was exceedingly dull. Holders of the contract Rye and "longs" had the advantage, and "shorts," some of which it was claimed were the elevator people were forced to settle. During March and April prices declined as the "short" interest was apparently eliminated, and there was more desire to sell. Other Grains declined and that helped the weakness, but rallied some again on covering by May "shorts." During June prices fell back to 63½c. July the market advanced some on the retarded harvest, due to the rainy weather. The movement was held back and "shorts" wanted to cover. The stock in store here at that time it was rumored was held by one or two parties, and with some manipulation prices advanced very sharply. The speculative trading at that time was in September delivery, and prices for that future advanced 21c before the closing of that month, or May from 54c early in July to 75c the last of September. During the balance of the year, with the exception of a little spurt in covering of December "shorts" early in November, there was nothing of consequence to the market—in fact was almost entirely neglected, with the exception of a few cars of fresh receipts traded in and taken by the usual cash buyers. The crop of the United States was reported to be about 27,000,000 bu, against 29,400,000 bu. The quality of the new crop marketed was good, and graded mostly contract. There has been but little shipping and much less export business. The visible at the opening of the year was 1,228,000 bu, and this was reduced in July to 818,000 bu, after which there was an increase in December to over 2,000,000 bu. Local stock in store in February was down to 228,000 bu, and increased by October to 693,000 bu, and down in December to 391,000 bu. The exports of Rye for the eleven months in 1904 aggregated only 1,028,000 bu, against 1,415,000 bu for the same period in 1903.

Barley was Plenty and Prices Lower.

There have been two successive large crops. Last year's crop was the largest since 1900, but the 1904 crop exceeded that by about 6,000,000 bu. On account of a large crop last year and rapid accumulations, the past year opened with a liberal visible supply, but the new year 1905, will open with a still greater quantity in sight. At the opening of the year this stock was 5,380,000 bu; at

as close it was 6,819,000 bu. Probably more Barley than is necessary to supply the requirements of the months there was a decrease of 6,000,000 lbs. Of Flax Seed, neither arrivals or output were much changed, and the market for that article maintained its steadiness. The past was another year of low prices for Timothy Seed, and the figures remained at the high level reached a year ago, and the late sowing Grass Seeds from a higher range the first half of the year, declined so as to close lower than they did a year ago. Crops of Grass Seed in the territory tributary to this market were ample to fill the demand, and consumers were able to hold up the up in value, while the rest either remaining low or selling lower. Of Timothy Seed, the prices have had from all indications at the close, a future basis of accumulated liberal stocks of Timothy and a normal crop of Clover Seed, and the prospects in the market centers are not calculated to be large. Of the other Grass Seeds not so much is known, but the low yields of the previous year, as compared with the year, would not leave the impression of large supplies. Of Hay, the receipts have been liberal, and with its former life in this market, and the facts leave it only to be stated that business here in this important commodity has been of a healthy tone, and the range of prices covered during the year was not at great variance with that of a year ago. The details of the movement and prices of Seed in this market are narrated in the paragraphs which follow:

TIMOTHY.—This market maintained its prestige. It retained its attractiveness for those who had to buy or those who had to sell, and the volume of business were if anything more liberal. Low prices again prevailed. There was no recovery from the liberal decline of a year ago. Prices were even not so high as last year, they did not come within 50 cts. of the high quotations of a year ago, and as then Contract prime ranged during the year at $2 60@3 10, against $2 80@3 25 in 1903. Fair to good Timothy Seed ranged during the first half of this year, against $2 20@3 05 last year. September delivery this year held a range of $2 70@3 20, against $2 80@3 40 in 1903, when the season opened on that day and they seemed so the past year. Late in the year the delivery of 1904 sold at $3 00@3 10 for March delivery, but there was just as free selling. The sales were not of the chance order either, the trend was one of a steady movement under the contract grade. Business in the regular way was good, both in the spring and in the fall trade. Conditions early in the season were favorable for sowing of the crop. Stocks of old Seed were well exhausted at the end of the spring trade. What was carried over was mainly in the hands of dealers; the country had closed out. Quality of 1903 Seed was rather poor, and much of the crop quite speedy. The 1903 Seed left at the close was afterward rather forced on sale owing to a good outlook for the crop, and fluctuations were rather irregular. The first receipts of new Seed were exceptionally heavy, the Seed was more desirable than the old, and almost all of the receipts were crop. Rains set in and changed matters. Threshing was interfered with, and Seed was damaged. In the shock got wet and became discolored. This kind of Seed came freely on the market the last half of August, and the bulk of the crop was thus. At this time on the quality again improved in color. Of this damage from rain was in the middle section and in the Southwest. The crop was large, however, the 1901 crop was better than that for many years, for it was almost free from objectionable weed Seeds, such as Plantain and Pire Weed Seeds. More Timothy than ever before came to the bulk. Clover Seed was not wanted, and very much cars on sale. When the country has uniform crops there is no preparation to ship in bulk, but when quality is uneven then it is more desirable to have it in bags. At the close of the year everything points to large stocks in store, a considerable part sold for March delivery. The late fall and winter order demand did not take much Seed and there were free accumulations. More also was said to remain in the country than for a long time. The season was too late for early and did not find a chance to get out. Northwest Seed had a good deal of Alsike Clover in it. This would appear to be a benefit, with Clover high, still it did not sell so good as when pure. The Central West had a good crop of Seed, but the last year's crop this does not happen only about ones in seven years. There were good crops in Indiana, Ohio and Illinois, and the latter especially, and the quality unusual for New York. Damage if any from dry fall weather is unknown. None is supposed to have been done to old meadows but new seeding is by nature hard so well. Last accounts report a good surplus to be sold in the country. Exports for ten months were given as 10,647,767 lbs. against 12,887,519 lbs the previous year, and 7,027,36: lbs in 1901.

The following table gives the range of prices each month the past year for the grades of cash Seed and for futures shown:

Months.	Prime Contract	March, 1904.	September, 1904.
Jan	$2 00 @ $2 85	$2 90	$3 05

*1903.

A prop somewhere in Flax.

There was a something about the Flax market which seemed to be lacking in the way of a good general rule. There were conditions which did not harmonize. The year presented unprecedented heavy stocks available, as the visible was largely the and the equivalent of Seed in the stocks of Oil; that was one feature. Then there was the almost speculation of export business. This was all true, there was a steadiness of prices. For the cash basis in this market the value of No. 1 Northwestern has no better. Of the Flax crops scarcely any Western Flax or No 1 has come this way. The area in Minnesota and Dakota has been more steadily smaller the last few years, and the crops were treated for home consumption. It was another year of large stocks and small business in Chicago. The number of cars received here was about 600 cars short of the receipts of 1903, and the shipments 1,000,000 bu. less. The rates operated against this market. The crop was housed in Northwestern points, and during the season of navigation there was needed the local mills or for carrying against future delivery sales here or elsewhere. Prices ruled low in the year. This Flax usually went into private storage without coming on sale here, or appearing in the receipts of regular arrivals. The interest was little export business was because our prices were above an export basis. Prices abroad ruled unusually low for Seed. Offers came to liberal from Russia and South America. Some Flax even was imported, one cargo from Russia, 60,000 bu, another 80,000 bu from Calcutta, and this, too, with heavy stocks here; a strange circumstance, suggesting manipulation. The situation was needed to account it n was relieved somewhat by free exports of Oil Cake. This product brought good prices abroad owing to a short crop in Europe. The Government figures for 10 months show exports of Flax Seed of only 26,000 bu, against 1,607,000 bu in 1903 and 3,350,000 bu in 1902. Of Flax Oil 10 months the same period were 5,93,36,000 lbs the past year, 563,-121,000 lbs in 1903, and 1,000,000 lbs in the two years ago. Visible supply in the Northwest, at Chicago Duluth and Minneapolis, was 6,959,679 bu at the end of the year, against 7,139,000 bu a year ago 8,816,833 bu; the smallest quantity was 4,318,891 bu in October and on the first of December it was up 6,-376,759 bu. No other Grain Seeds stored are worth tuvisible, or what might be figured as in Oil. The average in 1904 was not so large as the year before, weather conditions, however, were so fine that the yield was phenominal, and made a larger crop. North Dakota was credited with 20,000,000 bu the acre, against 7 bu and a fraction a year ago Minnesota had about it bu to the acre. The Government estimate of the crop was 95,000,000 bu; consumption in this country is placed at 29,-000,000 bu. The differences added to the stock, the visible part of it, indicated a large crop in sight. The Manitoba crop was cut short by frost and from the latest advices the bulk was housed in within our border. In South American where cutting is in progress the weather for harvesting has been very favorable. The Argentine crop, it was somewhat reduced, it was planted to Wheat. From advices at the hand the yield is turning out well and full quantities of Seed are expected. We have not yet come to hand. Quality of the Northwestern crop this year was unusually fine. Seed secured early was about perfect, but that marketed later showed some weather damaged, but for Oil producing purposes it was not objectionable grade. There was nothing striking in the price changes compared with other years. The range for No 1 Northwestern was at 91 @92½ cts in January to $1 24 the year before, and two years ago there was a range of 81 @82½ 80. During May and June there was only about 6c change. The range for September witnessed the highest prices $1 24 @1 28 being reached on the 1st of the month. Subsequent acreage stimulated prices after which there was a reaction and then finally some recovery. At the close of the year prices were 5c lower. Prices were higher than at the opening and considerably better than the corresponding period last year. No. 1 Northwestern on track at Duluth closed at $1 19, then gradually worked down $1 05½ in April, and steadily at $1 09@1 09½ for several months then advanced to $1 28 in September, sold off again to $1 14 and in December improved to $1 26, and closed at $1 23, a month's range. Futures in Duluth are given tables showing the range of prices monthly. Speculative business all through the year was on a very small scale.

CLOVER—Prices held well to the advanced figures of a year ago. The average was in fact a little better, 10½c higher than the year before, and in 1903. Up to this year prices had gone up steadily for four years. They had got to about the top, at the season when they were the best. The prices the year prices are about $1 00 per 100 higher than they were at the close last year, and the new year therefore will start at better prices. The volume of business done was at no time on a large scale. High prices caused all to act with caution. Movement showed receipts in this market to have been about 1,000,000 lbs larger than last year, yet some had hardly been available in the city, as almost all crops have turned out. The shipments showed about 5,000,000 lbs falling off. Early in the year trade averaged satisfactory; it was good from January to May. Receipts of old Seed had largely depleted by the close of the season. Spring weather was not favorable, the meadows started late, and a cold, freezing and thawing condition in some sections and several thousand acres in Michigan and Ohio were badly damaged. For several years considerable damage of one kind or another has been sustained. The new season progressed slowly from the start, having good weather. Later, however, after the Hay crop, while the Seed crop was growing, there was too much rain in June for proper growth. Harvesting was early Seed secured, Mammoth, was shie. Condition seemed to be very favorable for saving the crop in medium. Late fall weather was dry and favorable for threshing To the disappointment of all concerned the crop proved to be short and of poor out good; it was often, poor, large part of it brown and damaged. It proved that much damage could come from a season that to all appearances was a good deal seemed to have been sun-burned. Northern Michigan reported a small crop, and poor crops; there was too much rain in the sections. On the old crop prices ruled steady. There did not appear to be much change in the situation, reports from outside prices of the year before. The first outlook for the new crop being good that was an easy tone to the market. Changes were slight and upward. This kept the trade, both on local and export account, in check. Exports were smaller than for three or four months for the year, 5,591,000 bu, or a little more than half as large as a year before. Prices were high, the crop was not generally in much stock. There was no speculative confidence, no one would stock up. Prices at the same time last year, under the influence of which the year saw them at around outside quotations. Indications led to the final conclusion that this year's crop must be much smaller than the large one of more than last year's There was very little open market business in the cash article, nearly all by sample. Although prices were high the crop at no time seemed to warrant the country in venturing sales, and the high prices caused a small curtailment in demand cautious, and between the two there was not much speculative interest shown. F lowing table shows the range of prices monthly during the past years:

OTHER SEEDS.—Early in the season prices for Hungarian were 60c per 56 lbs at Duluth, and 65c at the close of the previous year; in September and October they were 65c to 85c lower than at the opening of the year. Stocks were small at the opening of the season and on this account there was a very firm feeling. The crop this year was called an average one, the area and conditions being about the same as last year. Demand during the year was moderate, due to good state of the Grain crops. Receipts were light in May and in June, July, April and May sold at the high points of the year. Timothy Seed was in good request. Offers were free both condition and area were about the same as a year ago. In October and November offerings were more liberal and the prices lower than they were reached. Demand generally was very fair, especially for German Millet, which is sometimes called as the year of Millet. Receipts were light The best trade of the year was experienced in April and May. Mustard covered a range of $1 15 to $1 26 for the year. It did not vary much from month. The open market trading was in small lots. Under the contract grade there was no change. The price, compared with prices for Grains in which it was found, was not such as to induce speculation. Under the head of Miscellaneous (but it is somewhat indefinite what all may be included) the receipts and shipments both exceeded those of last year, shipments were about 1,000,000. This is made manifest in the table elsewhere given. The following table shows the range of prices in Chicago for the Seeds named monthly during 1904, and the range for the entire year. The first figure in each column figures for fair to good; the second for choice to choice Seed; the second line is for fair to good:

BUCKWHEAT During the first five months of the year prices ranged at $1 15 to $1 40. While this is a basis of more than for the same time in 1903, and the seeding demand ran prices to $1 55 to $1 75, compared with $1 40 to $1 60. The volume of business the year was larger than last year and the quality much better. The December estimate made the crop 20,000,000 bu, against 16,000,000 bu. Quality at most times was fair and offerings always ample. Export business was reported as much smaller than for the year before. The crop of 1903 yield and mild fall weather restricting the demand. Trade developed an easy tone, which set in December went to the lowest point in the year, to $1 10 for good milling and demand at that was finally same.

Trade in Hay.

The volume of business transacted in the Hay market during the past year has been on a large increase as compared with the previous year. Trade for the first six months of the year, or during the season of navigation, was in a satisfactory condition, due principally to the poor quality of the offerings. For the last six months or the new crop season, dealers report a more satisfactory business. The crop for the year 1904 was about the same as that produced in 1903, but the bulk of the quality was much better as the weather was more favorable, except for Prairie Hay in Kansas. Increased acreage in Timothy and Clover Hay was caused serious damage to the crop, and the prices obtained for it averaged low. The production of Prairie Hay in Iowa, Wisconsin and Minnesota is steadily decreasing and the crop of Timothy Hay is growing larger, as farmers are realizing that buyers prefer Timothy Hay and give it the preference over Prairie Hay even at a liberal premium. The arrivals of new Hay were almost entirely disposed of to the local trade, as there was no shipping demand to speak of, due to the fact that the crop throughout the country was light, and the demand was fully up to the usual shortage. The shipments of 11.65% tons reported from Chicago was mostly Hay switched to the Union Stock Yards for orchestra purposes. The crop in Europe was light, but very little Hay was exported from the West, as the demand was supplied from the Eastern States or from Canada. Prices for the new crop, in view of the large yield, were good and averaged about $10 00@11 00 per ton for Timothy Hay and $8 00@10 00 per ton for Prairie Hay. The area for 1904 is reported by the Department of Agriculture at 59,000,000 acres and the yield at 69,000,000 tons, valued at $639,000,000, against 57,000,000 acres, 65,000,000 tons and a yield of $1 $05,000 tons, valued at $558,0 0,000. The average yield per acre is reported at 1.42 tons, against 1.42 tons for the previous year. The farm price is estimated at $8.72 per ton, against $9 07 per ton for the previous year. Receipts of Hay at Chicago for the year reported at 1,165,000 tons, against tons for the year 1903. The value of the Hay sold at $6,500,000 against $7,800,000 for the year before. Receipts of Hay at Minneapolis for the year were 1,-000 against 82,800,000 for the previous year. Sales were made almost entirely by sample and ranged as follows: No 1 Timothy sold at $9 00@10 00 per 12 lbs for poor to choice Prairie, including Illinois, Indiana, Iowa, Wisconsin, Kansas, Nebraska, Dakota, Minnesota, Montana, Indian Territory and Texas. Threshed Timothy sold at $5.50@8.50. Clover Mixed sold at $8 00@9 00. Clover Hay sold at $6.50@9 00. Mixed Hay sold at $5.50@8.25. Tangled Rye Straw sold at from $3 00 to $18 50 per ton, according to grade and quality, and the extreme scarcity. Wheat Straw sold at $3.50@4 25. Oat Straw sold at $3 00@3 50, and Barley Straw sold at $3 25.

Pork Packing.

The receipts of Hogs at Chicago—Live and Dressed—for the year 1904 show a decrease of 1,-decrease approximately of about 60,000, and the shipments to various Eastern markets were materially reduced. The total slaughtering showed a decrease in the aggregate slaughtering of Hogs for the year was reduced nearly eight per cent The quality of the Hogs was fully up to the usual, but the proportion of light averages and Pigs was somewhat larger. The number of Hogs reported in the country tributary to the Chicago market, and the quality of the Hogs received was quite satisfactory, conveniently for the slaughter and shipping branches of the trade. The market was quite active throughout the year, attended with rather pronounced fluctuations in prices between sorts and shippers, which resulted in frequent though not very wide fluctuations in prices. The aggregate slaughtering for the first twelve months was approximately 5,140,000 Hogs, compared with 5,600,000 for 1903, and 5,-1,550 000 in 1901 The decrease was about 460,000 Hogs. Of the number slaughtered during the past year, about 118,000 were sold on the hoof, and distributed through refrigerator cars and cold storage plants. All branches of the trade are now engaged in the handling of Hogs, either fresh or cured—are distributed largely through the same channels. It is impossible to state what proportion is distributed as "fresh" and "cured," but it is evident that the distribution in "mixed car lots" is a prevailing one, which indicates a healthy condition, especially in the manufacturing districts, are of conservative quantities and more frequent. Appended tables show the monthly range in the production of the speculative articles, except where compulsory, except during the early part of the year. Weights and prices were not very uniform. The slaughtering was prosecuted quite evenly throughout the year, excepting during the prevalence of the strike, which interfered somewhat to some extent for about five or six weeks. About the season number of Hogs were received for slaughtering. Prices of Hogs fluctuated within a narrower range than last year—$1 20@$6 $7½ the season in January and $4 75@$6 25 in December, and averaged about $1 15 lower than during the year previous. The average weight was somewhat lighter, the product being largely Light. Fewer large, rough Hogs were rushed to market during the season. The aggregate manufacture of all kinds of Products—exclusive of a number of carcasses shipped in car lots—was about 1,000,000,000 lbs, against 1,200,000,000 lbs in 1903. Pork, Sides and Loins, 455,000,000 lbs; Lard, 190,000,-000 lbs; Hams, 153,000,000 lbs, and Shoulders and Picnic Hams, 100,000,000 lbs. Of the Hogs slaughtered, including those shipped Dressed, was about 865,000,000, or $35,000,000 less than during 1903. The number of employes in the packing houses is approximately about 25,000, including those employed in the cannery and the fear of strikes have made manufacturers a little more conservative in the employment of help. Much has been written about the strikes in the early and the latter part of the year, but neglected during the summer months. Other cuts of Pork were quite active and fluctuated widely throughout the year. Prime Mess was made moderately in a quiet way on contracts with meat packers. Plain Mess was in fair demand. Short Cut and Butt Pork were made in fair quantities and sold quite readily throughout the year. Production of Lard was quite good throughout the year—at times were enlarged as much as possible, but, as a rule, were conservative. A large proportion was placed in tanks, and the demand was rather good at times. Leaf Lard was sold in fair quantities, and the bulk of the manufacture of Butterine curtailed the demand to some extent. Domestic consumption was rather good, with favorable freedom, and the bulk cured by packers. Skinned Hams were cut quite freely, and only a moderate quantity of Cottage Hams made. The weight cuts of Hams were made in very small quantities—just sufficient to provide for limited orders. Picnic Hams were made in fair quantities for both foreign and domestic, and packers sold a fair proportion to the local trade. Sausage makers used the bulk of the block. Picnic Hams made in fair to good qualities, and only a small proportion was reserved for the local trade. Boneless Hams were made in limited quantities, and Extra Long Clear Sides were neglected. Short Clear Sides were made in quantities to meet the ordinary requirements. Extra Short Clear Sides attracted considerable attention, and the production was quite liberal. Dry Salt Sides were made in fairly good quantities, especially during the first half of the year. Short Ribs were made quite freely with considerable freedom—gradually growing in favor. Rough Sides were cut quite liberally, with a fair trade reported. Packers showed preference, as they are more suitable for the Southern trade. Backs were cut in fair quantities. Bellies were made quite freely, and the bulk of the product was suitable to the wants of the trade. Plates and Butts were cut in fair quantities. Foreign fancy and special cuts of Meats were made in limited quantities by packers having agencies abroad. Canada was a liberal purchaser of Pickled Hams and refrigerator car trade.

Slaughtering of Cattle and Sheep.

In the aggregate, there was quite a good business in slaughtering of Cattle and Sheep in Chicago during 1904 The supply of both Cattle and Sheep were somewhat smaller, particularly of the former. The quality was good, and prices considerably larger than during the previous year—nearly a year. Prices were subject to wide fluctuations. The total slaughtering may be reduced in round numbers at 1,925,000 Cattle, 3,150 000 Sheep and 4,000,000 Calves. Dealers report that the supply were fairly well supported throughout the year, especially for the better qualities, and the value of Cattle averaged about $4 50@4 60, against about $4 15@4 00. Farmers appeared to market their Cattle with more regularity, and there was a steady demand, the fluctuations were confined within smaller ranges. The quality of the receipts was fairly good. The average was slightly stabilized little change. Local consumption was not so liberal, owing to the high prices prevailing, and the shipping demand was fairly active. Sales of Dressed Beef were considerably enlarged, while shipments exhibit a fair decrease. Cattle were in rather good supply, and commanded good prices. Orders from our own Government were fair, and from foreign governments quite active, especially Russia and Japan—and mainly for barreled and canned Beef. Exporters purchased only moderate quantities of Cattle on the hoof at request and sold at satisfactory figures. Extra Mess Beef was in fairly good request, and prices ruled slightly higher. Plate Beef and Extra Plate Beef were in rather good request, and commanded fairly good prices. Tallow was traded in rather freely throughout the year, and prices inclined in favor of sellers. At no time were stocks very large Oleo-Stearine was quite active at irregular prices—at one time selling at a material advance —but during the latter months of the year were dull and weak. Greases of all kinds were in good demand with fair offerings, and prices were quite satisfactory to sellers.

Considerably interested in the market at times. Operators were watching the Shelf Goods situation that supplies might be controlled by large operators or capitalists, and trading was somewhat unsettled. The stocks of the speculative articles were rather liberal, and were considerably enlarged during the first half of the year, but during the last half were materially reduced, though at the close of the year show larger supplies than one year previous, excepting of Dry Salted Meats. The production of the speculative articles during the last two months of the year was on a moderate scale. Trade was rather quiet during the market competed, though during the labor troubles there was a more conservatism manifested. The packers traded quite freely with each other, while the "independent" concerns and outside manufacturers were quiet. And quite a large business was done, as they found Chicago the most suitable market for the disposal of their Products. During the first half of the year the sales of speculative meats was rather active and feeling strong. Prices were quite irregular, but sharply on all the leading articles. This tended to an early check to manufacture and increased selling, and during the next three months prices declined materially. As the production, buyers came to the front again, and as the stocks were fairly well centered in strong hands, prices rallied quite sharply and continued strong for Lard and Short Rib Sides, but near the close of the year, settled back again—the closing figures being somewhat at the same range as one year ago Altogether, the speculative market in Cured Products was quite satisfactory to those who gave the market close attention, though the fluctuations in prices were somewhat wide in range, and symptoms of considerable manipulation in the movement and prices of Hogs, and the changes in the Grain market. In the shipping branch of the trade there was quite a good business conducted. The demand from abroad on the open market was on a moderate scale, but the shipments for the quarter are gradually growing in the custom of forwarding goods as they desire from agencies who maintain goods at the principal ports, and thus meet the general demand. The high prices maintained also tended to more caution in trading than usual. The demand from the domestic trade was fairly good throughout the year. Apparently there was less business in contracting ahead, packers as a rule, not disposed to operate very far in this respect, unless they secured their own figures. Interior packers were not as liberal in their liberal receipts of Lard and Meats. Brokers provided for rather liberal orders at times, mainly to provide for the wants of manufacturing districts, and the Southern markets. The practice of reporting trades on "private terms" is not working to the benefit of any branch of the trade, and there is some complaint by outside purchasers of the secrecy with regard to trades. Supplies of all kinds were ample during the greater portion of the year—a little complaint toward the close of January of a scarcity of Hogs of weights and age. Orders from abroad were mainly for Prime Mess Pork, Lard, Neutral, light-weight Hams, Rough Sides, Short Clear Sides, Backs and Bellies, with small quantities of special and fancy cuts. Trade was fairly liberal with the United Kingdom, moderate with Germany and rather light with Canada. Only a fair trade reported with the Latin countries. The trade in Pork accepted fair quantities of all the leading articles. Mess Pork met with considerable speculative attention and the volume of trading was large. Prices fluctuated considerably. Shipping demand was fair, with a good supply offered. Prices during the year ranged from $11 00@12 50 in January to $11 75@12 75 in September and the highest in February. Supply of old quite liberal at the close of the year. Other cuts of Pork were in rather good request, and the aggregate were large. Prime Mess Pork was contracted for in liberal quantities for shipment to the United Kingdom. Fat Back, Family Back, Clear, Short Cut and Butt Pork were in good demand and sold on a liberal scale. Speculative trade was quite actively traded in by speculators, and sales were liberal at irregular prices. Stocks steadily enlarged during the first months of the year and were quite liberal at the close. Other cuts of Pork were in rather good request, both on local and shipping account, especially for desirable weights. Receipts were liberal throughout the year, and prices inclined in favor of sellers. At no time were stocks very large Oleo-Stearine was quite active at irregular prices—at one time selling at a material advance —but during the latter months of the year were dull and weak. Greases of all kinds were in good demand with fair offerings, and prices were quite satisfactory to sellers.
